W. V CONSTABLE, Col, R.E,
Manager.

II E 2

HONOURABLE THE RESIDENT IN MYSORE.

NOTIFICATION.

Bangalore, the 11th February 1904.

No 675.—In exercise of the powers conferred by sections 8 (2), 8 (3), 9 (2), 175 (1), clauses (*b*) to (*h*) and 175 (2) of the Bangalore Municipal Law, 1897, and in supersession of the existing rules, the Resident in Mysore is pleased to make the following rules —

1 Under sections 8 (1) and 19 (2) the Municipal Commission is to consist of a President, a Medical Officer, and twenty-four other Commissioners Of these twenty-four Commissioners, six will be appointed by the Resident, either by name or by office, one shall be elected by the Bangalore Trades Association in accordance with rule 21, and seventeen shall be elected as hereinafter provided

Every elected Commissioner shall hold office for a term of two years, and every Commissioner appointed by the Resident by name, shall hold office for a term of three years

Provided that any member elected or appointed to fill a casual vacancy shall hold his seat for the time for, and subject to the conditions upon, which it was tenable by the person in whose place he has been so elected or appointed, and no longer

2 For the purposes of these rules, the Civil and Military Station of Bangalore shall be divided into the following wards or divisions, namely:—

No	Ward or Division
1	Alsur
2.	Southern Division
3	East General Bazaar.
4.	West General Bazaar
5	Cleveland Town.
6	High Ground

3 All the inhabitants of the Station shall, for the purposes of these rules, be divided into the following three classes —

1 Europeans and Eurasians,
2 Mahomedans,
3 Hindus and others,

and each such class shall elect separately its own representatives

4 The number of Commissioners to be elected by each class and for each division shall be as follows —

Division	Classes.			Total No of Commissioners.
	Europeans and Eurasians	Mahomedans	Hindus and others.	
1 Alsur	1	..	1	2
2. Southern Division	1	1	1	3
3 East General Bazar	1	1	2	4
4. West General Bazar	1	1	2	4
5 Cleveland Town	1	...	1	2
6 High Ground	1		1	2
TOTAL	6	3	8	17

5 In order to be qualified for election as a Commissioner, a person must.—

(*a*) be of the male sex,

(*b*) have completed his twenty-fifth year,

(*c*) have a sufficient knowledge of the English language to be able to speak to a motion or to follow debates in that language,

(*d*) be, at the time of the preparation of the lists required by rule 14, a resident within municipal limits, and

(*e*) be, at the said time, the occupier, as owner, mortgagee or tenant, of a house within such limits, which is valued for assessment purposes at not less than rupees thirty per mensem, or have paid, on his own behalf, for the year immediately preceding the said time, municipal taxes of one or more kinds noted in the margin, or Government land revenue, to the aggregate amount not less than twenty rupees.

(*a*) Tax on carriages, horses, or other animals
(*b*) Tax upon arts, professions trade or callings
(*c*) Tax on houses, building or lands according to the annual value thereof, whether for general purposes or for water supply

Provided that when an undivided Hindu family has paid double the taxes or land revenue herein mentioned, any one member thereof, having the other qualifications required, shall be eligible to be elected a Commissioner.

Provided also that no person shall be elected a Commissioner unless his name has been previously entered as a person qualified for election in the lists referred to in rule 19

6. A person shall be disqualified for election as a Commissioner if he—

(a) is an officer or servant of the Municipal Commission ; or

(b) is an uncertificated bankrupt or an undischarged insolvent ; or

(c) has been convicted of any such offence, or has been subjected by a Criminal Court to any such order as implies, in the opinion of the District Magistrate, a defect of character which unfits him to be a Commissioner, or

(d) has been declared by notification in any Government Gazette to be disqualified for employment in, or has been dismissed from, the public service, or

(e) is disqualified under section 11, sub section 2, of the Municipal Law, or

(f) is interested, otherwise than as a shareholder in a Joint-Stock Company, in any contract made with, or work done for, the Commission.

A share or interest in a newspaper, in which any advertisement relating to the affairs of the Municipal Commission may be inserted, is not a disqualification within the meaning of this clause

7. In order to be qualified to vote in the election of Commissioners a person must.—

(a) be of the male sex ;

(b) have completed his twenty-first year,

(c) be able to read and write his vernacular language ; and

(d) at the time of the preparation of the lists required by rule 14, fulfil one of the following conditions, namely —he must

(i) be the *bonâ fide* owner, in his own right, of a house, building or land, situate within the division for the Commissioner of which he desires to vote, and have paid for the preceding year, the municipal tax noted in the margin or Government land revenue, to the aggregate amount of five rupees, or

Tax on houses, buildings or land according to the annual value thereof whether for general purposes or for water-supply

(ii) be residing within the division for the Commissioner of which he desires to vote, and have paid for the preceding year, municipal taxes of one or more of the kinds noted in the margin to the aggregate amount of not less than five rupees, or

(a) Tax on carriages, horses or other animals
(b) Tax upon arts, professions, trades or callings.

(iii) have been for the period of twelve months immediately preceding the said time, the occupier, as owner, mortgagee or tenant, of a house situate within the division for the Commissioner of which he desires to vote, and valued for assessment purposes at not less than eight rupees per mensem, or

(iv) be a graduate of some University in the United Kingdom, or the British Colonies or India, and be resident within the limits of the division for the Commissioner of which he desires to vote, or

(v) be the Secretary of, or some other person duly authorised in that behalf by, any company which is registered under the Indian Companies Act, 1882, or under any Act of Parliament, which has its registered office or other place of business in the division for the Commissioner of which he desires to vote, and which has for the preceding year paid taxes under the Municipal Law, to the aggregate amount of not less than twenty-five rupees, or

(vi) be a person duly authorised in that behalf by a firm which has its place of business in the division for the Commissioner of which he desires to vote and which has, for the preceding year, paid taxes under the Municipal Law to the aggregate amount of not less than twenty-five rupees.

Provided that if any dispute arises as to class in which a company or a firm shall be placed for the purposes of voting, under rule 3, the decision of the President thereon shall be final

Provided also that no person shall vote unless his name has been previously entered as a person qualified to vote in the lists referred to in rule 19.

8. A general election of Commissioners shall take place every second year on any day or days in the month of November that may be fixed by the Resident

Every candidate for election shall cause to be delivered to the President, on or before the 24th October, a notice in writing showing his name and the division for which he proposes to stand, together with the names of two voters in such division, and in his own class, who respectively propose and second his candidature, and of eight other such voters who approve his nomination.

The President shall publish a list of such candidates in one or more of the local newspapers, and shall also post to each voter the name or names of the candidate or candidates for his division and class

If the number of candidates for any division in any class exceeds the number of Commissioners thereunto allotted, the election shall be determined by vote in such place and manner as shall from time to time be directed by the Resident.

9. Where an equality of votes is found to exist between any two or more candidates at any election under these rules, and the addition of a vote would entitle one of such candidates to be elected a Commissioner, the President may give such additional vote, and the candidate to whom such additional vote has been given shall thereupon be held to be elected a Commissioner.

10. No person shall be considered as elected unless he has secured the votes of at least one-sixth of the total number of persons entitled to vote for his election.

11. If no candidate presents himself for election in any class of any division, or if no candidate secures the minimum number of votes required, the Resident will appoint a Commissioner to fill the vacant place. The Commissioner so appointed shall, notwithstanding anything contained in rule 1, hold office for a period of two years only.

12. Whoever by any gift or reward, or by any promise or agreement or security for any gift or reward, induces any person to give or forbear to give his vote in any election, shall be deemed to be guilty of corruption, and whoever by threatening another with any injury to his person, reputation or property or to the person, reputation or property of any one in whom that person is interested, makes that person give or forbear to give his vote in any election, shall be deemed to be guilty of intimidation.

13. Whenever any allegation of corrupt practices or intimidation at an election, is made by a person qualified to vote or to be elected a Commissioner at such election, the same shall be enquired into by the President, who shall submit a report thereof, together with his proceedings in the case, to the Resident. If upon a perusal of such report and proceedings, the Resident finds that the person, against whom the allegation is made, has been guilty of corruption or intimidation, or has connived at or abetted the exercise of corruption or intimidation on his behalf by any other person, he may declare such election to be void.

Any person whose election has been rendered void under this rule, shall be deemed disqualified for election for a period of five years.

14. Lists of persons qualified to be elected and to vote under rules 5, 6, and 7 shall, not later than the 30th day of April preceding each general election, be prepared by the President, printed and published. There shall be one such list for each of the classes referred to in rule 3, and such list shall show separately the names of persons qualified to vote and to stand for election in each division.

15. The President shall publish such lists by affixing copies thereof in some conspicuous place in or near the Municipal Office and in each division. The President shall give notice of such publication in one or more of the local newspapers, and the said lists shall be open to public inspection, at all reasonable times of the day, for fifteen days after the date of publication of such notice Copies of such lists shall be supplied to the public at the Municipal Office at cost price.

16. (*a*) Any person whose name is not in the lists so published, and who claims to have it inserted therein may, within 15 days after such publication, give notice in writing of his claim to the President.

(*b*) Any person whose name is in the lists may object to any other person as not being entitled to have his name retained therein. Every person objecting shall, within fifteen days from the date of publication of the lists, give to the President notice in writing of the objection and of the nature thereof.

17. The President assisted by three or more Commissioners shall hear and determine the claims and objections which have been duly made as aforesaid, in open office, giving three clear days' notice of the holding of the enquiry by written notice served upon each claimant, person objecting, and person objected to. In the event of a difference of opinion, the matter shall be determined by the opinion of the majority, the President having a casting vote.

The President and the said Commissioners shall insert in the lists the name of every person who has duly claimed to have his name inserted therein, and whose claim is proved to their satisfaction, and they shall expunge from the lists the name of every person proved to be not qualified to be retained therein. They may also correct any clerical error or omission in the lists

The President and the said Commissioners may adjourn the hearing of any matter under this rule from time to time, but they shall dispose of all claims and objections by the fifteenth day of August

18 In the event of the President and the said Commissioners rejecting any claim or objection under the last preceding rule, the claimant or objector, and in the event of their accepting any objection, the person aggrieved, may, at any time within fifteen days after such rejection or acceptance, appeal to the officer holding the appointment of District Judge,

and such officer shall, within 30 days after receipt of such appeal, and after such enquiry as he deems necessary, make such order for correcting the lists or otherwise as shall seem to him fit, and his order shall be final and binding.

19. The lists thus prepared and amended shall remain in force for a period of two years, and printed copies of such lists shall be obtainable on payment of such reasonable fee as may from time to time be prescribed by the President in this behalf.

20. Notwithstanding anything contained in the foregoing rules, it shall be open to any person qualified under rules 5, 6 and 7, on the occurrence of a vacancy which is to be filled by a special election, to apply to the President, within a reasonable time before the date fixed for such election, to have his name inserted in the lists referred to in rule 19. The President may pass such order thereon as he thinks fit, and his order shall be final.

21. No person shall be elected a Commissioner by the Bangalore Trades Association unless he is at the time of the election a member of the said Association.

The election shall be made by the members for the time being of the said Association on such day as may be fixed by the Resident and in such manner as shall from time to time be determined at a meeting of the said Association convened in accordance with the rules at the time in force in this behalf.

The Secretary to the said Association shall make a return in duplicate to the First Assistant to the Resident in Mysore setting forth the name in full of the person so elected.

'By order'

R. M. KING,

First Assistant to the Resident

Notice is hereby given that all persons having claims against the late Theophilus Higginson, a Colonel in His Majesty's Indian Army, who died at Lonsdale, Farnham, Surrey, England, on 30th August 1903, Letters of Administration to whose Estate have been granted to Mr J. C. R Johnston, of the firm of Messrs Grindlay & Co, Calcutta, are required to send in the same on or before 11th March next to the said Messrs Grindlay & Co, Calcutta, after which date the said Administrator will proceed to administer the assets having regard only to the claims of which he shall then have received notice, and no claims sent in subsequently will be recognized, and all persons indebted to or holding any securities or property belonging to the said Estate are also hereby requested to pay without delay the amount owing by them, or deliver the said securities or property to the said Administrator whose receipt alone is valid for the same.

J C R JOHNSTON,
Administrator to Estate Colonel T. Higginson, deceased.

CALCUTTA,
The 28th January 1904.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, FEBRUARY 27, 1904

☞ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 26th October 1903.

From the 21st November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 14th November all Notifications and other matter intended for publication in the Gazette should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August, 1901 .—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February, 1870, the Government of India directed that all Notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,

Secretary to the Government of India.

No. 771 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 66 of 1893.—Alois Riedler. *Improvements in and connected with compressing and pumping apparatus.* (From 14 April 1904 to 14 April 1905.)

No. 121 of 1893.—Charles Ewing. *Rolling stock for use on single rail tramways or railways.* (From 27 February 1904 to 27 February 1905.)

No. 6 of 1894.—Charles Hodgson. *Improvements in apparatus for working railway points and signals.* (From 7 April 1904 to 7 April 1905.)

No. 186 of 1894.—Edward Waller Stoney. *Spiral switch handle and combined spiral switch handle lock and point indicator.* (From 2 January 1904 to 2 January 1905.)

No. 44 of 1896.—Taylor Burrows and Dick Edwards Radclyffe. *Improved means or apparatus for de-gumming or otherwise treating by immersion the fibres extracted from the plants, stems or straws of flax, hemp, ramie or the like.* (From 19 February 1904 to 19 February 1905.)

No. 253 of 1896.—Aloys Naville, Philippe Guye and Charles Eugene Guye. *Electrical gas-reaction apparatus.* (From 19 February 1904 to 19 February 1905.)

No. 66 of 1897.—Thomas Holliday. *Improvements in the means or apparatus for use in the production, storing, and application of acetylene gas.* (From 6 September 1904 to 6 September 1905.)

No. 354 of 1897.—Khursedji Byramji Bharda. *A paper file hanger.* (From 14 February 1904 to 14 February 1905.)

No. 281 of 1898.—Joseph Temperley and John Ridley Temperley. *Improvements in apparatus for raising, lowering and conveying or transporting loads, which improvements are partly applicable to friction-hoists and similar machines.* (From 22 February 1904 to 22 February 1905.)

No. 282 of 1898.—Joseph Temperley and John Ridley Temperley. *Improvements in apparatus for raising, lowering and conveying or transporting loads.* (From 22 February 1904 to 22 February 1905.)

No. 283 of 1898.—Joseph Temperley and John Ridley Temperley. *Improvements in and relating to apparatus for dumping, depositing or releasing loads suspended from cranes.* (From 22 February 1904 to 22 February 1905.)

No. 284 of 1898.—Mephan Ferguson. *Improvements in machines for closing the locking bar or bars used in the construction of certain kinds of rivetless pipes.* (From 17 February 1904 to 17 February 1905.)

No. 285 of 1898.—Mephan Ferguson. *Improvements in machines for forming dove-tail or approximately dove-tail edges on plates to be used in the manufacture of rivetless pipes.* (From 17 February 1904 to 17 February 1905.)

No. 286 of 1898.—Monotype Machine (Colonial Patents) Syndicate, Limited. *Improvements in type-casting and composing machines.* (From 21 February 1904 to 21 February 1905.)

No. 287 of 1898.—Monotype Machine (Colonial Patents) Syndicate, Limited. *A machine for preparing the perforated record strips of type-forming machines.* (From 21 February 1904 to 21 February 1905.)

No. 52 of 1899.—Henry Cruse. *Improvements in the method of and apparatus for generating steam.* (From 10 May 1904 to 10 May 1905.)

No. 440 of 1899.—Josiah Byram Millet. *Improvements in and relating to submarine telegraphy, and to apparatus therefor.* (From 12 March 1904 to 12 March 1905.)

No. 772 P.—WHEREAS the inventors of the under-mentioned inventions have respectively failed to pay within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888 the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2) of the said Act, the exclusive privilege of making, selling and using the said inventions in British India, and of authorising others so to do, has ceased:—

No. 72 of 1899.—Robert Bernard. *An improved basket or container for use in transporting coal, stones, earth and other mineral matter or debris.* (Specification filed 13 November 1899.)

No. 78 of 1899.—George Drury Coleman. *An improved compressed food for horses, cattle, and like animals.* (Specification filed 13 November 1899.)

No. 245 of 1899.—Alfred Ernest Markwick. *Improvements in valves or cocks operated by ball-float or otherwise.* (Specification filed 18 November 1899.)

No. 276 of 1899.—John Francis Pope. *Improvements in wheel bearings.* (Specification filed 17 November 1899.)

No. 295 of 1899.—Thomas Henry Patching. *An automatic coupling for use on railway carriages and the like.* (Specification filed 17 November 1899.)

No. 303 of 1899.—Andreas Marx and Wilhelm Dodschweit. *Improvements relating to the propulsion and steering of boats.* (Specification filed 17 November 1899.)

No. 335 of 1899.—Alice Amelia Cooke and Arthur Burgess Soar *Improvements in or relating to tea sorting machines.* (Specification filed 17 November 1899.)

Fee in respect of the continuance of an exclusive privilege—

4 (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the above inventions

No. 33 of 1898.—Peter Smith Swan. *Improvements in punkah pulling machines* (Specification filed 15 November 1898)

Fee in respect of the continuance of an exclusive privilege—

4 (*b*) After the expiration of the fourth year and before the expiration of the fifth year from the date of filing of the specification—

The sum of R50 for the above invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A M to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques

---

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications, and drawings

---

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

C. R. WILSON,
Secretary under the Inventions and Designs Act, 1888.

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 20th February, 1904, and is hereby promulgated for general information —

ACT NO. III OF 1904.

An Act to make further provision regarding the borrowing powers of certain local authorities.

WHEREAS it is expedient to make further provision regarding the borrowing powers of certain local authorities, It is hereby enacted as follows —

Short title and extent

1. (*1*) This Act may be called the Local Authorities Loan Act, 1904.

(*2*) It applies only to the local authorities specified in the schedule, and any other local authority to which the Governor General in Council may, by notification in the Gazette of India, extend its provisions.

Issue of short-term bills.

2. Notwithstanding anything in any other enactment for the time being in force, but subject always to the provisions of section 25 of the Indian Paper Currency Act, 1882, a local authority may, with the previous sanction of the Governor General in Council, borrow money by means of the issue of bills repayable within any period, not exceeding twelve months, for any purpose for which such local authority may lawfully borrow money under any law for the time being in force.

Provided that the amount of the bills which may be so issued, shall not exceed, when the amount of the other moneys for the time being borrowed by such local authority is taken into account, the total amount which such local authority is empowered by law to borrow.

Power of borrowing to repay previous loan.

3. Notwithstanding anything in any other enactment for the time being in force, a local authority may, with the previous sanction of the Governor General in Council, borrow money in any manner authorized by law for the purpose of repaying money previously borrowed in accordance with law:

Provided that nothing in this section shall be deemed to empower a local authority to fix a period for the repayment of any money borrowed thereunder which, when the period fixed for the repayment of the money previously borrowed is taken into account, will exceed the maximum period fixed for the repayment of a loan by or under any enactment for the time being in force.

Regulation of conditions of borrowing and repaying money under Act

4. The Governor General in Council may, by general or special order, regulate the conditions on which money may be borrowed or repaid under this Act.

THE SCHEDULE.

SUPPLEMENT TO

The Gazette of India.

No. 9 } CALCUTTA, SATURDAY, FEBRUARY 27, 1904.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 a.m. on Thursday, the 25th February 1904, based on the India Daily Weather Reports of the period.

Except over the Peninsula where the weather has been practically uninterruptedly fine during the week under review conditions have been more or less unsettled and showery.

On the 19th rain was general over Bengal and Assam, while showers were reported in Sind. The heaviest falls of rain were 2·39″ at Calcutta, 1·31″ at Silchar and 0·76″ at Kurrachee. On the 20th the weather was less generally unsettled, but showers were reported from several places in Northern India, the largest amounts registered having been 1·01″ at Berhampore, 1·34″ at Cherra Poonjee and 1·68″ at Jalpaiguri. On the 21st the weather cleared over North-East India and remained fine until the close of the week, but between the 21st and 23rd showers were received over Kashmir, the North-West Himalayas and at a few places on the plains. The heaviest falls of rain were 0·63″ at Chakrata and 0·45″ at Sonemarg on the 21st, 0·50″ at Sonemarg and 0·46″ at Minimarg on the 22nd, and 0·66″ at Minimarg and 0·20″ at Murree on the 23rd. After the latter date the weather cleared and unsettled conditions were transferred to the central parts of the country whence Seoni reported 0·68″ of rain and Jubbulpore 0·31″ on the 23rd, Pachmarhi 0·42″ on the 24th, and Khandwa 0·50″, Indore 0·28″ and Pachmarhi 0·89″ on the 25th. Scattered showers were also received over Baluchistan and Persia during the week, so that, the weather over the whole of the north of the Indian area appears to have been feebly unsettled.

The rainfall table shows that effective rain was received during the week over the Burma Coast, Bengal, the Brahmaputra Valley, the Dinajpur sub-division, the East Gangetic

Plain, the Simla sub-division, Baluchistan, the Cuttack sub-division and the East and West Satpuras—the average actual fall ranging from 1·10" in the Calcutta sub-division to 0·16" in the West Satpuras The week's rainfall was heavier than usual over the Burma Coast, Bengal, the Brahmaputra Valley, the Dinajpur sub-division, the East Gangetic Plain and the Satpuras.

Over the Peninsula, the Central India Plateau, the North West Dry Area, the Wes Gangetic Plain and Gujarat actually or practically no rain fell during the week, but over the greater part of these areas the anticipated rainfall at this time is very light.

The seasonal rainfall exceeds the normal over the Narayanganj sub-division, the Brahmaputra Valley, the Dinajpur sub-division, South India and the East Coast (South), is normal in the Calcutta sub-division, the North West Dry Area, Baluchistan and the Bellary sub-division, and is more or less deficient elsewhere.

W. L. DALLAS,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA.
The 25th February 1904.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 20th February 1904.

Madras.—There was practically no rain during the week Irrigation supplies are generally sufficient Ploughing, sowing, transplanting, and weeding are in progress in parts. The standing crops are generally in good condition Harvesting continues with outturns, which are fair to normal. Pasture is generally sufficient. Fodder is procurable. The condition of cattle is generally good Prices are almost stationary.

Bombay.—There was very slight rain during the week in parts of Karachi, Hyderabad, Larkana, the Upper Sind Frontier and Kaira The rainfall has been generally sufficient except in parts of Khandesh, Sholapur, and Poona The standing crops have been damaged by locusts in parts of Colaba, Ratnagiri, Satara, and Belgaum, by rats in parts of the Panch Mahals, Sholapur, Satara, Bijapur, and Belgaum, by frost in parts of Ahmedabad; and by blight in parts of the Carnatic, they are also suffering from insufficient moisture in parts of Sholapur and are generally in good condition elsewhere Harvesting of autumn crops continues in parts of Sholapur and Dharwar Threshing is completed in Colaba and continues in parts of Canara Harvesting of the spring crops is in progress in parts of Kaira, Broach, Khandesh, Ahmednagar, Poona, Satara, Bijapur, Belgaum, and Rajkot, and has commenced in parts of Surat, and Sholapur. Threshing is in progress in parts of the Panch Mahals, Ahmednagar, and Satara Cotton has been slightly damaged by frost in parts of Ahmedabad, by blight or rats in parts of the Carnatic, is in fair condition in the Panch Mahals and Surat and generally in good condition in Larkana, Broach, and Wadhwan. Picking is in progress in parts of Ahmedabad, Broach, Poona, Satara, Belgaum, Rajkot, Wadhwan, and Baroda and has commenced in parts of the Panch Mahals, Surat, and Dharwar. The fodder supply is sufficient. Agricultural stock is generally sufficient and in good condition The water-supply is generally sufficient Prices have fallen in three districts, risen in four districts, and are stationary elsewhere.

Bengal.—Rain is reported from all districts, except Shahabad, Champaran, Monghyr, and Purnea. The fall was moderately heavy in some places, but for the most part light. The standing crops require rain in Murshidabad and Champaran. Some damage to crops has been caused by hail in Jalpaiguri and Palamau, and by insects in Burdwan Prospects are otherwise good. Threshing of winter rice, pressing of sugarcane, and harvesting of early spring crops continue. Preparation of land for early rice and jute is proceeding. Fodder and water are generally sufficient The price of common rice has risen in four districts, has fallen in eight, and is stationary in the remainder.

United Provinces.—Light rain has fallen in eleven districts The standing crops are generally in good condition but slight damage from insects, frost and rust is reported from Shahjahanpur, Pilibhit, Bahraich, Bara Banki, Rae Bareli, Allahabad, and Gorakhpur. Preparations are being made for the next sugarcane crop and extra spring crops are being sown Poppy is flourishing and in some places the extraction of opium is in progress Fodder is ample and markets are well supplied. Prices continue stationary.

Punjab.—Slight rain has fallen in parts of Umballa, Ferozepore, Amritsar Rawalpindi, and Mianwali The price of wheat is rising in Umballa, Jullundur, and Amritsar and falling in Lahore The prices of other food grains are fluctuating Pressing of sugarcane continues in Amritsar and Sialkot Sowings of extra spring crops continue in Jullundur, Ferozepore, and Shahpur and have commenced in Sialkot and Mooltan Sowings of sugarcane have commenced in certain districts The condition of standing irrigated crops is reported good to fair in all districts, and that of unirrigated crops is unfavourable in Hissar and Delhi More rain is wanted in Umballa and unirrigated crops are withering in Hissar The outturn of sugarcane in Sialkot and Shahpur and of toria in parts of Mooltan is said to be average The condition of cattle is generally good throughout the province. Fodder is said to be sufficient in all districts except in Delhi and in parts of Rawalpindi

North-West Frontier Province.—There was no rain during the week. The condition of the standing crops is good, but a few more showers are still wanted for certain crops. Stocks of food grains and fodder are ample. Water in canals is sufficient. Prices are stationary.

Burma.—Slight showers fell in a few districts during the week. Harvest operations are almost completed in both Upper and Lower Burma. The cultivation of dry weather

paddy is still progressing and clearings of hill sides have commenced in the Katha district. Gathering of peas has commenced in Sagaing and is progressing in Pakokku and Lower Chindwin. Sowing of tobacco has been completed in the Seikpyu township of the Pakokku district The standing crops are doing well. The price of paddy has risen in Thaton and has slightly fallen in Myaungmya. There have been unimportant changes in two other districts.

Central Provinces.—Light showers varying from 2 to 91 cents have fallen in ten districts, the heaviest falls being in the plateau districts and in Sambalpur The showers have done some slight good to late sown crops, but it is now too late for rain to be of much use except for the preparation of land in the rice districts The picking of cotton has been completed except in some parts of Berar. The harvesting of spring crops has commenced, the general yield being estimated at quite equal to or rather better than the normal Slight damage has been caused by white ants to wheat in the Drug Tahsil and by caterpillars to pulses in Narsinghpur. Prices of wheat and rice show a slight tendency to rise in the Northern Districts

Assam.—Slight to moderate rain fell in all districts during the week. Tea pruning, sugarcane pressing, ploughing for rice and jute, and gathering of mustard are in progress. The outturn of mustard and of sugarcane is fair to good. Fodder is insufficient in parts of Sylhet and in the hills Water is insufficient in the hills. Prices—common rice—Silchar 19, Sylhet and Tezpur 18, Dhubri, Gauhati, and Nowgong 16, and Sibsagar and Dibrugarh 12 seers per rupee.

Mysore.—Prices are steady in some parts and have slightly risen in others. The standing crops are good Paddy, gram and sugarcane are being harvested. The prospects of the season are good. Cattle are healthy except in parts of Mysore, Shimoga and Chitalhrug. Water and fodder are available.

Coorg.—Threshing of rice and picking of coffee continue. Prices of food grains are normal. Water and fodder are sufficient.

Hyderabad—There was no rain during the week. The standing spring crops are generally good The harvest continues Late rice sowings have been completed and the crop is being weeded. Prospects are good. Prices—wheat 11¼, rice 11, and jowar 32 seers per halli rupee.

Rajputana.—Agricultural operations are satisfactory The condition of the standing crops and of cattle is generally good. Fodder is ample. Prices are favourable.

Central India.—There was no rain during the week. Agricultural operations are in progress. Crops are good everywhere. Agricultural stock and pasturage are generally good. Prices are normal in Gwalior, Indore, Bhopal, and Baghelkhand, and are steady elsewhere. Opium is good in Gwalior, Indore, Bhopal, Bhopawar, and in parts of Malwa.

Kashmir.—The weather is bright. Prices are stationary.

Jammu.—There was no rain during the week. Prices are fluctuating. Wheat sells from 16 to 26, and maize 22 to 38 seers per rupee. The condition of standing crops on irrigated land is good. Fodder is sufficient.

Nepal.—The weather has been cloudy and cold. The price of rice is 6½ seers for the rupee.

J. WILSON,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
PUBLIC WORKS DEPARTMENT.
RAILWAY STATISTICS.

STATEMENT OF APPROXIMATE GROSS EARNINGS OF INDIAN RAILWAYS.

PART I.

Government of India Notifications, Appointments, Promotions, etc.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Calcutta, the 25th February 1904.

No. 462.—Major C. A. Muspratt-Williams, R.A., Chief Inspector of Explosives with the Government of India, is granted privilege leave for three months with furlough out of India for five months in continuation, with effect from the 1st April 1904 or from the date on which he may avail himself of it.

ESTABLISHMENTS.

The 22nd February 1904.

No. 161.—The services of Mr P. L. Moore, of the Indian Civil Service, are placed at the disposal of the Foreign Department, with effect from the 10th March 1904.

The 26th February 1904.

No 169.—The Hon'ble Mr. J P. Hewett, C.S.I, C.I.E, Chief Commissioner of the Central Provinces, is granted privilege leave for three months with furlough for five months in continuation, with effect from the 17th March 1904, or the subsequent date on which he may avail himself of it

No. 170.—The Hon'ble Mr F S P Lely, C.S.I, Commissioner of the Northern Division, Bombay Presidency, and Additional Member of the Council of the Governor-General for making Laws and Regulations, is appointed to officiate as Chief Commissioner of the Central Provinces during the absence on leave of the Hon'ble Mr J P Hewett, C.S.I, C.I.E, or until further orders.

MUNICIPALITIES.

The 26th February 1904.

No. 58.—In exercise of the powers conferred by sections 5 and 7 of the Local Authorities Loan Act, 1879 (XI of 1879), as applied to Berar, the Governor General in Council is pleased to direct that, for rule 2 of the rules for the raising of loans by local authorities in the open market applied to Berar by the Notification of the Government of India in the Foreign Department, No 2573-I B, dated the 5th July 1901, the rule published in the Notification of the Government of India in the Finance and Commerce Department, No 3184-A, dated the 1st June 1903, shall be substituted.

SANITARY.

PLAGUE

The 25th February 1904.

No. 240.—Whereas the Governor General in Council is satisfied that the Bellary district of the Madras Presidency is visited by an outbreak of dangerous epidemic disease and that there is a danger of its spread, if pilgrims or other persons from the Bombay presidency and the Mysore State are permitted to assemble at Kulahalli in the Bellary district on the occasion of the ensuing Basaveswaraswami Car festival

In exercise of the power conferred by section 2, sub-section (*1*), of the Epidemic Diseases Act, 1897 (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Byadgi, Devargudda, Ránibennur, Chalgeri, Harihar, and Dávangere on the Southern Mahratta Railway shall be sold from the 24th February to the 2nd March 1904, both days inclusive, within the Bombay presidency and the Mysore State to any pilgrim or other person intending or believed to be intending to proceed on pilgrimage to the Basaveswaraswami Car festival at Kulahalli.

JUDICIAL.

The 26th February 1904.

No. 332.—The Governor General in Council has accepted the resignation tendered by the Honourable Mr Justice Stevens of his office of Judge of the High Court of Judicature at Fort William in Bengal, with effect from the 13th March 1904, or the subsequent date on which he may sail from India or relinquish charge of office in the event of his not taking subsidiary leave.

No. 334.—The Honourable Mr Justice Stevens is permitted to resign His Majesty's Indian Civil Service, with effect from the 13th March 1904, or the subsequent date on which he may sail from India or relinquish charge of office in the event of his not taking subsidiary leave

Captain Walter Henry Harding. Dated 27th November 1903.

The King has also approved of the resignation of the service by the undermentioned officer of the Indian Army:—

Francis Herbert Johnstone. Dated 14th December 1903.

ERRATA.

The Christian names of Major Elsmie and Major Ward whose promotion from the rank of Captain, was notified in the *London Gazette* of 4th December 1903, are George Edward Douglas and Trimnell Martin, respectively, and not as therein stated.

The Christian names of Lieutenant Stuart whose admission to the Indian Army was notified in the *London Gazette* of 4th December 1903 are Charles Cranfurd and not as therein stated.

In the notification of the admission of Second-Lieutenants to the Indian Army in the *London Gazette* of the 4th December 1903, the surname of Second-Lieutenant MacMahon, should be as here stated and not as in the Gazette.

The notification of the promotion of Lieutenant Edward Richard Wetherall to the rank of Captain in the *London Gazette* of 25th December 1903 is incorrect that officer having died on the 3rd August 1903.

PROMOTIONS.

No. 264 of 1898—Thomas Edwin George Cooper. *Sanitary separating utensils.* (Specification filed 24 November 1898.)

Fee in respect of the continuance of an exclusive privilege—

4 (*b*) After the expiration of the fourth year and before the expiration of the fifth year from the date of filing of the specification—

The sum of R50 for each of the above inventions

No 197 of 1896—Frederick Elijah Blaisdell *Improvements in or connected with holders for pencils, crayons, caustics, and the like.* (Specification filed 25 November 1896.)

Fee in respect of the continuance of an exclusive privilege—

4 (*d*) After the expiration of the sixth year and before the expiration of the seventh year from the date of the filing of the specification.

The sum of R50 for the above invention.

No. 213 of 1892—Edison United Phonograph Company. *Improvements in phonographs* (Specification filed 23 November 1892)

Fee in respect of the continuance of an exclusive privilege—

4 (*h*) After the expiration of the tenth year and before the expiration of the eleventh year from the date of the filing of the specification.

The sum of R100 for the above invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A M to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications, and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

C. R. WILSON,
Secretary under the Inventions and Designs Act, 1888

THE HONOURABLE THE CHIEF COMMISSIONER OF AJMER-MERWARA.

NOTIFICATION.

Abu, the 25th February 1904.

No. 190. - In exercise of the power conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), and with the previous sanction of the Governor General in Council, the Chief Commissioner is pleased to make the additions hereinafter set forth below to the rules published under the Chief Commissioner's Notification No 71—401-A, dated the 26th January 1903, to regulate the possession and transport of petroleum :—

Add as rule III (3)—

"The capacity in gallons shall be conspicuously marked on every storage tank or other receptacle in every place referred to in rule II (3) (*b*)."

Add as rule III (4) —

"Every tank or other receptacle for the storage of petroleum in bulk shall be protected by an efficient lightning conductor.

"Provided that a tank or receptacle which is not of sufficient capacity to contain 10,000 gallons of petroleum need not be so protected, if it is so situated as not to be liable to cause danger in the event of the petroleum being ignited, *i e*, if it is not in close proximity to any other such tank, or receptacle, or to any building, and if it is surrounded by a wall, or moat, or combination of both, sufficient to prevent the flow of petroleum beyond certain circumscribed limits in the event of the escape of the whole contents of the tank when full."

Add as rule III (5)—

"Not less than once in every year the holder of a license granted under rule II (3) (*b*) shall test or cause to be tested the efficiency of the lightning conductor referred to in sub-rule (4) in such manner as th authority granting the license may, by general or special order, declare to be sufficient."

Add as rule III (6)—

"Notwithstanding anything contained in sub-rule (5), an officer appointed in writing by the Chief Commissioner in this behalf may enter any place in respect of which a license has been granted under rule II (3) (*b*) for the purpose of testing the efficiency of the lightning conductor, at any time after sunrise and before sunset"

At the end of the endorsement on Form C the following blank condition shall be added, namely:—

"Special condition relating to the manner of testing the lightning conductor, to be prescribed by the authority granting the license."

By order,

A. B. MINCHIN, Captain,
First Assistant to the Agent to the Governor-General, Rajputana, and Chief Commissioner, Ajmer-Merwara

II B

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 4th March, 1904, and is hereby promulgated for general information:—

ACT NO. IV OF 1904.

THE NORTH-WEST BORDER MILITARY POLICE BILL, 1904.

CONTENTS.

SECTIONS.

An Act to provide for the Regulation of the Border Military Police Force in the North West-Frontier Province.

WHEREAS it is expedient to provide for the regulation of the Border Military Police Force in the North-West Frontier Province, It is hereby enacted as follows:—

Short title, extent, application and commencement

1. (*1*) This Act may be called the North-West Border Military Police Act, 1904.

(*2*) It extends to the whole of the North-West Frontier Province, and applies also to every member of the Border Military Police Force, wherever he may be serving; and

(*3*) It shall come into force on such day as the Local Government may, by notification in the official Gazette, appoint in this behalf.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "Military Police-officer" means a person who, at the commencement of this Act, is serving in the Border Military Police

Force, or who, after the commencement of this Act, has been appointed to the Border Military Police Force under this Act and has signed a recruiting roll on which the conditions of service contained in the schedule are set forth:

(b) "Commandant" means a person appointed by the Local Government to be a Commandant of the Border Military Police Force under this Act:

(c) "active service" means service against hostile tribes or raiders or against other persons in the field: and

(d) the expressions "assault", "criminal force", "fraudulently", "reason to believe" and "voluntarily causing hurt" have the meanings assigned to them, respectively, in the Indian Penal Code.

Power to maintain Border Military Police Force.

3. The Local Government may maintain a force, to be called the Border Military Police Force, for the better protection and administration of the external frontier of British India within the limits of or adjoining the North-West Frontier Province or any part thereof.

Constitution of Force

4. The Border Military Police Force shall consist of such number of officers and men, and shall be constituted in such manner, and the members of such Force shall receive such pay, pension and other remuneration, as shall, from time to time, with the previous sanction of the Governor General in Council, be ordered by the Local Government.

Appointment and powers of superior officers

5 (1) The Local Government may appoint any person to be Commandant and may appoint other superior officers of the Border Military Police Force, or of any part thereof, constituted in any one or more districts.

(2) The Commandant and every other officer so appointed shall possess, and may exercise, such power and authority over the subordinate officers and members of the Force at any time under his command as is provided by or under this Act.

Appointment of subordinate officers and men

6. The appointment of subordinate officers and men of the Border Military Police Force shall rest with the Deputy Commissioner and the Commandant, who shall respectively exercise such powers, in such manner, as may be prescribed by rules made under this Act.

Superintendence, control and administration of Force

7. The superintendence of, and control over, the Border Military Police Force shall vest in the Local Government; and the said Force shall be administered by the Deputy Commissioner and the Commandant, respectively, in accordance with the provisions of this Act and of any rules made thereunder.

8. (1) Every Military Police-officer who—

More heinous offences.

(a) begins, excites, causes or joins in any mutiny or sedition, or being present at any mutiny or sedition, does not use his utmost endeavours to suppress it, or knowing, or having reason to believe in, the existence of any mutiny, or of any intention to mutiny, does not, without delay, give information thereof to his commanding or other superior officer; or

(b) uses, or attempts to use, criminal force to, or commits an assault on, his superior officer, whether on or off duty; or

(c) shamefully abandons or delivers up any garrison, fortress, post or guard which is committed to his charge or which it is his duty to defend; or

(d) directly or indirectly holds correspondence with, or assists or relieves, any person in arms against the State, or omits to discover immediately to his commanding or other superior officer any such correspondence coming to his knowledge; or

who, while on active service,—

(e) disobeys the lawful command of his superior officer; or

(f) deserts the service, or,

(g) being a sentry, sleeps upon his post, or quits it without being regularly relieved or without leave; or,

(h) without authority, leaves his commanding officer, or his post or party, to go in search of plunder, or

(i) quits his guard, picquet, party or patrol without being regularly relieved or without leave, or

(j) uses criminal force to, or commits an assault on, any person bringing provisions or other necessaries to camp or quarters, or forces a safeguard or, without authority, breaks into any house or any other place for plunder, or plunders, destroys or damages any property of any kind; or

(k) intentionally causes or spreads a false alarm in action or in camp, garrison or quarters; or

(l) displays cowardice in the execution of his duty,

shall be punishable with transportation for life or for a term of not less than seven years, or with imprisonment for a term which may extend to fourteen years, or with fine which may extend to three months' pay, or with fine to that extent in addition to such sentence of transportation or imprisonment, as the case may be, as may be passed upon him under this section.

(2) If any Military Police-officer, while on active service with a force beyond the limits of British India, is charged with committing any offence described in clause (c), clause (d), or clause (f), of sub-section (1), or the offence of culpable homicide amounting to murder, he may be summarily tried for such offence by the Political Officer accompanying the force, sitting with two other officers appointed by the Political Officer for this purpose.

(3) Every officer appointed under sub-section (2) shall be either—

(a) a British officer, as defined in the Indian Articles of War, or

(b) a civil officer of gazetted rank, or

(c) a Military Police-officer appointed under section 5:

Provided that, if circumstances permit, not less than one such officer shall be a Military Police-officer appointed under section 5.

(4) If one or both of the officers sitting with the Political Officer concur with him in finding the accused guilty and the Political Officer so directs, the accused shall be forthwith shot to death.

9. Every Military Police-officer who—

Less heinous offences.

(a) is in a state of intoxication when on or for any duty, or on parade or on the line of march; or

(b) strikes or attempts to force any sentry, or,

(c) being in command of a guard, picquet or patrol, refuses to receive any prisoner duly committed to his charge, or, without proper authority, releases any prisoner, or negligently suffers any prisoner to escape; or,

(d) being under arrest or in confinement, leaves his arrest or confinement before he is set at liberty by proper authority; or

(e) is grossly insubordinate or insolent to his superior officer in the execution of his office; or

(f) refuses to superintend or assist in the making of any field-work or other work of any description ordered to be made either in quarters or in the field; or

(g) strikes or otherwise ill-uses any Military Police-officer subordinate to him in rank or position; or,

(h) being in command at any post or on the march and receiving a complaint that any one under his command has beaten or otherwise maltreated or oppressed any person, or has committed any riot or trespass, fails, on proof of the truth of the complaint, to have due reparation made as far as possible to the injured person and to report the case to the proper authority; or

(i) designedly or through neglect injures or loses, or fraudulently disposes of, his arms, clothes, tools, equipments, ammunition, accoutrements or Military Police necessaries, or any such articles entrusted to him or belonging to any other person; or

(j) malingers, or feigns or produces disease or infirmity in himself, or intentionally delays his cure, or aggravates his disease or infirmity; or,

(k) with intent to render himself or any other person unfit for service, voluntarily causes hurt to himself or any other person; or

(l) does not, when called upon by his superior officer so to do, or upon ceasing to be a Military Police-officer, forthwith deliver up, or duly account for, all or any arms, ammunition, stores, accoutrements, appointments or other property issued or supplied to him, or in his custody or possession, as such Military Police-officer; or

who, while not on active service,—

(m) disobeys the lawful command of his superior officer; or

(n) plunders, destroys or damages any property of any kind; or,

(o) being a sentry, sleeps upon his post or quits it without being regularly relieved or without leave; or

(p) deserts the service;

shall be punishable with imprisonment for a term which may extend to one year, or with fine which may extend to three months' pay, or with both.

10. (1) The Deputy Commissioner and the Commandant, respectively, may, subject to any rules made under this Act, award, in lieu of, or in addition to, suspension or dismissal, any of the following punishments to any Military Police-officer who is, in the opinion of the Deputy Commissioner or Commandant, as the case may be, guilty of disobedience, neglect of duty or remissness in the discharge of any duty, or of rendering himself unfit to discharge his duty, or of other misconduct in his capacity as such Military Police-officer, that is to say,—

Minor punishments.

(a) reduction in rank and emoluments;

(b) fine to any amount not exceeding one month's pay and allowances;

(c) confinement to quarters for a term not exceeding one month;

(d) confinement in the quarter-guard for not more than fifteen days, with or without punishment-drill or extra guard, fatigue or other duty;

(e) removal from any office of distinction or special emolument in the Force.

(2) The Deputy Commissioner, or the Commandant, or an officer, not being below the rank of subadar, commanding a separate detachment or an outpost or in temporary command at the head-quarters of a district during the absence of the Deputy Commissioner and Commandant, may, without a formal trial, award to any Military Police-officer who is subject to his authority any of the following punishments for the commission of any petty offence against discipline, which is not otherwise provided for in this Act, or which is not of a sufficiently serious nature to call for a prosecution before a Criminal Court, that is to say,—

(a) confinement for not more than seven days in the quarter-guard or such other place as may be considered suitable, with forfeiture of all pay and allowances during its continuance;

(b) punishment-drill, or extra guard, fatigue or other duty, for not more than thirty days, with or without confinement to quarters.

(3) Any one of the punishments described in sub-section (1) or sub-section (2) may be awarded separately or in combination with any one or more of the said punishments respectively.

11. Every person sentenced under this Act to imprisonment for a period not exceeding three months shall, if he is also dismissed from the Border Military Police Force, be imprisoned in the nearest prison or such other prison as the Local Government may, by general or special order, direct; but, if he is not also dismissed from the said Force, he may, if the Court or the Deputy Commissioner so directs, be confined in the quarter-guard or such other place as the Court or the Deputy Commissioner may consider suitable.

Place of imprisonment.

12. No Military Police-officer shall be at liberty to—

Resignation and withdrawal from Force

(a) resign his appointment during the term of his engagement, except before the expiration of the first three months of his service, or

(b) withdraw himself from all or any of the duties of his appointment,

without the permission in writing (to be previously obtained) of the Deputy Commissioner or Commandant or other officer authorised by the Deputy Commissioner to grant such permission.

13. (1) It shall be the duty of every Military Police-officer promptly to obey and to execute all orders and warrants lawfully issued to him by any competent authority, to detect and bring offenders to justice, and to apprehend all persons whom he is legally authorised to apprehend and for whose apprehension sufficient grounds exist.

General duties of Military Police-officers

(2) Every Military Police-officer shall be liable to serve without and beyond, as well as within, the limits of British India.

14. The Local Government may, by general or special order, confer or impose upon any Military Police-officer any of the powers or duties conferred or imposed on a Police-officer of any class or grade by any enactment for the time being in force.

Powers and duties conferable and imposable on Military Police-officers

15. (1) In any suit or proceeding against any Military Police-officer for any act done by him in pursuance of a warrant or order of a competent authority, it shall be lawful for him to plead that such act was done by him under the authority of such warrant or order

Protection for acts of Military Police-officers

(2) Such plea may be proved by the production of the warrant or order directing the act, and, if it is so proved, such Military Police-officer shall thereupon be discharged from liability in respect of the act so done by him, notwithstanding any defect in the jurisdiction of the authority which issued such warrant or order.

(3) All suits and proceedings (whether civil or criminal) against any person which may lawfully be brought for anything done or intended to be done under the powers conferred by, or in pursuance of, any provision of this Act or the rules thereunder, shall be commenced within three months after the act complained of was committed, and not otherwise; and notice in writing of such suit or proceeding and of the cause thereof shall be given to the defendant or his superior officer one month at least before the commencement of the suit or proceeding.

16. Notwithstanding anything contained in the Code of Criminal Procedure, 1898, the Local Government may declare that the Court of any Deputy Commissioner, and no other Court, shall be deemed to be the Court of Session for the disposal of cases, or of any class of cases, arising under this Act

Authority to confer exclusive powers of Sessions Court on Deputy Commissioner

17. Any person invested with any powers under the Code of Criminal Procedure, 1898, for the disposal of any case under this Act within the limits of British India, shall, in relation to any case arising under this Act beyond such limits, have the same powers and be subject to the same conditions as to appeal or otherwise as if such case had arisen within such limits.

Criminal powers conferred within British India to be exercisable beyond British India

18. The Local Government, with the previous sanction of the Governor General in Council, may, by notification in the official Gazette, apply, with such modifications (if any) as it may think fit, any of the provisions of this Act and the rules thereunder to the Border Militia or to any persons for the time being enrolled for similar service on the external frontier of British India.

Application of Act to other bodies enrolled for service on frontier

19. The Local Government may, by notification in the official Gazette, make rules—

Power to make rules.

(a) regulating the functions and powers of the Deputy Commissioner and Commandant, respectively, under this Act;

(b) regulating the classes and grades of, and the remuneration to be paid to the officers and men of, and the conditions of service in, the Border Military Police Force;

(c) fixing the period of service for Military Police-officers in any district or local area;

(d) regulating the award of minor punishments to Military Police-officers under the powers conferred by section 10, and providing for appeals from, or the revision of, orders under that section; and,

(e) generally, for the purpose of carrying into effect the provisions of this Act.

THE SCHEDULE.

CONDITIONS OF SERVICE.

[*See section 2, clause (a).*]

AFTER you have served for (*such period as the Local Government may have prescribed in this behalf*) in the Border Military Police Force maintained under the North-West Border

Military Police Act, 1904, you may at any time, when not on active service, apply for your discharge, through the officer to whom you may be subordinate, to the Commandant or to the Deputy Commissioner of the district in which you may be serving, and you will be granted your discharge after three months from the date of your application, unless your discharge would cause the vacancies in the said Force to exceed one-tenth of the sanctioned strength, in which case you shall be bound to remain until this objection is waived by competent authority or removed. But when on active service you shall have no claim to a discharge and you shall be bound to remain to do your duty until the necessity for retaining you in the said Force ceases, when you may make your application in the manner hereinbefore prescribed. In the event of your re-enlistment after you have been discharged, you shall have no claim to reckon for pension or other purposes your service previous to your discharge:

Provided that, if you wish to withdraw from the said Force, you may resign at any time before the expiration of the first three months of your service, but not afterwards until the completion of the period prescribed as aforesaid:

Provided, also, that the Commandant or the Deputy Commissioner may, if he thinks fit, allow you to resign at any time on your giving three months' notice of your wish to do so.

Signature of Military Police-officer in acknowledgment of the above having been read to him.	*A. B.*
Signed in my presence after I had ascertained that A. B. understood the purport of what he signed.	*C. D., Deputy Commissioner or Commandant.*

J. M. MACPHERSON,
Secretary to the Government of India.

J. A. ROBERTSON
Offg. Director-General of Statistics

E. N. BAKER
Secretary to the Government of India.

Calcutta, March 4, 1904

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 4th March, 1904, and is hereby promulgated for general information:—

ACT No. V OF 1904.

An Act to amend the Indian Official Secrets Act, 1889.

WHEREAS it is expedient to amend the Indian Official Secrets Act, 1889; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Indian Official Secrets (Amendment) Act, 1904.

Addition of definition of "civil affairs" to section 2, Act XV, 1889.

2. In section 2 of the Indian Official Secrets Act, 1889, the word "and", where it occurs between clauses (5) and (6), shall be omitted, and after the latter clause the following shall be added, namely:—

"and

(7) "civil affairs" means affairs—

(a) affecting the relations of His Majesty's Government or of the Governor General in Council with any foreign State, or

(b) affecting the relations of the Governor General in Council with any Native State in India, or relating to the public debt or the fiscal arrangements of the Government of India or any other important matters of State, where these affairs are of such a confidential nature that the public interest would suffer by their disclosure."

Amendment of section 3, Act XV, 1889.

3. In section 3 of the said Act, the following alterations shall be made, namely:—

(a) in sub-section (1), sub-head (a), clause (i), the word "office" shall be omitted;

(b) in clause (ii) of the same sub-section and sub-head,—

(i) after the word "aforesaid", the words "or in any office belonging to His Majesty" shall be inserted;

(ii) after the words "obtains", "obtain" and "takes", the words "or attempts to obtain", "or any copy of any such document, sketch, plan or model", and "or attempts to take", respectively, shall be inserted, and

(iii) for the word "any thing" the words "any naval, military or civil affair of His Majesty" shall be substituted;

(c) in sub-head (c) of the same sub-section and in sub-section (2), for the words "naval or military" the words "naval, military or civil" shall be substituted;

(d) after sub-section (1), the following shall be inserted as sub-section (2), and the present sub-sections (2) and (3) shall be renumbered sub-sections (3) and (4):—

"(2) Where a person commits any act specified in clauses (i), (ii) and (iii) of sub-section (1), sub-head (a), without lawful authority or permission (the proof of which authority or permission shall be upon him), the Court may presume that he has committed such act for the purpose of wrongfully obtaining information."; and

(e) for the words "in the interest of the State" wherever they occur, the words "in the public interest" shall be substituted.

Amendment of section 4, Act XV, 1889.

4. In section 4, sub-section (1), of the said Act, the words "in the interest of the State or otherwise" shall be omitted.

Substitution of sections for section 5, Act XV, 1889.

5. For section 5 of the said Act the following sections shall be substituted, namely:—

Certain offences under Act declared cognizable.

"5. (1) Notwithstanding anything in the Code of Criminal Procedure, 1898, every offence against this Act committed in relation to any fortress, arsenal, factory, dockyard, camp or ship belonging to His Majesty, or in relation to the naval or military affairs of His Majesty, shall, for the purposes of the said Code, be deemed to be cognizable:

Provided that a person accused of any such offence shall not be released on bail unless on the order of a Magistrate of the first class.

(2) Every other offence against this Act shall be non-cognizable.

Procedure after arrest on charge of certain offences punishable under Act.

"6. (1) Any person, being a public servant as defined in the Indian Penal Code, may arrest any person who in his view commits any of the offences described in section 5, sub-section (1), and any such person, or any police-officer who has arrested any person on a charge of any such offence,

and any police-officer to whom any person arrested on any such charge has been made over, shall take or send him before the officer for the time being in command or charge of the fortress, arsenal, factory, dockyard, camp or ship, or of the nearest military station, or before a Magistrate of the first class.

(2) Where any person has been taken or sent before the commanding or other officer in accordance with sub-section (1), such officer may, if he thinks fit, discharge such person, but, if he does not discharge him, shall, without unnecessary delay, take or send him to the nearest police-station or to any Magistrate of the first class.

(3) Where any person has been taken or sent to a police-station or to a Magistrate under sub-section (2), the provisions of the Code of Criminal Procedure, 1898, shall, save as otherwise provided by section 7, apply to him as though he had been taken to such police-station or Magistrate without being taken or sent before the commanding or other officer.

Restriction on trial of offences.

"7. (1) No Magistrate of the second class shall have jurisdiction to try any person for an offence against this Act.

(2) No Court shall proceed to the trial of any person for an offence against this Act, except with the consent of the Local Government or the Governor General in Council."

Alteration of expression "Her Majesty".

6. For the expression "Her Majesty", wherever it occurs in the said Act, the expression "His Majesty" shall be substituted.

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill further to amend the Transfer of Property Act, 1882, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th March, 1904.

WE, the undersigned, Members of the Select Committee to which the Bill further to amend the Transfer of Property Act, 1882, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

From Chief Commissioner Assam, No 67 L. & L.-4126-J, dated 2nd September 1903 [Paper No. 1].
From Chief Commissioner, Coorg, No. 1561, dated 23rd September, 1903 [Paper No 2].
From Chief Commissioner, North-West Frontier Province, No 2082-G, dated 13th October, 1903 [Paper No 3]
From Chief Commissioner, Ajmer-Merwara, No. 1231-690, dated 14th October 1903 [Paper No 4]
From Chief Commissioner, Central Provinces, No C.-75, dated 15th October, 1903 and enclosures [Papers No 5].
From Chief Commissioner, British Baluchistan, No. 5327, dated 16th October, 1903 [Paper No. 6].
From Government, Burma, No 283-L-25, dated 16th October, 1903 [Paper No. 7].
From Government, Madras, No 1621 (Judicial), dated 2nd November, 1903, and enclosure, and No. 1735 (Judicial), dated 20th November, 1903, and enclosure [Papers No. 8].
From Government, United Provinces, No. 1225, dated 24th November, 1903, and enclosures [Papers No 9]
From Government, Bengal, No. 4664-J., dated 7th December, 1903, and enclosures [Papers No 10].
From Government, Bombay, No. 6481, dated 8th December, 1903 and enclosures [Papers No. 11].
From Government, Punjab, No. 1485, dated 18th December, 1903, and enclosures [Papers No. 12].
From Registrar, High Court, Calcutta, No. 79, dated 11th January, 1904, and enclosure [Papers No. 13].
From Babu Kanje Behari Nag, Retired Pleader, Basirhat, 24-Parganas, dated 4th February, 1904 [Paper No 14].

2. We have omitted the portion of clause 3 of the Bill as introduced which proposed to add a proviso to the second paragraph of section 59 of the Act, enabling the Local Government by notification to direct that all mortgages made within its territories should be effected only by registered instrument We agree with the objections taken to the proposed proviso by Mr Justice Benson of the Madras High Court, and think with him that the Executive Government should not be empowered to issue a notification of this nature, which would have the effect of increasing the stringency of the general law. Moreover, there does not appear to us to be any sufficient reason why the Local Government should possess the special power proposed by the proviso in the case of mortgages more than in that of sales. We think, with regard to both classes of transactions, that if the provisions of the existing law are to be made more strict, this should be done by the direct intervention of the legislature.

3. We have considered the question which has been raised in certain quarters as to the necessity for the amendment of the second paragraph of section 107 of the Act which is proposed by clause 5 of the Bill Though we agree that in practice there is not much danger of fraud being perpetrated in the case of leases for a year or under, through the application of the equitable doctrine of notice, we think it is safer to retain the amendment proposed by the clause. The power of exemption which is given by the proviso should be sufficient to prevent inconvenience in the special cases referred to by Mr. W. R. Porter, Barrister-at-Law, Allahabad, if it is amplified, as we have suggested in the Bill as amended by us, so as to enable the Local Government to exempt particular classes of leases. With regard to Mr Justice Benson's suggestion in connection with the proviso, we think it is clear, in the light of the definition of "Local Government" in the General Clauses Act, 1897, that a notification by the Local Government can only apply "within the territories under its administration"

4 There are various suggestions in the papers for further amendments in the Transfer of Property Act and for recasting and harmonising the provisions of that Act and those of the Registration Act in so far as they relate to the registration of the instruments contemplated by the former Act. But such proposals appear to us to be beyond the scope of the present Bill which is confined to certain very definite points, and we have therefore not discussed them.

No. II.

A Bill further to amend the Transfer of Property Act, 1882.

WHEREAS it is expedient further to amend the Transfer of Property Act, 1882; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Transfer of Property (Amendment) Act, 1904

Amendment of section 1, paragraph 4, Act IV of 1882.

2. In the fourth paragraph of section 1 of the said Act, after the words "extend this Act" the words "or any part thereof" shall be inserted

Amendment of section 59, Act IV of 1882.

3. In the second paragraph of section 59 of the said Act, for the words "an instrument" the words "a registered instrument" shall be substituted.

Amendment of last paragraph of section 59 and of section 69, Act IV of 1882.

4. In the last paragraph of section 59 and in clause (*c*) of section 69 of the said Act, for the words "and Rangoon" and for the words "or Rangoon" the words "Rangoon, Moulmein, Bassein and Akyab" and the words "Rangoon, Moulmein, Bassein or Akyab" shall be respectively substituted.

Substitution of new paragraph for second paragraph of section 107, Act IV of 1882.

5. For the second paragraph of section 107 of the said Act the following paragraph shall be substituted, namely.—

"All other leases of immoveable property may be made either by a registered instrument or by oral agreement accompanied by delivery of possession:

Provided that the Local Government may, with the previous sanction of the Governor General in Council, from time to time, by notification in the local official Gazette, direct that leases of immoveable property, other than leases from year to year, or for any term exceeding one year, or reserving a yearly rent, *or any class of such leases*, may be made by unregistered instrument or by oral agreement without delivery of possion."

Amendment of section 117, Act IV of 1882.

6. In section 117 of the said Act, after the words "to be so applicable" the words "in the case of all or any of such leases" shall be inserted.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to provide for the preservation of Ancient Monuments and of objects of Archæological, historical or artistic interest was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th March 1904:—

WE, the undersigned, Members of the Select Committee to which the Bill to provide for the preservation of Ancient Monuments and of objects of archæological, historical or artistic interest was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

From Resident, Hyderabad, No 444 J, dated 11th November, 1903 [Paper No 1]
From Registrar, High Court, Calcutta, No 3439, dated 1st December, 1903 [Paper No 2]

From Government, United Provinces, No. 157, dated 28th January, 1904, forwarding a memorial of the members of the Kashi Sujan Samaj, Benares, dated 16th January 1904 [Papers No 16].
From Government, Madras, No. 113 (Public), dated 8th February, 1904, and enclosures [Papers No 17]

2 In clause 2 we have amended the definition of "ancient monument" by adding the word "cave". We propose to omit sub-clause (4), as it seems desirable to take power to protect ancient monuments against all persons seeking to excavate, whatever be the purpose for which the soil is disturbed We have added a definition of "owner" as including joint owners invested with powers of management, and managers or trustees. The definition of a "protected monument" is rendered unnecessary by the changes we have made in clause 3.

3. We consider that clause 3 may with advantage be amplified and safeguarded. we have therefore made express provision for the issue of a notification declaring an ancient monument to be a protected monument, and for the fixing up of the notification on or near the monument, together with an intimation that any objections thereto received within one month will be considered.

4. With a view to the provisions of the Acts of Parliament regulating the acquisition of land by Government, we propose that the powers which sub-clauses (1) and (2) of clause 4 confer upon the Commissioner should be exercised by the Collector with the sanction of the Local Government. At the end of the clause we add a new sub clause empowering the Commissioner to assume the guardianship of any protected monument which is without an owner.

5. In clause 5 we have added words to head (c) under which an agreement may be made restricting the owner's right to build on or near the site of a monument. Under head (g) we substitute "His Majesty" for "the Government". We add a new head

(*h*) indicating that the agreement may provide for the appointment of an authority to decide any dispute arising out of it. We have struck out sub-clause (*4*) of this clause, and have added sub-clauses numbered (*4*), (*5*), (*6*), (*7*) and (*8*) providing for the alteration and termination of agreements under this clause, expressly enacting that such agreements are binding on successors in title and saving any rights acquired by Government in respect of expenses incurred in protecting or preserving a monument.

6. Clause 6, sub-clause (*2*), is no longer necessary in view of the definition of "owner" in clause 2. Sub-clause (*3*) becomes (*2*), and we have added a new sub-clause (*3*) prohibiting a person who is not of the same religion as the person on whose behalf he is acting from executing an agreement in regard to a protected monument used for religious worship.

7. In clause 7 we omit sub-clause (*1*), the substance of which is now included in clause 5. We have made consequential amendments in the wording of sub-clause (*2*), now (*1*), and in sub-clause (*3*), now (*2*), we insert before "necessary" the words "which is in the opinion of the Collector", we have also added words to make it clear that a person required to take action under an agreement shall not be deemed to have "neglected" to do so until a reasonable time has been allowed him for the purpose.

8. We have extended clause 9 to all persons competent to enter into an agreement under clause 5; and we add a new sub-clause (*2*) to provide for the hearing of applications to obtain the proper application of an endowment, and for the enforcement of the District Judge's orders.

9. After careful consideration, we propose to omit clause 10. As it stands the clause is practically inoperative, since it makes no provision for the legal consequences of default in giving the notice required, and so many legal difficulties arise in connection with this question that we have failed in arriving at a satisfactory solution.

10. We have amplified the opening words of clause 11, now clause 10, so as to make it clear that the compulsory powers of Government are not to be exercised unless where a protected monument is in danger of being destroyed, injured or allowed to fall into decay. We have changed the provisos of this clause into sub-sections, we extend the second proviso to all persons competent to enter into an agreement under clause 5, and the third proviso has been transferred to the new clause 21. The fourth proviso has been the subject of unfavourable comment, and we have omitted it.

11. We have added the single word "agents" to clause 12, now 11. In the opening words of clause 14, now 13, we have substituted for "monument" the expression "place of worship or shrine", we omit the words referring to the "purpose of its foundation," which might in certain cases prove to be embarrassing. We add to the clause a new sub-clause, which is intended to afford a safeguard against the desecration of any building periodically used for religious worship. In clause 16, now 15, we have taken out the words "free of charge", as there may be cases in which a small charge for maintenance would be advisable.

12. The maximum penalties proposed in clause 17, now 16, appear to us inadequate. We have raised the limit to Rs. 5,000 fine or three months' imprisonment.

13. In clause 18, now 17, we have altered "object or objects" into "antiquities or class of antiquities". Clause 19, (now 18), sub-clause (*5*), seems to require some qualification. It is not necessary that the owner should in all cases have the right to compel Government to purchase his property or to pay compensation; we have therefore inserted words permitting Government to exempt any property from a general notification, to purchase the property if it be movable, or to compensate the owner for any damage sustained if it be immovable.

14. In clause 20, now 19, we have taken out sub-clauses (*2*), (*3*) and (*4*), which are rendered unnecessary by the new clause 21; and in sub-clause (*5*), now (*2*), we have substituted the expression "any reasonable ground" for "any ground". As there is now no definition of "excavation" in the Bill, we add words to clause 21, now 20, making it clear that the power to control excavation is only to be used for the purpose of protecting or preserving ancient monuments.

15. In the new clause 21 we propose to apply the rules of the Land Acquisition Act to all the cases in which market-value or amount of compensation will have to be assessed. This general clause enables us to omit so much of clauses 5, 11, 19, 20 and 21 of the Bill as introduced as relates to the ascertainment of market-value or compensation. In the proviso we reproduce the third proviso to clause 11 of the Bill as introduced, adding words to the effect that the assessor nominated by the Collector shall be a competent person, and that the owner shall be allowed a reasonable time to make his own nomination. The new clause 22 provides that offences shall not be tried by Magistrates of the third class, and this enables us to omit the words "on conviction by a Magistrate of the first or second class" wherever they occur.

16. In regard to clause 23 of the Bill, now 24, it has been pointed out that the expression "No suit or other legal proceeding" might be held to cover suits for possession to which the guardian of a protected monument may conceivably be made a party; we have therefore adopted the expression "No suit for compensation and no criminal proceeding". We have also substituted "public servant" for "person" in the third line of the clause.

17. The publication ordered by the Council has been made as follows:—

No. II.

THE ANCIENT MONUMENTS PRESERVATION BILL.

CONTENTS.

SECTIONS.

[The portions printed in italics denote the alterations proposed by the Select Committee.]

No. II.

A Bill to provide for the preservation of Ancient Monuments and of objects of archæological, historical or artistic interest.

WHEREAS it is expedient to provide for the preservation of ancient monuments, for the exercise of control over traffic in antiquities and over excavation in certain places, and for the protection and acquisition in certain cases of ancient monuments and of objects of archæological, historical or artistic interest; It is hereby enacted as follows:—

Short title and extent.

1 (1) This Act may be called the Ancient Monuments Preservation Act, 1904.

(2) It extends to the whole of British India, inclusive of British Baluchistan, the Sonthal Parganas and the Pargana of Spiti.

Definitions

2. In this Act, unless there is anything repugnant in the subject or context,—

(1) "ancient monument" means any structure, erection or monument, or any tumulus or place of interment, or any *cave*, rock-sculpture, inscription or monolith, which is of historical, archæological or artistic interest, or any remains thereof, and includes—

(a) the site of an ancient monument;

(b) such portion of land adjoining the site of an ancient monument as may be required for fencing or covering in or otherwise preserving such monument; and

(c) the means of access to and convenient inspection of an ancient monument:

(2) "antiquities" include any moveable objects which the Government, by reason of their historical or archæological associations, may think it necessary to protect against injury, removal or dispersion:

(3) "Commissioner" includes any officer authorized by the Local Government to perform the duties of a Commissioner under this Act:

(4) "maintain" and "maintenance" include the fencing, covering in, repairing, restoring and cleansing of a protected monument, and the doing of any act which may be necessary for the purpose of maintaining a protected monument or of securing convenient access thereto:

The Ancient Monuments Preservation Bill.

(*Section 3. Ancient Monuments.—Section 4-5.*)

(5) "land" includes a revenue-free estate, a revenue-paying estate, and a permanent transferable tenure, whether such estate or tenure be subject to incumbrances or not: and

(6) "*owner*" *includes a joint owner invested with powers of management on behalf of himself and other joint owners, and any manager or trustee exercising powers of management over an ancient monument, and the successor in title of any such owner and the successor in office of any such manager or trustee.*

Provided that nothing in this Act shall be deemed to extend the powers which may lawfully be exercised by such manager or trustee

Protected monuments

3 (*1*) *The Local Government may, by notification published in the local official Gazette, declare an ancient monument to be a protected monument within the meaning of this Act.*

(*2*) *A copy of every notification published under sub-section* (*1*) *shall be fixed up in a conspicuous place on or near the monument, together with an intimation that any objections to the issue of the notification received by the Local Government within one month from the date when it is so fixed up will be taken into consideration.*

(*3*) *On the expiry of the said period of one month, the Local Government, after considering the objections, if any, shall confirm or withdraw the notification.*

(*4*) *A notification published under this section shall, unless and until it is withdrawn, be conclusive evidence of the fact that the monument to which it relates is an ancient monument within the meaning of this Act.*

Ancient Monuments.

Acquisition of rights in or guardianship of an ancient monument.

4 (*1*) The *Collector*, with the sanction of the Local Government, may purchase or take a lease of any protected monument.

(*2*) The *Collector, with the like sanction, may* accept a gift or bequest of any protected monument.

(*3*) The owner of any protected monument may, by written instrument, constitute the Commissioner the guardian of the monument, and the Commissioner may, with the sanction of the Local Government, accept such guardianship.

(*4*) When the Commissioner has accepted the guardianship of a monument under sub-section (*3*), the owner shall, except as expressly provided in this Act, have the same estate, right, title and interest in and to the monument as if the Commissioner had not been constituted guardian thereof.

(*5*) When the Commissioner has accepted the guardianship of a monument under sub-section (*3*), the provisions of this Act relating to agreements executed under section 5 shall apply to the written instrument executed under the said sub-section.

(*6*) *Where a protected monument is without an owner, the Commissioner may assume the guardianship of the monument.*

Preservation of ancient monument by agreement

5. (*1*) The Collector may, with the previous sanction of the Local Government, propose to the owner to enter into an agreement with the Secretary of State for India in Council for the preservation of any protected monument in his district.

(*2*) An agreement under this section may provide for the following matters, or for such of them as it may be found expedient to include in the agreement :—

(*a*) the maintenance of the monument,

(*b*) the custody of the monument, and the duties of any person who may be employed to watch it,

(*c*) the restriction of the owner's right to destroy, remove, alter or deface the monument *or to build on or near the site of the monument*,

(*d*) the facilities of access to be permitted to the public or to any portion of the public and to persons deputed by the owner or the Collector to inspect or maintain the monument;

(*e*) the notice to be given to the Government in case the land on which the monument is situated is offered for sale by the owner, and the right to be reserved to the Government to purchase such land, or any specified portion of such land, at its market-value;

(*f*) the payment of any expenses incurred by the owner or by the Government in connection with the preservation of the monument,

(*g*) the proprietary or other rights which are to vest in *His Majesty* in respect of the monument when any expenses are incurred by the Government in connection with the preservation of the monument;

(*h*) *the appointment of an authority to decide any dispute arising out of the agreement; and*

(*i*) any matter connected with the preservation of the monument which is a proper subject of agreement between the owner and the Government.

(*3*) An agreement under this section may be executed by the Collector on behalf of the Secretary of State for India in Council, but shall not be so executed until it has been approved by the Local Government.

The Ancient Monuments Preservation Bill.

(*Ancient Monuments—Sections 6-10.*)

(4) *The terms of an agreement under this section may be altered from time to time with the sanction of the Local Government and with the consent of the owner.*

(5) *With the previous sanction of the Local Government, the Collector may terminate an agreement under this section on giving six months' notice in writing to the owner.*

(6) *The owner may terminate an agreement under this section on giving six months' notice to the Collector.*

(7) *An agreement under this section shall be binding on any person claiming to be owner of the monument to which it relates, through or under a party by whom or on whose behalf the agreement was executed.*

(8) *Any rights acquired by Goverment in respect of expenses incurred in protecting or preserving a monument shall not be affected by the termination of an agreement under this section.*

Owners under disability or not in possession.

6 (1) If the owner is unable, by reason of infancy or other disability, to act for himself, the person legally competent to act on his behalf *may exercise the powers conferred upon an owner by section 5.*

(2) In the case of village-property, the headman or other village-officer exercising powers of management over such property *may exercise the powers conferred upon an owner by section 5.*

(3) *Nothing in this section shall be deemed to empower any person not being of the same religion as the persons on whose behalf he is acting to make or execute an agreement relating to a protected monument which or any part of which is periodically used for the religious worship or observances of that religion.*

Enforcement of agreement

7. (1) If the Collector apprehends that the owner or occupier of a monument intends to destroy, remove, *alter*, deface, or imperil the monument *or to build on or near the site thereof* in contravention of the terms of an agreement for its preservation under section 5, the Collector may make an order prohibiting any such contravention of the agreement.

(2) If an owner *or other person* who *is bound by* an agreement for the preservation or maintenance of a monument under section 5 refuses to do any act *which is in the opinion of the Collector* necessary to such preservation or maintenance, *or neglects to do any such act within such reasonable time as may be fixed by the Collector*, the Collector may authorize any person to do any such act, and the expense of doing any such act or such portion of the expense as the owner may be liable to pay under the agreement may be recovered from the owner as if it were an arrear of land-revenue.

(3) A person aggrieved by an order made under this section may appeal to the Commissioner, who may cancel or modify it and whose decision shall be final

Purchaser, etc, bound by instrument executed by owner

8 Every person who purchases, at a sale for arrears of land-revenue or any other public demand, or at a sale made under the Bengal Patni Taluks Regulation, 1819, an estate or tenure in which is situated a monument in respect of which any instrument has been executed by the owner for the time being, under section 4 or section 5, and every person claiming any title to a monument from, through or under an owner who executed any such instrument, shall be bound by such instrument.

Application of endowment to repair of an ancient monument.

9. (1) If any owner *or other person competent* to enter into an agreement under section 5 for the preservation of a protected monument, *refuses or fails to enter into such an agreement when proposed to him by the Collector*, and if any endowment has been created for the purpose of keeping such monument in repair, or for that purpose among others, the Collector may institute a suit in the Court of the District Judge, or, if the estimated cost of repairing the monument does not exceed one thousand rupees, may make an application to the District Judge for the proper application of such endowment or part thereof.

(2) *On the hearing of an application under sub-section (1), the District Judge may summon and examine the owner and any person whose evidence appears to him necessary, and may pass an order for the proper application of the endowment or of any part thereof, and any such order may be executed as if it were the decree of a Civil Court.*

Compulsory purchase of ancient monument.

10. (1) *If the Local Government apprehends that a protected monument is in danger of being destroyed, injured or allowed to fall into decay, the Local Government may proceed to acquire it under the provisions of the Land Acquisition Act, 1894, as if the preservation of a protected monument were a "public purpose" within the meaning of that Act.*

(2) The powers of compulsory purchase conferred by *sub-section* (1) shall not be exercised in the case of—

(*a*) any monument which or any part of which is periodically used for religious observances; or

(*b*) any monument which is the subject of a subsisting agreement executed under section 5

(3) In any case other than the cases referred to in *sub-section* (2) the said powers of compulsory purchase shall not be exercised unless the

The Ancient Monuments Preservation Bill.

(Ancient Monuments.—Sections 11-17.)

owner *or other person competent to enter into an agreement under section 5* has failed, within *such* reasonable period *as the Collector may fix in this behalf,* to enter into an agreement proposed to him under the said section *or has terminated or given notice of his intention to terminate such an agreement.*

Maintenance of certain protected monuments

11. (*1*) The Commissioner shall maintain every monument in respect of which the Government has acquired any of the rights mentioned in section 4 or which the Government has acquired under section 10.

(*2*) When the Commissioner has accepted the guardianship of a monument under section 4, he shall, for the purpose of maintaining such monument, have access to the monument at all reasonable times, by himself and by his *agents,* subordinates and workmen, for the purpose of inspecting the monument, and for the purpose of bringing such materials and doing such acts as he may consider necessary or desirable for the maintenance thereof.

Voluntary contributions

12 The Commissioner may receive voluntary contributions towards the cost of maintaining a protected monument and may give orders as to the management and application of any funds so received by him:

Provided that no contribution received under this section shall be applied to any purpose other than the purpose for which it was contributed

Place of worship, etc, not to be diverted to unsuitable purpose

13. (*1*) A *place of worship or shrine* maintained by the Government under this Act shall not be used for any purpose inconsistent with its character.

(*2*) *Where the Collector has, under section 4, purchased or taken a lease of any protected monument, or has accepted a gift or bequest, or the Commissioner has, under the same section, accepted the guardianship thereof, and such monument, or any part thereof, is periodically used for religious worship or observances by any community, the Collector shall make due provision for the protection of such monument, or such part thereof, from pollution or desecration—*

(*a*) *by prohibiting the entry therein, except in accordance with conditions prescribed with the concurrence of the persons in religious charge of the said monument or part thereof, of any person not entitled so to enter by the religious usages of the community by which the monument or part thereof is used, or*

(*b*) *by taking such other action as he may think necessary in this behalf.*

Relinquishment of Government rights in a monument.

14. With the sanction of the Local Government, the Commissioner may—

(*a*) where rights have been acquired by Government in respect of any monument under this Act by virtue of any sale, lease, gift or will, relinquish the rights so acquired to the person who would for the time being be the owner of the monument if such rights had not been acquired, or

(*b*) relinquish any guardianship of a monument which he has accepted under this Act.

Access to certain protected monuments

15. (*1*) Subject to such rules as may after previous publication be made by the Local Government, the public shall have a right of access to any monument maintained by the Government under this Act.

(*2*) In making any rule under sub-section (*1*), the Local Government may provide that a breach of it shall be punishable with fine which may extend to twenty rupees.

Penalties.

16. Any person other than the owner who destroys, removes, injures, *alters,* defaces or imperils a protected monument, and any owner who destroys, removes, injures, *alters,* defaces or imperils a monument maintained by Government under this Act or in respect of which an agreement has been executed under section 5, and any owner or occupier who contravenes an order made under section 7, sub-section (*1*), shall be punishable with fine which may extend to *five* thousand rupees, or with imprisonment which may extend to *three* months, or with both

Traffic in Antiquities.

Power to control traffic in antiquities

17. (*1*) If the Governor General in Council apprehends that antiquities are being sold or removed to the detriment of India or of any neighbouring country, he may, by notification in the Gazette of India, prohibit or restrict the bringing or taking by sea or by land of any *antiquities or class of antiquities* described in the notification into or out of British India or any specified part of British India.

(*2*) Any person who brings or takes or attempts to bring or take any such *antiquities* into or out of British India or any part of British India in contravention of a notification issued under sub section (*1*), shall be punishable with fine which may extend to five hundred rupees.

(*3*) *Antiquities* in respect of which an offence referred to in sub-section (*2*) has been committed shall be liable to confiscation.

(*4*) An officer of customs, or an officer of Police of a grade not lower than Sub-Inspector, duly empowered by the Local Government in this behalf, may search any vessel, cart or other means of conveyance, and may open any baggage or package of goods, if he has reason to believe that goods in respect of which an offence has been committed under sub section (*2*) are contained therein.

(*5*) A person who complains that the power of search mentioned in sub-section (*4*) has been vexatiously or improperly exercised may address his complaint to the Local Government, and

The Ancient Monuments Preservation Bill.

(Protection of Sculptures, Inscriptions, Carvings, etc.—Sections 18-24)

the Local Government shall pass such order and may award such compensation, if any, as appears to it to be just.

Protection of Sculptures, Inscriptions, Carvings, etc.

Sculptures, etc., not to be moved without permission in certain cases.

18. (*1*) If the Local Government considers that any sculptures, carvings, images, bas-reliefs, inscriptions or other like objects ought not to be moved from the place where they are without the sanction of the Government, the Local Government may, by notification in the local official Gazette, direct that any such object or any class of such objects shall not be moved unless with the written permission of the Collector

(*2*) A person applying for the permission mentioned in sub-section (*1*) shall specify the object or objects which he proposes to move, and shall furnish, in regard to such object or objects, any information which the Collector may require.

(*3*) If the Collector refuses to grant such permission, the applicant may appeal to the Commissioner, whose decision shall be final.

(*4*) Any person who moves any object in contravention of a notification issued under sub-section (*1*), shall be punishable with fine which may extend to five hundred rupees.

(*5*) *If the owner of any property proves to the satisfaction of the Local Government that he has suffered any loss or damage by reason of the inclusion of such property in a notification published under sub-section (1), the Local Government shall either—*

(*a*) *exempt such property from the said notification,*

(*b*) *purchase such property, if it be movable, at its market value, or*

(*c*) *pay compensation for any loss or damage sustained by the owner of such property, if it be immovable.*

Purchase of sculptures, etc., by the Government

19 (*1*) If the Local Government apprehends that any object mentioned in a notification issued under section 18, sub-section (*1*), is in danger of being destroyed, removed, injured or allowed to fall into decay, the Local Government may *pass orders for the compulsory* purchase *of* such object *at its market-value*, and the Collector shall thereupon give notice to the owner of the object to be purchased

(2) The power of compulsory purchase given by this section shall not extend to—

(*a*) any image or symbol actually used for the purpose of any religious observance; or

(*b*) anything which the owner desires to retain on any *reasonable* ground personal to himself or to any of his ancestors or to any member of his family.

Excavations.

Power to control excavation

20. (*1*) If the Local Government is of opinion that excavation within the limits of any local area ought to be restricted or regulated *for the purpose of protecting or preserving any ancient monument*, the Local Government may, by notification in the local official Gazette, make rules—

(*a*) fixing the boundaries of the area to which the rules are to apply, and

(*b*) prescribing the authority by which, and the terms on which, licenses to excavate may be granted

(*2*) The power to make rules given by this section is subject to the condition of the rules being made after previous publication.

(*3*) A rule made under this section may provide that any person committing a breach thereof shall be punishable with fine which may extend to two hundred rupees.

(*4*) If any owner or occupier of land included in a notification under sub-section (*1*), proves to the satisfaction of the Local Government that he has sustained any loss by reason of such land being so included, the Local Government shall pay compensation in respect of such loss.

General.

Assessment of market-value or compensation

21 (*1*) *The market-value of any property which Government is empowered to purchase at such value under this Act, or the amount of compensation to be paid by Government in respect of anything done under this Act, shall, where any dispute arises touching the amount of such market-value or compensation, be ascertained in the manner provided by the Land Acquisition Act, 1894, sections 3, 8 to 34, 45 to 47, 51 and 52, so far as they can be made applicable:*

Provided that when making an inquiry under the said Land Acquisition Act the Collector shall be assisted by two assessors, one of whom shall be *a competent person* nominated by the Collector, and one *a person nominated* by the owner or, *in case the owner fails to nominate an assessor within such reasonable time as may be fixed by the Collector in this behalf*, by the Collector.

Jurisdiction.

22 *A Magistrate of the third class shall not have jurisdiction to try any person charged with an offence against this Act.*

Power to make rules.

23. (*1*) The Governor General in Council or the Local Government may make rules for carrying out any of the purposes of this Act.

(*2*) The power to make rules given by this section is subject to the condition of the rules being made after previous publication.

No suit *for compensation or criminal proceeding* in respect of acts done *by public servants* in exercise of powers given by Act.

24 No suit *for compensation and no criminal* proceeding shall lie against any *public servant* in respect of any act done, or in good faith intended to be done, in the exercise of any power conferred by this Act.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to provide for the constitution and control of Co-operative Credit Societies was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th March, 1904:—

WE, the undersigned, Members of the Select Committee to which the Bill to provide for the constitution and control of co-operative credit societies was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto

From Agent, Commercial Bank of India, Limited, Calcutta, dated 16th November, 1903 [Paper No 1]
From Resident, Hyderabad, No. 449—J, dated 13th November, 1903 [Paper No 2]
From Registrar, High Court, Calcutta No 3578, dated 14th December, 1903 [Paper No 3]
From Chief Commissioner, Coorg, No 2049, dated 17th December, 1903, and enclosure [Papers No 4]
From Agent, Governor General, Baluchistan, No 7038, dated 21st December, 1903 [Paper No 5]
From Chief Commissioner, Ajmer Merwara, No 637 C.—690, dated 27th December, 1903, and enclosure [Papers No 6]
From A Rogers, Esq, London, late Bombay Civil Service, dated 2nd December, 1903 [Paper No 7]
From Indian Industrial Association, dated 2nd January, 1904 [Paper No 8]
From Government, Burma, No 852—L-33, dated 30th December, 1903, and enclosures [Papers No 9]
From Chief Commissioner, Central Provinces, No 10426, dated 21st December, 1903, and enclosures [Papers No 10]
From Government, Bengal, No 78 (Land Revenue), dated 4th January, 1904, and enclosures [Papers No 11]
Note by Mr N K Venkatésan, Madras [Paper No 12]
From Chief Commissioner Assam, No 117 L & L -39-J, dated 6th January, 1904 [Paper No 13]
From Chief Commissioner, North-West Frontier Province, No 32-G, dated 9th January, 1904, and enclosures [Papers No 14]
From the Hon'ble Mr D M Hamilton dated 12th January, 1904 [Paper No 15]
From Government, Punjab, No 9, dated 12th January, 1904, and enclosures [Papers No 16]
From ditto, No 15, dated 8th January, 1904, and enclosures [Papers No 17]
From Government United Provinces, No 164, dated 15th January, 1904, and enclosures [Papers No 18]
From Government, Madras, No 87, dated 22nd January, 1904, and enclosures [Papers No 19]
From Government, Bombay, No 733, dated 29th January, 1904, and enclosures [Papers No 20]

2 *Clause 2.*—We have omitted the definition of "ex-member," as, following the language of the Indian Companies Act, 1882, we have substituted the term "past member" for "ex-member" throughout the Bill We have also omitted the definitions of "urban society" and "rural society," having converted the subject-matter of these definitions into substantive provisions under a separate heading dealing with the constitution of societies.

3 *Clause 3*—This clause, which is new, reproduces the substance of the definitions last referred to with certain very material alterations which appear to us to be necessary. *First*, we have provided that, with the sanction of the Registrar, societies may be formed of persons of the same tribe, class or caste, without regard to propinquity of residence, so as to suit such cases as societies to be formed by agricultural tribes in the Punjab or Native Christians in the Madras Presidency *Secondly*, we have given power to admit to urban and rural societies a proportion of one-fifth of agriculturists and non-agriculturists respectively. *Lastly*, we have not thought it desirable to restrict any society to persons of limited means but have thrown them open to all persons above the age of eighteen years.

4. *Clause 4* (clause 5 of Bill).—We have provided that new members need not necessarily be elected by the members for the time being, but may be admitted by the society in any manner provided by the by-laws, and we have modified the proviso to the clause so as to cover cases in which the condition of admission to membership is the acquisition of an interest in the society as well as the payment of a specific sum.

5. *Clause 6* (clause 4 of Bill).—The modifications in sub-clause (*1*) are consequential on those above explained. Sub-clause (*4*) is new and prescribes that the registered name of a society shall distinguish between rural and urban societies and shall, where the liability of the members is limited, also indicate that fact.

6. *Clause 7* (clause 6 (*1*) of Bill).—While recognizing that in a rural society the ordinary principle should be unlimited liability, we have provided that this rule may be

relaxed with the sanction of the Local Government. In the case of an urban society, by omitting the reference to shares, we have permitted limitation of liability by guarantee as well as by shares.

7. *Clause 8* (clause 6 (*2*) and (*3*) of Bill).—We have limited the first portion of this clause to rural societies and have further relaxed under certain conditions the rule that in the case of such societies no payment on account of profits shall be made to members But we have guarded against any distribution of profits until the society has accomplished its purpose of reducing interest on loans and finds itself in a thoroughly stable condition. The second part of the clause differs from the Bill as introduced in applying to all urban societies, whether unlimited or limited.

8. *Clause 9* (clause 7 of Bill).—We have allowed societies of both kinds to receive deposits from members without restriction, but we have provided that societies of neither kind may borrow from persons who are not members, except in accordance with their by-laws or with rules made under the Act.

9 *Clause 10, sub-clause* (*1*) (clause 8 (*1*) and (2) of Bill).—We have allowed rural societies as well as urban societies to lend to rural societies, but have provided that the sanction of the Registrar must be obtained in each case.

10. *Clause 10, sub-clauses* (*2*) *and* (*3*) (clause 8 (*3*), (*4*) and (*5*) of Bill) —We have carefully considered the conflicting opinions on the question whether societies should be allowed to make loans on the pledge of moveable property and on the mortgage of immoveable property. We fear that if these forms of security were prohibited a member might borrow what he could from the society, on personal security, and would then be able with his credit unimpaired to go to the moneylender and borrow further sums on his moveable and immoveable property Moreover, one of the most valuable forms of aid which a member can receive from his society may be the substitution of a mortgage on reasonable, for one on onerous, terms We also think that a society, whether urban or rural, will generally be composed of persons who have been accustomed to deal with pledges and mortgages. On the other hand we recognise the difficulties and even the dangers to a society which may arise from such transactions, and especially the importance of keeping capital readily available, and of avoiding litigation; and, while removing the prohibitions contained in the Bill as introduced against the lending of money on the security of moveable property (other than agricultural produce) or on mortgage of immoveable property, we have made provisions by which the Registrar in the case of pledges and the Local Government in the case of mortgages may exercise a restraining influence on such operations of societies.

11 *Clause 11* —With the desire that approved bankers may be interested in the financing of societies, we have provided in this clause (which is new) that the funds of societies may be deposited with them as well as in the Government Savings Bank.

12 *Clauses 12 and 13* (clause 9 of Bill) —It has been pointed out that, if the maximum portion of the capital of a society that can be held by one person is one-tenth, it would be necessary that all members of a society of ten persons should hold exactly the same amount of share capital. We have therefore raised the limit to one-fifth, and we have provided that a single member shall not hold more shares than represent a nominal value of one thousand rupees. In clause 13 (which is new) we have dealt with the question of the voting power of members. In the case of societies not limited by shares we have thought it expedient, with a view to preventing preponderating influence by individual members, to adopt the principle of one man one vote In the case of societies limited by-shares, we would leave the number of votes to be given by any member to the by laws on the subject

13 *Clause 15* (clause 11 of Bill).—In order to prevent any question on the point we have expressly saved the charge of the society on the shares and other interest of a member, as provided for in clause 20 of our revised Bill, from the operation of this clause

14 *Clause 16* (clause 12 of Bill).—The alterations we have suggested in this clause are little more than formal, but it may be mentioned that we have inserted words requiring the society to pay or transfer the sum representing the value of the share or interest of a deceased member to the person nominated by him in accordance with the rules under the Act in preference to any other representative of the deceased.

15. *Clauses 17 and 18*.—Following the analogy of the Indian Companies Act, we have provided in these clauses (which are new) that the liability of a past member or a deceased member for the debts of the society, as they existed at the time when he ceased to be a member or died, shall continue for the period of one year from the date of his ceasing to be a member or of his death.

16. *Clause 19* (clause 13 of Bill).—We think that, if the prior claim of a society against a member for seed advanced, or money lent for the purchase of seed, extended only to the crops grown from that seed, awkward questions might arise in realization. We have therefore extended the priority to all crops or agricultural produce and have limited it to a period of one year from the date of the advance of seed or loan, and we have put manure in the same category as seed. We have also provided for cases in which a society may directly supply cattle, agricultural or industrial instruments or raw material for manufactures to its members.

17. *Clause 21, sub-clauses* (*5*) *and* (*6*) (clause 15 (*5*) and (*6*) of Bill).—We have substituted one-third for one-tenth as the minimum proportion of members on whose application the Registrar is bound to make an inquiry, in order that the Registrar's time may not be

wasted in inquiries on frivolous and vexatious applications. *Sub-clause* (*7*) is new. It provides for the recovery of costs by any person, to whom they have been awarded by the Registrar under sub-clause (*6*), by application to a Magistrate having jurisdiction where the person from whom the same are claimable for the time being resides. Costs awarded to Government are recoverable under clause 20 (*1*) of the Bill as introduced (now clause 26) as arrears of land-revenue.

18. *Clause 22* (clause 16 of Bill).—We have somewhat expanded this clause so as to bring it more into line with the provisions of section 4 of the Bankers' Books Evidence Act, 1891, which provides for the admission in evidence of certified copies of entries in bankers' books.

19. *Clause 23.*—We have provided for the voluntary winding up of a society if three-fourths of the members desire it and the Registrar approves. And we have allowed an appeal from the order of the Registrar declining to cancel the registration of a society as well as one from an order of cancellation.

20 *Clause 24, sub-clauses* (*1*), (*3*), (*5*) *and* (*6*) (clause 18 (*1*), (*3*) and (*5*) of Bill).—We have substituted the Registrar for the Local Government as the authority for appointing a liquidator in sub-clause (*1*) We have recast sub-clause (*3*), which defines the supplementary powers of the liquidator, so as to assimilate it to section 14 of the Land Acquisition Act, 1894, which confers like powers on the Collector under that Act. We have expanded the language of sub-clause (*5*), which provides for the enforcement of orders passed by the liquidator or by the District Judge in appeal from him, so as to make the effect of the provision more clear. By sub-clause (*6*), which is new, we have barred the jurisdiction of Civil Courts in matters connected with the dissolution of societies.

21. *Clause 25* (clause 19 of Bill).—We have, by a change in the general form of this clause, made it clear that all the exemptions which it contemplates may be granted in the case of any class of societies as well as of individual societies.

22 *Clause 26, sub-clause* (*2*) (clause 20 (*2*) of Bill) —We have recast this sub-clause so as to make sums due from a society to Government recoverable (*a*) from the property of the society, (*b*) in case of societies where the liability of the members of the society is limited, from the members subject to the limit of their liability, and (*c*) in the case of other societies, from the members

23. *Clause 27* (clause 21 of Bill).—We have inserted various new subjects on which rules may be made, the most important of which are (*1*) the amount of payment to be made or interest to be acquired before the exercise of rights of membership, (*2*) the period for which loans may be made and the amount which may be lent to an individual member, (*3*) the manner in which capital may be raised by means of shares or debentures or otherwise, (*4*) the proportion of the reserve funds to total liabilities which is to be attained and the rate to which interest on loans to members is to be reduced before a rural society may distribute any profits, (*5*) the periodical publication of balance-sheets showing the assets and liabilities of societies, and (*6*) the objects to which reserve funds may be applied. We have further altered clause (*p*), which deals with rules as to the settlement of disputes touching the business of societies, prescribing that such disputes shall first be referred to the Registrar for decision and only if he so directs, to arbitration, and taking power to provide for the enforcement of decisions of the Registrars as well as awards of arbitrators Lastly, we have declared [sub-clause (*3*)] that the rules shall be subject to the condition of previous publication, [sub-clause (*4*)] that when made they shall be published in the local official Gazette, and [sub-clause (*5*)] that copies of the rules and by-laws relating to each society shall be kept open to inspection free of charge at all reasonable times at the registered address of the society.

24. *Clause 29* is new. Its object is to provide for the registration under the proposed law of special societies which may not be of such a nature as to fall within its provisions. It enables the Local Government by special order to permit any association of ten or more persons above the age of eighteen years to be registered as a society under the Act, with such exemptions from, or modifications of, its provisions as the Local Government may think fit to direct, in the case of each such society.

The 3rd March, 1904

[The alterations proposed by the Select Committee are shown in italics.]

No. II.

A Bill to provide for the constitution and control of Co-operative Credit Societies.

WHEREAS it is expedient to encourage thrift, self-help and co-operation among agriculturists, artisans and persons of limited means, and for that purpose to provide for the constitution and control of co-operative credit societies; It is hereby enacted as follows:—

Preliminary

Short title and extent. 1. (*1*) This Act may be called the Co-operative Credit Societies Act, 1904; *and*

(*2*) It extends to the whole of British India.

Definitions. 2. In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "by-law" means a rule made by a society in the exercise of any power conferred by this Act, or by any rule made under this Act

(*b*) "committee" means the *governing* body of a society *to whom the management of its affairs is entrusted:*

(*c*) "member" includes a person joining in the application for the registration of a society and a person admitted to membership after registration in accordance with the by-laws and any rules made under this Act.

(*d*) "officer" includes a chairman, secretary, treasurer, member of committee or other person empowered *under the rules applying to any society or the by-laws thereof* to give directions in regard to the business of *the* society

(*e*) "Registrar" means *a* person appointed to perform the duties of a Registrar of Co-operative Credit Societies under this Act and

(*f*) "society" means a co-operative credit society registered under this Act.

Constitution.

Constitution of societies. 3. (*1*) *A society shall consist of ten or more persons above the age of eighteen years—*

(*a*) *residing in the same town or village or in the same group of villages, or,*

(*b*) *subject to the sanction of the Registrar, consisting of members of the same tribe, class or caste.*

(*2*) *Societies shall be either rural or urban. In a rural society not less than four-fifths of the members shall be agriculturists. In an urban society not less than four-fifths of the members shall be non-agriculturists.*

(*3*) *When any question arises as to whether for the purposes of this Act a person is an agriculturist or a non-agriculturist, or whether two or more villages shall be considered to form a group, or whether any person belongs to a tribe, class or caste, the question shall be decided by the Registrar, whose decision shall be final.*

Members of society. 4. The members of a society shall be—

(*a*) persons joining in the application mentioned in section 6, sub-section (*1*), and registered as a society under sub-section (*2*) of the same section;

(*b*) persons *qualified in accordance with the requirements of* section 3 and *admitted by the society in accordance with the provisions of this Act and with the by-laws of the society*

Provided that a person so *admitted* shall not *exercise the rights of* a member unless *or* until he has *made such payment* to the society in respect of membership *or acquired such interest in the society as may be prescribed by the rules made under this Act or the by-laws of the soeiety*

Registration.

The Registrar. . The Local Government may appoint a person to be Registrar of Co-operative Credit Societies for the Province or any portion of it.

Registration and incorporation of societies. 6 (*1*) Any ten or more persons *qualified in accordance with the requirements of* section 3 *and agreeing each to make such payment or acquire such interest as aforesaid,* may apply to the Registrar to be registered as a rural or an urban society, as the case may be, and the persons by whom or on whose behalf such application is made shall furnish such information in regard to the proposed society as the Registrar may require.

(*2*) If the Registrar is satisfied that the persons proposing to form a society *are qualified in accordance with the requirements of this Act and* have complied with the provisions of this Act and with the rules made thereunder, he may, *if he thinks fit,* register the society accordingly, and the society shall thereupon become and be a body corporate by the name under which it is registered, with perpetual succession and a common seal, and with power to hold property, moveable or immoveable, to enter into contracts, to institute and defend civil suits and to do all things necessary for the purposes of its constitution.

(*3*) Every society shall have *an* address, *registered in accordance with the rules made under this Act,* to which all notices and communications may be sent

(*4*) *The registered name of a society shall distinguish whether the society is rural or urban, and, if the liability of the members is limited, the word "limited" shall be added to such name*

(*5*) No charge shall be made for registration under this section.

Management.

7. The liability of each member of a society for the debts of the society shall be *as follows* —

Liability of members

(*a*) in the case of a rural society, *such liability* shall, *save with the special sanction of the Local Government*, be unlimited,

(*b*) in the case of an urban society, such liability *shall* be unlimited or limited as may be provided by the by-laws or by any rules made under this Act.

8. (*1*) No dividend or payment on account of profits shall be paid to a member of a rural society, *but all profits made by such a society shall be carried to a fund (to be called the reserve fund)*

Disposal of profits

Provided that, when such reserve fund has attained such proportion to the total of the liabilities of the society, and when the interest on loans to members has been reduced to such rates, as may be determined by the by-laws or rules made under this Act, any further profits of the society, not exceeding three-fourths of the total annual profits, may be distributed to members by way of bonus

(*2*) Not less than one-fourth of the profits in each year *of an urban society* shall be carried to a fund (to be called the Reserve Fund) before any dividend or payment on account of profits is paid to the members or any of them.

9. *A society may receive deposits from members without restriction, but it may borrow from persons who are not members only to such extent and under such conditions as may be provided by its by-laws or by rules made under this Act.*

Restrictions on borrowing

10 (*1*) *A society shall make no loan to any person other than a member*

Restrictions on loans

Provided that, with the consent of the Registrar, a society may make loans to a rural society.

(*2*) Save *with the permission of the Registrar to be given by general order in the case of each society*, a rural society shall not lend money on the security of moveable property.

(*3*) *The Local Government may, by general or special order, prohibit or restrict the lending of money on mortgage of immoveable property or any kind thereof by any society or class of societies*

11. *A society may deposit its funds in the Government Savings Bank or with any banker or person acting as a banker approved for this purpose by the Registrar.*

Deposit of society's funds

Shares and Interests of Members

12. *Where the liability of the members of a society is limited by shares*, a member shall not hold more than such portion of the capital of *the* society, subject to a maximum of *one-fifth*, as may be prescribed by any rules made under this Act

Limit on capital held by member

Provided that no member of *such* a society shall hold more *shares than represent a nominal value of* one thousand rupees

13 (*1*) *Where the liability of the members of a society is not limited by shares, each member shall, notwithstanding the amount of his interest in the capital, only have one vote as a member in the affairs of the society*

Votes of members

(*2*) *Where the liability of the members of a society is limited by shares, each member shall have as many votes as may be prescribed by the by-laws of the society.*

14 (*1*) A member shall not transfer any share held by him or his interest in the capital of the society or any part thereof, unless he has held such share or interest for one year at least

Restrictions on transfer of share or interest

(*2*) The share or interest of a member in the capital of a society shall not be transferred or *charged*, unless to the society or to a member of the society and subject to any conditions as to maximum holding prescribed by this Act or by the by-laws or by any rules made under this Act.

15. *Subject to the provisions of section 20*, the share or interest of a member in the capital of a society shall not be liable to attachment *or sale* under any decree or order of a Court of Justice in respect of any debt or liability incurred by such member, and neither the Official Assignee nor a Receiver appointed under Chapter XX of the Code of Civil Procedure shall be entitled to or have any claim on such share or interest.

Shares, etc, not liable to attachment

16. On the death of a member, the society may pay to *or transfer to the credit of the person nominated in accordance with the rules made in this behalf, or, if there is no person so nominated*, such person as may appear to the Committee to be entitled to receive the same *as heir or legal representative of the deceased member* a sum representing the value of such member's share or interest, as ascertained in accordance with the rules or by-laws and all moneys due to him from the society, and the society shall *thereupon be absolved from all liability in respect of such share or interest or other moneys as aforesaid*

Transfer of interest on death of member

17 *The liability of a past member for the debts of the society as they existed at the time when he ceased to be a member shall continue for a period of one year from the date of his ceasing to be a member*

Liability of past member

18. *The estate of a deceased member shall be liable for a period of one year from the time of his decease for the debts of the society as they existed at the time of his decease.*

Liability and participation in assets of the estates of deceased member

Priority of Society's claim against a member.

19. Subject to any prior claim of the Government in respect of land-revenue *or any money recoverable as land-revenue* or of a landlord in respect of rent *or any money recoverable as rent*, a society shall be entitled in priority to other creditors to enforce its claim—

Prior claim of society as against crops, etc

(*a*) upon the crops *or other agricultural produce* of a member *or past member at any time within a year from the date when seed or manure was advanced or money for the purchase of seed or manure was lent to such member or past member, in respect of the unpaid portion of such advance or loan;*

(*b*) upon any cattle, agricultural or industrial implements or raw material for manufactures, *supplied by the society or* purchased *in whole or in part* with money lent by the society, in respect of the *outstanding liability on account of such supply or* loan.

20 A society shall have a *charge* upon the shares *or interest in the capital* and *on the* deposits of a member *or past member and upon any dividend, bonus or profits payable to a member or past member* in respect of any debt due from such member *or past member* to the society, and may set off any sum credited or payable to a member *or past member* in or towards payment of any such debt.

Lien and set-off in respect of shares, etc

Audit, Inspection and Inquiry.

21. (*1*) The Registrar shall audit the accounts of each society once *at least* in every year.

Audit, inspection and inquiry

(*2*) No charge shall be made in respect of *any* audit *made under* sub-section (*1*).

(*3*) The audit under sub-section (*1*) shall include an examination of overdue debts, if any, and a valuation of the assets and liabilities of the society.

(*4*) The Registrar, the Collector or any person authorised in this behalf by the Registrar or the Collector may at any time inspect the books, accounts, papers *and securities* of a society, and every officer of the society shall furnish such information in regard to the transactions and working of the society as the person making such inspection shall require.

(*5*) The Registrar may of his own motion, and shall on the request of the Collector, or on the application of a majority of the Committee or of not less than one-*third* of the members, hold an inquiry into the *constitution*, working and financial condition of a society, and all officers and members of the society shall furnish such information in regard to the affairs of the society as the Registrar may require.

(*6*) Where an inquiry is held under sub-section (*5*), the Registrar may apportion the costs, or such part of the costs as he may think right, between the society, the members demanding an inquiry and the officers or former officers of the society.

(*7*) *Any sum awarded by way of costs under sub-section* (*6*) *may be recovered, on application to a Magistrate having jurisdiction in the place where the person from whom the money is claimable resides for the time being, by the distress and sale of any moveable property within the limits of the jurisdiction of such Magistrate belonging to such person.*

22. *A copy of any entry in a book of a society regularly kept in the course of business, shall, if certified in such manner as may be prescribed by rules made under this Act, be received, in any suit to recover a debt due to the society, as primâ facie evidence of the existence of such entry and shall be admitted as evidence of the matters, transactions and accounts therein recorded in every case where, and to the same extent as, the original entry itself is now by law admissible, but not further or otherwise.*

Mode of proof of entries in societies' books.

Dissolution of a Society

23. (*1*) If the Registrar, after holding an inquiry under section 21, sub-section (*5*), *or on receipt of an application made by three-fourths of the members of a society*, is of opinion that a society ought to be dissolved, he may cancel *or may refuse to cancel* the registration of the society.

Dissolution

(*2*) *Any member of a society may, within two months from the date of* an order made under sub-section (*1*), *appeal from such order* to the Local Government

(*3*) Where no appeal is presented within *two* months from the making of *an* order *cancelling the registration of a society*, the order shall take effect on the expiry of *two* months. Where an appeal is presented within *two* months, the order shall *not* take effect *until* it is confirmed by the Local Government.

(*4*) Where an order made under sub-section (*1*) *cancelling the registration of a society* takes effect, the society shall cease to exist as a corporate body

24. (*1*) Where the registration of a society is cancelled under section 23, the *Registrar* may appoint a competent person to be liquidator of the society.

Cancellation of registration of society.

(*2*) A liquidator appointed under sub-section (*1*) shall have power to institute and defend suits on behalf of the society by his name of office, and shall also have power—

(*a*) to sue for and recover any sums of money due to the society at the date of such cancellation,

(*b*) to determine *the contribution to be made by* the members and *past* members of the society respectively to the assets of the society;

(*c*) to investigate all claims against the society, and, subject to the provisions of this Act, to decide questions of priority arising between claimants;

(*d*) to determine by what persons and in what proportions the cost of the liquidation are to be borne; and

(*e*) to give such directions in regard to the collection and distribution of the assets of the society as may appear to him to be necessary for winding up the affairs of the society.

(*3*) Subject to any rules of procedure made under this Act, a liquidator appointed under this section *shall*, in so far as such powers are necessary for carrying out the purposes of this section, *have power to summon and enforce the attendance of witnesses and to compel the production of documents by the same means and (so far as may be) in the same manner as is provided in the case of a Civil Court under the Code of Civil Procedure.*

(*4*) The rules may provide for an appeal to the Court of the District Judge from any order made by a liquidator under this section.

(*5*) Orders made *under this section may be enforced as follows* —

(*a*) *when made* by a liquidator, *by any Civil Court having local jurisdiction* in the same manner as the decree of *such* Court,

(*b*) *when made by the Court of the District Judge in the matter of any such appeal as aforesaid, in the same manner as a decree of such Court made in any suit pending therein*

(*6*) *Save in so far as is hereinbefore expressly provided, no Civil Court shall have any jurisdiction in respect to any matter connected with the dissolution of a society under this Act*

Exemptions from Taxation.

25. (*1*) The Governor General in Council, by notification in the Gazette of India, may *in the case of any society or class of society, remit*—

Power to exempt from income-tax, stamp-duty and registration-fees

(*a*) *the income-tax payable in respect of* the profits of *the* society, *or of* the dividends or other payments received by the members of *the* society on account of profits,

(*b*) *the stamp-duty with which, under any law for the time being in force*, instruments executed by or on behalf of *a* society or by an officer or member and relating to the business of *such* society, or any class of such instruments, are respectively chargeable,

(*c*) any fee payable under the law of registration for the time being in force.

(*2*) *A notification exempting any society from the fees referred to in sub-section* (*1*), *clause* (*c*), *may provide for the withdrawal of such exemption.*

Debts due to Government.

26. (*1*) All sums due from a society or from an officer or member *or past member* of a society as such to the Government, including any costs awarded to the Government under section (*21*), sub-section (*6*), may be recovered in the same manner as arrears of land revenue.

Recovery of sums due to Government.

(*2*) Sums due from a society to Government and recoverable under sub-section (*1*) may be recovered, firstly, from the property of the society, secondly, *in the case of a society of which the liability of the members is limited*, from the members subject to the limit of their liability, and, thirdly, *in the case of other societies*, from the members.

Rules.

27. (*1*) The Local Government may, *for the whole or any part of the Province and for any society or class of societies*, make rules to carry out the purposes of this Act

Rules

(*2*) In particular and without prejudice to the generality of the foregoing power, such rules may—

(*a*) prescribe the forms to be used in applying for the registration of a society and the procedure in the matter of such applications,

(*b*) prescribe the conditions to be complied with by persons applying for registration and by *persons applying for admission or* admitted *as members*, and provide for the election and admission of members from time to time, *and the amount of payment to be made and interest to be acquired before exercising rights of membership*,

(*c*) provide for the withdrawal and expulsion of members and for the payments to be made to members who withdraw or are expelled and for the liabilities of *past* members;

(*d*) provide for the mode in which the value of a deceased member's interest shall be ascertained, and for the nomination of a person to whom such interest may be paid or transferred,

(*e*) subject to the provisions of section *12*, prescribe the maximum number of shares or portion of the capital of a society which may be held by a member,

(*f*) prescribe the payments to be made and the conditions to be complied with by members applying for loans, *the period for which loans may be made, and the amount which may be lent to an individual member,*

(*g*) *prescribe the proportion to the total liabilities to be attained by the reserve fund and the rate to which interest on loans to members is to be reduced, before profits may be distributed to the members of a rural society*,

(*h*) *regulate the manner in which capital may be raised by means of shares or debentures or otherwise;*

(*i*) provide for general meetings of the members and for the procedure at such meetings and the powers to be exercised by such meetings;

(*j*) provide for the appointment, suspension and removal of the *members of the* committee and other officers, and for the procedure at meetings of the committee, and for the powers to be

exercised and the duties to be performed by the committee and other officers;

(k) prescribe the matters in respect of which a society may or shall make by-laws and for the procedure to be followed in making, altering and abrogating by-laws, and the sanction to be required to such making, alteration or abrogation;

(l) prescribe the accounts and books to be kept by a society and provide for the audit of such accounts and the charges, if any, to be made for such audit, *and for the periodical publication of a balance-sheet showing the assets and liabilities of a society;*

(m) *provide for the persons by whom and the form in which copies of entries in books of societies may be certified;*

(n) provide for the formation and maintenance of a register of members and, where the liability of the members is limited by shares, of a register of shares;

(o) provide for the rate at which interest may be paid on deposits, for the formation and maintenance of reserve funds, *and the objects to which such funds may be applied,* and for the investment of any funds under the control of the society,

(p) provide that any dispute touching the business of a society between members or *past* members of the society or persons claiming through a member or *past* member or between a member or *past* member or persons so claiming and the committee or any officer shall be referred to *the Registrar for decision, or, if he so directs, to* arbitration, and prescribe the mode of appointing an arbitrator or arbitrators and the procedure to be followed in *proceedings before the Registrar or such arbitrator or arbitrators, and the enforcement of the decisions of the Registrar or the awards of arbitrators,*

(q) prescribe the conditions to be complied with by a society applying for the financial assistance of Government; and

(r) determine in what cases an appeal shall lie from the orders of the Registrar, and prescribe the procedure to be followed in presenting and disposing of such appeals.

(3) *The power to make rules conferred by this section is subject to the condition of the rules being made after previous publication*

(4) *All rules made under this section shall be published in the local official Gazette and on such publication shall have effect as if enacted in this Act*

(5) *A copy of the rules relating to a society and of the by-laws thereof for the time being in force shall be kept open to inspection at all reasonable times free of charge at the registered address of the society.*

Miscellaneous.

Indian Companies Act, 1882, not to apply

28. The provisions of the Indian Companies Act, 1882, shall not apply to societies registered under this Act.

Special power to Local Government to register any association under Act.

29. (1) *Notwithstanding anything contained in this Act, the Local Government may, by special order in each case, and subject to such condition as it may impose, permit any association of not less than ten persons above the age of eighteen years to be registered as a rural or an urban society under this Act.*

(2) *A society so registered shall be subject to the provisions of this Act to the same extent as any other society:*

Provided that the Local Government may at any time by order exempt such society from any of such provisions or may direct that they shall apply to such society with such modifications as may be specified in the order.

J. M. MACPHERSON,
Secretary to the Government of India

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th March, 1904.

NO. 2 OF 1904

NOTE.—The figures "18,5" within square brackets on the margin mean the Public Stores Act, 1875 (38 & 39 Vict., c. 25).

A Bill to provide for the better protection of Government stores.

WHEREAS it is expedient to provide for the better protection of Government stores, It is hereby enacted as follows:—

Short title and extent

1. (*1*) This Act may be called the Government Stores Act, 1904, and

(*2*) It extends to the whole of British India.

Definitions

2. For the purposes of this Act, unless there is anything repugnant in the subject or context,—

(*a*) the expression "stores" includes moveable property of every kind;

(*b*) the expression "Government stores" means stores under the care, superintendence or control of any department of the Government:

(*c*) the expression "department of the Government" includes any person in the service of the Government having in his official capacity the care, superintendence or control of Government stores: and

(*d*) stores shall be deemed to be in the possession or keeping of any person, if he knowingly has them—

(i) in the actual possession or keeping of any other person, or

(ii) in any house, building, lodging, apartment, field or place, whether open or enclosed, and whether occupied by himself or not,

and whether they are so had for his own use or benefit or for the use or benefit of another.

Distinctive marking of Government stores

3. (*1*) The marks described in the second column of the schedule may be applied, by any department of the Government, or by any officer, contractor or workman thereof, in or on any Government stores of the kinds respectively mentioned in the first column of the schedule, in order to denote that such stores are the property of His Majesty.

(*2*) If any person, without lawful authority (the burden of proving which authority shall lie upon him), applies any of the said marks in or on any stores, he shall be punishable with imprisonment for a term which may extend to two years.

Penalty for destroying or obliterating mark denoting that stores are His Majesty's property

4. If any person, with intent to destroy evidence that any stores are His Majesty's property, takes out, destroys or obliterates, wholly or in part, any mark applied under section 3, sub-section (*1*), or any mark whatsoever denoting that any stores are His Majesty's property, he shall be punishable with imprisonment for a term which may extend to seven years.

Powers of search and detention

5. Any police-officer superior in rank to a constable, who may in right of his office be authorized by the Local Government in this behalf, or,

within the limits of any cantonment or of any fortress, arsenal, dockyard or camp, or of any building or place in the occupation of the Government for naval, military or civil purposes, any public servant authorized in writing in this behalf by the commanding officer or by the officer in charge of any such building or place,

may stop, search and detain—

(*a*) any vessel or vehicle in or on which there is reason to suspect that any Government stores stolen or unlawfully obtained may be found, or

(*b*) any person who is reasonably suspected of having in his possession, or of conveying in any manner, any Government stores reasonably suspected to have been stolen or unlawfully obtained.

6. If any person is charged with having in his possession or keeping or conveying any Government stores reasonably suspected of having been stolen or unlawfully obtained, and does not give an account, to the satisfaction of the Court, of how he came by such stores, he shall be punishable,—

Penalty where accused person does not satisfactorily account for possession of Government stores

(*a*) if such stores are arms or component parts of arms, with imprisonment for a term which may extend to twelve months, or with fine which may extend to one thousand rupees, and,

(*b*) in any other case, with imprisonment for a term which may extend to two months, or with fine which may extend to fifty rupees

7 If there is reason to believe that any stores found in the possession or keeping of—

Penalty where certain persons do not satisfactorily account for possession of stores reasonably believed to be His Majesty's property

(*a*) any person in the service of the Government,

(*b*) any dealer in marine stores or old metal or old stores of any kind, or

(*c*) any pawn-broker,

have been unlawfully obtained by him, such person may be taken before a Magistrate, and, if the Magistrate sees reasonable grounds for believing that such stores are or were His Majesty's property, then, if such person does not satisfy the Court that he came lawfully by such stores, he shall be punishable,—

(*a*) if the stores are arms or component parts of arms, with imprisonment for a term which may extend to twelve months, or with fine which may extend to one thousand rupees, and,

(*b*) in any other case, with imprisonment for a term which may extend to two months, or with fine which may extend to fifty rupees

8. Sections 4 and 6 shall not apply to stores, of the kinds described in section 156, sub-section (*1*), of the Army Act, which have been issued as regimental necessaries or otherwise for any soldier or volunteer; but nothing in this section shall relieve any person from any obligation or liability to which he may be subject under any other enactment in respect of any such stores.

Exemption of certain military stores from operation of sections 4 and 6

9. If any person, without written permission from the Local Government or from some person authorized by the Local Government in that behalf (proof of which permission shall lie on the person accused), gathers or searches for stores, or creeps, sweeps or dredges in the sea or any tidal water,—

Penalty for unlawful gathering of stores, etc, near His Majesty's vessels, etc

(*a*) within one hundred yards from any vessel belonging to His Majesty or in His Majesty's service, or from any mooring place or anchoring place appropriated to such vessels, or from any moorings belonging to His Majesty or from any of His Majesty's wharves or dock, victualling or steam factory yards, or

(*b*) within one thousand yards from any battery or fort used for the practice of artillery, either by the royal artillery or by volunteer artillery, or

(*c*) in or on any part of the spaces or distances, whether covered with water or not, from time to time marked out as ranges for artillery practice for the use of His Majesty's ships, or marked out and appropriated for permanent or temporary artillery or rifle ranges,

he shall be punishable with imprisonment for a term which may extend to two months, or with fine which may extend to fifty rupees.

THE SCHEDULE

MARKS APPROPRIATED FOR USE IN OR ON GOVERNMENT STORES [1.]

(*See section 3.*)

1 Stores	2 Marks
Hempen cordage and wire rope	White, black, or coloured worsted threads laid up with the yarns and the wire respectively
Canvas, fearnought, hammocks and seamen's bags	A blue line in a serpentine form
Bunting .	A double tape in the warp.
Candles .	Blue or red cotton threads in each wick or wicks of red cotton
Woollen and cotton goods not hereinbefore enumerated	A red stripe lengthways with the broad arrow, either alone or in combination with letters denoting the name of the Government or of any department of the Government or branch thereof
Timber or metal, or any stores not hereinbefore described, whether similar to the above or not	The name of His Majesty or of His predecessors, heirs or successors, or of the Government, or of any department of the Government or branch thereof, or the broad arrow, or a crown, or His Majesty's arms; or the sign $\frac{\wedge}{\mathrm{I}}$ with the broad arrow; whether such broad arrow, crown, arms, or sign, be alone or be in combination with any such name as aforesaid, or with any letters denoting any such name

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide more effectually for the prevention, detection and punishment of thefts of Government stores. The Bill reproduces, with the necessary modifications, such of the provisions of the Public Stores Act, 1875 (38 & 39 Vict., c. 25), as are adaptable to India.

E. R. ELLES.

The 22nd February, 1904.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th March 1904 .—

NO. 3 OF 1904.

A Bill further to amend the Indian Stamp Act, 1899.

WHEREAS it is expedient further to amend the Indian Stamp Act, 1899; It is hereby enacted as follows :—

Short title and extent.

1 (*1*) This Act may be called the Indian Stamp (Amendment) Act, 1904.

(*2*) It extends to the whole of British India, inclusive of British Baluchistan, the Santhal Parganas and the Pargana of Spiti.

Amendment of section 2, clause (*17*), Act II, 1899.

2. In section 2, clause (*17*), of the Indian Stamp Act, 1899 (hereinafter referred to as "the said Act"), for the word "specified" the words "specific immoveable" shall be substituted.

Addition of new section 23A after section 23, Act II, 1899.

3. After section 23 of the said Act the following section shall be added, namely:—

Certain mortgages of stock to be chargeable as agreements.

"23A. (*1*) Where an instrument (not being a promissory note or bill of exchange)—

(*a*) is given, upon the occasion of the deposit of any share warrant, or stock certificate to bearer, or foreign or colonial share certificate, or any security for money transferable by delivery, by way of security for money advanced or to be advanced by way of loan, or for an existing or future debt, or

(*b*) makes redeemable or qualifies a duly stamped transfer, intended as a security, of any registered stock or marketable security;

it shall be deemed to be an agreement or memorandum of agreement chargeable with duty under Article No. 5 of Schedule I.

"(*2*) A release or discharge of any such instrument shall be chargeable with the likeduty and not with any *ad valorem* duty."

Amendment of section 26, Act II, 1899

4. In section 26 of the said Act, for the first proviso the following proviso shall be substituted, namely:—

"Provided that, in the case of the lease of a mine in which royalty or a share of the produce is received as the rent or part of the rent, it shall be sufficient to have estimated such royalty or the value of such share, for the purpose of stamp-duty,—

(*a*) when the lease has been granted by the Secretary of State in Council, at such amount as the Collector may, having regard to all the circumstances of the case, have estimated as likely to be payable by way of royalty to the said Secretary of State in Council under the lease, or,

(*b*) when the lease has been granted by any other person, at twenty thousand rupees a year,

and the whole amount of such royalty or share, whatever it may be, shall be claimable under such lease."

Amendment of section 29, Act II, 1899.

5. In section 29, clause (*a*), of the said Act, for the parenthesis "(Agreement to mortgage)" the parenthesis "(Agreement to secure loan by deposit of valuable security)" shall be substituted.

Amendment of Schedule I, Act II, 1899.

6. (1) For Article No. 6 of the first schedule to the said Act the following Article shall be substituted, namely:—

"6 AGREEMENT to secure money advanced or to be advanced by way of loan, or an existing or future debt, (1) by the deposit of title-deeds or other valuable security (not being stock or a marketable security), or (2) by the hypothecation, pawn, or pledge of moveable property,—	
(a) when such loan or debt is repayable on demand or more than three months from the date of the instrument evidencing the agreement,	The same duty as a Bill of Exchange [No 13 (b)] for the amount secured.
(b) when such loan or debt is repayable not more than three months from the date of such instrument	Half the duty payable on Bill of Exchange [No 13 (b)] for the amount secured.

Exemptions.

(1) Letter of hypothecation accompanying bill of exchange.

(2) Instrument of pledge or pawn of goods if unattested."

(2) In the entry immediately following Article No. 28, and also in the entry following Article No. 30, of the said schedule, for the words "by way of EQUITABLE MORTGAGE" the words "to secure loan by deposit of valuable security" shall be substituted.

(3) In Article No. 40 of the said schedule, for the words and figure "an AGREEMENT TO MORTGAGE (No. 6)" the word "a" shall be substituted, and from the Exemption "(3) Instrument of pledge or pawn of goods if unattested" shall be omitted.

(4) In Article No. 55 of the said schedule, after the word "instrument" the following parenthesis shall be inserted, namely:—

"(not being such a release as is provided for by section 23A)."

J. M. MACPHERSON,

Secretary to the Government of India.

STATEMENT OF OBJECTS AND REASONS.

THE attention of the Government of India has been directed to the ruling of the Calcutta High Court in the case of the *Queen-Empress* v. *Debendra Krishna Mitter* (1900), I. L R. 27 Cal. 587, to the effect that, unless the whole advance given under an equitable mortgage be made at the time that the instrument of hypothecation is executed, the stamp must be that of an ordinary mortgage. This decision imposes a much heavier duty on equitable mortgages than appears to have been intended; for it follows from it that the higher duty chargeable on an ordinary mortgage is leviable whenever it is sought to secure by deposit of title-deeds future advances on an existing account Such a duty is, in view of the temporary nature of transactions of the kind indicated, excessive, and the fact that it is leviable must tend to retard the development of the system of cash credits, which has hitherto proved of great assistance to trade. It is, therefore, proposed —see clause 6 of the Bill—to amend Article No. 6 of the first schedule to the Indian Stamp Act, 1899 (II of 1899), so as to relieve these instruments from the higher duty, and to place them all on the same footing, whether their execution is or is not simultaneous with the advances secured by them, and it is at the same time suggested—see clause 3—to follow section 23, read with section 86 (2), of the English Stamp Act of 1891 (54 & 55 Vict, c. 39), and to levy a fixed fee of eight annas only when the security deposited by way of equitable mortgage is marketable.

2. In the same connection notice has been called to various defects, doubts and anomalies in the law. *First*, no provision is at present made for the case where an equitable mortgage is executed to secure the repayment of a loan after more than one year, and the agreement in such a case is consequently liable to the duty of eight annas only under Article No. 5 of the schedule. It is proposed to amend Article No. 6 so as to impose the same stamp as that required on a document securing repayment within a year. *Secondly*, there is now no specific provision as to the duty leviable upon an instrument evidencing an equitable mortgage where the advance secured is repayable on demand, and such instruments are chargeable either with the same duty as agreements or with the duty leviable on ordinary mortgages, according as the securities are deposited before or at the time of execution. It is proposed to extend the amendment of the Article so as to treat such instruments in the same manner as instruments securing repayments after more than three months. And, *thirdly*, there appears to be some doubt as to the applicability of the Article to pawns and pledges, and it is proposed to amplify it so as expressly to include such transactions, as well as hypothecations of securities. On the other hand, as misunderstanding is likely to be caused by the circumstance that the definition of "mortgage-deed" in section 2, clause (17), of the Act covers all kinds of property, while a "mortgage", as defined in section 58 of the Transfer of Property Act, 1882 (IV of 1882), is limited to immoveable property, it is proposed—see clause 2 of the Bill—to confine the definition here also to immoveable property, all "mortgages" of moveable property, whether accompanied by possession or not, being, as already indicated, brought together under Article No. 6, unless otherwise specifically provided for in the schedule.

3. Finally, the opportunity has been taken to amend the law in another direction. Under section 26 of the Act, where the value of the subject-matter of an instrument is unknown or indeterminate, the contracting parties may use their discretion as to the value of the stamp to be affixed to the instrument, but no sum can be recovered under it in excess of the amount covered by the duty actually paid. An exception is, however, made in the case of mining leases in which a royalty or share of the produce is reserved as rent. The value of the share or royalty is necessarily indeterminate in the majority of such cases, and it is, therefore, provided that, if the lease be stamped on an assumed valuation of Rs. 20,000 a year, the sum actually due under the lease may be recovered, whatever the amount may be. This provision is unsuitable in the case of mining leases granted by the Government, for the natural tendency of revenue-officers is to safeguard the interests of the Government by valuing the royalty at the figure just referred to in every case. The stamp-duty, ordinarily payable on this valuation is Rs. 200, and this constitutes an unduly heavy burden in the case of small and unproductive mines. It is proposed, therefore, by clause 4 of the Bill, to expand the section so as to provide that, where a mining lease is granted by the Government, the Collector may estimate the amount of royalty which he considers likely to be payable, and it will be sufficient if the lease is stamped in accordance with his estimate.

4. The further amendments proposed by clause 5 and sub-clauses (*2*), (*3*) and (*4*) of clause 6 of the Bill are purely consequential and require no explanation.

J M. MACPHERSON,
Secretary to the Government of India

SUPPLEMENT TO

The Gazette of India.

No. 10.] CALCUTTA, SATURDAY, MARCH 5, 1904

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 a.m. on Thursday, the 3rd March 1904, based on the India Daily Weather Reports of the period.

The unsettled weather which prevailed over the northern half of the Indian area during last week continued and intensified during the week under review, culminating in an extensive burst of heavy rain at the close of the period.

On the 26th February thunder showers were reported from parts of Gujarat, Lower Sind and the Central India Plateau, while a light fall of snow had occurred on the higher ranges in Kashmir, the heaviest falls on this day were 0·40" at Rajkot and Surat. On the following day, the 27th, the area of showers contracted and the only rainfalls of importance were 0·40" at Indore and Saugor. On the 28th and 29th the showers again increased over the central parts of the country and at the same time the barometer fell and the weather became unsettled over Baluchistan and the Persian Gulf area. On the 28th Muscat reported a rainfall of 1·22", Hoshangabad of 1·20" and Khandwa 0·97", while on the 29th Pachmarhi reported 0·79". There was thus at this time a considerable area of showery weather over the central districts of India, while disturbed weather and heavy rain were approaching North-West India from Persia, Afghanistan and Baluchistan. On the 29th February and during the 1st three days of March a succession of depressions appeared on our north-west frontier, while showers continued over the central districts. On March 1st the rainfall was not heavy, the largest amounts reported having been 0·60" at Nowgong, 0·40" at Sialkot and 0·32" at Jhansi. On the 2nd the thunderstorms became more numerous, more extensive and heavier, while light snow and rain fell in Kashmir and Baluchistan and heavy rain in Ceylon. Saugor reported a fall of 1·37", Nowgong of 1·02", while many stations received amounts of about half an inch. The reports of the 3rd showed that rain had been received over the whole of North-Western and Central India, as well as in Baluchistan and Assam. The heaviest amounts reported were 1·27" at Jacobabad, 1·22" at Mooltan, 1·11" at Kurrachee and 1·08" at Hoshangabad, while Ludhiana, Simla,

Dera Ismail Khan, Bikaner, Rajkot, Amraoti, Nagpur, Neemuch, Mount Abu, Sambhar, Jaipur, Saugor, Sutna, Nowgong, Pachmarhi, Jubbulpore, Pendra, Seoni, all received between half and one inch. In the Dry Area, over the South East Punjab and adjoining parts of Rajputana, the rainfall of the past two days amounted to 0·65" at Delhi, 0·29" at Sirsa and 0·83" at Bikaner.

The rainfall table shows that practically no rain was received during the week under review over Burma, Bengal, or the Peninsula (except Malabar), but that in all other parts of the country effective rain was received, the average fall ranging from 0·13" in Assam to 1·75" in the Jubbulpore sub-division. In practically all divisions (except Assam) where rain was received, the week's fall exceeded the average and in most cases very largely so.

The seasonal rainfall now exceeds the normal over a large part of North-Western and Central India, as well as the Peninsula.

At the close of the week a deepish depression lay over the Indus Valley and rain promised to continue heavily over North-Western and Central India and showed signs of extending to the whole of Northern India.

SIMLA:
The 3rd March 1904.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 27th February 1904.

Madras.—There was practically no rain during the week Irrigation supplies are generally sufficient. Ploughing, sowing, transplanting and weeding are in progress in parts The standing crops are generally fair. Harvests continue with outturn fair to normal Pasture is generally sufficient. Fodder is procurable. The condition of cattle is generally good. Prices are almost stationary

Bombay.—There was slight rain during the week in parts of Sind, Gujarat, Khandesh, Nasik, Poona, Satara, Belgaum, and Wadhwan. The rainfall has been generally sufficient except in parts of Khandesh and Nasik. The standing crops have been damaged by locusts in parts of Colaba, Ratnagiri, and Satara, by rats in parts of Nasik, Satara, and Belgaum, by frost in parts of Karachi, by insects in parts of the Panch Mahals, by blight in parts of Dharwar, and by recent rain in parts of Ahmedabad, Kaira, the Panch Mahals, and Surat They are generally in good condition elsewhere Threshing of autumn crops has been completed in Colaba, is almost over in Canara and continues in Nasik Harvesting of spring crops has been completed in Ahmednagar and is in progress in parts of Larkana, Gujarat, Khandesh, Nasik, Poona, Satara, Ratnagiri, Canara, Belgaum, and Rajkot. Threshing is in progress in parts of the Panch Mahals, Nasik, Ahmednagar, and Satara. Cotton is slightly damaged by blight in parts of the Carnatic, by recent rain in parts of Ahmedabad, the Panch Mahals, and Surat, and is generally in good condition in Larkana, Broach and Wadhwan. Picking is completed in Khandesh and is in progress in parts of Gujarat, Poona, Satara, Carnatic, Wadhwan, and Baroda. The fodder supply is sufficient. Agricultural stock is generally sufficient and in good condition. The water-supply is generally sufficient Prices have fallen in one district, risen in four districts, and are stationary elsewhere.

Bengal.—Light showers are reported from the districts of Faridpur, Tipperah, Chittagong, Gaya, Monghyr, Bhagalpur, Cuttack, and Angul. The standing crops are generally in good condition. Harvesting of spring crops, pressing of sugarcane, and collection of opium continue. Fodder and water are generally sufficient. The price of common rice has risen in five districts, has fallen in ten, and is stationary in the remainder.

United Provinces.—The weather has been generally cloudy and light rain has fallen in seven districts The spring crops are flourishing, but slight damage from insects and rust is reported from Rae Bareli, Benares, and Gorakhpur. The extraction of opium continues and the sowing of sugarcane has commenced in places. Markets are well stocked. Food and fodder are sufficient and prices continue stationary.

Punjab.—Slight rain has fallen in Amritsar and in parts of Umballa, Jullundur, Lahore' and Rawalpindi. The price of wheat is rising in Jullundur, Amritsar, and Rawalpindi and falling in Mianwali. The prices of other food-grains are fluctuating Pressing of sugarcane continues in Lahore, Amritsar, and Sialkot Sowings of extra spring crops have commenced in Delhi and continue in Ferozepore, Sialkot, and Shahpur. Ploughing for and sowing of sugarcane and cotton continue in some districts. The condition of the standing irrigated crops is reported good to fair in all districts and that of unirrigated crops is unfavourable in Hissar and Delhi, and average in Jullundur. Rain is wanted in Umballa and Ferozepore Unirrigated crops are withering in Hissar The outturn of sugarcane is average in Sialkot, The recent rain has benefited the standing crops in Amritsar. Rats and an insect called "rati" are damaging crops in parts of Ferozepore and Mooltan, Cattle are generally in good condition throughout the province. Fodder is said to be sufficient in all districts except in Delhi and in parts of Rawalpindi.

North-West Frontier Province.—There was no rain during the week. The condition of the standing crops is good, but a few more showers are still wanted for unirrigated crops Stocks of food-grains and fodder are ample. Water in canals is sufficient. Prices are rising.

Burma.—Slight rain fell in Mergui during the week. Harvesting of paddy and miscellaneous crops is approaching completion. Sowing of dry weather paddy is in full operation and of early wet weather paddy is progressing in Kyaukse and the Southern Shan States. Reaping of hill side paddy has commenced in Tavoy and of island crops in Magwe.

and Sagaing. Beans have been damaged by caterpillars on islands of Magwe. Prospects continue good. The price of paddy is practically stationary, slight changes being reported from three centres only.

Central Provinces.— Light to moderately heavy showers have fallen almost throughout the provinces. The heaviest falls being in the Nerbudda Valley. These showers have caused a little damage to cut crops on the threshing floor and to crops in flower. Hailstorms have passed over the Damoh, Seoni, and Chindwara districts, but no damage is reported Some slight damage has been reported by cloudy weather in Mandla and by caterpillars in Narsinghpur Wheat has deteriorated slightly on light soils in Balaghat The harvesting of spring crops is in progress and at least normal outturns are generally anticipated. The preparation of land for autumn sowings has commenced in places Prices of wheat show a slight tendency to rise in the northern districts.

Assam.—There was slight rain in Lakhimpur, but no rain in other districts during the week Tea pruning, sugarcane-pressing, ploughing for rice and jute, and gathering of mustard are in progress The outturn of mustard and sugarcane is fair to good Fodder and water are insufficient in the hills Prices—common rice—Silchar 19, Sylhet and Tezpur 18, Dhubri, Gauhati, and Nowgong 16, Sibsagar 13, and Dibrugarh 12 seers per rupee.

Mysore—Prices are steady The standing crops are in good condition Paddy and sugarcane are being harvested Prospects of the season are good. Cattle are healthy except in parts of Chitaldrug. Water and fodder are available

Coorg—Threshing of rice and picking of coffee are almost completed Prices of food-grains are normal Water and fodder are sufficient.

Hyderabad—Rainfall during the week two cents. The spring crops are generally good and the harvest is progressing. Late rice weeding has begun Prospects are good. Prices—wheat 11¾, rice 11½, and jowar 31½ seers per halli rupee.

Rajputana—There was slight rainfall in parts during the week Agricultural operations are satisfactory The condition of the standing crops and of cattle is generally good Fodder is ample. Prices are favourable.

Central India.—Rainfall was general in Bhopal and Bhopawar and partial in Baghelkhand, Bundelkhand, and Malwa Agricultural operations are in progress. Crops are fair in Bhopal and good elsewhere, but have been slightly damaged by hailstorms in Baghelkhand and by rain in Bhopal, Malwa, and Bhopawar Agricultural stock and pasturage are generally good Prices are normal in Gwalior, Indore, and Baghelkhand, rising in Bhopal, and steady in Baghelkhand, Malwa, and Bhopawar. Opium is good in Gwalior and Indore, fair in Bhopal, and indifferent in Malwa and Bhopawar

Kashmir.—The weather was bright during the week except on the last day when there was rain. Prices are stationary.

Jammu.—There was slight rain during the week Prices are stationary Wheat sells from 14 to 22 and maize from 20 to 36 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient.

Nepal.—There was no rain during the week. The weather has been cloudy and cold. The price of rice is 6½ seers for the rupee.

J. WILSON,

Secretary to the Government of India

GOVERNMENT OF INDIA.

AGRICULTURE.

SCHEME FOR THE ESTABLISHMENT OF AN AGRICULTURAL RESEARCH STATION, AN EXPERIMENTAL FARM AND AN AGRICULTURAL COLLEGE ON THE GOVERNMENT ESTATE OF PUSA IN LOWER BENGAL.

No 8, dated Calcutta, the 29th February 1904

RESOLUTION.

The Honourable Sir Denzil Ibbetson, in his speech at the meeting of the Legislative Council held on the 25th March 1903, referred to a scheme which was then being elaborated for the establishment of an Agricultural Research Station, with an Experimental Farm and an Agricultural College, on the Government estate of Pusa in the Darbhanga district of Lower Bengal During the past year the scheme has been further developed, and in August last the sanction of His Majesty's Secretary of State was obtained to the proposal. The preparation of the necessary plans and detailed estimates for the central laboratory, the houses of the staff, and the various subsidiary buildings is now fairly advanced, steps are being taken to get the land into order for experimental cultivation ; and it is expected that the houses for the staff and the other subsidiary buildings will be completed by the beginning of 1905. The central laboratory is, however, unlikely to be ready for six or nine months after that date, and the College will not therefore be in full working order and ready for students until August or September 1905. Meanwhile, however, the Government of India desire to explain, for the information of the various Local Governments and of the public in general, the main features of the scheme, the scope of the institution, and the objects which it is desired to attain.

2. When, two years ago, the Government of India appointed an Inspector General of Agriculture for India, it was recognized that this was an essentical step towarde the more active prosecution of that policy of scientific and practical enquiry and experiment in agricultural matters on which so much stress had been luid by the Famine Commissioners of 1878, and the necessity for which was again emphasized by Dr. Voelcker, who was deputed in 1890 to advise on the best course to be adopted in order to effect improvements in Indian agriculture. It was realized moreover that, in order to enable him to perform the task entrusted to him, it was essential that he should gradually be provided with an adequate staff of experts, and a Cryptogamic Botanist and Entomologist were at once added to his staff, in addition to the Agricultural Chemist whose services were already at his disposal. It had, however, always been apparent that if the desired progress was to be made in the field of agricultural investigation, it would be necessary to provide a fully equipped research laboratory in which the agricultural experts could pursue their various enquiries; and the establishment of such a laboratory was already under the consideration of the Government of India when Mr. Henry Phipps came forward with his munificent donation of £20,000, to be devoted to whatever object of public utility (if possible in the direction of scientific research) His Excellency the Viceroy might prefer. In accepting this generous offer, it appeared to His Excellency that no more practical or useful object could be found to which to devote a portion of the gift, nor one more entirely consonant with the wishes of the donor, than the erection of a laboratory for agricultural research. He therefore decided to utilize for this purpose the greater portion of Mr. Phipps' donation, and it may be added that Mr. Phipps expressed his warm approval of the decision, and generously added a further sum of £10,000 to his original contribution.

3. It was the original intention of the Government of India to locate the laboratory at Dehra Dun, where the Agricultural Chemist and other scientific officers under the control of the Government of India were already stationed, and which appeared to offer many advantages for the pursuit of agricultural research. But on further consideration it appeared that the agricultural staff would be unable to derive full benefit from the use of a laboratory, however well equipped, unless they had at hand a farm where practical as well as scientific work could be carried out, and where the crops which are of most importance and require closest investigation could be grown in the immediate neighbourhood. For these purposes Dehra was unfitted, and some other more suitable locality had therefore to be sought.

4. While the question of the situation of the research station was under consideration the Bengal Government submitted a scheme for the establishment of an agricultural research

station and experimental farm on the Government estate of Pusa in the district of Darbhanga. This estate had in old times been used as a stud farm. When the stud was broken up in 1874, the property was for a short time utilized as a model or experimental farm, special attention being devoted to the growing and curing of tabacco, but the management was unsuccessful, and in 1877 it was leased out to Messrs. Begg, Dunlop & Co for tobacco-growing experiments This farm continued to hold the farm up to 1897, when, in consequence of their finally deciding to abandon their experiments, the Government of Bengal resolved to take the land under its own management. It was proposed at first to start a cattle breeding and dairy farm, and a scheme for this purpose was drawn up in 1899. Meanwhile, however, the question of agricultural research in Bengal had come into prominence; and eventually, on the recommendation of a committee which was convened to consider the question of the disposal of the estate, proposals were submitted to the Government of India for the establishment of an agricultural research station combined with an agricultural school and a cattle and dairy farm. The suitability of the farm for the purposes proposed had been fully examined and considered, and the scheme as finally submitted by the Government of Bengal contemplated the creation of a very complete institution under the management of the provincial Agricultural Department, though hopes were expressed that, having regard to the general benefits to be expected to agriculture in Northern India, some contribution towards the cost of its establishment and maintenance would be made by the Imperial Government and the Government of the United Provinces.

5. When these proposals came before the Government of India, they recognized that if they were accepted the scheme for a central research laboratory at Dehra must be at least postponed, since the large expenditure that would be required on the two separate but similar institutions could not at present be justified. In view, however, of the possibility that a station in the plains might be less suitable for chemical and bacteriological work than Dehra with its cooler climate, they referred the question of the comparative merits of Dehra and Pusa for consideration to a strongly constituted committee, the members of which unanimously reported in favour of Pusa. The Government of India were thoroughly satisfied from the information collected by the Bengal Government, as well as from the reports of the Inspector General of Agriculture, who visited the place on several occasions, that Pusa was eminently adapted for the purposes in hand; but they were not prepared to incur any large expenditure unless the management were placed under Imperial control. It was therefore decided to make Pusa the head-quarters of the Imperial Agricultural Department, and to establish there the laboratories required by the experts, combining with them farms which will offer every convenience for practical work, and an Agricultural College organized on the lines more fully explained below. The estate has been placed by the Government of Bengal at the disposal of the Government of India for that purpose.

6. Thus the scheme as finally approved by the Government of India and sanctioned by the Secretary of State includes the establishment on the Pusa estate of an experimental farm and research station with fully equipped laboratories, the funds for the erection of which will be provided from Mr. Phipps' donation, together with an Agricultural College for the training of students, and a cattle farm for the improvement of the local breeds of cattle. The institution will be an Imperial one under the general supervision and control of the Inspector General of Agriculture. It is unnecessary for the Government of India to dwell at any length upon the great importance of an institution of this kind. It need only be remarked that the necessity for similar institutions has been recognized, not only in England —as in the institution founded by the late Sir J. Lawes at "Rothamsted," in Hertfordshire — but also in America and in most Continental countries. In India it is, as has already been pointed out, only a further and necessary step in the development of the policy which led to the appointment of an Inspector General of Agriculture and his expert staff. Indeed in the absence of some such institution, at which the agricultural staff can combine experiments with growing crops with research in the laboratory, India cannot expect to derive full benefit from their services.

7. The Government estate at Pusa covers an area of 1,280 acres, of which about 800 acres are culturable, the remainder being occupied by roads, avenues, house-sites, etc. It is situated almost in the centre of the old district of Tirhut, close to the boundary between the present Muzaffarpur and Darbhanga districts. It is five miles from Waini station on the Tirhut State Railway to which there is a good road, and it is within easy reach by road of the towns of Darbhanga and Muzaffarpur. The river Gandak, which is navigable for boats of moderate size, forms its boundary on the north and east, and will afford water for irrigation, while its navigability forms a practical advantage of some value. It is in a tract of country with a comparatively good climate, where the heat is not so severe as it is higher up the Gangetic plain. The area of the estate may be roughly divided into tracts of three distinct classes:—

(1) The central upland tract of about 500 acres, upon which the buildings, the avenues, and most of the roads are situated, including about 350 acres of culturable land.

(2) The southern low-lying tract of about 350 acres, suitable for the cultivation of rice and *rabi* crops.

(3) The riverain tract of about 150 acres, extending along the bank of the river Gandak. This tract is usually flooded in the rains and is chiefly suitable for grass-cutting and grazing.

If the estate is utilized as proposed, 400 acres, or if necessary a larger area, can be made available for cultivation The remainder will provide grazing for a herd of 200 cattle which it is proposed to establish for the improvement of the local breed, and which will profitably consume the fodder grown on the farm and provide the manure that will be needed for it The cultivation will deal with all the more important dry and irrigated crops known in India. The character of the cropping of the tract of country in which Pusa is situated is, the Inspector General reports, extraordinarily varied, comprising many of the most valuable crops grown in all parts of India, so that it is peculiarly adapted for experimental work which will be of general value. There is no other station in Northern India where Government possesses land suitable for the purpose

8. The main functions of the farm may be stated as follows —

(1) To serve as a model for similar institutions under Provincial Governments. Some of the latter are at present susceptible of improvement and a model institution will indicate the lines on which improvement should be sought.

(2) To initiate lines of experiment and test them, before recommending them for trial under local conditions on the provincial experimental farms

(3) To test and improve varieties of crops and to grow seed of improved varieties for distribution in the different provinces

(4) To test, under different conditions and more highly skilled supervision, results reported from provincial farms, and in particular to secure continuity for any particular experiments which may have been tried and then discontinued on a provincial farm

(5) To serve for the practical training of students at the Imperial Agricultural College.

(6) To provide a field for experimental cultivation for the research work at the research station. This last is a matter of vital importance

For all these purposes the estate is unusually well adapted. "The conditions of soil and climate are such," says Mr Mollison, "that many of the more important field and garden crops can be grown as dry crops, and with irrigation (for which the river which adjoins the estate affords special facilities, and which is also possible from wells) practically every important crop known in India can be grown."

9. Another consideration which the Government of India regard as of very great importance, is that Pusa is situated in perhaps the most densely populated agricultural tract in India, and in a part of the country where successful experiments are more likely to be taken up and applied in practice than anywhere else. It is not only that the estates of planters, whose attention has been largely turned of late to the possibility of improving the yield of ordinary country crops as a substitute for or a supplement to indigo, will afford numerous demonstration farms on which the results of successful experiments can be shown but also that the ryots of that part are, owing to their connection with the planting community, more ready to adopt new ideas than is usual among the cultivating classes in India. As regards the cattle farm, the estate is reported by the Inspector General, Civil Veterinary Department, to be admirably adapted for cattle-breeding It is proposed to maintain the farm for the purpose of improving the local breeds, rather than of introducing foreign strains. It will be a head-quarters from which bulls can suitably be supplied to the districts of Bengal (other than the rice tracts) or to the Eastern districts of the United Provinces

10 The Research Institute, to the creation of which the greater portion of Mr Phipps' generous donation will be devoted, and to which it is proposed to give his name, will adjoin the farm, and it is the intention of the Government of India to make it in every way as complete as possible As at present proposed, the building will contain a library, museum, herbarium, such laboratories and offices as are necessary, a large central hall, and one or two lecture rooms for the students of the Agricultural College which it is proposed to establish as part of the scheme. Any expenditure which may be required to supplement Mr. Phipps' donation will be borne by State funds, from which the cost of the future maintenance of the institution will in any case be met.

11. The Government of India now turn to the portion of the scheme which relates to the establishment of an Agricultural College, and in this connection it is desirable to explain somewhat fully the present position of agricultural education in India, and the objects which the proposed college is designed to attain.

12. The question of establishing an Agricultural College in connection with the research station at Pusa naturally first came before the Government of India from the point of view of Bengal, which at present possesses such a College at Sibpur near Calcutta, with a course of two years (formerly 14 months), where a training in the elements of agriculture is given to students who have taken their B. A. degree, or have passed the F. E. standard in the Engineering College. There are at present only six students in the second year's course.

There was formerly a lower class, which had a 14 months' course afterwards lengthened to two years, but it was discontinued in 1900 as it failed to attract students. The qualification for entry to this class was the Entrance Examination, and it was intended for the instruction of kanungos and others in the Subordinate Revenue Service. In both classes the education was in English. This College has for various reasons not been altogether a success, and it would probably have to be closed in any case, if for no other reason than that its situation is unsuited to its purpose. There is no suitable place in Bengal where a new college could be started with the advantage of an experimental farm in its neighbourhood, the only farm belonging to Government being at Chittagong. It appeared essential therefore that the Imperial Institution at Pusa should include a college that would take the place of the Provincial Agricultural College of Bengal, even though admission to it should not be confined to that province.

13 But an Agricultural College is required at Pusa, not only in order to provide for the needs of Bengal, but also to serve as a model for and raise the standard of Agricultural Colleges in other provinces, and to provide for a more complete and efficient agricultural education than is now possible in any of the existing institutions The provision for agricultural education in India outside Bengal is at present as follows In Bombay and Madras there are colleges at Poona and Saidapet, where the students pass through a three years' course In the United Provinces there is a school at Cawnpore with a two years' course especially intended for the training of kanungos, in which direction it has done and is doing very good work In Nagpur there is also a school with a two years' course and special arrangements are made there for a vernacular class for sons of landowners and the like. A good practical education is given there, and a promising student is yearly sent to Poona to finish his education, with promise of an appointment if his progress is satisfactory. The Saidapet College is under the Education Department, as is the one at Poona, though to a less extent. The Cawnpore and Nagpur Schools are under the Agricultural Department In all these institutions the education is given in English, and at present this is unavoidable in all but the most elementary classes, owing to the want of advanced text books in the vernacular In the Punjab and Burma there is at present no agricultural school or college.

14 At none of these institutions, however, are there arrangements for a complete agricultural education Facilities are required for better practical training than it has been found possible to give at Poona or Saidapet, and these it is hoped to find at Pusa with its large farm and strong teaching staff At the same time, provision is necessary for the extension and completion of the education acquired in provincial schools or colleges. A three years' course may possibly, especially if supplemented by practical work, afford a sufficiently good qualification for men whose life is not to be devoted to special agricultural work, but it is necessary also to provide for the training of the teachers of the future, and of the specialists in the various branches of science connected with agriculture whom it is at present found necessary to import from Europe Some organization by which the men required for these purposes may be trained in India itself is essential, if the scheme of agricultural education is ever to be placed on a broader basis and made really efficient The necessity for such an education is constantly becoming more apparent, but progress must begin at the top and spread downwards Before education in the vernacular is possible, it is necessary that natives of the country should be taught in English, who will provide the text books for general use. It is admitted that for the production of a satisfactory text book, even of an elementary character, in any subject, a high degree of training is requisite, and in the scientific subjects now under consideration, such training is at present possible only in English The education at the Pusa College will therefore be in English, with a view to the training of men who will make the spread of agricultural education in the vernacular possible in the future.

15. Having regard to the present condition of agricultural education, it is essential in the first place that the college should be organized in such a manner as to provide for the education of the class of youths who at present attend the provincial schools or colleges. It must begin where those schools begin, so as to provide for provinces in which no agricultural school exists The second essential is that the college should provide for the carrying on of the training of pupils beyond the stage at which they leave their provincial schools or colleges, and that its course should be sufficiently extended to give a thorough education to those who wish to qualify for professorships, or for research work, or for posts requiring special scientific attainments.

16. For this purpose it is proposed that the complete course of instruction at Pusa should be one of five years. The general educational standard required for admission would be the School Final or the Entrance Examination. Those students who only require an elementary education with some practical work to qualify for the lower posts in the revenue service, would go through a two years' course, at the end of which time they would correspond with students who in the ordinary colleges have passed the First Arts Examination The third year's course would bring the education up to the standard now given at Poona and Saidapet, in so far as length of time is concerned, and it is hoped to a high point as regards efficiency. This three years' course (which would extend to four years in the case of those who did not satisfy the tests imposed by the college) would complete the education of the majority of the students, and would correspond in a general way with the B.A.

course in ordinary colleges At this stage students proceeding with their education would be encouraged to specialize in any branch for which they seemed peculiarly adapted, such as entomology, chemical analysis, botany, and the like. Some students also, it is expected, would remain at the farm in order to still further accustom themselves to practical work, with a view to qualifying for the management of estates, either of Government or of private persons, without the intention of engaging in higher scientific work. It is perhaps open to question whether, if the school is successful, the students who have come for a two years' course only can advantageously be trained together with those who have come with the intention of undergoing the three years' or the complete course The former class will consist of men qualifying for minor appointments, or aiming only at a practical training in the elements of agriculture, and their association with students who have higher aims may tend to retard the progress of the latter But it is, the Government of India think, unnecessary at this stage to consider the question of having a separate two years' course specially adapted for elementary practical work, and apart from the general college course, and in this and other respects, matters of detail must be left for arrangement as the institution developes

17 It will be open to provinces other than Bengal to send students to the school, either for the whole course, or (with the consent of the Government of India) after completing or partly completing their training in the provincial college Instruction at provincial institutions would be accepted in the place of that given at Pusa up to any point to which it was found to be efficient, that is to say, the existing provincial institutions would, on the analogy of the Universities, be affiliated up to that point to which each was considered to give a thoroughly practical training This power of affiliation will, it may be anticipated, enable the Government of India to exercise over the provincial schools and colleges for agriculture an influence which can hardly be otherwise than beneficial, and to gradually raise the standard of efficiency.

18 The detailed curriculum which the college will embrace will be more fully elaborated by the Government of India in consultation with their agricultural and educational advisers when the scheme is further advanced. So far as it is at present formulated, it will include—

1. Agriculture (theory and practice)
2. Chemistry (inorganic, organic, and agricultural).
3 Systematic and cryptogamic botany.
4 Agricultural entomology.
5. Geology, as applied to agriculture
6 Elementary Physics and Mechanics in their application to agriculture.

The practical side of the training will include —

1 Veterinary Science, so far as required by agriculturists
2. Land Survey and Mensuration.
3 Farm management (practical), farm accounts and allied subjects.

19 The Government of India turn now to the question whether there is likely to be a sufficient demand for the educational facilities which it is proposed to afford, and in what directions they may be expected to be of benefit to the public service and to private landowners in the country There is, they consider, no reason to doubt that the classes of the first three years' course will be well filled with students, apart altogether from the lower class who join only for a two years' course. Men with a still higher education will be required to fill posts in the Department of Agriculture itself, such as those of Assistant Directors, Research Experts, Superintendents of Farms, Professors, Teachers, and Managers of Court of Wards and Encumbered Estates If the results arrived at in the various experimental farms are to have wide effect within any reasonable period, it will be necessary to establish small demonstration farms in all parts of the country, and the Pusa institute will provide the men who will take charge of them The Government of India have also on several occasions emphasized the importance of having a leaven of men with an agricultural education in the higher posts of the revenue service, and, if the college opens a way to this service, it may be anticipated that considerable numbers of pupils will attend it. The practical character of the instruction should provide a better class of men for active work, such as that of the Tahsildar and the like, than does the purely literary education which is at present available. But it is not only Government service that is looked to as offering inducements to young men to qualify themselves at the Pusa College. For some years past, if the insistence of the native press is to be accepted, there has been growing up among the landowning classes a demand for men with agricultural training, and if the new College succeeds in turning out men of the right class, who combine with a sufficient theoretical training a thoroughly practical acquaintance with their subject, a demand for their services may arise among the great landowners of India which will do more to promote our object than any attractions which Government service can offer. It is possible, however, that the two final years of the school course may not at first attract very many students,

and that those who come at this stage will, as a rule, be persons who have a practically assured prospect of an appointment. Provincial Governments will probably be prepared to send the most promising men from their own Agricultural Colleges to take the higher course or to undergo a period of practical training at Pusa, giving them a scholarship, and holding out the expectation of an appointment on their return if they are well reported on The Government of India would cordially approve of such arrangements It is moreover not at all improbable that scholarships may also be provided by private persons The fact, however, that a comparatively small number of pupils may take up the highest part of the course is an additional reason for making the institution an Imperial one, which students from all provinces may attend

20. As regards the equipment of the college, in addition to the central building which has already been described, it will be necessary to provide house accommodation for the experts and professors and a hostel for the students It is also proposed to erect a separate building for class rooms, which can be added to as the college expands

21 The staff which it is proposed to entertain will include a Director of the Institute and Principal of the College, who will give practical instruction in field work and farm management and will supervise the students generally. In matters connected with scientific research and scientific teaching, he will be assisted by the staff of experts attached to the Agricultural Department, who will in future have their head-quarters at Pusa This staff at present consists of an Agricultural Chemist, a Cryptogamic Botanist, and an Entomologist, but it will be necessary that it should be further strengthened and completed The Agricultural Chemist, who is at present attached to the Agricultural staff, will not be able to deal single-handed with the problems which will arise at Pusa in addition to the various questions which are continually submitted for investigation from all parts of India and at the same time to deliver courses of lectures to the students of the college on inorganic, organic, and agricultural chemistry It is therefore proposed to appoint a second Agricultural Chemist, preferably one with a special knowledge of Bacteriology A Biological Botanist is required to study varieties, to watch variations, and to investigate improvements induced by cross breeding, and at the same time to teach Agricultural Botany to the students and possibly to take charge of a botanical garden The Director will be assisted in outdoor work by an Agri-Horticulturist who will also give agricultural lectures The Agri-Horticulturist will be an expert who will be capable of teaching the principles and practice of agriculture to students, and who can be placed specially in charge of plant breeding, seed growing, and orchards The work of plant breeding and seed growing is one which is of great importance for India, not only from the point of view of the improvement of varieties, but also as one of the chief aids to the work of the Cryptogamic Botanist and the Entomologist, since new and vigorous varieties are often better able to resist fungoid diseases and insect pests, and it is therefore proposed to carry out at Pusa extensive plant breeding experiments on lines similar to those which have met with success in the United States of America, and which aim at producing improvements by cross fertilization among varieties

22 It is the intention of the Government of India that, at least at the beginning, the experts employed on research work should take as active a part in teaching as their duties permit, and that even in the lower classes, which will be taught by a subordinate staff, they should be made responsible for the efficiency of the tuition given At the same time they recognize the injury that might be done to research work if the experts were obliged to give continuous courses of lectures during prolonged periods when possibly some important investigations might require their attention at a distance And in any case it would manifestly involve a serious waste of power for highly trained experts to be employed in teaching the elements of their subjects to the lower classes in the college It will therefore be necessary to appoint a subordinate staff who will be able to undertake the work of teaching the lower classes, and who will at the same time be capable of guiding the laboratory and other work of the senior students when the higher experts are on tour For this purpose it will be necessary to appoint assistants to the Agricultural Chemist, the Biological Botanist, the Cryptogamic Botanist, and the Entomologist In addition it is proposed to complete the staff by the entertainment of a Surveyor, a teacher of Physics and Mechanics and a veterinary graduate

23. The Government of India recognize that the success or failure of any institution of this kind, however elaborately planned and however complete in its inception, will depend mainly upon the qualifications and capacity of the persons in whose charge it is placed. It is out of the question to place the institution in the immediate charge of the Inspector General of Agriculture. The duties of that appointment necessitate continual touring and the supervision of agricultural research and experiment in all parts of India Although the institution will be under the general supervision and control of the Inspector General, he could not without serious detriment to his other duties, and without imperilling the prospects of the college, undertake its immediate charge It will therefore be necessary to appoint a Principal to take charge of the Pusa Institution. The qualifications required for such a post are of a very special nature. It is essential that the person appointed should be a thoroughly skilled and practical agriculturist, and though it is preferable that he should not himself be an expert in any special branch of science, yet he must possess sufficient knowledge to be able to comprehend and utilize the results achieved by scientific experts. He will also require energy, considerable administrative capacity, and tact in his dealings with

the members of his staff It is doubtful whether a man of the qualifications which are required would be obtainable from England Moreover, any person who might be appointed in England, however highly qualified in other respects, would have no Indian experience, and, even if he eventually proved a success, would for the first three or four years require an amount of guidance and supervision which would interfere seriously with the other duties of the Inspector General of Agriculture

24 In view of these considerations, the Government of India endeavoured to discover a suitable person possessing the necessary qualifications in this country, and they believe that they have been successful in finding an eminently suitable person for the appointment in Mr Bernard Coventry the Manager of the Dalsingh Sarai Estate in Behar, who has been offered and has accepted the appointment which he will take up on the 1st of April next Mr Coventry came out to India in 1880 as Manager of the Dalsingh Sarai Estate, and has thus 20 years' experience of Indian conditions He has for many years taken a keen interest in scientific agriculture, and during the last five years has been carrying on a series of experiments on his estate, partly at his own expense and partly with the help of a subvention contributed by the Bengal Government

25 The posts of Bacteriologist, Biological Botanist, and Agri-Horticulturist have not yet been filled. In the absence of any natives of India possessing the necessary qualifications for these appointments, it will be necessary to appoint men from England, but endeavours are being made to secure the services of experts who have already had some experience of Indian or tropical conditions To the posts of Assistants to the Biological and Cryptogamic Botanists and the Entomologist it is proposed to appoint natives of India, but no candidates appear to be forthcoming at present with the necessary training and qualifications The Government of India have decided therefore in the first instance to engage for these appointments persons (preferably graduates at one of the Indian Universities) who have had a suitable preliminary training, and to attach them for practical work to the experts concerned

26 Circumstances have combined to afford an unusually favourable opportunity of establishing an agricultural institution and farm in this country from which definite practical benefit may be expected to arise The Government cannot at present find teachers of agricultural subjects, nor can they obtain trained practical men to manage experimental or demonstration farms, or to take service with the Court of Wards or with the Native States or with the large landowners in their own territories These requirements they trust that the Institute at Pusa will enable them to meet, while at the same time its trained staff and laboratories will provide facilities such as have not hitherto been available in this country, for the application of higher science to those agricultural problems the importance of which to the welfare of India and its people it is hardly possible to exaggerate

The Government of Madras
" " " Bombay,
" " " Bengal
" " " the United Provinces,
" " " the Punjab
" " " Burma
Honourable the Chief Commissioner of the Central Provinces
" " " " " Assam
" " " " " Coorg

Government of India Notifications, Appointments, Promotions, etc.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Calcutta, the 8th March 1904.

No. 2.—The services of Mr. H. W. C. Carnduff, C.I.E., of the Indian Civil Service, Deputy Secretary to the Government of India in the Legislative Department, are placed at the disposal of the Home Department, with effect from the date on which he is relieved of his duties.

J M. MACPHERSON,
Secretary to the Government of India.

I A

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Calcutta, the 10th March 1904.

No. 551.—The Governor General in Council directs that the following table showing the relative rank of officers in the Army, Royal Navy and Royal Indian Marine, shall be substituted for that published with Home Department Notification no. 147, dated the 24th January 1903 —

Lieutenant-Colonels	Captains under 3 years and officers of corresponding rank, Royal Navy.	
	Deputy Director, Royal Indian Marine	
	Assistant " " " "	But junior to all Lieutenant-Colonels
	Commanders, Royal Navy	But junior to all Lieutenant-Colonels
	Commanders, Royal Indian Marine	But junior to all Lieutenant-Colonels
	Staff Commanders and officers of corresponding rank, Royal Navy	But junior to all Lieutenant-Colonels
	Inspectors of Machinery, Royal Indian Marine	But junior to all Lieutenant-Colonels
Majors	Lieutenants of 8 years' seniority and officers of corresponding rank, Royal Navy	
	Chief Engineers, Royal Navy	
	Lieutenants, Royal Indian Marine, over 8 years' seniority	But junior to all Majors
	Paymasters, Royal Navy	But junior to all Majors
	Chief Engineers Royal Indian Marine	But junior to all Majors
Captains	Lieutenants under 8 years and officers of corresponding rank, Royal Navy	
	Engineers, Royal Navy	
	Lieutenants, Royal Indian Marine, under 8 years' seniority	But junior to all Army Captains
	Assistant Paymasters of 6 years seniority	But junior to all Army Captains
	Engineers, Royal Indian Marine	But junior to all Army Captains
Lieutenants	Sub-Lieutenants and officers of corresponding rank, Royal Navy	
	Sub-Lieutenants Royal Indian Marine	But junior to all Lieutenants
	Assistant Engineers, Royal Indian Marine	But junior to all Lieutenants

ESTABLISHMENTS.

The 11th March 1904.

No. 214.—The services of Mr H W. C Carnduff, C.I E., of the Indian Civil Service, are replaced at the disposal of the Government of Bengal, with effect from the date on which he is relieved of his present duties in the Legislative Department.

No. 216.—The services of Mr E S. Lloyd, of the Indian Civil Service, are replaced at the disposal of the Government of Madras, with effect from the 10th March 1904.

MEDICAL.

The 10th March 1904

No. 249—The services of Captain A E. Walter, I M S, are replaced at the disposal of the Military Department, with effect from the 19th February 1904.

SANITARY.

PLAGUE

The 11th March 1904.

No. 357—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Palni in the Palni taluq of the Madura district of the Madras presidency, if persons from the Mysore State are permitted to assemble at that place on the occasion of the ensuing Panguni Uttiram festival and cattle fair :

In exercise of the power conferred by section 2, sub-section (1), of the Epidemic Diseases Act, 1897 (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Ayyatur, Vadamadurai, Dindigul, Ambatturai and Ammayanayakkanur on the South Indian Railway shall be sold from the 17th March to

the 10th April 1904 (both days inclusive) within the Mysore State to any person intending or believed to be intending to proceed to the Panguni Uttiram festival and cattle fair at Palni.

PORT BLAIR.

The 11th March 1904.

No. 153.—In continuation of Home Department notification no 517, dated the 15th July 1903, and under the provisions of Article 251, Exception (ii), Civil Service Regulations, the privilege leave granted to Mr. H H Duff, Officiating 6th Assistant Superintendent, Port Blair, for two months and four days, with effect from the 23rd May 1903, is extended by one day

JUDICIAL.

The 8th March 1904.

No. 421.—The services of Lieutenant J. K Knowles, 17th Infantry, are placed temporarily at the disposal of the Government of the United Provinces for employment as an officiating assistant cantonment magistrate.

No. 425.—Captain W. G. Hodgson, 82nd Punjabis, is appointed to officiate as assistant cantonment magistrate, Mhow

The 10th March 1904

No. 438.—Major C. Herbert, D S.O, Indian Army, cantonment magistrate, Dinapore, has been granted an extension of leave for eight days in continuation of the leave granted in the Home Department notification no 1356, dated the 10th September 1902, and the extension subsequently granted by His Majesty's Secretary of State for India.

ECCLESIASTICAL.

The 11th March 1904.

No 106.—The following programme of the proposed visitation tour of the Most Reverend the Lord Bishop of Calcutta and Metropolitan in India and Ceylon is published for general information —

Programme of the Bishop of Calcutta's visitation of East Bengal, etc, 1904

Station	Arrival	Departure	REMARKS
Calcutta	...	Monday, 14th March	...
Barisal	Tuesday, 15th March	Wednesday, 16th March	Visiting Turki and Dhandoba.
Goila	Wednesday, 16th March	Thursday, 17th March	...
Shuagram	Thursday, 17th March	Friday, 18th March	...
Barisal	Saturday, 19th March	Sunday, 20th March	...
Calcutta	Tuesday, 22nd March	......	...

Letters should, as a general rule, be sent to those Stations the names of which are printed in italics.

Matters of routine requiring immediate attention may be referred to the Bishop's Commissary, the Ven'ble A. Kitchin, Archdeacon, St. Thomas' Parsonage, Calcutta.

H. T. OTTLEY,
Bishop's Chaplain.

CALCUTTA,
The 7th March 1904.

H. H. RISLEY,
Secretary to the Government of India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

NOTIFICATIONS.

EMIGRATION.

Calcutta, the 9th March 1904.

No. 270—3-12.—In exercise of the powers conferred by section 113 of the Indian Emigration Act, 1883 (XXI of 1883), as amended by X of 1902), the Governor General in Council is pleased to make the following rules to regulate the engagement of Natives of India under Chapter XIV of the said Act, namely:—

Applications for permission to engage Natives of India under section 107.

1. Every application under section 107 of the Act for permission to engage Natives of India to depart by sea out of India for any of the purposes specified in that section shall, besides furnishing information required on the various points referred to therein, show clearly and fully the name of the applicant, his father's name, the place of his residence, and his occupation or profession.

2. If the Local Government grants the permission applied for it shall forward to the Protector of Emigrants at the port from which the Natives of India are to embark, a copy of the application and of the order of permission passed thereon under section 108 of the Act.

3. The Protector of Emigrants shall maintain the book referred to in section 109, sub-section (2), of the Act, in the following form, and shall register therein the particulars required for the proper filling up of the form concerning each Native of India engaged, and his dependents and concerning person engaging him:—

Register of Natives of India, and their dependents, engaged to proceed by sea out of India under the provisions of Chapter XIV of Act XXI of 1883, as amended by Act X of 1902.

REGISTRATION.		PERSONS ENGAGED.		DEPENDENTS.		PARTICULARS AND RESIDENCE OF PERSONS ENGAGED AND THEIR DEPENDENTS.							HEIRS OF PERSONS ENGAGED AND THEIR DEPENDENTS.					TERMS OF AGREEMENT.					PERSON BY WHOM ENGAGED.								
																										Residence.					
Date.	Number.	Name.	Father's name.	Name.	Relationship to persons engaged.	Sex.	Age.	Caste.	Occupation.	District.	Thana, tahsil, or taluk.	Village or town.	Name and residence.	Father's name.	Relationship.	Country for which engaged and port of disembarkation.	Name of ship and date fixed for departure.	Period for which engaged.	Nature of work.	Rate of wages.	Provision made for the health and comfort of the persons engaged, and their dependents during the period of engagement.	Conditions as to repatriation at the end of the period of engagement.	Name.	Father's name.	Occupation.	District.	Thana, tahsil, or taluk.	Village or town.	Signature, mark, finger or thumb impression of the persons engaged and of their dependents.	Government Order (number and date).	REMARKS.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32

Certificate to be granted by Protector to the applicant.

4. The Protector of Emigrants shall, if the Local Government so directs, give to every person permitted to engage Natives of India under the provision of Chapter XIV of the Act a certificate in the following form:

Certified that ______ resident of ______ has been permitted by the Government of ______ to engage the person, or persons, named below for the purpose ______

and that the requirements of Chapter XIV of Act XXI of 1883, as amended by Act X of 1902, and of the rules thereunder, have been fulfilled.

Particulars of person, or persons, engaged, and of his, or their, dependents if any.

Name.	Father's name.	Village or town, thana, tahsil or taluk, and district of residence.	Serial number in Register.
1	2	3	4

5. If, upon the return of any Native of India after the expiry or termination of his engagement, the person who engaged him claims the release of any security which he may have furnished in pursuance of the provision of section 107, sub-section (1), sub-clause (vi), of the Act; he shall produce the Native of India with his dependents before the Protector of Emigrants at the port at which he originally embarked.

Procedure to be followed when release of security furnished under section 107 of the Act is claimed

6. The Protector of Emigrants shall enter the date of return of every Native of India produced before him under rule 5, and of his dependents, if any, in the "Remarks" column of the register prescribed by rule 5, and shall question him as to the treatment which he received during the period of his engagement, and shall ascertain whether the terms of the agreement were duly observed.

Enquiry to be made by Protector as to the treatment received by Native of India produced under rule 5

7. The Protector of Emigrants shall submit a report to the Local Government of the result of every enquiry made by him under rule 6, and, after receipt of such report and such further enquiry (if any) as it may think fit to make, the Local Government shall pass orders under section 110 of the Act

Report of result of enquiry to be submitted by Protector to Government

---

GEOLOGY AND MINERALS.

The 10th March 1904.

No. 864 68-20.—In exercise of the powers conferred by section 20 of the Indian Mines Act, 1901 (VIII of 1901), the Governor General in Council is pleased to make the following rules for application to all coal mines in British India —

I.—SINGLE SHAFTS AND OUTLETS

Rule 1.—(*a*) The owner, agent, or manager of a mine shall not employ any person in the mine, or permit any person to be in the mine for the purpose of employment therein, unless there are at least two shafts or outlets with which every seam for the time being at work shall have a communication, so that such shafts or outlets shall afford separate means of ingress and egress available to the persons employed in every such seam

(*b*) Proper arrangements shall be made for persons to descend to and ascend from the mine at each of such shafts or outlets If apparatus is necessary, it shall be kept on the works belonging to the mine, and shall be constantly available for use

(*c*) Such shafts or outlets shall not at any point be nearer to one another than 45 feet, and each shall be connected with the other by means of a communication not less than 4 feet high and 4 feet wide.

(*d*) The foregoing provisions of this rule with respect to shafts and outlets shall not apply—

(i) while a shaft is being sunk or an outlet being made,

(ii) to any working for the purpose of making a communication between two or more shafts or outlets;

(iii) to any working for the sole purpose of searching for or proving mineral;

so long as not more than 40 persons are employed below ground at any one time in the whole of the different seams in connection with a single shaft or outlet

(*e*) In cases where there are special difficulties which make compliance with the foregoing provisions of this rule not reasonably practicable, the mine may be exempted therefrom by the Local Government, subject to such conditions as it may think fit to impose.

(*f*) So much of this rule as requires two shafts or outlets to be separated by a distance of not less than 45 feet shall not apply to any shafts sunk or commenced to be sunk before this rule comes into force.

II.—RAISING AND LOWERING PERSONS.

Rule 2.—In every mine which is usually entered by means of machinery the following provisions shall have effect, namely —

(*a*) A single linked chain shall not be used for lowering or raising persons in any working shaft or plane, except for the short coupling chain attached to a cage, skip, bucket or tub

(*b*) There shall be attached to every machine worked by steam or machanical power, and used for lowering or raising persons, an adequate brake or brakes, and a proper indicator (in addition to any mark on the rope) showing, to the person who works the machine, the position of the cage, skip, bucket or tub in the shaft, and, if the drum is not on the crank shaft, there shall be an adequate brake on the drum shaft:

Provided that in the case of a shaft not exceeding 100 feet in depth or of a shaft in course of sinking so much of this rule as requires an indicator shall not apply.

(c) Every apparatus on or in which persons ride in every working shaft, shall be provided with a sufficient cover overhead, except in a shaft not exceeding 150 feet in depth where buckets are used for winding or in a shaft in course of sinking, or where persons are employed at work in a shaft.

(d) Every working shaft used for the purpose of drawing mineral, or for lowering or raising persons, shall, if exceeding 150 feet in depth, be provided with proper means of communicating distinct and definite signals from the bottom of the shaft, and from every entrance for the time being in use between the surface and the bottom of the shaft, to the surface, and except in the case of a shaft in course of sinking, from the surface to the bottom of the shaft and to every entrance for the time being in use between the surface and the bottom of the shaft

(e) Every working shaft (except a shaft in course of sinking) used for lowering or raising persons shall, if exceeding 100 feet in depth, be provided with guides

(f) There shall be on the drum of every machine used for lowering or raising persons such flanges or horns or other appliances as may be sufficient to prevent the rope from slipping The rope shall be securely fastened to the drum, and there shall be at least two turns of the rope on the drum when the cage, skip, bucket or tub is at the bottom of the shaft After any stoppage of winding for more than two hours, the cage, skip, bucket or tub shall, before any person is allowed to ride therein, be run a complete trip up and down the working portion of the shaft at least once, to ensure that everything is in good working order

(g) A competent person or persons appointed by the owner, agent, or manager for the purpose shall, once at least in every 24 hours, examine the state of the external parts of the machinery and of the head-gear, ropes, chains, and other similar appliances of the mine which are in actual use both above ground and below ground, and shall, once at least in every week, examine the state of the shafts by which persons ascend or descend and the state of the guides and the conductors in the shafts, and shall without delay write or cause to be written a true report of the result of such examination, aad every such report shall be recorded in a paged book to be kept at the mine for the purpose, and shall be signed and dated by the person who made the examination

III —ROADS AND WORKING PLACES

Rule 3 —The roofs and sides of all travelling roads and working places shall be made and kept secure

Rule 4 —(a) Every part of a mine in or through which any person has to work or pass, shall be inspected at least once during every twenty-four hours by a competent person or persons appointed by the owner, agent, or manager for the purpose of ascertaining the condition thereof so far as the presence of gas, ventilation, roof, sides, and general safety are concerned

Provided that when a mine has been unworked for more than twenty-four hours, the inspection shall be made within two hours before any workman is allowed to pass a station or stations appointed by the manager at the entrance to the mine or different parts of the mine, as the case may require

(b) Every person who makes such inspection shall without delay write or cause to be written a true report of the result of such inspection either during or at the close of such twenty-four hours, and every such report shall be recorded in a paged book to be kept at the mine for the purpose, and shall be signed and dated by the person who made the inspection.

Rule 5 —If at any time it is found by the person for the time being in charge of a mine or any part thereof that, by reason of inflammable gases prevailing in the mine or part, or of any cause whatever, the mine or part is dangerous, every workman shall be withdrawn from the mine or part, and a competent person appointed for the purpose shall inspect the mine or part, and, if the danger arises from inflammable gas, shall do so with a locked safety-lamp, and in every case shall make a true report of the condition of the mine or part, and no workman shall, except in so far as in necessary for enquiriug into the cause of danger, or for the removal thereof, or for exploration, be re-admitted into the mine or part, until the same is stated by the person appointed as aforesaid not to be dangerous. Every such report shall be recorded without delay in a paged book, which shall be kept at the mine for the purpose, and shall be dated and signed by the person who made the inspection.

Rule 6 —Where a place is likely to contain a dangerous accummulation of water, the working approaching that place shall not at any point within 100 feet thereof exceed 8 feet

in width or height, and there shall be constantly kept at a sufficient distance, not being less than 10 feet in advance, at least one bore-hole near the centre of the working, and sufficient bore-holes on each side, and, where necessary, above or below.

Rule 7.—Every entrance to any place, which is not in actual use or course of working and extension, shall be properly fenced across the whole width of the entrance, so as to prevent persons inadvertently entering the same

Rule 8—Every underground plane on which persons travel and which is self-acting or worked by an engine, shall be provided (if exceeding 100 feet in length) with some proper means of communicating distinct and definite signals between the stopping places and the ends of the plane, and shall be provided in every case with sufficient manholes for places of refuge, occurring at intervals of not more than 60 feet, and being not less than 4 feet in height 2 feet 3 inches in width, and 2 feet in depth

IV.—PLANS

Rule 9—The owner, agent, or manager of every mine shall keep in the office at the mine an accurate plan of the workings of the mine, on a scale not smaller than 200 feet to the inch, showing the workings up to a date not more than six months previously It shall also show the shaft openings, and all those important surface marks within the boundaries, such as railways which lie within 600 feet of any part of the mine workings, also the general direction and rate of dip of the strata, together with a statement of the depth of each shaft and a section of the seam or seams being worked

Provided that the owner, agent, or manager of a mine worked in the open and not under cover shall be exempt from the necessity of keeping such plans, unless required to do so by the Chief Inspector of Mines

Rule 10—The owner, agent, or manager of every mine shall, at any time on the request of the Chief Inspector of Mines or of any Inspector of Mines, produce to him at the office at the mine such plan and section, and also, on the like request, mark on such plan and section the then state of the workings of the mine, and the Chief Inspector or Inspector shall be entitled to examine the plan and the section, and for official purposes to make or have a copy made of any part thereof respectively

Rule 11—If the owner, agent, or manager of a mine fails to keep, or wilfully refuses to produce or allow to be examined, the plan and section aforesaid, or wilfully withholds any portion thereof, or wilfully refuses on request to mark thereon the state of the workings, of the mine, or conceals any part of these workings, or produces any imperfect or inaccurate plan or section, he shall (unless he shows that he was ignorant of the concealment, imperfection or inaccuracy) be guilty of an offence against these rules.

Rule 12—When a mine or seam is abandoned or the working thereof has been discontinued for more than a year, the owner of the mine or seam shall, within three months after the abandonment or within fifteen months after the discontinuance of working, send to the Chief Inspector of Mines the plan and sections which have been made for the mine or seam in compliance with these rules and showing the nearest surface boundaries in relation to the underground workings, or a true and accurate copy of the same, but no person except an Inspector of Mines shall be entitled, without the consent of the owner of the mine or seam, to see the plan when so sent until after the expiration of twelve years from the time of the abandonment

V—EXPLOSIVES

Rule 13—No explosive snbstance shall be used below ground in a mine except under the following conditions, namely —

(*a*) It shall not be stored in the mine.

(*b*) It shall not be taken into the mine except in secure cases or canisters, containing not more than five pounds each, and a workman shall not have in use or keep for use at one time in any one place more than one of such cases or canisters

Provided that the Chief Inspector may, in special cases and by order in writing, permit, subject to such limitations as he may prescribe, the use at one time in one place of more than one of such cases or canisters

(*c*) In the process of charging or stemming for blasting, no person shall use or have in his possession any iron or steel pricker, scraper, tamping-rod, or stemmer, and only clay or other non-inflammable substances shall be used for tamping or stemming.

(*d*) When a hole has been charged, the explosive shall not be unrammed, and no hole shall be bored at a distance of less than 12 inches from any hole where a charge has missed fire.

(*e*) No detonator shall be carried or kept in the same case or canister with any other explosive material, or inserted into the priming cartridge until immediately before it is used.

(*f*) No explosive shall be forcibly pressed into a hole of insufficient size.

(*g*) In any place which is dry and dusty, or in which the use of a locked safety-lamp is for the time being required by or in pursuance of these rules, no shot shall be fired, except by and under the direction of a competent person, appointed by the manager of the mine.

VI.—VENTILATION AND LIGHTING.

Rule 14.—An adequate amount of ventilation shall be constantly produced in every mine to dilute and render harmless smoke and noxious gases to such an extent that the working places of the shafts, levels, and workings of the mine, and the travelling roads to and from these working places shall be in a fit state for working and passing therein.

Rule 15.—No lamp or light other than a locked safety-lamp shall be allowed or used—

(*a*) in any place in a mine in which there is or is likely to be any such quantity of inflammable gas as to render the use of naked lights dangerous, or

(*b*) in any working approaching near a place in which there is likely to be an accumulation of inflammable gas,

and when it is necessary to work the coal in any part of a ventilating district with safety-lamps, it shall not be allowable to work the coal with naked lights in another part of the same ventilating district situated between the place where such lamps are being used and the return airway.

Explanation.—For the purposes of this rule, the expression "ventilating district" means such part of a seam as has an independent intake commencing from a main intake air course, and an independent return airway terminating at a main return air course.

Rule 16.—Whenever safety lamps are used, they shall be so constructed that they may be carried with safety against the air current ordinarily prevailing in the mine.

Rule 17.—In any mine or part of a mine in which the use of safety-lamps is for the time being required by or in pursuance of these rules, the following provisions shall have effect, namely:—

(*a*) A competent person shall be appointed by the manager to clean, trim, examine, and securely lock all such lamps before they are taken into the workings for use, and such lamps shall not be used until they have been so examined and found to be in safe working order and securely locked.

(*b*) No safety-lamp shall be unlocked except at the appointed lamp station, or for the purpose of firing a shot.

(*c*) No person, unless he has been authorised in writing by the manager either for the purpose of examining safety-lamps or for the purpose of firing shots, shall have in his possession any contrivance for opening the lock of a safety-lamp.

Explanation.—For the purposes of this rule the term manager includes an under-manager and any person for the time being carrying on the duties of the manager.

(*d*) No person shall have in his possession any unlocked safety-lamp, naked light, match, smoking apparatus or apparatus of any kind for striking a light, except within a completely closed chamber attached to the fuse of the shot.

Rule 18.—Where the use of safety-lamps is for the time being required by or in pursuance of these rules, the position of the lamp stations for lighting or relighting the lamps shall not be in the return air.

VII.—MISCELLANEOUS.

Rule 19.—Every side entrance to a mine from the surface and the top, and all entrances between the top and the bottom including the sump (if any) of every working ventilating, or pumping shaft, shall be properly fenced but this shall not be taken to forbid the temporary removal of the fence for the purpose of repairs or other operations, if proper precautions are used. Shafts temporarily or permanently cut of use shall be properly fenced.

Rule 20.—Every fly wheel and all exposed and dangerous parts of the machinery used in or about a mine shall be kept securely fenced.

Rule 21.—Where no enactment for the regulation and inspection of steam-boilers and prime-movers is for the time being in force, every steam-boiler, whether separate or one of range, shall have attached to it a proper safety-valve, and also a proper steam-gauge and water-gauge to show respectively the pressure of steam and the height of water in each boiler.

Rule 22.—Ambulances or stretchers with splints and bandages shall be kept ready at hand in a convenient place and in good and serviceable order at every mine.

Rule 23.—Copies of all rules made under the Indian Mines Act, 1901, shall be kept at every mine, and shall be produced at any time on the request of an Inspector of Mines.

Rule 24.—Where the natural strata are not safe, every working or pumping shaft shall be securely cased, lined, or otherwise made secure

Rule 25.—If in any mine the winding apparatus is not provided with some automatic contrivance to prevent over-winding, then the cage, skip, bucket or tub shall not, when persons are being raised in it, be wound up at a speed exceeding three miles an hour after it has reached a point in the shaft to be fixed by the special rules made for the mine under section 21 of the Indian Mines Act, 1901.

Rule 26.—Where any person required by these rules, or by any special rule made under section 21 of the Indian Mines Act, 1901, to make any report is unable to write, he shall be present when his report is written for him, and shall have it read over to him, and shall attach his thumb-mark to it The person writing the report shall also sign his name at the end, together with a statement that it has been read over to the person for whom it was written.

FORESTS.

Calcutta, the 11th March 1904

No 378—60-32-*F*.—Mr. F A. Leete, F C H., Deputy Conservator of Forests, 3rd grade, United Provinces, is transferred to Burma in the interests of the public service

J. WILSON,

Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Fort William, the 7th March, 1904

No 473-*G*—The following substantive changes are made in the graded list of the Political Department consequent on the return from the seconded list of Mr A. Williams, a Resident of the 2nd class, and with effect from the 4th January 1904 :—

Mr. S M. Fraser, C.I.E., a Resident of the 2nd class, reverts to Political Agent of the 1st class

Major A. F. Pinhey, C I.E., a Political Agent of the 1st class, reverts to Political Agent of the 2nd class.

Major G F. Chenevix Trench, a Political Agent of the 2nd class, reverts to Political Agent of the 3rd class.

Lieutenant-Colonel C G. F Fagan, a Political Agent of the 3rd class, reverts to Political Agent of the 4th class.

Major A. F. Bruce, a Political Agent of the 4th class, reverts to Political Assistant of the 1st class.

Major E. LeMesurier, a Political Assistant of the 1st class, reverts to Political Assistant of the 2nd class.

Captain R A. E Benn, C.I E. a Political Assistant of the 2nd class, reverts to a Political Assistant of the 3rd class.

These arrangements are made without prejudice to superior acting appointments held by any of the abovementioned officers on the date specified.

The 8th March 1904

No. 483-*G*.—*Addendum*.—In Notification No. 11-G, dated the 19th January 1904, after the words "Resident of the 2nd class" *read* "and General Superintendent of Operations for the Suppression of Thagi and Dakaiti"

No. 485-*G*.—Major W. C. R. Stratton, a Political Agent of the 2nd class, is granted privilege leave for two months with effect from the 16th March 1904, and is also granted furlough for five months, under articles 233 and 308 (*b*) of the Civil Service Regulations, in continuation of the privilege leave.

The 9th March 1904.

No. 488-*G*.— Captain E. H. Bowle-Evans, Indian Medical Service (Bengal), an officiating Agency Surgeon of the 2nd class, and Civil Surgeon of Quetta, is appointed to hold charge of the current duties of the office of Administrative Medical Officer in Baluchistan, in addition to his own duties, with effect from the 25th of February 1904, and until further orders.

The 10th March 1904.

No. 500-*G*.—Captain S. G. Knox, a Political Assistant of the 2nd (officiating 1st) class, is posted temporarily as Assistant Political Agent and Assistant Commissioner in Quetta and Pishin.

The 11th March 1904.

No. 505-*G*.—Consequent on the reversions ordered in Notification No. 473-G, dated the 7th March 1903, and with effect from the 4th January 1904, Major L. S. Newmarch, a Resident of the 2nd class, substantive *pro tempore*, reverts to his substantive grade of Political Agent of the 1st class.

No. 507-*G*.—Mr H C Clogstoun, Superintendent of the Dholpur State, is appointed to hold charge of the current duties of the office of Political Agent in the Eastern States of Rajputana, in addition to his own duties, with effect from the 16th March 1904, and until further orders

No. 1016-*I B*.—The undermentioned officer is granted leave to proceed out of India, on private affairs, under the leave rules for the Staff Corps, the specified period to count from the date of being struck off duty:

Captain C. E E F K Macquoid, D.S.O, 20th Deccan Horse, Inspecting Officer, Hyderabad and Mysore Imperial Service Troops, for eight months, of which three months will be privilege leave Pension service, 17th year, commenced on the 10th February 1904.

No. 1019-*I B*.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor-General in Council is pleased to apply the Cantonments Act, 1889 (XIII of 1889), in so far as the same may be applicable, to the Cantonment of Secunderabad, inclusive of the area hitherto known as the "Contingent Station" of Bolarum, and also to the Cantonment hitherto known as the "Contingent Station" of Aurangabad

Provided, first, that references to the Local Government and the official Gazette shall be read as referring to the Resident at Hyderabad and the Hyderabad Residency Orders, and that references to the Commanding Officer of the Cantonment shall be read as referring to the Officer Commanding the district,

Provided, secondly, that the further modifications set forth in the schedule hereto appended shall be made in the said Act as so applied, and

Provided, thirdly, that, for the purpose of facilitating the application of the said Act, any Court having jurisdiction in the Cantonment of Secunderabad or Aurangabad may construe its provisions with such alterations, not affecting the substance, as may be necessary or proper to adapt them to the matter before the Court.

Schedule.

(1) For section 4 *substitute*.—

"4. With the previous sanction of the Governor-General in Council the Resident at Hyderabad may, by notification in the Hyderabad Residency Orders, define or alter the limits of the Cantonments of Secunderabad and Aurangabad for the purposes of this Act and of all other enactments for the time being in force"

(2) For section 7 *substitute* —

"7 (1) The Cantonment Magistrate shall be such person as the Governor-General in Council may appoint in this behalf.

"(2) The Cantonment Magistrate shall exercise the powers of a District Magistrate as described in the Code of Criminal Procedure, 1898".

"(3) The Resident at Hyderabad may invest the Cantonment Magistrate with the powers described in section 30 of the Code of Criminal Procedure, 1898".

(3) *Omit* sections 8 to 12.

(4) In section 17, *for* "territories administered by such Government" wherever they occur, the words "British India" shall be substituted.

(5) In sub-section (1) of section 18, *for* "any Cantonment which is not included in a Municipality and which is situated in any part of Britith India in which that Act is in force" *substitute* "the Cantonments of Secunderabad and Aurangabad".

(6) For sub-sections (1) and (2) of section 27 *substitute*.—

"(1) Whenever the Governor-General in Council has, by a notification in the *Gazette of India*, extended under section 25 any enactment in any form to any cantonment or any part of any cantonment in British India or made under section 26 any rule for any such cantonment or any part of any such cantonment, the Governor-General in Council may, by notification in the *Gazette of India*, declare the enactment or rule so extended or made to

be in force in the Cantonments of Secunderabad and Aurangabad or any part thereof, subject to such restrictions and modifications, if any, as he thinks fit.

"(2) The enactment or rule shall thereupon, in accordance with such declaration be in force in the Cantonment of Secunderabad or Aurangabad or part thereof, as the case may be, until the Governor-General in Council otherwise directs".

II. The notification of the Government of India in the Foreign Department, No 1374-I., dated the 25th April 1890, is hereby cancelled.

No. 1020-*I B*—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor-General in Council is pleased to apply the Cantonments (House-Accommodation) Act, 1902 (II of 1902), in so far as the same may be applicable, to the Cantonment of Aurangabad·

Provided, first, that references to the Local Government and the local official Gazette shall be read as referring to the Resident at Hyderabad and the Hyderabad Residency Orders, that references to the Commanding Officer of the Cantonment shall be read as referring to the Officer Commanding the District, and that references to the District Magistrate shall be read as referring to the First Assistant to the Resident at Hyderabad;

Provided, secondly, that the further modifications set forth in the schedule hereto annexed shall be made in the said Act as so applied; and

Provided, thirdly, that for the purpose of facilitating the application of the said Act, any Court having jurisdiction in the Cantonment of Aurangabad may construe its provisions with such alterations, not affecting the substance, as may be necessary or proper to adapt them to the matter before the Court.

Schedule.

(1) In section 16, sub-section (1) *omit* clause (*b*) and in sub-section (2) the words "clause (*b*) or ".

(2) In section 18, sub-section (1), *for* "fifteen days" *substitute* "one month".

(3) In section 27, sub-section (1) *for* "station" *substitute* "District"

(4) In section 28, *for clause* (*a*) *substitute* —

"(*a*) a chairman, who shall be the First Assistant to the Resident at Hyderabad, or if it is inconvenient for him to act on the Committee, some European Civil Gazetted Officer, other than the Cantonment Magistrate, appointed by the Resident at Hyderabad to act in his stead",

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 26th October 1903.

From the 21st November next till further notice, the complete *Gazette of India* will be published at Calcutta. After the 14th November all Notifications and other matter intended for publication in the Gazette should be addressed to the Publisher, 8, Hastings Street, Calcutta.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August, 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February, 1870, the Government of India directed that all Notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P HEWETT,

Secretary to the Government of India.

No 103 of 1904.—James Douglas Darling, engineer, of 4826, Greenway avenue, in the city of Philadelphia, and state of Pennsylvania, United States of America *Improvements in process of and apparatus for separating carbon from carbonaceous materials*

No 104 of 1904—William Henry Deakin, engineer, c/o Messrs. King, King & Co., Bombay, in British India *Improvements in stools for point rod roller frames and the like*

No 105 of 1904—Window Glass Machine Company, glass manufacturers, of Farmers Bank building, Pittsburg, Allegheny, county and state of Pennsylvania, United States of America. *Improvements in methods of and apparatus for drawing glass.*

No. 974 P—SPECIFICATIONS of the under-mentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A M to 3 P M at the Secretary's office (Imperial Secretariat, Government Place, West), Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying.—

No. 297 of 1903—Claus August Spreckels, engineer and manufacturer, and Charles Albert Kern, chemist and manufacturer, both of 138, Front street, in the borough of Manhattan, city, county and state of New York, United States of America. *Improvements in the purification of sugar crystals, and a product obtained thereby.* (Specification filed 26 February 1904.)

No. 299 of 1903.—James Morton Stafford, minister, of Petersburg, county of Pike, state of Indiana, United States of America. *Improvements in and relating to non-refillable bottles.* (Specification filed 26 February 1904.)

No. 303 of 1903.—Edward Victor Browne, engineer, of Ross Cot, Jhansi, British India. *Improvements in bale binders and the like* (Specification filed 1 March 1904.)

No. 312 of 1903.—Jacques Oettli, professor, a member of the Syndicat pour L'Exploitation des Inventions du Professeur Oettli, residing at Lausanne, Switzerland *Electrolytic process for the manufacture of white lead* (Specification filed 26 February 1904)

No 313 of 1903—Jacques Oettli, professor, a member of the Syndicat pour L'Exploitation des Inventions du Professeur Oettli, residing at Lausanne, Switzerland. *Electrolytic process for the manufacture of zinc white* (Specification filed 26 February 1904)

No. 20 of 1904.—Charles Simmons, civil and mining engineer, of "Bowreah" Sands road, Paignton, in the county of Devon, England. *Improvements in appliances for lifting and turning drills for rock boring or other purposes* (Specification filed 26 February 1904)

No. 28 of 1904.—Hugh Marshall, chemist, of 12, Lonsdale terrace, and Joseph Maton, company manager, of 388, Morningside road, both in the city of Edinburgh, Scotland. *Improvements in lamps, and apparatus for burning carburetted air.* (Specification filed 26 February 1904)

No 29 of 1904—Robert Cooke Sayer, engineer, of 11, Clyde road, Redland, Bristol, England. *Improvements in bridging horizontal and vertical spaces* (Specification filed 26 February 1904)

No. 975 P—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each —

No. 295 of 1897.—Ernest Auguste George Street. *Improvements in or relating to the manufacture of explosives and explosive substances* (From 5 March 1904 to 5 March 1905)

No 211 of 1898.—The Linotype Company, Limited *Improvements in and connected with the moulding mechanism of linotype machines.* (From 1 March 1904 to 1 March 1905.)

No. 205 of 1898—The Linotype Company, Limited *Improvements in and connected with the distributing mechanism of linotype machines* (From 1 March 1904 to 1 March 1905.)

No. 285 of 1899.—Sri Krishna Joshi. *A method and apparatus for the utilisation of solar heat for culinary, industrial and other purposes.* (From 15 March 1904 to 15 March 1905)

No. 254 of 1899.—Valdemar Poulsen. *A method of and apparatus for effecting the storing up of speech or signals by magnetically influencing magnetisable bodies.* (From 12 February 1905 to 12 February 1906.)

No. 268 of 1896—John James Marsland *New or improved apparatus for discharging night-soil and the like into sewers.* (From 3 March 1904 to 3 March 1905.)

No. 423 of 1896—Frederic Fowler Farlow. *An improved automatic low water alarm apparatus* (From 5 February 1904 to 5 February 1905)

No. 176 of 1894—George Kift Winter and George Bliss Winter *Improvements in block working, more especially applicable to single lines.* (From 4 March 1904 to 4 March 1905.)

No. 170 of 1899.—Doctor Carl Aner Von Welsbach *Improvements in illuminating conductors for incandescent electric lamps* (From 27 June 1904 to 27 June 1905.)

No. 34 of 1894—Edmund Charrington. *Improvements in rollers for reciprocating rods such as those which work railway points or signals and the like* (From 13 April 1904 to 13 April 1905.)

No. 976 P.—WHEREAS the inventor of the under-mentioned invention has failed to pay within the time limited in that behalf by the fourth schedule to the Inventions and

Designs Act of 1888 the fee hereinafter mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling and using the said invention in British India, and of authorising others so to do, has ceased—

No 309 of 1896 —Jacob Pulver Wright *Improvements in and relating to machines for making matches.* (Specification filed 30 November 1896.)

Fee in respect of the continuance of an exclusive privilege—

4 (*d*) After the expiration of the sixth year and before the expiration of the seventh year from the date of the filing of the specification—

The sum of R50 for the above invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A M to 3 P M on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications, and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified. or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary

C. R. WILSON,
Secretary under the Inventions and Designs Act, 1888.

THE HONOURABLE THE RESIDENT IN MYSORE.

NOTIFICATIONS.

Bangalore, the 25th February 1904.

No. 923-A.—Under section 10 of the Code of Criminal Procedure, 1898 (Act V of 1898), as applied to the Civil and Military Station of Bangalore, the Resident in Mysore is pleased to appoint Mr P. L Moore, of the Indian Civil Service, to be a Magistrate of the first class and District Magistrate of the said Civil and Military Station.

The 2nd March 1904.

No. 1038.—The licenses granted under sections 6 and 9 of the Indian Christian Marriage Act, 1872, to the Reverend Johannes Rudolf August Ferdinand Kabis of the Leipzig Evangelical Lutheran Mission within the territories included in the Civil and Military Station of Bangalore under Notifications Nos. 4384 and 4385, dated the 11th September 1903, are hereby cancelled.

By order,

R. M. KING,

First Assistant Resident

The 4th March 1904.

No. 1096.—Whereas by the Notification of the Government of India in the Foreign Department, No 2252-I, dated the 7th August 1883, the Indian Christian Marriage Act, 1872, was with certain modifications declared to apply to the Civil and Military Station of Bangalore, so far as regards marriages between persons, one of whom is a Native Christian subject of Mysore, and neither of whom is a Christian British subject.

In exercise of the powers conferred by sections 6 and 9 respectively of the Act, the Hon'ble the Resident in Mysore is pleased—

(a) to grant a license to the Reverend Adolf Jaeger of the Leipzig Evangelical Lutheran Mission to solemnize marriages within the territories included in the Civil and Military Station of Bangalore , and

(b) to grant a license to the said Reverend Adolf Jaeger to grant certificates of marriage within the territories included in the Civil and Military Station of Bangalore between Native Christians, one of whom is a Native Christian subject of Mysore, and neither of whom is a Christian subject of His Majesty

No. 1097 —In exercise of the powers conferred by sections 6, 8 and 9 respectively of the Indian Christian Marriage Act, 1872 (XV of 1872, as modified by Act II of 1891), and which have been delegated to him by the Governor-General in Council under section 86 of the Act by Foreign Department Notification No 3747-I.B., dated the 1st October 1897, the Hon'ble the Resident in Mysore is pleased —

(a) to grant a license to the Reverend Adolf Jaeger of the Leipzig Evangelical Lutheran Mission to solemnize marriages within the territories of Mysore including the Civil and Military Station of Bangalore ,

(b) to grant a license to the said Reverend Adolf Jaeger authorising him to grant certificates of marriage between Native Christians within the said territories

The powers hereby conferred are to be exercised only so far as regards Christian subjects of His Majesty.

By order,

For First Assistant to the Resident.

Remarks by the Administrative Medical Officer, North-West Frontier Province.

Six thousand six hundred and eighteen births were registered in the Province during the month of January 1904, giving a birth-rate of 38 *per mille* of population. Of the total number of births, 3,671 were boys and 2,947 girls.

The total number of deaths registered from all causes in the Province during the month of January 1904 was 7,217 against 7,077 in the previous month, and 5,611 in the corresponding month of the last year, giving an annual death-rate of 43, 42 and 33 *per mille* of population per annum, respectively.

There was not a single death registered under the head of cholera. From small-pox 340 deaths were registered against 257 in the previous month and 246 in the corresponding month last year.

There was not a single death registered from plague.

From fevers 5,695 deaths were registered against 5,795 in the previous month, 4,506 in the corresponding month of the last year, dysentery and diarrhœa 41 against 54; respiratory disease 104 against 85; suicide *nil* against *nil*, wounding 12 against 11, accidents 23 against 33; snake-bite and killed by wild beasts 4 against 1; and from all other causes 998 against 832 in the past month and 674 in the corresponding month of the past year.

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 11th March, 1904, and is hereby promulgated for general information.—

ACT No. VI. OF 1904.

An Act further to amend the Transfer of Property Act, 1882.

WHEREAS it is expedient further to amend the Transfer of Property Act, 1882; It is hereby enacted as follows:—

Short title

1. This Act may be called the Transfer of Property (Amendment) Act, 1904

Amendment of section 1, paragraph 4, Act IV of 1882.

2. In the fourth paragraph of section 1 of the said Act, after the words "extend this Act" the words "or any part thereof" shall be inserted.

Amendment of section 59, Act IV of 1882.

3. In the second paragraph of section 59 of the said Act, for the words "an instrument" the words "a registered instrument" shall be substituted.

Amendment of last paragraph of section 59 and of section 69, Act IV of 1882.

4. In the last paragraph of section 59 and in clause (*c*) of section 69 of the said Act, for the words "and Rangoon" and for the words "or Rangoon" the words "Rangoon, Moulmein, Bassein and Akyab" and the words "Rangoon, Moulmein, Bassein or Akyab" shall be respectively substituted.

Substitution of new paragraph for second paragraph of section 107, Act IV of 1882.

5. For the second paragraph of section 107 of the said Act the following paragraph shall be substituted, namely:—

"All other leases of immoveable property may be made either by a registered instrument or by oral agreement accompanied by delivery of possession

Provided that the Local Government may, with the previous sanction of the Governor General in Council, from time to time, by notification in the local official Gazette, direct that leases of immoveable property, other than leases from year to year, or for any term exceeding one year, or reserving a yearly rent, or any class of such leases, may be made by unregistered instrument or by oral agreement without delivery of possession."

Amendment of section 117, Act IV of 1882.

6. In section 117 of the said Act, after the words "to be so applicable" the words "in the case of all or any of such leases" shall be inserted.

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to authorize the levy of dues on vessels for the provision of lights on the coast of the Province of Madras was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 11th March, 1904 —

WE, the undersigned, Members of the Select Committee to which the Bill to authorize the levy of dues on vessels for the provision of lights on the coast of the Province of Madras was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto

From Registrar, High Court, Calcutta, No 115, dated 21st February, 1903 [Paper No 1].

From Government, Burma, No 2—H 4 (Commerce), dated 2nd March, 1903, and enclosure [Papers No 2]

From Government, Madras, No 90 (Marine), dated 6th March, 1903, and enclosures [Papers No 3].

From Government, Bengal, No 576 (Marine), dated 19th March, 1903, and enclosures [Papers No 4]

From Government, Bombay, No. 1596, dated 6th March, 1903, and enclosures, and No 1835, dated 16th March, 1903, and enclosures [Papers No 5]

From Government, Madras, No 120 (Marine), dated 20th March, 1903, and enclosures [Papers No 6]

From Government of India, Finance and Commerce Department, to Messrs. Turner, Morrison & Co, No 2799—S. R., dated 16th May, 1903, and endorsement, with memorial from British India Steam Navigation Company, Limited, and the Asiatic Steam Navigation Company, Limited [Papers No 7]

2 The main alteration we have suggested in the Bill is the substitution of a new Schedule of coast-light dues for that appended to the Bill as introduced We found on examination that that Schedule, besides being obscure in form and therefore difficult of interpretation, was insufficient in scope as it failed to cover all the vessels which ought equitably to be subject to the proposed dues, and we came to the conclusion that the only satisfactory course was to recast the Schedule entirely so as to specify the main trade routes round the coast of India and thus indicate with as much exactness as possible the particular voyages which bring vessels within the range of the new dues. The new classification adopted in our revised Schedule will, we trust, be found to do this. It has been prepared after considerable discussion with the Government of Madras, and its details have been examined and approved by persons having practical experience in the coasting trade of India.

3. As a result of our new classification and of further information as to the tonnage of shipping which follows the routes detailed by us, we have found it possible to suggest the reduction of the proposed dues to a maximum rate of 9 pies per ton on

steam-vessels using the coast-lights on the east or west coast of the Presidency of Madras, as the case may be, and a lower maximum rate of 5 pies per ton in the case of steam-vessels which may make the short voyage between a port in the Presidency of Bombay and Tellicherry or any port in the Presidency of Madras north of Tellicherry. Instead of a special provision for certain sailing-vessels, as in class VI of the Schedule to the Bill as introduced, we have, in class VIII of our revised Schedule, proposed that all sailing-vessels making the voyages specified in the case of steam-vessels, shall pay half the rate which would be chargeable if they were steam-vessels.

4. With regard to the period for which a payment of dues will exempt a vessel from further charge we have, by the addition of a proviso to clause 3 (3) of the Bill, in place of the third column of the Schedule to the Bill as introduced, laid down a uniform period of thirty days from the date on which dues may have been paid on account of the lights on the East or West Coast group as that during which a vessel will be exempt from further charge for dues on account of the same group of lights.

5 As Aden forms a portion of the Presidency of Bombay, and as we do not think it desirable to bring vessels sailing from or to that port within the scope of the provisions of the Schedule (classes I, II, III, V and VI) relating specially to vessels sailing from or to ports in that Presidency, we have added words to the note at the end of the Schedule declaring that "the Presidency of Bombay" as used therein does not include Aden.

6 The other alterations we have suggested in the Bill are either consequential on the above or are of such a nature as not to require explanation.

7. The publication ordered by the Council has been made as follows —

No. II.

THE MADRAS COAST-LIGHTS BILL.

CONTENTS.

[The portions printed in italics denote the alterations proposed by the Select Committee.]

No. II.

A Bill to authorise the levy of dues on vessels for the provision of lights on the coast of the Presidency of Madras

WHEREAS it is expedient to authorize the levy of dues on vessels for the provision of lights on the coast of the *Presidency* of Madras; It is hereby enacted as follows:—

Short title and extent.

1. (1) This Act may be called the Madras Coast-lights Act, 1904.

(2) It extends to the whole of British India

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(a) "Customs-collector" means a Customs-collector appointed under the Sea Customs Act, 1878, and includes any person appointed by the Local Government to discharge the functions of a Customs-collector under this Act; and

(b) *"ton" means a ton as determined or determinable by the rules for the time being in force for regulating the measurement of the net tonnage of British ships.*

Imposition of coast-light dues

3. (1) For the purpose of providing lights on the coast of the *Presidency* of Madras, coast-light dues shall be paid in respect of every vessel of the burden of thirty tons or upwards making any such voyage as is described in the schedule.

(2) The said dues shall be paid at such rates, not exceeding those respectively specified in the schedule, as the Governor of Fort St. George in Council may, with the previous sanction of the Governor General in Council, fix by notification in the local official Gazette.

(3) The said coast-light dues shall be payable *only at ports in British India other than Aden and shall be paid*—

(a) in the case of a vessel clearing out of a port in British India, previous to the grant of a port-clearance, and,

(b) in the case of a vessel arriving from Aden or a port outside British India at a port in British India other than Aden immediately upon her arrival in such port

Provided that, when coast light dues have been paid in the case of any vessel on account of the lights in the eastern or western group no further coast-light dues on account of lights in the same group shall be payable in respect of that vessel for a period of thirty days from the date on which such dues were paid

Explanation.—The coast-lights on the east coast of the Presidency of Madras shall be deemed to constitute the eastern group of coast-lights, and the coast-lights on the west coast of the said Presidency to constitute the western group of coast-lights

Collection of coast-light dues and grant of receipt therefor

4. The Customs-collector shall levy the coast-light dues payable under section 3, and shall grant to the person paying the same a receipt in writing under his hand specifying—

(a) the port at which the coast light dues are paid,

(b) the amount paid,

(c) the name, tonnage and other proper description of the vessel in respect of which the payment is made, and

(d) the *group in respect of which the coast-light dues are paid*

Master to report arrival of vessel

5. Within twenty-four hours after the arrival in any port of a vessel in respect of which coast-light dues are payable under section 3, the master shall give notice in writing of such arrival to the Customs collector

Ascertainment of tonnage

6. In order to ascertain the tonnage of any vessel in respect of which coast-light dues are payable under section 3, the following rules shall be observed, namely:—

(a) Where the vessel is registered under any law for the time being in force in British India, the Customs-collector may require the owner or master, or any other person having possession of her register, to produce such register for inspection, and, if any such owner, master or other person neglects or refuses to produce such register or otherwise to satisfy the Customs-collector as to what is the true tonnage of the vessel in respect of which such coast-light dues are payable, he shall be punishable with fine which may extend to one hundred rupees, and the Customs collector may cause the vessel to be measured and the tonnage thereof to be ascertained; and in such case the owner or master shall also be liable to pay the expenses of such measurement and ascertainment

(b) Where the vessel is not so registered, and the owner or master fails to satisfy the Customs-collector as to what is her true tonnage according to the mode of measurement prescribed by the law for regulating the measurement of British registered vessels for the time being in force,

the Customs-collector shall cause the vessel to be measured, and the tonnage thereof to be ascertained according to such mode as aforesaid; and in such case the owner or master shall be liable to pay the expenses of such measurement and ascertainment.

Recovery of coast-light dues, expenses and costs

7. Where the master of any vessel refuses or neglects to pay to the Customs-collector on demand the amount of any coast-light dues or expenses payable under this Act in respect of such vessel, the Customs-collector may seize the vessel and the tackle, apparel and furniture belonging thereto, or any part thereof, and detain the same until the amount of such dues or expenses is paid,

and in case any part of such dues or expenses, or of the costs of such seizure and detention, remains unpaid for the space of five days next after any seizure so made, the Customs-collector may cause the vessel or other thing so seized to be sold, and with the proceeds of the sale may satisfy the dues, expenses and costs (including the costs of sale) remaining unpaid, and shall, on demand, render the surplus (if any) to the master of the vessel

No port-clearance to be granted until coast-light dues, expenses and costs are paid

8. The officer whose duty it is to grant a port-clearance for any vessel shall not grant such port-clearance until her master or some other person has paid, or secured to the satisfaction of the officer, the amount of all coast-light dues, expenses and costs payable in respect of the vessel under this Act, and of any fine imposed thereunder.

Master to specify on demand ports to or from which vessel is bound

9. The master of any vessel departing from or arriving in any port in British India, other than Aden, shall, on the demand of the Customs-collector, specify to what port the vessel is bound and at what port or ports (if any) the vessel intends to call, or from what port or ports she has come.

Penalty for evading payment of coast light dues, expenses or costs.

10. Whoever, being the master of a vessel, evades, or attempts to evade, the payment of any coast-light dues, expenses or costs payable in respect of such vessel under this Act, shall be punishable with fine which may extend to two hundred rupees

Determination of dispute as to liability to pay coast light dues, expenses or costs.

11. Where any dispute arises as to whether any coast-light dues, expenses or costs are payable in respect of any vessel under this Act, or as to the amount of such dues, expenses or costs, the dispute shall, on application made in that behalf by either of the disputing parties, be heard and determined, in the Presidency-towns of Calcutta, Madras and Bombay, by a Presidency Magistrate, and, elsewhere, by any Magistrate exercising at the place where the dispute arises powers not less than those of a Magistrate of the second class, and the decision of such Magistrate shall be final.

Saving for certain vessels

12. Nothing in this Act shall be deemed to apply to any vessel belonging to, or in the service of, His Majesty or the Government, or to any vessel of war belonging to any Foreign Prince or State.

THE SCHEDULE.

(See section 3.)

Vessels.	*Maximum rate per net registered ton.*
Class I.	
Steam-vessels departing from any port in the Presidency of Bombay, or from any port on the west coast of the South of India, and bound for or calling at any port on the east coast of the South of India, or vice versâ.	*9 pies on account of the western, and 9 pies on account of the eastern, group of coast-lights.*
Class II.	
Steam-vessels departing from any port in the Presidency of Bombay, or from any port on the west coast of the South of India, bound for or calling at any port in India, east of the eighty-sixth meridian of Longitude E., and not calling at any port on the east coast of the South of India, or vice versâ	*9 pies on account of the western group of coast-lights.*
Class III	
Steam-vessels departing from any port in the Presidency of Bombay, or from any port on the west coast of the South of India, and bound for or calling at any port outside India east of the seventy-eighth meridian of Longitude E, or vice versâ.	*9 pies on account of the western group of coast-lights*
Class IV.	
Steam-vessels calling at or departing from any port on the east coast of the South of India and not included in any other class	*9 pies on account of the eastern group of coast-lights*
Class V	
Steam-vessels departing from any port in the Presidency of Bombay and bound for the port of Tellicherry or for any port in the Presidency of Madras north of the port of Tellicherry, or vice versâ	*5 pies on account of the western group of coast-lights.*
Class VI	
Steam-vessels, not included in any other class, departing from any port in the Presidency of Bombay and bound for, or calling at, any port on the west coast of the South of India south of the port of Tellicherry; or vice versâ.	*9 pies on account of the western group of coast-lights.*
Class VII	
Steam-vessels, not included in any other class, calling at more than one port on the west coast of the South of India, or at more than one port on the east coast of the South of India.	*9 pies on account of the western or eastern group of coast lights, as the case may be*
Class VIII	
Sailing-vessels . . .	*Half the rate which would be chargeable as aforesaid if they were steam-vessels*

For the purposes of this Schedule, the expression "South of India" means any part of India south of a line drawn from Baidur on the west, to Ganjam on the east, coast of India, and the expression "Presidency of Bombay" does not include Aden.

J. M. MACPHERSON,
Secretary to the Government of India

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 11th March, 1904 —

No. 4 OF 1904.

A Bill to revive and continue section 8B of the Indian Tariff Act, 1894

WHEREAS it is expedient to revive and continue the duration of section 8B of the Indian Tariff Act, 1894, which was added by section 2 of the Indian Tariff (Amendment) Act, 1902, but expired in virtue of sub-section (2) of section 1 of the latter Act, from the thirty-first day of August, 1903, It is hereby enacted as follows —

Revival of section 8B, Act VIII, 1894.

1. Section 8 B of the Indian Tariff Act, 1894, is hereby revived and continued in force with effect from the first day of April, 1904.

Repeal of section 1 (2), Act VIII, 1902

2. Sub-section (2) of section 1 of the Indian Tariff (Amendment) Act, 1902, is hereby repealed.

STATEMENT OF OBJECTS AND REASONS.

THE Indian Tariff Amendment Act, 1902 (VIII of 1902), was passed with the object of enabling the Government of India to countervail bounties on sugar created by private trade combinations such as *cartels*. This Act expired on the 31st of August, 1903, but the Government of India were empowered by the Indian Tariff Amendment Act, 1903 (XII of 1903), to continue to levy the duties chargeable under the former amending Act until the 31st of March, 1904.

The object of the present Bill is to enable the Government of India to continue to levy special duties after that date on sugar imported from countries which, by maintaining high protective duties, render possible combinations to manipulate the price of sugar.

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA
LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS, 1861 AND 1892 (24 & 25 VICT., CAP. 67, AND 55 & 56 VICT, CAP. 14).

The Council met at Government House, Calcutta, on Friday, the 4th March, 1904.

PRESENT:

His Excellency Baron Curzon, P.C., G.M.S.I., G.M.I.E., Viceroy and Governor General of India, *presiding*.
His Honour Sir A. H. L. Fraser, K.C.S.I., Lieutenant-Governor of Bengal.
His Excellency General Viscount Kitchener of Khartoum, G.C.B., O.M., G.C.M.G., Commander-in-Chief in India.
The Hon'ble Mr. T. Raleigh, C.S.I.
The Hon'ble Sir E. FG. Law, K.C.M.G., C.S.I.
The Hon'ble Major-General Sir E. R. Elles, K.C.B., K.C.I.E.
The Hon'ble Sir A. T. Arundel, K.C.S.I.
The Hon'ble Sir Denzil Ibbetson, K.C.S.I.
The Hon'ble Rai Sri Ram Bahadur.
The Hon'ble Mr. A. W. Cruickshank, C.S.I.
His Highness Raja Sir Surindar Bikram Prakash Bahadur, K.C.S.I., of Sirmur
His Highness Agha Sir Sultan Muhammad Shah, Agha Khan, G.C.I.E.
The Hon'ble Mr. Gopal Krishna Gokhale, C.I.E.
The Hon'ble Mr. E. Cable.
The Hon'ble Nawab Saiyid Muhammad Sahib Bahadur.
The Hon'ble Mr. F. S. P. Lely, C.S.I.
The Hon'ble Mr. H. Adamson, C.S.I.
The Hon'ble Mr. A. Pedler, C.I.E., F.R.S.
The Hon'ble Mr. T. Morison.
The Hon'ble Dr. Ramkrishna Gopal Bhandarkar.
The Hon'ble Mr. J. B. Bilderbeck.
The Hon'ble Mr. D. M. Hamilton.
The Hon'ble Rai Bahadur B. K. Bose, C.I.E.
The Hon'ble Dr. Asutosh Mukhopadhyaya, D.L., F.R.A.S., F.R.S.E.

TRANSFER OF PROPERTY (AMENDMENT) BILL.

The Hon'ble SIR DENZIL IBBETSON presented the Report of the Select Committee on the Bill further to amend the Transfer of Property Act, 1882.

ANCIENT MONUMENTS PRESERVATION BILL.

The Hon'ble SIR DENZIL IBBETSON presented the Report of the Select Committee on the Bill to provide for the preservation of Ancient Monuments and of objects of archæological, historical or artistic interest.

CO-OPERATIVE CREDIT SOCIETIES BILL.

The Hon'ble SIR DENZIL IBBETSON said :—"My Lord, I present the Report of the Select Committee upon the Bill to provide for the constitution and control of Co-operative Credit Societies The more usual course in this Council is, for the Member in charge to defer his remarks upon the Report till he moves that it be taken into consideration But in this case the Bill has excited such general interest, and is so entirely non-contentious—in the sense that, however much difference of opinion there may be as to the wisest means, we all have the same end in view—that I think it will be well if I take this opportunity of explaining briefly our reasons for the principal changes which we propose in the Bill as introduced.

"We have received a very large number of opinions, not only from the authorities who have been officially consulted, but also from independent sources, while the discussions in the Press, both English and Indian, have in many cases been most helpful and suggestive. There is one fact, however, which I think our critics have often failed to bear in mind, but which it is, in my judgment, very important to remember; and that is, that the question of agricultural banks is quite a different question from that of co-operative credit societies, and that it is the latter only with which we are now dealing. The object of agricultural banks is to provide capital to finance the agriculture of the country, their operations are of the ordinary banking nature, and on a considerable scale; and whatever special privileges it might be found possible to extend to them, the ordinary companies law of India would still continue to apply to them The object of the societies with which we are now dealing is far more special and more limited. It is, as Sir Frederick Nicholson puts it, to substitute for a number of individual credits, which are weak because they are isolated, a combined credit which is strong because it is united. Their operations are confined within the limits of the society, and they will be 'small and simple credit societies for small and simple folk with simple needs and requiring small sums only'

"When introducing this Bill, I commented upon the great diversity of opinion that characterised the papers which were before Government when they framed their proposals A similar diversity has shown itself in the papers with which the Committee have had to deal. There is hardly a provision of any significance in the Bill which some of our advisers do not regard as of capital importance, and others condemn as a fatal defect, and in many cases, each side has been able to give very sound and excellent reasons in support of its views. In the presence of this conflict of opinion, a decision has not always been easy to arrive at. But, in the modifications which we propose in the Bill, we have been guided by the principle which I laid down when I introduced it, that elasticity and simplicity were the great desiderata, and that the fewer restrictions we impose by law upon these societies, the better. Our alterations, therefore, have been in the direction of simplification and of freedom.

"By far the most important of these alterations is that by which we have thrown open the constitution of the societies. The Council will remember that, under the Bill as introduced, rural societies were to be limited to agriculturists—a term which I explained was not meant to include the wealthy rent-receiver—while urban societies were to consist only of men of small means. To these provisions it was objected that they excluded the very men whose aid was most important to the new societies. The provisions had been framed upon the supposition that the men of light and leading, and still more important perhaps, the men of substance, the necessity for whose aid and sympathy was fully recognised, would assist the societies from outside, since they would have nothing to gain by membership, as they would not desire to borrow. And, so far as my own personal opinion goes, I am still inclined to think that that is the position in which they will be of most use. But the body of opinion in favour of a wider basis of membership, not only in order to extend

the scope of these societies as widely as possible, but also to secure that diversity of needs and interests which is desirable if their funds are to be utilised to the best advantage, is very weighty; and we have removed all restrictions upon the class of persons who may be members, save in so far as is necessary to preserve the two distinct types of rural and urban societies, the former of which will consist in the main of agriculturists, and the latter in the main of non-agriculturists.

"The other condition which was imposed by the original Bill was, that members must be residents of the same town or neighbourhood. All those of our advisers who speak with any authority have insisted upon the cardinal importance of this condition, as ensuring that mutual knowledge and confidence which must be the basis of all successful co-operation, and we have retained it in a slightly generalised form. But it has been pointed out to us that there are communities among whose members a common organisation or common interests supply the place of propinquity of residence, and ensure the conditions which we desire. A compact and closely organised tribe or caste, a community such as is formed by the Native Christians attached to a particular mission, or even the employés on a given line of railway, are instances in point. We have therefore empowered the Registrar to dispense with the residence test, where he is satisfied that this may be safely done, if the society is to be confined to the members of a single tribe or class or caste.

"As regards new members, we have made a small alteration upon which I would say a word of explanation lest it should be misunderstood The original Bill provided that members admitted to a society should be 'elected by the members for the time being.' It was pointed out to us that it would often be sufficient if they were elected by the Committee; and we have accordingly provided that they shall be 'admitted by the society in accordance with the provisions of this Act and with the by-laws of the society.' But the selection must still be personal, and made by the society; no person can claim admission under any automatic rule; and the important principle that the new member must be accepted by the old ones or their representatives is still maintained.

"We have retained unlimited liability as the general rule most suitable to rural societies. But cases are conceivable in which it may be desirable to relax it, if, for instance, a local magnate whose sympathy and assistance it is important to secure, desires to become a member, but does not care to assume a liability which is wholly without limit. We have therefore given the Local Government power, by special order, to relax the rule.

"The Bill as introduced forbade a rural society to borrow save with the approval of the Registrar and the Collector. This provision was much criticised as having the appearance of discouraging borrowing, whereas the very essence of these societies is to utilise their combined credit for the purpose of borrowing. We recognise the justice of the criticism; but we still think, for reasons which I have already explained, that an unfettered power to borrow might prove dangerous to a society. We have therefore removed the prohibition, but have given the Local Government power to regulate borrowing in such manner as experience may show to be desirable.

"The provisions of the original Bill regarding loans on the security of agricultural produce have been very generally misunderstood, and I must admit that they were not very happily worded. It was never intended for a moment to allow of advances against standing crops, than which I can imagine no form of security more unsuitable for these societies. But there are some of the existing societies, and there doubtless will be many more in the future, which never handle money, their whole transactions being conducted in grain. And the object of the provisions in question was to secure that agricultural produce should stand on precisely the same footing as money for all purposes of subscriptions, deposits, advances, payments and recoveries. Upon considering the question, we came to the conclusion that such transactions were within the ordinary powers of the societies, and that no special reference to the subject was needed.

"No provisions of the Bill have been more severely criticised by some, or more stoutly supported by others, than those which related to loans upon the security of jewellery and upon the mortgage of land. It had been proposed to prohibit rural societies from advancing money against jewels, on the ground that the basis upon which these societies should work was not material security, but the credit which arose from the individual character and substance of their members. It was pointed out in reply that, while personal credit was undoubtedly the basis of their transactions, such things as jewels might properly be received as collateral security, that the custom of the country is to regard jewellery as available for this purpose, and that if a member is debarred from utilising his material credit to the full in borrowing from his society, there will be a danger of his using it to borrow from the money-lender.

"The prohibition had not, however, been founded wholly upon objections of theory. Sir Edward Law's Committee had pointed out that there were practical difficulties which would arise, especially in the case of village societies; and we have come to the conclusion that these difficulties are real, and that it will be well to make distinctions. When a rural society is located in a town or large village, with silver-smiths available, a ready market at hand, and with members and officers of intelligence, it may safely be trusted to conduct transactions which might be dangerous in the case of a more strictly bucolic association. We have therefore given the Registrar power to allow any society which he thinks can safely be trusted, to advance money upon jewellery; and he will be able to feel his way in the matter.

"The question of mortgage was still more difficult Almost all the considerations upon either side which I have just discussed apply here also, with the addition of others of still greater importance. On the one hand, one of the methods in which an involved cultivator can most effectively be assisted is by enabling him to substitute a mortgage upon reasonable for one upon exorbitant terms, and a member who is refused the credit to which his property in land fairly entitles him, merely because he is not allowed to hypothecate it to the society, may be driven to the money-lender for a loan which, had it not been for the prohibition, he might have taken from the society with advantage to both parties. On the other hand, it is exceedingly inadvisable that these societies should be allowed to lock up their limited capital in a form in which it is not readily available; their most useful form of business will probably be small loans for short periods with prompt recoveries; and it is above all things desirable that they should keep out of the Law Courts. I confess that to my mind the arguments on either side are extraordinarily evenly balanced. Our final recommendation is, that loans upon mortgage should be allowed in the first instance; but that the Local Government should have power to prohibit or restrict them, either generally or in any particular case, if it is found that interference is necessary.

"Such, my Lord, are the principal alterations of substance which we propose in the Bill which I introduced at Simla But in the course of our discussion we arrived at the conviction that it was impossible to frame any set of general provisions which should cover all conceivable forms in which the principle of co-operation might be usefully applied to the benefit of small folk in India. And we had a concrete instance before us Paper No. 8 of the papers attached to the Bill is a letter from the Honorary Secretary to the Indian Industrial Association, which describes a wholly admirable institution called a *Dharmagola* that has been started in several villages of the Dinajpur District. The institution is one which is entirely deserving of encouragement, its objects are precisely the objects which we desire to promote, and yet it would be difficult or impossible to bring it under the provisions of the Bill. Another consideration presented itself to us. We have exercised our best judgment in coming to a decision upon the many disputed points upon which we had to decide. But we recognise that, even if our decision is in general sound, there may be special circumstances and conditions to which it is unsuited. We have therefore added a general clause to the Bill, which provides that notwithstanding anything contained in the Act, the Local Government may, by special order in each case, permit any association whatever to be registered as a society under

the Act, and may exempt any society thus specially registered from any of the provisions of the Act, or may modify any of those provisions in their application to such society.

"The position therefore stands as follows. In the body of the Bill we have included those provisions which, in our judgment, will be suitable to the type of co-operative societies that is most likely to come into existence in India, and these provisions will constitute the normal law, which will apply of its own force to these societies in general. But a Local Government will have an absolutely free hand to depart from or vary them, on condition only that it does so by special order in each case, and after full consideration of the circumstances which justify the departure. Of course it is intended that this power should be exercised, only in behalf of societies the aims of which are consonant with the objects which this Bill is intended to promote But subject to this restriction, that freedom of experiment, upon the importance of which I dwelt when I introduced the Bill, is secured in the fullest possible measure.

"I have only to add that we have considered the advisability of making some of the provisions of this Bill applicable to the Nidhis of the Madras Presidency; and have come to the conclusion that if any special legislation in their behalf is desirable, it will best be undertaken in the local Council, where the precise conditions and needs of these societies will be completely understood."

NORTH-WEST BORDER MILITARY POLICE BILL.

The Hon'ble MAJOR-GENERAL SIR EDMOND ELLES moved that the Bill to provide for the regulation of the Border Military Police Force in the North-West Frontier Province be taken into consideration. He said —"No objections have been received from any source to the provisions of the Bill. It is, therefore, unnecessary for me to make any further remarks."

The motion was put and agreed to.

The Hon'ble MAJOR-GENERAL SIR EDMOND ELLES moved that the Bill be passed.

The motion was put and agreed to.

GOVERNMENT STORES BILL.

The Hon'ble MAJOR-GENERAL SIR EDMOND ELLES moved for leave to introduce a Bill to provide for the better protection of Government stores. He said :—"The object of this Bill is to provide more effectually for the prevention, detection and punishment of thefts of Government stores. The Bill reproduces, with the necessary modifications, such of the provisions of the Public Stores Act, 1875 (38 & 39 Vict., c. 25), as are adaptable to India."

The motion was put and agreed to.

The Hon'ble MAJOR-GENERAL SIR EDMOND ELLES introduced the Bill.

The Hon'ble MAJOR-GENERAL SIR EDMOND ELLES moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

INDIAN STAMP (AMENDMENT) BILL.

The Hon'ble SIR EDWARD LAW moved for leave to introduce a Bill further to amend the Indian Stamp Act, 1899. He said :—"The attention of the Government of India has been directed to the ruling of the Calcutta High Court in the case of the *Queen Empress* v. *Debendra Krishna Mitter* (1900), I. L. R. 27 Cal. 587, to the effect that, unless the whole

advance given under an equitable mortgage be made at the time that the instrument of hypothecation is executed, the stamp must be that of an ordinary mortgage. The decision imposes a much heavier duty on equitable mortgages than appears to have been intended, for it follows from it that the higher duty chargeable on an ordinary mortgage is leviable whenever it is sought to secure by deposit of title-deeds future advances on an existing account. Such a duty is, in view of the temporary nature of transactions of the kind indicated, excessive, and the fact that it is leviable must tend to retard the development of the system of cash credits, which has hitherto proved of great assistance to trade. It is, therefore, proposed—see clause 6 of the Bill—to amend Article No 6 of the first schedule to the Indian Stamp Act, 1899 (II of 1899), so as to relieve these instruments from the higher duty, and to place them all on the same footing, whether their execution is or is not simultaneous with the advances secured by them, and it is at the same time suggested—see clause 3—to follow section 23, read with section 86 (2), of the English Stamp Act of 1891 (54 & 55 Vict., c. 39), and to levy a fixed fee of eight annas only when the security deposited by way of equitable mortgage is marketable.

"In the same connection notice has been called to various defects, doubts and anomalies in the law. *First*, no provision is at present made for the case where an equitable mortgage is executed to secure the repayment of a loan after more than one year, and the agreement in such a case is consequently liable to the duty of eight annas only under Article No. 5 of the schedule. It is proposed to amend Article No. 6 so as to impose the same stamp as that required on a document securing repayment within a year. *Secondly*, there is now no specific provision as to the duty leviable upon an instrument evidencing an equitable mortgage where the advance secured is repayable on demand, and such instruments are chargeable either with the same duty as agreements or with the duty leviable on ordinary mortgages, according as the securities are deposited before or at the time of execution. It is proposed to extend the amendment of the Article so as to treat such instruments in the same manner as instruments securing repayments after more than three months. *Thirdly*, there appears to be some doubt as to the applicability of the Article to pawns and pledges, and it is proposed to amplify it so as expressly to include such transactions, as well as hypothecations of securities. On the other hand, as misunderstanding is likely to be caused by the circumstance that the definition of 'mortgage-deed' in section 2, clause (*17*), of the Act covers all kinds of property, while a 'mortgage', as defined in section 58 of the Transfer of Property Act, 1882 (IV of 1882), is limited to immoveable property, it is proposed—see clause 2 of the Bill—to confine the definition here also to immoveable property, all 'mortgages' of moveable property, whether accompanied by possession or not, being, as already indicated, brought together under Article No. 6, unless otherwise specifically provided for in the schedule.

"Finally, the opportunity has been taken to amend the law in another direction. Under section 26 of the Act, where the value of the subject-matter or an instrument is unknown or indeterminate, the contracting parties may use their discretion as to the value of the stamp to be affixed to the instrument, but no sum can be recovered under it in excess of the amount covered by the duty actually paid. An exception is, however, made in the case of mining leases in which a royalty or share of the produce is reserved as rent. The value of the share or royalty is necessarily indeterminate in the majority of such cases, and it is therefore, provided that, if the lease be stamped on an assumed valuation of Rs. 20,000 a year, the sum actually due under the lease may be recovered whatever the amount may be. This provision is unsuitable in the case of mining leases granted by the Government, for the natural tendency of revenue-officers is to safeguard the interests of the Government by valuing the royalty at the figure just referred to in every case. The stamp-duty ordinarily payable on this valuation is Rs. 200; and this constitutes an unduly heavy burden in the case of small and unproductive mines. It is proposed, therefore, by clause 4 of the Bill, to expand the section so as to provide that, where a mining lease is granted by the Government, the Collector may estimate the amount of royalty which he considers likely to be payable, and it will be sufficient if the lease is stamped in accordance with his estimate.

"The further amendments proposed by clause 5 and sub-clauses (2), (3) and (4) of clause 6 of the Bill are purely consequential and require no explanation."

The motion was put and agreed to.

The Hon'ble SIR EDWARD LAW introduced the Bill.

The Hon'ble SIR EDWARD LAW moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

INDIAN OFFICIAL SECRETS (AMENDMENT) BILL.

The Hon'ble SIR ARUNDEL ARUNDEL moved that the Report of the Select Committee on the Bill to amend the Indian Official Secrets Act, 1889, be taken into consideration. He said:—"I have no observations to make at this stage."

The Hon'ble MR. GOKHALE said —"My Lord, I desire to say a few words on the Bill as amended by the Select Committee, before this motion is put to the vote When the Bill was referred to the Committee in December last, my Hon'ble friend Nawab Saiyid Muhammad and myself deemed it our duty to enter an emphatic protest against the general character and the leading provisions of the proposed measure, because in the form in which it then stood, it was impossible to have any patience with the Bill. Since then, however, thanks to the assurances given by Your Lordship on your return to Calcutta, and the conciliatory attitude adopted by the Hon'ble Member in charge of the Bill in the Select Committee, the Bill has been largely altered, and I gladly recognize that several most objectionable features have either been wholly removed or have been greatly softened Having made this acknowledgment, I deem it necessary, my Lord, to submit that unless the Bill is further amended, on the lines of the more important amendments of which notice has been given, the alterations made so far will fail to allay the apprehensions that have been so justly aroused. My Hon'ble friends Mr Bose and Nawab Saiyid Muhammad and myself have signed the Report of the Select Committee, subject to dissent only on two points, and we have expressed that dissent in the mildest terms that we could possibly find to convey our meaning. We did this both to mark our sense of the conciliatory manner in which the Hon'ble Member in charge of the Bill received many of our suggestions, and in the hope that by thus removing from our dissent all trace of the angry criticisms to which the Bill has been subjected, we might make it easier for Government to proceed further in the direction of meeting the objections urged by the public. My Lord, I earnestly trust that in this hope we shall not be altogether disappointed. I do not wish to anticipate anything I may have to say when the amendments of which I have given notice come up for consideration But I cannot let this motion be put to the vote without saying that the Bill, even as amended, is open to serious objection, that no case has been made out for it, that the safeguards, to which the Hon'ble Member referred in presenting the Report of the Select Committee, are more or less illusory, and that, unless the Bill is further amended, it must tend unduly to curtail the liberty of the Press, not so much perhaps by what Government may actually do, as by the fear of what they may do. The striking unanimity with which the entire Press of the country, Anglo-Indian as well as Indian, has condemned the measure must convince the Government that the opposition to the Bill is not of a mere partisan character, but that it is based upon reasonable grounds, which it is the duty of Government to remove. If, however, Government are not prepared to do this, I would respectfully urge even at this last moment that the Bill should be abandoned altogether."

The motion was put and agreed to.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 2 of the Bill as amended, in the proposed definition of "civil affairs", after the words "means affairs" in line 1, the words "of such a confidential nature that the public interest would suffer by their disclosure and" be inserted, and that in sub-clause (*b*) the words "where these affairs are of such a confidential nature that the public interest would suffer by their disclosure" be omitted. He said:—"Under the definition of 'civil affairs', as it now stands in the Bill, are included all affairs affecting the relations of His Majesty's Government or of the Governor General in Council with any Foreign State, no matter whether these affairs are or are not of such a confidential nature that the public interest would suffer by their disclosure. I have not been able to discover any good reason why such a wide scope should be given to the part of the definition contained in clause (*a*), while a much more restricted operation is given to the part contained in clause (*b*). I am unable to understand why it should be necessary to penalise the publication of information of the most innocent or harmless kind, simply because it may refer to the relations of His Majesty's Government with Foreign States. Without expressing any opinion at this stage upon the broader question, namely, whether civil affairs ought at all to be included within the scope of this Bill, I venture to think that, if they are to be included, the test in every case ought to be, whether or not their disclosure would be prejudicial to the public interest. I therefore suggest, that the qualifying words which stand at the end of clause (*b*) and consequently affect that clause alone, should be transferred to the beginning of the definition so as to be applicable to both the clauses (*a*) and (*b*)."

The Hon'ble SIR ARUNDEL ARUNDEL said:—"The Hon'ble Member said that he failed to discover any reason why there should be any distinction made between (*a*) and (*b*) in the definition of 'civil affairs'. As a matter of fact, this particular point had not escaped attention, and it was carefully considered. But there are two reasons against it; one is that it is not for this Council to put such a limitation upon the relations between His Majesty's Government and a Foreign State. Indeed, it is not desirable that they should in any way interfere with such relations, and if the matter is left with regard to His Majesty's Government with any Foreign State, it naturally follows that the Government of India would stand also in the same position. I think also it would be generally agreed that we ought not to contemplate bringing before the public or a Court of Justice the diplomatic relations of His Majesty's Government or of the Governor General in Council with a Foreign State. These matters are usually of a very confidential nature, and it would be opposed to international courtesy to publish them without the consent of both Governments. For these reasons I regret that I am unable to accept the amendment."

The motion was put and negatived.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 2 of the Bill as amended, in the proposed definition of "civil affairs" in sub-clause (*a*), before the word "relations" the word "civil" be inserted. He said:—"This amendment may properly be described as a drafting amendment; if we examine the definition which is proposed, we find that it is too wide, inasmuch as it includes affairs affecting not merely the civil but also the military relations of His Majesty's Government. I therefore venture to propose that, by the insertion of the word 'civil' before 'relations', the definition may be limited and made co-extensive with the term to be defined."

The Hon'ble SIR ARUNDEL ARUNDEL said:—"This amendment is open to the same objection as the first one just moved by the Hon'ble Member, namely, that it limits the relations of His Majesty's Government with a Foreign State. Moreover, it would exclude political affairs and the military affairs of such States, and would therefore render the Bill useless so far as such matters are concerned. These are the reasons which lead me to object to the amendment."

The motion was put and negatived.

The Hon'ble MR. MORISON moved that in clause 2 of the Bill as amended, in the proposed definition of "civil affairs," sub-clause (*b*) be omitted. He said :—" My Lord, all reasonable people, I think, admit that there are certain affairs in regard to which secrecy is of such paramount importance to the State as to justify a considerable restraint upon individual liberty ; of this nature are naval and military affairs and the relations of the Government with Foreign States; there is no doubt that in these cases the interest of the Government in preserving secrecy is identical with the interest of the general public. But there are other matters, such as those mentioned in clause (*b*) of the definition of 'civil affairs,' with regard to which secrecy cannot be said to be *essential* to the State, although the premature disclosure of the plans of Government may cause considerable administrative inconvenience. In respect of these matters the interests of the Government and the public are not, I submit, so unmistakeably identical as to justify the infliction of legal penalties upon the publication of news. Among affairs connected with the public debt, for instance, would certainly be included proposals for converting Government securities into a new stock bearing a lower rate of interest; the Government has the clearest right to keep its intentions regarding such matters secret, but a certain section of the public has so undeniable an interest in being forewarned of the proposed conversion that it is not fair to penalize a premature disclosure of the intentions of Government. Similarly, in all matters relating to taxation, the interest of the public is to a certain extent in antagonism to that of Government, and it is not clear that the public interest, in its widest sense, would be served by inflicting penalties upon the editor who warned one of the parties of an approaching danger. This clause also includes affairs affecting the relations of the Government with Native States; but it cannot, I submit, be maintained that these relations are any longer of that major importance which attaches to affairs upon which the stability of the State depends. Imperceptibly the Indian Princes have declined from the position they once held of independent sovereignty and have now become a part of the administration by which the Empire of India is governed; their right to exercise authority in provinces, divisions or districts, is derived, though with a different tenure, from the same authority which appoints Lieutenant-Governors, Commissioners, and Collectors; and though it is certainly not desirable that the public should be made aware of all differences of opinion between the Supreme and the Local Authorities, yet such revelations cannot, at the most, create more than administrative inconvenience. On the other hand, the Indian public has a natural and legitimate interest in knowing whether the Government of India proposes to curtail the area which is governed by purely Indian administrators, and if, for instance, a Viceroy of the future were to be converted to Lord Dalhousie's views regarding the right of adopted children to inherit, an editor who gave early information of that fact would, I think, be doing a public service. At whichever part of the definition we look, it appears to me that the matters referred to in clause (*b*) are of the class in which the interests of the Government and of the general public are not infrequently in conflict, and I therefore submit that there is no clear case for legislating in the interest of the administration.

"The Government have, in effect, recognised the reasonableness of this view, inasmuch as the Bill proposes to submit all disputed cases to the arbitration of the Law Courts; but I submit that the safeguard here proposed will be ineffectual. By the provisions of this Bill, the question which the Courts will be asked to decide is whether the publication of a certain affair of State at a certain time was prejudicial to the public interest. The Courts may adopt one or other of two views; either that the statement of an officer in the Department, deposing that the interest of the State had suffered, is sufficient evidence that the publication of the news complained of was prejudicial to the public interests; or the Courts may refuse to convict unless the Government prove (1) that the interest of the administration has suffered by the publication, and (2) that the interest of the administration is in this case identical with that of the public. If the Courts adopt the former view, this Bill will authorize the injustice of making the Government the judge of its own case; but if the Courts lean to the opposite view, it is doubtful whether the Government will ever secure

a conviction. I do not imagine that the Government will be willing to undertake a prosecution if they have to explain, first, exactly in what manner the administration *has* been damaged by a certain publication, and, secondly, that the prejudice to the administration was equally prejudicial to the interests of the general public and, thirdly, that the publisher was in a position to know that the publication at this particular time would be injurious to the administration. I contend therefore that if this provision of the Bill can protect the interest of the Government it will do so at the expense of the general public, and that, if it is consistent with fair dealing to the public, it will fail to protect the interest of the Government. It is therefore either harmful or useless and in my opinion should be dropped.

"After all is said and done the plain man will hold to the opinion that the Government ought to take better care of its own secrets and not punish other people because its subordinates are not under sufficient control. Every business man, indeed every body who has to control an office, has to overcome this same difficulty, and, if news leaks out of the office which the master wishes to keep secret, the world's unsympathetic comment is generally that he has only himself to blame. It has yet to be shown that Government work is of so peculiar a character that it cannot be controlled by ordinary business methods; and even if this could be shown, the public has still a right to ask that the Government should not legislate until it has made an honest and whole-hearted attempt at putting its offices in order. It cannot, I venture to think, be said that the Government does at present take all reasonable precautions to secure secrecy, because Government offices are open to every idler who cares to wander through them, and the multitude of chaprasis, who sit at the doorway of every Government office, do not apparently recognise that it is their duty to keep trespassers away. If chaprasis are incompetent to discharge this duty, it should be assigned to police constables, and, if police constables fail, to head-constables, and, if they fail, to Sub-Inspectors. Surely there is somewhere in the Government hierarchy a grade of public servants which can be trusted to carry out this duty with honesty and firmness, and I venture to think that the Government ought not to be satisfied until, by the employment of competent men, they have secured their offices against unauthorised intrusion; the area over which this vigilance is necessary is not, after all, very extensive, because it is only a few offices at head-quarters that have information which is at the same time confidential and of grave importance. When Government has taken every reasonable precaution to secure secrecy and those precautions have failed, then, and then only, I contend will cause have been shown for including such matters of lesser importance as are grouped under clause (*b*) within the operation of the Official Secrets Act.

"Briefly to recapitulate, I beg to say that (1) I welcome this measure in so far as it provides greater security for official secrets in regard to military, naval and foreign affairs, but I contend that the affairs mentioned in clause (*b*) are not of such paramount importance to the security of the State that we should be justified in inflicting legal penalties upon the premature disclosure of the intentions of the administration with regard to these affairs. (2) I believe that the provision to refer to the arbitration of the Law Courts the question, whether or not an affair is of such a confidential nature that the public interest would suffer by its disclosure, would in practice prove to be either unjust or inoperative. (3) And in any case I contend that the necessity for secrecy in regard to the affairs mentioned in this clause is not so urgent as to justify legislation until the Government have exhausted every device of departmental administration to secure stricter control over their own offices. I therefore beg to move the amendment standing in my name."

The Hon'ble SIR ARUNDEL ARUNDEL said:—"I have been interested, but I have not been convinced, by the extremely ingenious speech of the Hon'ble Mr. Morison He contends that secrecy is not essential to the Government administration, though considerable administrative inconvenience might result, and he even proceeded to discuss the question of Native States, into the rights of administration of which I should certainly hesitate to follow him and should as certainly dissent from his dicta. But of one thing I think we

may be quite certain, that is to say, that if we declared there were no matters of secrecy to the Native States, they themselves would be the first to cry out that they were most unjustly treated. The interests of the public, the Hon'ble Mr. Morison tells us, are occasionally antagonistic to those of Government, but I venture to say that this is the wrong way of looking at it. It seems to me that the State is the representative of the public, and that we cannot say their interests are antagonistic to the public interest. The Government exists in order to look after the public. And then again with regard to appealing to the arbitration of the Law Courts, it seems to me that what we are aiming at now is to point out that certain things are offences, and that if people commit these offences they will be liable to penalty as provided in the Bill. That being the case, it is for the prosecution, whenever a case is brought before a Court, to prove the offence which has been committed. I may say with regard to this question of proof that it was suggested to us that the certificate of a qualified Government officer might be enough to show or to prove that the interests of Government had suffered by the disclosure of certain facts or information. But we did not think that this was a fair method of treating the case. It put the defendant in a most difficult position, and it seemed to be far fairer that we should leave it to the Court to decide, after hearing the evidence, how the interests of the public might suffer, rather than to do it by the arbitrary method of simply filing a certificate. Then the Hon'ble Member says that the Government offices are open to every idler I am afraid that in many cases there is a good deal of truth in this, and the public very often regard public offices in much the same sense as a public market. I think this is entirely wrong, and that it should be put a stop to. But when the Hon'ble Member says that Government ought to do it by executive order, his suggestion means the objectionable multiplication of chaprasis and constables in the Government offices, and he must remember that, if we wanted to make every clerk in India absolutely free from the possibility of temptation regarding the divulgation of information, we should have probably to double or treble the salaries all the way round, and I think one of the first persons to object to that would be my Hon'ble friend Sir Edward Law. There is one other point which I should like to mention, and that is what the actual intentions of Government were when Act XV of 1889 was passed, because there seems to be a good deal of doubt as to what the facts actually were, in the Press and perhaps in this Council. There are several amendments traversing the introduction of civil affairs, and at the risk of being tedious I should like to call attention to the clearly announced intentions of Government when Act XV of 1889 was under discussion.

"The Hon'ble Mr. Scoble (10th October 1889), in introducing the Bill, said :—

'It is a mere enactment of an Act passed during the last session of Parliament to prevent the disclosure, by unauthorized persons, of official documents and information.'

"And he went on to say :—

'The offences which it is intended to reach are (1) the wrongful obtaining of information in regard to any matter of State importance, and (2) the wrongful communication of such information'

"On the 17th October, 1889, on the motion that the Bill be taken into consideration, His Excellency the Viceroy, Lord Lansdowne, addressed the Council at some length in support of the Bill, and gave as an illustration of its necessity the garbled publication of a civil confidential document in an Indian newspaper. He concluded his speech by saying —

'I think it should be generally known that the new law is intended to be put in force in such cases, and that those who publish official documents without authority will come within its scope whether the persons by whom those documents have been divulged are discovered or not, and whether documents themselves are published in their entirety or, as in the present instance, reproduced in a garbled and truncated form.'

"There is thus no possible doubt as to the intentions of Government in passing Act XV of 1889. But so long ago as 1895 the legal advisers of

Government differed as to whether the Act did or did not cover civil official secrets, and now in amending the Act the opportunity is taken of proposing to remove the doubt.

"But the Hon'ble Mr. Morison proposes to exclude all civil affairs except the relations of Government with a Foreign State. In short, he wishes to defeat one special object for which the Act was passed, and on which Lord Lansdowne dwelt with special emphasis in his speech on the Bill. One object of the present Bill is to make it clear that civil affairs *are* included, and, if this be conceded, it must also, I conceive, be conceded that there are other civil affairs besides the relations of Government with Foreign States that need to be protected.

"For these reasons I must oppose the amendment."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I desire to support the amendment moved by the Hon'ble Mr. Morison and briefly for two reasons. In the first place, I submit that no foundation has been laid, no facts stated, why the character of secrecy should be imposed upon information relating to the matters mentioned in clause (*b*). In the second place, the test prescribed for determining whether a particular information does or does not come within the definition, is of such a vague character that if the case were carried into the Law Courts it would be extremely difficult to procure a conviction. Prosecution might be very easy, but conviction would be a remote chance indeed. With reference to what fell from the Hon'ble Sir Arundel Arundel as to what the intentions of Government were when the Act of 1889 was passed, I can only say that, whatever their intentions might have been, those intentions were not carried out by the language used in the Act. If it was the intention of the Government that civil affairs should be included within the scope of the Act of 1889, the language was inadequate; at any rate on that occasion there were no facts mentioned which would justify the Government in including civil affairs within the scope of the Act, and I am bound to point out that up to the present moment no facts have been mentioned which would justify the Government in including civil affairs within the scope of the present Bill."

The Hon'ble MR. GOKHALE said:—"I desire to say just one word in regard to what has fallen from the Hon'ble Member in charge of the Bill. The Hon'ble Member just now told us that the Act of 1889 was passed with the object of including civil affairs within its scope. We have Sir Andrew Scoble's statement that the Act was merely a repetition of the English law passed on the same subject a year before, and in connection with the English law it was definitely stated by the Lord Chancellor in the House of Lords that the Act was intended to apply to naval and military purposes only. The English law being thus intended and the Indian law being merely a repetition of the English law, I do not see how the Indian law could have been made to cover civil cases. Another point I would like to mention is that even under the law of 1889, supposing that civil affairs were included within its scope, the only thing that was made penal was the publication of information wrongfully obtained.

"By introducing the word 'civil', however, in section 3, sub-section (*2*) [now sub-section (*3*)], the Government secures an advance upon that; the proposed amendment penalizes the publication of all confidential information, not merely wrongfully obtained, but no matter how it was obtained. The present Bill, therefore, does not merely make clear the intention of the Act of 1889, but goes much further than that Act."

The Hon'ble RAI SRI RAM BAHADUR said:—"I beg to support the amendment, moved by our Colleague the Hon'ble Mr. Morison, that in clause 2 of the Bill, as amended, in the proposed definition of 'civil affairs,' sub-clause (*b*) be omitted.

"My Lord, the Hon'ble Mover of the amendment has, in a well considered and eloquent speech, said all that could be said in favour of the motion. With Your Lordship's permission I beg to offer a few remarks in support of the amendment.

"A consideration of the circumstances which led to the genesis of the Indian Official Secrets Act of 1889 will show that the proposal to bring civil affairs within the scope of the law will involve a departure from the principles on which the English prototype of the Indian Act of 1889 is based.

"At the time of introducing the Official Secrets Bill in 1889, which afterwards became Act XV of the same year, the Hon'ble Mr. (now Sir) Andrew Scoble said as follows:—

'This Bill has not originated with the Government of India; it is a mere re-enactment of an Act which was passed during the last session of Parliament to prevent the disclosure, by unauthorised persons, of official documents and information. This Act applies to all parts of Her Majesty's dominions, and is therefore already in force in India, but it has been thought desirable to place it also on the Indian Statute Book, in order to give it publicity and to bring its provisions into complete harmony with our own system of jurisprudence and administration.'

"Continuing, the then Law Member further said that the two alterations made in the Indian Bill were the doing away of the distinction between felonies and misdemeanours—terms not used in the Indian legislative enactments—and the substitution of the consent of Government for prosecutions under the Act in place of that of the Attorney-General. In all other respects, it was observed by the Hon'ble Sir Andrew Scoble that the Bill followed the language of the English Statute.

"The principal object of the passing of the English Statute, as disclosed in the course of the debate in Parliament, was to prevent the disclosure of official documents and information relating to military and naval affairs. In moving the second reading of the Bill on the 28th of March, 1889, the Attorney-General said that the Bill had been prepared under the direction of the Secretary of State for War and the First Lord of Admiralty, in order to punish the offence of obtaining information and communicating it against the interest of the State.

"The real object of the English Act was made clear in the House of Lords by the Lord Chancellor (Baron Halsbury). He said that the measure was intended for those who facilitated the military operations of other countries, by giving copies of official documents.

'It provides,' he went on to say, 'for the punishment of those persons who either give information to the enemies of the country, or make or communicate plans or sketches of fortresses or like places or disclose official secrets.'

"He then explained the meaning of official secrets in these words:—

'Another class of offences is the disclosure of official secrets: when a person who is holding or has held office under Her Majesty, or has in his possession or control any official document, should in like manner communicate with those who may become the Queen's enemies, severe penalties are enacted.'

"It is thus quite plain that two classes of offenders were intended to be brought under the operation of the Act; first, those who betray the interest of the State by helping the military operations of His Majesty's enemies, by supplying them with plans and sketches of fortresses and like places. The other class consists of officials only, and they are liable to severe punishment only when they disclose official documents to parties who may become the King's enemies. One can see at once that in order to bring home an offence under the English Act, it is essential that the offender should be proved to have communicated official secrets to the enemies of the Sovereign. My Lord, the above remarks will show that the scope of the English Statute, and consequently that of the Indian Act, is chiefly confined to the disclosure of official secrets relating to military and naval affairs, and the betrayal of such secrets is made penal. The definition of official secrets, proposed to be given in this Bill, if accepted by the Council, will go far to extend the scope of the original law on the subject. For these reasons I support the motion now before the Council."

The Hon'ble SIR EDWARD LAW said:—"The object of the amendment moved by my Hon'ble Colleague is to restrict the definition of 'civil affairs' to foreign affairs. He assumes apparently that whilst military, naval, and diplomatic affairs require the protection of a special law, no such protection is required in matters of civil administration. I hope to be able to convince him and any

others whom a similar assumption may incline to opposition to the Bill before us, that the assumption is entirely erroneous, and all arguments based thereon must therefore necessarily fall to the ground. I am convinced that if any one of my Colleagues who are now disposed to object to the Bill were to take my place for a few months in my Department, he would quickly ask that the public should be protected from the possibility of wrongful disclosure of confidential information. I am quite unable to understand what my Hon'ble Colleague means by saying that there is a divergence between the interests of the public and the interests of the Government. Government is the representative of the public, and my Hon'ble Colleagues at this table are in the same position as Government in representing the public today They are speaking in the interests of the public or in what they assume to be interests of the public whom they represent, and when we speak we speak in the same interests. My Hon'ble Colleague was not, I think, particularly happy in the selection of the incidents which he quoted of divergence of interests between the Government and the public. He alluded to the possibility of conversions, and he said that it would be in the interest of a certain section—these were his words—of the public that this information should be published or should get abroad. I should like to know what is the section to whose interests it would be: it could only be in the interests of that section of the public who desired to make money at the expense of the public, out of their information.

"There must always be numerous cases in which the disclosure of confidential documents indicating the grounds on which action is being considered or has been decided upon in the Finance Department, must necessarily prove seriously prejudicial to those public interests which it must be the desire of every Member of this Council to protect, and I will give some examples of the class of cases where the premature publication or disclosure to individuals of confidential documents would inevitably have a most harmful result.

"As is well known, there is constant and considerable speculation in Government Rupee Paper, and at a certain period of the year that speculation is based on what are assumed to be the intentions of Government as regards the amount of the loan which it is intended to issue at a future date, whilst, when the date of issue approaches, fresh speculation arises on the price which it is supposed that Government will accept for tenders. Such speculations lead to the manipulation of the market in a sense adverse to the interests of the general public, and it is therefore of great importance that the intentions of Government should not be disclosed.

"Again, we have, for some months past, as you are doubtless aware, been purchasing silver for coinage into rupees, and such purchases, as all business men will fully understand, must be conducted with great circumspection and as much secrecy as possible. The silver market is a very fluctuating one, the price varying in a few days by as much as 6 to 8 per cent., and it is a market so well controlled by a certain group of speculators that the knowledge that the Government of India requires to immediately purchase, say, £500,000 worth of silver, is quite sufficient to raise the price in the London market to an extent causing a loss of possibly £30,000 to £40,000 to the tax-payer, whose interests it is our duty to protect. It is impossible to take decisions on such a question without receiving and considering the reports and opinions of the officials directly concerned, and such reports and opinions must necessarily pass through the hands of a number of officials, any one of whom could profitably be offered what would be to him a small fortune for the disclosure of the intentions of Government.

"But silver is not the only thing purchased by the Finance Department; it has also to consider both the necessity of purchase and the terms on which it is prudent to buy lands, railways, and other property of considerable value; and in all such cases it is self-evident that if the sellers should be prematurely informed as to our intentions, the information acquired would be used to the detriment of the tax-payer. And what would the commercial world say if, when we received tenders from rival firms competing for a contract, the terms of the offers received were disclosed to interested parties, and we could only fold our hands and say that, even were the offender discovered, we had neglected to provide ourselves with sufficient power to secure his adequate punishment?

"The Finance Department is in all such matters in the position of the business man contemplating a transaction and preparing for a deal, and the last thing that a business man would desire is the disclosure of his hand to the parties with whom he was negotiating or proposing to negotiate There is, however, this difference between the situation of a Government Department and that of the business man undertaking a business. The commercial man keeps his counsel to himself, carefully avoids committing his ideas and decisions to paper, and trusts no one but his partner and perhaps a special confidential clerk, whilst the heads of a Government Department are obliged, by their special responsibility to the public, to carefully record every reason for intended action, and unfortunately to cover pages of foolscap with opinions and arguments for and against any contemplated transaction, before definitely deciding to move in the matter.

"Finally, there is the question of modifications of excise-dues and of duties on articles of importation. It must surely be recognised that when Government is contemplating any reduction or enhancement of such dues or duties, it is before all things essential that no intimation of their actual intentions should get abroad until the moment of decisive action. Had it been known a year ago that Government had decided to reduce the salt-tax by 8 annas, from a certain date, the result could not have failed to be that stocks of salt in the hands of every dealer in the country would have been allowed to run down to an extent which would have led to a temporary famine in the article, and caused great inconvenience by enhancing the price to consumers. Such an important decision could not be taken without voluminous correspondence and notes, not only in the Finance Department, but also with local authorities consulted on the question, and with the Secretary of State in England. Similarly, should it be contemplated to increase the duty on any important imported article of general consumption, it is manifest that the speculator who had succeeded in an unlawful manner in obtaining information as to the plans of Government, would make large profits out of his knowledge, to the prejudice of the public.

"I could multiply instances, but I am unwilling to take up the time of Council, and I will only mention one more of the numerous cases in which the interests of the public as represented by the Finance Department may be seriously imperilled by the communication of information. It is well known that the question of the introduction of counterfeit rupees into circulation is one which has for some time past been engaging our very serious attention. We are taking every means in our power to discover where counterfeit rupees are manufactured and by what agencies they are distributed. Now, what would be the result were it to become known to the public through the agency of enterprising journalism that the result of our enquiries had led us to believe that we had discovered an important centre of manufacture or distribution? Evidently that the criminals, being warned in time, would take measures to avoid detection, and that our endeavours to check illegal coining would be frustrated.

"I do not say that, to my certain knowledge, Government has been betrayed by the wrongful action of employés in connection with any of the questions I have indicated, but there have been suspicious circumstances, and any one who calmly considers the situation must admit that existing laws and regulations do not give us the necessary power to cope with the danger. It is highly to the credit of the official staff that, having regard to the enormous and constant temptation to secure illegal gains, and, even leaving criminal intention out of the question, to satisfy personal vanity by indiscreet communications, we have escaped any serious scandal; but I must repeat the admission that there have been occasionally distinctly suspicious circumstances, and there are gentlemen in this room, who, assuming that such suspicious circumstances necessarily indicated guilt, have severely criticised what they assumed to be a culpable laxity of control in the matter. We ask today to be put in a position to insure effective control in the only manner in which it is possible, and that is by making it clear that neither the tempted employé nor his tempter can escape the penalties of the law if his guilt be established in the eyes of the judicial authorities of the land. A suspected

official can of course be punished departmentally,—we prefer that he should be pronounced innocent or guilty by the established Courts of justice,—and whilst arbitrary action is rendered impossible by the ample safeguards in the provisions of the Bill, we hope that in serious cases we may be enabled to secure, through the Courts, the punishment of the tempter as well of the tempted.' I cannot believe that anyone would seriously wish to confine punishment to the tempted Government official, whilst allowing the greater culprit, the tempter, to escape scot-free, and it should be understood that without the present Bill we must remain in the position of being able to punish only the less guilty of the two parties.

"It has been suggested that, if private banks and firms are able to control their employés, Government should be able to do the same without recourse to special legislative measures, but I have shown that the opportunities for acquiring confidential information are necessarily infinitely greater in a Government Department than in a private office, and moreover the value of such information to interested individuals is incomparably greater, whilst cases are not unknown in which even private establishments have suffered heavy loss through breach of trust in the matter of disclosing information It has been specially suggested to us today that the control might be established in a more efficient manner by certain measures that were specified and which, I am astonished to find, included amongst them the placing of police-constables in the corridors of public offices I remember that on the first occasion when this Bill was brought before Council, one of my Hon'ble Colleagues made one of his most magnificent periods by declaiming against the danger of his being summarily arrested and charged as a criminal if he ventured to endeavour to see me in my office.

"The Department over which I have the honour to preside is always desirous to take the public into its confidence as far as possible, but I trust that I have sufficiently established that there is a real necessity for the protection of public interests in the matter of wrongful disclosure of confidential information, and that it is frequently imperative that secrecy should be strictly observed for a time, and I therefore strongly urge the adoption of the Bill.

"Some of our would-be candid friends and constant critics have, I presume under th influence of serious misapprehension, allowed their imagination to run riot in dreams of fanciful processions to ice-bound dungeons, and of a Government of India suddenly being transformed by the passing of this Bill into a band of raving lunatics, but now that certainly many, and I hope all, misapprehensions have been removed, I think that we may reasonably ask for a little calmness in the consideration of a very important business measure, and that, as the result of such calm consideration, the public spirit and patriotism of all Hon'ble Members of this Council will lead them to support a Bill which is proposed in the sole interest of the public whom they represent."

The Hon'ble MR. RALEIGH said :—"I should like to add a few words on the questions which have been raised as to the history and true construction of the Act of Parliament passed in 1889, and of the Act which we now propose to amend. My Hon'ble Colleagues Mr. Gokhale and Rai Sri Ram Bahadur have referred to certain statements made by the present Lord Chancellor, which would be authoritative, if they were complete; but I feel tolerably certain that the quotations are made from an imperfect report. We have before us here the debates of the House of Lords, and it seems clear that Her Majesty's Government intended their Act to extend to political matters; it is equally clear from our Proceedings that Lord Lansdowne and his Council were of the same opinion. The Hon'ble Dr. Mukhopadhyaya says that, if it was intended to include civil affairs, the intention was not carried out; that our Act does not extend to them. I do not set my own opinion on the point of law against that of my Hon'ble Colleague, but when I tell him that Sir Griffith Evans advised against the view for which he has contended, Dr. Mukhopadhyaya will at least admit that the point is doubtful, and that we should be wise in taking this opportunity of clearing it up

"I do not dwell on these preliminaries, because the question for Council is not what was done in 1889, but what ought to be done now. Is our proposal, to include civil affairs generally in the Bill, a fair and reasonable one as we contend, or is it unfair and oppressive, as the Hon'ble Mr. Morison

has endeavoured to show? Mr. Morison wishes to exclude from the purview of this Bill all our correspondence with Native States, and all business connected with the civil administration. I differ from him on both points. In regard to Native States, it seems to me that my Hon'ble Colleague misconceives the situation with which we have to deal. It is incorrect to compare the Ruler of a Native State with a Lieutenant-Governor or the Commissioner of a division. He is not an officer under our orders; within his own limits, he exercises an independent authority, historical in its origin, and protected by conventions which the Government of India cannot alter at its mere will and pleasure. These conventions are not, strictly, international, but I have said enough to show that our correspondence with Native Princes possesses a diplomatic character, and that we are bound to treat them with special consideration and courtesy. If we exclude them from the purview of this Bill, we shall not be consulting their dignity or their convenience.

"I turn now to the sphere of civil administration. It is very easy to make points in debate by selecting any of the innumerable trifles which make up the routine business of a public office, and asking which of these are to be matters of State under this Bill. This argument might be in point if this Act were part of the ordinary law, which any officer of Government can set in motion. But it is in fact a special law, only to be set in motion by Government itself. I am far from supposing that Government is infallible, but I hold that Government may be trusted to decide, on its own responsibility, what matters are, and what are not, so important as to justify a prosecution under this Act. The final decision, of course, is with the Judge or Magistrate who tries the case. After the speech of my Hon'ble friend Sir Edward Law, I need not adduce any further evidence to show that in each of the great departments the public interest requires that our confidential papers should receive a reasonable measure of protection. These, I think, are the main objections to the amendment, and they are sufficient to justify the Council in rejecting it."

His Excellency THE PRESIDENT said :—"Before putting the motion to the Council, I must add a word. The excellent speeches delivered by my Hon'ble Colleagues on the right and left have dispensed me from saying much from the point of view of Government, but I desire to make one observation from the point of view of the Bill itself and of its future. If the Hon'ble Mr. Morison's motion were carried, the motion would be fatal to the Bill. He has argued that the civil affairs under sub-clause (*b*), to which he refers, are not of major importance, and that their protection is not essential to the interests of the State. After some slight experience now of the Government of this country I must beg respectfully but emphatically to disagree with him, and I submit that probably we, who are Members of the Government, are better qualified to express an opinion on a matter such as this than he. The Hon'ble Sir Edward Law has given us a most convincing illustration of the class of cases connected with the Department which he administers so well, that ought to receive—that are entitled to receive—protection in any civilised State. I need not add anything to what he said upon that point. Then comes the category of questions relating to Native States. Upon this matter I have perhaps a right to speak with some authority, and I say deliberately and with a full sense of responsibility that I can conceive of nothing more unfortunate than that the relations of the Government of India, which in reality means the Viceroy, with the Native Princes of India, relations prized by both of them, and in the vast majority of cases honourable to both of them, should be made the subject of disclosure and discussion in the Press with absolute impunity. Such a condition of affairs would not merely be distasteful to us, but would be repugnant to them, and would be injurious to the interests of the State. The Hon'ble Mr. Morison submits to us an alternative suggestion. He says, instead of providing the protection which you are so anxious to secure under the Bill, exhaust every device you can for improving your Departmental administration. Well, this is sound enough advice over the limited range to which it extends, but how, I would ask, could a superior staff of chaprasis or policemen protect the Government of India from the illicit disclosure of confidential information, we will say, about the succession to a Native State, about the administration of justice

inside it, or about the condition of its finances? However, the point upon which I desire to lay stress before Hon'ble Members vote is this, that if the Hon'ble Member's motion were carried, this Bill would be reduced to a nullity, because civil affairs would be left, it is true, but they would be confined to the relations only between the British Government or the Government of India and Foreign countries. In that case we might just as well drop the Bill altogether, because to lay down that the only civil affairs that require protection are those relating to the exceedingly exiguous class that I have described would be manifestly absurd I therefore think that the Council may with confidence throw out the motion of the Hon'ble Member."

The motion was put and negatived.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 2 of the Bill as amended, in the proposed definition of "civil affairs", in sub-clause (*b*), the following words be omitted, namely —

"affecting the relations of the Governor General in Council with any Native State in India, or".

He said :—"When I drafted this amendment I carefully excluded all reference to financial questions expressly with a view to disarm all criticism from my Hon'ble friend Sir Edward Law. I was in hopes that, so limited, it might prove acceptable to the Council, but I find I was very much mistaken. I confess that it does require a certain amount of courage to put this amendment to the Council after what has fallen from Your Excellency, but I regret I am unable to fall in with the view that the publication of information regarding the civil relations between the Government of India and the Native States should be penalised in the manner proposed in the Bill It is conceivable that such publications may sometimes prove to be a source of serious inconvenience to individual officials concerned in transactions which will not bear the light of day, but I venture to point out that it would be a distinct advantage, not only to a Native State, but also to the Government of India, that the civil relations between the two should be of such a character as would stand the closest scrutiny. Surely, if they are of the character I have described, honest criticism need not be feared If, on the other hand, these relations are of a very different complexion, the fullest and the freest public discussion ought to be welcomed. So far as the materials have been placed before this Council, not the slightest foundation has been laid, in fact, for the position that the publication of information regarding Native States ought to be restricted. Till the necessity for the new provision is established with reasonable clearness, I am unable to accept a new provision of this sweeping character merely because it is asserted that such a provision is necessary or desirable."

The Hon'ble SIR ARUNDEL ARUNDEL said —"The Hon'ble Member would exclude from the definition of 'civil affairs' all matters affecting the relations of the Governor General in Council with any Native State in India, even when the limitation is laid down that the affairs are of such a confidential nature that the public interests would suffer by their disclosure. To my mind it would be a scandal if at a time when we are passing a Bill like this we did not ensure the safety of the confidential relations between Government and the Native States: but after the remarks of His Excellency and the Hon'ble Mr. Raleigh on the previous amendment I think it quite unnecessary for me to say anything more."

The motion was put and negatived.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 2 of the Bill as amended, in the proposed definition of "civil affairs", in sub-clause (*b*), before the word "relations" the word "civil" be inserted. He said:— "If the definition is so amended it will read thus :—

'(7) "civil affairs" means affairs—

* * * * *

(*b*) affecting the civil relations of the Governor General in Council with any Native State in India, or relating to the public debt or the fiscal arrange-

ments of the Government of India or any other matters of State, where these affairs are of such a confidential nature that the public interest would suffer by their disclosure.'

"The only reason that I need assign for this amendment is that civil affairs ought to mean 'civil relations' and ought not to include military relations. It seems to me that it is an improper use of language to include military matters under the term 'civil affairs'."

The Hon'ble SIR ARUNDEL ARUNDEL said :—"Unfortunately, if this word is included, the military matters would not be included among affairs relating to Native States, which would be protected by the Bill, because the military and naval matters which are protected are those relating to His Majesty's forces, and in addition to the military affairs which would be excluded, political affairs would also be put into the same category. This is the same amendment as the preceding one with a small portion of it whittled away. After what has been said on the two previous motions I think it is unnecessary for me to say more"

The motion was put and negatived.

The Hon'ble MR. GOKHALE moved that in clause 2 of the Bill as amended, in the proposed definition of "civil affairs", in sub-clause (*b*) the words "or any other matters of State" be omitted. He said :— "Government are no doubt aware that these are the words to which the greatest exception has been taken both by the Press and by public associations in the country, and if this proposal to omit them is accepted, the greater part of the opposition to this measure will, I think, disappear. On the other hand, if the words are retained, they will render the attempted definition of 'civil affairs' practically valueless, by conferring on Government almost as wide and dangerous a power to interfere with the liberty of the Press as under the original Bill. My Lord, a definition is no definition unless it specifies, or at any rate indicates with some degree of definiteness, what it is that is intended to be included within its scope, so that a person of average intelligence may have no difficulty in understanding that scope. In the present case, this test fails altogether on account of the use of such vague and all-embracing words as 'any other matters of State' in this attempted definition. I see that the Hon'ble Sir Arundel Arundel has given notice of an amendment to insert the word 'important' before the words 'matters of State'. 'Any other important matters of State' is, however, as vague and may be made as all-embracing as the expression 'any other matters of State,' and I do not think the Hon'ble Member's amendment will improve matters in any way. It may be argued, as the Hon'ble Member did when presenting the Report of the Select Committee, that the definition of 'civil affairs', even as it stands, need cause no apprehension; because, before any conviction is obtained, Government would have to prove (*1*) that the information published was of such a confidential nature that the public interest had suffered by its disclosure, (*2*) that it had been wilfully disclosed; and (*3*) that the person disclosing it knew that in the interest of the State he ought not to have disclosed it at that time Now, my Lord, these safeguards look very well on paper; but I fear in practice they will not be found very effective. When the Government come forward to prosecute a newspaper on the ground that it had disclosed confidential information relating to matters of State and that such disclosure had harmed public interests, I am afraid a great many Magistrates in India will require no other proof than the opinion of Government to hold that the information published was confidential and that it had prejudicially affected the interests of the State. As regards wilful communication, that too will be held to be established as a matter of course, unless the newspaper proves that the publication was due to inadvertence. The knowledge on the part of the editor that such publication should not have been made at that time in the interests of the State will, no doubt, strictly speaking, be more difficult to prove, but Magistrates of the average type in India, in the peculiar relation in which they stand to the Executive Government, will not be very reluctant to presume such knowledge from

the fact that the information published was regarded by Government as confidential and from other attendant circumstances. Let me take, as an illustration, the publication last year by some of the Indian newspapers of a confidential circular addressed to railway authorities in this country by the Under-Secretary to the Government of India in the Public Works Department in the matter of the wider employment of Europeans and Eurasians. My Lord, in the statement made by Your Lordship in December last on the subject of the Official Secrets Bill, Your Lordship was pleased to state that I had directly attributed the introduction of this Bill to the annoyance caused to Government by the publication of this circular May I respectfully ask leave to correct this misapprehension? I had mentioned this circular only to illustrate my meaning as to the distinction which I thought Government might make between civil matters of smaller and of greater importance My exact words were 'It may be said that, while Government have no objection to the unauthorized publication of official news of minor importance, they certainly want to prevent the publication of papers such as the confidential circulars about the wider employment of Europeans and Eurasians in the public service, which were published by some of the Indian papers last year' And later on, when I spoke of the annoyance caused to the officers of Government, I spoke of 'the annoyance caused by the publication of circulars such as were made public last year' I had thus used the circular only for the purpose of an illustration, and I beg leave to use it for a similar purpose again today. It is probable that as this circular had been issued without Your Lordship's knowledge or the knowledge of the Member in charge of Public Works, as stated by Your Lordship on a previous occasion, Government would not sanction a prosecution in this case, but supposing for the sake of argument that they did, how would the matter stand? Government might urge that the publication of the circular had inflamed the minds of many Hindus, Muhammadans and Parsis against the Government and had thus led to increased disaffection in the country. And if the trying Magistrate came to accept this view, the task of the prosecution would be comparatively simple. The injury to public interests would be held to lie in the alleged increased disaffection, and the circular being confidential, the Magistrate would have no difficulty in holding that the publication was wilful, and the editor would be presumed to have known what the consequences of such a publication would be. It may be that on an appeal to the High Courts or similar authority, the conviction may be set aside. But the worry and expense caused to the editor by such a prosecution might, in themselves, prove a heavy punishment, especially when it is remembered that the prosecution would have behind it all the prestige, power and resources of the Government. Even if no prosecution were actually instituted by the Government under the proposed legislation, the mere fact that the Government was armed with the power to prosecute cannot fail to affect prejudicially the liberty of the Press in this country. My Lord, nowhere throughout the British Empire is the Government so powerful relatively to the governed as in India. Nowhere, on the other hand, is the Press so weak in influence, as it is with us. The vigilance of the Press is the only check that operates from outside, feebly, it is true, but continuously, upon the conduct of the Government which is subject to no popular control. It is here therefore, if anywhere, that the Legislature should show special consideration to the Press, and yet here alone it is proposed to arm Government with a greater power to control the freedom of the Press than in any other part of the Empire. My Lord, we often hear Government complaining of the distrust shown by the people in this country and of the people complaining of the Government not trusting them enough. In such a situation, where again the question is further complicated by a tendency on the part of the Government to attach undue importance to race or class considerations, the wisest and safest and most statesman-like course for it is to conduct its civil administration as far as possible in the light of day. The Press is in one sense, like the Government, a custodian of public interests, and any attempt to hamper its freedom by repressive legislation is bound to affect these interests prejudicially and cannot fail in the end to react upon the position of the Government itself. My Lord, I fear, that the retention of the words 'or any other matters of State' in the definition of 'civil affairs' will unduly curtail the liberty of the Press in India, and I therefore move that these words be omitted from the definition"

The Hon'ble SIR ARUNDEL ARUNDEL said :—" I regret that I cannot accept this amendment. Besides the affairs of Native States and those relating to the public debt and other fiscal arrangements, there are many other matters of State, from personal questions to inquiries, say, into systematic counterfeiting of coin and movements of possible sedition or foreign conspiracy, which every Government may have to consider and which may have to be kept secret either permanently or for a season.

" The amendment would go beyond what is now permitted in Courts of law. By sections 123 and 124 of the Indian Evidence Act no one shall be permitted to give any evidence derived from unpublished official records relating to *any* affairs of State without qualification or limitation, except with the permission of the officer at the head of the department concerned, who shall give or withhold such permission as he thinks fit. And no public officer shall be compelled to disclose communications made to him in official confidence, when he considers that the public interests would suffer by the disclosure. Thus under the Evidence Act individual officials are empowered to decide whether the public interests would suffer by publicity. Under the Bill now before Council the matter is one that must be decided by the Court on evidence put before it. Moreover, the expression 'matters of State' is strictly limited to affairs 'of such a confidential nature that the public interest would suffer by their disclosure'

" If the disclosure had been made it would be for the prosecution to show how the public interests might suffer or had suffered, a suggestion was made that the certificate of a suitable public officer should be made evidence of the injury to the public interests; but this was rejected and the matter has been left to the decision of the Court. The Hon'ble Mr. Gokhale will remember how we attempted in Select Committee to frame a comprehensive definition of civil affairs without success, and we have had to fall back on the general definition embodied in the Bill *Trifling* matters are not 'matters of State,' but as there seems to be some fear that Government might so regard them I am ready to move an amendment to introduce the word 'important' to qualify 'affairs of State'.

"With regard to the Public Works Circular of last year, all I can say is that if such a circular could have been issued by Government I am perfectly certain Government would never dream of prosecution in connection with it. The views expressed by the Hon'ble Mr. Gokhale and Dr. Asutosh Mukhopadhyaya are evidently different. The Hon'ble Mr. Gokhale is under great apprehensions that a prosecution would be followed by conviction, and that the only safeguard would be an appeal to the High Court. The Hon'ble Dr. Asutosh Mukhopadhyaya, on the other hand, let the cat out of the bag just now when he said that the chance of a conviction was very remote indeed."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said :—" I desire to support this amendment, which is identical with the next amendment which stands against my name The reason for this amendment is obvious, as the words to which I take exception almost completely destroy the value and utility of the definition proposed. As soon as an endeavour is made to define the term 'civil affairs,' it must be upon the admission that the term is vague and does stand in need of a definition. The definition, however, becomes a delusion, if, in addition to the mention of two or three specific cases, it contains words of a general character which make the definition all embracing, such a definition, I venture to think, is rightly open to the charge of being a definition which defines nothing at all. One of the greatest legislators who ever sat in this Council laid it down, as the first principle of legislation, that we must have uniformity when we can have it, diversity when we must have it, but in all cases certainty It would be difficult to conceive of another definition of civil affairs more uncertain than the one proposed in the Bill. It is impossible to say, with any approach to certainty, what is or is not included in the characteristically vague expression 'any other matters of State.' But whatever vagueness may be admissible in other departments of the law, the law of crimes is undoubtedly the last place where any such vagueness ought to be tolerated, specially when it is desired to create new offences. If we are not in a position to use language more precise, we ought to be content with the specific enumeration already contained in the definition "

The Hon'ble RAI BAHADUR BIPIN KRISHNA BOSE said.—"To have a clear conception of the change in the law, which would result from the retention of the words 'any other matters of State' in the definition of 'civil affairs,' it will be convenient to state very briefly, upon a consideration of the provisions of the Act alone and untrammelled by anything said in Parliament or in this Council, the existing law regarding disclosure of information other than that relating to naval or military affairs. It is an offence (*a*) for any person wilfully and without lawful authority to make public any document or information, which has been obtained by an act which is an offence under the Act, and (*b*) for any person wilfully and in breach of confidence reposed or contrary to his official duty to communicate any document or information to any person to whom it ought not to be communicated

"In both cases the communication or publication must be contrary to the 'interest of the State,' which, I presume, is the same thing as the 'public interest.'

"The abetment of these acts is also an offence under the Indian Penal Code

"The Bill proposes to penalise unauthorised publication of any document or information relating to civil affairs, *in whatever manner the same has been obtained*, and not, as now, when the same has been obtained by an act which the Statute declares to be an offence. This expansion of the sphere within which the law would operate would place the public Press under a disability it does not now labour under. It has, however, been stated that the provisions of the Act, read with the definition of 'civil affairs' as proposed, would give all the protection that the Press can legitimately claim in this respect. Now, the condition that the publication must be shown to have been wilful can scarcely be regarded as a real safeguard in the case of a newspaper, for anything appearing in its pages must be held to have been wilfully published, in the absence of evidence to the contrary. The other two safeguards, when analysed, resolve themselves into the same elementary question, namely, whether the publication has injuriously affected the public interest. It has been rightly stated that this is a matter which it will be the function of the Court to decide on the merits of each individual case. But the initiation of a prosecution and a conviction following a prosecution are two different things For the former, the view which the Government will take will be the sole determining factor, even though that view may not ultimately find acceptance in the Court. Now, the qualifying words constituting the condition referred to above are so general and elastic that the opinion of the Government must always be an unknown quantity, and the newspapers will have to submit to the risk of that opinion differing from their own. Considering the disparity which exists between the facilities which the State with its resources will command in prosecuting and those which the offending newspaper will ordinarily be in a position to secure for the defence, it can hardly be denied that this liability to be made an accused in a Crown prosecution will operate as a powerful deterrent. The question thus resolves itself into this, is it for the public good that the liberty the Press now enjoys should be thus curtailed in order that the Government might enjoy a larger measure of protection for their civil affairs generally than what the existing law gives? My view is embodied in the note we have submitted with the Report of the Select Committee and nothing has transpired since to induce me to alter my opinion.

"Regarding the provisions of the Evidence Act to which reference was made, I may be permitted to point out that they deal with cases where a private party calls an officer of Government as a witness with a view to put in evidence some official document. In such cases, the officer concerned is made the sole and final judge as to whether the document called for should or should not be produced It must be so, for to give the Court the power to decide the question would necessitate the production of the document in dispute with a view to its inspection by the Court so that it might give its decision thereon. But to allow this to be done would be to defeat the very object which the Legislature had in view in enacting the sections referred to, namely, to protect from disclosure official papers which the Government considered should not be made public for the benefit of any private litigant. These considerations cannot apply to cases arising under the Official Secrets Act, where a document would already have been made public, and the sole

question for decision would be whether such publication was or was not injurious to the public interest. The opinion of the officer of Government could not in such a case be conclusive."

The Hon'ble NAWAB SAIYID MUHAMMAD said :—"My Lord, I wish to say a word in support of this amendment. The expression 'any other matters of State' appears to me very vague and must have the effect of conferring a wide power on the Government at the initial stage of setting the law in motion. Whether the law will be moved effectively or otherwise is a question that will arise at a later stage, and it is only then that the saving provision of proof to the satisfaction of the Court will come in. The main question for us to consider is whether such a broad legislative provision with the potentialities it must necessarily carry, is consistent with the full and free public discussion of affairs essential to the well-being alike of the Government and the people Sitting in this Council we cannot disregard the weighty words of reasoned protest that have been coming in from all sides and which have not been confined to any particular section of the community. Since the amendment of the Bill by the Select Committee this note has not perceptibly abated in volume, and this is due to the feeling of insecurity inspired by the ambiguous and comprehensive definition of 'civil affairs.'"

The Hon'ble MR. RALEIGH said :—"If any of my Hon'ble and learned colleagues would like to try his hand at a definition of 'civil affairs', I shall have a certain artistic pleasure in perusing and criticising the result. When we came to frame the definition in the Bill, we found that the number and variety of subjects to be covered must preclude any attempt at an exhaustive enumeration. We therefore proceeded so far by way of enumeration, and then added the general words now under discussion. It has been contended that the general words have no meaning; and the Hon'ble Dr. Mukhopadhyaya says that our enumeration is not sufficient. I think my Hon'ble colleague forgets for the moment the rule called the *ejusdem generis* rule. When you have certain matters specifically mentioned, and then general words following, the general words are construed with reference to what goes before. Put in the word 'important', which the Hon'ble Member in charge of the Bill proposes to add, and then read the definition without prejudice, you will see that it gives sufficient guidance, to Government in the first place and then to the Courts, as to the class of affairs to which this Bill is intended to apply. The Hon'ble Mr. Bose argues that the opinion of Government as to what is a matter of State, and what is important, may not be the same as the opinion of the independent journalist. That is quite true, but the opinion which prevails in the long run is neither that of Government, nor that of the critic of Government, but the opinion of the Judge by whom the case is tried.

"The Hon'ble Mr. Gokhale indeed suggests that the wishes of Government will guide our Magistrates in their construction of the Act, or, in other words, that accused persons will not have a fair trial. I know something, by this time, of our subordinate judicial officers, and on their behalf I deeply resent the language which Mr. Gokhale has thought fit to use. Our Courts, both High Courts and local Courts, have always prized their independence; it is the desire and the duty of Government to respect that feeling. There is, so far as I am aware, no ground for this general charge, thrown out in unqualified terms against a large body of public servants.

"Mr. Gokhale further contends that, even if prosecutions under the Act are few, the mere fact that Government is empowered to prosecute will hamper the freedom of the Press. I will answer this, not with an abstract argument, but by referring to my own experience. Some time ago I was placed in charge of a Department in the Privy Council Office which had constant relations with the confidential Government Press. We never prosecuted under the Official Secrets Act, but we knew it was there, and I think the knowledge was useful in the case of the lower rank of subordinates. They understood that tampering with official documents was not merely a departmental affair, but might turn out to be criminal. But as for the Press, no gentleman connected with it ever has occasion to consider the Official Secrets Act; if you suggested to a London

journalist that he must be sadly hampered by its provisions, he would regard the suggestion as an insult. In like manner I should say with confidence that no honest journalist in India has anything to fear from the provisions of this Bill."

The Hon'ble MR. GOKHALE said :—"I beg leave to say just one word with regard to what has fallen from the Hon'ble Mr. Raleigh. He said that he resented the suggestion made by me that many of the Subordinate Magistrates in this country might construe the provisions of this Act in a manner unduly favourable to the prosecution and that accused persons might not have a fair trial when the prosecution was started by Government. All I can say is that if the Hon'ble Member will occasionally glance at the judgments of High Courts, as reported in the newspapers, and read the observations which the Judges from time to time feel themselves constrained to make on the conduct of subordinate Magistrates, he will find that there is more than justification for the fears that I have expressed."

The Council divided :—

Ayes—7.

The Hon'ble Dr Asutosh Mukhopadhyaya
The Hon'ble Rai Bahadur Bipin Krishna Bose
The Hon'ble Dr. Ramkrishna Gopal Bhandarkar
The Hon'ble Mr T. Morison.
The Hon'ble Nawab Saiyad Muhammad
The Hon'ble Mr Gopal Krishna Gokhale
The Hon'ble Rai Sri Ram Bahadur.

Noes—16.

The Hon'ble Mr D M Hamilton
The Hon'ble Mr J. B Bilderbeck
The Hon'ble Mr. A Pedler
The Hon'ble Mr. H. Adamson
The Hon'ble Mr. F. S. P Lely
The Hon'ble Mr. E. Cable.
His Highness the Agha Khan
His Highness the Raja of Sirmur.
The Hon'ble Mr. A. W. Cruickshank.
The Hon'ble Sir Denzil Ibbetson.
The Hon'ble Sir A. T. Arundel.
The Hon'ble Major-General Sir E. R. Elles.
The Hon'ble Sir E. FG. Law.
The Hon'ble Mr. T Raleigh.
His Excellency the Commander-in-Chief.
His Honour the Lieutenant-Governor of Bengal.

So the motion was negatived.

The Hon'ble SIR ARUNDEL ARUNDEL said :—" I am in a somewhat unfortunate position as we were quite unable to accept the amendment which has just been rejected. I was under the impression in proposing the amendment that stands in my name I might meet the wishes and desires of some of the non-official Members of this Council, but from remarks that have already fallen I am not at all sure that they consider the concession worth accepting However, it is in the direction of giving a further safeguard, and therefore I think it is a step which will strengthen the position of this Bill with regard to the matter under discussion. The motion that I have to make is that in clause 2 of the Bill as amended, in the proposed definition of 'civil affairs', in sub-clause (*b*) before the words 'matters of State' the word 'important' be inserted. If this amendment is accepted, there will be a further guarantee that the provisions of the Act cannot be needlessly put in force and there will be another point to prove to the satisfaction of the Court."

THE Hon'ble DR. ASUTOSH MUKHOPADHYAYA said :—" My Lord, I appreciate and welcome the spirit in which this amendment has been moved by the Hon'ble Member in charge. It is intended obviously to soften the rigor of the law and to limit the scope of its operation. I wish I could persuade myself to believe that this object will be realized in practice ; but I am afraid, however laudable the object may be, in spite of this amendment, matters will remain very much where they are. It may serve as an index of the good intentions of the Government, and may satisfy those who delight to indulge in

vague generalities but can hardly appeal to persons who are accustomed to accurate habits of thought."

The motion was put and agreed to.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 3 of the Bill as amended, in sub-clause (*b*) for sub-head (*ii*) the following be substituted, namely :—

"(*ii*) after the word 'obtain' the words 'or any copy of any such document, sketch, plan or model' shall be inserted"

He said :—"The effect of this amendment, if it is accepted, will be to remove from section 3 (*1*) (*a*) (*ii*) the phrases 'attempts to obtain' and 'attempts to take' which are proposed to be inserted therein Under the Act as it stands at present, mere attempt to obtain any document, sketch, plan, model or knowledge is not made punishable in the case of a person who is inside a fortress, etc, or in an office, but such attempt is made punishable when the person concerned is outside the fortress or camp In this respect our Act follows precisely the English Official Secrets Act, 1889. I have not heard it suggested that the provisions of the English Act in this respect have been found to be defective, nor have I heard any reason assigned why we should, in this matter, depart from the high authority of the English Statute. If the Bill be passed as it now stands we may be led to consequences which I am not sure are really intended, *e.g.*, a man may be inside an office lawfully ; while there, if he makes any attempt, say, by putting a question to a clerk, to obtain any information, the language of the section is comprehensive enough to make him guilty of an offence against the Act. I do not think it is any answer to say, that there is no likelihood of a person being prosecuted under the circumstances I have mentioned. The real point of the objection is that it is a serious defect in a Criminal Statute to make the language so unnecessarily comprehensive as to impose a criminal character upon an act which is harmless in itself Again, if we examine the provisions of the Indian Penal Code, we shall find that mere attempts are made punishable only in the case of some of the very gravest offences, against the State or against human life and property, but in other cases, attempt is made punishable only when in such attempt any act is done towards the commission of such offence. I venture to think that this well-established distinction is not recognised in the section now before us, and I very much prefer to adhere to the provisions of the English Statute, till, at any rate, they are proved by experience to be inadequate or ineffectual."

The Hon'ble SIR ARUNDEL ARUNDEL said :—"I found it quite impossible to understand from the amendment paper precisely what provision the Hon'ble Dr. Asutosh Mukhopadhyaya is about to propose, but I fully understand his position now, and with reference to it I would say that with regard to naval and military affairs it is not sufficient to penalize a person who obtains a document, or sketch, or plan, or model, or map, but it is necessary also to provide against attempts. The attempt may be made either by threats or otherwise, and with regard to taking sketches or plans it might be difficult to say when the taking of a sketch or plan was completed, but if we include here attempts to obtain or take them, then the object which is desired by the naval and military officials will be secured That is the reason for which I am unable to accept the amendment."

The motion was put and negatived.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 3 of the Bill as amended, in sub-clause (*b*), after sub-head (*ii*), the following new sub-head be inserted, namely :—

"(*iii*) for the word 'anything' the words 'any naval or military affair of His Majesty' shall be substituted".

He said :—"The object of my amendment, in which I am encouraged by what fell from Sir Arundel Arundel with reference to my previous amendment, is

to make absolutely clear what was the original meaning of the section—a meaning which I fear may become obscured under altered circumstances. The Act of 1898 was applicable only to naval and military matters and consequently the phrase 'knowledge of anything' would mean knowledge of any naval and military affairs. As, however, it is now proposed to make other portions of the Act applicable to civil affairs, it may be contended that the phrase 'knowledge of anything' has by implication acquired an extended significance I therefore suggest that as reference is made to civil affairs expressly only in section (3) (1) (c) and 3 (3), we should make it clear that the knowledge, the acquisition of which is penalised by section 3 (1) (a) (ii), is restricted to naval and military affairs. I cannot conceive that it should be found necessary to penalise the knowledge of everything, as would inevitably be the consequence if the phraseology of the Act be adhered to, inasmuch as the phrase 'knowledge of anything' is far more comprehensive than even the knowledge of naval, military and civil affairs. If, however, my amendment in its restricted form is not acceptable, I would without hesitation suggest that the word 'anything' may be replaced by the words 'any naval, military or civil affair of His Majesty'"

The Hon'ble SIR ARUNDEL ARUNDEL said:—"I sympathise with the Hon'ble Dr. Asutosh Mukhopadhyaya in his criticism on this passage. I think there is no doubt that as the word stands it is possible that a Court might, if bereft of its senses, regard a knowledge of *anything* as something outside the ken of the definition of 'civil affairs', and I think we ought to take the opportunity now of rectifying a flaw which has only recently come to our notice, but I cannot accept the Hon'ble Member's first suggestion, namely, to insert 'knowledge of any naval or military affair' because that would exclude civil affairs. I am therefore quite prepared to accept the second suggestion of the Hon'ble Member, and to read the passage as 'knowledge of any naval, military or civil affair'. Then it would be understood that the words 'civil affair' would come under the definition of civil affairs in the Bill and would be subject to all the qualifications provided for in that definition.

"Perhaps, if the Hon'ble Member accepts the suggestion, he would propose the second alternative I do not know how it stands as a matter of business, but with Your Excellency's permission we can adjust the matter by putting in those words—'for the word "anything" the words "any naval, military or civil affair" shall be substituted.'"

The Hon'ble DR ASUTOSH MUKHOPADHYAYA said that he was prepared to accept this suggestion.

His Excellency THE PRESIDENT said:—"The Hon'ble Member having accepted the suggestion, I will now move the amendment that stands in his name in the following words, namely, 'that in clause 3 of the Bill as amended, in sub-clause (b), after sub-head (ii), the following new sub-head be inserted, namely, "(iii) for the word "anything" the words "any naval, military or civil affair of His Majesty" shall be substituted.'"

The motion was put and agreed to.

The Hon'ble MR. GOKHALE moved that in clause 3 of the Bill as amended, in sub-clause (c) the words "and in sub-section (2)" be omitted. He said:—"The effect of this amendment would be to omit the word 'civil' from section 3, sub-section (3), of the Act as now proposed to be amended and confine the provisions of the sub-section to naval and military matters as in the old Act. I quite admit that this would practically render the present Bill useless, but the only course left open to me now after the rejection of my amendment with reference to the words 'any other matters of State' is to move that the word 'civil' be taken out of section 3, sub-section (2). I tried in Select Committee, as my Note of Dissent shows, to go as far with Government as it was possible for me to go. I agreed to extend the new law to the relations of Government with Foreign States, to the confidential relations of Government with Native States, and to confidential fiscal matters. But beyond that I was not prepared to go, and since Government want to define 'civil affairs' in the

manner in which it has been proposed in the Bill, my only course is to propose that the word 'civil' be taken out of the sub-section."

The Hon'ble SIR ARUNDEL ARUNDEL said :—"The amendment of the Hon'ble Mr. Gokhale seems to me to be somewhat of an academic character, for he himself admits that if it were accepted it would render the Bill practically useless, and as I said in regard to the last amendment, which was not accepted without modification, as we have already by implication decided on several amendments to-day that civil affairs are to be included in this Bill, I am unable to accept this amendment."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said :—" I desire to support this amendment, which is identical with the next amendment that stands in my name. The effect of this amendment if accepted will be to leave section 3, sub-section (*2*), of the Act unaltered by the omission of all reference to civil affairs. It will be remembered that by the provisions of the Bill now before us, it is proposed to extend the operation of three of the provisions of the Act to the publication of information relating to civil affairs. The *first* of the three provisions I have referred to above is to be found embodied in section 3 (*1*) (*a*) (*ii*), which we have just amended by substituting for 'anything' the words 'any naval, military or civil affair of His Majesty.' The *second* of the provisions is to be found embodied in section 3 (*1*) (*c*), which penalises the publication of information relating to civil affairs by a person who does so, in breach of the confidence reposed on him and to the injury of the State, to this provision I take no exception, and I yield to none in my unqualified condemnation of the conduct of the individual who, after being entrusted with an official secret, wilfully, and in breach of such confidence, communicates the same to the detriment of the public interest. But I am not prepared to go further, and I cannot lend my support to any provision of the law which makes the publication of information relating to civil affairs a criminal offence, no matter under what circumstances such information may have been obtained. It seems to me, that there are at least *two* reasons why such an extension of the law ought not to be allowed. In the *first* place, the State is sufficiently protected by the penalty which we have imposed upon the person, who, when entrusted by the Government with an official secret, has committed an act of breach of faith and communicated the information to the detriment of the public interest In the *second* place, the extension of the law as proposed in the Bill would be effectually destructive of free public criticism of Government measures I have heard it said that the provisions of the Bill have now been hedged in with so many limitations, that it would be next to impossible to secure a conviction under the new Act, and that consequently the contemplated changes in the law may be acquiesced in as perfectly harmless I entirely dissent from this view of the situation. A conviction under the Act may or may not be easy to secure, but the prospect of prosecution will nevertheless be in the mind of every journalist. A journalist may obtain most innocently important information relating to civil affairs, before he can publish it, he must satisfy himself that it will not be treated as an official secret under this Act ; in other words, that it will not be regarded as of such a confidential nature that the public interest would suffer by its disclosure. So far as I know, he has no means of ascertaining this with any degree of certainty, and he must either face the risk of a prosecution—be the prosecution ultimately successful or unsuccessful—or, what is more within the range of probabilities, he will think it safer to leave the subject alone. My Lord, I have not the slightest doubt in my mind what the ultimate effect of this legislation will be, it will place the right of free public discussion upon a narrower and more restricted basis, however laudable or innocent the object of the promoters of this legislation may be, its results would be disastrous to the people and the Government alike."

The motion was put and negatived.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 3 of the Bill as amended, for sub-clause (*c*) the following be substituted, namely —

"(*c*) in sub-head (*c*) of the same sub-section, for the words 'naval or military' the words 'naval, military or civil' shall be substituted, and in sub-section

(2), after the word 'taken' the words 'or to the civil affairs of His Majesty if such information has been, by him, wrongfully obtained or taken,' be inserted."

He said :—"The effect of this amendment, if accepted, will be to leave the publication of naval and military secrets punishable irrespective of the manner in which such secrets may have been obtained and to make the publication of civil secrets punishable only when such secrets have been obtained by unlawful means. I do not desire to repeat the arguments which I have already advanced in support of the previous motion, and I venture to think that, if the publication of civil affairs is at all to be included within the operation of this Bill, it ought to be done with the restriction I have suggested. This is the minimum concession which may rightly be asked in the interests of the Press and the right of free public discussion"

The Hon'ble SIR ARUNDEL ARUNDEL said :—"The object of this amendment is to provide that a person who wilfully communicates information which he knows he ought not in the interest of the State to communicate at that time, shall not commit an offence unless he obtained the information wrongfully.

"I may say at once that this amendment cannot be accepted. It is the difficulty or rather the impossibility of proving wrongful intention or the wrongful acquisition of information that has made the English Act useless.

"What difference can it make to the public interests—in behalf of which this Bill is framed—whether confidential information has been rightly or wrongly obtained, if the person who possesses it wilfully and knowingly misuses it, and makes it public when he knows he ought not to do so? The amendment would exempt from penalty an official who wilfully misused knowledge which he had acquired in the course of his duties, and this would be altogether wrong. As this Bill now stands, all servants of Government from Members of Council to clerks in the offices fall under the terms of this clause, and I cannot accept an amendment which would exempt them."

The Hon'ble NAWAB SAIYID MUHAMMAD said :—"My Lord, in support of this amendment I have only to say that its reasonableness and moderation should commend it to the acceptance of the Council. In the case of all offences intention is justly regarded as the first thing necessary to constitute an offence. In the case of naval and military affairs there will be always a presumption of evil intention, but the same cannot be said of civil affairs. My Lord, men of affairs and publicists have always, under a Government which has ever invited and never feared criticism, commented on all the civil affairs of the Government without any reservation, and it appears unjust that, when information relating to such affairs has been legitimately obtained, it should be treated as an offence. A distinction should here be made between naval and military affairs on one hand and civil affairs on the other. The communication of information concerning the former, in whatever manner obtained, may be treated as an offence, but it is obviously inequitable to mete out the same treatment to the communication of information regarding civil affairs unless the same has been wrongfully obtained."

The motion was put and negatived.

The Hon'ble RAI SRI RAM BAHADUR said :—"My Lord, I move that in clause 3 of the Bill, sub-clause (*d*) be omitted. This sub-clause runs as follows :—

'(*d*) after sub-section (*1*), the following shall be inserted as sub-section (*2*), and the present sub-sections (*2*) and (*3*) shall be renumbered sub-sections (*3*) and (*4*) :—

"(*2*) Where a person commits any act specified in clauses (*i*), (*ii*) and (*iii*) of sub-section (*1*), sub-head (*a*), without lawful authority or permission (the proof of which authority or permission shall be upon him), the Court may presume that he has committed such act for the purpose of wrongfully obtaining information." '

"Clause (*1*) (*a*) provides that when a person for the purpose of wrongfully obtaining information—

(*i*) enters or is found in any place, such as a fortress, factory, camp, etc.,
(*ii*) or being in any such place or a public office obtains or attempts to obtain any document or plan, etc., without any lawful authority,
(*iii*) or from outside takes or attempts to take any plan or sketch of any place of military importance without any lawful authority,

he shall render himself liable to punishment under the Act.

"The word 'attempts' in sub-clause (*ii*) and the expression 'in any office belonging to His Majesty' are for the first time being introduced in the Act of 1889 by this Bill. But the most important addition is sub-clause (*2*), which governs all the acts mentioned in sub-clauses (*i*), (*ii*) and (*iii*). This most important innovation runs as follows —

'(*2*) Where a person commits any act specified in clauses (*i*), (*ii*) and (*iii*) of sub-section (*1*), sub-head (*a*), without lawful authority or permission (the proof of which authority or permission shall be upon him), the Court may presume that he has committed such act for the purpose of wrongfully obtaining information.'

"My Lord, one of the most important legal presumptions according to the English jurisprudence is that of the innocence of the accused This presumption, which in legal phraseology 'gives the benefit of the doubt to the accused,' is considered so cogent by law that it cannot be rebutted by any evidence short of what is sufficient to establish the fact of criminality of the accused with moral certainty It is an acknowledged principle of English law that to bring home a charge, the prosecution must establish the elements which constitute the offence. .

"Now, according to the first portion of clause 3 (*1*) (*a*), it is not the mere entry which constitutes the offence, but the entry must be with the object of wrongfully obtaining information. In order to establish the guilt of the accused the duty of the prosecution should be to prove that the entry was for the purpose of wrongfully obtaining information. But sub-clause (*2*) is capable of being interpreted in such a way that it would relieve the prosecution of their duty to prove the most important element in the offence charged If an accused person is found under certain circumstances in one of the places mentioned in sub-clauses (*i*) to (*iii*), all that the prosecution will be required to do is to ask the Court to presume that he has committed the offence charged against him.

"I admit that the new sub-clause does, on the first sight, appear to be an enabling clause only and does not lay down a rigid rule of conclusive presumption; but still its provisions may be misused against an accused person. In such cases the accused would be required to prove his innocence to rebut the presumption which the Court may form against him, without the prosecution first proving that the accused made the entry with the object of wrongfully obtaining information or has obtained such information. To prove innocence, however simple it may appear at the first blush, is not an easy matter.

"The retention of this sub-clause is open to the very serious objection that its real purpose will be misunderstood and its provisions will be considered as of an advisory character by the Magistrates of the ordinary Indian Courts. Notwithstanding what has fallen from the Hon'ble Mr. Raleigh in the course of one of the remarks made by him just now with regard to the administration of criminal justice in the mufassal, the bitter experience of every body who has some experience of the mufassal Magistracy compels him to entertain a different notion of the administration of such justice.

"As remarked by the Hon'ble Mr. Gokhale, the comments occasionally made by the High Courts in their judgments, on the proceedings of the mufassal Magistracy, fully justify the apprehensions with regard to the misapplication of the provisions of this sub-clause to cases to be tried under this Act.

"My Lord, this sub-clause introduces new provisions with regard to the law of presumption, which are not to be found in the existing Act nor in the Law of Evidence in force in India, and therefore on this ground alone it should be eliminated from the Bill. In case it be said that it does not introduce any innovation but it simply reiterates the principles of the existing Law of Evidence,

then also its insertion is open to the equally serious objection that it is a surplusage.

"On these grounds I beg to move that this sub-clause should be omitted and the Courts trying offences under this Act should be left to be guided by the rules of the ordinary Law of Evidence."

The Hon'ble SIR ARUNDEL ARUNDEL said:—"I regret that I cannot accept this amendment.

"In the first place, clause 3 (*1*) (*a*) (*i*) now relates solely to military and naval places, and no objection has hitherto been raised so far as I know to the protection which the Bill is intended to afford to such places

"In the second place, it is, as every one knows, almost impossible to prove directly that the intention of any person is or was to do a wrongful act. The intention can only be *inferred* from the person's acts. The Bill now leaves it to the Court to draw the inference of wrongful intention, and this is what is meant when it is said that in certain circumstances the Court may *presume* that a person has committed an act for the purpose of wrongfully obtaining information. But in the case before us the Court cannot draw this inference or make this presumption unless the person has committed the act without lawful authority or permission. And as the person must either possess such authority or permission by virtue of his office or by the express or implied sanction of the officer entitled to give it, it is only reasonable to require the person to show that he possessed such authority or permission. This merely follows section 106 of the Indian Evidence Act, which lays down that when any fact is specially within the knowledge of any person, the burden of proving that fact is upon him. In the absence of such proof the presumption is adverse. Various illustrations can be adduced Under section 105 of the Evidence Act the burden of proving unsound mind or grave and sudden provocation in cases of murder and grievous hurt lies upon the accused.

"By section 114 a Court may presume that a man who is in possession of stolen goods soon after the theft is either the thief or has received the goods knowing them to be stolen, unless he can satisfactorily account for his possession.

"Under Act I of 1889, section 4, clause (3), if, in a trial for the offence of making copper or bronze pieces to be used as money, the question arises as to whether any piece of metal was *intended* to be used as money, the burden of proving that it was *not* intended to be so used shall lie on the accused person. Here the accused is called on to prove a negative.

"Turning to the English Statute Law I find in the Public Stores Act, 1875 (38 & 39 Vict, c 25), several instances of the burden of proof of lawful authority being thrown on an accused person

"Section 4 lays down that if any person without lawful authority (the burden of proving which authority shall lie upon him) applies any specified Government marks on any stores, he shall be liable to conviction.

"Under section 7 of the same Act a person charged with possessing or conveying Government stores reasonably suspected of having been stolen must satisfy the Court as to how he came by them.

"Under section 9 marine store dealers and pawnbrokers must satisfy the Court as to how they came into possession of stores which the Magistrate sees reasonable grounds for believing are or were His Majesty's property, and without reference to whether they were stolen or not. Under section 8 any person who without written permission from some authority (proof of which permission shall be on the person accused) gathers or searches for stores in certain places is liable to conviction.

"I think that Council will agree that these illustrations show that the hard words that have been levelled at the provision of the Bill now under discussion are out of place, and that there is nothing in it antagonistic to the spirit of our laws. I may repeat here that the English Act has been found useless because of the defect we now desire to remove"

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I desire to support this amendment, which is identical with the one which stands next on the paper

against my name, but before I do so, I should like to clear up one or two matters on which there seems to be some misapprehension. In the first place the Hon'ble Member in charge, I venture to point out, is clearly in error when he says that the clause which we seek to omit applies only to naval and military affairs; it refers expressly to section 3 (*1*) (*ii*), which as now amended applies not only to naval and military matters, but also to civil affairs Indeed, when I asked the Hon'ble Member in charge to accept a restricted interpretation of the word 'anything', I had in view the presumption clause we are now dealing with. In the second place, the real objection is, not to the burden of the proof of lawful authority being placed upon the supposed offender, but to the presumption which it is suggested the Court may draw from one particular fact, namely, if a man has not lawful authority, his intention is criminal.

"The object of the amendment is to secure the omission of the proposed new sub-clause, which lays down that if a person does certain acts without lawful authority or permission (the burden of proof of which authority or permission is placed upon him) the Court may presume that he has committed such act for the purpose of wrongfully obtaining information I deeply regret to find that a provision so absolutely inconsistent with the first principles of criminal jurisprudence should find a place in this Bill. It will be remembered that in the Bill as originally drafted it was proposed that the qualifying words in the beginning of section 3 (*1*) (*a*), which made an intention to obtain information wrongfully the essence of a criminal act, should be omitted. The Select Committee have restored these words, but they have inserted a presumption clause which will practically nullify the effect of the words which are restored. This qualifying clause is taken from the English Statute and has a history of its own Under the English Statute it must be established, before a person can be convicted under section 1, sub-section (*1*), that his purpose was to obtain information wrongfully, and these qualifying words were inserted in the House of Lords at the instance of Lord Herschel. We have apparently here grown wiser, for we first endeavour to get rid of these words, and next, when we find that the proposed omission is not defensible, we re-insert them clogged with a presumption clause. No one suggests for a moment that, when a Court has to determine the guilt or otherwise of an accused person, the Court is not entitled to draw an inference from *all* the circumstances disclosed in the evidence, but I maintain that it is contrary to all principles of criminal jurisprudence to provide in the Statute Book that from a particular circumstance the Court may presume the guilt of the accused. It is the law of this country, as it is the law of England, that an accused person cannot be convicted on mere presumption, but must be proved to be guilty by legal evidence which is peculiarly strong and clear beyond a reasonable doubt. The burden of proof is upon the prosecutor, all the presumptions of law, independent of evidence, are in favour of innocence, and every person is presumed to be innocent until he is proved guilty, if upon such proof there is reasonable doubt, the accused is entitled to the benefit of it by an acquittal Presumptions, even though rebuttable, ought to be very cautiously introduced, and I cannot think of a more unfortunate instance in which the introduction of a new presumption has been attempted.

"The only reason which may be suggested in defence of the presumption clause is that it will relieve the prosecution of the burden, which rightly lies upon it, of proving to the hilt the guilt of the accused, whether a consideration like this should have any weight, I leave it to others to judge."

The Hon'ble RAI BAHADUR BIPIN KRISHNA BOSE said —"The second and third of the three acts referred to in the sub-clause which it is proposed to omit contemplate cases where a man may be said to have been caught red-handed It can scarcely be argued with any show of reason that in such cases the Court may not draw the presumption of guilty intention. As regards the first act, I am unable to accept the view that the sub-clause engrafts any new rule or principle on the law of evidence. A man's intention is generally a matter of inference, which a reasonable mind naturally and logically draws from his acts and conduct. If the surrounding circumstances are such as to make it morally certain that an act was committed with a particular intention, the inference that it was so committed is as safe in the domain of criminal jurisprudence as in any

other sphere of human conduct. Thus we find the Evidence Act authorising the Court to presume the existence of any fact which it thinks likely to have happened, regard being had to the common course of human affairs. If, for example, a person attached to the military staff of a Foreign Government interested in obtaining military secrets of this Empire is found inside a fortress, to which access cannot be had without permission, and he is unable to show that he had such permission, and if further materials for making sketches are found in his possession, the Court would be acting in accordance with the law if it were to presume against him a guilty intention and, unless the presumption is displaced, to convict him on the strength of it. In this matter I disagree with the view of the law which has been propounded by the Hon'ble Dr. Mukherjee. To take an opposite case an ignorant rustic not interested in military matters and not possessed of necessary skill to be able to obtain information relating thereto, is found in a similar predicament. The Court would not be acting rightly if it were to presume against him guilty intention from the mere fact of his presence without authority inside the fortress. Such is the present law and I fail to see how by merely saying that the Court *may* —not *shall*—presume the existence of the necessary wrongful intention, the sub-clause does anything to add to or alter that law It merely re-states it and in doing so draws the Court's attention to it, perhaps in the majority of cases, somewhat unnecessarily. Holding this view, the Hon'ble Mr Gokhale, the Hon'ble Nawab Saiyad Muhammad Saheb and myself saw no reason to object to it in the Select Committee, especially as on its adoption depended the elimination of the original provision, which made mere entry or presence, unless shown to be with lawful authority, an offence under the Act. I am unable therefore to support the amendment."

The Hon'ble MAJOR-GENERAL SIR EDMOND ELLES said :—" I only wish to say a few words in regard to the effect of this amendment on military and naval affairs If the amendment of the Hon'ble Member were carried, the effect would be that the Bill would be rendered practically useless for our purpose. It is a great satisfaction to find that the Hon'ble Mr. Bose has taken the view of the law that he has. He has referred to the case of an officer of a Foreign Power being found inside a fort. Such a case actually occurred in one of our largest fortresses not long ago. The officer was found under suspicious circumstances in the fort. Of course he said that he had come to obtain a view of the surrounding country and scenery, and had no other intentions. It is not only possible for an officer to take a sketch under such circumstances, but any trained Engineer or naval officer could carry away in his head information of the greatest value. I would therefore most strongly protest against the amendment which my Hon'ble Colleague has put forward as being entirely inimical to the objects of the Bill."

The Hon'ble MR RALEIGH said —" I meant to make a reply on the point of law, but my Hon'ble Colleague Mr. Bose has made that unnecessary. As soon as the question is stated in a concrete and common-sense way (as it was stated by Mr. Bose and by the Hon'ble Sir Edmond Elles) it becomes apparent that the argument developed in countless articles and speeches on this Bill has nothing in it. Nobody ever denied that the rule as to presumption of innocence is a cardinal principle of criminal justice. But the presumption may be, and frequently is, displaced. When a man by his own act has brought himself under reasonable suspicion, the law turns against him, so to speak, and he is required to prove a negative. My Hon'ble Colleague Sir Arundel Arundel has mentioned the case of the person found in possession of stolen property, who is required to prove that he is neither thief nor receiver of stolen goods. Is there anything unfair or oppressive in applying a similar rule to the person found in possession of wrongfully obtained information ?"

The motion was put and negatived.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 3 of the Bill as amended, the word "and" between sub-clauses (*c*) and (*d*) be omitted, and the following be added as a new sub-clause, namely :—

"and

"(*e*) for the words 'in the interest of the State' wherever they occur, the words 'in the public interest' shall be substituted."

He said :—"This amendment is based on the ground that a uniform language ought to be used throughout the same enactment. I find that the Select Committee, in the definition which they have framed of the term 'civil affairs,' have used the expression 'public interest.' I accept that phraseology and I suggest that the same expression be used throughout the Act. I cannot conceive that what is contrary to the interests of the State can ever be beneficial to the public interest. The interest of the State and the interest of the public are, or at any rate ought to be, identical, and I venture to think that uniformity of language in this instance at least may prevent many a refined argument and ingenious distinction."

The Hon'ble SIR ARUNDEL ARUNDEL said :—"I have no objection to the amendment which has been proposed: in fact, I think that the only Member likely to object to it would be the Hon'ble Mr. Morison, who has urged that the interests of the State are by no means always the public interests. However, in our view the two are identical, and I am quite prepared to accept the amendment which has been put forward."

The motion was put and agreed to.

The Hon'ble MR. GOKHALE said :—"The next amendment which stands in my name is really made up of two amendments, and I had thought I had given separate notices of the two amendments. As, however, they have been printed together, I move them together. I beg to move that after clause 3 of the Bill as amended, the following be added, namely :—

'and

(e) to sub-section (3) as so re-numbered, the following exceptions shall be added, namely :—

"*Exception I.*—Where the information relates to affairs affecting the relations of the Governor General in Council with any Native State in India and the communication has been made by a newspaper, the provisions of the sub-section shall not apply, unless the information has been wrongfully obtained

"*Exception II.*—Where the information communicated has been obtained from a newspaper published outside British India, the provisions of this sub-section shall not apply."'

"The first part of the amendment refers to confidential information about Native States being published by newspapers, to which Government might take exception. I will only point out this in this connection, that whereas in regard to matters affecting the British Government in its own territory, there are only two parties, namely, the Government and the newspaper which publishes the information, in regard to matters relating to Native States there are three parties; there is the British Government, there is the Native State, and there is the newspaper concerned. In the case of affairs relating to the British Government alone, if a newspaper obtained its information from a recognised officer of the British Government in an authorized manner, there will obviously be no prosecution. In regard to Native States the information might be obtained authorizedly either from a recognised officer of the British Government or from a recognised officer belonging to the Native State: and I submit that it is only fair that where the information has been thus obtained, *i.e.*, not by wrongful means, there should be no prosecution. There are occasions on which a Native Prince finds himself entirely at the mercy of a Political Officer. This is rather a strong expression to use, but I come from a Native State, and I know how sometimes, when there is a strong and unsympathetic Political Officer, the Prince is virtually helpless in spite of whatever representations that he may make. On such occasions, if a powerful newspaper—especially an Anglo-Indian newspaper—takes up the case of the Native State and represents its side in its columns, the result often is that the attention of Government is attracted as it is not attracted by the representations of the Chief, and speedy redress is secured by the Chief, which otherwise there would be small chance of his securing. I think, therefore, that where information regarding a Native State, such as is contemplated in the definition of 'civil affairs', has not been wrongfully obtained by a newspaper, the publication should not be an offence. I would further say this—it may be

thought that the Native State had no business to communicate such information to the newspaper, that the matter being confidential and being between the Government of India and the Native State, the Native State divulged what it had no business or right to divulge If so, the Government might deal with the Native State separately, but the newspaper, acting in the interests of the Native State or in the interests of justice, which is even higher, should not be punished simply because the Government of India does not like the disclosures made."

His Excellency THE PRESIDENT said that the first portion of this amendment (Exception I) should be disposed of before passing on to Exception II.

The Hon'ble SIR ARUNDEL ARUNDEL (speaking on Exception I) said:—"I cannot accept the amendment which is proposed, but with regard to what the Hon'ble Mr Gokhale has said I would remark that I do not think his illustration a very fortunate one As a matter of fact it is not the mere fact that the information has been rightfully obtained that makes the distinction, but the fact that it was to the benefit of the Native State, and therefore I should say to the public interest, that the matter should be revealed in the newspapers, and that being the case, it is perfectly certain that no prosecution could ever ensue. What I should like to say on the main point is that it would be impossible for the Government to ascertain how the editor of a newspaper obtained his information All that Government knows is that information has been published, but whether it was rightfully or wrongfully obtained is known to the editor alone. Surely every honourable editor would accept the obligation that he must not wilfully communicate the information to any person to whom he knows he ought not in the interest of the State to communicate it at that time.

"I think it would be an unwise precedent to introduce class legislation in the way proposed and to make a distinction between the editor of a newspaper and anyone else. And why should a newspaper editor be exempt from the liability which besets all servants of Government? I cannot accept the amendment proposed"

The motion was put and negatived.

The Hon'ble MR GOKHALE then said —"My next amendment is to the following effect, that after clause 3 of the Bill as amended the following be added, namely —

"and

(e) to sub-section (3) as so renumbered, the following exception shall be added, namely —

"*Exception II*—Where the information communicated has been obtained from a newspaper published outside British India, the provisions of this sub-section shall not apply"

He said:—"With the amendment that has been made in section 3, sub-section (2), of the Act, namely, the inclusion of civil affairs within its scope, it now becomes a matter of considerable importance that at any rate information which is wired from England to newspapers in this country is not held to be within the province of that section. It may happen that upon an important matter something might appear in an English newspaper, the *Standard*, or the *Times*, or some such paper, and either a telegraphic summary of that might be sent out to India to some of the leading Anglo-Indian papers, or when the mail comes it might be copied by the newspapers in India. The leakage may have taken place, not in Calcutta, but in the Secretary of State's office in London. If such information has been published in England, and has been copied by any paper here, or a telegraphic summary has appeared in any paper here, under the law as it is now proposed to be amended this becomes an offence. Now, my Lord, the essence of an offence under this Act is *publication* and not publication *here in India*. If, therefore, the information has already been published anywhere else, then there really should be no objection to a newspaper in India re-publishing it; and

to penalize such re-publication is to restrict the freedom of the Press most unjustifiably, as there is no question of secrecy now involved. I therefore submit, my Lord, that this exception should be added to the proposed clause

"One word of explanation is necessary. It may be said that under the words 'outside British India' some newspaper in a Native State or foreign territory in India, might publish something which the Government of India wants to keep from the public, and then some newspaper in British India might copy therefrom. Well, I am not keen about extending the benefit of this exception to newspapers in Native States, if Government object to that, and for the words 'British India' in my proposed amendment I am prepared to substitute the word 'India'.

The Hon'ble SIR ARUNDEL ARUNDEL said :—" I am not prepared to accept this amendment even with the exception that the Hon'ble Mr. Gokhale has made. If he really thinks that any information which has been published in the *Standard* or any other paper in England would when reproduced in an Indian newspaper expose the editor to prosecution, he must have a very lively imagination.

" The amendment is open to the very obvious objection that the law might be defeated by publishing the official secret outside British India with the view of publishing it within British India immediately afterwards. Newspapers in Goa or in any Native State or in Pondicherry could be utilized for this purpose, and the editor might not even be aware that the publication of the information within British India would be an offence under the law, and that his newspaper was being utilized for improper ends."

The motion was put and negatived.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that after clause 3 of the Bill as amended the following new clause be inserted, namely :—

" 4. In section 4, sub-section (*1*), of the said Act, the words 'in the interest of the State or otherwise' shall be omitted,"

and that the present clauses 4 and 5 be re-numbered clauses 5 and 6. He said :—" This amendment is based upon the same principle as No. 29, which has already been accepted by Council."

The Hon'ble SIR ARUNDEL ARUNDEL said :— " This is a consequential amendment and I accept it."

The motion was put and agreed to.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 4 of the Bill as amended, in the proposed section 6, from sub-section (*2*) the words " to the nearest police-station or ", and from sub-section (*3*) the words " to a police-station or " and " police station or ", be omitted.

He said :—" Sub-section (*1*) of section 6 provides that when a person has been arrested, he is to be taken either to the officer in command of the nearest military station or to a Magistrate of the first class. Sub-section (*2*) goes on to provide, that if the first contingency happens, *viz.*, if the offender is taken to the proper military officer, such military officer may either discharge the offender or send him either to the nearest police-station or to the Magistrate of the first class. I confess I do not like the idea of the person arrested being taken to the police-station. It is enough to say that no advantage is likely to accrue to the accused, at any rate by his being taken to the police-authorities, who cannot release him on bail, a Magistrate of the first class being the only person who can release the accused on bail; it would thus seem that such Magistrate is the proper person to whom he should be taken."

The Hon'ble SIR ARUNDEL ARUNDEL said :—" I think, my Lord, that the Hon'ble Member misunderstands the position of affairs here. When a person is taken red-handed in a fort for some offence under the law, he is taken before the officer for the time being in command at the nearest military station, or before

a Magistrate of the first class. If he is taken before the officer in command of the fort and that officer does not discharge him, the obvious thing for him to do is to send him to a police-station and then send him before a Magistrate. Otherwise it would be necessary for the officer commanding the fort to detail a military escort and send the arrested person perhaps for many miles to the nearest first class Magistrate, and therefore it is that this provision of the Bill has been framed. I may say that whatever criticisms have been directed against this Bill hitherto have related to civil affairs and the naval and military provisions have been accepted as necessary for public and imperial safety. I think therefore it is unfortunate that the Hon'ble Member has interfered with these questions. The Hon'ble Mr. Gokhale, who is not supposed to be needlessly reticent in the expression of his opinion on matters of public importance and the other non-official members on the Select Committee, have unanimously accepted the provisions for naval and military concerns, and I hope this Council will endorse our conclusions."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said that after the observations of the Hon'ble Member he would not press the amendment.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 4 of the Bill as amended, in the proposed section 7, for sub-section (*1*) the following be substituted, namely:—

"(1) Every person charged with an offence against this Act shall be tried by a jury before a High Court or a Court of Session."

He said:—"The principal reason which leads me to advocate the trial of offences against this Act by a jury before a Court of Sessions or a High Court is to be found within the Bill itself as amended by the Select Committee. The Bill provides [illegible] be of such a confidential nature that the public [illegible] interest would suffer by their disclosure, and the original Act itself, in more than one place, provides that the disclosure, in order that it may constitute a criminal act, must be a disclosure to a person to whom any disclosure is contrarry to the interest of the State or of the public interest. The determination of questions like these is peculiarly within the province of the jury. Persons holding high offices under the Crown may be put into the witness box to testify on behalf of the prosecution that a particular disclosure has been contrary to the public interest. Whether such high officials in the hands of a skilful Counsel may not be made to disclose in the course of cross-examination many more official secrets, I will not pause to discuss; but I venture to point out that in State prosecutions, and specially in cases like the present, in which the test of criminality is whether or not the public interest has been affected, a trial by jury is more likely than any other mode of trial to secure justice to the accused."

The Hon'ble Sir ARUNDEL ARUNDEL said:—"The Hon'ble Member here proposes a startling advance on anything suggested by the non-official members of the Select Committee or even so far as I know by any of the newspapers in the country He proposes an entirely new departure in the matter of trials by jury, for at present there is no offence which must be tried by a jury in every part of British India.

"Under the existing Act any Court has power to take cognizance of an offence under the ordinary rules, but in order to make sure that only a Magistrate of experience should deal with such cases, the Select Committee limited magisterial cognizance to Magistrates of the first class, that is to say, to Magistrates possessing full powers. Offences under sections 3 (*1*) and 4 (*2*) (*b*) of the Act are punishable with a maximum of only one year's imprisonment or with fine or with both, and it would be altogether unsuitable to send such cases for trial to a High Court or a Court of Session. There would also be inordinate delay owing to the fact that the sanction of Government to the trial must always be obtained, and that will involve initial delay, and an exaggerated importance would be attached to prosecutions under the Act."

The motion was put and negatived.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 4 of the Bill as amended, in the proposed section 7, for sub-section (2) the following be substituted, namely:—

"(2) A prosecution for an offence against this Act shall not be instituted except by or with the consent of the Governor General in Council."

He said:—"The object of this amendment is twofold; *first*, to secure the restoration of the provision of the law that a prosecution for an offence against the Act shall not be *instituted* except with the consent of the proper authority previously obtained; *secondly*, that the consenting authority should be no other than the Government of India. So far as the first object is concerned, I have no hesitation in expressing my opinion that the change introduced by the Bill is peculiarly unfortunate. Under the law as it stands, before a prosecution can be instituted, the sanction of the Government must be obtained, under the law as it is proposed to be altered, authority is given to Courts to take what is called preliminary action pending the orders of the Government as to whether the alleged offender is to be put on his trial. Under these provisions, it is quite conceivable that a supposed offender may be arrested and, if unable to find heavy bail demanded from him, may rot in jail till such time as the Government may find it convenient to determine whether he is to be put on his trial. If, my Lord after this worry and ignominy, Government determines that there is no case for a prosecution and that the man is not to be put on his trial, I should like to know what reparation the Government proposes for the injury wantonly caused. If we look to the provisions of the Indian Penal Code and the Criminal Procedure Code, we shall find that before a prosecution can be instituted in respect of offences of the gravest character against the State, the previous sanction of the Government has to be obtained. It we turn to the English Official Secrets Act, we find that a prosecution under that Statute cannot be instituted except with the consent of the Attorney-General. It is clear, therefore, that the change which is sought to be introduced is opposed to the principle which underlies the English Statute and is also recognised in the Criminal Codes of this country. It will no doubt be convenient to the prosecution, but it cannot be maintained that any plausible case has been made out for the adoption of this wholly unjustifiable provision.

"So far as the second object of this amendment is concerned, I am anxious that the Government of India should be the only authority at whose instance a prosecution can be instituted. This restriction would undoubtedly diminish the chances of hasty and uncalled-for prosecutions under the Act. Moreover, if the criterion in every case be whether or not the interest of the State has suffered by the disclosure of a particular information, the Government of India—which is the highest authority in the State—rather than any of the Local Governments would be best in a position to determine whether there is any justification for institution of proceedings under the Act."

The Hon'ble SIR ARUNDEL ARUNDEL said:—"With regard to the first point of the Hon'ble Member's amendment, I would say that he is again encroaching upon the question of naval and military affairs which we always endeavour to keep distinct from civil affairs. With regard to offences under civil affairs, the whole of the Hon'ble Member's criticisms fall to the ground because they are non-cognisable, and so no action can be taken without the formal application to a Magistrate for a summons.

"With regard to naval and military affairs, it would never do to have this alteration if the legal criticisms are correct.

"The existing Act (section 5) runs: 'a *prosecution* under this Act shall not be *instituted* except,' etc.

The Bill runs '*no Magistrate or Court shall proceed to the trial* of any person,' etc. This was in order to prevent any difficulty arising in connection with the jurisdiction of the Magistrate, before whom an accused person is brought, to deal with the case, *i.e*, to remand the man to jail or as now to admit him to bail.

"Lawyers are not quite certain at what point a *prosecution commences*. It might be contended that it began with the arrest of the accused. If this be the case, the amendment now proposed would nullify the Bill as regards immediate

action in cases of military and naval offences. For these reasons I must oppose the amendment in regard to both items."

The Hon'ble RAI SRI RAM BAHADUR said —"My Lord, as the amendment to be moved by me and standing next in the Agenda paper is substantially the same as the one proposed by the Hon'ble Dr. Asutosh, with Your Excellency's permission, I beg to say a few words on this motion. The term 'Local Government' as defined in the General Clauses Act (Act X of 1897) has a very wide meaning and in certain cases includes Political Officers also. It is not advisable to leave the starting of prosecutions under the very elastic terms of this Bill to such officers. Disclosure of official secrets relating to matters of local significance—though the matters may not be of a character the disclosure of which would be detrimental to the interests of the State—may be regarded by such officers as fit cases for prosecutions under the Act. There is the possibility of the officers of this class taking a biassed view in such cases. In order to guard against possibilities like these, it is advisable that the granting of sanction to initiate prosecutions under this law should rest in the supreme authority in the State and not in any local authority."

The motion was put and negatived.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 4 of the Bill as amended, in the proposed section 7, sub-section (2), the words "Magistrate or" be omitted.

He said —"The reason for this amendment is obvious, the word 'Court' includes a Magistrate, and, consequently, the words 'Magistrate or' are wholly superfluous."

The Hon'ble SIR ARUNDEL ARUNDEL and the Hon'ble MR. RALEIGH advised the acceptance of this amendment.

The motion was put and agreed to.

The Hon'ble SIR ARUNDEL ARUNDEL moved that the Bill, as amended, be passed. He said:—"In moving that this Bill as amended be now passed I would briefly summarize the changes that have been made in it since its first introduction with a view to removing valid objections that have been urged against it.

"A definition of 'civil affairs' has been added limiting them to—

(*a*) affairs affecting the relation of His Majesty's Government or of the Governor General in Council with any Foreign State, or

(*b*) affecting the relation of the Governor General in Council with any Native State in India or relating to the public debt or the fiscal arrangements of the Government of India, or any other important matters of State, where these affairs are of such a confidential nature that the public interests would suffer by their disclosure.

"The word 'office' has been removed from section 3 (*1*) (*a*) (*i*) of the Act and relegated to clause (*ii*), so that the entering of an office cannot be construed as an offence.

"The words 'for the purpose of wrongfully obtaining information' have been restored in the same section, but to meet the difficulty—if not impossibility—of proving wrongful intention, the Bill now provides that where a person committed an act specified in sub-head (*a*) of sub-section (*1*) without lawful authority or permission—the proof of which authority or permission shall be upon him—the Court may presume that he has committed such act for the purpose of wrongfully obtaining information.

"All offences with regard to civil affairs have now been made non-cognizable and bailable.

"With regard to military and naval offences the right of arrest has been limited to public servants, and the offences have been made bailable. Jurisdiction under the Act has been limited to Courts of Session and Magistrates of the first class, who also possess authority to discharge an accused person if there is no *primâ facie* case against him. This power of discharge is also possessed by a commanding, naval or military officer with respect to a person brought before him. The final safeguard is that no Magistrate or Court can proceed

to the trial of any person for an offence under the Act, whether naval, military or civil, except with the consent of the Local Government or the Governor General in Council.

"With regard to newspapers in particular I think all reasonable protection is given by providing that a person must not wilfully communicate information relating to the naval, military or civil affairs of Government to any person to whom he knows it ought not in the interest of the State to be communicated *at that time.* Editors of newspapers claim to fulfil a public duty and function in disseminating information, and therefore should not be reluctant to bear the limited responsibility as to public affairs which is thus placed upon them, and which can be a burden to no right-minded person. Public officials are equally responsible under the Bill before us and rightly so. I cannot but think that much of the newspaper opposition to this Bill as amended by the Select Committee—and outside this Council there has not been much else—is, I will not say, factitious, but based on misconception, and I can only regret that our critics cannot regard the need for secrecy, permanent or temporary, in many civil affairs from the same point of view as Government. The Bill as now amended gives the fullest protection to every innocent person, and it would only be after careful consideration and with much reluctance that Government would consent to the prosecution of a person who appeared *primâ facie* guilty of some serious breach of the provisions of the law."

The Hon'ble DR ASUTOSH MUKHOPADHYAYA said:—"My Lord, though there has been a somewhat prolonged debate over the provisions of this Bill, I find myself unable to give a silent vote upon the motion now before us. The circumstances connected with the passage of this Bill through the Council have been of an exceptional character, equalled only by the exceptional character of the provisions which are embodied in the Bill. The Bill was introduced into the Council on the 28th August, 1903, and immediately after the Statement of Objects and Reasons for the new legislation was made public. My Lord, I feel it my duty to say that, though some of the objects of the Bill were made tolerably plain, the reasons were singularly few and obscure. Indeed, a superficial reader, either of the Statement of Objects and Reasons or of the speech of the Hon'ble Member in charge, might easily be left under the impression that the proposed legislation was of the most harmless and inoffensive character This, my Lord, is fair neither to the public nor to the Government. As Your Excellency was pleased to explain in Council on the 18th December, there has been no hurry about this legislation and the matter has been under consideration for very nearly ten years. It is natural to assume that the Government must have, at its disposal, materials which in the opinion of the Government, justify new legislation of such exceptional character. In fairness to the public, the Government ought to have placed these materials before them, specially when their interest is to be so seriously affected. My Lord, I confess that I labour under a weakness in that I prefer facts to assertions even when these assertions come from the highest official authorities. To my mind, it would have been more satisfactory if, instead of vague allusions to defects alleged to have been disclosed by experience, concrete illustrations had been given of the instances in which the existing law had failed or had been found to be defective or inoperative. I maintain, therefore, that no foundation has been laid on the solid basis of facts for this new piece of legislation, and I am almost tempted to draw the inference that if the facts and all the facts had been published, they would not have justified such of the provisions of the Bill as are open to the gravest objection.

"But if, my Lord, an extraordinary reticence was observed in the initial stage as to the reasons for this legislation, the circumstances under which the Bill was referred to the Select Committee were still more singular. The second reading of the Bill is the recognised occasion on which the principles of the measure have to be discussed. Two of our Hon'ble Colleagues—the Hon'ble Nawab Saiyid Muhammad Saheb Bahadur and the Hon'ble Mr Gokhale—vigorously challenged the whole policy of the Bill, and their challenge was met practically by a refusal on the part of the Government to enter into any discussion of the principles of the measure. I will not pause to discuss the wisdom of such a course, but I will

add this much, that reticence like this is not calculated to inspire public confidence or to induce the public to believe that the Government was still prepared to listen to its reasonable representations. Meanwhile, the proposed measure had been examined and criticised by the public, and it would be idle to deny that it had met with the unqualified and unanimous disapproval of the entire non-official community But the public feeling which had been aroused in connection with the Bill, and to which emphatic expressions had been given in many quarters, was considerably appeased by the assurance given by Your Excellency that the Government was prepared, if convinced of the unsuitability of the language, to alter it, if proved to be guilty of obscurity, to correct it, and if shown to have gone too far, to modify their plans. My Lord, it is useless to conceal the fact that the disappointment of the public has been as keen as the expectations which Your Excellency's assurance had raised. We have it, my Lord, on the authority of the Select Committee, that substantial alterations have not been made in the Bill, for they do not hesitate to state that the Bill has not been so altered as to require re-publication. But I frankly concede that although many substantial improvements have been introduced by the Select Committee, yet the portion of the Bill relating to civil affairs is still open, in spite of the proposed definition, to very grave objections. I venture to think that it is an entirely false issue to raise, to assert that with all the qualifications introduced into the Bill, conviction will be well nigh impossible except in cases of the most flagrant description The real question is, is the language of the proposed enactment, in spite of an apparently elaborate definition, so uncertain, is its scope so unnecessarily wide, that it may catch in the net of criminal legislation persons who ought not to be prosecuted and thus effectively hamper the right of free public discussion? I have no hesitation in stating, that whatever the intentions of the Government may be, the provisions of the Bill will operate as a serious menace to journalism in this country. I cannot help thinking that this endeavour to invest with a secret character, information relating to civil affairs, indicates a sense of weakness in the governing body and also perhaps an unconscious tendency to avoid legitimate unfriendly criticisms. If there is any country in which the right of free public discussion is essential to good government, it is India, and there cannot be any reasonable room for doubt that the alarm which has been raised by eminent journalists of unquestionable repute, both European and Indian, is thoroughly well-founded.

"My Lord, I will only add that this measure has not merely met with the disapproval of the non-official public, but has been regarded as objectionable even in the highest official quarters. I will only read out the opinion of His Majesty's Judges of the Calcutta High Court which is significant in its brevity:—

'The Judges find it difficult to criticise the machinery by which it is proposed to attain the objects of the Bill without dealing with the questions of policy with which the Bill is concerned; and upon those questions they do not feel it to be within their province to touch. They, therefore, do not desire to offer any observations in detail upon the provisions of the Bill. They, however, at the same time, consider that certain of the provisions of the Bill are open to very grave objection.'

"One would have thought, my Lord, that expression of opinion like this would make the Government pause and reconsider the situation. We live, however, apparently in strange times when Government seems determined to push on this piece of repressive legislation which will be a standing menace to the liberty of the Press and to the fearless and honest criticism of State policy and which, however welcome it might have been in the middle ages in some semi-civilized country, would be a serious blot upon the Statute Book in any part of the Empire of Britain in the beginning of the twentieth century, and our regret, my Lord, is all the keener, that this has happened during the administration of Your Excellency who has ever followed the best traditions of English statesmanship in inviting public criticism even when such criticism was known to be unfriendly to the policy of the Government. I therefore deem it my duty to record my most emphatic protest against this Bill, though I might have supported it if it had been limited in its operation only to naval and military matters."

The Hon'ble NAWAB SAIYID MUHAMMAD said:—"My Lord, I have to make only a few observations before the motion is put to the vote. It is neces-

sary to recollect that, so far as naval and military affairs are concerned, there has been no disposition on the part of any of my Hon'ble Colleagues of the Select Committee to take exception to any provision that Government may consider necessary for the protection of State secrets connected with those affairs. There has also been a unanimity of opinion as regards 'civil affairs' in so far as they affect the relations of His Majesty's Government or of the Governor General in Council with any Foreign State. The only difference of opinion—and I must say it is an important one—is in regard to an indefinite and comprehensive provision in sub-clause (*b*) of the definition of 'civil affairs', and the publication by newspapers, under certain conditions, of information connected with Native States in India. And I regret that this difference still remains

"After carefully listening to all the arguments in favour of the words 'or any other important matters of State' I am unable to persuade myself that a case has been made out for their retention in the definition of 'civil affairs.' The opposition to this measure is not due to any apprehension that newspaper editors and others who happen to write or speak about public questions will have to reckon with the law directly the Bill is passed, but the fact remains that, at any time and more especially at a time of panic or irritation, the provisions of this measure may be enforced with the rigour which the letter of the law would permit. I submit that the Government should be well satisfied if State secrets connected with naval and military and even international or political affairs are safeguarded leaving their own civil affairs free for discussion and criticism, which have always, in the long run, benefited the Government as well as the public. Instead of thus curtailing the liberty and limiting the usefulness of the Press, the Government should, in my humble opinion, apply their remedies directly to the root of the evil by exercising greater control over their subordinates and by strict departmental discipline. As none of the important amendments has been accepted by the Council and as the Government have not been pleased to reconsider the position taken up, I regret I shall have to vote against the motion now before the Council."

The Hon'ble MR. GOKHALE said:—"My Lord, the motion now before the Council is only a formal one. But as it marks the conclusion of our discussion of this important measure, I would like to say a few words. My Lord, I greatly regret that Government should not have seen their way to accepting even a single one of the more important amendments of which notice had been given. This is the first time within my experience that a legislative measure has been opposed by all classes and all sections of the public in this country with such absolute unanimity. Of course with our Legislative Councils as they are constituted at present, the Government has the power to pass any law it pleases. But never before, I think, did the Government dissociate itself so completely from all public opinion—including Anglo-Indian public opinion—as it has done on the present occasion. I recognize that the responsibility for the good administration of the country rests primarily on the shoulders of the Government. But it is difficult to allow that this responsibility can be satisfactorily discharged, unless the Government was supported in its legislative and executive measures by some sort of public opinion. My Lord, Your Lordship has often declared that it was your constant aspiration to carry the public with you as far as possible in all important acts of your administration. I do not think it can be said that that aspiration has been in the smallest degree realized in the present case. The whole position is really most extraordinary and very painfully significant. Here we had a law, already in force, identical in character and identical in wording with the law obtaining in the other parts of the British Empire. The British Government in England, with its vast naval and military concerns and its foreign relations extending over the surface of the whole globe, has not found its law insufficient for its purpose. How then has the Government of India, with its more limited concerns, found it necessary to make the law more drastic in India? The explanation, I think, is simple. It is that while in England the Government dare not touch the liberty of the Press, no matter how annoying its disclosures may be, and has to reconcile itself to them as only so much journalistic enterprise, in India the unlimited power which the Government possesses inclines it constantly to repressive legislation. This single measure suffices to illustrate the enormous

difference between the spirit in which the administration is carried on in India and that in which it is carried on in England. My Lord, as the Bill is still open to serious objection, I must vote against this motion to pass it."

His Highness THE AGHA KHAN said —"When I entered this room I had not intended to do more than give a silent vote, but having been one of the members who had the honour of serving on the Select Committee I feel after the speeches we have heard that I ought to make a few remarks explaining why I approve of this measure, and why I gladly support it. The Bill as it now stands in my humble opinion does not threaten any one but a conscious offender. It only gives the Government the power to bring before the proper judicial authorities such persons as deliberately publish important information the publication of which is opposed to public interests and likely to injure the civil and military interests of the State.

"My Lord, I don't see how any one can feel any sympathy for such an offender. Of course, if the publisher is innocent and wrongfully prosecuted, the Law Courts will not punish him. The statement that Magistrates are not independent is to attack the very foundations of our judicial system. If such assertions are correct, the whole system of justice is radically wrong and requires immediate reform.

"My Lord, if the judicial authorities are competent to try the various criminal cases which come before them, surely they are competent to try cases arising from this Bill.

"For these reasons and after careful study of the measure, I am convinced that no innocent person will ever suffer by the passage of this Bill, while when the Bill is passed it may help to bring before justice some conscious offender, and I, therefore, support it.

"I have tried very hard to find some radical defect in the Bill, but don't find it defective, and the speeches of the Members opposed to the Bill leave me unconvinced as to the reasonableness of the opposition to this useful measure.

"Nothing in the Bill is more necessary in my humble opinion than the clause that guards important transactions between the Imperial Government and Feudatory States from being made public, and thus injuring the best interest of the Imperial as well as of Feudatory Governments.

"For these reasons I gladly support the Bill."

The Hon'ble RAI SRI RAM BAHADUR said:—"My Lord, I regret that the Bill as it stands now is not free from serious objections, and hence I am unable to give my vote in support of the motion to pass it. All the important amendments moved by the non-official Members have been rejected by this Council.

"My Lord, since the Vernacular Press Act of 1878, which was passed by the Government of Lord Lytton, and repealed under the regimé of his successor in 1882, no public measure affecting the liberty of the Press has created such a feeling of unrest throughout the length and breadth of the country and evoked so much hostile criticism from the public, as this Bill has done. The scope of the Act of 1878 was confined to the Vernacular Press only, but this Bill, if passed, will apply not only to newspapers conducted in the Oriental languages but also to those published in English. Thus both the Indian and Anglo-Indian Press will come within the scope of this legislation.

"My Lord, it is the existence of some grave emergency alone which can justify the introduction, and much less the passing, of a legislative measure like this. But no case of such necessity has been made out either by the speech of the Hon'ble Member in charge of the Bill, delivered at Simla, or any other official utterance made since then. The Statement of Objects and Reasons also does not throw much light on the subject. No concrete instances have been cited in which the existing law has failed to secure the desired object.

"The Bill, if passed, would unnecessarily interfere with the liberty of the subject and the freedom of the Press. The public expected that before such a measure is passed it ought to have been justified by the production of evidence that privileges hitherto enjoyed by the public Press have been abused and that it has been guilty of publishing official secrets relating to civil affairs which have prejudiced the Government or the public interest.

"The Indian Official Secrets Act, as already stated by me this forenoon, is only a reproduction of the Parliamentary Statute of 1889. The British Parliament has not found it necessary to even consider the desirability of making any such changes as now proposed by the Indian Legislature. The English Act is in force in the whole of the British Empire. Had that Act not proved effective in any respect, and had any real necessity been found to exist, Parliament would have felt itself bound to modify it.

"My Lord, the new provisions which are proposed now to be embodied and the alterations to be made in the Act of 1889 will materially affect the liberty of the Press in this country, both English and Indian, and will thus introduce a change on a very important subject which it is submitted was not contemplated at the passing of the English Statute, the prototype of the Indian Act.

"A reference to the Parliamentary debate and the proceedings of the Standing Committee on Law, when the English Act was passed, shows that it was the intention of the British Legislature that newspapers should not come within the operation of the Act. When the Bill came before that Committee, Lord Thring suggested that some punishment ought to attach to newspapers publishing such information. The remarks made by the Chairman of the Committee and Viscount Cross show that it was not intended that newspapers publishing such information should come under the Act.

"Another serious objection against the amended Bill is that it ignores altogether the way in which the information may have been obtained. It would make persons publishing any information, the publication of which may appear to Government undesirable, liable to prosecution, whether they had obtained that information innocently or not. The newspapers published in British India will be placed in a specially precarious condition in publishing information relating to Native States. The editor of a newspaper might receive the information from the Native Chief himself that the Government intends to pass certain orders or take some measures regarding him or his State. The editor, believing that the orders, if carried out, or the measures, if taken, would cause grave injustice, and with the view of preventing such injustice, may criticise them in his newespaper. But under the provisions of the Bill no amount of good intention would be of any avail to him if the Government considered that the publication of the matter affected its relation with the Native State.

"The expression 'public interest' is capable of being interpreted with the greatest elasticity. To one set of persons public interest may appear identical with the interest of the people, whilst according to the official view generally, public interest would mean interest of the Government for the time being.

"Further it is impossible to lay down any criterion as to what should or should not be considered 'affairs of such a confidential nature' that 'the public interest' would suffer by their disclosure. Even the insertion of the word 'important' before the expression 'matters of State' in the definition of 'civil affairs' in sub-clause (*b*), just now made on the motion of the Hon'ble Member in charge of the Bill, would not remove this difficulty The word 'important' is capable of being interpreted with as much elasticity as the expressions noticed above. The evidence of an officer of the department of Government who may start the prosecution, coupled with the fact that such prosecution was undertaken with the sanction of Government, will be sufficient to influence the judgment of the presiding officer of an average Indian Court in the mufassal.

"The Indian editors of newspapers will be placed in a more disadvantageous position than their Anglo-Indian *confreres*, as the trial of the latter will be by jury, a privilege which will not be enjoyed by the former.

"My Lord, the Bill, as amended, if passed into law, will tend to curtail to an unnecessary extent the freedom of the Press and will be harmful to the interests of the public. Instead of placing a piece of legislation of such objectionable character on the Indian Statute Book and thus adopting the policy of penalizing the publication of information relating to matters of public interest, the more proper and efficacious course to be followed by Government would

be to exercise a greater and more effective control over its subordinates, as has been observed by some of the speakers who have preceded me.

"My Lord, had the scope of the Bill been confined to matters relating to military and naval affairs only, it would not have been open to the serious objections urged against it. The speakers who have just addressed the Council against this motion have very eloquently and cogently given the reasons why this Bill should not be passed into law. I fully endorse the views expressed by them and vote against the passing of the Bill."

His Honour THE LIEUTENANT-GOVERNOR said:—"I just wish to make one or two remarks on the Bill, because I do not think that it would be quite right for me to give a silent vote in support of it. In the first place, I should like to say very clearly and definitely that I have a strong conception of the existence of the evil which this Bill is intended to meet. I have sympathy with the Hon'ble Mr. Morison, who comes from the United Provinces, in not realising as clearly the necessity for the Bill as men who are accustomed to work here I suppose that the work in the United Provinces is very much akin to what I had to do in the Central Provinces, where the Press is not very numerous, not very strong perhaps, and not very inquisitive. But since I have come to Bengal I have felt that there has been a great evil in respect of the relations between Government offices and the Press. I do not wish to enter into any detail, but I desire to state this, that I have found papers given perfectly freely to the Press which were marked confidential, I have found notes relating solely to the conduct of cases in the offices commented on in the newspapers; I have found demi-official letters which I have myself written finding their way to the Press, so that I have actually adopted the rule when I write a demi-official letter of keeping the copy in my own office box, instead of placing it in the office file. That of course makes me do precisely what a business man would do, as we have heard, in respect of correspondence affecting his business, but I need not say what an immense, what an intolerable, increase of work and responsibility and burden it means when I am unable to use my office for this legitimate purpose. Now I think, my Lord, in the first place, that this is due, or largely due, to the fact that there is no conscience whatsoever with regard to communication of confidential information; and I think that this is due partly to the fact that, whatever may have been intended, it was believed that it was no offence to communicate civil secrets. And, if there is one thing which this Bill will achieve which will be of advantage, it will be that it will enable people to understand that it is an offence to communicate important confidential affairs without the authority of the officer who is competent to give such authority.

"Then I wish to say distinctly that I entirely agree, to a certain extent, within certain limits, with the view that many officers do not exercise sufficient control over their offices I propose certainly to endeavour to introduce some reform in this way, but the idea that we should meet this by turning our public offices into private offices, and by putting constables and policemen to turn off everyone who was not able to disprove himself an idler, indicates, I am afraid, a very great want of appreciation both of the manner in which such work would be done by the police, and also of the view which would be entertained by the public generally of any such proposal. And I would also say that we cannot under the circumstances of public offices, and the necessity there is for putting everything on record, as has already been pointed out—we cannot meet the difficulty merely by controlling our offices: we must emphasise our right to prevent the theft of official secrets; and we must be able to interfere when gross and flagrant offences occur. I wish to say that this is the point on which I take my stand. It has been admitted on all sides by this Council that the Government have a right to keep their own secrets. That is a thing which we all admit, but it is not a thing which we enforce. But it is theft to take them away, and this is done habitually. It is done by inducements being offered to men to give information: it is done by the readiness with which illicit information is received; and it is sometimes done altogether against the public interest. And here I think that we have a fallacy which has come more than once into the discussion. The public interest is one thing, and the interest of a section of the community is another; and I feel very strongly upon

this point, that these revelations which have been made of our official acts and of our discussions of great public questions, while they were still going forward, have sometimes been contrary to the public interest although they may have been in the interest of a section of the community which was prepared to pay for them.

"The last thing which I should like to say is this, that I am astonished to find my Hon'ble friend Dr. Mukhopadhyaya speaking of this Bill as a serious menace to journalism in India. The menace, as he himself defines it, is this, that the editor must decide whether the information which he is about to publish is of such a confidential nature that the public interest will suffer by its publication. That is to say, what is going to take place is this, that an editor will be called upon to think before he publishes something whether it will injure the public interests to publish it. I think that that will be a very great advance in journalism in certain parts of India, and I think that it is an advance that ought to be secured, and the Bill secures it without running any risk whatsoever.

"I took exception some time ago to certain provisions of the Bill. These have been amended, and I am surprised to think that Hon'ble Members should come up and say that the Bill is exactly as it stood before, and that nothing has been yielded to criticism, when we have, in respect of civil affairs, the great change which has been already effected in the Bill. Still, while the Bill is being read we hear Hon'ble Members speaking of the Bill as providing for the suppression of publication in regard to 'other matters of State.' They do not go on to point out that there is a safeguard in that very clause, where these affairs are defined to be 'of such a confidential nature that the public interest would suffer by their disclosure.' I believe it is of the essence of the case that this proviso should have been introduced it is also of the essence of the case to notice that under section 5 offences in regard to civil matters are not cognisable: it is also of the essence of the case to notice that under section 7 the consent of the Local Government is required for a prosecution. What I especially desire to say, my Lord, is this, that we cannot meet this evil which exists without creating certain conscience in regard to these matters; and it is most desirable to make it an offence to publish information which it is contrary to the public interest to publish. On the other hand, this Bill, while publishing this declaration, and making this an offence, is so carefully safeguarded that there can be no honest or legitimate interest that can in any way suffer loss."

His Excellency THE PRESIDENT said:—"I should like to make certain observations in summing up this debate. I have observed a marked and agreeable contrast between the tone of the speeches that have been delivered today and that have been characterised by very general moderation, and the criticisms of this Bill that were popularly made when it was first introduced, and that have even survived in some quarters up to the eleventh hour. I attribute this contrast to two reasons. In the first place, the modifications that we have introduced into the Bill have, I believe, removed the greater part at any rate of the objections that were entertained to it; and nowhere, I am sure, is the difference between the Bill as it was originally framed, and the Bill as it is now, better appreciated than by the acute intelligence of the Hon'ble Dr. Asutosh, though in his concluding speech he affected to shut his eyes to the fact. Secondly, it is my experience that it is much more difficult to make exaggerated statements at this table than it is to write them in the Press. For here an answer is possible, and both sides of the case are heard. This is the first occasion upon which the Government have had an opportunity of stating their case upon the details as well as the principles of this Bill, and I think that as a result of this discussion it stands out in a different and clearer perspective.

"Nevertheless, we have had in the debate that has just closed an echo of some at any rate of the apprehensions and alarms that found such wide expression in the earlier phases of the case. To these I desire, before we take the final vote upon the Bill, to offer some reply. Though I think, and have already argued, that the Bill is a necessary, and is certain to be a useful, measure in practice, I am not one of those who regard it as an extremely important or a heroic piece of legislation. It most certainly does not mark, on the part of the

Government of India, any sudden change of policy, or desire to enter upon a course either of official secrecy or of anxiety to punish or proscribe those who may not agree with them. As I remarked when I spoke on an earlier stage of the Bill, it is a measure that has long been on the stocks, with a view to remove the anomaly of the present situation under which, as I shall presently show, the existing Act was intended to do something which most authorities are agreed that it does not do and it was an accident that the actual amending Act was proposed this year rather than at any time during the past six or seven years. Ever since the Act of 1889 was passed it has been inoperative, both here and in England, owing to the extreme ambiguity and carelessness of the language that was employed. It was long ago decided to revise the Act in India, whenever the occasion presented itself, and I think it would be found that the same question has been discussed in England, though the conditions of Parliamentary life render it difficult to carry through the House of Commons any measure that is not imperatively called for by the political exigencies of the hour. The Government of India desired to amend the Act for two reasons; firstly, because in practice they had found it to be absolutely useless in the naval and military cases which it was supposed to cover, and, secondly, because they had been informed by their legal advisers that it could not be put into operation in any civil cases, should this require to be done, owing to the extremely imperfect way in which it had been framed. Now it does not appear to me to be good statesmanship to leave a measure which, owing to such causes as these, has become a dead letter, on the Statute Book, any more than it is good horticulture to leave a dead bough o na tree. The Act required amendment some time or other, and the opportunity was taken to amend it. I readily admit that we did not at first proceed very skilfully about it. When a Bill is badly drawn in the first place, it is very difficult to amend it by a well-drawn Bill, and I think that our first attempt was open to well-merited criticism. I am far from claiming that this is a perfect Bill now. But, at at any rate, it expresses what the original Act meant very much better than the original Act expressed it, while by virtue of its greater precision of language it should be less and not more obnoxious to those who resent any interference by the State at all.

"It will be obvious from what I have said that the Government mainly rest their case on the proposition that the Act of 1889 was intended to cover civil secrets, though it failed to do so; and that we are merely, therefore, carrying out the original intention, though we are doing it in a manner that affords, as I have said, greater protection to the individual than was ever contemplated in 1889. That this view of the original object is the correct one, is, I think, incontestable. I was in the House of Commons in 1889 when the Bill was passed in England. In so far as it was explained at all, stress was laid, as the Hon'ble Sri Ram Bahadur has pointed out, upon the naval and military origin of the Bill. But nobody paid much attention to it; and it passed through almost without comment. In the House of Lords, however, the Lord Chancellor clearly stated that the objects of the measure were two-fold, namely, first, to punish the disclosure of naval and military secrets, and, secondly, the disclosure in certain circumstances of official secrets. The Lord Chancellor only described one set of circumstances, but it is quite clear from his remarks that he did not regard the Bill, as claimed by the Hon'ble Mr. Gokhale, as exclusively confined to naval and military affairs When the Bill was enacted in India in the same year, the Indian authorities were much more explicit: though I observe that the critics of the Bill today have observed a judicious silence as to what was said on that occasion. Sir Andrew Scoble, who has been quoted, spoke in the most clear and unmistakable way. He said that the offences which the Bill was intended to reach were the wrongful obtaining of information in regard to any matter of State importance, and the wrongful communication of such information. How in the face of this is it possible for any one to argue that the Indian Act of 1889 was not expressly intended to protect civil secrets? Lord Lansdowne was scarcely less explicit, for he based his defence of the measure exclusively upon the publication in a native newspaper of a garbled version of a confidential note by a high officer of Government, not about naval or military matters, but about the policy of the Government of India towards Kashmir, and he said that this was an illustration of the

kind of malpractices against which the Bill was directed, and that it should be generally known that the new law was intended to be put in force in such cases in future. If this were not clear enough by itself, I might refer to the title of the Act, which was not Naval and Military Secrets Act, but Official Secrets Act, and to the preamble, which recited the expediency of preventing the disclosure, not of naval and military secrets, but of official documents and information. The same inference is to be deduced from the language of the Act about offices and official places. Indeed, it is really inconceivable that anyone should hold an opposite opinion.

"Now, having, as I think, conclusively established that the Act of 1889 was directed quite as much against the disclosure of civil secrets as of naval or military secrets, I want to put the question —Is there a single Hon'ble Member at this table, or a single fair-minded person in this country, who would take up the position that the State is entitled to protection for its naval and military secrets, but not for its civil secrets, and that any of its citizens is to be at liberty to disclose these with absolute impunity, except in so far as they may fall incidentally under the ordinary criminal law? With all respect I say that I cannot conceive of such a position being taken up by any sensible man. It would mean that any secret treaty or negotiation might be divulged, any change in taxation let out in advance, any steps to check or defeat some insidious conspiracy revealed—for fear of invading the so-called independence of the individual, which very often means no more than the impunity to do wrong without being punished for it. We hear a good deal now-a-days about the rights of the individual, and everybody is naturally interested in defending them. But there is such a thing also as the rights of the State, and it seems to me to be part of the elementary conception of a State, *i.e.*, an organised body appointed to administer the affairs of a community, that it should be at liberty to protect its own confidential secrets. Well, then, I ask next, is there anything in the circumstances of India that should render this country exempt from the application of this simple and elementary rule? Is it not notorious that this is a country where it is very difficult to keep matters confidential, and where there are frequent and sometimes most reprehensible disclosures? Till the Bill was introduced I never heard of anybody who doubted this, and only the other day I read this passage in a Bombay newspaper, the *Bombay Gazette*, which is by no means a friendly critic of the Government of India or of the present Bill, but which speaks with an experience of the country much greater than any temporary resident here, like myself, can possibly claim —

'To say that the measure now on the legislative anvil is likely to be the terrible instrument that some critics pretend to fear, is ridiculous. That there is urgent necessity for some such measure—not essentially the same in detail as the present one—is undeniable. Information which it is in the interest of everyone of us should be temporarily kept strictly secret, leaks out, and infinite mischief is done thereby. Instances occur with great frequency. The utmost care is taken to prevent information of this class becoming known to the undue advantage of unprincipled persons, but in vain. The contents of documents are known in the bazar before they reach the person to whom they are addressed. Even "coded" telegrams are unsafe, and we doubt if there is a single journal in India which cannot quote instances in which complaints of such occurrences have reached it. As a case in point, we may mention that of the annual Financial Statement, which is again almost due. Year after year a certain number of copies are printed in the Government Press, placed under cover and sealed, forwarded to the Accountant-General in Bombay with instructions that they must not be delivered until twelve noon on the day the Statement is presented to the Council. These instructions are most religiously followed; yet the whole contents of those documents can be ascertained in the bazar the previous day, and the information to be found under the heading "Ways and Means" is publicly discussed and operated upon. Opium figures find their way into the bazar with even greater celerity, and it is a matter of common notoriety that items of greatest importance outstrip the recognised sources of communication. We are unwilling to believe that subordinate officials in Bombay are responsible. We imagine that, if the Official Secrets Bill, with all its present imperfections, were in force, it would not injure the subordinate nearly so much as we are asked to believe. The man to get at is he who, having official secrets in his possession, fills his pockets by speculation on the strength of them.'

"The argument contained in the above extract has further received the most emphatic and authoritative corroboration at the hands of my Hon'ble

Colleague Sir Edward Law and also from the Lieutenant-Governor, speaking from his own experience. I hope, therefore, now to have established three propositions. firstly, that in amending the Act of 1889, we are merely putting back into it what was always intended to be there; secondly, that the protection of civil secrets is among the primary rights of a civilised State, and, thirdly, that in India there is not less but admittedly greater need for the exercise of this right than in many other countries.

"There only remains for me to examine whether under the terms of our Bill the re-assertion of this right has been made in a manner that is likely to be fraught with any real danger to the individual. We heard a good deal in the debate this morning about the presumption of the English law that a man is innocent until he is proved to be guilty. Is there anything in this Bill that will put the innocent man in peril?

"I have said nothing so far about the concessions that we have made to public criticism in the modifications that we have introduced in this Bill: nor have I time to allude to them now. In the opinion of many of the foremost of our original critics they have taken the whole sting out of the measure. But there is one concession that I must point to with reference to the question that I have just asked. Our endeavour to define civil affairs, which were not defined at all in 1889, has been undertaken exclusively with the object of removing popular apprehension, and of restricting our own rights. But you may then reply that we have not been particularly successful. Well, from the point of view from which this remark is made, nothing I am afraid that we could do would be successful. We might go on specifying and specifying the sort of thing that is a civil affair. But however far we went, there would always be an unspecified residuum, and if this were exempted from the operation of the Act, then we should probably find the most flagrant and culpable offence of all perpetrated in the very unnamed category which we had been foolish enough to omit That is the reason why we have left in those words 'or other matters of State,' though we have still further limited our power of intervention by requiring that they shall in all cases be important matters of State. If the words had been left out altogether, the chances are that the Bill would have once more proved to be a dead letter, for when we wanted, if we ever did want, to apply it, we should probably have found that we had just failed to provide for the one case in which protection was essential I have seen it asked, if so wide a definition is to be left in the Bill, of what use it is to specify the relations of Government with Foreign States or Native States, or fiscal arrangements, in particular? The answer is that the more you specify, the more you restrict, that the cases named are illustrative as well as specific, and that they afford a clue to the Courts and to the public of the nature of offences which it is intended to penalise under the Bill. When these cases are specifically mentioned in the first place, and when all other matters of State which they do not cover are further restricted to important cases, and when in the case of all them it has to be established to the satisfaction of the Court that they are of such a confidential nature that the public interest would suffer by their disclosure, so far from thinking that these provisions are ever likely to be used for harassment, I should be inclined to say that the Government has so tied itself up as to render action well nigh impossible, except in circumstances of such extreme heinousness that we hope that they will never occur, while, if they did occur, no two opinions could be held about them.

"It seems to me that in matters of this description there is a very common tendency to assume the most far-fetched hypotheses, and to argue as if everybody were likely simultaneously to act in a manner in which as a matter of fact people do not act. For instance, from some of the criticisms that have been made upon the Bill in the public Press it might be inferred that the people of India exist under a Government which allows no freedom of thought or utterance, and which is a scarcely disguised engine of oppression. Similarly, one might assume that the Press and the public are every day already, or are capable of being, guilty of acts qualified to keep them perpetually under the ban of the law. And yet we all of us know that both of these hypotheses are purely fanciful; that we have the freest Government in the world, and that though bad cases sometimes occur, and in India, as I have said, much more frequently than in England, yet the sense of public honour and civic duty is more highly

developed under British institutions than in any other country. British Governments do not readily assume the role of prosecutor, much less of persecutor, and even if they did, they would very speedily repent of the enterprise. May we not assume in looking at the future operation of this Bill that the factors we are dealing with are Governments possessing some sense of responsibility, Courts retaining some share of independence, and I would add a public which, whatever it may say when excited, has a very considerable confidence in both? If this assumption be a fair one, I think it impossible that any real injustice should be perpetrated under this Bill, and if it were, then I would add that from that moment the Act would be doomed.

"My own view, therefore, of the Bill is a relatively very modest one. I regard it as a measure of justifiable precaution, investing the State with a power for the protection of important interests which every State ought to possess, and which but for an ambiguity in the existing law we should possess already. Further, I think that the real value of the Bill will be negative rather than positive, that is, it will act as a deterrent rather than as a penal weapon. People will be more careful than they have hitherto been about disclosures, which every man at the bottom of his heart knows to be dishonourable and injurious to the public interests. Lord Lansdowne's Bill has been in operation for nearly fifteen years, and there has never been a prosecution under it. This has been because, even if the prosecution had been attempted, it would have been inoperative owing to the imperfect nature of the Act. If the present Bill be passed under scrutiny fifteen years hence, so far from the intervening record being one of arrests and trials, I should not be surprised if it were equally blank. But this would be for the much more creditable and satisfactory reason that infringement of the law had been prevented by the power to punish it, and that important official secrets had not been divulged, because divulgation had been made unpleasant and even perilous. If my anticipations are in the least correct, then I think that the Council may pass this measure into law with a perfectly clear conscience, and with the conviction that they are adding not an instrument of terror, but only a weapon of the most elementary self-protection, to the armoury of the State."

The motion was put and agreed to.

The Council adjourned to Friday, the 11th March, 1904.

J. M. MACPHERSON,
Secretary to the Government of India,
Legislative Department.

CALCUTTA:
The 11th March 1904.

SUPPLEMENT TO

The Gazette of India.

No. 11. } CALCUTTA, SATURDAY, MARCH 12, 1904.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

FINANCE AND COMMERCE DEPARTMENT.

APPROPRIATION REPORT

ON

THE ACCOUNT

OF

THE GOVERNMENT OF INDIA

FOR

1902-1903.

BY

O. T. BARROW,

OFFG. COMPTROLLER AND AUDITOR GENERAL.

CONTENTS.

APPROPRIATION REPORT

ON

THE ACCOUNTS

OF

THE GOVERNMENT OF INDIA

FOR

1902-1903.

GENERAL REVIEW.

Throughout the report the rupee figures are in thousands of rupees and the sterling figures in hundreds of £, thus 10,64 reads as ten lakhs and sixty four thousands of Rupees, and £71,2 reads as seventy-one thousand and two hundreds of pounds sterling. The rupee figures are converted into sterling amounts at R15=£1.

The Budget Estimate of 1902-3 closed with the small surplus of £837,7. The favourable conditions with which the year commenced, might be considered as justifying the expectation of a higher surplus but, subject as the Indian finances are to climatic and other influences, a continuance of those conditions could not be positively relied upon, and the Estimates were accordingly framed with caution. Large remissions of Land Revenue and the repeal and reduction of certain taxes were at the same time provided for, and liberal grants were placed at the disposal of Provincial Governments, partly as compensation for the losses caused by the remissions referred to and partly to enable them to carry out improvements in Sanitation, Education, and Public Works, and to incur increased expenditure on other Administrative objects. These measures were calculated to entail a reduction of £1,511,2 in Imperial Revenues, and in addition thereto new expenditure for improving the efficiency of the army and raising the pay of the British troops was also provided for to the extent of £1,000,0 and £226,0, respectively.

2. The actual results turned out to be more satisfactory than anticipated, and the year closed with a surplus of £3,069,5. There were improvements under every head of revenue with large reductions of expenditure under almost every head of charge. Land Revenue showed an increase of £646,8, while there was a decrease of £156,0 in the charges under that head. Opium yielded an increase of £263,4 in the revenue, while there was a decrease of £124,8 in the expenditure. Excise Revenue showed an improvement of £306,4, while Customs, after deducting refunds, showed an excess of £312,5. The Army contributed £235,8 to the increase of revenue and £318,3 to the decrease in expenditure, while the Civil Departments showed the important decrease of £439,6 in the charges.

3. The result of these and other improvements was the surplus of £3,069,5, mentioned above, showing an increase of £2,231,8 over the Budget. The surplus would have been higher, but for additional grants of £266,7 in aid of Provincial revenues, which transferred a portion of the improvement from the Imperial to the Provincial Section of the accounts. One of the principal contributors to the general improvement was Berar, which was leased out in perpetuity to the British Government from 1st October 1902, and for the net revenue from which no provision existed in the Budget. The amount contributed by that province to the general surplus was £226,9.

4. No important change in classification was made during the year in regard to revenue and expenditure.

5. The following summary gives the Budget and Account figures of 1902-3, which ar reviewed in this report. The details will be found in the statements on pages 171 to 186:—

Receipts Budget.	Receipts Accounts.		Revenue and Expenditure.	Outgoings Budget.	Outgoings Accounts.
£	£			£	£
45,500,4	47,380,9	A	Principal Heads of Revenue	7,996,0	7,635,1
764,2	867,7	B	Interest	1,915,1	1,832,7

Comparison with the year 1901-2.

6. The comparison in respect of revenues with the year 1901-2 is as follows:—

Revenues.	1901-2.	1902-3	Difference, 1902-3. Greater (+) or less (—).	
	£	£	£	R
Principal Heads of Revenue	46,601,7	47,380,9	+779,2	+1,16,88
Interest	785,7	867,7	+82,0	+12,30
Post Office	1,383,7	1,429,9	+46,2	+6,93
Telegraph	908,1	877,0	—31,1	—4,66
Mint	555,4	411,2	—14,42	—21,63
Civil Departments	1,261,2	1,322,4	+61,2	+9,18
Miscellaneous	628,0	631,0	+3,0	+45
Railways	20,226,0	20,133,9	—92,1	—13,82
Irrigation	2,537,6	2,769,0	+231,4	+34,71
Other Public Works	479,5	486,9	+7,4	+1,11
Receipts by Military Department	977,6	1,125,0	+147,4	+22,11
TOTAL	76,344,5	77,434,9	+1,090,4	+1,63,56

7. The important variations under *Principal Heads of Revenue* are the following:—

	£	R
Land Revenue	+148,9	+22,33
Opium	−353,6	−53,04
Salt	+24[illegible],1	+36,76
Stamps	+27,3	+4,10
Excise	+350,0	+52,50
Provincial Rates	+4,2	+64
Customs	+144,6	+21,69
Forest	+140,7	+21,11
Other Heads	+72,0	+10,79
TOTAL	+779,2	+1,16,88

8. Under *Land Revenue*, the increase was principally due to the inclusion of the collections in Berar which became a British Province from 1st October 1902 Madras also showed some increase due to the recovery of a large amount of arrears of previous years. In the Punjab and Bombay there were considerable decreases due to a large amount of arrears having been collected in the preceding year and the net result would have been a falling-off in the year under report, but for the receipts from Berar, which amounted to 70,08. Under *Opium*, the average price realized at the sales of Bengal opium was R1,144·9 per chest against R1,297 obtained in the previous year. This resulted in a decrease of 73,16. The export of Malwa opium for China, on the other hand, showed some improvement and brought in an increase of 17,76. The increase under *Salt* was contributed by all the provinces, and was generally attributable to increased consumption due to an improvement in the material condition of the people. In Madras, it was also due to traders having paid the duty in cash to a greater extent than usual, instead of availing themselves of the option of taking credit for six months on lodging Government paper as security, while in Bombay there was a recovery of duty on salt issued on credit bonds in the preceding year. The *Stamp* revenue declined in most of the provinces owing to local causes, and would have been below the actuals of the previous year but for the inclusion of the receipts in Berar which contributed 4,42. Under *Excise*, there were increases in all the provinces due to better settlement of licenses, enhancement of fees, suppression of illicit practices and prosperity of the consuming classes, Madras contributing the largest increase (13,08) and Berar contributing 9,14. Under *Provincial Rates*, the receipts follow those under *Land Revenue*, and the result would have been a decrease but for the receipts from Berar which contributed 5,64. Under *Customs*, the increase occurred chiefly in export duties in Burma and was the outcome of large exports of rice. Under *Forest*, the increase occurred chiefly in Burma (8,65), the Central Provinces (4,01), the United Provinces of Agra and Oudh (3,09) and the Punjab (1,40), and was due to more extended sales and large supplies to the Railways and the Ordnance Departments. The receipts in Berar contributed an increase of 1,67. Of the increase under *Other Heads*, Assessed Taxes contributed 6,16 and Tributes 4,53, the latter due to the recovery of arrears.

9. Under *Interest*, the increase occurred mostly in England and was due to the temporary investment of larger sums and to higher rates being obtained for them. Under *Post Office*, the increase represents the annual development of the revenue and the special receipts brought in by the Coronation Durbar. Under *Telegraph*, the reduction of the foreign tariff, which came into force from 1st March 1902, was responsible for the decrease. Under *Mint*, there was no coinage during the year out of purchased silver as in the preceding year, which accounts for the decline. Under *Civil Departments*, there were increases under *Police* (2,09) due to large recoveries on account of police supplied to public bodies, punitive police and village police, *Marine* (4,15) due to large realizations of coast light dues in Burma, and heavy

recoveries from His Majesty's Imperial Government on account of Royal Indian Marine vessels employed on Imperial Service and passages supplied to officers deputed to Somaliland; *Education* (1,34) due to the inclusion of the receipts in Berar as well as to large receipts in school and college fees, *Medical* (95) due to a special contribution from the Victoria Memorial Scholarship Fund and heavy college and nursing fees; and *Scientific and other Minor Departments* (1,10) due to large sales of Quinine in the Cinchona Plantations, of unserviceable cattle in the Hissar Cattle Farm, and of maps and instruments in the Surveyor General's Office. The excess under *Miscellaneous* was small and was due to variations under several heads.

10 Under *Railway Revenue*, the large falling-off (13,82) occurred chiefly on the East Indian Railway (36,52) due to the abnormal depression in the coal trade and the introduction during the year of a lower coal tariff, on the Rajputana-Malwa Railway (31,25) to a heavy decline in goods traffic, following on the cessation of the famine, and on the North-Western Railway to smaller exports to Europe and the coast ports of the Bombay Presidency. There were, on the other hand, some improvements on the other lines, the most noticeable of which were that on the Bengal-Nagpur Railway (10,01) due to general development of traffic and the opening of the Midnapur-Jherria Branch, that on the Great Indian Peninsula Railway (9,23) due to an improvement in coaching-tariff connected with the Coronation Durbar and general development of goods traffic, that on the Southern Mahratta Railway (8,49) due to an improvement in passenger traffic attributable to the withdrawal of plague precautionary measures and the installation of His Highness the Maharaja of Mysore, and a larger goods traffic; that on the Indian Midland Railway (6,37) due to the special traffic connected with the Delhi Durbar and the more favourable wheat and cotton crops, that on the South Indian Railway (5,37) due to the opening of the Pamban Branch; that on the Eastern Bengal State Railway (5,08) due to a larger flow of pilgrim traffic to Puri *vid* the Bengal-Nagpur route; and that on the Burma Railways (4,34) due to an increase in 3rd class fares and the steady demand for Burma paddy. The receipts from Guaranteed Railways also showed a net increase of 4,68, due chiefly to a steady increase of 3rd class passenger traffic on those lines.

11. The large increase under *Irrigation Receipts* was due to the development of irrigation from the canals in the Punjab and to a better *Kharif* season in the United Provinces of Agra and Oudh The small excess under *Other Public Works* was due to better receipts from the rents and sale of buildings, sale of old materials, ferry tolls and other miscellaneous items. Under *Receipts by Military Department* the large increase was due to credits taken for the value of elephants transferred to the Burma Government with the Khedda Department and of mules and stores sent to Somaliland, to larger sale-proceeds of regimental cast horses and unserviceable stores, including the machinery of the late Gunpowder Factory, Ishapore, and to more subscriptions to the Indian Military Service Family Pension Fund.

12. A comparison of the expenditure side is given below :—

	1901-2.	1902-3.	Difference, 1902-3. Greater (+) or less (—)	
	£	£	£	R
Direct Demands on the Revenues	7,444,2	7,635,1	+190,9	+28,63
Interest	1,944,3	1,832,7	—111,6	—16,74
Post Office	1,280,6	1,346,8	+66,2	+9,93
Telegraph	904,2	909,7	+5,5	+83
Mint	504,0	424,0	—80,0	—12,00
Civil Departments	11,146,8	11,689,2	+542,4	+81,36
Miscellaneous	4,139,4	4,494,0	+354,6	+53,19
Famine	884,5	982,6	+98,1	+14,71
Railways	19,379,4	19,905,0	+525,6	+78,84
Irrigation	2,364,7	2,575,2	+210,5	+31,58
Other Public Works	4,565,9	5,297,1	+731,2	+1,09,68
Army Services	15,764,0	17,346,4	+1,582,4	+2,37,36
	70,322,0	74,437,8	+4,115,8	+6,17,37

13. Under *Direct Demands on the Revenues*, the principal excesses were 7,56 under *Refunds and Drawbacks*, 7,17 under *Land Revenue*, 5,97 under *Opium*, 3,45 under *Excise* and 6,93 under *Forest*. Against these excesses there was a decrease of 3,26 under *Assignments and Compensations*. Under *Refunds and Drawbacks*, the excess was due partly to special adjustments of tributes and survey and settlement charges in Burma and Bengal, but chiefly to large refunds of customs duty in Bombay. Under *Land Revenue*, the increase was due to the inclusion of Berar expenditure and to high charges on account of District Administration in Burma and the North-West Frontier Province and Survey and Settlement in the Punjab, North-West Frontier Province and Madras. The increase under *Opium* was due to large payments to cultivators owing to a better outturn of the crop. The excess under *Excise* occurred in Burma (2,47) and Bengal (89), and was due in the former case to the introduction of revised arrangements for the sale of opium in that province. Under *Forest*, there were specially extensive timber operations in Central Provinces and Burma, and special charges on account of acquisition of land and purchase of elephants in Madras The decrease under *Assignments and Compensations* was due to the payment of arrears in Bombay, and some special compensations in the Central Provinces in the preceding year.

14. Under *Interest* the decrease was due to larger transfers to State Railways and Irrigation Works on account of interest on capital outlay incurred for them. The increase under *Post Office* was due partly to the expansion of the department and partly to the requirements of the Coronation Durbar. The decrease under *Mint*, was the result of a decrease of 22,66 under transfer of net profits to the Gold Reserve Fund and an increase of 11,50 under loss on coinage, due to the heavy recoinage operations of the year. Under *Civil Departments*, the principal increases were 22,92 under *General Administration*, 9,39 under *Police*, 27,99 under *Education*, 14,46 under *Medical*, and 19,86 under *Political*. The increase under *General Administration* was in the charges on account of staff and household and tour expenses of heads of administrations. The excess under *Police* was contributed by Berar (4,48) and North-West Frontier Province (7,06), which latter became a separate province only from 9th November 1901. The increase under *Education* was chiefly under Government Schools and Grants-in-aid, and was contributed by all the provinces. Under *Medical*, there was larger outlay on Hospitals and Dispensaries as well as on measures connected with the plague The increase under *Political* was due partly to special political expenditure and partly to the charges connected with the Delhi Durbar. Under *Miscellaneous*, there were increases of 8,99 under *Superannuation Allowances and Pensions* both in India and England, of 4,00 under *Stationary and Printing*, chiefly in England, and of 40,50 under *Miscellaneous*, due chiefly to the writing-off of irrecoverable *taccavi* loans in the Punjab and Bombay, and to the Coronation celebration charges in almost all the provinces. The increase under *Famine* was chiefly under Construction of Protective Irrigation Works and Reduction or Avoidance of Debt. Under *Railways*, there was an increase of 50,23 in the working expenses of State Railways, due partly to increased traffic and extra mileage run, but chiefly to special expenditure found obligatory on the maintenance and renewal of permanent-way and on bridges and rolling-stock The payment of interest and annuity on State Railways in India and England also showed an excess of 34,28, while there were decreases of 6,96 in the payment of surplus profits and interest to the Guaranteed Companies. Under *Irrigation* the increase was due to the maintenance and repairs of greater lengths of canals opened for irrigation, to increased interest charges on the additional capital outlay, and to a large expenditure on Minor Works from the special grant of 25 lakhs sanctioned for the purpose. The increase under *Other Public Works* was due to larger programme of works in the year under report than in the preceding year. Under *Army*, there was an increase of 1,01,23 in the expenditure in India, and of 1,36,14 in that in England. The excess in India was principally due to smaller savings owing to the return of troops from South Africa and China, to the inclusion of the charges on account of the Hyderabad Contingent from 1st October 1902, to the reorganisation of the Artillery, to the additions to the corps of Sappers and Miners, to the reorganization of the transport service,

to large purchases of stores of all kinds in replacement of issues to South Africa, China and Somaliland, to increase of the Wellington Cordite Factory establishment and large purchases of mobilization and camp equipage, and to more charges on account of Camps of Exercise and Manœuvres. These excesses were to some extent counterbalanced by decreases under Special Services on the North-West Frontier Province. The increase in England was chiefly under Home charges of British Forces serving in India.

Comparison of Accounts with Budget Estimates of 1902-3.

15. The following figures exhibit the differences in the net accounts between the Budget and the actuals, those in India and England being shown in separate columns. A comparison of the gross figures has been given before in para 5:—

	INDIA		England.	TOTAL.
	R	Equivalent in Sterling £	£	£
Principal Heads of Revenue	+3,35,10	+2,234,0	+7,4	+2,241,4
Interest	+3,45	+23,0	+162,9	+185,9
Post Office	+8,94	+59,6	+4	+60,0
Telegraph	+7,87	+52,5	+28,6	+81,1
Mint	+5,18	+34,5	—2,2	+32,3
Civil Departments	+71,44	+476,3	+21,0	+497,3
Miscellaneous	—30,52	—203,5	—4,4	—207,9
Famine	+1,59	+10,6	—1,9	+8,7
Railways	—16,62	—110,8	+44,8	—66,0
Irrigation	+17,95	+119,7	—2	+119,5
Other Public Works	+11,16	+74,4	—53,3	+21,1
Army Services	+81,71	+544,7	+9,4	+554,1
COMBINED SURPLUS, IMPERIAL AND PROVINCIAL	+4,97,25	+3,315,0	+212,5	+3,527,5

16 Under *Principal Heads of Revenue* the most noticeable improvements were 1,20,30 under Land Revenue, 59,21 under *Opium*, 33,51 under *Salt*, 48,43 under *Excise*, and 57,75 under *Customs*. Under *Land Revenue*, Berar, which was not included in the Estimates, brought in a net revenue of 66,68; there were also increased collections in Burma, Assam Bengal, Madras and Bombay and a saving of 23,27 in expenditure contributed by almost all the provinces. Under *Opium* high prices were obtained at the sales of Bengal opium, and there was a large demand for Malwa opium in China, as well as a decrease in expenditure owing to a short outturn of the crop. The improvement under *Salt* was contributed by all the provinces, and was due to increased receipts attributable to an improvement in the material condition of consumers, combined with some savings under establishment and manufacture charges. Under *Excise*, Berar contributed a net improvement of 9,02, and the balance was due to increased license fees, better settlements, suppression of illicit practices, and prosperity of the consuming classes generally, and to revised arrangements for the sale of opium in Burma. Under *Customs* the increase occurred chiefly in Burma, Madras and

Bombay and was due to large exports of rice, more extensive imports of petroleum, silver, copper, and spirits, and to larger demands for locally-made cotton goods with the return of more prosperous times. Under *Forest* there was a saving of 10,83 in the charges owing to an unfavourable floating season and restricted departmental operations in Burma, to the curtailment of timber and fire-wood operations in Bombay and generally to works of construction and improvement not having been carried out to the extent anticipated in other provinces. Under *Assessed Taxes*, there was a small net increase of 6,93, due mainly to careful assessments, better collections, and general improvement of trade and industry.

17. Under *Interest*, the receipts in England showed an increase of £127,3, while those in India showed a decrease of £23,8. The improvement in England was due to the investment of a larger amount of the available cash balance and at a higher rate of interest than estimated for, and also to the 3 per cent. India stock of £1 500,0 having been issued at a premium. The decrease in the Indian receipts was due partly to the improved condition of the agricultural classes which led to large repayments of advances to cultivators and partly to smaller recoveries from Native States owing to the continuance of the famine and the remissions of interest granted by Government. The charges showed a saving both in India and England, due in the former to smaller charges on account of discount the new rupee loan having been raised at a favourable rate and in the latter to a lower rate of interest on the new India bills, to Bills to the value of £500,0 having been discharged without replacement, and to a provision of £10,0 included in the Budget for interest on temporary loans from the Bank of England, not having been required. Under *Post Office*, the improvement was due to the normal growth of the revenue and to a decrease in expenditure, chiefly for the conveyance of mails and district post establishments. Under *Telegraph*, it was due to better message revenue and higher receipts from rent of wires and instruments and a saving in expenditure owing to the postponement of capital works and smaller payments for stores in England. The improvement under *Mint* was due to a larger dollar coinage, and recoinages undertaken for the Indore Durbar of which nothing was known at the time the estimates were framed. The actual gain on coinage operations was 49,05, and the amount transferred to the Gold Reserve Fund was 39,60. Under *Civil Departments*, the improvement was mainly due to savings in expenditure, of which the principal items were 18,69 under *Law and Justice*, 12,05 under *Police*, 27,99 under *Education*, 11,79 under *Medical*, 12,50 under *Political* and 5,78 under *Scientific and other Minor Departments*. The saving under *Law and Justice* occurred partly under Courts of Law and partly under Jails, and was due in the former to provision made for revision of establishments not having been fully utilized, and in the latter to smaller purchases of raw materials for manufacturing purposes, to the release of prisoners on the occasion of the Durbar, and to a fall in the jail population generally. Under *Police* the decrease occurred chiefly in Burma (6,86) and Bengal (5,01), and was due in the former case to regrading the higher police and the re-armament of the civil police not having been carried out, and in the latter to the contemplated additions to the force not having been made, under *Education*, the special grants made by the Imperial Government for the improvement of education were not fully utilized, as the Local Governments had not been able to mature their schemes for their disposal. The decrease under *Medical* was due partly to savings in plague expenditure in Bengal and savings and over-estimates in ordinary expenditure in other provinces. Under *Political* the saving was chiefly in political subsidies, and was due to the low drawings of the Amir of Afghanistan. Under *Scientific* and *other Minor Departments*, the savings were in the Survey of India Department, Geological and other Surveys and Veterinary and Stallion charges.

18. In addition to these, there was a net improvement of 4,58 under *Marine*, due to large recoveries from His Majesty's Government on account of Royal Indian Marine Vessels employed on Imperial Service, and passages of officers deputed to Somaliland, as well

as large receipts on account of coast light dues in Burma. There was, on the other hand, an excess of 23,00 under *General Administration*, due to large expenditure on account of staff and household and tour expenses of heads of Governments in all the provinces. Under *Miscellaneous*, there were excesses in expenditure of 5,18 under *Stationery and Printing*, due to large purchases of stationery in India and England and of 39,45 under *Miscellaneous*, due chiefly to charges on account of Special Commissions of Enquiry, to heavy refunds of Suitors' Fund Deposits, and large remissions of *taccavi* advances and irrecoverable loans, and to the expenditure in connection with the visit of His Royal Highness the Duke of Connaught to India There were, on the other hand improvements of 7,78 under *Exchange*, and of 2,02 under *Civil Furlough and Absentee Allowances* in England.

19. The total loss due to *Famine* has been brought together in the following table, which is framed on the model of the statements given in past reports. It is based on estimates framed by the most competent local authorities, and may be accepted as giving approximately the loss of revenue assignable to Famine Suspensions of Land Revenue and Provincial Rates, which are not final loss, have been distinguished from remissions under those heads. The countervailing improvements under Railways and Irrigation have been taken account of. The total net loss of revenue assigned to famine in 1902-3 is thus 29,06, as shown below:—

	India	Central Provinces	Bengal	Punjab	Madras.	Bombay	TOTAL.
Loss of Revenue.							
Land Revenue—	R	R	R	R	R	R	R
Remissions	...	28,39	...	...	...	3,06	31,45

NET { DECREASE – . . / INCREASE + ...	+13,52	–34 34 .	..		. +1,50	–9,74	} – 29,06

20. The expenditure was chiefly upon actual relief of famine and distress, and the charges on this account fell short of the Budget Estimate by 15,25. Bombay and Central Provinces were the only provinces in which any considerable expenditure was incurred The total charge under this head includes a debit of 84,71 on account of Reduction or Avoidance of Debt against an estimate of 71,14. The better result shown in the table at para. 15 represents the net excess charge on the Revenues on account of the Bengal-Nagpur Railway shown under the Railway Revenue Account. Besides the charges on actual relief, expenditure under several heads was incurred in the purchase of supplies for men and animals, or in the grant of compensation for dearness of provision. There were also charges which arose indirectly out of

the scarcity, such as increased payments of travelling allowances, and the entertainment of additional establishments not concerned with the direct administration of famine relief. These charges have been estimated by the local authorities, and are brought together in the following table and the total charges direct and indirect may be set down at about 58,72.—

	India.	Central Provinces.	Assam.	Bengal	U. P of Agra and Oudh.	Punjab	Madras.	Bombay	TOTAL.
	R	R	R	R	R	R	R	R	R
Famine Relief, including Public Works charges	5,80	2,25	...	...	2	17	...	39,99	48,23
Indirect charges due to Famine, including grain compensation allowance—									
Army	3,84	..	...	.	.	.	1,89	...	5,73
Public Works Department, Other Public Works	.	...	.	...	.		..	76	76
Marine	3	.	...	. .	...			..	3
Post Office	6	.		.		..	.	..	6
Telegraph	4	.	...	.	.	...	.		4
Land Revenue		8	.	...	..			1,61	1,69
Law and Justice — Courts of Law	.	6		...	..	..	.	2	8
Law and Justice — Jails	...	...	...	...	...	...	.	30	30
Police	5	1	.	...	..	...	...	50	56
Other heads	16	41		...	.			67	1,24
	4,18	56		...	...	...	1,89	3,86	10,49
TOTAL	9,98	2,81	...	...	2	17	1,89	43,85	58,72

21. The total loss of revenue and increase of expenditure due to famine may therefore be put down at about 87,78

22. The decline under *Railways* was the result of an increase of expenditure, partly counterbalanced by an increase in the receipts. The increase of expenditure was chiefly on account of working expenses (63,83), due to the causes explained in para. 14. The increase in the receipts was due to better traffic in grain, seed and cotton, and to the special traffic connected with the Delhi Durbar and the Hardwar fair having exceeded expectations. The lines that principally contributed to the net result are:—

	Better	Worse
Eastern Bengal State Railway	8,38	...
East Indian Railway	...	39,80
Rajputana-Malwa Railway	...	13,37
Oudh and Rohilkhand Railway	4,92	..
Bengal and North-Western Railway	...	1,07
Indian Midland Railway	2,34	...
Southern Mahratta Railway	6,39	...
South Indian Railway	12,29	...
Burma Railways	...	3,96
Great Indian Peninsula Railway	6,63	...

23. Under *Irrigation* there was an increase of 10,84 in the receipts and a decrease of 7,08 in the expenditure. The increase in the receipts was, as explained in para. 11, due to the development of irrigation from the canals in the Punjab and a better *Kharif* season in the United Provinces of Agra and Oudh. The saving in expenditure was due to the special grant of 25 lakhs not having been fully utilized. Under *Other Public Works* there were better

receipts from the rents and sale of buildings, sale of old materials, ferry tolls, and other miscellaneous items counterbalanced by an excess in expenditure due to larger demands for Military Works Stores in England. Under *Army Services* the net improvement was the result of an increase in the receipts and a decrease in expenditure The increase in the receipts occurred partly in India and partly in England, and was due in the former, to credits taken for value of Europe stores issued from stock to South Africa and Somaliland, of mules sent to the latter country, of peace equipment taken by certain native corps to the colonies, and of elephants transferred to the Burma Government with the Khedda Department, to larger sales of malt liquor and ordnance stores, to the issue of new pattern arms, etc., to the Police and Jail Departments, and to larger contributions towards the Indian Military Service Family Pensions. The increase in England was due to the adjustment in that country of contributions towards pension of Indian Native soldiers lent for Imperial Service The decrease in expenditure occurred in India and was due to savings arising out of the absence of troops in South Africa, China and Somaliland, lapse of special provisions made in the Budget for special schemes, short strength of officers, and smaller purchases of transport animals and ordnance stores, partly counterbalanced by excesses on account of the Hyderabad Contingent, the Aden Delimitation Commission, conveyance of troops and stores, purchases of stores for troops returned from South Africa and Camps of Exercise and Manœuvres.

24. The Budget provided for a deficit of £530,4 or R79,56 in the revenue on the whole account, but as a sum of £1,368,1 or R2,05,21 out of the Provincial and Local Expenditure was payable from past accumulations of balances, there was a net surplus estimated for in the Imperial accounts of £837,7 or R1,25,66. The accounts closed with a surplus on Imperial account of £3,069,5 or R4,60,43, and a deficit on Provincial and Local account of £72,4 or R10,86. The net Imperial revenue has therefore been better by £3,069,5 — £837,7= £2,231,8 or R3,34,77, and the net Provincial and Local receipts by £1,368,1 — £72,4= £1,295,7 or R1,94,35.

25. The details of these fluctuations are given below, the sign + meaning better, and — worse, than the estimate —

	Revenue Side			Expenditure Side.		
	Imperial	Provincial.	Total	Imperial	Provincial	Total
	£	£	£	£	£	£
Principal Heads of Revenue	+ 1,257,1	+ 623,4	+ 1,880,5	+ 109,6	+ 251,3	+ 360,9
Interest	+ 118,6	— 15,1	+ 103,5	+ 90,0	— 7,6	+ 82,4

26. The improvement in the Provincial and Local Section occurred chiefly in Land Revenue and Excise receipts, and in charges under Land Revenue, Civil Departments, and Other Public Works.

27. The principal items making up the difference in the Imperial Section are indicated in the following table:—

Appropriation Audit.

28. The Budget grants have been exceeded under several heads. The excesses, distinguishing those requiring sanction from those for which extra grants have already been made, have been noticed under each head of expenditure, and the detailed reasons for the excess have been also there stated. The following table brings together the excesses under each head still requiring sanction:—

Excess expenditure over Budget Estimate awaiting sanction of the Imperial Government

29. The receipts in this section exceeded the Budget Estimate and the actuals of the previous year by £1,880,5 or R2,82,08, and £779,2 or R1,16,88, respectively. As compared with the Budget Estimate, there was an increase of £646,8 or R97,01 under Land Revenue, of which £467,2 or R70,08 was contributed by Berar which was perpetually leased out to the British Government from 1st October 1902, and for which no provision existed in the Budget, and the remainder by Assam, Bengal, Madras, and Bombay, chiefly in ordinary revenue collections due to the improved conditions of the people, and by Burma in Fisheries and other Miscellaneous revenues, of £269,4 or R40 42 under Opium, due to high prices obtained at the sales of Bengal Opium and to larger exports of Malwa Opium from Bombay for China, of £211,1 or R31,66 under Salt, due to increased consumption in Bengal and Burma, to traders having paid the duty in cash instead of taking credit to a greater extent in Madras, and to recoveries of duty on salt issued on credit-bonds in the previous year in Bombay; of £306,4 or R45,96 under Excise, due to the receipts from Berar, to larger consumption in Central Provinces, Punjab and Madras, to enhanced license fees, increased consumption, and the suppression of illicit practice in Bengal, to revised arrangements for the sale of opium in Burma, and to a higher rate of still-head duty, better settlements, and increased consumption in the United Provinces of Agra and Oudh; of £12,9 or R1,93 under Provincial Rates, due to the receipts from Berar, of £377,6 or R56,64 under Customs, due to large exports of rice and heavy imports of silver, copper, brass, petroleum, and spirits, owing to some extent to the demands of the Coronation Durbar; of £45,9 or R6,89 under Assessed Taxes, due mainly to careful assessments, better collections and general improvement of trade and industry; of £7,7 or R1,15 under Forest, due to large sales of sleepers to Railways in the United Provinces of Agra and Oudh, and of £6,7 or R1,01 under Tributes, due mainly to the recovery of arrears in India These increases were partly counterbalanced by a decrease of £4,4 or R65 under Stamps, owing to a fall in litigation in Madras, and to low receipts on account of probate-duty in Bombay. The decrease would have been greater but for the unexpected receipts from Berar.

30 The improvement, as compared with the actuals of the previous year, was contributed by all the heads except Opium, and was due mainly to the causes enumerated above. The more important increases were £148,9 or R22,33 under Land Revenue, £245,1 or R36,76 under Salt, £350,0 or R52,50 under Excise; £144,6 or R21,69 under Customs, £41,1 or R6,16 under Assessed Taxes, £140,7 or R21,11 under Forest, and £30,2 or R4,53 under Tributes. The decrease under Opium was due to the lower prices obtained by Bengal Opium at the auction sales in the year under report.

31. The receipts from Land Revenue exceeded the Budget Estimate by 97,01, and the actuals of the previous year by 22,33. The accounts of the year included 70,08 on account of Berar, for which there was no provision in the Budget Estimate, and which was leased out to the British Government from 1st October 1902; eliminating this item, the result is an increase of 26,93 as compared with the Budget Estimate and a decrease of 47,75 as compared with the actuals of the preceding year. The improvement over the Budget Estimate was generally due to better collections in consequence of the improved conditions of the people. The decrease, compared with the previous year, was mainly due to large collection of arrears in that year.

32. Under *Ordinary Revenue*, the small decrease (34), as compared with the Budget Estimate in India, was chiefly attributable to the scarcity in Baluchistan and the failure of rains in Ajmer. In the Central Provinces (49), it was due to larger remissions of suspended revenue. In Burma (14,23), a large increase was anticipated in view of the extension of cultivation and revision of settlements in Lower Burma and the extension of assessment in Upper Burma, but there was delay in the introduction of assessment in some districts, while the collection of water-rate in others suffered a check, owing to a bad season and failure of rains. In Assam (1,10) and Bengal (3,86), improved conditions of the people brought about more satisfactory collections. Larger remissions (4,00) partly counterbalanced by better collections (3,00), explain the decrease (1,05) in the United Provinces of Agra and Oudh, while larger suspensions account for the deficits in the Punjab (5,27) and the North-West Frontier Province (1,34). In Madras and Bombay the Budget appears to have been too cautiously framed, but the season proved very favourable, and not only were there fewer remissions, but a large amount of arrears was collected, which resulted in excesses to the extent of 18,55 and 6,30 respectively, in these provinces. As compared with the previous

Section A.—PRINCIPAL HEADS OF REVENUE—*continued.*

I.—Land Revenue—*concluded.*

year, the variations were, in the majority of cases, traceable to the recovery of outstandings of the preceding year. The decrease in India (1,31), was due to the failure of rains in Ajmer. Under *Assessment of Alienated Lands less Quit Rents*, Bombay showed a small decrease (1,98), as compared with the Budget Estimate, the result of lapses of inams, and relinquishments, and forfeitures of lands Under *Sale of Proprietary Right*, etc., the actuals in Burma represent receipts on account of capitalized value of abatement of Land Revenue in respect of land taken over by the Burma Railways Company. In Bengal there was a small improvement (65) chiefly brought about by larger sales of lands in the Sunderbans under the new Waste Land rules, and better receipts under "12 per cent. on collections for Government Estates" The large increase in the Punjab (1,59), was due to larger receipts from the sale of lands on the Jhelum Canal and shop-sites in the Jhelum colony. In Madras the Budget anticipated a recovery of 2,75 from the sale of tank-bed lands in the Madura District, which, however, did not take place. The large excess (8,21) under *Capitation Tax, etc.*, in Burma was due partly to the growth of population in Lower Burma, where the capitation tax is levied, and partly to delay in the introduction of direct assessments in commutation of the Thathameda Tax in Upper Burma, which caused an increase under this head and a decrease under *Ordinary Revenue* Under *Fisheries and other Receipts*, etc , the decrease (15) in India was in the receipts from cattle-grazing fees in Baluchistan, while the increase (26) in the Central Provinces was in those from royalty levied on the Manganese ore found in the Nagpore District. The large excess (6,87) in Burma occurred under petroleum, ruby mines, and fishery revenues and the small improvement in the United Provinces of Agra and Oudh (47) in the receipts from Revenue Record-rooms (34) and quarries (13). Smaller recoveries on account of Canal demarcation explain the decrease in the Punjab (94), while larger assignment from Government Revenues to the village service fund accounts for the increase in Madras (2,62). The excess in Bombay (63) occurred under *Other Items.*

33. The explanation of the variations in the *Portion of Land Revenue due to Irrigation* is given in the Public Works portion of this report under the head Irrigation—*vide* paragraph 257.

34. The following tables A and B give the usual particulars regarding the distribution of the Land Revenue between Imperial and Provincial:—

£ 4,852,0		EQUIVALENT IN STERLING . £		£ 4,229,0		£ 4,503,3		£ 4,498,4

35 The total revenue exceeded the Budget Estimate by R40,42, but fell short of the actuals of the preceding year by R53,04. The increase under *Sale of Bengal Opium*, as compared with the Budget Estimate, was due to the higher average price obtained in the sales, the price obtained per chest being R1,144 against R1,100 adopted in the Budget Estimate. A similar cause explains the difference between the results of the two years. The improvement under *Bombay Opium Pass Fees*, was due to larger exports of opium to China, owing partly to better demand for Malwa Opium and partly to improved conditions prevailing in that country The receipts on account of pass duty on opium imported into Berar for which 1,50 was provided under *Berar Opium Pass Fees*, were credited to "V.—Excise," that being the proper head of classification Under *Excise Opium*, there was an excess of 1,92 as compared with the Budget Estimate, and of 2,36 as compared with the receipts of the previous year The excess, as compared with the Budget, occurred in almost all the provinces, being due to larger sales in Native States and Zamindaris in the Central Provinces, to revised arrangements for the sale of opium in Burma, to under-estimate in Bengal, to increased consumption owing to returning prosperity in the United Provinces of Agra and Oudh, and to larger sales in consequence of the Coronation Durbar in the Punjab. Assam, on the other hand, showed a decrease, due to the Budget having been taken at a too high figure. The variations, compared with the previous year, were more or less due to the same causes.

36 The following table gives the usual statistics for the last ten years of the produce and sales in Bengal, and the exports from Bombay —

YEAR	BENGAL: Produce of season: For export	For Excise.	Total.	Chests sold	Average price per Chest	Total price.	BOMBAY: Chests.	Rate	Amount.
	Chests.	Chests	Chests.		R	R		R	R

* Rate of duty reduced in all provinces, except Burma, from 18th March 1903 (*vide* Finance and Commerce Department notification No 1542 S R., dated 18th March 1903)

38. The receipts from *Salt* exceeded the Budget Estimate by 31,66, and the actuals of the preceding year by 36,76. The improvement was universal throughout the country and was mainly attributable to the improved material condition of the people. The small increase (19), as compared with the Budget Estimate under *Sale of Government Salt*, was due to more extensive sales of the high-priced Sambhar Salt, in preference to the Pachbudra salt, owing to a rise in the price of the latter and its inferior quality, and of the Baragora salt in Bombay, owing to increased facilities afforded by the through-traffic system, partly counterbalanced by smaller demands for salt required for fish-curing purposes in Madras, in consequence of unfavourable weather and the effects of plague The large excess (17,91), compared with the Budget under *Excise on Local Manufacture*, was the outcome of increases in Burma (42), Madras (14,04) and Bombay (7 09), and decreases in India (47) and Bengal (3,17) In Burma the Budget Estimate anticipated a falling-off in consequence of the enhancement of the rates in 1901, which, however, did not actually take place. There was also a change of procedure, under which duty was levied on the actual out-put in place of a license fee on the implements used in manufacture, which brought in increased receipts. In Madras, the receipts were high, in consequence of traders having paid the duty in cash to a greater extent than usual, instead of availing themselves of the option of taking credit for six months on lodging Government paper as security. The excess in Bombay is explained by the recovery, during the year, of duty on a quantity of salt issued on credit-bonds in the previous year. The deficit in Bengal was attributed to the closing of the Orissa factories from May 1902 and to the stocks of salt having been exhausted. The decrease in India was ascribed to a variety of causes, such as smaller sales of the Pachbudra salt, deficiency of transport in consequence of the Coronation Durbar, and scarcity of fodder and water on the trade-routes. The variations, compared with the actuals of the previous year, under these heads were more or less due to the causes explained above. The increases, compared with the Budget, under *Duty on Imported Salt* in Burma (2,38) and Bengal (10,32), were ascribed to increased consumption of imported salt. The high actuals under *Miscellaneous* were chiefly due to larger receipts on account of sewing and bagging charges in Bombay (68), and rent of warehouses in Bengal (26), slightly counterbalanced by a falling-off under Through-traffic collections at Sambhar and Pachbudra (12).

	Revised 1902-3												3,471,9
	Accounts 1902-3												3,473,7

39. The total revenue showed a falling-off of 65 as compared with the Budget Estimate, but exceeded the actuals of the previous year by 4,10 Excluding, however, the figures relating to Berar, the variations were a decrease of 5,07, as compared with the Budget Estimate, and of 32 as compared with the actuals of the preceding year

40. Under *Court-fee Stamps*, the decrease in India (12), was the result of a depression of trade in Coorg. In Central Provinces (55), it was attributable, partly to debt conciliation proceedings, and partly to the outbreak of plague at important centres of business The large deficit (2,96) in the United Provinces of Agra and Oudh was chiefly owing to the subsidence of the Rent Law agitation, while the small decrease in the Punjab (55) was due to the Courts having been closed on account of extra holidays. A fall in litigation accounted for the large decrease in Madras (3,35), and smaller receipts on account of probate-duty explained the falling-off in Bombay (2,68) The increase in Burma (2,17) was ascribed to losses consequent on the cyclone of 6th May 1902, and comparatively unfavourable harvest which seem to have stimulated litigation in Lower Burma. The excess in Bengal (3,34) was due to larger payments on account of probate-duty, increase in the number of Civil suits and rise in the number of applications for mutation of names. The high receipts in Assam were mainly due to the prosperous condition of the people which fostered litigation. In the North-West Frontier Province, the Budget appears to have been underestimated. The fluctuations compared with the actuals of the previous year were, more or less, due to the causes explained above. Under *Commercial and Other Stamps*, there were decreases in the Central Provinces (54), due to the favourable conditions of the year and less borrowing amongst the agricultural classes; United Provinces of Agra and Oudh (61), due to the depression of trade, consequent on the prevalence of the plague; Madras (1,41) due to the favourable character of the season and the consequent decrease of transactions in landed property; and Bombay (1,39) due to less money-dealings consequent on the prevalence of plague. On the other hand, there were increases in Burma (1,69), chiefly due to speculation in land in Rangoon; Assam (26), chiefly due to a special item of receipt in connection with the re-settlement of the Ghurla Purgana; Punjab (25), due to a better understanding of the provisions of the Alienation of Land Act; and North-West Frontier Province (16), due to increased litigation in consequence of the establishment of new tribunals at Peshawar in place of the final Courts of Appeal at Lahore. The excess under *Fines and Penalties, etc.*, in Assam (9), was the result of a special recovery on account of defalcation of stamps, while that in Bengal (28) was attributable to some special receipts on account of duty on unstamped paper. The increase in Punjab (21), was due to increased stamping and impressing work done at the Office of the Superintendent of Stamps. The improvement in Bombay (51), was due partly to the same cause and partly to a special receipt on account of composition of stamp duty (22).

TOTAL IN STERLING	Accounts 1901-2												£ 4,076,7
	Budget 1902-3												4,120,3
	Revised 1902-3												4,377,6
	Accounts 1902-3												4,426,7

41. The total receipts exceeded the Budget Estimate and the actuals of the previous year by 45,96 and 52,50, respectively, but excluding Berar figures, the excesses amounted to 36,82 and 43,36 respectively. The increase, as compared with the Budget Estimate, was largest under *License and Distillery Fees, etc*, and was contributed by all the provinces except Burma, where there was a decrease of 79 The improvement in India (40), was due to excess realization of retail license fees, to keener competition at the annual sales for rent of retail shops, and to increased consumption ; that in the Central Provinces (2,18), to larger consumption and competition in the auction sales for license in country spirits on account of good *mohwa* crop; that in Bengal (7,44), to the settlement of licenses at enhanced fees in consequence of competition, to increased consumption of dutiable articles and to the repression of illicit practices, that in the United Provinces of Agra and Oudh (9,17), to an increase in the rate of still-head duty on country liquor, to better settlements, and to the rapid increase of prosperity of the consuming classes; that in the Punjab (1,82), to an increase in the issues from distilleries; that in the North-West Frontier Province (13), to certain shops having been put up to auction which used to be leased at fixed fees, and that in Madras (11,77), and Bombay (68), to increased receipts in consequence of the prosperous condition of the people. The decrease in Burma was chiefly due to smaller receipts on account of liquors and spirits made in India after European methods, and opium and its preparations. Under *Opium* the variations, more or less, followed those under II—Opium, and there were increases in Central Provinces (14), due to better sales in Native States, Burma (3,44), due to the revised arrangements for the sale of opium introduced into Lower Burma from 1st April 1902, and Punjab, due to increased consumption during the Coronation Assemblage at Delhi, partly counterbalanced by decreases in Assam (56), due to the prevalence of smuggling and scarcity of food grains in several districts, and Bengal (70), due to an over-estimate Under *Duty on Ganja*, the only noticeable variations were the increases in Bengal (1,18), due to increased consumption, competition among the vendors, and improved conditions of the people, and Madras (36), due to general improvement in the season, and a decrease in Bombay, the result of an over-estimate. Compared with the previous year, there were improvements in all the provinces, due mainly to the causes explained above.

42. The receipts exceeded the Budget Estimate and the actuals of the previous year, by 1,93 and 64 respectively. This improvement was, however, nominal, as it was entirely brought about by the receipts from Berar (5,64), but for which, the result would have been a deficit, as compared with the Budget Estimate. The important variations as compared with the Budget Estimate, were an increase in Madras (3,96), and decreases in Bombay (4,22), Punjab (1,90) and Central Provinces (1,68). The high receipts in Madras were due to the favourable conditions of the year, and to larger collection of Land Revenue on which the rates are levied. The falling-off in Bombay was due in the Presidency proper to no allowance having been made in the original estimates for remissions, and in Scind, to a low inundation of the river. The decrease in the Punjab was due to the causes referred to under Land Revenue, while that in the Central Provinces, was chiefly due to a failure of crops in certain districts and the remissions and abatement consequent thereon The increase of 30 in Burma, was due to improvement under Land Revenue, while that of 20 in the United Provinces of Agra and Oudh, to larger receipts on account of Patwari and Village Chowkidari Cess, partly counterbalanced by smaller recoveries under District and Local Rates and Cesses. The decrease in Bengal (37), was due to larger receipts anticipated from the re-valuations and the introduction of the Cess Act in Santhal Pergannahs, not having been realized Compared with the previous year, the principal variations were the decreases in the Central Provinces (3,98), Punjab, North-West Frontier Province (5,74) and Bombay (3,89), and the increases in Bengal (3,38), and United Provinces of Agra and Oudh (1,47) The decreases were in all cases due to the high collection of arrears in the preceding year. The increases were attributable to the causes mentioned above

43. The receipts under this head, showed an improvement of 56,64, as compared with the Budget Estimate, and of 21,69, as compared with the actuals of the preceding year. This result was mainly attributable to larger exports of rice (36,54), more extensive imports of petroleum, silver, copper, and spirits, and to larger demands for locally-made cotton goods with the return of more prosperous times after the famine.

44. Of the excess of 15,62 under *Import Duties*, Burma contributed 2,24, Madras 6,93, and Bombay 7,31. Bengal, on the other hand, showed a falling-off of 86. In Burma, the Budget appears to have been under-estimated. In Madras the importation of petroleum was much in excess of the anticipated quantity, owing to competition between the importers of bulk and case oil. The improvement in Bombay was due to larger imports of silver (16,70), copper and brass (3,36), and spirits (1,75), and to the imposition of a special duty on beet sugar (1,78), partly counterbalanced by a decline in the imports of Austro-Hungarian (4,04) and other sugar (3,69), cotton piece goods (5,73), and articles of food and drink (2,78). The decrease in Bengal was the result of diminished imports of petroleum (58), due to larger stocks at the commencement of the year and increasing competition of the Burma product, Austro-Hungarian (1,30) and other kinds of European sugar (1,89), the former due to the levy of countervailing duties; cotton goods (82), due to larger stocks in this country and high prices ruling in England; silver bullion and coin (1,37), due to free importation of silver for coinage of British Dollars; and oils (42); partly counterbalanced by larger influx of spirits and liquors (1,51) and articles of food and drink (44), chemical drugs (33), and inferior metals, such as brass, copper and iron (3,32). The decrease compared with the receipts of the previous year, was due to unusually high imports of sugar (countervailing duties), sugar (ordinary duties), and cotton manufactures in Bengal (5,99) and Bombay (8,51) in that year. The variations under *Export Duties* are all connected with the export of rice to other countries, there having been specially large shipments from Burma to Japan and parts of China, where there was a failure of crops. This cause also explains the large difference (34,79) between the actuals of the two years. Under *Excise Duties on Cotton Manufactures*, the increase in the Central Provinces (22), was due to good cotton crops and the establishment of a new mill, while that in Madras (23), was attributable to an increased demand for locally-made articles in other parts of India and Burma. The large excess in Bombay (3,34), was ascribed to the general recovery of trade after the disappearance of the famine and to increased production of cotton goods for home consumption. The small excess under *Land Customs and Miscellaneous* was the result chiefly of an increase in Madras (99), due to the Budget having been underestimated, counterbalanced by deficits in Bengal (32), and Bombay (28). In Bengal, the decrease was chiefly under Warehouse and Wharf Rents, due to facilities afforded for paying duty before the arrival of vessels and for clearing goods, and Miscellaneous chiefly due to a decline in the receipts from overtime fees. In Bombay, it was under transhipment fees and other minor items.

45. The revenue under this head exceeded the Budget Estimate and the actuals of the previous year by 6,89 and 6,16 respectively. Of this improvement Berar figures contributed 1,20 As compared with the Budget Estimate, there were increases in most of the provinces, in Central Provinces and Burma, there was a decrease, while in Assam and the United Provinces of Agra and Oudh, the actuals closely followed the Budget The improvement in India (62), occurred chiefly in the receipts from the Military and Public Works Departments; in Bengal (1,52), it was attributed to more thorough assessments in the districts and to larger assessments on Jute Companies and Jute Presses in Calcutta. In the Punjab (66), general improvement in trade, increased care in collections and recovery of arrears brought about the improvement, which in Bombay (2,28) was due to an increase in the establishments of Railway Companies, Firms and Mills, to the re-opening of some of the mills and cotton presses which were closed on account of the depression in mill-industry, caused by famine and plague, to an increase in the number of public securities, to an improvement in the agricultural conditions and to greater care exercised in fixing the assessments In Madras (1,34), sufficient provision was not made for the growth of the revenue, while in the North-West Frontier Province (6), the construction of the Nowshera Railway bridge and of the Kohat-Khushalgarh-Thal Railway brought in some unexpected receipts. The decline in Burma (44), was traceable to the falling-off in trade in Rangoon, while that in Central Provinces was due to the abolition of license tax (Pandhri) and to the writes-off by money-lenders after the famine, of large irrecoverable debts which reduced the income assessable for tax. As compared with the previous year, the increases occurred chiefly in India (69), Bengal (2,00), North-West Frontier Province (71), Madras (90) and Bombay (1,09), and were traceable to the causes indicated above

46. The *India* figures include, in addition to the collections made in the Districts directly administered by the Government of India, the recoveries by the Non-Civil Departments from the salaries of Government Officers The details are given below :—

	Accounts. 1902-3												1,298,1

47. The revenue under this head exceeded the Budget Estimate and the actuals of the previous year by 1,15 and 21,11, respectively. The actuals of the year included 1,67 on account of Berar figures. The increase, as compared with the Budget Estimate, occurred in all the provinces except India, Burma and Bombay. The largest increase occurred in the United Provinces of Agra and Oudh (3,59), where the improvement was due to larger sales of sleepers to railways and heavier demands for all kinds of forest produce. There were also considerable increases in Punjab (1,06), due to the sale of unmarked and confiscated timber in stock from the previous year, and larger collections of grazing revenue, and in Madras (1,14), due to a more favourable season and better supervision, while North-West Frontier Province, Assam, Central Provinces and Berar, respectively contributed (75), (60), (48), and (1,67) to the increase. The decrease in Burma (6,61), was due to less extraction of timber and depression in the India-rubber trade; while that in Bombay (1,21), was due to curtailment of departmental operations and slack demand for timber and firewood. In India (33), the sales of the Andaman Padouk timber were smaller than was anticipated in the London market. Compared with the actuals of the previous year there were increases in all the provinces except Bengal and Bombay. In Burma (8,65), the increase was due to the high prices obtained at the auction sales of timber, and to large sales of timber in stock at the end of the previous year. In the Central Provinces (4,01), it was due to the supply of quantity of sleepers to the Satpura and Gondia-Jabbalpur Railways and of timber to the Ordnance Department. In the United Provinces of Agra and Oudh (3,09) there was a good demand for all kinds of forest produce; while larger sales of sleepers and fuel to the railways accounted for the increase in the Punjab (1,40). The increase in the North-West Frontier Province (88), was due to larger demands from the Ordnance and the Public Works Departments, that in India (90), to larger receipts from the sale of Padouk timber in London, that in Madras (71) to larger sales of engine fuel, and that in Assam (67) to larger sales of timber to railways. The decrease in Bombay (51) was due to larger sales of timber to the Southern Mahratta Railway and the Gun Carriage Factory in the previous year.

48. Under *Timber and other Produce removed by Government Agency*, the decrease as compared with the Budget in India (37), was due to less sales of Padouk timber in London; that in Burma (68), to less extraction of timber and depression of the India-rubber trade; that, in Central Provinces (26), to revenue from the sale of sleeper and timber not having been realized to the extent anticipated; that in Bengal (22), to the road in the Teesta Valley having been blocked, and to curtailment of departmental operations in Angul; that in Madras (38), to slack demand for timber and bamboo, and that in Bombay (31), to the curtailment of departmental operations and slack demand for timber and firewood. The increases in Assam (21), and United Provinces of Agra and Oudh (28), were due to larger demand for timber for railways, while that in the North-West Frontier Province (39), to sale of timber to the Ordnance Department, and to larger sales of fuel and charcoal Under *Timber and other Produce removed by consumers or purchasers,* improvements occurred in all the provinces except Burma and Bombay, and were mainly due to larger sale of sleepers to railways in the United Provinces of Agra and Oudh, and to a more favourable season and better supervision in Madras. Under *Other Receipts,* the increase was generally due to better receipts from Confiscated Drift and Waif wood and Miscellaneous revenue.

49 The total receipts practically corresponded with the Budget Estimate and the actuals of the preceding year, but excluding Berar figures, the revenue shewed a deficit compared with both these standards. This deficit was chiefly contributed by Madras, where improved conditions prevailed and Bombay, where *taccâvi* advances were granted on a liberal scale which rendered the cultivators less dependent on advances from money-lenders. The prevalence of the plague also to some extent, affected the receipts. Bengal, on the other hand, showed some improvement due to the partial failure of crops and survey and settlement operations in some districts.

50. The receipts under this head are, for the most part, fixed. The variations that occur, arise generally from the non-payment of dues or from advance or arrear collections. The total receipts exceeded the Budget Estimate and the actuals of the previous year by 1,01 and 4,53, respectively. The excess over the Budget, was chiefly attributed to the lump deduction of 2,25 made from the Estimates on account of anticipated suspension.

51. Under *Tributes* the decrease, as compared with the Budget Estimate, in India (1,09), was due to the recovery of the Mahratta Chouth (1,08), previously met from the Berar revenues, having been stopped on the perpetual lease of that province to the British Government, to the loss by exchange (21) in the recovery of the tribute payable by the Rutlam State, which is fixed in local currency, and to short recoveries from the Banswara (17) and the Sailana State (22), owing to the straitened condition of their finances in consequence of the famine, partly counterbalanced by an excess recovery from the Boondee (60), and the Dewas (56) States, on account of arrears due for the year 1901-2. The decrease of 1,41 in Bombay was due to the short recovery of 38 from Kathiawar and of 1,11 from the Baroda State, owing to the inability of some of the States to pay their dues on account of famine, partly counterbalanced by the recovery of arrears to the extent of 8. On the other hand, there was an excess of 46 in the Central Provinces, due partly to advance payments and partly to arrear collections; of 29 in Burma, due to the full realization of the tribute from the Shan States—the remission of 25 provided in the Budget having been made by a refund, and of 9 in the Punjab, chiefly due to the payment in advance, of the tribute payable by the Bilaspore State. Under *Contributions*, the improvement of 1,42 in India and 11 in Bombay, resulting in a total increase of 1,53, was mainly due to the recovery of arrears. Under *Fees on Succession to Native States*, the decrease of 1,11 was mainly due to the exemption of the Dewas State (35) from the payment of *Nazarana*, to the postponement of the payment by the Sitaman State (8) under the orders of Government, to the payment, in the preceding year, of 30 by the Nandgaon State in the Central Provinces, estimated for recovery in 1902-3; and to the remission and postponement of *Nazarana* from Sunth, Savantvadi and Vanod States under Government orders, and to the postponement of payment from various petty States in Bombay (57), partly counterbalanced by an unforeseen recovery of 20 in Punjab on account of the first instalment of the *Nazarana* payable by the Nawab of the Pataudi State.

52. The increase, as compared with the actuals of the preceding year, was chiefly contributed by India (2,87), Burma (65), Punjab (18), and Bombay (1,06), where it was due chiefly to the recovery of arrear tributes and payments on account of fees on succession. Central Provinces, on the other hand, showed a decrease due to the recovery in the preceding year, of a tribute due in the year under report.

Section A.—DIRECT DEMANDS ON THE REVENUES.

53. The expenditure in this section showed a saving of £360,9 or R54,14 as compared with the Budget Estimate, and an excess of £190,9 or R28,64 as compared with the actuals of the previous year. As compared with the Budget there was a saving of £33,5 or R5,04 under Assignments and Compensations, chiefly in Land Revenue compensations in Assam, Madras and Bombay, and in Salt compensations in India and Madras, owing to fixed allowances and grants not having been drawn; of £156,0 or R23,40 under Land Revenue, owing to reduced expenditure on account of District Administration, mainly under Salaries and Establishment, on account of Survey and Settlement, due to the provision for certain surveys not having been utilized, and to the full programme of operations not having been carried out in the case of others, and on account of Land Records and Agriculture due to the provision for revision of Establishments and Survey operations not having been fully required, of £124,8 or R18,72 under Opium, owing to short outturn of the crop; of £12,4 or R1,86 under Salt, due to less manufacturing charges in India owing to an unfavourable season, and to less expenditure on Preventive Establishment in India, Bengal and Bombay, of £7,1 or R1,07 under Stamps, owing mainly to the smaller demand of stores from England than was anticipated, of £16,5 or R2,47 under Excise, due to the revision of Opium arrangements in Burma having been only partially sanctioned, and the sanctioned scale entertained for a part of the year, to less charges on account of rewards in the United Provinces of Agra and Oudh, to small establishment charges in Bombay, and an over-estimate in Madras, of £4,7 or R71 under Provincial Rates, owing to less process-serving charges in Bengal, of £7,4 or R1,11 under Customs, owing to the provision for a steam-cutter not having been required in Burma, and to reduced expenditure under Preventive Establishments and Allowances in Bengal; of £72,2 or R10,83 under Forest, owing to an unfavourable floating season and restricted departmental operations in Burma, to the curtailment of timber and firewood operations by Government Agency in Bombay, and generally to works of construction and improvement, not having been carried out to the extent anticipated, in the other provinces; and of £ 3,3 or R50 under Registration, due mainly to savings in commission to sub-registrars. There was, on the other hand, an excess of £77,3 or R11,59 under Refunds and Drawbacks, due to a special adjustment of Land Revenue refunds in Bengal, to large Customs refunds in Burma and Bombay, and to a special refund of Tribute in Burma.

54. Of the increase, as compared with the actuals of the previous year, the principal items are £50,4 or R7,56 under Refunds and Drawbacks, contributed chiefly by Burma, Bengal and Bombay, due to the causes stated above; £47,8 or R7,17 under Land Revenue, due to the expenditure in Berar, and high charges on account of District Administration in Burma and the North-West Frontier Province and Survey and Settlement in the Punjab, North-West Frontier Province and Madras, £39,8 or R5,97 under Opium, due to large payments to cultivators owing to better outturn of the crop; £23,0 or R3,45 under Excise, chiefly in Burma and Bengal, due to the causes stated above; £46,2 or R6,93 under Forest, chiefly

Section A.—DIRECT DEMANDS ON THE REVENUES—*continued.*

due to the large supply of sleepers to railways, and timber to the Ordnance Department in the Central Provinces, to the extensive operations for the improvement of forest in Burma, and to the acquisition of land and purchase of elephants in Madras. These excesses were partly counterbalanced by a decrease of £21,7 or R3,26 under Assignments and Compensations, due chiefly to large payment of arrears in the preceding year of Land Revenue compensation in Bombay and of special compensations to Jagirdars for the resumption of Abkari rights in the Central Provinces.

55. The total expenditure exceeded the Budget Estimate and the actuals of the previous year by 11,59 and 7,56, respectively. The excess, as compared with the Budget Estimate, occurred chiefly under *Land Revenue* (1,12), *Stamps* (34), *Customs* (9,76) and *Other Revenue Refunds* (66). *Salt* refunds, on the other hand, showed a small saving (38). Under *Land Revenue*, the excess in Bengal (1,79) was the result of a special adjustment by which an amount recovered from the Bettiah Estate in previous years, on account of survey and settlement work and credited to I—Land Revenue, was transferred to "Special Advances" by debit to this head. Under *Stamps*, the increase in Burma followed the increase of revenue, while those in the Punjab and Madras were due to an under-

Section A.—DIRECT DEMANDS ON THE REVENUES—*continued.*

1.—Refunds and Drawbacks—*concluded.*

estimate. Under *Customs*, the excesses in Burma (99) were due to an increase of refunds with increase of revenue, in Bengal (1,00) to larger refunds of export duty, of countervailing sugar duties, and duties on arms and metals other than silver, and in Bombay (7,70), partly to refunds of the difference of countervailing duties on sugar and partly to large payments to the Kashmir Durbar, chiefly in consequence of larger exports of bounty-fed and other sugar, spirits, etc., to that State Under *Other Revenue Refunds*, the increase in Burma (83), represents remissions of tributes made by refund of amounts already collected instead of by short recovery of the amount due, in Bengal (14), it was due to larger refunds of Road and Public Works Cesses, while in Madras (18), it was ascribed to large Forest refunds in the districts of Nellore and Anantapore, and to the refund of the balance of Irrigation Cess collected in excess in the Trichinopoly district The excess in the Punjab (6), was the result of an under-estimate. On the other hand, there was a saving of 66, chiefly in Bombay and the United Provinces of Agra and Oudh. The decrease under *Salt* was due to smaller refunds in Bengal, to smaller exports of duty-paid salt from Madras to Burma, partly counterbalanced by excesses in India in the payments to the Bikaneer Durbar for half duty on sales from the Didwana and Phalodi salt sources, and in Bombay in the payments of arrear claims of wastage allowance. The excess over the actuals of the previous year was chiefly contributed by Burma (152), Bengal (1,87), and Bombay (4,86), and was due to the causes explained above.

Section A—DIRECT DEMANDS ON THE REVENUES—*continued.*

2.—Assignments and Compensations.—*concluded*

56. The expenditure fell short of the Budget Estimate and the actuals of the previous year by 5,01 and 3,26 respectively. The saving, as compared with the Budget Estimate, was contributed by all the heads except *Customs Compensations* and *Purchase of Life Pensions.* The saving of 2,97, under *Land Revenue Compensations* was chiefly due to the amount payable to the Rani of Bijni not having been paid in Assam (24); to smaller Malikana payments and smaller payments of pensions in lieu of resumed lands in Bengal (14); to the discontinuance of the pension paid to the ex-ubaridars of the Gursarai Estate in the Jhansi District consequent upon the release of the Estate in the United Provinces of Agra and Oudh (12), to smaller payments of Malikana Allowances, partly counterbalanced by an increase under Pensions in lieu of Resumed Lands, caused by the payment of arrears in Madras (34), and to smaller expenditure on account of fixed allowances and lapses and relinquishments of *inams* in Bombay (2,09). The saving of 6 under *Opium Compensations* occurred in Bombay, and was attributable to fixed grants not having been drawn before the close of the year. Under *Salt Compensations* the saving of 99 occurred chiefly in India (66), and Madras (37), and was due in the former case to smaller payments on account of Royalty payable to the Jodhpore and Jaipore States under the Sambhar Lake Treaty, which vary with the sales at the Sambhar Lake In the latter, it was due to the compensation for the suppression of earth-salt manufacture payable to the Pudukkottai State not having been paid. Under *Excise Compensations* in Bombay, the provision of 15 for the payment of compensations to Native States for leasing the hemp drugs revenue was not used, and the grants to Akalkot, Phaltan and Rewa Kantha Chiefs to the extent of 17, were not drawn in full. Under *Miscellaneous Compensations*, the saving in Central Provinces (6), was due to lapses and pensions of the last quarter remaining undrawn before the close of the year; in Punjab (62), to the grant for compensations in connection with Hoshiarpur "Chos" operations not having been utilized, and in Bombay (7), to the fixed grants not having been drawn before the close of the year The decrease, as compared with the actuals of the previous year, occurred chiefly in India (48), Central Provinces (1,42), Madras (62), and or Bombay (90), and were due in nearly all cases to the causes mentioned above In the Central Provinces it was due to the payment in the preceding year of new compensations sanctioned to the Jagirdars of the Chindwara and Hoshangabad districts, for the resumption of certain Abkari right. The excess of 3 (Imperial) in Berar has been sanctioned.

57. The Indian expenditure showed a saving of 23,27 as compared with the Budget Estimate, but exceeded the actuals of the previous year by 7,24 As compared with the Budget, the saving was contributed by all the heads, except *Commission on Collections* and *Other Charges*, but chiefly by *Charges of District Administration* (4,21), mainly under Salaries and Establishment, by *Survey and Settlement* (11,57), due to the provision for certain operations not having been utilized, and the estimated programme in others not having been carried out to its full extent, and by *Land Records and Agriculture* (5,36), due to the provision for revision of Establishment and survey operations not having been fully required. The lump provision of 1,25 in the United Provinces of Agra and Oudh and of 88 in Madras was also not utilized and contributed to the savings. As compared with the previous year, the excess occurred under *Charges of District Administration* (4,07), and *Survey and Settlement* (2,44). The principal contributors to the increase under the first head were the North-West Frontier Province (1,95), Burma (1,33), and Berar (2,44), for which latter no provision was made in the Budget, while those to the second were Punjab, North-West Frontier Province and Madras.

58. Under *Charges of District Administration* the excess, as compared with the Budget in India (5), was principally due to the revision of Sub-Divisional Establishments, and to an outlay for the purchase of oil-cloth for the destruction of locusts in Baluchistan. The saving in the Central Provinces (76), was partly in the salaries of officers and partly in the provision for the improvement of the pay of Ministerial Establishments, the proposals for which were not sanctioned by the Secretary of State. The decrease in Assam (1,25) occurred partly under Salaries (38), owing to leave vacancies and payment of leave allowance in Bengal, and partly in the provision (73) for improving the position of District Office and Subordinate Revenue Establishments, while that in Bengal (1,81) and United Provinces of Agra and Oudh occurred entirely under Salaries and Establishments. The excess in Burma (4) was caused by increases under Sub-Divisional Establishment (10) and Supplies and Services (62), the latter due to the acquisition of land in Rangoon for the Victoria Memorial Park, and to compensation for lands acquired in Bassein, partly counterbalanced by decreases under Salaries due to the proposal for the creation of the new Pyapon District not having been sanctioned during the year. The short expenditure in the Punjab (1,08), was due to the partial utilization of the special grant of one lakh given by the Government of India and the non-utilization of the grant for the new Attock District A low Budget accounted for the excess in the North-West Frontier Province (22). In Madras the credit taken in the Budget on account of absence of officers on leave out of India proved too little by 46. The decrease in Bombay (65) was mainly due to the additional grant of 1,68 out of the 3½ lakhs allotted for Provincial expenditure not having been fully utilized, and to the recoveries on account of Foreign service of the third kind having been in excess of the original estimate, partly counterbalanced by increases under Salaries and Establishments, including Temporary Famine Establishments and Supplies and Services, chiefly in connection with the construction and repair of the Chavadis (Village offices).

59. Under *Survey and Settlement*, the saving in the Central Provinces was due to the operations for the abatement of land revenue, to the postponement of map corrections for another year, and to the lower rate of pay drawn by Settlement Officers. In Burma, it was due partly to smaller transfers on account of Survey of India charges and partly to the provision for Katha and Myingyan-Magwe surveys not having been utilized. The small excess in Assam represents cost of Settlement operations in the Sibsagar and Kamrup

Section A.—DIRECT DEMANDS ON THE REVENUES—*continued.*

3.—Land Revenue—*concluded.*

districts which were not foreseen in the Budget. In Bengal, the Budget was over-estimated. In the United Provinces of Agra and Oudh the cost of the Traverse Survey of the Allahabad District was treated as an Imperial charge, and the full programme of operations was also not carried out. In the Punjab there was a delay in starting settlement operations, while in Madras the No. V. Re-survey Party provided for in the Budget, was not created, and the provision for the revision of the office establishment of the Superintendent, Revenue Survey, was not utilized. The saving in Bombay was chiefly under Freight on Europe Stores, chemicals for the Photo-zincographic Office, payments to officers of other provinces and Jamrao Canal Colonization charges. Under *Land Records and Agriculture,* the decrease in Central Provinces was due to improvements in the Land Record staff in the Chattisgarh Division having been carried out late in the year. In Burma it resulted mainly from the programme of supplementary operations not having been carried out in full. The saving in the United Provinces of Agra and Oudh occurred chiefly under Kanango Establishments (16) and Land Record Surveys (1,15), the latter owing to the abolition of the Etah and Jalaun Survey Parties. In the Punjab the expenditure from the Patwaris' Fund was over-estimated in the Budget. In North-West Frontier Province the Budget was over-estimated and the contribution from Patwar Funds was adjusted by deduction from expenditure. In Madras the special provision of 75 for the formation of a Land Record staff was not utilized, the appointment of an Assistant to the Director of Land Records was not created, the charges on account of Agricultural Inspectors were transferred to 26—Scientific, etc—Experimental Cultivation, and the charges on account of Karnams and their assistants were over-estimated. In Bombay there were savings in salaries, due to absentees, in the grant for allowances to District and Village Officers, and in the charges for the Akrani Survey, partly counterbalanced by an increase in the indirect famine charges. The increase under *Management of Government Estates* in Bengal, occurred chiefly under Salaries and Establishments, while the decrease in the United Provinces of Agra and Oudh was due to savings under Supplies and Services. Under *Commission on Land Revenue Collections* the increase in Burma was due to the facility afforded by the Local Government for the disbursement of the commission at Sub-treasuries in which the revenue is paid, while that in Assam was due to the increase of revenue. Under *Allowances to District and Village Officers,* the absence of actuals in the United Provinces of Agra and Oudh was due to the transfer of the account of the estates to a Personal Ledger account. In Madras, there was delay in the introduction of the revised scheme of Village Establishment in certain taluks in Malabar, and the provision for the payment of arrear salaries was only partially utilized. The decrease in Bombay was in the assessment for alienated lands which was over-estimated by District Officers. The excesses of 2 (Imperial) in India and 3 (Imperial) in the North-West Frontier Province and 330 (Imperial) in Berar have been sanctioned, and of 18 (Imperial) in the North-West Frontier Province and 2 (Imperial) in Berar require the sanction of the Government of India.

60. The Indian expenditure fell short of the Budget Estimate by 18,78, but exceeded the actuals of the previous year by 5,60. These variations were the result mainly of fluctuations in the outturn of the crop which in the year under review, amounted to 90,608 maunds against 1,00,098 maunds estimated

Section A.—DIRECT DEMANDS ON THE REVENUES—*continued.*

4.—Opium—*concluded.*

in the Budget, and 89,682 maunds, produced in the previous year. The *Payments to Cultivators* which form the bulk of the charges, fell short of the Estimate by 16,42 in both the Agencies taken together. Under *Opium Factory* the saving of 62 in the Behar Agency occurred under Manufacturing Charges (22), Freight on Europe Stores (44) and Payments for Timber (9); and that of 80 in the Benares Agency chiefly under Freight (39) and Manufacturing charges (39). Under *District Staff* the decrease of 71 in the Benares Agency was due chiefly to savings under Salaries (41) and Supplies and Services (37), counterbalanced by an excess under Allowances (10), and that in the Behar Agency (33) to savings under Salaries (11) and Supplies and Services (13). The excess of 2 (Imperial) in Bombay requires to be sanctioned.

61. Larger demands for stores account for the variations in England.

62. The expenditure in India showed a saving of 1,85, as compared with the Budget, and an excess of 44, as compared with the actuals of the previous year. In India the saving of 47, as compared with the Budget Estimate, under *Salaries, Establishment, etc.*, was the result of savings in the charges for Preventive Establishment (33) due to the transfer of officers and their absence on long leave and reductions in menial establishment, in Through Traffic Charges (20), due to a decline in the trade at Sambhar (7), Pachbhudra (8) and Mines (5), and in the charges for supplies and services, and petty construction and repairs (12), counterbalanced by excesses in travelling allowance (11) and salaries of officers and conveyance of tents (7). The saving of 1,14 under *Manufacture and Excavation* was due to the unfavourable manufacturing season. The savings, as compared with the previous year, were due to the same causes. The saving of 57, as compared with the Budget, in Bengal under *Salaries, Establishment, etc*, was due to the full complement of establishment not having been entertained, and to the provision for petty construction and repairs, and cost of lands not having been fully utilized. The decrease in Bombay was due to absentees and the grants for petty construction not having been fully utilized, counterbalanced by an excess under *Purchase and Freight* in Sindh. In Madras the excess of 1,36 under *Purchase and Freight,* due to larger quantities of salt having been put into stock, was partly counterbalanced by a saving of 87 under *Salaries, Establishments, etc.*, due to smaller charges on account of petty construction, excise licensees' works and supplies and services. The excess in Madras was covered by re-appropriation of 1,17 and an additional grant of 33 sanctioned by the Government of India, and that in Bombay under *Purchase and Freight* by an additional grant sanctioned by the Government of India. The excess of 1 (Imperial) in Burma was sanctioned but that of 87 (Imperial) in Madras requires the sanction of the Government of India.

63. The decrease in the English expenditure was caused by smaller demands for stores.

66. The total expenditure under this head showed a saving of 2,47 as compared with the Budget, but exceeded the actuals of the previous year by 3,46. The saving, as compared with the Budget occurred in all the provinces except Bengal and Punjab. The saving in Burma (1,74) was due to the proposed revision of opium arrangements in Lower Burma having been only partially sanctioned by the

Section A.—DIRECT DEMANDS ON THE REVENUES—*continued.*

7.—Excise—*concluded.*

Government of India, and the revised scale having been entertained only for a part of the year. In the United Provinces of Agra and Oudh (23), it was due chiefly to smaller expenditure under Rewards and to delay in carrying out reforms in distilleries. The decrease in Madras (41), was due to over-estimate, while that in Bombay (37), was chiefly under establishment charges due to absentees, under travelling allowance and allowances to village officers for collecting tree tapping fees, as well as under Rewards to informers The excess of 19 in Bengal occurred under District Executive Establishment, and was due to increased expenditure under Salaries (12) and Allowances (20), partly counterbalanced by savings under Preventive Establishment (9) and under Sudder Establishment (5) As compared with the previous year, the important excesses were those in Burma (2,47) and Bengal (89), which were due to the causes already mentioned The excesses of 9 (Imperial) and 9 (Provincial) in Bengal 1 (Imperial) in the Punjab and 12 (Imperial) in Berar have been sanctioned and the excess of 1 (Imperial) in Bengal, requires to be sanctioned.

67. The charges under this head were less than the Budget Estimate, and the actuals of the previous year by 72 and 9, respectively. As compared with the Budget, the decrease occurred chiefly in Bengal (57), and arose mostly out of savings under process-serving charges, counterbalanced by excesses under Establishment charges for valuation and revaluation work, and proportionate cost of the Certificate and the Touzi Establishments debitable to this head. Smaller recoveries on account of cost of collection of arrear cesses also contributed to reduce the savings. The decrease in Bombay was due to a falling-off in the collections of Local Fund Cess in the Ahmedabad, Broach and Ahmednagar districts on account of late crops and remissions. Compared with the actuals of the previous year, the saving occurred in Bengal under Establishment in connection with the collection of rates and cesses and valuation and revaluation work, and was to some extent counterbalanced by an excess in Bombay due to the payment of arrears.

68. As compared with the Budget, the expenditure in India showed a decrease of 1,11, which was confined chiefly to Burma and Bengal. In the former, the decrease was chiefly due to the provision for a steam-cutter not having been required. It would have been less owing to the posting of an officer drawing a higher rate of salary as Chief Collector of Customs in place of the permanent incumbent who was on privilege leave, had not the excess expenditure thus caused been counterbalanced by savings in the salary of the Assistant Collector and his establishment, and supplies and services. The decrease in Bengal occurred chiefly under Preventive Establishment and Allowances. These decreases were partly counterbalanced by an increase of 28 in Bombay of which 6 was on account of larger payments of salaries in consequence of absences on leave and travelling allowances, 7 was due to the payment in full settlement of the claims for detention of certain consignments of alizorine at the Bombay Customs House, and 15 was due to the revision of the establishment of the Karachi Customs House in Sindh. Out of the excess (28) in Bombay, 18 was covered by additional grants sanctioned by the Government of India, while the balance of 10 (Imperial) is still awaiting sanction.

70. The total expenditure under this head fell short of the Budget Estimate by 10,85, but exceeded the actuals of the previous year by 7,28. The saving, as compared with the Budget Estimate, occurred under *Timber and Other Produce removed from the Forests by Government Agency* (4,90), *Other Charges* (5,87) and *Establishment* (71). The saving under the first head occurred chiefly in Burma (3,04) and Bombay (1,29), and was due to a bad floating season and to restricted departmental operations in the former, and to the curtailment of timber and firewood operations by Government Agency in the latter. The decrease under *Other Charges* was contributed by all the Provinces except India and the United Provinces of Agra and Oudh, and was due generally to works of construction and improvement not having been carried out to the extent estimated for. The excess in India (14) was due to larger expenditure on the feed and keep of elephants and buffaloes in the Andamans and on roads and buildings, while that in the United Provinces (24) was attributed to larger expenditure on communications and buildings and to the purchase of the Shibka forests in the Garhwal Division, for which a large amount of compensation had to be paid The short expenditure under *Establishment* was common to all the provinces except Burma and Punjab. The falling-off was mainly due to the absence of officers on leave and to savings in the pay of subordinate forest and office establishments. The excess in Burma (2) was due to revision of establishment, while that in the Punjab (7) to leave arrangements.

71. As compared with the previous year, the increase occurred in all the provinces except Bombay, Bengal and Assam In India (79), it was chiefly due to the purchase of portable tramway and rolling stock, construction of new timber boats, and larger expenditure on the feed and keep of cattle. In Central Provinces (1,76), it was due to extra expenditure on timber works in connection with the supply of sleepers to the Railways and of timber to the Ordnance Department. In Burma (2,43) more extended operations for reservation, protection, improvement and exploitation caused the excess, while in the Punjab (22) was due to larger extraction of fuel by Departmental Agency. In the North-West Frontier Province, the actuals for 1901-2 represented figures for 5 months only, the province having been separated from the Punjab from the 9th November 1901. The acquisition of the Wynaad Syndicate land in North Malabar and the purchase of nine elephants accounted for the increase in Madras (1,27). In Bombay (44) the difference in the actuals of the two years was due to indirect famine charges and to charges for timber and other operations having been higher in the previous year. The excesses of 5 in the United Provinces of Agra and Oudh and of 1,06 (Imperial) in Berar have been sanctioned by the Government of India.

72. In England, the excess of £5 on account of cost of copies of Gamble's "Manual of Indian Timbers" was counterbalanced by a falling off of £4 under Stores for India, which was over-estimated.—

73. The charges fell short of the Budget Estimate by 49 but exceeded the actuals of the previous year by 2. The savings, as compared with the Budget Estimate, was contributed chiefly by the United Provinces of Agra and Oudh, Punjab, Madras and Bombay. The saving in the United Provinces of Agra and Oudh (17) was under Commission to Sub-Registrars (48), counterbalanced by increased charges under Salaries and Establishments (31), owing to the introduction of a new system of remunerating Sub-Registrars in Oudh. In Punjab and Bombay the decreases, as compared with both the Budget and the accounts of the previous year, were chiefly due to smaller payments of commission to Sub-Registrars consequent on a decline in the revenue, while that in Madras was due to the provision for new Sub-Registry offices, for additional establishment in existing offices, and for petty construction and repairs not having been fully utilized.

77,2	England	30,0	150,7	157,3
785,7	TOTAL .	764,2	872,2	867,7

74. The receipts in this section exceeded the Budget by £103,5 or R15,52, and the actuals of the preceding year by £82,0 or R12,30. The improvement, occurred mostly in England, where larger sums were invested and at a higher rate than was estimated for, and the 3 per cent. India stock of £1,500,0 was issued at a premium.

75. The Indian receipts showed a small decrease, as compared with the Budget, due partly to the improved conditions of the cultivators which enabled them to pay off their debts, and partly to smaller recoveries from Native States, owing to the continuance of the famine and the remissions granted by Government.

76. The Indian receipts under this head arise mainly out of the Paper Currency investment, and Loans granted to Municipalities and other public bodies, Native States and cultivators. No alteration was made in the amount of the first during the year.

77 The following statement shows the balances of the different kinds of loans during the last five years:—

	31st March 1899	31st March 1900	31st March 1901	31st March 1902	31st March 1903

78. The interest paid in 1902-3 by Local Governments to the Government of India on account of loans held on the Provincial Account amounted to R17,16 or £114,4, while the actual sum realized and credited to Provincial Revenues amounted, in the aggregate, to R15,66 or £104,4

Section B.—INTEREST—*continued.*

XII —Interest—*concluded.*

79. The decrease in India under *Interest on Loans to Native States*, chiefly represents short recoveries from the Hyderabad (40), and the Jodhpur States (24) owing to remissions sanctioned by the Government of India. The advance payment in 1901 2 of one instalment of loan with interest by the Nandgaon State, and the postponement of the instalment payable by the Khairgarh State till 1903-4, account for the decrease in Central Provinces. In the Punjab the Budget erroneously provided for the interest on the loan granted to the Jhind State, which was not due till the next year. In Bombay, the Native States were in some cases unable to pay up their dues, in consequence of the continuance of famine; in some others they availed themselves of the concession, announced at the Delhi Durbar, regarding the remission of interest (including arrears) The excess over the actuals of last year was due to larger recoveries from the Berar Administration and the Native States in Bombay.

80 Under *Interest on Loans to Presidency Corporations*, the increase of 73 in Madras was due mainly to the payment made by the Harbour Trust Board, under the new arrangement, of interest up to 31st August 1902, instead of up to 31st March, as in previous years

81 The variations under *Interest on Loans to Municipal and Other Public Corporations*, were insignificant in all provinces except Bengal and the United Provinces of Agra and Oudh The Budget in the former was over-estimated; the decrease of 16 in the latter was due to the Naini Tal Municipality having paid the interest, due in April 1902, in the previous month, to the partial utilization of the allotment placed at the disposal of the Local Government for loans to municipalities, and to the payment of instalments by the Lucknow and Cawnpore Municipalities before due dates.

82. The decrease of 25 in Bombay under *Interest on Loans to Landholders and other Notabilities* was due to the postponement, under the sanction of Government, of the recovery of arrear instalments from the Jath State.

83. The low actuals in the United Provinces of Agra and Oudh under *Interest on Advances to Cultivators, and Advances under Special Laws*, were due to the advances made to the agricultural classes during the last famine having been paid up. Short outturn of *kharif* chiefly accounts for the decrease in Punjab, while agricultural distress was principally responsible for the deficiency in Bombay, where the Budget was also overestimated.

84 Under *Interest on Loans to Railway Companies in India*, the actuals represent interest on advances made to the Kalka-Simla Railway Company, under the orders of the Government of India, which could not be foreseen in the Budget.

85. The increase of 26 in Bombay under *Interest on Loans on Securities of Provincial Funds*, was due almost entirely to the interest on some of the Educational Trust Fund Securities, which remained undrawn in the previous year, owing to the death of one of the joint-receivers, but was realized in the year under report.

86. Under *Interest on Overdrawn Capital, etc.*, the short receipt was chiefly on account of the Bombay, Baroda and Central India Railway where the Budget appears to have been taken too high.

87. The decrease under *Other Items* in Bengal, was due to short realization of interest on arrears of Public Works Cess and Road Cess, while that in the Punjab to the greater portion of the purchase money of waste lands on which interest was payable, having been paid up, and consequent less recovery of interest. The excess in Madras was due partly to excess receipts on account of interest on arrears of Land Revenue and partly to excess payments by the Harbour Trust Board under the new arrangement, mentioned above, on account of intere t on the unpaid portion of purchase money of waste lands.

88 The increase in England was due to the sums available for investment having been much larger, and the rate of interest obtained during a portion of the year higher than was estimated. A sum of £18,6 was also realised as premium on the issue of the 3 per cent. stock, India, of £1,500,0 for which no provision was inserted in the Budget.

89. The charges in this section showed a saving of £82,4 or R12,36, as compared with the Budget Estimate, and of £111,6 or R16,74, as compared with the actuals of the preceding year. The saving, as compared with the Budget, was due, in India, to smaller charges on account of discount,—the result of the favourable rate at which the new loan of 150 lakhs was raised. The decrease in England was due to a lower rate of interest on the new India Bills, to Bills to the value of £500,0 having been discharged without replacement, and to a provision of £10,0 included in the Budget for interest on temporary loans from the Bank of England, not having been required.

13.—Interest on Ordinary Debt.

90. The following figures give the particulars of loans raised or discharged during the years 1901-2 and 1902-3 :—

91. In India, as announced in the Budget, a rupee loan of 1,50,00 was raised on the 9th June 1902, at an average rate of R97-9-10 2. Of the balance of loans previously notified for discharge, 1,73 was paid off, consisting of 3, 1,31 and 39 of the 4½, 4 and 3½ per cent. loans respectively. Out of the loans bearing interest, 12,00 was paid, on account of the Gwalior Loan, in accordance with the terms of the agreement under which the loan was taken.

92. In England, the Sterling Loan of £1,500,0 was issued early in May, tenders being invited at a minimum of 99 per cent. The applications received exceeded 10¼ millions sterling, the average rate of accepted tenders was £101-10-2, and the lowest accepted rate was £101-7-6 per cent. In accordance with the intention of the Budget programme, £1,368,8 of this loan was applied to the discharge of the Great Indian Peninsula Railway Debentures.

Section B.—INTEREST—*continued.*

13.—Interest on Ordinary Debt—*continued.*

93. As regards Temporary Loans, the Budget Estimate provided for the issue of £4,000,0 India Sterling Bills to replace Bills of a corresponding amount falling due in 1902-3. But as a departure from the Budget programme, only £3,500,0 were replaced by new issues.

The total Interest on debt paid in India and in England is shown below.—

Debt in India on 31st March 1902—

1901-2 Accounts.	Rate.	Principal	Interest due	1902-3 Budget	1902-3 Revised	1902-3 Accounts.

5,499,0	TOTAL	5,656,2	5,654,4	5,658,2

95. In India, the total payments of interest were less than the Budget by 6,76, which mainly consisted of a decrease of 6,04 under *Discount on Loans*, and of 1,43 under 3½ per cent. loans. The decrease under 3½ per cent Loans, indicated short payments of interest, under the loans of 1854-55 (29), of 1865 (17), of 1879 (75), and of 1900-1 (83), partly counterbalanced by excess payments under the loan of 1842-43 (61) The 3 per cent. loan of 1896-97 also shewed a small excess (67). The decrease under *Discount on Loans*, was due to the favourable rate at which the new loan of 150 lakhs was raised, while that under 3 per cent. loans was due to a heavy amount of interest remaining unclaimed at the end of the year. The excess under *Interest on Provincial Debentures*, represents additional payments on account of surplus profits of the Cawnpore-Achneyra Section of the Rajputana-Malwa Railway.

Section B.—INTEREST—*continued.*

13.—Interest on Ordinary Debt.—*concluded.*

96. There was excess of 92 in India under *Interest on Debt,—State Railways,* which was entirely due to extensive outlay on Railways, requiring the sanction of the Government of India. The capital expenditure on Irrigation Works was less than the Budget grants which could not be fully utilized in 1902-3; and the interest charge was consequently smaller, the result being a net excess of 43 under the head *Interest on Debt for Railways and Irrigation.* There is an excess of 1,64 (Provincial) in Bombay which requires to be sanctioned

97. In England there was a saving of £36,4, composed of £35,6 under *Interest on Ordinary Debt,* and of £8 under *Interest on Debt for Railways.* The former is made up of a decrease of £26,6 in interest on India Bills, due partly to £500,0 Bills, discharged in March 1903, not having been replaced, and partly to the rate of interest on the new Bills having been lower than was estimated, and of £10,0 which was included in the Budget for interest on temporary loans from the Bank of England not having been required The latter was on account of India 3 per cent stock, created for the discharge of the Great Indian Peninsula Railway Debentures falling due in 1902-3, which was issued on more favourable terms than had been anticipated

98. The Indian expenditure under this head closely followed the Budget, but exceeded the actuals of the previous year by 2,53. Compared with the Budget, there were small increases under *Interest on Special Loans* in India (11) and United Provinces of Agra and Oudh (6), which were, however, partly counterbalanced by a saving in Bombay (5). Payment of arrears due on the 8 per cent. Perpetual Loan, Madras, was mainly the cause of the excess in India. The saving in Bombay, which occurred under interest on Educational Funds, was due to the interest accruing thereon, not having been fully drawn The decrease in India

Section B.—INTEREST—*concluded.*

14.—Interest on other Obligations—*concluded.*

(6) under *Interest on Treasury Notes and Service Funds,* which was chiefly due to the interest on Treasury notes on account of the Bhonsla and other Nagpur Temples, having remained partially undrawn, was more than counterbalanced by the excess in Bombay (10), which was chiefly due to the interest charges on the Bombay Uncovenanted Service Family Pension Fund having been higher than allowed for in the Budget Estimate The decrease under *Interest on Savings Bank Deposits,* in India, was on account of the Post Office Savings Bank Deposits. The excess, compared with the actuals of the previous year, was attributable to the normal growth of the operations.

99. The usual details of the interest on Treasury Notes and Service Funds, and Savings Bank deposits are noted below —

100. Under *Post Office* the net receipts showed an excess of £60,0 or R9,00, as compared with the Budget Estimate, but fell short of the actuals of the previous year by £20 0 or R3,00. The improvement, as compared with the Budget Estimate, was due to the normal growth of Postal revenue, to increased receipts in consequence of the Coronation Durbar, and to a decrease in expenditure chiefly for the Conveyance of Mails and District Post Charges. The decrease, as compared with the actuals of the previous year, was due to increased expenditure, chiefly in Establishment charges, caused partly by the expansion and development of the Department, and partly by the arrangements in connection with the Coronation Durbar, counterbalanced, to some extent, by an improvement in the receipts from sale of Postage Stamps.

101. The net results of the transactions of the Postal Department for the last five years are shown by the following figures :—

	Net Receipts.
	R
1898-99	18,90
1899-00	18,91
1900-01	20,24
1901-02	15,47
1902-03	12,47

102. Under *Telegraph* the net receipts showed an improvement of £81,1 or R12,16, as compared with the Budget Estimate, and a falling-off of £36,6 or R5,49 as compared with the actuals of the preceding year. The improvement, as compared with the Budget Estimate, was due to better message revenue resulting from the Delhi Durbar, higher receipts from rent of wires and instruments, and a decrease in expenditure owing to the postponement of Capital Works, and smaller payments for stores in England. The decrease, compared with the previous year, was chiefly due to the loss of revenue caused by the reduction in the foreign tariff, which was brought into force from 1st March 1902, partly counterbalanced by the increase due to the Coronation Durbar.

Section C—*continued.*

Mint—*continued.*

103. The net receipts under *Mint* were better than the Budget Estimate by £32,3 or R4,84, but were less than the actuals of the previous year by £64,2 or R9,63. The improvement over the Budget Estimate was due to a larger dollar coinage and recoinages undertaken for the Indore Durbar, of which nothing was known at the time the Estimates were framed. The decrease, compared with the actuals of the preceding year, was due to the absence of any coinage during the year out of purchased silver.

104. The total revenue exceeded the Budget Estimate by R7,93, and the actuals of the previous year by R6,93. The increase, compared with the Budget Estimate, occurred chiefly under *Sale of Postage Stamps—Ordinary* (4,58), and *Service* (89), and *Money Order Receipts* (1,84), and was due in the former case to increased receipts on account of the Coronation Durbar at Delhi combined with the natural growth of the operations of the Department. Under *Money Order Receipts*, the Coronation Durbar brought in a small increase, while the Budget also over-estimated the loss of revenue anticipated in consequence of the reduction in the rate of commission on money orders not exceeding R5 in value. There were also some minor improvements under *Parcel and other Postage Collected in Cash* and *Mail Cart, Parcel Van, Passenger and Goods Service,* the result of under estimates in all cases. On the other hand, the receipts under *District Post Collections* showed a small falling-off, the result of a decrease in the North-West Frontier Province, due to the abolition of the tonga line between Kohat and Khusalgarh on the opening of the railway, and an increase in the Central Provinces due to the recovery of arrear contributions from some Feudatory States.

105. The increase over the actuals of the preceding year occurred chiefly under *Parcel and other Postage Collected in Cash* (23), *Sale of Postage Stamps* (7,17), *Mail Cart, Parcel Van, Passenger and Goods Service* (30), partly counterbalanced by a decrease under *Money Order Receipts* (85). The increases were due to the causes explained above. The decrease under *Money Order Receipts* was the outcome of the reduction in the rate of commission on money orders not exceeding R5 in value mentioned above.

106. The expenditure in India showed a saving of R1,02 compared with the Budget Estimate, but exceeded the actuals of the previous year by R 9,20.

107. The small saving (28), compared with the Budget Estimate, under *Chief Office, Calcutta*, occurred chiefly in the offices of account and audit, and was distributed under all the heads, the savings under Salaries (6) and Establishment (13), being due to absences on leave, change of incumbents, and vacancies. The small increase (19) under *Presidency and District Offices* was spread over several heads. The decrease (37), under *Road Establishment and Contingencies* was due to over-estimate in the grant for allowances for horses and camels (16), to non-appropriation of the allotment for the revision of pay of overseers and runners (4), and to smaller expenditure under Travelling Allowance (5), Grain Compensation Allowance (9), and Rainy Season charges (4). The low actuals under *Railway Charges* were due to smaller payments to the East Indian, Eastern Bengal, Great Indian Peninsula, South Indian, Bombay, Baroda and Central India and Madras Railways, while the decrease, compared with the Budget, under *Mail Cart, Parcel Van, Passenger and Goods Service Establishment and Charges* (8), was in the supplies to the Aligarh Workshop. The excess of 1,10, as compared with the Budget under *Stationery and Printing*, was due to larger supplies of stationery and more printing work done to meet the growing requirements of the Department. Compared with the previous year, there were excesses under *Presidency and District Offices* (6,02), due partly to the expansion of the Department, and partly to the demands of the Coronation Durbar; under *Road Establishment and Contingencies* (41) due to the extension of runners' lines; under *Railway charges* (1,37) due to larger payments to the several Railway Companies; under *Mail Cart, etc.*, (43) due to larger expenditure under allowances for horse and bullocks and extra cattle establishment, and under *Miscellaneous* (10) due to higher compensation paid for lost articles.

Section C—*continued.*

15.—Post Office—*continued.*

108. Under *District Post Charges*, the excess in India was due to the transfer of the charges on account of new postal services in Baluchistan, from 25,—Political to this head. The saving in the Central Provinces was in consequence of smaller expenditure on Travelling Allowance and Postal facilities. The decrease in the latter case was due partly to an over-estimate of the additional subsidies, payable for new lines of postal communication, and partly to the provision for District Dâk Establishments not having been fully utilised. The increase, compared with the previous year, was chiefly brought about by the transfer from "21—Marine" to this head of the subsidy for the Arakan Mail Service, and to the opening of new lines. The saving, compared with the Budget in Bengal, was chiefly attributable to smaller expenditure under Establishment, slightly counterbalanced by an excess under Contingencies. The small decrease in the Punjab was due to the grants for the distribution of letters and Mail Cart Service not having been fully used. The low actuals in the North-West Frontier Province were due to the abolition of the tonga line in the Kohat District, owing to the opening of the Kohat and Khusalgarh Railway. The figures under Berar represent expenditure incurred in that province from 1st October 1902. The excesses of 1 (Provincial) and 8 (Imperial) in Berar were sanctioned and out of the excess of 9 (Imperial) in the North-West Frontier Province 4 was met by re-appropriation and the remainder 5 awaits sanction.

109. The decrease in the expenditure in England was in the charges for stores

Indian Telegraphs.

110. The actuals exceeded the Budget by R6,45, of which R4,79 was under message revenue, due chiefly to the extra traffic resulting from the Delhi Durbar, and R1,20 under rent of wires and instruments.

111. The increase of R2,23, as compared with the previous year, is attributed to larger receipts from the rent of wires and instruments leased to railways and canals, owing to the increase in the wire mileage from 67,559 miles at the commencement of the year to 71,342 miles at the end, to an increase in the number of inland private messages due to the Coronation Durbar at Delhi, and to larger recoveries from guarantors.

Indo-European Telegraphs.

112. The receipts in India during 1902-3 fell short of the previous year by R6,55, and those in England by £2,3. The falling off in India occurred in the transit message receipts from the Indian Telegraph Department, caused by the reduction in the foreign tariff which was brought into force from 1st March 1902. The decrease in England was due to larger receipts in the previous year from the Imperial Ottoman Telegraph administration on account of traffic balances. As compared with the Budget, the actuals show a small excess only.

Indian Telegraphs.

113. The short outlay of £32,4, as compared with the Budget, was partly due to postponement of Capital works, and partly to a lapse in the English payments for stores.

114. As compared with the previous year, the total expenditure shows a small increase of £4,2, there being, in the one hand, a decrease in Capital outlay and, on the other, a larger increase in Revenue expenditure, due to expansion of the Department.

Indo-European Telegraphs.

115. The short outlay of £3,1, as compared with the Budget, was due chiefly to the payments in England in respect of message revenue being less than was anticipated.

Section C—*continued.*

£		£	£	£
555,4	EQUIVALENT IN STERLING	66,2	418,1	411,2

116. The receipts under this head exceeded the Budget by 51,75, but were less than the actuals of the previous year by 21,62. Of the increase over the Budget, a major portion (48,40) occurred under *Gain on Coinage Operations* and represented the gain accruing from the conversion into rupees of the Hali coins of the Indore Durbar, no provision for which was made in the Estimates as nothing was known about the conversion operations when the Estimates were framed. There was also an increase of 3,20 under *Fees for coining Silver*, owing to a larger dollar coinage than was allowed for in the Estimates.

117. The principal variations from the accounts of 1901-2, consist of a decrease of 23,05 under *Gain on Coinage Operations*, and an increase of 1,24 under *Gain on Copper Coinage*. The former was due to the absence of any coinage during the year out of purchased silver, while the latter was caused by an increase in the amount of copper coins passed into circulation.

12,6	England	6,2	8,9	8,4
504,0	TOTAL IN STERLING	111,3	410,9	424,0

118 The charges in India under this head exceeded the Budget by 46,57 but fell short of the actuals of the preceding year by 11,38. The greater part (39,60) of the excess, compared with the Budget, represents the transfer to the credit of the Gold Reserve Fund of the net profits on the Indore recoinage referred to in para. 116 above. Of the excess of 6,34 under *Loss on Coinage*, 1,26 represents charges incurred

Section C—*concluded.*

17.—Mint—*continued.*

in England on gold remittances from India, which remained unadjusted at the end of the previous year; the rest was due to a more rapid withdrawal of the 1840 rupees than was allowed for in the Estimates, and to the Indore recoinage operations at Bombay. These causes were also responsible for an excess of 57 under *Establishments*, as the increased magnitude of the recoinage operations led to increased expenditure on temporary establishment, overtime allowances and local purchase of stores. The payments in England were larger than indicated in the estimates, owing to larger demands for stores. Out of the excesses 2,48 (Imperial) in India and 44,09 (Imperial) in Bombay, 23 and 42,08 were met by additional grants and the remainder 2,25 and 2,01 respectively await the sanction of the Government of India

119. As compared with the previous year, there was a decrease of 11,38 in the Indian charges, made up principally of a decrease of 22,66 under transfer of profits to the Gold Reserve Fund and an increase of 11,50 under *Loss on Coinage*. The former was due to the net profits available for transfer being smaller than in the previous year, while the latter was caused by the heavy recoinage operations in the year.

Section D.—RECEIPTS BY CIVIL DEPARTMENTS.

1901-2. Accounts.		1902-3. Budget.	1902-3. Revised.	1902-3. Accounts.
R	RECEIPTS—	R	R	R
1,88,91	India (Rupee figures) . .	1,89,43	1,96,82	1,98,06
£		£	£	£
1,259,4	India (equivalent in Sterling) .	1,262,9	1,312,1	1,320,4
1,8	England	1,8	2,0	2,0
1,261,2	TOTAL .	1,264,7	1,314,1	1,322,4

120. The receipts in this section showed an improvement of £57,7 or R8,66, as compared with the Budget Estimate and of £61,2 or R9,18 as compared with the actuals of the preceding year. As compared with the Budget Estimate, £3,5 or R53 of the increase, occurred under Law and Justice—Courts of Law, due to large receipts from sale-proceeds of unclaimed and escheated property in Bengal and Bombay, and Magisterial fines in the Central Provinces and Burma; £16,6 or R2,49 under Police, due to large recoveries for police supplied to local bodies, punitive police and village police; £37,0 or R5,54 under Marine, due to the unusually large recoveries from His Majesty's Imperial Government in connection with the employment of Royal Indian Marine Vessels on Imperial Service, and on account of passage-money of officers deputed to Somaliland and heavy receipts on account of coast light dues in Burma, owing to a large number of vessels having visited the Burma ports; £9,2 or R1,39 under Education, due to the inclusion of the receipts in Berar, which was leased to the Government of India from 1st October 1902, to increased receipts from College fees in Madras and to the transfer of the Rangoon Collegiate School from the Educational Syndicate to Government; and £4,3 or R65 under Medical due to increased receipts from College fees and nursing fees, and a special contribution from the Queen Victoria Memorial Scholarship Fund Committee to the District Board at Ajmer. These increases were partly counterbalanced by a decrease of £12,1 or R1,81 under Law and Justice—Jails, chiefly in Bengal, due to the release of prisoners on the occasion of the Coronation Durbar and the unusually small demands from the Military and other departments for Jail products, and £8 or R12 under Scientific and other Minor Departments, due to low receipts at the School of Art in Madras from the sale of aluminium-ware and other articles.

121. Of the improvement, compared with the previous year, £11,2 or R1,68 occurred under Law and Justice—Courts of Law, due partly to the causes mentioned above and partly to large receipts in India on account of commission and fees realized by the Administrator General, Bengal, £13,9 or R2,09 under Police, £27,8 or R4,15 under Marine, £8,9 or R1,34 under Education, £6,3, or R95 under Medical, all due to the causes mentioned above, and £7,3 or R1,10 under Scientific and Other Minor Departments, due to large receipts from the sale of quinine in the Government Cinchona Plantations, of unserviceable cattle in the Hissar Cattle Farm, and of maps and instruments in the Surveyor General's office. These improvements were, to some extent, counterbalanced by a deficit of £14,2 or R2,14, under Jails, due to low receipts from Jail Manufactures.

122. The receipts under this head showed an excess of 53 as compared with the Budget Estimate, and of 1,68 as compared with the actuals of the previous year. To these excesses, Berar receipts contributed 33 in each case. Under *Sale-proceeds of Unclaimed and Escheated property*, there were no receipts in India on account of estates in the hands of the Administrator General, Bengal, while there were small improvements over the Budget in Bengal and Bombay. Under *Court-Fees realised in cash*, Bengal showed a small decrease (13), chiefly under Process-servers' Fees and recoveries on account of pauper-suits, while the United Provinces of Agra and Oudh showed a small increase (15), due to high receipts from Kurk Amins' fees The variations under *General Fees, Fines and Forfeitures* were chiefly under Magisterial Fines, which is not susceptible of a correct forecast. Under *Other Receipts*, the commission and fees realized by the Administrator General, Bengal, on estates in his hands was over-estimated in India, while that on sale-proceeds of attached properties was underestimated in the Punjab. The excess over the accounts of the previous year was chiefly under *Sale-proceeds, etc*, in Bengal (12) and Bombay (5), *Court-fees realised in cash* in the United Provinces of Agra and Oudh (30), *General Fees, Fines, and Forfeitures* in Burma (20), and *Other Receipts* in India (44), Bengal (10) and Punjab (7). The increase in the United Provinces of Agra and Oudh was the result of a change in the system of realizing Kurk Amins' fees which were formerly recovered in stamps, but are now realized in cash and credited to this head The excess in India represented commission and fees realized by the Administrator General, Bengal, from estates coming to his hands, credited to Government for the first time after the re-organisation of his office.

Section D.—RECEIPTS BY CIVIL DEPARTMENTS—*continued.*

XVIB.—Law and Justice, Jails—*concluded.*

123. The total receipts fell short of the Budget Estimate by 1,81, and the actuals of the preceding year by 2,14. The falling-off, as compared with the Budget Estimate, was chiefly due to smaller receipts under *Sale-proceeds of Jail Manufactures* in Bengal (2,13), where, owing to the release of prisoners on the occasion of His Majesty's Coronation Durbar, the output and sales of jail products suffered a decline, and there were also smaller demands for such articles from the Military and other Departments. The decrease in Punjab (22), was the result of a change in the method of adjusting recoveries on account of paper used for printing at the Jail Presses, which were formerly taken to this head, but are now adjusted under XXIII—Stationery and Printing. Of the variations compared with the preceding year, the high receipts in that year in the Central Provinces were due to a rise in the income of the Jubbulpur Central Jail in consequence of the transfer of the tent factory from the Reformatory School, while those in Madras were due to the demands of the Military Department for supplies for South Africa and China. The low figures in the preceding year in the United Provinces of Agra aud Oudh, were attributed to the factory work in several jails having come to a standstill owing to the outbreak of epidemics. The net receipts under this head, after deducting the corresponding charges under 19B, are given below:—

			India	Central Provinces	Burma	Assam	Bengal	U. P. of Agra and Oudh.	Punjab	N.-W. Frontier Province	Madras	Bombay	Berar	TOTAL.
Net Receipts from Jail Manufactures	Accounts	1901-2	7	1,03	1,60	—3	2,14	1,31	52	1	1,38	32	..	8,35
	Budget	1902-3	5	57	1,50	2	1,86	1,47	—16	2	1,00	36	.	6,69
	Revised	1902-3	2	1,11	1,93	4	3,45	1,86	1,17	5	1,30	42	6	11,41
	Accounts	1902-3	5	1,02	1,79	1	2,13	2,05	80	5	76	24	9	8,99

124. Under *Other Receipts*, the decrease, as compared with the Budget in India (9), occurred chiefly in the recoveries of transportation and jail charges from Native States and Colonial Governments, while that in Punjab (25), was due to the prevalence of an epidemic in the Mung Rasúl Central Jail, and to a fall in the population of other jails. The excess in Bombay (44) was due partly to the convict gangs having been employed on remunerative work, and partly to the adjustment by credit to this head and debit to 30—Stationery and Printing, of the hire of convict labour employed in the Yerrowda Jail Press. The decrease under *Convict Receipts at Port Blair and Nicobars*, was chiefly under sale of stores and tea-garden receipts. The high receipts of last year were due to arrear recoveries from Native States on account of maintenance charges of their convicts in Port Blair.

	Accounts	1902-3												307,5

125. The receipts under this head showed an improvement of 2,49 over the Budget Estimate, and 2,09 over the actuals of the preceding year Of these, the receipts from Berar accounted for an improvement of 56 in each case. The improvement (1,93) over the Budget was contributed by all the minor heads, except *Presidency Police*, under which the receipts fell off by 22 Under *Police supplied to Municipal, Cantonment, and Town Funds*, the improvement occurred in all the provinces but chiefly in India (27), where it was due to a change of procedure in the adjustment of recoveries from Municipal and Cantonment Funds which were formerly adjusted by deduction from expenditure, but are now credited as receipts Compared both with the Budget and the actuals of the previous year, the increase under *Police supplied to Public Departments, etc*, was due to large recoveries on account of Punitive Police. Under *Fees, Fines, and Forfeitures*, the variations, as compared with the Budget and the actuals of the previous year, were in most cases under Cattle-pound receipts The increase under *Other Receipts*, was chiefly contributed by Bengal, where the improvement was principally due to recoveries on account of Village Police The decrease under *Presidency Police* occurred chiefly in Bombay, and was due to smaller receipts on account of Private Watchmen (Ramoshis) and Cattle-pounds. The falling-off in Bengal was the result of variations under several detailed heads and was counterbalanced by the increase in Madras, due to recoveries on account of the Harbour Police having been adjusted under this head, though estimated under *Police supplied to Public Departments, etc.*

	Revised 1902-3	.	.	.	.	162,3
	Accounts 1902-3	.	.	.	.	173,2

126. The total receipts exceeded the Budget Estimate and the actuals of the preceding year by 5,54 and 4,15, respectively. The improvement occurred chiefly under *Dockyard Services, etc*, (5,09), and was due chiefly to larger recoveries in connection with the employment of Royal Indian Marine vessels on Imperial Service. The same cause explains the increase compared with the previous year. Under *Sale-proceeds of Vessels and Stores*, the decrease, as compared with the Budget, was due to over-estimate and, as compared with the previous year, to smaller sales of old boilers and condemned stores The decrease in Bengal (61), as compared with the Budget under *Pilotage Receipts*, was due to over-estimate The increase under *Coast Light Dues* in Burma (76), was due to a larger number of vessels having visited the Burma ports. The improvement under *Other Receipts*, as compared with both the Budget and the actuals of the previous year in India, was due to recovery of passage-money of Military Officers conveyed to Aden to join the Somaliland Field Force and of the value of coal supplied in 1901-2 from the Persian Gulf depôts to His Majesty's ships

127. The aggregate receipts exceeded the Budget by 1,39, and the actuals of the preceding year by 1,34. The improvement included Berar receipts to the extent of 46 in each case. The chief noticeable points in the transactions of the year were an increase in Burma (34), due to the transfer of the Rangoon Collegiate School from the Educational Syndicate to Government, a decrease in Bengal (26), chiefly under Fees, Government Schools and sale-proceeds of articles manufactured at the Reformatory Schools, and an increase in Madras (49), due to improved attendance and the enhancement of fees.

128 The receipts in India were higher than the Budget Estimate by 65, and the actuals of the previous year by 94. Under *Medical College and School Fees,* there was an increase of 25 in Bombay, due to increased fees and attendance at the Grant Medical College, partly counterbalanced by a decrease of 15 in Bengal in the receipts from fees and fines in the Medical College, Calcutta Under *Hospital Receipts* there were small increases in Madras and Bombay, due, in the latter, to receipts from paying patients and nursing fees. Under *Contributions,* the increase of 28 in India was due chiefly to a special contribution by the Queen Victoria Memorial Scholarship Fund Committee to the District Board, Ajmer, to meet expenses connected with the extension and endowment of the General Hospital at that place, and that of 16 in Bengal, to larger receipts from Municipalities and private persons. The decrease in the United Provinces of Agra and Oudh was due to a falling-off of subscriptions from private persons to dispensaries, while that in Madras to the short receipts from Municipalities for the Medical College. Under *Other Receipts,* the improvement occurred chiefly in Bengal, Punjab and Madras, and was due in the first case to larger receipts under Miscellaneous, in the second to recoveries from Municipal Funds of the cost of disinfectants and plague serum which were originally paid by the Umballa District Board, and in the third to excess realizations on account of vaccination receipts, private scavenging fees, and sale-proceeds of street sweepings, etc.

129 The improvement over the actuals of the preceding year, occurred chiefly under *Hospital Receipts* (27), *Contributions* (38), *and Other Receipts* (14).

130. The Indian receipts showed a decrease of 16 as compared with the Budget Estimate, but exceeded the actuals of the previous year by 1,09 Compared with the Budget, the falling-off was largest under *Other Receipts* in Madras (98), and was due to short receipts from sale-proceeds of aluminium-ware and other articles at the School of Art. *Labour and Emigration* also shewed a small decline in Assam (23). These decreases were largely counterbalanced by an excess (62) under *Cinchona Plantations*, arising out of the extensive sale of Quinine both in Bengal and Madras. There were also small excesses in India, under *Veterinary and Stallion Receipts* (14), and *Sale of Maps, etc.*, (20), due in the former to the sale of unserviceable cattle by the Hissar Cattle Farm, and in the latter, to larger receipts from the sale of maps and mathematical instruments by the Survey of India Department.

131. The excess, compared with the previous year, occurred chiefly under *Cinchona Plantations* (67), *Veterinary and Stallion Receipts* (31), and *Sale of Maps, Instruments, etc.*, (23).

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS.

11,146,8	TOTAL .	12,128,8	11,639,9	11,689,2

132. The expenditure in this section showed a saving of £439,6 or R65,94 as compared with the Budget Estimate, and an excess of £542,4 or R81,36 as compared with the actuals of the preceding year. As compared with the Budget Estimate there was a saving of £61,6 or R9,24 under Law and Justice—Courts of Law, chiefly in the Central Provinces, Burma, Bengal and Madras, due to the provision for revision of establishments not having been fully used, of £63,0 or R9,45 under Law and Justice—Jails, chiefly in the Central Provinces, Burma, Bengal and Punjab, due mainly to small purchases of raw materials, fall in the price of food-grains, decrease in the jail population, and release of prisoners on the occasion of the Coronation Durbar, of £80,3 or R12,05 under Police, due chiefly to the reforms and reorganizations provided for not having been sanctioned in Burma, and the additional force estimated for not having been entertained in Bengal, of £186,6 or R27,99 under Education, contributed by almost all the provinces, due chiefly to special grants for the improvement of education not having been utilized, of £7,5 or R1,13 under Ecclesiastical, due to vacancies and absences on leave; of £78,6 or R11,79 under Medical, chiefly due to savings in plague expenditure in Bengal and saving and over-estimate in ordinary expenditure in other provinces; of £83,3 or R12,50 under Political, chiefly in political subsidies in India, due to the low drawings of the Amir of Afghanistan, and of £38,5 or R5,78 under Scientific and Other Minor Departments, due to savings in the Survey of India Department, Geological and other Surveys and Veterinary and Stallion charges. These savings were partly counterbalanced by an excess of £153,3 or R23,00 under General Administration, due to more charges on account of Staff and Household and Tour Expenses in almost all the provinces, and an excess of £6,5 or R98 under Marine, due chiefly to additional expenditure necessitated by the Aden Delimitation Commission and the Cyclone of 6th May 1902 in Burma.

133. Of the excess, compared with the previous year, £152,8 or R22,92 occurred under General Administration due to the causes mentioned above; £57,6 or R8,64 under Law and Justice—Courts of Law, due to revision of establishments and the expenditure in Berar; £62,6 or R9,39 under Police, contributed by Berar, North-West Frontier Province, Bengal and the United Provinces of Agra and Oudh; £165,4 or R24,81 under Education, contributed by all the provinces; £96,4 or R14,46 under Medical, due to larger outlay on Hospitals and Dispensaries as well as on measures connected with the plague, £132,4 or R19,86 under Political, chiefly in special Political expenditure and charges on account of the Coronation Durbar; and £5,3 or R80 under Scientific and Other Minor Departments in India, due to the Indian Art Exhibition at Delhi, the revision of the Imperial Gazetteer, and additiona charges on account of the Inspector General of Agriculture, the Agricultural Chemist and the Imperial Library. These excesses were partly counterbalanced by savings of £46,1 or R6,92 under Law and Justice—Jails; of £1,8 or R27 under Ecclesiastical, due to the causes mentioned above, and of £82,2 or R12,33 under Marine, in India chiefly under Dockyards and in England mainly under stores.

134. The expenditure in India exceeded the Budget Estimate by 22,70 and the actuals of the previous year by 24,07. These excesses included Berar figures to the extent of 1,88, so that the real excesses amounted to 20,82 and 22,19, respectively.

135. Under *Salaries of Governor General, etc.*, the small excess over the Budget Estimate in India (7) represented cost of new furniture purchased for the residence of the Chief Commissioner, Ajmer-Merwara, in accordance with the recommendations of the Furniture Committee. In Bengal (6) it was due to the Chief Commissioner, Assam, having drawn his pay for a certain period in Calcutta. The savings in North-West Frontier Province (6) were due to the transfer of the charges on account of the Chief Commissioner's sumptuary allowance from this head to *Staff and Household.* In Bombay there were savings (7) in the pay and travelling allowance of the Commissioner in Sindh, the former due to change of incumbents. The low figures in the preceding year occurred chiefly in the North-West Frontier Province which was constituted a separate province from 9th November 1901. Under *Staff and Household* there were excesses in all the provinces, due partly to the requirements of the Durbar and partly to higher expenditure under Hill Journey charges, Postage and Telegram charges, Rents, Rates, and Taxes, and miscellaneous contingencies, etc. The same causes explain the excess over the actuals of the preceding year. The increase under *Durbar Fund* in India (17) was caused by the payment in advance in March 1903 of the contract allowance for furniture of His Excellency the Viceroy for the year 1903-4. The small excess under *Executive Council* in Madras (13), was chiefly due to the payment in this country of the furlough allowance of a Member of Council. The excess under *Legislative Council* occurred in the charges on account of the members of the Viceregal Council,

Section D.- SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

18—General Administration—*continued.*

136. The *Secretariat* charges exceeded the Budget Estimate in India by 41, Central Provinces 19, Assam 8, Bengal 12, United Provinces of Agra and Oudh 4, Madras 32 and Bombay 7, but fell short of it in the Punjab by 6 and North-West Frontier Province 22. The details of the India Secretariat charges are given below:—

Secretariat (India).

1901-2. Accounts		1902-3. Budget	1902-3. Revised	1902-3. Accounts
2,99	Financial Department	3,01	2,95	3,16

84	Imperial Library	.		..
24,62	TOTAL	24,03	23,41	24,62

137. The excesses under Finance (15), Legislative (40), and Public Works Department (18) were mainly due to privilege leave arrangements and deputation of officers on special duty. Higher expenditure under hill journey allowance in the case of the Financial Department, and the printing of a new edition of the Digest of Indian Law Cases (20) in that of the Legislative Department also contributed to the increase, while the Public Works Department showed some savings under establishment and telegram charges. The charges relating to the Statistical Department were transferred to the head "26—Scientific and other Minor Departments"—that having been decided to be the correct head of adjustment The saving under Home Department, was the result of the deputation of the Secretary and the Deputy Secretary on other work and less expensive arrangements made in their place The excess under Foreign Department (70) was under salaries (20), establishment (4) and contingencies (45) and was more or less connected with the Durbar at Delhi. The increase in *Secretariat* charges in Central Provinces (19) was chiefly caused by the appointment of officers on special duty, for which no provision existed in the Budget. The grant of a local allowance to the Secretary and additional charges on account of acting allowance of officers brought about the excess in Assam (8) The Budget proved too low in Bengal (12). The saving in North-West Frontier Province (22) was due to the transfer of the charges on account of the Private Secretary to the Chief Commissioner from this head to *Staff and Household* (12), as well as to smaller expenditure under travelling allowance (10) The increase in Madras (32) was ascribed to the deputation of an officer in connection with the revision and maintenance of village maps and records, and to increased expenditure under establishment, allowances, supplies and services and contingencies. The high actuals under *Tour Charges* were the outcome of extensive tours, due in a certain measure to the Delhi Durbar, in almost all the provinces. The increase over the actuals of the previous year was due to the same cause. Under *Board of Revenue*, the actuals showed an excess in the United Provinces of Agra and Oudh (21), due to the appointment of an additional member to the Board there, as well as in Madras (16), due partly to the payment of privilege leave allowance and partly to the deputation of a member in connection with the preparation of a Code of Rules for the regulation of Land Banks, the revision of Madras Act II of 1864, and the compilation of the Madras Sections of the Gazetteer of India The savings in Bengal (9) and North-West Frontier Province (8) occurred chiefly under pay of officers The high expenditure under *Commissioners* in Burma (23) and Bengal (18) was chiefly attributable to privilege leave arrangements combined with payment of arrear salaries in Burma and larger expenditure under contingencies in Bengal. The low figures in United Provinces of Agra and Oudh were the result of savings under salaries (8) and contingencies (4). The excess in Bombay (12) was chiefly in payments to officers of other provinces.

138. The total charges for Account and Currency Offices are shown below —

		Civil Account.	Currency Offices.	Total Civil Account and Currency Offices	Office of A. G., P. W. Dept.	TOTAL.

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued*

18.—General Administration—*concluded.*

139 The saving in Civil Account Office was chiefly due to absence of officers on leave and the deputation of Superintendents to act as Chief Superintendents, partly counterbalanced by excess expenditure due to privilege leave arrangements The excess in Currency Office was chiefly in the charges for extra establishment and contingencies. The saving in the Office of Accountant General, Public Works Department, was the result of vacancies and absences of officers on leave

140 The expenditure in England showed an excess of £2,0, due to larger expenditure on telegrams (£8) and special publications (£9) and in stores (£3) sent to this country.

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

19A.—Law and Justice—Courts of Law—*concluded.*

141. The Indian expenditure showed a saving of 9,19 as compared with the Budget Estimate, but exceeded the actuals of the previous year by 8,68. Excluding Berar figures, however, the variations amounted to 10,71 and 7,16, respectively, and were chiefly under charges for revision of establishments.

142. Under *High Court,* etc., Bengal showed a saving of 82, due to the appointment of a Puisne Judge having remained vacant for three months and to the provision for an additional Judge, the Official Referees and additional establishments not having been fully utilized. There was also a small saving in the United Provinces of Agra and Oudh (16), due to the absence of the Judicial Commissioner on leave. Bombay, on the other hand, showed a small increase (15), due to higher expenditure on account of leave allowances, sessions charges, fees for summoning witnesses, and payments to officers of other provinces. Under *Law Officers* the variations in almost all the provinces were in the pay and fees of pleaders and barristers. In Bengal, there were some savings under charges on account of English Law Officers and the Legal Remembrancer, while in Bombay the appointment of an assistant to the Legal Remembrancer and increased expenditure under establishment, law charges and fees in criminal cases, brought about an excess. The large excess, as compared with the actuals of the previous year, in India (57) was caused by a full year's charge of the office of the Administrator General, Bengal. The decreases under *Civil and Sessions Courts* were due in the Central Provinces (42) to effect not having been given to the revision of Munsiffs' establishment till 1st January 1903, in Burma (3,14) to the proposed reorganization of the Judicial Service not having been sanctioned, and in Assam (29) to the separate Judgeship sanctioned for the Assam Valley Districts not having been filled up till January 1903. The saving in the United Provinces of Agra and Oudh (21) occurred chiefly under salaries of Judges. The small excess in Bengal (11) was the result of petty fluctuations under several heads, while the increase over the actuals of the preceding year was due to additional temporary appointments created in the Judicial Service as well as additional establishments, which also explained the excess compared with the Budget Estimate in the Punjab, which was, besides, taken at a low figure. In the North-West Frontier Province, the Budget appears to have been over-estimated for want of accurate information. In Madras, savings occurred chiefly under Process-serving establishment (54), as the scheme of reorganization for which a special allotment of 92 was made in the Budget Estimate, is being only gradually introduced. In Bombay the special grant of 50 for improving the pay of the subdivisional ministerial establishments was not utilized, there were also petty fluctuations under other heads. Under *Court of Small Causes* no provision was made in Burma for the salary of the additional Judge, Court of Small Causes, Rangoon, in view of the absorption of the appointment in the cadre of the new Judicial Service. As the scheme for the re-organization of the service was not sanctioned, the pay of the appointment continued to be debited to this head which caused the excess. In Bengal, there were savings (12) under salaries and contingencies. Under *Criminal Courts,* the large saving in the Central Provinces (84) was due to smaller expenditure under salaries and to the provision for the improvement of the pay of ministerial establishments not having been utilized for want of the sanction of the Secretary of State. The decrease in Burma (57) was chiefly due to the proposal for a new district not having been sanctioned, there were also some savings under contingencies partly counterbalanced by excesses under establishment charges. The saving in Assam (84) was due to leave vacancies, to the payment of leave allowances of officers outside the province, and to the provision (39) for improving the position of district office establishments not having been utilized. The low expenditure in Bengal (42) was the result of savings under salaries (83) and contingencies (13), partly counterbalanced by excesses under establishment (53), chiefly Process-serving establishment (43); while that in the United Provinces of Agra and Oudh was attributable to savings under salaries and establishment, the latter due to delay in carrying out the revision of Record Room establishments. In the Punjab, the special grant of one lakh, together with that of 20 for the Attock District, was not utilized; there were, on the other hand, some excesses under salaries (11), establishment (12), and travelling allowance (19), due to the necessities of the Plague and the Durbar. The absence of a larger number of officers on leave accounts for the saving in Madras (32). In Bombay a larger number of officers on duty accounted for the excess. The fluctuations under *Other Charges* in the United Provinces of Agra and Oudh and Madras were connected with the law examinations. The increase under *Refunds* in Bengal was due to larger payments on account of refund of criminal fines. In Burma, the Budget Estimate was taken at too low a figure. The excess of 1,52 (Imperial) in Berar has been sanctioned and out of the excesses of 6 (Imperial) in India and 64 (Provincial) in Bombay, 1 (Imperial) and 16 (Provincial) were sanctioned, and the remainder 5 (Imperial) in India and 48 (Provincial) in Bombay, await sanction.

143. Under English expenditure, the Budget Estimate provided for the outfit allowance of a Judge, but no Judge was sent out. The demands for stores were also smaller than were provided for in the Estimates.

144 The expenditure in India was less than the Budget by 9,43 and the actuals of the preceding year by 6,80.

145 Under *Jail Manufactures*, there were savings in the Central Provinces (43), Burma (21), Bengal (2,41), the United Provinces of Agra and Oudh (46), and the Punjab (1,18), while Madras (27) and Bombay (21) showed some excesses In the Central Provinces, the oil pressing manufactory was discontinued in some jails and a heavy claim against the Jubbulpore Jail (37) was paid in the following year In Burma the provision for increase of the manufacturing establishments of Central Jails was not required, and the expenditure on tools and plants was also smaller than estimated for. The decrease in Bengal was chiefly due to smaller purchases of raw materials (2,02) and smaller expenditure under Europe Stores (8) and Contingencies (5), while that in the United Provinces of Agra and Oudh was attributable to a decline in the demand for jail manufactures owing to the prevalence of the plague. The saving in the Punjab was due partly to the provision (60) made for wool-spinning machinery in the Montgomery jail not having been utilized, and partly to smaller purchases of raw materials combined with a change in the method of adjustment of the cost of paper purchased for Jail presses which were formerly debited to this head but are now taken under "30—Stationery and Printing." The excesses in Madras and Bombay were due to a better demand for jail manufactures. Compared with the previous year, the variations followed the receipts and were more or less under purchase of raw materials. Under *Other Jail Charges*, the Budget in India included a provision of 70 for improvement in the position of officers in collateral charge of district jails and in the pay of commissioned Medical Officers of jails throughout India This was not utilized, there were also some savings under dietary charges. In the Central Provinces there were savings in the salaries of Superintendents of Jails as well as in clothing and dietary charges. The decrease in Burma was attributable to a fall in the jail population, due to some extent to the release of prisoners on the occasion of the Coronation Durbar, which also explained the saving in Bengal. The same cause, combined with favourable prices of food grains, accounted for the low figures in the United Provinces of Agra and Oudh (1,87). The saving in the Punjab (90) was chiefly under dietary, hospital and establishment charges—the result of a decrease in the number of prisoners in the jails.

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

19B.—Law and Justice—Jails— *concluded.*

The same causes explained to a great extent the decrease in the North-West Frontier Province (22) and Madras (49). The increase in Bombay (41) was partly under salaries, due to the absence of the Inspector General of Prisons and partly under dietary charges, the provision for which proved insufficient. The excess in India (17), under *Convict Charges at Port Blair, etc*, was the result chiefly of increases on account of passage-money, owing to the release of a large number of convicts on the occasion of the Coronation Durbar and Commissariat Stores (38), owing to the requirements having been under-estimated, partly counterbalanced by decreases under Forest Supplies (22) and Marine supplies (53), the latter having been due to large recoveries effected from the Marine Department on account of coal supplied to Royal Indian Marine vessels, which were adjusted by deduction from the expenditure under this head. The decrease, compared with the previous year, was chiefly due to a fall in the price of food-grains, to a decrease in the jail population, and to the release of prisoners on the occasion of the Durbar.

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

20.—Police—*continued.*

146. The Indian expenditure fell short of the Budget Estimate by 12,15 but exceeded the actuals of the previous year by 9,30 The actuals of the year included Berar charges to the extent of 4,48. The saving occurred in all the provinces except the Punjab, where there was an excess of 2,16, chiefly due to the Delhi Coronation Durbar and the adjustment of the value of ordnance stores supplied by the Military Department to the Border Military Police of the Dera Ghazi Khan district. The bulk of the savings occurred in Burma (6,86) and Bengal (5,01), due, in the former, to the absence of the Inspector-General on long leave, to the proposal for regrading the higher Police not having been sanctioned, to the re-armament of the Civil Police not having been carried out and to the provision for seven additional companies of Military Police not having been required, and in the latter, partly to the short strength of the force and partly to the lump provision of 4,06 for additional force not having been fully utilized. There were also savings in Bombay (2,06), chiefly under *District Executive Force* (1,13) and *Presidency Police* (66), due to less charges for District Police, salaries of Presidency Police and private Watchmen and Ramoshis; and in the United Provinces of Agra and Oudh, chiefly under *District Executive Force* (75), and *Village Police* (15), due in the first case to savings under salaries (47) consequent upon the absence of officers on furlough The lump provision of 40 for extra police in connection with plague preventive measures was utilized for meeting extra expenditure under other heads, as the actual charges on that account were recorded under existing heads. As compared with the previous year, the increase was contributed by all the provinces except India, Burma, Punjab and Bombay, but chiefly by the North-West Frontier Province (7,06), Bengal (1,64) and the United Provinces of Agra and Oudh (1,19). In the North-West Frontier Province the actuals of the preceding year included charges of the province from 9th November 1901 only, in Bengal the excess was mainly under *District Executive Force.* In the United Provinces of Agra and Oudh the increase was mainly due to the introduction of reforms in the Rural Police system in Oudh, coupled with higher expenditure against *District Executive Force* in the year under report. The decrease occurred chiefly in the Punjab (3,21) and Bombay (2,02), due in the latter to the recovery of arrear contributions from the Bombay Municipality, less charges on account of clothing, payments of grain compensation and to savings in the grant for allowances to heads of Village Police and watchmen. In the Punjab, *Special Police* charges were high in the previous year in consequence of the reorganization of the Border Military Police and the supply of ordnance stores to the force

147 Under *Presidency Police*, the saving in Bengal (22) was due to short strength of the force and to the lump provision of 10 for additional Police Force and 10 for refunds not having been fully utilized, partly counterbalanced by an excess of 4 under salaries and 3 under contingencies of the Police Commissioner's Office. In Madras (23) it was due mainly to the lump provision of 48 for increasing the strength of the force and improving the pay of the European officers having been only partly utilized; there was also a small decrease under Mounted Police. In Bombay (66), it occurred under all the sub-heads but chiefly under salaries due to absentees, in travelling allowances supplies and services, charges for moving prisoners, contingencies, water-supply, charges for private watchmen, and River Police. Under *Superintendence*, the small excess in Bengal (13) was due to larger expenditure under salaries, allowances and contingencies; while that in Madras (5) partly to the absence of the Inspector General on privilege leave and partly to the charges connected with packing and carriage of clothing, arms, ammunition and accoutrements. The small saving in the United Provinces of Agra and Oudh (5) was due to decrease under salaries and allowances counterbalanced by an increase under purchase of tents and contingencies; while that in Bombay (3) was chiefly under establishment charges Under *District Executive Force*, the saving in India (53) was due to an excess recovery of 90 as contribution from Local Funds in the Indore Agency towards the Central India Agency Police, partly counterbalanced by an excess expenditure of 26 on account of contributions from Municipal and Cantonment Funds, Baluchistan, having been credited on the receipt side under XVII.—Police instead of being adjusted by deduction from the charges under this head, that in Burma (2,71) to the provision for regrading District Superintendents and Inspectors of Police, and also for an additional District Superintendent of Police for the new district of Pyapon not having been required owing to the proposal not having been sanctioned and to the re-armament of the Civil Police not having been carried out during the year. In Assam the saving (24) occurred chiefly under salaries of officers, owing to leave vacancies, and petty construction and repairs. In Bengal the decrease (5,26) was due to a saving of 52 in the salaries of officers, of 5,31 in the pay of the Police force, partly in consequence of the full sanctioned strength not having been entertained and partly in consequence of the lump provision of 4,06 for additional force not having been fully utilized and of 1,31 under contingencies, partly counterbalanced by an excess of 1,47 under supplies and services, of 4 under allowances and of 31 under other Police In the United Provinces of Agra and Oudh the saving of 75 was chiefly under salaries, consequent upon the absence of officers on furlough, Police force, and establishment counterbalanced by an outlay on the purchase of bicycles for the armed Police and higher expenditure on travelling allowance, clothing and reward. In Bombay the decrease (1,13) was due to savings under District Police (1,00) chiefly under salaries, establishment and clothing charges and other Police, in

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

20.—Police—*concluded.*

additional Police charges, and in payments to officers of other provinces These savings were partly counterbalanced by an excess in the Punjab under Police force, supplies and services, contingencies, and other Police. Under *Government Railway Police,* the saving in the United Provinces of Agra and Oudh (12) was chiefly due to the re-organization of the supervising staff having been delayed; that in the Punjab (7) to less charges on account of rent of Railway quarters occupied by the North-Western Railway Police, and that in Madras (29) to the recovery from the Madras Railway, North-Eastern line of $\frac{7}{10}$ths share of the Police charges on that line for the period from 1st January 1901 to 30th June 1902, for which the Budget did not take credit. These savings were partly counterbalanced by an excess of 17 in India, due to the payments to the Mysore Durbar in liquidation of their claims on account of the Police Watch and Ward establishment employed on the State Railway lines up to 31st March 1898, of 11 in Burma, due to short supply of escorts, and of 9 in Bengal. Under *Village Police,* the saving in Bombay (20) was due partly to decrease in the allowances to Heads of Village Police and Watchmen, and partly to the grant for Pagis not having been fully utilized, while that in the United Provinces of Agra and Oudh (15) to smaller expenditure on Rural Police in the province of Agra. On the other hand, there was an excess of 23 in Bengal, chiefly due to larger expenditure under establishment and contingencies of the Village Chowkidari Fund. Under *Special Police* the saving in Burma (4,29) was chiefly due to the provision made for seven additional companies of Military Police for the Southern Shan States not having been required and to the enhanced rates of pay provided for Hospital Assistants not having been drawn; that in Assam (1,47) to savings under salaries of officers (8), Police force (5), clothing (13), petty construction and repairs (10), compensation for dearness of provision (13), and the cost of free rations (97); and that in the North-West Frontier Province (32) to smaller charges on account of the Border Military Police Force. These savings were partly counterbalanced by excesses in Bengal (20), due to larger expenditure on allowances, clothing and ordnance stores for the Bengal Military Police; and the Punjab (38), chiefly due to the adjustment of the value of ordnance stores supplied by the Military Department to the Border Military Police of the Dera Ghazi Khan district. Under *Cattle Pounds,* there were savings in almost all the provinces. The decrease in Central Provinces (9) was due to savings under construction and repair of pounds; that in the United Provinces of Agra and Oudh (9) to low expenditure under Feed of cattle, that in Madras (24) to short expenditure on account of construction and repair of pounds and feeding charges; while that in Bombay (14) to smaller expenditure under supplies and services, and construction of pounds. Under *Other Charges* the largest excess (21) occurred in India, and was due chiefly to the deputation on special duty of Mr P. D. Kirkham for enquiry into the forgery of currency notes and to the usual recovery of 14 on account of proportionate share of Thagi charges debitable to Berar, anticipated in the Budget, not having been effected in consequence of the perpetual lease of Berar to the British Government. Excesses also occurred in Burma (9), chiefly due to increased expenditure on account of fees to Inspector under "Steam Boiler Inspection Establishment" and larger refunds; in Madras (5) due to the absence on privilege leave of the Inspector of Steam Boiler, and refunds of excess recoveries of Punitive Police tax; and in Bombay (8) due to large Refunds of Cattle Pound fees and the adjustment of the discount on Government promissory notes of the Steam Boiler Inspector Fund. There were savings, on the other hand, in Bengal (7). The excesses of 2,16 (Provincial) in the Punjab and 1,48 (Provincial) and 3,00 (Imperial) in Berar were sanctioned.

148. In England, the account included £5 for return passages to India in connection with the Police Commission.

149 The Indian expenditure exceeded the Budget Estimate by 1,12, but fell short of the actuals of the previous year by 2,37. The excess, as compared with the Budget, occurred mainly under *Other Charges* in India and *Marine Stores and Coal for Building and Repairs of Ships* in Burma, and was due in the former to the hire of transports *Satara*, *Sarada* and *Sofala* for the Aden Boundary Commission, and in the latter to the repairs necessitated by the cyclone of 6th May 1902, and larger outlay on stores for new launches.

150. The small excess, as compared with the Budget under *Dockyards* (42) in India, was due chiefly to work done in connection with the fitting of transports on account of the Imperial Government, to repairs to Royal Indian Marine vessels damaged by cyclonic storms at Karachi, and to more work done for other Departments and Local Governments, the first two causes also explaining the high

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

21.—Marine—*concluded.*

actuals of the preceding year. Under *Salaries and Allowances, and Victualling of Officers and Men afloat* the saving in India (14) was the result of savings due to leave (44), counterbalanced by increases (32) on account of certain Royal Indian Marine vessels having been employed throughout the year, instead of being laid up with reduced crews for a portion of the year. In Burma (11) it was due to the appointment of a Commander having been vacant for some months and to the reduction of the crew of the vessel, while increase in the number of steam launches explains the excess over the previous year in that province. Under *Marine Stores and Coal for Building and Repairs of Ships* in India (1,79) there were increased recoveries (7,64) on account of stores used in fitting transports for expeditions, of stores and coal for transports and of coal issued to His Majesty's ships in the Persian Gulf, reduced by excesses (5,88) on account of purchases to replace issues from stock as well as for the maintenance of a reserve. All these causes, more or less explain the variation compared with the previous year. The excess in Burma as compared with the Budget was due to the repairs necessitated by the cyclone of 6th May 1902 and larger outlay on stores for new launches, and that in Bengal to larger expenditure under building, repair and outfit of ships. The high expenditure in the previous year, was due to repairs to the steamers *Jhelum* and the flat *Mooltan* in that year. Under *Pilotage, Pilot Establishment and Vessels,* the increase in Bengal was due chiefly to larger payments on account of Pilotage Allowance, to Free List and Licensed Pilots and mess-money to Pilots and miscellaneous charges Under *Other Charges* the variations in India have been explained above In Burma, the saving was due chiefly to a decrease in the subsidies to steam-boat companies, owing partly to a new line provided for, not having been opened, and partly to a reduction in the rate of subsidy payable for the Mergui Mail Service and to a saving in the provision for the conservancy of the Irrawaddy Chindwin river As compared with the previous year, the decrease (46) was due chiefly to the transfer of the subsidies for the Arakan Mail Service to 15—Post Office referred to in para. 108. The saving, as compared with the Budget, in Bengal occurred chiefly under contribution to Port Funds.

151. In England the expenditure fell short of the Budget Estimate by £1,0, owing to smaller demands for stores (2,4) counterbalanced by payment of arrears in respect of passages from India of officers of the defence vessels not covered by subsidy.

152. The expenditure in India showed a saving of 28,02 as compared with the Budget Estimate, but exceeded the actuals of the preceding year by 24,93. The saving, as compared with the Budget Estimate, was contributed by all the provinces, and was chiefly due to the special grants sanctioned by the Government of India for the improvement of education not having been utilized, as the Local Governments had not been able to mature their schemes for their disposal. The actuals of the year included Berar figures to the extent of 1,91

153. Under *Direction*, the provision in India for the office of the new Director General of Education proved inadequate. In the United Provinces of Agra and Oudh a new Personal Assistant was sanctioned for the Director of Public Instruction, for which no provision had been made in the Budget Estimate. Under *Inspection*, the provision in Burma for an Inspectress of Schools (9), as well as for the reorganization of the Provincial Educational Service (64), was not required, and there were also vacancies and absences on leave. In the United Provinces of Agra and Oudh, the provision for the appointment of an Inspector and an Assistant Inspector and their establishments and other incidental charges was not utilized. In Bengal, there were savings under pay of Inspectors and Deputy Inspectors (9), as well as under Allowances (3) The decrease in the Punjab (7) was under salaries due to leave vacancies, while that in Madras (72) was chiefly due to the provision for the revision of Sub-Assistants not having been utilized. Under *Government Colleges* in the Central Provinces the lump provision of 50, out of the special Imperial grant of 2,00 allotted to the province, was not utilized The variations in the other provinces were mainly under salaries, and were due to leave arrangements and deputations The large saving (1,26) under *Government Schools* in the Central Provinces was also due to the special grant under this head not having been fully used. A similar cause explained the savings in Burma (1,44), where the provision aggregating 1,68 for Model Schools, Secondary and Primary Schools for girls, and Commercial and additional Normal Schools, was not required, while the transfer of the Rangoon Collegiate School to Government, on the other hand, brought in an increase in expenditure of 30. The decrease in Bengal (98) was due to a variety of causes, such as smaller payments of stipends to pupil teachers in Normal Schools, non-utilization of the provision made in the Budget Estimate for certain new schemes, such as opening of commercial and technical classes, training of gymnastic teachers and starting of training colleges, and smaller expenditure on the purchase of raw materials for Reformatory Schools The excess in the United Provinces of Agra and Oudh was chiefly due to larger outlay on Primary Schools. The small saving in the Punjab (17) occurred chiefly in local expenditure, and was due to over-estimates by District Boards. The small excesses in Madras (7) and Bombay (65) also were in local expenditure, due in the case of Madras to larger payments on account of stipend to salary-result-system schools, and in that of Bombay to larger outlay on books and furniture for indigenous Local Board Schools Compared with the previous year, the excess in the Central Provinces (1,68) was mainly due to larger outlay on the construction of school buildings and improvement in the pay of village school masters; while that in the United Provinces of Agra and Oudh (2,13) was treaceable to larger expenditure on Primary Schools and other educational purposes. The excesses in Madras (77) and Bombay (98) were due to the causes enumerated above. Under *Grants-in-aid and Payments by results*, the saving in Burma (89) was the result of an

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

22.—Education—*continued.*

over-estimate. The large excess in Bengal (4,84) consisted of larger payments on account of grants for European Schools (11), Primary Schools (38), Educational Buildings (43), as well as for stipends in Boys' Schools (4,10) and Girls' Schools (20), partly counterbalanced by a saving in the grants for rewards (5) The bulk of this expenditure was in the local section of the accounts (3,90). The excess in the United Provinces of Agra and Oudh (12) indicated larger grants to Anglo-Vernacular Schools, while that in the Punjab represented additional grants for buildings, etc., sanctioned out of the special Imperial Grant of 4,00 The decrease in Madras (2,06) was due to the transfer of the subsidy to the Local Board (2,60) out of the Special Grant of 8,00 from this head to the Adjusting head—*Contribution*, partly counterbalanced by excesses under building grants, payments by results and grants to Municipal Funds In Bombay the Budget Estimate provided 6,00 under this head out of the special Imperial allotment, as well as 2,56 for Building grants, both of which were only partially utilized Under *Other Charges*, the saving in India was due to the grant for building and furniture at Bangalore not having been utilized In Burma it was due to the transfer of the Rangoon Collegiate School to Government, and the consequent decrease in the amount of contribution to the Educational Syndicate The large saving in Bengal was chiefly due to the non-utilization of the grant of 1,25 for contribution to the Provident Fund for teachers in Primary Schools, while that in the Punjab was due to the special Imperial grant of 4,00 not having been utilized for expenditure under this head The special Imperial allotments of 1,00 and 10,00 for Assam and Bengal respectively were also not utilized, while that for the United Provinces of Agra and Oudh was expended in the construction of educational buildings, partly in the Civil and partly in the Public Works Departments, as well as in meeting excess charges under *Government Schools* and *Grants-in-aid*. The variation under the English expenditure does not call for any remark.

154. The excesses of 5 (Imperial) in India and 95 (Provincial) and 96 (Imperial) in Berar have been sanctioned.

155. The Indian expenditure showed a saving of 1,15 as compared with the Budget Estimate and of 28 as compared with the actuals of the preceding year The variations under this head were, more or less, due to variations in the number of Junior and Senior Chaplains on duty or on leave. In India and Burma however, the absence of the Lord Bishop on leave mainly accounted for the savings. The excess of 1 (Imperial) in Berar has been sanctioned, while that of 1 (Imperial) in the United Provinces of Agra and Oudh requires to be sanctioned

156. The excess expenditure in England was due to the payment of the passage and outfit allowance of the new Bishop of Calcutta.

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

24.—Medical—*concluded.*

157. The Indian expenditure showed a saving of 12,39 as compared with the Budget Estimate, and an increase of 13,94 as compared with the actuals of the previous year The decrease, as compared with the Budget, occurred chiefly under *Government Hospitals and Dispensaries* in Burma, Madras and Bombay, *Vaccine Establishments, etc.*, in Burma, United Provinces of Agra and Oudh and Madras, and *Grants for Medical Purposes* in India and Bengal, and was due to the provision for certain new projects not having been utilized, and that for ordinary purposes in certain cases having been over-estimated. The increase over the actuals of the previous year was also under the same heads owing mainly to larger outlay on improvements of Hospitals and Dispensaries under the control of District Boards in the United Provinces of Agra and Oudh, and larger expenditure in connection with the plague. The actuals included Berar figures to the extent of 1,09.

158. Under *Medical Establishments*, the decrease in Burma was due to the new Pyapon District not having been sanctioned, to the transfer of the charges on account of pay of the Resident Medical Officer Rangoon General Hospital, to *Hospitals and Dispensaries*, and to savings in travelling allowances; that in the United Provinces of Agra and Oudh to savings under salaries and smaller outlay for Reserve Hospital Assistants; and that in the Punjab to the special grant of 1,00 under this head having been devoted to the inoculation scheme under the head *Grants for Medical Purposes.* The excess of 67 in Bombay was due to appointment of special officers and establishments for famine duty (provision for which was made under *Hospitals and Dispensaries*), increased charges for travelling allowances and payments to officers of other provinces. There were savings, under *Government Hospitals and Dispensaries*, in Burma (60), due to the number of Assistant Surgeons and Hospital Assistants having been below the sanctioned strength, to the increased rates of pay provided for Hospital Assistants not having been drawn, and to new hospitals provided for in the Budget not having been opened, in the United Provinces of Agra and Oudh (14), due to savings in salaries and establishments of Hospitals and Dispensaries under the control of District Boards, and partial utilization of the grants for charges met from private contributions, counterbalanced to some extent by increased expenditure on purchase of instruments, in the Punjab (22) mainly in local expenditure due to an over-estimate by the District Boards, in Madras (81) in the charges of Presidency Hospitals and general over-estimate in the Budget for local charges, and in Bombay (1,51), due to the partial utilization of the grant of 3½ lacs for increase of Provincial expenditure, to the transfer of extra famine charges (30) and pay of Hospital Assistants (9) to other minor heads, and to savings in the supplies and services to Mofussil Hospitals. The increase in Bengal was chiefly due to larger expenditure on supplies and services and contingencies The increase, as compared with the previous year, was due chiefly to the transfer of the Rangoon General Hospital from the Municipality to Government in Burma, to larger outlay on improvements of Hospitals and Dispensaries under the control of District Boards in the United Provinces of Agra and Oudh, to higher expenditure in Bengal and the North-West Frontier Province, and to increased grants-in-aid to Dispensaries and Leper Asylums in Bombay Under *Vaccine Establishments and Sanitary Commissioner*, the saving in Central Provinces (29) was owing chiefly to the services of Sanitary Inspectors not having been required for the whole year; that in Burma (34) to the reorganization of the vaccination establishment not having taken place, and to vacancy in the appointment of the Deputy Sanitary Commissioner, that in the United Provinces of Agra and Oudh (30) to the non-utilization of the grant for the Bovine Lymph Depôt and to savings in salaries, that in Madras (1,66) to leave of officers and over-estimate, and that in Bombay (32) to savings in salaries. The variations under *Medical Schools and Colleges* were due to smaller expenditure for salaries, and supplies and services in Medical Schools in Bengal, and to the postponement in Madras of the opening of the Royapuram School, and to a private gentleman having undertaken to provide the furniture required for the Vizagapatam School. Under *Lunatic Asylums*, there was a small excess in India, chiefly in the diet of lunatics in Bangalore. On the other hand there were decreases due to over-estimates in the Central Provinces and Burma, and to savings in Bengal, the United Provinces of Agra and Oudh and Bombay The decrease under *Grants for Medical Purposes* in India (1,70) was due to a saving of 1,96 in the expenditure connected with the Bubonic Plague, counterbalanced by an excess on account of the Royal Society on Malaria; that in Burma (22) to savings in connection with the provisions for plague-preventive measures in Rangoon, and that in Bengal (5,06) and Bombay (18) to those in the grants for Bubonic Plague and other epidemic diseases; while, the increases in the United Provinces of Agra and Oudh (22), Punjab (2,78) and Madras (39) were chiefly due to purchase of surgical instruments, expenditure in connection with the inoculation scheme and plague-preventive measures, respectively. The excesses of 1,60 (Provincial) in the Punjab and 11 (Provincial) and 91 (Imperial) in Berar were sanctioned, and 7 (Imperial) in Berar awaits sanction.

159. The excess in England was in the charges on account of pay, passage, etc., of medical officers and lady-nurses in connection with the plague, etc., for which no further expenditure was anticipated at the time the estimates were framed, and accordingly no provision was made in the Budget.

160. The Indian expenditure under this head fell short of the Budget Estimate by 8,39 but exceeded the actuals of previous year by 19,82 The saving, as compared with the Budget, occurred chiefly under *Political Subsidies* in India, and was due to the subsidy to the Amir of Afghanistan having been allowed by His Highness to accumulate The saving under *Political Subsidies* was to some extent counterbalanced by an excess under *Other Charges* The excess, compared with the previous year, was the result of increases under *Other Charges* and *Political Agents*, counterbalanced by a decrease under *Political Subsidies*

161. Under *Political Agents* the excess over the Estimates occurred chiefly in India (1,51), Bombay (98) and Bengal (26), partly counterbalanced by savings in Burma (25), Assam (19) and the United Provinces of Agra and Oudh (13) The excess in India was due to the charges on account of the Baghelkhand Agency and the Indore Residency not having been recovered within the year from the Native States concerned, and also to some increased expenditure on account of travelling allowance. The excess in Bombay was due to high expenditure on account of telegrams at Aden and payments to officers of other provinces, combined with smaller recoveries for Foreign Service establishment, chiefly in Kathiawar and

Palanpur. The increase in Bengal was due partly to the Political Agent, Manipur, having drawn his pay for three months in Calcutta, and partly to a special payment of 17 on account of advance to the Political Officer, Sikkim. In Burma, as in the United Provinces of Agra and Oudh, the savings were due to the absence of officers on leave and deputation, while in Assam they occurred, as in last year, under the Coolie Transport Corps in the Lushai Hills. The saving of 5 in India under *Charges on the North-West Frontier*, which was mainly due to vacancies in the Zhob Levy Corps, was counterbalanced by an increase of 4 in the North West Frontier Province, being the result chiefly of a gross excess of 30 under payments for guarding hill passes on account of allowances to the Mahsuds and savings of 19 and 6 in the charges on account of Khyber Rifles and allowances to Khyber tribes respectively. Under *Entertainment of Envoys and Chiefs* the increase of 8 in India occurred in the grant at the disposal of the Foreign Department, for which an additional grant of 20 was made, while that of 17 in the North-West Frontier Province was also foreseen and provided for in the Revised Estimate. The increase of 6 in Bombay under this head was partly counterbalanced by a decrease of 4 in the Punjab. The excess of 8 in Bombay under *Durbar Presents, etc.*, as in the preceding head was wholly, at Aden, due to Durbar expenses on the occasion of presenting the Insignia of K.C S.I to the Sultan of Lahej and to presents given to several other chiefs and their followers seeking British protection which were not provided for. The increase of 6 under this head in the North-West Frontier Province was foreseen and provided for in the Revised The decrease in India (17) was due to fewer visits from Native Chiefs and that of (13) in Bengal to smaller expenditure on Durbar presents. Under *Refugees and State Prisoners*, the increase in India (5) was chiefly on account of Burmese Princes, that of 5 in the Punjab on account of the allowance of Sirdar Mahammad Ayub Khan having been raised with effect from 1st June 1902 The saving of 24 in Bombay was due to the death of one of the Chiefs, and the allowance due to him having remained undrawn Under *Other Charges*, the increase (4,29) in India was partly on account of special political expenditure, such as the Seistan Arbitration Commission and partly on account of the Coronation Durbar at Delhi. The increase in the North-West Frontier Province was mainly on account of expenditure incurred in connection with the Viceregal Durbar at Peshawar

162 The decrease in England was due to the contribution towards the mission to the Court of Persia and other minor consulates having been reduced from the 22nd November 1902, and to the charges for the reception of Indian Chiefs attending His Majesty's Coronation having been recovered from His Majesty's Imperial Government, partly counterbalanced by unexpected payments on account of law expenses in the action in connection with the traffic of arms in the Persian Gulf.

163. The expenditure in India showed a saving of 5,91 as compared with the Budget Estimate, but exceeded the actuals of 1901-2 by 44 The saving, as compared with the Budget, was contributed by all the provinces except the Central Provinces, and the Punjab, but chiefly by India under *Survey of India* (2,13), *Geological and other Surveys* (1,22), and *Other Scientific Departments* (2,11). The excess over the previous year was composed of an increase of 5,97 in India, mainly under *Other Scientific Departments, Other Charges* and *Statistics*, very nearly counterbalanced by a general decrease in almost all the other provinces, notably Bengal (1,75), Bombay (1,11), and the United Provinces of Agra and Oudh (98). The principal causes of the excess in India were the charges in connection with the revision of the Imperial Gazetteer, the constitution of the office of the Inspector of Mines into a separate department, the transfer to this head of the charges for the Director General of Statistics, and additional charges on account of the Inspector General of Agriculture and the Agricultural Chemist, the Cryptogamic Botanist, and the Imperial Library. The low figures in all the other provinces were attributable to larger expenditure on account of Census Operation in the previous year.

164. The decrease under *Survey of India*, was due to smaller expenditure on Survey Parties. The saving under *Geological and Other Surveys* (1,19) occurred mainly in the Archæological Department (1,05), where the grants to Local Governments for Archæological expenditure were only partially utilized; there were also some savings in the salary of officers in that department as also in the Geological Survey owing to vacancies. Under *Other Scientific Departments* there was a net saving of 11, owing mainly to the provision of 90 under Bacteriology not having been utilized in India, and to a small extent to vacancies in the Central Museum and in the office of the Reporter on Economic Products. Under *Veterinary and Stallion Charges* there was a total saving of 2,03. The saving in Burma was due to leave

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*concluded.*,

26.—Scientific and other Minor Departments—*concluded.*

arrangements, to the provision for purchase of bulls and stallions not having been required, and to a decrease in the numerical strength of Veterinary Assistants. In the Punjab it was the result of an over-estimate in local expenditure, which also explains the decrease in the North-West Frontier Province. In the United Provinces also the saving occurred in local expenditure, while that in Madras was due to the provision for Veterinary Hospitals and Bacteriological Laboratory not having been utilized, combined with a reduction in the Pony and Mule-breeding charges. In Bombay the decrease was due to vacancies and to savings in the provision for payments to officers of other provinces, and also in that for maintenance and stabling of stallions. In India, where the savings would have been higher but for an excess of 39 in the charges for the Hissar Cattle Farm, the decrease was due to savings in the charges for Horse-breeding operations, purchase of stallions and mares and feed and keep of farm animals and cattle, and also to vacancies and low rates of pay drawn by officers. Under *Other Charges* the decrease in Bengal was due to the provision for the cattle-breeding farm at Pusa not having been utilized and to savings under Cinchona Plantation charges, which latter also explain the decrease in Madras The increase in the United Provinces of Agra and Oudh was due to the expenditure incurred on account of the Victoria Park and Horticultural Gardens at Lucknow, while that in India to the charges on account of the Indian Art Exhibition at Delhi. Under *Labour and Emigration* the excess in the Central Provinces was due to no provision having been made in the Budget for the proportionate share of the charges on account of the Travelling Superintendent of Emigration and his establishment, which are adjustable between Central Provinces and Bengal. In Burma the expenditure was over-estimated. Under *Statistics* the excess of 26 in India was the result of an increase of 91 due to the charges of the Director General of Statistics and his establishment having been transferred to this head with effect from 1902-3, and of 18 under Census, counterbalanced by a decrease of 82 under "Gazetteer and Statistical Memoirs," owing to the provision for the Imperial Gazetteer having been over-estimated. The increase of 23 in the Punjab was in the charges for Census Operations, while the decrease of 26 in Bombay was in the grant for the Imperial Gazetteer owing to the office of the Imperial Gazetteer having been opened late in the year. The other variations do not call for any notice. Under *Miscellaneous* the excess in India (31) represents charges on account of purchase of furniture and temporary establishment in the Imperial Library. The decrease in Bengal (11) was due to the provision for Ethnographical Survey having been only partially utilized and to the charges on account of the Inspector of Mines for the previous year having been transferred to the India Books, a similar transfer to the books of the Public Works Department of the charges on account of the Inspector of Explosives being responsible for the decrease in the United Provinces of Agra and Oudh. The saving of 47 in Madras was due chiefly to a fall in the charges on account of the manufacture of aluminium-ware and of the weaving industry. Savings to the extent of 13 also occurred under this head in Bombay owing to the amalgamation of the office of the Reporter on Native Press with that of the Oriental Translator. The increase in Madras over the actuals of the previous year was due to charges having been incurred for the first time on account of the carpentry and weaving, etc., departments.

165. The small excess in England was due to a larger demand for stores, counterbalanced by a decrease in the expenditure for the purchase of stallions.

628,0	TOTAL .	573,2	615,6	631,0

166 The total receipts in this section exceeded the Budget Estimate by £57,8 or R8,67 and the actuals of the previous year by £3,0 or R45. Of the excess, as compared with the Budget, £10,3 or R1,55 occurred under Receipts in aid of Superannuation Allowances, chiefly in subscriptions to the Indian Civil Service Family Pensions and Contributions for Pensions and Gratuities, £31,6 or R4,74 under Exchange, and £18,0 or R2,70 under Miscellaneous, due chiefly to heavy receipts on account of unclaimed deposits in Bengal, to the receipts from Berar, and to special recoveries in England on account of value of a cargo lost. These excesses were slightly counterbalanced by a decrease of £2,1 or R32 under Stationery and Printing.

167. The excess, as compared with the previous year, was composed of an excess of £6,8 or R1,02, under Receipts in aid of Superannuation Allowances, due to the causes mentioned above, and of £6,1 or R92 under Exchange, counterbalanced by a decrease of £3,2 or R49 under Stationery and Printing, and of £6,7 or R1,00 under Miscellaneous, due to smaller receipts in India and England, in the former case chiefly under Contributions.

XXII.—Receipts in aid of Superannuation, Retired, and Compassionate Allowances—*concluded.*

168. The Indian receipts exceeded the Budget Estimate and the actuals of the previous year by 1,37 and 89, respectively, of which Berar figures contributed 21. The increase, as compared with the Budget, in Bengal (13) under *Subscriptions to the Military, Military Orphan, and Medical Retiring Funds*, was due to the net proceeds of the Orphangunge Market at Kidderpore having been higher than was estimated for, owing to smaller expenditure for the improvement of the Market; while the falling-off in India (7) and Bombay (7) was due to a decline in the number of subscribers to the Military Funds. *Subscriptions under the Indian Civil Service Family Pension Regulations* and *Subscriptions to the Civil Funds* showed increases of 1,06 and 7, respectively The former was contributed by all the provinces, and the latter by India, Burma, Assam and the Punjab. The increases generally were attributable to realization of marriage donations and increase in the number of subscribers; in the case of the *Indian Civil Service Family Pension Regulations* the improvement was also due to a rise in the rate of subscriptions from 1st September 1902. There was also an increase of 27 under *Contributions for Pensions and Gratuities*, contributed chiefly by Bengal, where it was due to a larger number of officers having been lent to Municipalities, Corporations, and the Court of Wards, etc.; the falling-off in other provinces was due to reversions to Government service

169 In England, the increase was due to contributions towards Leave Allowances and Pensions of Civil Officers lent from India for Imperial Service having been adjusted in that country, and to the rate of subscriptions towards the Indian Civil Service Family Pensions having been raised from 1st September 1902, partly counterbalanced by a decrease in the receipts of the Indian Military Funds and the Widows' Fund of the Home Establishment, the latter due to smaller sales of invested capital.

170. The total receipts fell short of the Budget Estimate and the actuals of the previous year by 32 and 49, respectively. Under *Receipts from Sale of Stationery*, as compared with the Budget, there was an increase of 21 in Bengal due to large sales of stationery to State Railways, while there were decreases of 20 in the Punjab attributable to certain payments due in 1902-3 from the North-Western Railway not having been made till the following year, and of 52 in Bombay, due to the discontinuance of the credit to this head of the cost of stationery supplied to the Berar Administration. The increase of 26 in India under *Sale of Gazettes and other Publications* was due to large sales of Government publications, specially Woodman's "Digest of the Indian cases." On the other hand, small receipts from sale of Gazettes, Indian Law Reports, and Custom House Publications account, for the decrease in Bengal (18); and low receipts from sale of books, miscellaneous forms, etc., explain the deficit in the United Provinces of Agra and Oudh (18). Under *Other Press Receipts*, the decrease in India was due to less demand for State Railway forms and lower rates tendered for sales of waste paper, while that in the Central Provinces to an over-estimate. The increase in the United Provinces of Agra and Oudh was due chiefly to higher receipts at the Civil Engineering College, Rurki, while that in Bombay, to sale-proceeds of old machines and more work done for private bodies.

171. The actuals under this head vary with the average rate of exchange, and variations in the sterling transactions of the Railways

172. The Budget was calculated at an average rate of 16*d.* the rupee, but the actual average rate proved to be somewhat better, *viz*, 16 002*d.* This accounts for the net credit of 31 under *Net Expenditure in England.* Under *Guaranteed Companies,* the Budget provided for a net debit under exchange of 9,59 on account of receipts in India on capital account of the Madras Railway and for a credit of 4,25 for recoveries on account of stores used on Revenue Account. The actual capital receipts on account of the Madras Railway were, however, smaller by £147,1, and as a consequence, the debit under Exchange on this account amounted to only 3,58. On the other hand, the credit under Revenue Stores was greater by 3,85, chiefly in consequence of larger sales of stores to Foreign Railways by the Madras Railway Under *Subsidised Companies,* the smaller credit under Southern Mahratta was due to less payments in England for stores, etc., while the debit under Indian Midland was due to overdrafts against old capital which had not been anticipated at the time of the Budget. The variations from the Budget under other heads are not important and do not require any separate notice.

173. The receipts in India exceeded the Budget Estimate by 2,03, but fell short of the actuals of the previous year by 24. The actuals included Berar receipts to the extent of 1,39. As compared with the Budget, the increase occurred under all the heads except *Other Items,* where there was a decrease. Under *Premium on Bills,* the excess in India (78) was due to the large demand for Telegraphic Transfers from December to March, in connection with the Burma rice trade The smaller decreases in Burma (12) and Bombay (17), were due to the slack demand for supply bills and to the restrictions imposed on their issue, while that in Bengal was attributable to large issues of telegraphic orders on the District Currency Chests on payment of their equivalent and premium in the Calcutta Currency Office. Receipts from *Unclaimed Deposits* are of a fluctuating nature, and cannot be estimated accurately. Recoveries of arrears of audit fees from the Chittagong Municipality and several Wards' Estates mainly account for the increase in Bengal (23) under *Government Audit Fees.* The increase under *Rents* was chiefly due to large realizations of rents of Town, Civil Station and Nazul lands in Central Provinces, and to unexpected collections in Madras. Under *Miscellaneous Fees, Fines, and Forfeitures* the increase occurred chiefly in Bengal under " Fees for survey of Tea lands " Commutation value of Wasika Pensions under the First Oudh Loan lapsed to Government, accounts mainly for the increase against *Extraordinary Items* in the United Provinces of Agra and Oudh, and large realizations of fines from the Mahsud Tribes account for that in the North-West Frontier Province. There was a falling-off of 2,61 under *Other Items,* of which India contributed 33, Central Provinces 51, Burma 3,88, and Bombay 1,10, while Bengal showed an increase of 34, United Provinces of Agra and Oudh 19, Punjab 126, North-West Frontier Province 25, and Madras 27. The decrease in India was due to the Budget under percentage on Europe Stores, etc, having proved too high, in the

Section E.—MISCELLANEOUS—*concluded*

XXV.—Miscellaneous—*concluded.*

Central Provinces to the sale-proceeds of weaver's cloth not having realized the amount estimated, in Burma to low kheddah receipts, and in Bombay to less recoveries of Famine Relief expenditure The increase in Bengal was chiefly due to sale of lands relinquished by the Assam-Bengal Railway, in the United Provinces of Agra and Oudh to higher receipts under sale of Nazul lands and houses, in the Punjab to sale of lands and receipts from the Copying Agency Account, in the North-West Frontier Province to an unexpected increase in tolls on the Khyber Road, due to a rise in the trade between Afghanistan and India, and in Madras to a special receipt on account of sale of lands for village extensions in Tenali Union in the Kistna District.

174. The receipts in England exceeded the Budget Estimate by £4,4 or R 66, the excess being mainly due to the recovery of the value and freight of a cargo lo t

4,139,4	TOTAL .	4,228,3	4,486,8	4,494,0

175. The total expenditure in this section exceeded the Budget Estimate, and the actuals of the previous year, by £265,7 or R39,86 and £354,6 or R53,19, respectively. The Budget provided £20,3 or R3,04 under Exchange. As compared with the Budget, there were excesses of £6,9 or R1,04 under Superannuation Allowances and Pensions, chiefly due to the usual growth of expenditure in pension charges which was not sufficiently allowed for; of £34,5 or R5,18 under Stationery and Printing, due to large purchases of stationery in India and England, of £263,0 or R39,45 under Miscellaneous, due to heavy Remittance Charges, charges on account of Special Commissions of Enquiry, heavy remissions of *taccavi* advances and irrecoverable loans, chiefly in the United Provinces of Agra and Oudh, Bombay and Bengal, to heavy refunds of Suitors' Fund Deposits and expenditure in connection with the visit of His Royal Highness the Duke of Connaught in India, to the adjustment of contributions in aid of deficit balances of local Funds under this head instead of under 45 —Civil Works in the Central Provinces and Burma, and to Coronation Celebration charges all over India. Against these excesses, there were savings of £4,6 or R69 in the payment of Territorial and Political Pensions; and of £13,8 or R2,07 in the Absentee Allowances of Officers of the Civil and the Uncovenanted Service.

176. As compared with the actuals of the previous year, there were increases of £6,2 or R93 and of £59,9 or R8,99 in the payment of Territorial and Political Pensions and Superannuation Allowances and Pensions, respectively, both in India and England; of £26,7 or R4,00 under Stationery and Printing chiefly in England, and of £270,0 or R40,50 under Miscellaneous, chiefly due to the writing-off of irrecoverable *taccavi* loans in the Punjab and Bombay, and to the Coronation Celebration charges in almost all the provinces. These excesses were partly counterbalanced by a decrease of £8,2 or R1,23 in the Absentee Allowances of Officers in England.

27.—Territorial and Political Pensions.

177. The total Indian expenditure showed a saving of 98 as compared with the Budget Estimate, but exceeded the actuals of the previous year by 65. As compared with the Budget, all the provinces except Burma, United Provinces of Agra and Oudh and North-West Frontier Province showed savings. The savings in India and Madras were due to over-estimate, and those in the Central Provinces, Bengal and Bombay, to lapses by deaths and also, in the case of Central Provinces, to pensions remaining undrawn during the year, and in Bombay, to the provision of 47 for the Angria Family, not having been utilized In Bengal, it was partly counterbalanced by a special payment of 50 for repairs of Nizamut Buildings damaged by the earthquake of 1897. The excess in the North-West Frontier Province (11), was due to arrear payments, that in Burma to enhanced rate of pension sanctioned for certain members of the ex-Royal family of Burma, and that in the United Provinces of Agra and Oudh, to extra payment of Wasika pensions owing to the lunar intercalary month The excesses of 9 (Imperial) in Burma, 22 (Imperial) in the United Provinces of Agra and Oudh and 11 (Imperial) in the North-West Frontier Province await sanction.

178. The excess in England was chiefly due to larger payments of pensions to the members of the family of the late Maharajah Dhuleep Singh.

181. The Indian expenditure exceeded the Budget Estimate by 1,22, and the actuals of the preceding year by 4,48. The major portions of the excess occurred under *Superannuation and Retired Allowances* and *Gratuities*, and were due mainly, in the former case, to the usual growth of pension charges, and in the latter to a payment of 15 in Bombay to an Officer of the Central Provinces.

182. The following statement shows this growth during the last six years:—

	R
1897-98	99,83
1898-99	1,01,87
1899-1900	1,06,24
1900-1901	1,09,17
1901-1902	1,12,15
1902-1903	1,16,58

183. The increase of 6 under *Other charges* occurred chiefly in India, and was due to refunds of contributions towards leave allowances and pensions. As compared with the actuals of the previous year, the increases occurred chiefly under the first head.

184. In England, the decrease of £1,2 was due to savings under Military Funds, partly counterbalanced by increases in the pensions of Officers of the Uncovenanted Service and in the Indian Civil Service Family Pensions

185. The expenditure in India exceeded the Budget Estimate, and the actuals of the previous year, by 2,66 and 3,23, respectively. The principal increases occurred under *Stationery Office at the Presidency* and *Purchase of Stationery*, mainly in Bengal, and amounted to 21 and 3,86, respectively. In the former case, it was due to increased expenditure under Supplies and Services and Contingencies, and in the latter, to large purchases of stationery for Printing Presses and State Railways, as well as for supplies to officers on account of Delhi Coronation Durbar and other indenting officers. Under *Government Presses*, there were excesses in Bengal (10), Punjab (22), North-West Frontier Province (4), Madras (15) and Bombay (20), which were generally due to more charges for piece-work establishment and overtime allowances; and in the Punjab, specially to cost of paper purchased for Jail Presses being now charged to this head, instead of to Jail manufactures as before, and in Bombay to the adjustment for the first time, of the convict labour employed in the Jail Presses. These excesses were more than counterbalanced by savings in India (34), Central Provinces (10), Burma (56), Assam (5), and the United Provinces of Agra and Oudh (18). In India, the saving was the result of large recoveries from the Postal, Telegraph and Census Departments, while in the other provinces, less establishment charges contributed mainly to the decreases

Section E.—MISCELLANEOUS—*continued.*

30.—Stationery and Printing—*concluded.*

Under *Stationery supplied from Central Stores,* the Budget was exceeded in Burma, Bengal, the United Provinces of Agra and Oudh, the North-West Frontier Province, Bombay, and the Postal and Telegraph Departments. In the United Provinces of Agra and Oudh, it was due to increased demands of the Superintendent, Government Press, for printing Municipal and other departmental forms, while in Bengal and Bombay, the estimate furnished by the Superintendents of Stationery, proved too low. Under *Other Charges,* the decrease in the Central Provinces (9), was due to work done by the Secretariat Press, instead of by private presses; that in the Punjab (11), to the provision for certain publications, not having been fully utilised, and to the size of the annual reports, etc., having been considerably reduced; that in the North-West Frontier Province (18), to an over-estimate, and that in Madras (49), to less charges on account of printing settlement registers at private presses.

186. The increase in England was chiefly due to larger demands for stores than was provided for

187. The Indian expenditure exceeded the Budget Estimate, and the actuals of the previous year, by 38,54 and 39,69, respectively The excesses included Berar figures to the extent of 16,51.

188 Under *Allowances and Rewards*, the excess in India (8) was due to a large number of officers having passed language examinations in Baluchistan. Under *Remittance Charges*, there were excesses in India (37), due chiefly to the loss incurred by Government on account of the payment of arrears of tribute payable to Holkar, in Government rupees, in Assam (11), to the movement of uncurrent coins to collecting depots for remittance to the Mint, in the United Provinces of Agra and Oudh (11), and Madras (12), to the frequent movements of coin These excesses were partly counterbalanced by decreases in Bengal (13), due to large withdrawals of treasury surpluses by means of supply bills, and in Bombay (17), to less remittances to other provinces and to famine districts. Under *Petty Establishments*, the only noticeable variation was in Burma (3,12), where owing to the Kheddah Department having been formally transferred to the Civil Department from 1st October 1902, the provision was not utilized in full This saving was counterbalanced to the extent of 33 in the Punjab, owing mainly to the debit to this head of the cost of furniture for the Circuit House at Delhi Under *Special Commissions of Enquiry*, there was an excess in India (1,99), owing mainly to the expenditure in connection with the Indian Universities Commission, Industrial Education Conference, Furniture Committee, Police Commission, and Malkowal Commission, while those in the United Provinces of Agra and Oudh (12), Madras (24) and Bombay (12), represent charges connected with the Police Commission. Under *Irrecoverable Loans written off*, the excesses in the United Provinces of Agra and Oudh (1,45), and Bombay (10,80), were wholly on account, of remissions of *taccavi* advances, and that in Bengal (12), on account of writes off of zamindary embankment advances, while the savings in the Central Provinces (60) and the Punjab (49), represent less remissions by Government than was budgetted for. Under *Other Items*, there were excesses in all the provinces. In India, the excess was due to a special refund of Suitors' Fund Deposits, and charges in connection with the visit of His Royal Highness the Duke of Connaught; in the Central Provinces and Burma, to the change in the adjustment of contributions to Municipalities for deficit balances, from Civil Works to this head and to the Coronation festivities, in Assam, to the Coronation festivities entirely ; in Bengal chiefly to the write-off, under the orders of the Government of India, of the irrecoverable amount misappropriated by the late Commissioner of Sunderbans ; in Madras, to the repairing charges of the fishery vessel *Margarita* and the Coronation festivities, of which payments made in connection with the release of civil debtors form the greater portion ; and in Bombay, mainly to the Coronation Celebration charges.

189. In England, there was an excess of £6,0 over the Budget Estimate, which was chiefly due to increased expenditure on the Insignia of Indian Orders.

190 When the Budget Estimate was framed, the only provinces where famine conditions prevailed, were Ajmer-Merwara under India, the Punjab and Bombay, for which a provision of 63,48 was accordingly made, while 13,93 was assigned to the Construction of Protective Irrigation Works, £8,7 set apart for the Construction of Railways, and 71,14 reserved for the Reduction or Avoidance of Debt. Owing, however, to the cessation of the famine in Bombay and the Punjab, the expenditure on Famine Relief fell short of the Budget, while that on Construction of Protective Irrigation Works, also showed a saving The result was an increase in the amount available for Reduction or Avoidance of Debt The increase would have been greater, but for an increase in the charges for Construction of Protective Railways.

191. The following statement shows the total amount chargeable to this grant, and its distribution:—

Famine Relief and Insurance.

33.—Famine Relief.—*concluded.*

192. The expenditure in India was less than the Budget Estimate by 15,25. The saving was contributed by the Punjab and Bombay and was due to the termination of famine Nevertheless, gratuitous relief was continued in Bombay longer than was anticipated The amounts spent by the Native States of Bundi and Merwar on the earth-work of the Bunan-Ajmer-Merwara Railway and debited to Government (*vide* G I F D No 3182-A, dated the 3rd June 1903), represent mainly the excess in India The re-appearance of famine conditions necessitated some expenditure in the Central Provinces The excesses of 66 (Imperial, civil) in the Central Provinces and 1 (Provincial, civil) in the United Provinces of Agra and Oudh were sanctioned, and the excess of 3,78 (Imperial, civil) in India awaits sanction.

Section F.—FAMINE RELIEF AND INSURANCE—*concluded.*

35.—Construction of Protective Irrigation Works—*concluded.*

194 The actuals of the year exceeded those of the previous year by R3,90, due chiefly to larger expenditure on the Tribeni Canal in Bengal, and to the cost of investigating Irrigation projects in Madras and Bombay. The difference between the actuals and the Budget Estimate is small.

36.—Reduction or Avoidance of Debt.

1901-2 Accounts		1902-3 Budget	1902-3 Revised	1902-3 Accounts.

197. These figures show that the net result of the working of all Railways was a gain of £229,0 after meeting all charges for interest, annuities, etc., which, compared with the gain in the previous year, shows a falling-off of £617,6 or R92,64. Under Receipts there was a decrease of £11,5 or R1,72 due mainly to a large falling-off in coal traffic on the East Indian Railway and in grain and seed traffic on the Rajputana-Malwa Railway, while there were small increases on some other lines. The total charges were larger by £606,1 or R90,91, of which R65,64 consists of an increase in working expenses due chiefly to heavy repairs and renewals of stock and maintenance of way and works consequent on the heavy strain of the previous year and £247,2 or R37,08 represents higher charges for Interest and Annuity due to the increased Capital employed in the construction of railways.

Section H.—RAILWAYS—RECEIPTS.

20,226,0	GRAND TOTAL	19,949,4	20,026,4	20,133,9

199. *State Railways* :—The gross receipts under India for the year 1902-03 show a falling-off compared with the actuals of the previous year, of 20,49. The variations on the more important railways were as under :—

Increases (+)		Decreases (—)	
Eastern Bengal	5,08	East Indian	36,52
Oudh and Rohilkhand	6	Rajputana-Malwa	31,25
Bengal-Nagpur	10,01	North Western	8,37
Bengal and North-Western	2,40		
Indian Midland	6,37		
Southern Mahratta	8,49		
South Indian	5,37		
Burma Railways	4,34		
Great Indian Peninsula	9,23		
Other State Railways—Imperial	3,93		
„ Provincial	2		
„ Local	35		
	55,65		76,14

Net decrease 20,49

200. It will be seen from the above that there was an improvement in the earnings of all the more important railway systems with the exception of the East Indian, Rajputana-Malwa and North-Western Railways. The decreases on these lines were due,—on the East Indian Railway (36,52) to the abnormal depression in the coal trade and the introduction during the year of a lower coal tariff; on the Rajputana-Malwa Railway (31,25) to a

Section H —RAILWAYS—RECEIPTS—*continued*

heavy decline in goods traffic, chiefly in grain and pulse, following on the cessation of the special famine conditions of the preceding three years; and on the North-Western Railway (8,37) to smaller exports of grain and seed to Europe and the coast ports of the Bombay Presidency. The principal increases were due —on the Bengal-Nagpur Railway (10,01) to general development of traffic and the opening of the Midnapur-Jherriah Branch; on the Great Indian Peninsula Railway (9,23) to an improvement in coaching traffic connected with the Delhi Coronation Durbar, and general development of goods traffic; on the Southern Mahratta Railway (8,49) to an improvement in passenger traffic attributable to the withdrawal of plague precautionary measures and the installation of His Highness the Maharaja of Mysore and larger traffic in cotton and seeds, on the Indian Midland Railway (6,37) to the special traffic connected with the Delhi Durbar and the more favourable wheat and cotton crops, on the South Indian Railway (5,37) to the opening of the Pamban Branch, on the Eastern Bengal Railway (5,08) to a larger flow of pilgrim traffic to Puri *viâ* the Bengal-Nagpur Railway route, and on the Burma Railways (4,34) to an increase in 3rd class passenger fares and the steady demand for Burma paddy.

201. Compared with the Budget Estimate there was a net gain of 33,11 made up of the following gains and losses .—

Gains (+)		Losses (—)	
Eastern Bengal	5,22	East Indian	35,89
North Western	28,16	Rajputana-Malwa	25,06
Oudh and Rohilkhand	5,27	Other Railways—Imperial	1,20
Bengal-Nagpur	38	„ Local	28
Bengal and North-Western	2,20		
Indian Midland	10,11		
Southern Mahratta	3,62		
South Indian	3,05		
Burma Railways	1,67		
Great Indian Peninsula	35,86		
	95,54		62,43

Net gain 33,11

202. The principal gains were due—on the North Western Railway (28,16) to the anticipated falling-off in the abnormal grain and seed traffic of the previous year having only partly been realised and to the special traffic connected with the Delhi Coronation Durbar and the Hardwar Fair having exceeded expectations, on the Oudh and Rohilkhand Railway (5,27) to an over-estimate of the anticipated falling-off in goods traffic, and on the Great Indian Peninsula Railway (35,86) to the revival of coaching traffic beyond expectations and the unusually favourable cotton and seed crops. The variations on the other lines were due generally to the same causes as account for the variations compared with the actuals of the previous year.

203. *Guaranteed Railways.*—The total net receipts exceeded those of the previous year by 4,68 made up of an increase of 5,12 on the Madras Railway due mainly to the steady growth of 3rd class passenger traffic, an increase of 72 on the Extensions due to the larger mean mileage worked, and a decrease of 1,16 on the Bombay, Baroda and Central India Railway due chiefly to a falling-off in goods traffic under grain and seeds and to a larger share of the joint working expenses of the system falling against the Railway. The total net receipts fell short of the Budget Estimate by 7,07 made up of decreases of 8,13 and 93 respectively on the Bombay, Baroda and Central India Railway and Madras Railway Extensions, and an increase of 1,99 on the Madras Railway main line. These variations were due generally to the causes enumerated above and to an over-estimate of the mean mileage of the Extensions that would be open for traffic during the year.

7,10,66	TOTAL	7,10,03	6,70,03	6,74,14

204 The receipts for 1902-3 show a falling-off of 36,52 compared with the actuals of the previous year The decrease occurred under *Goods* traffic and was due mainly to the abnormal depression in the coal trade and partly to a lower coal tariff having been introduced in August 1902 The decrease of 35,89 compared with the Budget Estimate was due mainly to the same causes.

Eastern Bengal Railway.

1901-2 Accounts R		1902-3 Budget. R	1902-3 Revised. R	1902-3 Accounts R

1,70,14	TOTAL	1,70,00	1,75,00	1,75,22

205 Compared with the actuals of the previous year there was an improvement in receipts of 5,08, due mainly to the flow of pilgrim traffic to Puri that followed on the opening of the Howrah route *viâ* the Bengal-Nagpur Railway, and to larger movements of pilgrims in connection with certain bathing festivals held in April 1902 The opening of new stations on the Kaunia-Dhubri Extension, extensive through-bookings with the Bengal and North-Western Railway *viâ* Katihar, and development of cooly and fish traffic contributed to the increase. The same causes generally account for the increase of 5,22 compared with the Budget Estimate.

Rajputana-Malwa Railway.

1901-2. Accounts R		1902-3. Budget. R	1902-3. Revised. R	1902-3. Accounts. R
	EARNINGS—			
72,71	Coaching	70,00	72,00	72,55

2,80	Miscellaneous and Suspense	4,00	4,50	6,90
2,81,19	TOTAL	2,75,00	2,45,50	2,49,94

206. Compared with the actuals of the previous year the receipts show a falling-off of 31,25 due mainly to the heavy decline in Goods traffic, chiefly under grain and pulse, oil-seeds, sugar and salt, that followed on the cessation of the special famine conditions of the preceding three years, and to the diversion of traffic to the Jodhpur-Bikanir and Southern Punjab Railways. The decrease of 25,06 compared with the Budget Estimate was due generally to the same causes.

Section H.—RAILWAYS—RECEIPTS—*continued.*

North-Western Railway.

1901-2 Accounts R		1902-3 Budget R	Revised R	Accounts. R
	EARNINGS—			
1,33,44	Coaching	1,30,00	1,47,00	1,49,15
2,84,39	Goods	2,51,00	2,64,00	2,62,42
8,70	Miscellaneous and Suspense	9,00	7,00	6,59
4,26,53	TOTAL	3,90,00	4,18,00	4,18,16

207 Compared with the actuals of the previous year, there was a falling-off of 8,37, due mainly to smaller bookings of grain and seed for export to Europe and the coast ports of the Bombay Presidency, and to smaller imports of bounty-fed sugar The decrease on this account, was to some extent compensated for by an increase in Coaching traffic attendant on the Coronation Assemblage at Delhi and the Hardwar Fair and by the opening of the Ludhiana-Dhuri-Jakhal and Khusalgarh Kohat Railways. Compared with the Budget Estimate, the actuals show an increase of 28,16. As noted in the last report, the year 1901-2 was a record year in the history of the North-Western Railway, and in framing the Budget Estimate, due allowance was made for a falling-off in the abnormal export traffic in grain and seeds. The anticipated falling-off was, however, only partly realized, and the increase in coaching traffic consequent on the Delhi Durbar and the Hardwar Fair, exceeded expectations.

Oudh and Rohilkhand Railway.

1901-2 Accounts R		1902-3 Budget. R	Revised R	Accounts. R
	EARNINGS—			
56,47	Coaching	54,50	5500	56,03
67,23	Goods	65,50	64,70	65,85
11,51	Miscellaneous and Suspense	10,00	14,30	13,39
1,35,21	TOTAL	1,30,00	1,34,00	1 35,27

208. The receipts for the year 1902-3, have more than equalled those of the previous year which were the best on record of the Oudh and Rohilkhand Railway. This result would not have been attained, but for the special traffic connected with the Coronation Assemblage at Delhi, as, owing to the prevalence of plague, there was a large falling-off in ordinary traffic chiefly under grain, pulse and oil-seeds. The increase of 1,88 under *Miscellaneous and Suspense*, was due mainly to the adjustment of arrears of *Link* traffic exchanged with the Bengal and North-Western Railway, as explained in the note under that railway Compared with the Budget Estimate, the actuals show an increase of 5,27. Here, also, it was not considered prudent, at the time the Budget Estimate was framed, to expect a continuance of the abnormal traffic of the previous year.

Bengal-Nagpur Railway.

1901-2 Accounts. R		1902-3 Budget R	Revised R	Accounts. R
	EARNINGS—			
59,08	Coaching	63,25	57,95	57,85
70,60	Goods	75,50	79,65	79,46
5,69	Miscellaneous and Suspense	6,25	8,40	8,07
1,35,37	TOTAL	1,45,00	1,46,00	1,45,38

209. Compared with the actuals of the previous year, the receipts show an improvement of 10,01, due to general development of goods traffic, especially coal, and to the opening to traffic from 1st February 1903 of the Midnapur-Jherriah Branch. Compared with the Budget Estimate, there was a small increase of 38.

Section H.—RAILWAYS—RECEIPTS—*continued*

Bengal and North-Western and Tirhoot Railways.

1901-2 Accounts R		1902-3 Budget R	1902-3 Revised. R	1902-3 Accounts R
	EARNINGS—			
40,48	Coaching	41,30	43,58	44,13
48,06	Goods	49,13	48,70	49,20
11,26	Miscellaneous and Suspense	9,57	9,22	8,87
99,80	TOTAL	1,00,00	1,01,50	1,02,20

210. The receipts were better than those of the previous year by 2,40, due to development of traffic on the newly-opened extensions, and to general improvement in both passenger and goods traffic of the combined system. The decrease of 2,39 under *Miscellaneous and Suspense*, was mainly due to the adjustment of arrears of *Link* traffic exchanged with the Oudh and Rohilkhand Railway. The same causes generally account for the increase of 2,20, compared with the Budget Estimate.

Indian Midland Railway

1901-2 Accounts R		1902-3 Budget R	1902-3 Revised R	1902-3 Accounts R
	EARNINGS—			
26,98	Coaching	25,80	31,00	30,85
64,22	Goods	61,30	69,50	67,17
1,32	Miscellaneous and Suspense	1,40	1,10	1,92
92,52	TOTAL	88,50	1,01,60	99,94
8,78	*Deduct*—Bhopal Railway earnings	*8,50*	*9,60*	*9,83*
83,74	Net Indian Midland Railway proper	80,00	92,00	90,11

211. The increase of 6,37, compared with the actuals of the previous year, was due to an improvement in both Coaching and Goods traffic, attributable mainly to the Delhi Coronation Durbar, and to more favourable wheat and cotton crops. The increase of 10,11 compared with the Budget Estimate, was due mainly to the same causes.

Southern Mahratta Railway.

1901-2 Accounts R		1902-3 Budget R	1902-3 Revised R	1902-3 Accounts. R
	EARNINGS—			
19,48	Coaching	19,05	23,25	23,00
36,27	Goods	41,65	41,05	40,74
1,38	Miscellaneous and Suspense	1,30	1,20	1,88
57,13	TOTAL	62,00	65,50	65,62

212. Compared with the actuals of the previous year, there was an improvement in receipts of 8,49, of which 3,52 occurred under *Coaching* and 4,47 under *Goods* traffic. The increase in *Coaching* traffic is attributable to the withdrawal of plague-precautionary measures, the adoption of increased 3rd class passenger fares by mail trains, and the enhancement of 1st and 2nd class passenger fares. The increase was largely contributed to by the special traffic connected with the Coronation Assemblage at Delhi, and the Installation of His Highness the Maharaja of Mysore. Under *Goods*, the increase of 4,47 was due to general improvement in traffic, especially under cotton and seeds following on the agricultural prosperity of the year. The same causes generally account for the increase of 3,62 compared with the Budget Estimate.

Section H.—RAILWAYS—RECEIPTS—*continued*

South Indian Railway.

1901-2. Accounts R		1902-3 Budget. R	Revised. R	Accounts R
	EARNINGS—			
52,91	Coaching	54,00	58,00	58,99
48,23	Goods	49,75	47,25	48,47
2,54	Miscellaneous and Suspense	2,25	1,25	1,59
1,03,68	TOTAL	1,06,00	1,06,50	1,09,05

213 Compared with the actuals of the previous year, the receipts were better by 5,37, due mainly to an improvement in Coaching traffic consequent on a favourable season for passengers, and to the opening for public traffic, of the Pamban Branch in August 1902. The increase of 3,05 compared with the Budget Estimate, is attributable generally to the same causes

Burma Railways.

1901-2 Accounts R		1902-3 Budget R	Revised R	Accounts R
	EARNINGS—			
54,67	Coaching	56,50	57,00	57,99
64,84	Goods	66,0	65,50	66 24
2,82	Miscellaneous and Suspense	2,50	2 50	2,44
1,22,33	TOTAL	1,25,00	1,25,00	1,26,67

214. Compared with the actuals of the previous year, which were the highest on record of the Burma Railways, the receipts for 1902-3 show an improvement of 4,34 Under *Coaching*, there was an increase of 3,32, mainly in 3rd class passenger fares, the result of continued development of traffic on the old sections of the line, and the opening up of new extensions, while *Goods* traffic was better by 1,40 owing to the steady demand for Burma paddy in Indian and other markets Compared with the Budget Estimate, the increase of 1,67 was due generally to the same causes

Great Indian Peninsula Railway

1901-2 Accounts R		1902-3 Budget R	Revised R	Accounts R
	EARNINGS—			
1,00,70	Coaching	96,75	1,07,80	1,08,83
3,23,57	Goods	3,00,00	3,26,00	3,23,68
2,36	Miscellaneous and Suspense	3,25	3,70	3,35
4,26,63	TOTAL	4,00,00	4,37,50	4,35,86

215. Compared with the actuals of the previous year, the receipts show an improvement of 9,23, mainly under Coaching traffic connected with the Delhi Durbar, but due also to general development of traffic consequent on the cessation of famine During the earlier months of the year, there was a decline in Goods traffic chiefly under grain and seeds from Upper India, but the fall on this account was more than compensated by a favourable cotton crop, and a large business in seed at the close of the year. Compared with the Budget Estimate, there was an increase of 35,86, due to the revival of Coaching traffic beyond expectations, and the unusually favourable cotton and seed crops, to which may be added the special traffic connected with the Coronation Durbar.

1,34,89	1,40,02	1,38,55	1,38,82

216. Compared with the actuals of the previous year, there was a net increase in receipts of 3,93, made up of increases aggregating 7,28 and decreases of 3,35 The principal increases were, 237 on the Mysore Railway due to an improvement in Passenger traffic connected with the Delhi Durbar, and the installation of His Highness the Maharaja of Mysore, and to better traffic in cotton and seeds, 1,04 on the Jodhpur-Hyderabad Railway, due to general development of traffic, 79 on the Brahmaputra-Sultanpur Railway, owing to the line having been open for the full 12 months of the year, as against only 9 months in 1901-2, 70 on the Tinnevelly-Quilon Railway, due to the opening of the line in June 1902, 67 on the Lucknow-Bareilly Railway, due to larger receipts on account of *Link* traffic and supervision charges recoverable from the Powayan Steam Tramway, and 53 on the Bhopal State Railway, due to improved passenger traffic connected with the Delhi Durbar, and to better crops. The main decreases were, 2,36 on the North-East line, Madras Railway, due to the stoppage of traffic caused by breaches in the line consequent on heavy floods, and 68 on the Bengal Central Railway, due to a falling-off in jute traffic and in sundry receipts from hire of vehicles, etc, by foreign railways The actuals fell short of the Budget Estimate by 1,20 There were decreases aggregating 6,10, of which the principal were, 2,46 on the North-East line, Madras Railway, due to breaches in the line caused by heavy floods, 1,90 on the Assam-Bengal Railway owing to the development of traffic, allowed for in the Budget Estimate, not having been realised, 75 on the Bengal Central Railway, due to a falling-off in jute traffic and sundry receipts, and 60 on the Tinnevelly-Quilon Railway, owing to the opening of only 19 miles of line, as against 50 miles allowed for in the Budget Estimate The increases total 4,90 of which 2,42 occurred on the Mysore Railway, due to improved Passenger and Goods traffic as explained above, in the comparison with actuals of the previous year, 59 on the Brahmaputra-Sultanpur Railway, due to general development of traffic beyond that allowed for, in the Budget Estimate, 52 on the Guntakul-Mysore Frontier Railway, due to an improvement in cross traffic interchanged with the South Indian Railway, and 54 and 51 respectively on the Lucknow-Bareilly and Bhopal State Railways, attributable to the same causes as account for the increases compared with the actuals of the previous year

Gross Receipts

219 The receipts of the Bombay, Baroda and Central India Railway were better than those of the previous year by 5,12, made up of an increase of 9,09 in net suspense transactions, due to smaller payments to foreign railways on account of through traffic and miscellaneous receipts, and a decrease of 3,97 under earnings, due to a falling-off in Goods traffic, chiefly under food-grains, oil-seeds, and carriage of coal for the Rajputana-Malwa Railway On the Madras Railway, the increase of 10,35 was due partly to the steady growth of 3rd class Passenger traffic and partly to the adjustment of arrear charges under the contract for working the North-East line Fluctuations in suspense, chiefly in through traffic transactions with the West Coast Extensions and the Great Indian Peninsula Railway contributed to the increase. The increase of 1,30 on the Extensions was due to the larger mean mileage open during the year and to general development of traffic. The same causes generally account for the variations from the Budget Estimate, with the exception of the decrease of 1,93 on the Madras Railway Extensions which was due to the mean mileage open during the year, having been considerably less, than was allowed for in the Estimate

Working Expenses.

220. The working expenses of the Bombay, Baroda and Central India Railway exceeded those of the previous year by 6,28. This was due chiefly to the large fall in the earnings of the Rajputana-Malwa Railway (about 31,25 below last year's actuals) resulting in a larger proportion of the gross expenses of the entire system falling against the Company's section. Other factors which contributed to the increase were, the special credit in the accounts for 1901-2, in connection with the transfer of outlay on the Narbada Bridge Protective Works to Capital account, and the special debit of 2,41 in the year under review, on account of loss on timber in the Parel Workshops. The increase of 3,25, compared with the Budget Estimate, is attributable generally to the same causes. On the Madras Railway, the increases of 5,23 compared with the actuals of the previous year and 4,69, compared with the Budget Estimate, were due to larger repairs and renewals of permanent way and rolling stock The lapse of 70 from the Budget provision for the Madras Railway Extensions, follows on the smaller traffic worked.

Section H.—RAILWAYS—RECEIPTS—*concluded.*

XXVIII.—Subsidized Companies (Repayment of Advances of Interest).

1901-2 Accounts		1902-3 Budget.	Revised.	Accounts.

33,8	TOTAL	39,1	51,8	50,1

221 The credits under India, represent the amounts recoverable from the Mysore and Travancore Durbars and from the Ahmedabad-Dholka Railway Company. The recovery from the Mysore Durbar, is in settlement of the net charge for interest paid to the Southern Mahratta Railway Company in connection with the Mysore Railway

222 The details of the amounts recoverable are given below:—

1901-2 Accounts		1902-3 Budget.	Revised	Accounts
	INDIA—			
R		R	R	R
	MYSORE RAILWAY—			
7,21	Interest on Capital	7,20	7,20	7,20
15	*Less*—Charge for interest borne by Government for the unexpended balance of the Capital retained in its hands	4	13	13
7,06		7,16	7,07	7,07
2,77	Net receipts	3,50	4,30	4,54
4,29	Net charge for interest recoverable from the Mysore Durbar	3,66	2,77	2,53

The recovery from the Travancore Durbar is on account of —

(i) interest on so much of the South Indian Railway debentures as has been raised for the Native State Section of the Tinnevelly-Quilon Railway, and

(ii) interest on Government advances, *i.e.*, on outlay in excess of the amount of debenture capital raised in respect of the section

The recovery due from the Ahmedabad-Dholka Railway Company, represents interest and dividends on the shares aggregating R59,900 allotted to Government in respect of survey expenditure and the value of famine earthwork at normal rates, which is treated as a Government share in the undertaking. No recovery was made during the year under review

223. The credits under England represent the amounts received from the Rohilkhand-Kumaon and Southern Punjab Railway Companies, in settlement of the Government share of the surplus profits of those Railways

2,61,51	TOTAL	2,60,00	2,62,00	2,61,45

226. Compared with the actuals of the previous year, there was a net increase in working expenses of 1,27 Under *Maintenance*, there was a decrease of 8,27, due to smaller relaying operations and to a credit for the value of permanent-way material transferred to the Shikoabad-Farakhabad Railway. The increase of 6,24 under *Locomotive*, was due partly to adjustments on account of the value of English engines, previously charged for at local rates and partly to larger expenditure on renewals The decrease of 7,98 under *Carriage and Wagon*, was due mainly to a smaller programme of renewals consequent on the transfer of the workshops from Howrah to Lilloah, and to a special credit for value of scrap material returned to stores. The increase of 9,56 under *General Miscellaneous and Suspense*, is attributable chiefly to fluctuations in suspense, connected with the transfer in the previous year of survey expenditure to the head 41.—Miscellaneous Railway Expenditure, and with debits for stores used on works for the Delhi Coronation Durbar Compared with the Budget Estimate, the increase of 3,91 was due chiefly to heavier expenditure under *Locomotive* and *Suspense*, attributable generally to the causes referred to in the above comparison with actuals of the previous year.

Eastern Bengal Railway.

1901-2. Accounts		1902-3 Budget.	Revised.	Accounts
R		R	R	R
	WORKING EXPENSES—			
19,63	Maintenance	21,80	21,43	21,26
23,81	Locomotive . . .	24,84	23,00	22,58
8,15	Carriage and Wagon	9,93	7,86	8,16
18,35	Traffic	18,00	18,80	19,17
17,25	General, Miscellaneous and Suspense . . .	17,43	17,91	17,67
87,19	TOTAL	92,00	89,00	88,84

227. Compared with the actuals of the previous year, there was an increase in expenditure of 1,65, due mainly to the relaying of 7 miles of line with 85lb steel rails, and to the ballasting of a portion of the permanent-way between Calcutta and Naihati with stone ballast. The appointment of additional Traffic staff, heavy repairs to steamers and flats, and larger consumption of coal due to additions to the flotilla service, contributed to the increase. Under *Locomotive*, there was a reduction in expenses of 1,23, owing to heavy expenditure in the previous year on the renewal of engines and boilers. The reduction of 3,16 compared with the Budget Estimate was due to the non-arrival during the year, of 12 new engines provided for in the Estimate, as renewals.

1,30,32		1,30,00	1,19,00	1,18,37

228 Compared with the actuals of the previous year, the working expenses show a net decrease of 11,87 There were decreases of 5,92 under *Maintenance*, 5,72 under *Locomotive*, and 2,03 under *Traffic*, all attributable directly to the falling-off in earnings, and indirectly to the smaller share of the combined expenditure charged to the Rajputana-Malwa Railway, in consequence of reduced earnings, on the other hand, there were increases of 79 under *Carriage and Wagon*, due to more extensive repairs and renewals of rolling stock, and of 1,01 under *General, Miscellaneous and Suspense*, owing to the adjustment of arrear charges and to fluctuations in suspense During the year under review, a net payment of 6 was made to the Bombay, Baroda and Central India Railway Company, on account of the ⅛th share of certain miscellaneous items of revenue relating to the period prior to 1st July 1900. The variations compared with the Budget Estimate, are attributable generally to the same causes

North-Western Railway

1901-2 Accounts.		1902-3 Budget	1902-3 Revised	1902-3 Accounts

8,75	General, Miscellaneous and Suspense	8,15	8,25	8,19
65,84	TOTAL	65,00	67,00	65,35

230. Compared with the actuals of the previous year, the decrease of 47 under *Maintenance*, was due to short expenditure on renewal of girders of the Ramganga Bridge, the decrease of 85 under *Carriage and Wagon*, to smaller renewals of Coaching and Goods vehicles, and the decrease of 56 under *General, Miscellaneous and Suspense*, to fluctuations in suspense. There were increases of 66 and 73 under *Locomotive* and *Traffic*, due mainly to higher charges for carriage of coal, and the entertainment of additional Traffic staff Compared with the Budget Estimate, the actuals show a small increase.

Section H.—RAILWAYS—EXPENSES—*continued*

Bengal-Nagpur Railway.

1901-2 Accounts. R		1902-3. Budget R	1902-3. Revised R	1902-3. Accounts. R

1,79	Share of surplus profits paid to the Company and contribution to Provident Fund		42	42
72,66	TOTAL	73,00	74,00	74,32

231. The working expenses exceeded the actuals of the previous year by 3,03, due to the heavier traffic worked, and to the opening of the Midnapur-Jherriah Branch from 1st February 1903. A payment of 42 was made during the year, in respect of the balance of the Company's share of Surplus Profits for the year 1900 Compared with the Budget Estimate, the increase in working expenses amounted to 90, due to insufficient provision having been made for running expenses, and for repairs and renewals of Locomotives

Bengal and North-Western and Tirhoot Railways

1901-2 Accounts R		1902-3 Budget R	1902-3 Revised R	1902-3 Accounts R
	WORKING EXPENSES—

74 10	TOTAL	77,00	79,40	80,27

232 Compared with the actuals of the previous year, and with the Budget Estimate, there were increases under all heads, of working expenses excepting *Maintenance*, consequent on the larger volume of traffic worked by the system, while heavy charges were brought to account under *General, Miscellaneous and Suspense*, in connection with the adjustment of arrears of joint station expenses. The increase in the Company's share of net earnings, was due to the payment of a portion of the Company's share of net earnings pertaining to the previous year having been made during the year under review.

Indian Midland Railway

1901-2 Accounts R		1902-3 Budget R	1902-3 Revised R	1902-3 Accounts R
	WORKING EXPENSES—			
6,57	Maintenance	7,66	7,77	8,18

44,93	TOTAL	48,50	46,50	46,99

234. Compared with the actuals of the previous year, there was an increase in working expenses of 58 only, against an improvement in receipts of 8,49. This favourable result was due almost entirely to economical working, as heavy expenditure was incurred during the year, on repairs and renewals of boilers, engines, and machinery The increase of 1,48 in the Company's share of net earnings, was due to the more satisfactory results obtained. Compared with the Budget Estimate, the decrease of 2,77 was due to a smaller proportion of the total working expenses of the system than was allowed for falling on the Southern Mahratta Railway, the share falling against each railway, being coincident with the difference in the earnings realized.

South Indian Railway

1901-2 Accounts		1902-3 Budget	1902-3 Revised	1902-3 Accounts
R	WORKING EXPENSES—	R	R	R
10,43	Maintenance	12,24	8,82	8,28
18,59	Locomotive	19,31	17,60	17,07
5,62	Carriage and Wagon	7,20	6,06	4,96
7,29	Traffic	8,43	7,80	7,72
7,42	General, Miscellaneous and Suspense	7,82	7,72	7,73
49,35	TOTAL WORKING EXPENSES	55,00	48,00	45,76
6,15	Share of surplus profits paid to the Company, and contribution to Provident Fund	5,00	5,50	5,53
55,50	TOTAL	60,00	53,50	51,29

235. Compared with the actuals of the previous year, there was a decrease in working expenses proper, of 3,59, due mainly to the abnormal expenditure incurred during 1901-2 on special renewals of permanent-way, repairs to bridges and stations, and the replacement of condemned locomotives. The amount paid on account of Company's share of surplus profits, etc., during the year, was also smaller, owing mainly to the increase in payments for Interest on Pamban Branch Debenture Bonds. The lapse of 9,24 on the Budget provision, was due chiefly to the postponement of renewals on the Nagore Branch and other sections of the line and to failure of the contractors to complete the renewal of 5 locomotives, for which provision was made in the Estimate.

Burma Railways.

1901-2 Accounts		1902-3 Budget	1902-3 Revised	1902-3 Accounts
R	WORKING EXPENSES—	R	R	R
14,71	Maintenance	15,00	17,20	17,54
26,94	Locomotive	25,00	27,05	27,36
6,38	Carriage and Wagon	5,00	5,90	5,95
11,21	Traffic	11,50	11,14	11,34
10,20	General, Miscellaneous and Suspense	10,50	10,52	10,44

4,42	Share of surplus profits, etc.	4,50	4,69	4,69
73,86	TOTAL	71,50	76,50	77,32

236. The working expenses proper exceeded those of the previous year, by 3,19, due mainly to larger expenditure on maintenance and renewals of permanent-way and repairs to stations and buildings. Heavier running expenses and maintenance of locomotives, due to the increased train mileage run, contributed to the increase. Compared with the Budget Estimate, the excess of 5,63 is attributable generally to the same causes.

Section H.—RAILWAYS—EXPENSES—*continued.*

Great Indian Peninsula Railway.

1901-2. Accounts		1902-3. Budget.	Revised	Accounts
R		R	R	R

2,72	Share of Surplus profits, etc	1,75	2,93	2,93
2,05,75	TOTAL	1,93,75	2,21,50	2,24,16

237. Compared with the actuals of the previous year, there was an increase in working expenses proper, of 18,20, due partly to improved earnings, but mainly to heavier repairs and renewals of engines, higher cost of raw material, and enhanced cost of carriage of coal. Compared with the Budget Estimate, the excess of 29,23, is attributable to the same causes, and to an underestimate of the provision required to meet heavy repairs and renewals of rolling stock and permanent-way.

Other State Railways—Imperial

R		R	R	R
80,96	Working Expenses	79,24	86,77	90,10
4,01	Share of surplus profits, etc	3,98	4,00	3,99
84,97	TOTAL	83,22	90,77	94,09

238. Compared with the actuals of the previous year, there was a net increase in working expenses of 9,14, made up of increases aggregating 9,31 and a decrease of 17. The principal increases were, 4,94 on the North-East line, Madras Railway, due to abnormal outlay on repairs to flood damages, and 1,66 on the Assam-Bengal Railway, due to heavy expenditure on maintenance and renewals of locomotives and to the inclusion of charges for working the Chittagong Jetties Compared with the Budget Estimate, there was an increase of 10,86 of which 6,07 falls to the North-East line, Madras Railway, and 2,12 to the Assam Bengal Railway, attributable to the causes referred to above, and 99 to the Mysore Railway, consequent on the heavier traffic handled.

Section H.—RAILWAYS—EXPENSES—*continued.*
39.—Guaranteed Companies—Surplus Profits, Land and Supervision—*concluded*
Surplus Profits

246. The decrease of 9,77 in payments on account of the Company's share of surplus profits of the Bombay, Baroda and Central India Railway, compared with the actuals of the previous year, was due to the inclusion in the accounts for 1901-2 of payments for 3 half years, as against only 2 half years in the year under review, also to the shares of Surplus Profits for the 2 halves of 1902 having been smaller than those of 1901, owing to the falling-off in the net receipts of the period. The decrease of 6,67, compared with the Budget Estimate, was due entirely to the latter cause.

Land and Supervision.

247. Compared with the actuals of the previous year, there was a net increase in the charges for land and supervision of 6 only. The principal variations were, an increase of 74 in the Bombay Presidency, due to larger payments on account of land taken up for the Bombay, Baroda and Central India Railway, and a credit larger by 1,00, in respect of recoveries from Companies on account of Government supervision and control, consequent on increased open mileage, and the recovery of arrear charges from the Madras Railway Company, in terms of the contract for working the North-East line. The decrease of 3,59 in the net charge, compared with the Budget Estimate, was due mainly to the provision allowed for land for the Azikhal-Mangalore Extension not having been required under this head, owing to its having subsequently been decided to construct the line as a State Railway.

39.—Guaranteed Companies—Interest.

1901-2 Accounts.		1902-3 Budget.	1902-3 Revised	1902-3 Accounts.
R	INTEREST—	R	R	R

2,02	GRAND TOTAL	17,99	7,30	6,33
£		£	£	£
13,5	EQUIVALENT IN STERLING	119,9	48,7	42,2

249. Compared with the actuals of the previous year, there was a net increase in the payments for land and subsidy of 4,31, made up of increases aggregating 4,52 and decreases amounting to 21. The principal increases were, 2,54 and 86 on the Kalka-Simla and Laksam-Noakhali Railways, owing to the acquisition of land for these lines, having practically been completed, and 72 on the Bengal and North-Western Railway in respect of land acquired for the new extensions. Compared with the Budget Estimate, the lapse of 9,76 under Imperial was due chiefly to the amounts set aside for the Bara-Ajmere, Amritsar-Sarhali, Burdwan-Cutwa, Hooghly-Cutwa Kangra Valley, Assam Branch, Kurnool Branch, and Bezwada-Masulipatam Railways, not having been utilised, and to smaller acquisition of land for the Ahmedabad-Dholka, Bengal and North-Western, and Laksam-Noakhali Railways, than was provided for.

Section H.—RAILWAYS—EXPENSES—*continued.*

40.—Subsidized Companies—Land, Subsidy, and Interest—*concluded.*

250. The lapse of 50 under *Provincial* on the Dibru-Sadiya Railway, was due to no subsidy having become payable in respect of the year ended 30th June 1902, and that of 1,40 on the Shadara-Saharanpur Tramway, to delay in the acquisition proceedings.

251. The total outlay under *Imperial*, is less than that of the previous year, by 2,83. No useful comparison can be made between the outlay of the two years by individual projects, as surveys are being completed, and new surveys are being started, every year. The excesses of 21 on the Arakan Surveys, 5 on the Coonoor-Ootacamund Extension Survey, and 9 on the Guntur-Repalli Survey, as compared with the Budget Estimate, have been sanctioned by the respective Local Governments.

Section J.--IRRIGATION.

Section J.—IRRIGATION—RECEIPTS—*continued.*

Direct Receipts—Imperial Works.

255. The increase of 27,39 on the receipts of the previous year, was due to the development of irrigation from the canals in the Punjab, and to a favourable *Kharif* season in the United Provinces of Agra and Oudh. The increase of 8,91, as compared with the Budget Estimate, was due to the same causes.

Direct Receipts—Provincial Works.

256. The actuals for 1902-3 were better than those of the previous year and the Budget Estimate, by 11,11 and 6,29, respectively. The increase was due to larger demands for water from the canals in the United Provinces of Agra and Oudh and Bengal.

XXIX.—Major Works—Indirect Receipts.

Portion of Land Revenue due to Irrigation.

A—Imperial. B—Provincial and Local.

Imperial Works.

258. The falling-off of 3,47, as compared with the previous year, was due to the transfer of the Upper Sutlej inundation canals, in the Punjab, to the category of "Major Works."

Provincial and Local Works.

259. The differences under this head, are unimportant and are the net result of several small increases and decreases due to various causes.

Section J.—IRRIGATION—EXPENDITURE.

1901-2. Accounts		1902-3. Budget	1902-3. Revised.	1902-3. Accounts.
R	EXPENDITURE—	R	R	R
3,54,49	India (Rupee figures)	3,93,10	3,87,23	3,86,00
£		£	£	£
2,363,3	Equivalent in Sterling	2,620,7	2,581,5	2,573,3
1,4	England	1,7	1,7	1,9
2,364,7	TOTAL	2,622,4	2,583,2	2,575,2

260. The increase of £210,5 or R31,58 in the expenditure during 1902-3 over that of the previous year, was due in India to the maintenance and repairs of greater lengths of canals opened for irrigation, to increased interest charges on the additional capital outlay, and to a large expenditure on Minor Works from the special grant of 25 lakhs sanctioned for the purpose. The short outlay of £47,2 or R7,18, as compared with the Budget Estimate, was due to its not having been practicable to fully utilize the whole of the special grant of 25 lakhs.

42.—Major Works—Working Expenses.

£		£	£	£
701,9	Equivalent in Sterling	737,9	765,0	754,6

(For details see page 120.)

Imperial Works.

261. The expenditure in 1902-3 was more than that in the previous year by 7,46. The increase was due chiefly to the maintenance and repairs of greater lengths of canals and distributaries opened for irrigation in the Punjab and Bombay, also to increased collection charges on the increased revenue. The actuals also exceeded the Budget Estimate by 2,83. The excess was due to heavier maintenance charges, chiefly in the Punjab. The excess was covered by a net additional grant sanctioned by the Government of India.

Provincial Works.

262. The increase of 44, as compared with the actuals of the previous year, is made up of an increase of 1,09 in the United Provinces of Agra and Oudh, due to more remodelling works having been carried out during 1902-3, and to larger collection charges on account of increased revenue, less a short outlay, of 65 in Bengal. Large credits for establishment on the cost of work done by the Irrigation Branch, for the Buildings and Roads Branch in Bengal, chiefly account for the decrease, as compared with the Budget Estimate.

A —Imperial B —Provincial and Local.

Imperial, Provincial and Local Works.

264 Owing to larger grants having been made available for expenditure, both under Imperial and Provincial, in all provinces except Burma, the expenditure in 1902-3 exceeded that of the previous year by 19,86 The decrease of 9,50, as compared with the Budget Estimate, is entirely due to its not having been practicable to fully utilize the special grant of 25 lakhs, during the year The excess under Provincial was sanctioned.

A.—Public Works in charge of Departmental Officers. B.—Public Works in charge of Civil Officers

Imperial Works.

267. The revenue realised by departmental officers was better than that of the previous year and the Budget estimate, the increase being chiefly due to the sale proceeds of old materials from the Dera Ghazi Khan protective works in the Punjab.

268. The increase of 56, in the revenue realised by Civil Officers, over that of the previous year, is due to the figures for the North-West Frontier Province for 1902-3, representing a full year's realisations, whereas those for 1901-2 represented realisations for only 5 months.

Provincial Works.

269. The revenue realized by departmental officers shows an improvement over that of the previous year and the Budget estimate, due to increased receipts from rents and sale of buildings in Burma and Bengal, and to larger profits from the Darjeeling-Himalayan Railway and the Roorkee workshops.

270 The falling off of 36 in the receipts by Civil Officers in the Punjab, as compared with the previous year, was due to certain revenue which was formerly "Provincial", being now treated as "Imperial", since the creation of the North-West Frontier Province.

Local Works.

271 The revenue realized by Civil Officers exceeded that of the previous year, and the Budget estimate, by 1,32 and 2,31, respectively. The increase is due to better receipts from ferry tolls contributions, arboriculture, and miscellaneous receipts in Bengal, the United Provinces of Agra and Oudh and Madras.

4,632,7	TOTAL	5,201,6	5,073,8	5,242,5

272. The expenditure in this section exceeded that of the previous year, by £609,8 or R91,47. The increase was due to a larger programme of works in 1902-3, than in the previous year. The increase, as compared with the Budget Estimate, amounted to £40,9 or R7,14 and was chiefly due to larger demands for Military Works Stores from England.

34,6	ENGLAND	18,1	53,0	62,6
964,8	GRAND TOTAL	994,2	1,083,8	1,096,7

273. The actual expenditure in India during 1902-3, exceeded that of the previous year by 15,58, and the Budget Estimate, by 8,70. The increase was due to a larger number of new works being under construction. The total expenditure of the year—both Indian and English—exceeded the Budget Estimate. The excess was covered by additional grants sanctioned by the Government of India during the course of the year.

Imperial Works

274. The expenditure incurred by departmental officers during 1902-3, exceeded that of the previous year by 4,96. The increase was the net result of various increases and decreases the principal increases being due to the expenditure in Berar being included under this head for the first time; under "India" also to larger expenditure on certain works in Bangalore and Baluchistan, and the North-West Frontier Province, where a full year's expenditure was shown in 1902-3, against the expenditure of five months only in 1901-2. As compared with the Budget Estimate, there was a lapse of 3,15 owing to the slow progress of works

275. The expenditure incurred by Civil Officers compares favourably with the previous year and the Budget Estimate, and calls for no remarks.

Provincial Works.

276. The expenditure incurred by departmental officers during 1902-3, exceeded that of the previous year by 52,92 The increase was mainly due to large grants having been made available for expenditure during the year by the Local Governments from the Imperial contribution of 52,91 sanctioned by the Government of India in aid of Provincial resources.

277. The expenditure incurred by Civil Officers in Burma and Madras was smaller than in the previous year. In the Punjab a larger expenditure was incurred under the head "Improvement of towns" in the Chenab Colony As compared with the Budget Estimate, the largest decrease occurred in Bengal, and is attributed to the grants to the Christian and Mahomedan Burial Boards and to the Darjeeling Municipality for roads, not being fully utilized.

Local Works.

278. The expenditure incurred by departmental officers during 1902-3, exceeded that of the previous year by 8,22. This increase was due to a larger programme of works, and to the expenditure in the new Berar province being included for the first time. The Budget Estimate was exceeded by 4,27, the increases occurring chiefly in the United Provinces of Agra and Oudh and Bombay, and a part being also due to the inclusion of the expenditure of the new Berar province for the first time.

279. The expenditure incurred by Civil Officers during 1902-3, exceeded that of the previous year by 7,36. This increase was due to the continued improved financial position permitting of a larger programme of public works. As compared with the Budget Estimate, there was a lapse of 9,21, due to progress of work being slower than anticipated.

15,764,0	TOTAL .	17,664,7	17,155,5	17,346,4

283. The receipts in India exceeded the Budget Estimate by R31,25 or £208,4, and the actuals of the previous year by R4,68 or £31,2. Compared with the Budget, the improvement was chiefly due to His Majesty's Imperial Government having been debited with the value of Europe stores, issued from stock to South Africa and Somaliland, of the value of mules sent to the latter country, and of the value of peace equipment taken by certain native corps to the Colonies, to credit having been taken for the value of elephants transferred to the Burma Government with the Khedda Department, to larger sales of malt liquor and ordnance stores; to the issue of new pattern arms, etc., to the Police and Jail Departments; and to larger contributions towards Indian Military Service Family Pensions. The improvement would have been greater but for the decrease in the sales of clothing, commissariat provisions, stores and rum, etc., due in part to the absence of troops in South Africa. Compared with the actuals of the past year, the increase was due chiefly to credit having been taken for the value of elephants transferred to Burma, as well as of mules sent to Somaliland, and for departmental charges on the cost of stores despatched to that country; to larger sale-proceeds of regimental cast horses and unserviceable stores, including the machinery of the late Gunpowder Factory, Ishapore, and to larger subscriptions to the Indian Military Service Family Pension Fund, as well as more donations on promotion and marriages and births of children.

284. The receipts in England exceeded the Budget Estimate by £27,4, owing chiefly to the adjustment in that country of contributions towards pensions of Indian Native Soldiers lent for Imperial Service, partly counterbalanced by smaller credits on account of value of articles in possession of regiments on their transfer from the Indian to the British establishment.

Section L.—ARMY SERVICES—*continued.*

285. The following statement shows separately the ordinary and special charges included under expenditure in India:—

1901-2. Accounts		1902-3 Budget	1902-3 Revised	1902-3 Accounts
R		R	R	R
46,46	SPECIAL CHARGES .	29,56	27,64	25,23
16,60,67	Other Charges . .	18,29,24	17,57,35	17,83,13
17,07,13	TOTAL .	18,58,80	17,84,99	18,08,36

286. The total Budget provision and the actual expenditure for Special Charges are shown in detail below:—

Charges for—	1902-3. Budget.	1902-3. Accounts
Occupation of Chitral and its Communications .	11,50	7,71
Wano Garrison	79	3,21
Tochi Garrison	5,05	3,88
Gilgit Agency	1,64	1,30
Kajuri Kach and Jandola Garrisons . .	...	81
Blockade of the Mahsud Waziris . . .	9,76	6,59
Kohat-Kurrum Force	82	1,59
North-West Frontier Field Operations . .	...	14
	29,56	25,23

287 The decrease under Special Charges, was mainly due to less charges on account of Occupation of Chitral and its Communications, owing to the reduction of the Malakand garrison and to the demobilization of the Swat moveable column and the field hospitals, on account of Tochi Garrison, due to its withdrawal from Dattakhel, to cheaper rates of food supplies, and to less charges for field service clothing, on account of Gilgit Agency, due to decrease in the charges for transport and food supplies, and on account of Blockade of the Mahsud Waziris, due to the earlier withdrawal of troops forming the Blockade than was anticipated. These decreases were partly counterbalanced by increases under Wano Garrison, Kajuri Kach and Jandola Garrisons and Kohat-Kurrum Force. The increases under the first and second heads were due to the charges on account of the garrisons having been compiled under those heads from May 1902 on the conclusion of the blockade operations, while the expenditure for the first seven months of the year had been budgetted for under the head Blockade of the Mahsud Waziris. The excess under the last head was attributable to charges having been incurred for the whole year against a Budget provision for four months only, and to the grant of certain concessions to the unhutted men at Thall

288. The details of the saving of 46,11 in the ordinary expenditure, as compared with the Budget, are shown by the following figures:—

	1902-3. Budget	1902-3. Accounts	Excess + Saving—.
Army and Garrison Staff	57,41	57,33	—8
Regimental Pay	8,83,22	8,24,78	—58,44
Supply and Transport	4,03,91	4,05,61	+1,70
Remount	40,25	45,77	+5,52
Clothing	28,62	27,75	—87
Medical	87,38	75,24	—12,14
Ordnance	1,24,37	1,12,89	—11,48
Miscellaneous	26,96	47,63	+20,67
Other heads	1,77,12	1,86,07	+8,95
TOTAL .	18,29,24	17,83,13	—46,11

Section L.—ARMY SERVICES—*continued.*

289. The main causes of the above savings are given below:—

	R	R
(1) Absence of troops in South Africa, China and Somaliland, which caused large savings in pay and subsistence charges, the entire cost of the Forces having been borne by His Majesty's Imperial Government. These savings were augmented by the difference between the credits taken for issue of local stores, and the cost of replacement thereof, to the extent required, while the saving on account of China has been reduced by the value of local stores returned from that country		79,76
(2) Deputation of officers and others to the Civil Department on plague duty		29
(3) Lapse of the whole or a portion of the special provisions made in the Budget on account of—		
Additional Officers for the Military Accounts Department .	75	
Increased pay to British soldiers	1,75	
Howitzer batteries . . . . } Improvement in organisation of Horse and Field Artillery }	6,30	
Augmentation of Sub-marine Mining establishments . .	69	
Addition of two companies to the Bombay Sappers and Miners, and Fortress Company of Sappers and Miners at Aden	1,00	
Reconstitution of a regiment of Madras Cavalry . .	20	
Formation of the 1st Military Railway Company . .	25	
Hospital Train	1,97	
Transport reorganization	2,18	
Provision and maintenance of special washing compartments at all stations garrisoned by British troops in India	32	
Formation of the Army Bearer Corps	1,63	
Reorganization of the Army Hospital Corps . . .	41	
Personnel for the Rifle Factory at Ishapore . . .	25	
Increased scale of Cavalry Ammunition	30	
Land at Nowshera for a grass rukh	1,14	
		19,14
(4) Fewer regimental officers present for duty		8,00
(5) Short strength of British and Native troops		2,00
(6) Transfer of the Khedda Department to the Burma Government.		60
(7) Short strength of medical officers		3,50
(8) Low charges for dieting sick, owing to few patients having been in hospital		1,70
(9) Smaller purchases of Ordnance Stores		2,50
(10) Large issues of Medical and Ordnance Stores to the Civil Department		3,15
(11) Credit received from the Imperial Government on account of local ordnance stores issued to the Indian native troops serving in Mauritius, and on account of the peace equipment, taken by certain native corps when proceeding to certain colonies on garrison duty		87
(12) Addition made to the Indian Budget to adjust short provision in the Home Budget		2,93
		1,24,44

Section L.—ARMY SERVICES—*continued.*

	R	R
290 The more important excesses were :—		
(1) More supernumerary officers as candidates for the Indian Army and more Unattached List Officers	1,92	
(2) Grant of special bounties and gratuities to British soldiers returned from South Africa for extension of their service in India	2,97	
(3) Concessions to the Army in honour of the King-Emperor's Coronation	52	
(4) Reconstitution of certain regiments of Madras Infantry	1,21	
(5) Charges on account of the Hyderabad Contingent from 1st October 1902, from which date Berar was leased in perpetuity to the British Government	18,00	
(6) Extra expenditure in connection with the Aden Delimitation Commission	6,10	
(7) More charges for messing allowance	2,34	
(8) Larger purchases of malt liquor	1,33	
(9) Additional grants for dairy farms	51	
(10) More charges for conveyance of troops and stores	12,80	
(11) Larger purchases of godown furniture, of uniform clothing for transport attendants, and of ordnance mules, and ponies for mounted infantry	2,93	
(12) Compensation to shippers of Australian horses and extra establishment at the new remount depôt at Mona	1,41	
(13) Large purchases of barrack bedding and camp equipage for troops returned from South Africa	5,43	
(14) Charges for establishment at the temporary remount depôts at Umballa, Bangalore and Muttra	1,28	
(15) Charges in connection with the handling of the 90 miles of light military railway material	1,77	
(16) Charges on account of camps of exercise and manœuvres	14,70	
(17) Larger payments of capitalized pensions	1,83	
		77,05

291. The grant heads under which the expenditure exceeded the Budget were :—

Supply and Transport	1,26
Remount and Veterinary Establishments, Supplies and Services	5,52
Sea Transport Charges	79
Miscellaneous Services	18,27
Rewards for Military Services	1
Military pensions to Europeans	3,18
Ditto to Natives	2,93
Family Pensions and Compassionate Allowances, etc.	10
Departmental Pensions and Gratuities	10

All these excesses require the sanction of the Government of India.

292. As compared with the preceding year, there was a decrease of 21,23 under Special Charges, and an increase of 1,22,46 under Other Charges. Under the former, the decrease was principally due to low charges on account of Occupation of Chitral and its Communications (4,15), Tochi Garrison (2,27), Blockade of the Mahsud Waziris (18,56), and Kohat-Kurrum Force (27), counterbalanced by higher expenditure under Wano Garrison (3,19), and Kajuri Kach and Jandola Garrisons (81). Under the latter, there was an excess of 2,76 under Army and Garrison Staff, due mainly to more tour expenses of the Commander-in-Chief and Lieutenant Generals Commanding the Forces, to the pay of rank of certain Station Staff Officers having been charged to this head, while the provision was under Regimental Pay,

Section L.—ARMY SERVICES—*continued.*

Allowances and charges and to more telegram charges in District Commands; of 40,79 under Regimental Pay, etc, due to smaller savings owing to the return of troops from South Africa and China, to the grant of increased pay to British Soldiers, to the charges on account of the Hyderabad Contingent from 1st October 1902, to money grants to European and Native Troops in celebration of the King-Emperor's Coronation, to the addition of three howitzer batteries to the Indian establishment and the reorganization of the Artillery, to the creation of two Companies of Bombay Sappers and Miners and of the Fortress Company at Aden, and to a large number of Supernumerary Officers having been attached to British regiments as candidates for the Indian Army, counterbalanced by smaller grants of special bounties and gratuities to British troops for extension of service in India; of 11,36 under Supply and Transport, due chiefly to the reorganization of the Transport Service, to larger movements of European and Native troops, to larger consignments of ordnance stores, to lower rates of food supplies, to the expenditure connected with the Aden Delimitation Commission and the Hyderabad Contingent, to large number of British Soldiers in India having been in receipt of messing allowance, to large purchases of malt liquor and warm and uniform clothing for transport attendants, to replacements of stores despatched to South Africa, China and Somaliland, and to the return of a smaller quantity of stores from China, of 5,96 under Remount, due chiefly to the purchase of additional remounts for the artillery and of ordnance mules and ponies for mounted infantry, to the grant of compensation to shippers of Australian horses, and to larger expenditure connected with the remount depôts, of 2,26 under Clothing, due to the absence of savings owing to the return of troops from South Africa, and to smaller credits on account of stores issued from stock for that country, of 6,81 under Medical, due chiefly to more charges for medical and surgical stores, owing to increased demands from Civil and Military Hospitals, of 16,60 under Ordnance due to increase of the Wellington Cordite Factory establishment, replacement of stores despatched to South Africa and Somaliland, and large purchases of mobilization and camp equipage, of 26,72 under Miscellaneous, due chiefly to more compensation for losses owing to the reconstitution of certain regiments of Madras infantry, to charges on account of the Indian Contingent despatched to England for the King's Coronation, to more charges for Camps of Exercise and Manœuvres. The other principal variations were the increases under Military Pensions to Europeans and to Natives, which were due to charges on account of the Hyderabad Contingent and to large payments of capitalized pensions.

293. The expenditure in England showed an increase of £55,2 under Effective and a decrease of £37,2 under Non-Effective Charges, as compared with the Budget Estimate. The increase under Effective Charges was chiefly due to larger payments to the War Office in respect of British Forces serving in India, to larger expenditure on account of furlough allowances of officers, and to increased charges for the Indian Troop Service as well as for passages of troops, purchase of mules, officers on special duty, etc., partly counterbalanced by decreases in Ordnance and Clothing Stores. The decrease under Non-Effective Charges was chiefly in the payments on account of pay and pensions of non-effective and retired officers of the Indian Service.

294 The total receipts in India during the year, were more than the Budget Estimate, by 31,25. Of this, a large portion was purely fortuitous, representing merely credits taken for Europe stores issued from stock to South Africa and Somaliland, mules sent to the latter country, peace equipment taken by certain native corps to the Colonies, and elephants transferred to the Burma Government with the Khedda Department. The improvement was spread over almost all the heads, the principal variations are noted below.

295 Under *Supply and Transport*, there was a net increase of 1,80, chiefly due to credits taken for Europe stores issued from stock to South Africa, China and Somaliland, mules sent to Somaliland and elephants transferred to the Civil Department Burma, to larger realizations by sale of surplus fodder, transport cattle and old equipment, and to larger receipts for hire of cattle, partly counter-balanced by decreases under sale-proceeds of provisions and stores, and malt liquor and rum, and under special services the former being due to the absence of troops in South Africa Under *Remount, etc.*, the increase (1,47) was due to a larger number of horses having been cast and sold from remount depôts, and to credit having been taken for the horses of a British Cavalry regiment proceeded to South Africa Under *Clothing* and *Medical*, there were increases of 1,30 and 97 respectively, arising chiefly from credits for the value of Europe stores issued from stock to South Africa, China and Somaliland, and of clothing stores forming the ordinary peace equipment of certain Bengal and Madras infantry regiments proceeded to China and the Colonies, and under the latter head also from large recoveries from the Municipal and other hospitals. Under *Ordnance*, there was a net increase of 24,08 chiefly due to credits for the value of Europe stores despatched to South Africa, China, Somaliland and Mauritius, for the peace equipment taken by certain native corps to the Colonies, and for the issue of new-pattern arms, etc., to the Police and Jail Departments There were also increases of 83 on account of the value of stores sent to the Director of Works, Egyptian Army, Cairo; of 1,12 due to the recovery from Berar Revenues of the value of new-pattern arms issued to the Hyderabad Contingent Infantry on its re-armament; and of 2,66 due to larger sales of unserviceable stores than were anticipated, including the

XXXIII—Army—*concluded.*

machinery of the late Gunpowder Factory, Ishapore. Credit for the cost of articles issued from the Indian Troop Service Depôt Stock, Bombay, to Somaliland, and larger recoveries of table money, account for the increase under *Sea Transport Charges.* Under *Miscellaneous Services,* the decrease was chiefly due to smaller recoveries (34) of fines and forfeitures from contractors and others than were anticipated, and to less receipts (34) on account of the Blockade of the Mahsud Waziris due to the earlier withdrawal of the troops Under *Family Pensions and Compassionate Allowances to Europeans,* the increase of 2,12 was due to larger contributions towards the Indian Military Service Family Pensions.

296. The receipts in England were more than the Budget by £27,4. Under *Effective Services,* the account included £38,5 in respect of the Indian Troop Service, which in the Budget, was deducted from payments On the other hand, there was a decrease of £46,3 in the credit for the value of articles in possession of regiments on their transfer from the Indian to the British Establishment The increase under *Non-Effective Services,* mainly represents contributions towards pension of Indian Native Soldiers lent for Imperial Service (£34,3), which was treated as a credit to Indian Revenues in England; there was also a slight rise in the subscriptions towards the Indian Military Service Family Pensions, for which sufficient provision was not made in the Budget Estimate.

55,00	TOTAL	57,73	57,76	57,57

297. As compared with the Budget, the small saving of 16 occurred chiefly under salaries (79) and Special Services (8), and was due to the absences of officers and establishments on leave, to lower rates of pay having been drawn by certain officers, to the appointment of the Inspector General of Artillery having remained vacant for a part of the year and to the reduction of the Malakand Garrison and staff. These savings were, to some extent counterbalanced by excesses under tour expenses (49) of the Commander-in-Chief and the Lieutenant-Generals Commanding the Forces, and contingent charges (30) (chiefly telegram charges) under *District Commands*, and *Garrison and Station Staff*. The charges under *Hyderabad Contingent* were compiled under the several heads concerned. The excess over the previous year, was mainly due to more charges for salaries and tour expenses and to a full year's charge on account of Mounted Infantry Schools, the accounts of 1901-2 having included the expenditure of a portion of the year only

Administrative Staff.

1901-2 Accounts		Budget 1902-3	Revised 1902-3	Accounts
1,57	Personal Staff of the Governor-General, Governors, and Lieutenant-Governors	1,61	1,56	1,52

	Deduct—Probable Savings	78	...	...
20,57	TOTAL	21,56	20,90	21,14

298 The principal decreases under this head, were 9 under *Personal Staff of the Governor-General, Governors, and Lieutenant-Governors*, 5 under *Accountant General, Military Department*, 5 under *Examiner of Ordnance Factory Accounts in India*, and 1,01 under *Inspections, etc.*, and were due to too small a deduction having been made in the Budget Estimate for probable savings, to the absence, on furlough of the Aide-de-Camp to the Governor of Bombay, and to the lump provision made in the Budget Estimate for additional officers of the Military Accounts Department having been only partially utilised. The excess over the previous year, was mainly due to more charges for salaries, and Exchange Compensation Allowance under *Accounts Branch, Pay Branch, Supply and Transport Branch* and *Inspections, etc.*

7,85,63	TOTAL	8,84,90	8,26,04	8 25,97

299. As compared with the Budget, the large decrease in this grant was mainly due to the absence of troops in South Africa, China and Somaliland, to the deputation of officers to the Civil Department for plague-duty; to the reconstitution of certain regiments of Madras Native Infantry, to savings in the provision for increased pay to British soldiers, for howitzer batteries, for improvement in the organisation of horse and field artillery, for reorganisation of sub-marine mining establishments, for the addition of two companies to the Bombay Sappers and Miners and of the Fortress Company of Sappers and Miners at Aden, and for reconstitution of a regiment of Madras Cavalry; to the lapse of the provision for the 1st Military Railway Company, to short strength of regimental officers and of British and Native troops, and to low charges for special services on account of the Occupation of Chitral and its Communications due to the demobilization of the Swat Moveable column and to the reduction of the Malakand garrison; partly counterbalanced by increased charges owing to more supernumerary officers having been attached to British Regiments as candidates for the Indian Army and the charges on account of the Hyderabad Contingent from 1st October 1902 As compared with the actuals of the previous year, the increase was chiefly due to the absence of savings owing to the return of troops from South Africa and China, to the charges on account of the Hyderabad Contingent, to the grant of increased pay to British troops, to more supernumerary officers having been attached to British regiments as candidates for the Indian Army, to more Unattached List officers having been present, to the grant of special bounties to British soldiers returned from South Africa for extension of their services in India, and to the money grants to the British and Native troops in celebration of the King-Emperor's Coronation

300. The details of the principal sub-heads of the European Army are given below :—

1901-2 Accounts		1902-3 Budget.	1902-3 Revised	1902-3 Accounts.
92,03	Artillery	1,16,52	1,07,50	1,07,13
19,54	Cavalry	40,45	29,00	28,91
7	Engineers		6	13
2,05,97	Infantry	2,62,42	2,35,00	2,34,46
30	Invalid and Veteran Establishment	30	26	25
5,29	Officers of the Indian Army General List of Officers, Unattached and Unemployed Officers	5,95	7,92	7,98
26	Colonel's Allowances	27	17	16
62,42	Other Charges	5,26	12,28	10,59
3,85,88	TOTAL	4,31,17	3,92,19	3,89,61

301. Under *Artillery*, *Cavalry* and *Infantry* the whole of the savings was chiefly due to less charges for small Salaries owing to the absence of troops in South Africa, China and Somaliland, to the provision for increased pay of British soldiers not having been used in full, and the charges for family allowances and Howitzer Batteries, Brigade division staff, Royal Horse and Field Artillery, and improvement in organisation of Horse and Field Artillery having been compiled under other heads though provided for here. Under *Invalids and Veteran Establishment*, the saving was due to casualties. These savings were partly counterbalanced by excess expenditure under *Officers of the Indian Army, etc.*, owing to more supernumerary officers having been attached to British regiments as candidates for the Indian Army, and to more Unattached List officers having been present than provided for; and under *Other Charges* due to the grant of special bounties to British soldiers for extension of their services in India, to the grant of furlough gratuities, and to money-grants to British soldiers in celebration of the King-Emperor's Coronation. Under *Engineers*, the expenditure was due to charges for pay and allowances of an officer for whom no provision was made in the Budget, and to payments for broken periods to certain Royal Engineer officers who proceeded to England on reversion to the Imperial Establishment. The small excess over the actuals of the previous year, was chiefly due to the return of troops from South Africa and China, to the grant of increased pay to British troops, and to the reorganization of Horse and Field Artillery.

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Regimental Pay—*concluded.*

302. The details of the principal sub-heads under the Native Army are as follows:—

1901-2 Accounts.		1902-3. Budget.	1902-3. Revised	1902-3. Accounts.
8,24	Artillery	8,72	8,50	9,39
1,63	Body-Guard	1,13	1,19	1,18
1,19,86	Cavalry	1,28,76	1,26,09	1,32,33
12,41	Sappers and Miners	14,58	13,58	13,22
2,28,87	Infantry	2,69,33	2,40,00	2,47,98
5,27	Annual grant-in-aid of half-mounting	5,59	5,08	5,66
2,92	Kit-money for Recruits	4,01	4,02	4,33
3,78	Hutting money	4,12	5,10	4,17
10,41	Reserve Forces	10,89	10,38	10,95
4,72	Other Charges	4,92	5,69	5,96
...	* Hyderabad Contingent	..	13,00	...
3,98,11	TOTAL	4,52,05	4,32,63	4,35,17

303. Under Native Army, the excess expenditure under *Artillery* (67), *Cavalry* (3,57) and *Kit-money for Recruits* (32) was due chiefly to payments made to the Hyderabad Contingent Artillery and Cavalry from 1st October 1902, and to the reconstitution of Madras Native Infantry, partly counterbalanced by savings due to the absence of troops in South Africa, China and Somaliland, and the lapse of the special provision for the reconstitution of a regiment of Madras Cavalry. Under *Body-Guard*, the small excess was due to a temporary increase in the strength of the Viceroy's Body-Guard in consequence of the Coronation Durbar The most noticeable decreases occurred under *Infantry* (21,35) and *Sappers and Miners* (1,36), and were chiefly due to less charges for salaries and allowances owing to the absence of troops in China and Somaliland and of certain officers in South Africa, and to the provision made in the Budget for the addition of two companies to the Bombay Sappers and Miners, and for the Fortress Company of Sappers and Miners at Aden not having been utilised in full. The excess of 1,04 under *Other Charges*, was due chiefly to larger payments of batta (11), to incidental charges incurred on account of the Hyderabad Contingent (18), to heavy telegram charges incurred in connection with the reconstitution of certain regiments of Madras Infantry (17), to payments made to young officers on first appointment to native cavalry regiments to assist them in the purchase of suitable chargers (17), to more charges for family allowances (27), to the reorganisation of the sub-marine mining service (16), and to money grants to native troops in celebration of the King-Emperor's Coronation, partly counterbalanced by less charges on account of Occupation of Chitral and its Communications, owing to the demobilisation of the Swat Moveable column and the reduction of the Malakand garrison. The increase, compared with the actuals of the preceding year, was chiefly attributable to the charges of the Hyderabad Contingent and the Frontier Garrison Artillery, to smaller savings owing to the return of troops from China, to the charges on account of two additional Companies of Bombay Sappers and Miners and of the Fortress Company at Aden, to increase in the effective strength of reservists and to more enlistments causing a larger outlay under *Kit-money.*

Supply and Transport Charges.

1901-2 Accounts.		1902-3 Budget.	1902-3 Revised.	1902-3 Accounts.
61,46	Establishment	72,95	71,43	68,52
1,74,70	Supplies	1,84,67	1,73,39	1,73,73
1,04,12	Services	1,08,01	1,13,67	1,25,16
54,03	Transport Branch	38,28	37,05	38,26
15,34	Special Services	14,30	15,32	13,80
...	Hyderabad Contingent	..	1,90	...
4,09,65	TOTAL	4,18,21	4,12,76	4,19,47

304. The principal decreases were under *Establishment*, *Supplies* and *Special Services*, and were mainly due to the absence of troops and of certain departmental officers and establishments on service in South Africa, China and Somaliland, to savings in pay and kit-money to transport establishments owing to fewer enlistments, to the transfer in October 1902 of the Khedda Department to the Burma Civil Department, to less charges for feed of men and animals owing to a fall in rates, to a saving in the provision made in the Budget for certain measures of transport reorganisation, to small purchases of transport animals, to less charges for hay and dry-bedding operations and grass operations owing to the lapse of the special provision for the purchase of land for a grass rukh at Nowshera, to credits for value of local stores issued from stock to South Africa, China and Somaliland, and to a decrease in the charges on account of special services owing to the demobilisation of the Swat Moveable column, to the

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Supply and Transport Charges—*continued.*

reduction of the Malakand garrison, and to the withdrawal of the troops from Datta Khel. These decreases were more than counterbalanced by increased expenditure under *Services*, due to unusually heavy consignments of Commissariat and Ordnance stores by rail and water, to more charges for conveyance of troops, to the special charges in connection with the Aden Delimitation Commission, Seistan Boundary Commission and Mekran Escort, to the charges incurred on account of the Hyderabad Contingent, to larger purchases of fodder for reserves, of godown furniture, of warm clothing for troops and followers, and of uniform clothing for transport attendants, to replacements of stores despatched to South Africa, China and Somaliland, and to debits for the value of stores returned from China and of surplus stores returned from Delhi The excess compared with the actuals of the previous year was chiefly due to revision of establishments, to smaller savings on account of the absence of troops in South Africa and China, to the special charges on account of the Aden Delimitation Commission, to the charges on account of the Hyderabad Contingent, to larger consignments of stores by rail and water, to larger movements of troops, to more extensive grass operations and to the adjustment of stores returned from Delhi.

305. The details of the expenditure under *Establishment* are given below :—

1901-2. Accounts		1902-3 Budget	1902-3 Revised	1902-3 Accounts
5,20	Supervising Staff	6,31	6,77	6,59
26,94	Executive Establishment	24,63	24,21	23,57
6,02	Transport	33,83	32,65	31,39
22,04	Subordinate Establishment	7,13	7,28	7,10
99	Khedda Establishment	94	42	62
27	Other Heads	11	10	—*75*
61,46	TOTAL	72,95	71,43	68,52

306. The excess under *Supervising Staff*, was due to the creation of new administrative appointments and to the pay attached to other appointments having been increased, provision for which had been made under *Executive Establishment*. The decrease under *Executive Establishment*, was chiefly due to the absence of officers and establishment on service in South Africa, China and Somaliland (17), to the deduction made in the Budget for probable savings having proved insufficient, and to a part of the expenditure for which a lump provision of 50 had been made under this head, having been compiled under *Supervising Staff*. The saving under *Transport*, was due partly to certain charges on account of unorganized transport having been compiled under Transport Branch, and partly to variations in Army ranks and departmental grades of officers and European subordinates, to short strength of native establishments (40), and to short charges on account of kit-money due to fewer enlistments (2,31). The transfer of the *Khedda Establishment* to the Civil Department, Burma, in October 1902 resulted in a saving of 32 under that head. The actuals under *Other Heads* mainly represent recoveries by the Agent for Government Consignments for stores consigned to other departments.

307. Under *Supplies* the details are as follows :—

1901-2. Accounts.		1902-3 Budget.	1902-3 Revised.	1902-3 Accounts.
87,27	Provisions for Europeans	98,95	92,59	94,34
17,23	Provisions for Natives	16,45	16,46	17,99
	Compensation to Natives—			
32,79	(*a*) for dearness of provisions	30,21	28,35	25,34
5,30	(*b*) for dearness of forage	6,80	7,26	8,12
81	Purchase of Reserve Stock	2,23	2,43	2,14
28,86	Malt Liquor purchased locally	29,69	28,26	28,36
42	Rum	54	48	42
85	Dairy Farms	14	1,47	1,23
...	Contingent Expenses	1	1	...
1,73,53		1,85,02	1,77,31	1,77,94
—*1,17*	*Deduct*—Value of Supplies to other Departments	*35*	*3,92*	*4,21*
1,74,70	TOTAL	1,84,67	1,73,39	1,73,73

308. Under *Provisions for Europeans*, the charges for messing allowance and for supply of bread, meat and other ration articles, and miscellaneous expenses, were less than the Budget Estimate by 4,61 owing chiefly to the absence of British troops in South Africa The excess of 1,54 under *Provisions for Natives*, was due to extra expenditure incurred in connection with the Aden Delimitation Commission,

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Supply and Transport Charges—*continued.*

the Seistan Boundary Commission and the Mekran Escort, to larger purchases for stock purposes, and to money allowance in lieu of free rations to native troops and followers in the Quetta District, Aden and Persian Gulf The saving of 4,87 under *Compensation to Natives for dearness of provisions,* was chiefly due to the absence of troops in South Africa, China and Somaliland, to the low prices of articles of food and to the reconstitution of certain regiments of Madras infantry, partly counterbalanced by charges on account of the Hyderabad Contingent Under *Compensation to Natives for dearness of forage,* the excess of 1,32 was mainly due to higher rates of fodder, and to the charges on account of the Hyderabad Contingent. The savings under *Malt Liquor purchased locally* and *Rum,* were chiefly due to less consumption by British troops owing to their absence in South Africa and China. Under *Dairy Farms,* the excess was due to the establishment of a farm at Jhansi, to additional expense at the Umballa Farm and to the adjustment of the cost of cattle, etc., transferred to the Mhow dairy from the temporary dairy formed for the Delhi Coronation Durbar, partly counterbalanced by the partial lapse of the provision made for the Quetta Farm. The figures under *Value of Supplies to other Departments* represent the difference between the credit for value of local stores issued from stock to South Africa, China and Somaliland, and the debit on account of the value of stores returned from China, and for which credit was afforded to His Majesty's Imperial Government.

309. Under *Services* the following are the details:—

1901-2 Accounts		1902-3 Budget	1902-3 Revised	Accounts.
4,56	Hire of Transport	4,21	4,82	7,66
4,05	Sea and Inland Water Charges	3,00	4,19	5,79
45,84	Railway Charges	45,02	49,04	54,62
12,21	Grass Cultivation	17,69	16,77	14,75
25,90	Feed of Horses, Battery Mules, Yaboos, Bullocks and Elephants	28,97	27,93	29,67
80	Regimental Equipment and Camp Contingencies	1,05	1,30	1,10
4,58	Implements, Godown Furniture, etc.	3,03	3,57	4,32
6,18	Other Heads	5,04	6,05	7,25
1,04,12	TOTAL	1,08,01	1,13,67	1,25,16

310. The increase of expenditure under *Hire of Transport* was chiefly due to small utilization of Government Transport and more charges for conveyance of British and Native troops and stores in connection with the Aden Delimitation Commission and the Mekran Escort. The excesses under *Sea and Inland Water Charges* and *Railway Charges,* were due to unusually heavy consignments of Commissariat and Ordnance Stores and to more movements of European and Native troops by rail owing, to some extent, to the causes mentioned above, partly counterbalanced by the lapse of the special provision for a hospital train. The saving under *Grass Cultivation,* was due to less charges for hay and dry-bedding operations than were anticipated and to the lapse of the provision made for the purchase of land for a grass rukh at Nowshera The excess under *Feed of Horses, etc.,* was attributable chiefly to the adjustment of the value of surplus stores taken over from the Delhi Durbar , to the charges on account of the Hyderabad Contingent Artillery , to purchases made for stock purposes and to more expenditure on the purchase of grass owing to a smaller quantity of grass having been procurable from grass farms. Under *Implements, etc.,* the excess was due to the large supply of bags from the Jail Department, to larger purchases of tarpaulins for stock, and to more miscellaneous charges connected with the replacement of articles issued from stock to South Africa and Somaliland. The excess under *Other Heads* was mainly due to more charges for warm clothing for troops and followers, to replace those issued from stock to South Africa and Somaliland, to toll on troops at Bombay and Karachi; to extra expenditure incurred in connection with the Aden Delimitation Commission and the Seistan Boundary Commission , to the adjustment of the value of stores returned from China; and to larger purchases of warm clothing than were anticipated for ordinary requirements.

311. The details of the charges in the *Transport Branch* are as follows:—

1901-2. Accounts		1902-3. Budget	1902-3. Revised.	Accounts.
53,65	Unorganized Transport	19,22	20,28	25,70
..	Mule Corps	12,38	11,36	9,04
...	Mule Cadres	3,83	3,05	2,07
...	Silladar Camel Cadres	1,59	1,30	67
...	Pony Cart Train Cadres	73	55	29
...	Service Grantee Camel Corps	...	1	1
38	Transport charges connected with Army Bearer Corps	53	50	48
54,03	TOTAL	38,28	37,05	38,26

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Supply and Transport Charges—*concluded.*

312. The increase of expenditure, as compared with the Budget under *Unorganized Transport*, was chiefly due to certain transport charges having been transferred to this head from Establishments on the reorganization of the transport service, to more charges for purchase of camels and feed of animals required for the Aden Delimitation Commission, to charges on account of the Hyderabad Contingent, to the adjustment of the value of stores taken over from the Delhi Durbar, to larger purchases of uniform clothing required to replace those issued from stock to South Africa; and to more miscellaneous charges than were anticipated. Under *Mule Corps* and *Mule Cadres*, the decreases were mainly due to less charges for purchase and feed of animals; to short complement of animals; to less expenditure for purchase and repair of gear and equipment and carts, owing to less condemnations, and to less miscellaneous charges, and to the lump provision made in the Budget for the re-organisation of mule cadres having been only partially used. Similarly, the provision made in the Budget for the re-organisation of *Silladar Camel Cadres* and *Pony Cart Train Cadres* was not fully utilised, and there were savings in the charges for purchase and feed of animals. Low charges for purchase and repair of doolies, gear, carts and equipment due to less condemnations brought about the saving under *Transport Charges connected with the Army Bearer Corps.*

Remount and Veterinary.

1901-2 Accounts		1902-3. Budget	1902-3. Revised	1902-3. Accounts
39	Supervising Staff	38	40	43
3,15	Depôt Establishments	3,51	3,14	3,20
1,00	Veterinary Inspection	1,08	1,05	92
2,43	Station Veterinary Hospitals	3,40	2,61	2,66
5	Veterinary Schools	5	6	5
30	Remount Depôt, Garden Reach	25	18	15
4	Mule Purchasing Agency	30	26	34
3,61	Temporary Remount Depôts (Umballa and Bangalore)	...	3,51	3,81
20,04	Purchase of Remounts	20,33	22,63	24,48
3,97	Feed of Cattle and Remounts	5,65	4,75	4,29
4,84	Miscellaneous	5,30	5,70	5,44
...	Hyderabad Contingent	...	4	
39,82	TOTAL	40,25	44,33	45,77
1	*Deduct*—Value of Supplies to other Departments	...	..	...
39,81		40,25	44,33	45,77

313. The excess of 5 under *Supervising Staff*, was due to the appointment of an extra clerk in the office of the Director-General, Army Remount Department, and to acting arrangements and more travelling expenses than were anticipated. The saving of 31 under *Depôt Establishments*, was chiefly due to the maintenance, on the curtailed liberty system, of some of the horses at remount depôts; that under *Veterinary Inspection*, to less expensive acting arrangements in place of the Principal Veterinary Officer in India, to the absence of an officer on furlough, and to lower rates of pay drawn by certain officers. Less charges for salaries owing to short strength of officers caused a saving of 74 under *Station Veterinary Hospitals*. Under *Remount Depôt, Garden Reach*, the pay for March 1902 of the Agent, was drawn in advance in that month and included in the accounts for 1901-2, no pay was drawn by him for a part of the year, and fewer Native Establishments were entertained. The increase under *Purchase of Remounts*, was due to the purchase of mules for corps, and ponies for mounted infantry schools, to additional horses required for the artillery, provision for which was made under the heads Regimental Pay, &c., and Ordnance Establishments; and to the grant of compensation to shippers of Australian horses. The charge of 3,81 under *Temporary Remount Depôts*, represents the cost of feed at the temporary depôts at Umballa and Bangalore, provision for which was made under the head *Supply and Transport*. Low prices of articles of feed, maintenance, of a small number of animals at the depôts and the introduction of the curtailed liberty system at certain depôts, resulted in a saving of 1,36 under *Feed of Cattle and Remounts*. Under *Miscellaneous*, the excess was due to extra expenditure incurred in connection with the new remount depôt at Mona.

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Clothing Establishments.

1901-2. Accounts		1902-3. Budget	1902-3. Revised.	1902-3. Accounts
1,09	Superintending Establishments	1,10	1,10	1,12
67	Manufacturing and Store Establishments	70	66	66
	Supplies and Services—			
17,88	Factories	13,86	14,10	15,08
2,86	Regimental	4,32	4,12	4,32
7,96	Compensation in lieu of clothing	8,66	8,70	8,18
46	Special Services	70	69	20
...	Hyderabad Contingent	..	5	...
30,92		29,34	29,42	29,56
4,97	*Deduct*—Value of stores supplied to other Departments	*2*	*1,48*	*1,61*
25,95	TOTAL	29,32	27,94	27,95

314 Under *Supplies and Services—Factories,* the excess was due to more charges for making clothing, great-coats, etc., for European troops and for supplies obtained locally for making up field service clothing in replacement of issues to South Africa. The saving under *Compensation in lieu of Clothing,* was chiefly due to the absence of troops in South Africa and China, and consequent fewer claims for compensation, and that under *Special Services,* to less charges on account of Occupation of Chitral and its Communications and Tochi Garrison owing to smaller replacements. The credit under *Value of stores supplied to other Departments,* was due to the adjustment by debit to His Majesty's Imperial Government of the value and departmental charges of local stores issued from stock to South Africa, China and Somaliland

Barrack Establishments.

1901-2 Accounts		1902-3 Budget	1902-3 Revised	1902-3 Accounts
4,72	Subordinate Establishments	5,59	5,23	5,01
5,64	Barrack Bedding	4,27	4,33	5,98
3,34	Lighting Charges	3,78	3,45	3,10
6,79	Miscellaneous	7,32	6,86	6,78
31	Special Services	38	36	40
20,80		21,34	20,23	21,27
1,36	*Deduct*—Value of Supplies to other Departments	7	*98*	72
19,44	TOTAL	21,27	19,25	20,55

315. The principal decreases occurred under *Subordinate Establishments* (58), *Lighting Charges* (68) and *Miscellaneous* (54), the particular items under which the savings occurred, being conservancy, punkha-pulling and tattie-watering establishments in the first case, purchase of oil in the second; and charges for miscellaneous supplies for barracks and hospitals in the third; the savings in all cases being due to the absence of troops in South Africa. There were also some savings in the establishment and cattle for working wells and supply of water and well-gear for plunge-baths and wash-houses, due to the same cause, to less condemnations and fewer replacements, and to the partial lapse of the provision made in the Budget for washing compartments for British troops. More charges for bedding, due chiefly to heavy expenditure consequent on the return of troops from South Africa, and to the replacement of Stores sent to that country resulted in the excess of 1,71 under *Barrack Bedding.* The credit under *Value of Supplies to other Departments,* was due to the adjustment of the value of local stores issued from stock to South Africa, China and Somaliland.

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Administration of Martial Law.

1901-2. Accounts.		1902-3 Budget.	Revised.	Accounts
	Judge Advocate-General's Department—			
56	Head-Quarters	61	57	57
1,49	Commands	1,64	1,40	1,45
1,70	Miscellaneous	1,80	1,57	1,47
...	Hyderabad Contingent	..	2	...
3,75	TOTAL	4,05	3,56	3,49

316. There were savings under all the heads. The saving under *Commands*, was due to less charges for salaries, chiefly due to the absence of certain officers on leave, and to variations in army ranks of officers, that under *Miscellaneous*, to the closing of the Military prison at Fort William and to less charges on account of regimental, garrison, and station prisons due to the small number of prisoners and to the absence of troops in South Africa.

Medical Establishments.

1901-2 Accounts			1902-3 Budget		Revised.		Accounts	
		Medical Establishment—

25		Special Services		66		48		42
...		Hyderabad Contingent		...		6		...
68,68		TOTAL		88,04		78,03		75,66

317. The large decrease under *Medical Establishment—Districts*, was due to savings in salaries and Exchange Compensation Allowance, owing mainly to the absence of medical officers and subordinates on field service in South Africa, China, and Somaliland, to the deputation of medical subordinates to the Civil Department on Plague duty; to short strength of officers, and to the deduction made in the Budget for probable savings having proved insufficient. The saving under *Army Bearer Corps*, was due to the organisation of the Corps having taken effect from a later date (1st August 1902) than was anticipated in the Budget, and to the establishment having been short of complement, that under *Army Hospital Corps*, to the provision made in the Budget for increased establishment, and for certain concessions not having been fully used, and to the expenditure on this account having been adjusted under the ordinary heads of account (92), partly counterbalanced by more charges for salaries, good-conduct pay, and kit-money for recruits (31). The decrease under *Indian Nursing Service*, was due to short strength of nursing sisters while that under *Medical Store Depôts*, to the absence of an officer on leave, to acting arrangements made, and to savings in office establishments. Under *Miscellaneous*, the saving was chiefly due to less charges for extra duty pay of nursing orderlies and allowance to native military pupils at Medical Colleges and Schools. Less charges on account of Occupation of Chitral and its Communications, due chiefly to the demobilization of the Swat Moveable Column and the field hospitals and of the Tochi Garrison, resulted in a saving of 24 under *Special Services*. The credit under *Issues to other Departments* was due to the adjustment of the value of local stores issued from stock to South Africa, China and Somaliland and to larger demands by civil institutions

18	Special Services	25	8	10
96,47	TOTAL	1,24,62	1,08,58	1,12,99

318. Under *Establishments—Supervising Staff*, the saving (11) was due to the absence of the Deputy Director General of Ordnance on leave out of India and to low expenditure under Travelling Charges and Contingencies Under *Factories*, the decrease (87) was chiefly due to the closing of the Gunpowder Factory at Ishapore from 1st June 1902, to the lapse of the special provision for the Rifle Factory, Ishapore, owing to the factory not having been opened, to the deputation of certain officers and European employés to England and to the deduction made in the Budget for probable savings, having proved insufficient The large decrease under *Stores—For Arsenals and Depôts*, was chiefly due to smaller purchases of local stores, to a partial lapse of the special provision made for initial expenditure on account of howitzer batteries, as well as for an increased scale of cavalry ammunition, and to the charges for the additional Companies sanctioned for the Bombay Sappers and Miners and the Fortress Company at Aden, having been adjusted under other heads. The increase under *Freight*, was due to large consignments of stores from England. The excess expenditure under *Camp Equipage*, was chiefly due to the replacement of tents sent to South Africa and Somaliland, to the adjustment of the value of camp equipage returned from the Boer prisoners' camp, to the purchase of mobilization equipment for additional battalions detailed for the northern line of communications into Afghanistan, and of regimental equipment for line of communication units, and to large purchases of camp equipage, owing mainly to the re-equipment of corps and batteries on their return from South Africa. Under *Other Charges*, the increase was mainly due to the purchase of equipment for the two additional Companies sanctioned for the Bombay Sappers and Miners and for the Fortress Company at Aden, provision for which was made under *Arsenals and Depôts*; to the cost of additional stores required for the training of Sappers and Miners in telegraph work, to the purchase of equipment for a unit of mounted sappers; and to the charges for the manufacture of the superstructure of two units of Berthon bridge equipment. Less charges on account of Occupation of Chitral and its Communications resulted in a saving of 15 under *Special Services* The excess deduction under *Supplies to Other Departments*, was due chiefly to the adjustment of the value of local stores sent to South Africa (3,46), China (6), Somaliland (99) and Mauritius (53) and of the value of peace equipment taken by certain Native Corps to the Colonies (34) and to large supplies to the Civil Departments

Other Effective Charges.

319. There was a decrease of 26 under *Ecclesiastical*, due chiefly to vacancies, deputations, variations in the rates of pay drawn by Roman Catholic Chaplains, and less charges for capitation allowances to Presbyterian Ministers Under *Education*, there was a saving of 33, due to the absence of the Director of Military Education on leave, to smaller purchases of books for Army Schools, to savings in the establishment charges of the Lawrence Asylum at Sanawar, and to the appointment of a junior officer to the medical charge of that Asylum *Sea Transport Charges* showed an increase of 79, due mainly to the provision of a large number of passages by private steamers, to a larger number of men having proceeded on bounty furlough, and to more charges than were anticipated for passage money of officers, troops and establishments

Section L.—ARMY SERVICE—EXPENDITURE—*concluded.*

Other Effective Charges—*concluded.*

proceeding from port to port in India, owing partly to the Aden Delimitation Commission. The variations under *Volunteer Corps* were small and call for no remarks.

320. The figures under *Miscellaneous Services* may be sub-divided as follows :—

1901-2. Accounts.		1902-3 Budget	1902-3 Revised	1902-3 Accounts.
27,63	Special Charges	11,05	9,02	8,65
20,91	Other Items	26,96	39,82	47,63
...	Hyderabad Contingent	...	2	...
48,54	TOTAL .	38,01	48,86	56,28

321. The variations under *Special Charges* have been explained in paragraph 287. Under *Other Items* the large increase was chiefly due to compensation for losses owing to the reconstitution of certain regiments of Madras Infantry (43), to a special grant to the Aden Troop (21) to place the funds of the troop on a proper footing, to heavy telegram charges (3,28), owing to the extension of the debit-note system, to the deputation of the Indian contingent to England for the King's Coronation (18), and to more charges on account of Camps of Exercise and Manœuvres (14,70).

Non-Effective Charges

322 There was an increase of 3,17 over the Budget under *Military Pensions to Europeans*, chiefly due to larger payments of capitalised pensions (1,83), to new admissions for pensions of commissioned officers (49), to pensionary charges paid in England on account of officers of the Hyderabad Contingent having been adjusted in India from 1st October 1902 (1,47), and to more charges on account of wound pensions than were anticipated (11), partly counterbalanced by less charges for pensions to Departmental officers with honorary rank and Departmental warrant and non-commissioned officers (70). Under *Military Pensions to Natives*, the excess of 2,93 was mainly due to more admissions consequent on the reconstitution of certain regiments of Madras Infantry (1,88), to charges on account of the Hyderabad Contingent (98), and to a large number of reservists and men having been discharged with gratuities (43), partly counterbalanced by less charges for compensation for dearness of provisions to Madras pensioners due to cheaper rates of rice (32). Under *Family Pensions, etc.*, and *Departmental Pensions*, the excesses were small and were due, in the former case, to there being more recipients of the Indian Military Service Family Pensions and, in the latter, to new admissions.

Expenditure in England.

323. As compared with the Budget, the English expenditure showed an excess of £55,2 under *Effective Charges*, and a saving of £37,2 under *Non-Effective Charges*. The excess under *Effective Charges* was chiefly due to larger payments to the War Office in respect of British Forces serving in India, to increase under furlough pay, to larger number of officers being on furlough than was estimated, and to more officers having been provided with passages otherwise than in Government transports These excesses were partly counterbalanced by a decrease under Stores Under *Non-Effective Charges*, the decrease occurred under Pay and Pensions of Non-Effective and Retired officers of the Indian Service, and larger payments to the War Office for Retired Pay, etc., of British Forces serving in India

*Represents balance on 1st October 1902.

324. The figures shown under this head represent the surplus or deficit of each Provincial Government in respect of the revenues and charges assigned to it, including Incorporated Local Funds. The Revenue and Expenditure under the various major heads have been shown, in detail, in the foregoing pages, and the share of these, pertaining to the Provincial and Local sections of the accounts for the several groups, is given below separately for each

Section M.—PROVINCIAL ADJUSTMENT—*concluded.*

province. The Budget provided for an expenditure from Provincial balances of R1,80,52 or £1,203,5 and from Local balances of R24,69 or £164,6. But the accounts show the net Provincial expenditure to have been less than that anticipated in the Budget by R1,49,22, or £994,8, while there was an addition to the Local balance of R20,44 or £136,3. Compared with the Budget, therefore, there was a net improvement of R1,94,35 or £1,295,7 in the Provincial and Local sections of the accounts taken together. These figures do not, however, give a correct idea of the actual transactions of the year, for almost the whole of the total direct Famine Relief charges in India, amounting to R48,23 or £321,5 for which Provincial and Local Revenues are in the first instance responsible, were, as provided for in the Budget, borne by the Imperial Government. There were also special contributions of 54,,6 in aid of provincial finances, of 59,81 to compensate the loss for remission of famine arrears of Land Revenue, of 40,00 for reforms in Education, and of 68,86 for special Police, Public Works and Miscellaneous expenditure against an estimate of 1,83,13

325 The improvement was contributed by all the provinces, the most noticeable ones being 45,08 in Madras, 37,84 in Bengal, 27,40 in the Punjab, and 25,83 in the United Provinces of Agra and Oudh. The improvement was attributable mainly to increased receipts under Principal heads of Revenue, specially in Land Revenue, Stamps, Excise, and Assesed Taxes, and to a decrease in expenditure, chiefly under Land Revenue, Forest, and Civil Departments, principally in Police, Education, and Medical, and under Irrigation, and Other Public Works.

Central Provinces.

7,320,4	TOTAL	9,162,5	8,495,5	8,233,1

326. The following is a comparison of the Expenditure not charged to Revenue detailed under Major Heads —

1901-2 Accounts		1902-3 Budget	1902-3 Revised.	1902-3 Accounts.
R	INDIA—	R	R	R
4,00,56	48.—State Railways	4,73,45	4,74,64	4,55,20
81,03	49.—Irrigation Works	99,20	84,15	83,63
4,81,59	TOTAL INDIA	5,72,65	5,58,79	5,38,83
£		£	£	£
3,210,6	Equivalent in Sterling	3,817,7	3,725,3	3,592,2
	ENGLAND—			
853,2	48.—State Railways	1,737,0	1,518,2	1,529,3
7,3	49.—Irrigation Works	5,3	6,5	6,7
860,5	TOTAL ENGLAND	1,742,3	1,524,7	1,536,0
4,071,1	TOTAL INDIA AND ENGLAND	5,560,0	5,250,0	5,128,2

327. The following table compares the whole of the Capital Expenditure with the Estimates of the year and the actuals of the previous year:—

1901-2 Accounts		1902-3 Budget	1902-3 Revised.	1902-3 Accounts.
£		£	£	£
...	34.—Construction of Protective Railways	...	10,3	1,6
70,7	35.—Construction of Protective Irrigation Works	93,9	106,4	94,7
3,523,6	48.—State Railways	4,893,3	4,682,5	4,564,0
547,5	49—Irrigation Works	666,7	567,5	564,2
4,141,8		5,653,9	5,366,7	5,224,5

328 Under head 48.—State Railways, there was a lapse of £329,3 or R49,40 compared with the Budget Estimate. The principal lapses were, East Indian Railway 53,53, North East line, Madras Railway 16,52, Eastern Bengal Railway 12,15, Extensions to Chitpore 11,27, Chittagong Jetties 6,92, South Indian Railway 6,11, Oudh and Rohilkhand Railway 5,65, Rajputana-Malwa Railway 5,48, Stores and Reserve 45,60; while the more important excesses were, Nilgiri Railway 35,42, Agra Delhi Chord Railway 17,90, Great Indian Peninsula Railway 14,67, Assam-Bengal Railway 12,90, Tinnevelly-Quilon Railway (Native States section) 10,23, Quetta-Nushki Railway 7,26, Tirhoot State Railway 6,35, and Murshidabad Branch Railway 6,28. The causes of these variations are explained further on.

* Includes Capital raised by Companies towards outlay on State lines.

Section N.—RAILWAY AND IRRIGATION EXPENDITURE NOT CHARGED TO REVENUE—*continued.*

329. As regards *Lines under construction*, the excess of 12,90 on the *Assam Bengal Railway*, was due to the transfer during the year, of past outlay on the Chittagong Jetties to the construction account of the line, and to certain additions and alterations to the Jetties that were not provided for in the Budget Estimate. The lapse of 11,27 on the *Extensions of the Eastern Bengal State Railway to Chitpore*, was due to smaller progress having been made than was contemplated at the beginning of the year. On the *Murshidabad Branch*, an expenditure of 6,28 was incurred, provision or which was included in the Reserve, and 17,90 was expended on the *Agra Delhi Chord Railway* out

Section N.—EXPENDITURE NOT CHARGED TO REVENUE—*continued.*

of lapses that occurred during the year on other lines. The provision allowed in the Budget Estimate, on the *Tinnevelly-Quilon Railway* (*Native States Section*), was exceeded by 10,23 owing to greater progress having been made than was anticipated, and an expenditure of 7,26 was incurred on the *Quetta-Nushki Railway* owing to the construction of the line having been undertaken sooner than was expected. The nominal lapse of 6,92 on the *Chittagong Jetties* was due to the transfer of past outlay to the construction account of the Assam-Bengal Railway, as explained above.

330. As regards *Open Lines* the lapses were due, on the *East Indian Railway* (53,53) to short outlay in England on purchase of stores, on the *Rajputana-Malwa Railway* (5,48) to smaller outlay under the main heads "Stations and Buildings" and "Rolling Stock" than was provided for in the Budget Estimate, on the *Eastern Bengal Railway* (12,15) to the provision for rolling stock for the Eastern and Northern Sections not having been utilized in full, on the *Oudh and Rohilkhand Railway* (5,65) to short outlay on rolling stock, on the *South Indian Railway* (6,11) to the postponement of certain works and to short outlay in England, and on the *North East Line, Madras Railway* (16,52) to the execution of certain works falling under the main heads "Ballast and Permanent-way," "Stations and Buildings" and "Rolling Stock" having been postponed to 1903-4 The lapse under *Stores and Reserve* (45,60) is purely a nominal one, the amount having been distributed during the year where it was most likely to be utilized.

331. The principal excesses were, 6,35 on the *Tirhoot Railway* due to the provision of additional rolling stock beyond what was allowed for in the Budget Estimate, and 14,67 on the *Great Indian Peninsula Railway* due to larger purchases of stores to meet the requirements of the combined Great Indian Peninsula and Indian Midland Railway systems. The expenditure of 35,42 on the purchase of the *Nilgiri Railway* was met from savings on the English grant.

7,3	" England	5,3	6,5	6,7

332. The expenditure in 1902-3, was more than that of the previous year, by 2,50. The increase was due to a larger expenditure having been incurred on the works in Burma. The short outlay of 15,37, as compared with the Budget Estimate, was due chiefly to the estimates for a number of works for which provision was made in the Budget Estimate not having been sanctioned in time to admit of their full grants being utilized during the year.

Section N.—RAILWAY AND IRRIGATION CAPITAL NOT CHARGED TO REVENUE—*concluded.*

333. As explained in former reports, these are all net sums representing excess of receipts over payments. The Indian figures represent the difference between the advances taken by the Companies, and the credits received chiefly on account of stores used on Revenue account. The English figures represent the difference between the capital deposited by the Companies with the Secretary of State and the withdrawals for expenditure on Stores, Establishment charges, etc. These figures are necessarily liable to great fluctuations, but the following general explanations are furnished.—

334. *Guaranteed Companies, Madras Railway.*—The decrease of 147,1 under India was due chiefly to smaller receipts on account of stores issued to Revenue than anticipated, and to an overestimate of the credits for work done and stores provided for the North East line.

335. *Madras Railway Extensions.*—The decrease of 56,1 under India was due to larger expenditure having been found necessary in order to complete the line during the year.

336. *Bombay, Baroda and Central India Railway.*—The small increase of 4,3 was due to lapse of the provision in the Budget Estimate for "unsanctioned works".

337. Under *England* there was a lapse of 80,1 in payments on account of establishments and purchases of stores for all lines, while receipts on account of subscribed capital, were less by 111,0, resulting in a net decrease of 30,9.

338. In *India* under *Assisted Companies* the lapse of 177,0 on the *Bengal-Nagpur Railway*, was due to the provision made in the Budget Estimate for unsanctioned works not having been utilized in full. The excess of 172,9 on the *Burma Railways*, was due to larger expenditure under main heads of the capital account of the open line and on "Formation," "Bridgework," "Ballast and Permanent Way" and "Rolling Stock" for the Lashio Branch. The lapse of 163,6 on the *Indian Midland Railway* was due to short outlay on works at Agra, additions and alterations to Loco. and Carriage shops at Jhansi, fitting vacuum brakes to coaching stock, and to larger issues of stores to Revenue than anticipated. The lapse of 21,0 on the *Lucknow-Bareilly Railway* was due to certain works provided for in the Budget Estimate, having been thrown forward to the following year, and that of 24,0 on the *Southern Mahratta* and *Mysore Railways*, to the same cause.

339. The *Branch Line Companies* deposit capital in Government treasuries and draw against these deposits for expenditure on construction according to requirements. During the year 59,0 was deposited, and 58,8 withdrawn, as against 163,3 and 87,0 provided in the Budget Estimate.

Section O.—PERMANENT DEBT.

Section P.—UNFUNDED DEBT.

	1902-3. Budget. R	Equivalent in Sterling. £	Revised. R	Equivalent in Sterling. £	Accounts. R	Equivalent in Sterling. £
Special Loans	...	...	—4	—3	—51	—3,4
Deposits of Service Funds	+3,58	+23,9	+2,55	+17,1	+2,45	+16,3
Savings Bank Deposits	+77,88	+519,2	+84,50	+563,3	+95,47	+636,5
TOTAL	+81,46	+543,1	+87,01	+580,1	+97,41	+649,4

341. The debit under *Special Loans* represents the commutation value of Wasika Pensions lapsed to Government. The decrease of 1,13 under *Deposits of Service Funds* was due to the Bengal Uncovenanted Service Family Pension Fund being closed to new entrants, partly counterbalanced by an increase under the Bombay Uncovenanted Service Family Pension Fund owing to some pensions of that Fund having remained undrawn during the year. The details of *Savings Bank Deposits* transactions are as follow:—

	1902-3. Budget. R	Revised R	Accounts. R
Post Office Savings Banks	+57,68	+64,56	+73,94
State Railway Provident Institutions	+8,70	+9,22	+11,36
Civil Engineers' Provident Fund	+5,00	+3,60	+2,79
Forest Officers' Provident Fund	+89	+1,06	+1,11
Police Officers' Provident Fund	+1,18	+1,30	+1,37

Cemetery Endowment Fund	+18	+19	+27
Special Accounts	+3,96	+4,08	+4,07
TOTAL	+77,88	+84,50	+95,47
	£	£	£
Equivalent in Sterling	+519,2	+563,3	+636,5

342. Under *Post Office Savings Banks,* improved conditions of the people resulted in a large increase in the transactions of the Department. *State Railway Provident Institutions* show steady increase in subscriptions, while *Civil Engineers' Provident Fund* shows a decline. The Budget figures for net receipts under *Opium and Salt Departments Provident Funds* did not include any provision for the latter which was established in the course of the year. The receipts under *Police* and *Forest Officers' Provident Funds* were under-estimated *Financial Department Provident Fund* closely followed the Budget. The small increase under *Special Accounts* (11) was due chiefly to fluctuations in the transactions of the General Family Pension Fund, the Hindu Family Annuity Fund, and the Post Office Life Insurance Fund.

TOTAL .			−979,1			+998,7			+1,117 2

343. The net debit and credit under *Provincial Balances* and *Appropriation for Reduction or Avoidance of Debt* have been explained in paragraphs 324 and 190 respectively.

344. Under *Excluded Local Funds* the largest variations occurred in Bengal and Madras Bengal showed an increase in the net receipts due to increases in the receipts from the Calcutta and Orissa ports from the Pilgrims' Lodging House Funds, Unnochutter Fund, Chittagong General Hospital Fund, and Zoological Garden Fund, partly counterbalanced by a decrease in those from the Mahomedan Burial Board Fund. There was also a decrease in the expenditure chiefly owing to a provision made in the estimates of the Calcutta Hospital Port Dues' Fund for contribution towards the improvement of the General Hospital not having been utilized. An improvement also occurred in the net receipts in Madras due to larger receipts realized by the Madras University, and smaller debits owing to short outlay on Public Works, specially lighthouses. The increase in *Railway Funds* was due principally to fluctuations in the transactions of the Provident Funds The credit of 264,0 under *Gold Reserve Fund* represents net profits on silver coinage during the year transferred from Mint to this head for payment to the Fund, while the debit of 263,0 represents the amount actually paid over to the Fund. The character and magnitude of the transactions under *Departmental and Judicial Deposits* render an accurate forecast impossible Excluding Berar, the excesses in the net receipts under this head occurred principally in India, Burma, Bengal, and the United Provinces of Agra and Oudh.

345. The net figures entered against the head *Advances* may be divided as follows.—

	Budget.		1902-3. Revised.		Accounts	
	R	£	R	£	R	£
Coinage Accounts	− 7,00	− 46,7	+12,17	+ 81,1	−17,38	−115,9
Other Advances	+ 3,12	+ 20,8	−33,81	−225,4	+ 7,61	+ 50,7
	− 3,88	− 25,9	−21,64	−144,3	− 9,77	− 65,2

346. Under *Coinage Accounts* the debit of 17,38 was made up principally of net debits of 7 73 and 17,15 under Mint Certificates and Bullion Advances for Coinage respectively, and a net credit of 6,69 under Small Coin Depôt Balances. The variations occurred chiefly in the Bombay Mint. Under Mint Certificates the net debit was the result of payment in the current year of certificates issued for bullion delivered at the Calcutta and Bombay Mints before 1st April 1902. The net debit under Bullion Advance for Coinage represents increase in the bullion balance in the Mints. The net credit of 6,69 under the last head represents decrease in the balances of small coins held in the depôts.

347. The net credit under *Other Advances* is the final outcome of a number of transactions, the cause of the net credit of R7,61 or £50,7 is, however, brought out by the following figures:—

	R	£
Special Advances	−3,89	−25,9
Permanent Advances	+ 13	+ 8
Account with Foreign States.	+7,97	+53,1
Other Advances	+3,40	+ 22,7
TOTAL .	+7,61	+50,7

Section Q—DEPOSITS AND ADVANCES—*concluded*

348 The net debit under *Special Advances*, which occurred chiefly in Bengal and Bombay, was due, in the former, to smaller recoveries of Survey and Settlement charges from Private and Wards' Estates, and in the latter, to an advance of 1,50 to the Khairpur State. Under *Account with Foreign States*, the actuals include net recoveries of 3,25 in India from H M 's Colonial Governments, Ceylon, Mauritius and Straits Settlements, and of 94 and 2,38 in Bengal and Madras under Account Current with Native States. Under *Other Advances* there were net credits of 7,37 and 1,52 under Advances Recoverable, Military, and Revenue Advances—Advances for Survey Operations, respectively, on the other hand, there were net debits of 2,31 under Advances Recoverable, Marine, of 169 under Advances Recoverable, Public Works Department, Irrigation, and of 73 under Opium Advances.

349. Under *Suspense Accounts* the variations are chiefly on account of fluctuations in the balances in the hands of the Departmental Officers. The main differences on this account were an increase in the balances of the Civil (39,04), Public Works (27,43), Military (1,99), and Postal Officers (5,21). The increase under Civil occurred chiefly in India and Bombay The Budget in Bombay did not make any allowance for the special transactions in connection with the Native States currency conversions.

350. The difference under *Miscellaneous* was due chiefly to the adjustment of Exchange on the Secretary of State's Bills.

352. The transactions in connection with Imperial Loans and Advances resulted in a net receipt of 2,64 against a net payment of 47,69 provided for in the Budget Estimate The improvement was the result of unexpected recoveries from the Hyderabad State and the Berar Administration, partly counterbalanced by unforeseen advances to Railway Companies Early in the year, a sum of 15,00 was paid out of the surplus balances of the Hyderabad Assigned Districts, in addition to the usual instalment of 5,00 provided for in the Budget, which was taken in repayment of the Berar Famine Loan. On the perpetual lease of that province to the British Government, a further recovery of 41,32 was effected, the whole of its cash balance on 1st October 1902 having been applied to the partial liquidation of that loan. A sum of 15 lakhs was also recovered on account of the Hyderabad Loan against an estimated recovery of 10 lakhs. An excess recovery of 1,38 was also effected from the Mewar State. Again, fifty lakhs were allotted in the Budget for unspecified loans likely to be required by Native States in India, but only a small portion of this amount was required, the principal items being Jaora 4,25, Dhar 3,00, Jhabua 2,42, and Dungarpur 1,10. On the other hand, in consequence of the continuance of famine, the provision of amounts to be advanced to *Native States* in Bombay proved insufficient, and about 5 lakhs had to be advanced more than the Budget. The excess was met by additional grants sanctioned by the Government of India during the year. These are the principal variations under *Loans to Native States* The excess recovery under ***Loans to Presidency Corporations and Port Trust*** chiefly occurred in Madras, and was due to the special arrangement sanctioned by the Government of India, whereby the Harbour Trust Board can pay any sums not less than 10 in part payment of the annual instalments before they fall due Under ***Loans to Railway Companies*** 50,50 were advanced to the Kalka-Simla Railway Company, for which there was no provision in the Budget. Under ***Loans to Landholders and Notabilities,*** the amount advanced to the Thakur of Piploda in India, which forms the bulk of the total amount advanced, was not provided for in the Budget; it was, however, covered by additional grants sanctioned by the Government of India A loan of 10 to the Hyderabad Cantonment Fund caused the increase in the outgoings under ***Loans to District and other Local Committees*** in Bombay. The advances under ***Regimental and other Loans, Military,*** slightly exceeded the Budget, but the repayments were largely in excess. Under ***Advances to Cultivators*** the excess occurred mainly in the North-West Frontier Province, where advances to the extent of 80 were granted, for which there was no provision in the Budget. The excess in the recoveries was attributable to the favourable condition of the agricultural class.

Section RR.—PROVINCIAL LOANS AND ADVANCES.

	1902-3. Budget. £	£	Accounts. £	£
PROVINCIAL LOANS AND ADVANCES . .	656,2	—678,9	679,1	—591,5

353 The following are the details :—

1902-3 Budget. Amount advanced.	Amount repaid		1902-3. Accounts. Amount advanced	Amount repaid.
23,56	6,47	Loans to Mofussil Municipalities	13,50	6,78
12	62	" Port Funds	12	71
30	30	" District Committees	6	1,05
1,10	79	" Landholders, etc	39	88
52	1,96	Advances under Special Laws	1,08	2,55
76 21	88,30	" to Cultivators	73,58	89,89
1 01,84	98 44	TOTAL	88,73	1,01,86
678,9	656 2	EQUIVALENT IN STERLING £ AS ABOVE	591,5	679,1

354. The most noticeable features in this table are the decrease in the advances to Municipalities and the increase in the repayments and the decrease in the advances to Cultivators.

355 Under *Loans to Mofussil Municipalities,* the following are the details by provinces of advances and repayments during the year —

	Budget, 1902-3.		Accounts, 1902-3		Excess (+), Deficiency (—)	
	Advanced	Repaid.	Advanced.	Repaid.	Advanced	Repaid.
Central Provinces	95	53	37	53	—58	..
Burma	1,54	26	1,95	19	+41	—7
Assam		1	...	1		...
Bengal	4,70	83	3,61	1,10	—1,09	+27
United Provinces of Agra and Oudh	3,50	1,89	3,03	1,96	—47	+7
Punjab	9,00	1,23	3,13	1,19	—5,87	—4
Madras	87	61	1,12	64	+25	+3
Bombay	3,00	1,11	29	1,16	—2,71	+5
TOTAL	23,56	6,47	13,50	6,78	—10,06	+31

356 The large savings in advances in all the Provinces except Burma and Madras, were due to loans provided for in the Budget not having been taken up. The excess in Burma was due to the grant of a loan of 45 to the Myaungmya Municipality, which was not provided for in the Budget In Madras, unforeseen loans amounting to 1,02 had to be sanctioned for certain Municipalities for water-supply projects and plague expenditure, while certain loans aggregating 77, though provided for in the Budget Estimate, were not taken up by the respective Municipalities The increase in repayments was chiefly due to unexpected recoveries in Bengal Under *Loans to Port Funds* the increase in the receipts was due to larger repayments than estimated for. The increase in repayments under *Loans to District Committees* was due to a similar cause, and occurred chiefly in Bengal. A receipt of 10 in Madras represents repayments by the District Board, Bellary, towards the loan of 50 sanctioned for plague and other expenditure in 1900-1. Under *Loans to Landholders, etc*, there was a provision of 21 in the Budget in Bengal for loans to Seraikela and Kharswar estates which was not utilized for want of Government sanction to the payment. Smaller requirements in the Punjab account for the short advance in that province (35). The advance in Madras (24) represents actual cost of survey of the State of the Nawab of Banganapalle in 1902-3, the entire sanctioned amount (39) not having been fully utilized. The excess in the recoveries occurred almost entirely in the Punjab. The variations under *Advances under Special Laws* were confined chiefly to Bengal, where a net receipt of 1,10 was anticipated in the Budget, but the actuals showed an improvement and the net receipts stood at 1,64, due chiefly to the improved conditions of the people. In Bombay, owing to a decrease in the receipts from the Talukdari Settlement Officer in consequence of the famine and a payment of 23 not allowed for in the Budget, the actuals showed a net outgoing of 20 against an estimated net receipt of 32.

Section RR.—PROVINCIAL LOANS AND ADVANCES—*concluded.*

357. Under *Advances to Cultivators*, the following are the details :—

	Budget, 1902-3.		Accounts, 1902-3.		Excess (+), Deficiency (—)	
	Advanced.	Repaid.	Advanced.	Repaid.	Advanced.	Repaid.
Central Provinces	3,91	17,04	5,86	16,81	+1,95	—23
Burma	2,85	2,11	4,22	2,97	+1,37	+86
Assam	27	12	16	9	—11	—3
Bengal	4,46	2,41	2,68	3,01	—1,78	+60
United Provinces of Agra and Oudh	3,25	4,18	2,06	4,74	—1,19	+56
Punjab	11,96	13,77	9,93	10,33	—2,03	—3,44
Madras	4,54	3,67	4,32	4,16	—22	+49
Bombay	45,00	45,00	44,35	47,78	—65	+2,78
TOTAL	76,24	88,30	73,58	89,89	—2,66	+1,59

358 The decrease in receipts in the Central Provinces was due to short recoveries from agriculturists, as certain districts were still affected by famine. The increase in advances in Burma was due to the partial failure of crops in Upper Burma, and was met by additional grants sanctioned by the Government of India The smaller advances in the other Provinces and the larger recoveries were due to the improved conditions of the agricultural classes.

Section S.—CAPITAL OF LOCAL BOARDS.

1901-2. Accounts.		1902-3. Budget	1902-3. Revised.	1902-3. Accounts.

Section U.—SECRETARY OF STATE'S BILLS.

	1902-3 Budget.	Revised.	Accounts.
	£	£	£
Drawings	16,500,0	18,000,0	18,237,0
Payments	16,837,4	18,420,7	18,461,0

361 The following are the amounts of bills and transfers drawn during the year by the Secretary of State:—

		£	R	Rate in pence.
April	1902	1,197,9	1,80,29	15·94
May	"	1,037,6	1,56,47	15·91
June	"	997,6	1,50,51	15 90
July	"	1,238,3	1,86,34	15 95
August	"	1,265,9	1,90,62	15 93
September	"	866,7	1,30 38	15·95
October	"	1,147,2	1,72,35	15·97
November	"	1,485,6	2,22,76	16 00
December	"	1,634,8	2,44,74	16 03
January	1903	2,480,0	3,70,60	16 06
February	"	2,789,3	4,16,17	16 08
March	"	2,096,1	3,13,99	16·02
		18,237,0	27 35,22	16 00

362 The payment account of the year is as follows:—

	£	R
Bills of 1901-2 outstanding on 1st April 1902	1,154,2*	1,73,24
Bills drawn in 1902-3 as entered above	18,237,0	27,35,22
TOTAL BILLS FOR PAYMENT	19,391,2	29,08,46
Bills paid in 1902-3	18,461,0	27,68,80
Bills outstanding on 1st April 1903	930,2	1,39,66

* Correction in conversion since made

Section V.—CASH BALANCE.

	Budget.	1902-3. Revised.	Accounts.
	£	£	£
Balance on 1st April 1902—			
India	12,045,7	11,880,3	11,880,3
England	5,848,4	6,693,1	6,693,1
Total	17,894,1	18,573,4	18,573,4
Balance on 31st March 1903—			
India	10,832,4	11,833,3	12,082,4
England	4,050,7	5,686,5	5 767,8
Total	14,883,1	17,519,8	17,850,2
Increase (+) or decrease (—) of balance on 31st March 1903	—3,011,0	—1,053,6	—723,2

363. The above difference is distributed between India and England in the following proportions —

	Budget.	1902-3. Revised.	Accounts
	£	£	£
India	—1,213,3	—47,0	+202,1
England	—1,797,7	—1,006,6	—925,3
Total	—3,011,0	—1,053,6	—723,2

364. Taking India and England together, the net transactions of the year were better than expected in the Budget by the sum of £2,287,8. The variations which brought about this result, are as follows:—

	Better	Worse.
	£	£
Improvement in Imperial Surplus	2,231,8	.
Improvement in Provincial Surplus	1,295,7	..
Increase in the Expenditure of Railway and Irrigation Capital not charged to Revenue	...	414,7
Improvement in the receipts under Appropriation for reduction, etc.	90,5	
Increase under Temporary Debt		500,0
Increase in the deposits of Savings Bank	117,3	
Decrease under Advances	..	65,4
Increase under Departmental and Judicial Deposits	188,0	...
Suspense Accounts	488,4	...
Net increased repayments under Loans and Advances by Imperial Government	335,5	..
Do Do. Do. Do Provincial Government	110,3	...
Decrease under Capital of Local Boards	..	
Increase in the balance of Secretary of State's Bills remaining unpaid at the end of the year	109,6	
Decrease in the receipts under Remittances		1,789,5
Minor variations	90,3	
	5,057,4	2,769,6
Net Better	2,287,8	

O. T. BARROW,
Offg. Comptroller and Auditor General.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

EDUCATION.

INDIAN EDUCATIONAL POLICY.

Nos. 199—211, dated Calcutta, the 11th March 1904.

RESOLUTION.

READ—

The letters of the Government of India to Local Governments and Administrations, Nos. 466—475, dated the 6th November 1901, Nos. 501—508, dated the 20th November 1901, and Nos. 526—542, dated the 27th November 1901; and the replies thereto.

History up to 1854

Education in India, in the modern sense of the word, may be said to date from the year 1854, when the Court of Directors, in a memorable despatch, definitely accepted the systematic promotion of general education as one of the duties of the State, and emphatically declared that the type of education which they desired to see extended in India was that which had for its object the diffusion of the arts, science, philosophy, and literature of Europe; in short, of European knowledge.

2. The acceptance of this duty was an important departure in policy. The advent of British rule found in India systems of education of great antiquity existing among both Hindus and Muhammadans, in each case closely bound up with their religious institutions. To give and to receive instruction was enjoined by the sacred books of the Brahmans, and one of the commentaries on the Rig Veda lays down in minute detail the routine to be followed in committing a text-book to memory.' Schools of learning were formed in centres containing considerable high caste populations, where Pandits gave instruction in Sanskrit grammar, logic, philosophy, and law. For the lower classes, village schools were scattered over the country in which a rudimentary education was given to the children of traders, petty landholders, and well-to-do cultivators. The higher education of Muhammadans was in the hands of men of learning, who devoted themselves to the instruction of youth. Schools were attached to mosques and shrines and supported by State grants in cash or land, or by private liberality. The course of study in a Muhammadan place of learning included grammar, rhetoric, logic, literature, jurisprudence, and science. Both systems, the Muhammadan no less than the Hindu, assigned a disproportionate importance to the training of the memory, and sought to develop the critical faculties of the mind, mainly by exercising their pupils in metaphysical refinements and in fine-spun commentaries on the meaning of the texts which they had learnt by heart.

3. The first instinct of British rulers was to leave the traditional modes of instruction undisturbed and to continue the support which they had been accustomed to receive from Indian rulers. The Calcutta Madrassa for Muhammadans was founded by Warren Hastings in 1782, and the Benares College for Hindus was established in 1791. Provision was made for giving regular assistance to education from public funds by a clause in the Charter Act of 1813, which empowered the Governor General in Council to direct that one lakh of rupees in each year should be "set apart and applied to the revival and improvement of literature and the encouragement of the learned natives of India and for the introduction and promotion of a knowledge of the sciences among the inhabitants of the British territories in India."

4. This grant was at first applied to the encouragement of oriental methods of instruction by paying stipends to students. But the presence of the British in India brought about profound changes in the social and administrative conditions of the country; and these in their turn reacted on the educational policy

of Government. The impulse towards reform came from two sources, the need for public servants with a knowledge of the English language, and the influence in favour both of English and of Vernacular education which was exercised by the missionaries in the early years of the nineteenth century. The well-known Minute written by Lord Macaulay (at that time Legal Member of Council and Chairman of the Committee of Public Instruction) in 1835 marks the point at which official recognition was given to the necessity of public support for western education. Then followed a period of attempts, differing in different provinces, to extend English education by the establishment of Government schools and colleges, and by strengthening the indigenous schools; while missionary effort continued to play an important part in promoting educational progress.

Despatch of 1854

5. In their Despatch of 1854, the Court of Directors announced their decision that the Government should actively assist in the more extended and systematic promotion of general education in India. They regarded it as a sacred duty to confer upon the natives of India those vast moral and material blessings which flow from the general diffusion of useful knowledge. They hoped by means of education to extend the influence which the Government was exerting for the suppression of demoralizing practices, by enlisting in its favour the general sympathy of the native mind They also sought to create a supply of public servants to whose probity offices of trust might with increased confidence be committed, and to promote the material interests of the country by stimulating its inhabitants to develop its vast resources. The measures which were prescribed for carrying out this policy were:—(1) the constitution of a department of public instruction; (2) the foundation of universities at the Presidency towns; (3) the establishment of training schools for teachers; (4) the maintenance of the existing Government colleges and schools of a high order, and the increase of their number when necessary, (5) increased attention to all forms of vernacular schools; and finally (6) the introduction of a system of grants-in-aid which should foster a spirit of reliance upon local exertions, and should in course of time render it possible to close or transfer to the management of local bodies many of the existing institutions.

History since 1854.

6. The policy laid down in 1854 was re-affirmed in 1859 when the administration had been transferred to the Crown. The Universities of Calcutta, Madras, and Bombay were incorporated in 1857 and those of the Punjab and Allahabad in 1882 and 1887, respectively. The growth of schools and colleges proceeded most rapidly between 1871 and 1882, and was further augmented by the development of the municipal system, and by the Acts which were passed from 1865 onwards providing for the imposition of local cesses which might be applied to the establishment of schools. By the year 1882 there were more than two million and a quarter of pupils under instruction in public institutions. The Commission of 1882-83 furnished a most copious and valuable report upon the state of education as then existing, made a careful inquiry into the measures which had been taken in pursuance of the Despatch of 1854, and submitted further detailed proposals for carrying out the principles of that despatch. They advised increased reliance upon, and systematic encouragement of, private effort and their recommendations were approved by the Government of India. Shortly afterwards a considerable devolution of the management of Government schools upon municipalities and district boards was effected, in accordance with the principles of local self-government then brought into operation.

Extent of the present system.

7. As a result of these continuous efforts we find in existence to-day a system of public instruction, the influence of which extends in varying degrees to every part of India, and is upon the whole powerful for good. The system includes five Universities, those of Calcutta, Bombay, Madras, the Punjab, and Allahabad, which prescribe courses of study and examine the students of affiliated colleges. These colleges are widely scattered throughout the country and number in all 191 (exclusive of some colleges outside British India, which are not incorporated in the Provincial statistics), with 23,009 students on the rolls. In them provision is made for studies in Arts and Oriental learning, and for professional courses of Law, Medicine, Engineering, Teaching, and Agriculture. Below the

colleges are secondary schools, to the number of 5,493, with an attendance of 558,378 scholars, and primary schools numbering 98,538, with 3,268,726 pupils. Including special schools, technical and industrial schools of art, and normal schools for teachers, the total number of colleges and schools for public instruction amounts to 105,306, with 3,887,493 pupils; and if to these are added the "private institutions" which do not conform with departmental standards, the total number of scholars known by the Education Department to be under instruction reaches about 4½ millions. The gross annual cost of maintaining these institutions exceeds 400 lakhs, of which 127 lakhs are derived from fees, and 83 lakhs from endowments, subscriptions, and other private sources; while the expenditure from public funds aggregates 191 lakhs, of which 104 lakhs are derived from Provincial and Imperial revenues, 74 lakhs from local and Municipal sources, and 13 lakhs from the revenues of Native States. It is a striking feature of the system, and one which must constantly be borne in mind when dwelling upon its imperfections, that its total cost to the public funds, provincial and local together, falls short of £1,300,000 annually The wider extension of education in India is chiefly a matter of increased expenditure; and any material improvement of its quality is largely dependent upon the same condition.

Its merits and defects.

8. It is almost universally admitted that substantial benefits have been conferred upon the people themselves by the advance which has been made in Indian education within the last fifty years; that knowledge has been spread abroad to an extent formerly undreamed of; that new avenues of employment have been opened in many directions; and that there has been a marked improvement in the character of the public servants now chosen from the ranks of educated natives, as compared with those of the days before schools and universities had commenced to exercise their elevating influence. But it is also impossible to ignore the fact that criticisms from many quarters are directed at some of the features and results of the system as it exists at present, and that these criticisms proceed especially from friends and well-wishers of the cause of education. Its shortcomings in point of quantity need no demonstration. Four villages out of five are without a school; three boys out of four grow up without education, and only one girl in forty attends any kind of school In point of quality the main charges brought against the system are to the general effect (1) that the higher education is pursued with too exclusive a view to entering Government service, that its scope is thus unduly narrowed, and that those who fail to obtain employment under Government are ill fitted for other pursuits; (2) that excessive prominence is given to examinations; (3) that the courses of study are too purely literary in character; (4) that the schools and colleges train the intelligence of the students too little, and their memory too much, so that mechanical repetition takes the place of sound learning; (5) that in the pursuit of English education the cultivation of the vernaculars is neglected, with the result that the hope expressed in the Despatch of 1854 that they would become the vehicle for diffusing western knowledge among the masses is as far as ever from realization.

The Governor General in Council having closely considered the subject, and having come to the conclusion that the existing methods of instruction stand in need of substantial reform, has consulted the Local Governments and Administrations upon the measures necessary to this end, and believes that he has their hearty concurrence in the general lines of the policy which he desires to prescribe. He therefore invites all who are interested in raising the general level of education in India, and in spreading its benefits more widely, to co-operate in giving effect to the principles laid down in this Resolution. With this object in view, an attempt is made in the following paragraphs to review the whole subject in its various aspects, to point out the defects that require correction in each of its branches, and to indicate the remedies which in the opinion of the Government of India ought now to be applied.

Education and Government service.

9. A variety of causes, some historical and some social, have combined to bring about the result that in India, far more than in England, the majority of students who frequent the higher schools and the universities are there for the

purpose of qualifying themselves to earn an independent livelihood; that Government service is regarded by the educated classes as the most assured, the most dignified, and the most attractive of all careers; and that the desire on the part of most students to realize these manifold advantages as soon and as cheaply as possible tends to prevent both schools and colleges from filling their proper position as places of liberal education. On these grounds it has often been urged that the higher interests of education in India are injuriously affected by the prevailing system of basing selection for Government service on the school and university attainments of those who come forward as candidates for employment. Some indeed have gone so far as to suggest that educational standards would be indefinitely raised if it were possible to break off these material relations with the State, and to institute separate examinations for the public service under the control of a special board organized on the model of the English Civil Service Commission.

10. The Government of India cannot accept this opinion. It appears to them that such examinations, if established admittedly as a substitute for, and not merely as supplementary to, the University course, would necessarily be held in subjects differing from those prescribed by the University; and that two distinct courses of study would thus exist side by side, only one of them leading to Government service. If students attempted to compete in both lines, the strain of excessive examination, already the subject of complaint, would be greatly intensified; while, on the other hand, if the bulk of them were attracted by the prospect of obtaining Government appointments, the result would be the sacrifice of such intellectual improvement as is achieved under the existing system. Success in the Government examination would become the sole standard of culture, the influence of the Universities would decline, the value of their degrees would be depreciated, and the main stream of educational effort would be diverted into a narrow and sordid channel. Such a degradation of the educational ideals of the country could hardly fail to react upon the character of the public service itself The improved tone of the native officials of the present day dates from, and is reasonably attributed to, the more extended employment of men who have received a liberal education in the Universities, and have imbibed through the influence of their teachers some of the traditions of English public life. Nor is there any reason to believe that by introducing its own examinations the Government would raise the standard of fitness, or secure better men for the public service than it obtains under the present system. There is a general consensus of opinion among all the authorities consulted that no examining board would do better than the Universities. If a separate examination did no more than confirm the finding of the Universities, it would be obviously superfluous; if it conflicted with that finding, it would be mischievous.

11. The Government is in the last resort the sole judge as to the best method of securing the type of officers which it requires for its service. It alone possesses the requisite knowledge and experience: and by these tests must its decision be guided. The principle of competition for Government appointments was unknown in India until a few years ago; it does not spring from the traditions of the people, and it is without the safeguards by which its operation is controlled in England It sets aside, moreover, considerations which cannot be disregarded by a Government whose duty it is to reconcile the conflicting claims of diverse races, rival religions, and varying degrees of intellectual and administrative aptitude and adaptability. For the higher grades of Government service there is no need to have recourse to the system since it is possible in most cases for the Government to accept the various University degrees and distinctions as indicating that their holders possess the amount of knowledge requisite to enable them to fill particular appointments; while in the case of the more technical departments, a scrutiny of the subjects taken up by the candidate, and of the degree of success attained in each, will sufficiently indicate how far he possesses the particular knowledge and bent of mind that his duties will demand. The Government of India are of opinion, therefore, that special competitions should, as a general rule, be dispensed with; and that the requisite acquaintance with the laws, rules, and regulations of departments may best be attained during probationary service, and tested after a period of such service. In short, the Government of India hold that the multiplication of competitive tests for Government service

neither results in advantage to Government nor is consistent with the highest interests of a liberal education. In fixing the educational standards which qualify for appointments, the natural divisions of primary, secondary, and University education should be followed; school and college certificates of proficiency should, so far as possible, be accepted as full evidence of educational qualifications, regard being paid, within the limits of each standard, to their comparative value; and due weight should be attached to the recorded opinions of collegiate and school authorities regarding the proficiency and conduct of candidates during their period of tuition.

The abuse of examinations

12. Examinations, as now understood, are believed to have been unknown as an instrument of general education in ancient India, nor do they figure prominently in the Despatch of 1854. In recent years they have grown to extravagant dimensions, and their influence has been allowed to dominate the whole system of education in India, with the result that instruction is confined within the rigid framework of prescribed courses, that all forms of training which do not admit of being tested by written examinations are liable to be neglected, and that both teachers and pupils are tempted to concentrate their energies not so much upon genuine study as upon the questions likely to be set by the examiners. These demoralizing tendencies have been encouraged by the practice of assessing grants to aided schools upon the results shown by examination. This system, adopted in the first instance on the strength of English precedents, has now been finally condemned in England, while experience in India has proved that, to whatever grade of schools it is applied, it is disastrous in its influence on education and uncertain in its financial effects. It will now be replaced by more equitable tests of efficiency, depending on the number of scholars in attendance, the buildings provided for their accommodation, the circumstances of the locality, the qualifications of the teachers, the nature of the instruction given, and the outlay from other sources, such as fees and private endowments or subscriptions. The Educational Codes of the various Provinces are being revised so as to embody these important reforms, and to relieve the schools and scholars from the heavy burden of recurring mechanical tests. In future there will be only two examinations preceding the University course. The first of these, the primary examination, will mark the completion of the lowest stage of instruction, and will test the degree of proficiency attained in the highest classes of primary schools. But it will no longer be a public examination held at centres to which a number of schools are summoned; it will be conducted by the inspecting officer in the school itself. The second examination will take place at the close of the secondary, usually an Anglo-Vernacular course, and will record the educational attainments of all boys who have completed this course. In both stages of instruction special provision will be made for the award of scholarships.

In giving effect to this change of system, it will be necessary to guard against the danger that the subordinate inspecting agency may misuse the increased discretion entrusted to them. The principles upon which the grant to an aided school is to be assessed must therefore be laid down by each Local Government in terms sufficiently clear to guide the inspecting officer in his recommendations; precautions must be taken against the abuse of authority, or the perfunctory performance of the duties of inspection; and in those provinces where the application of standards of efficiency other than those afforded by written examinations is a novelty, it will be incumbent upon the Education Department, by conferences of inspecting officers and by other means, to secure a reasonable degree of uniformity in the standards imposed. The Governor General in Council does not doubt that the discipline and ability of the educational services will prove equal to maintaining, under the altered conditions, a system of independent and efficient inspection.

Government control and private enterprise

13. From the earliest days of British rule in India private enterprise has played a great part in the promotion of both English and Vernacular education, and every agency that could be induced to help in the work of imparting sound instruction has always been welcomed by the State. The system of grants-in-aid was intended to elicit support from local resources, and to foster a spirit

of initiative and combination for local ends. It is supplemented by the direct action of Government, which, speaking generally, sets the standard, and undertakes work to which private effort is not equal, or for which it is not forthcoming. Thus the educational machinery now at work in India comprises, not only institutions managed by Government, by district and municipal boards, and by Native States, but also institutions under private management, whether aided by Government or by local authorities, or unaided. All of these which comply with certain conditions are classed as public institutions. They number, as already stated, 105,306 in all; and over 82,500 are under private management.

The progressive devolution of primary, secondary, and collegiate education upon private enterprise, and the continuous withdrawal of Government from competition therewith was recommended by the Education Commission in 1883, and the advice has been generally acted upon. But while accepting this policy, the Government of India at the same time recognize the extreme importance of the principle that in each branch of education Government should maintain a limited number of institutions, both as models for private enterprise to follow and in order to uphold a high standard of education. In withdrawing from direct management, it is further essential that Government should retain a general control, by means of efficient inspection, over all public educational institutions.

Primary education

14. Primary education is the instruction of the masses, through the vernacular, in such subjects as will best stimulate their intelligence and fit them for their position in life It was found in 1854 that the consideration of measures to this end had been too much neglected and a considerable increase of expenditure on primary education was then contemplated. The Education Commission recommended in 1883 that "the elementary education of the masses, its provision, extension, and improvement should be that part of the educational system to which the strenuous efforts of the State should be directed in a still larger measure than before." The Government of India fully accept the proposition that the active extension of primary education is one of the most important duties of the State They undertake this responsibility, not merely on general grounds, but because, as Lord Lawrence observed in 1868, "among all the sources of difficulty in our administration, and of possible danger to the stability of our Government, there are few so serious as the ignorance of the people" To the people themselves, moreover, the lack of education is now a more serious disadvantage than it was in more primitive days. By the extension of railways the economic side of agriculture in India has been greatly developed, and the cultivator has been brought into contact with the commercial world, and has been involved in transactions in which an illiterate man is at a great disadvantage. The material benefits attaching to education have at the same time increased with the development of schemes for introducing improved agricultural methods, for opening agricultural banks, for strengthening the legal position of the cultivator, and for generally improving the conditions of rural life. Such schemes depend largely for their success upon the influence of education permeating the masses and rendering them accessible to ideas other than those sanctioned by tradition.

Its extent.

15. How, then, do matters stand in respect of the extension among the masses of primary education? The population of British India is over two hundred and forty millions. It is commonly reckoned that fifteen per cent. of the population are of school-going age. According to this standard there are more than eighteen millions of boys who ought now to be at school, but of these only a little more than one-sixth are actually receiving primary education. If the statistics are arranged by Provinces, it appears that out of a hundred boys of an age to go to school, the number attending primary schools of some kind ranges from between eight and nine in the Punjab and the United Provinces, to twenty-two and twenty-three in Bombay and Bengal In the census of 1901 it was found that only one in ten of the male population, and only seven in a thousand of the female population were literate. These figures exhibit the

vast dimensions of the problem, and show how much remains to be done before the proportion of the population receiving elementary instruction can approach the standard recognized as indispensable in more advanced countries.

Its progress.

16. While the need for education grows with the growth of population, the progress towards supplying it is not now so rapid as it was in former years. In 1870-71 there were 16,473 schools with 607,320 scholars; in 1881-82 there were 82,916 with 2,061,541 scholars. But by 1891-92 these had only increased to 97,109 schools with 2,837,607 scholars, and the figures of 1901-02 (98,538 schools with 3,268,726 scholars) suggest that the initial force of expansion is somewhat on the decline; indeed the last year of the century showed a slight decrease as compared with the previous year. For purposes of exact comparison some allowances have to be made for differences in the basis of the statistics, but their broad effect is not altered by these modifications. Nor has the rate of growth of primary schools kept pace with that of secondary schools, in which the number of scholars has considerably more than doubled during the last twenty years. It may be said indeed that the expansion of primary schools has received a check in recent years from the calamities of famine and plague; and it is further impeded by the indifference of the more advanced and ambitious classes to the spread of primary education. These however are minor obstacles, which would soon be swept away if the main difficulty of finding the requisite funds for extending primary education could be overcome.

Its cost.

17. The expenditure upon primary education does not admit of exact statement, since the cost of the instruction given in the lower classes of secondary schools is not separately shown, nor is the expenditure on the administration and inspection of primary schools capable of separate calculation. But the direct outlay from public funds upon primary schools stands as follows:—

—	1886-87.	1891-92	1901-02.
	R	R	R
From Provincial funds . . .	16,00,239	13,43,343	16,92,514
From Local and Municipal funds . . .	26,07,624	35,86,208	46,10,387
TOTAL	42,07,863	49,29,551	63,02,901

Its claims.

18. On a general view of the question the Government of India cannot avoid the conclusion that primary education has hitherto received insufficient attention and an inadequate share of the public funds. They consider that it possesses a strong claim upon the sympathy both of the Supreme Government and of the Local Governments, and should be made a leading charge upon provincial revenues; and that in those provinces where it is in a backward condition, its encouragement should be a primary obligation. The Government of India believe that Local Governments are cordially in agreement with them in desiring this extension, and will carry it out to the limits allowed by the financial conditions of each province.

Functions of local authorities.

19. In so far as District or Municipal Boards are required to devote their funds to education, primary education should have a predominant claim upon their expenditure. The administration of primary schools by local bodies is already everywhere subject to the general supervision of the Education Department as regards tuitional matters; but the degree of control differs in different provinces, and where it is most complete, primary education is most advanced It is impossible to extend that control to financial matters, as there are other

objects besides education which have legitimate claims upon local funds. But it is essential, in order to ensure that the claims of primary education receive due attention, that the educational authorities should be heard when resources are being allotted, and that they should have the opportunity of carrying their representations to higher authority in the event of their being disregarded. In future, therefore, so much of the budget estimates of District or Municipal Boards as relates to educational charges will be submitted through the Inspector to the Director of Public Instruction before sanction.

Courses in primary schools

20. The course of instruction in primary schools naturally consists mainly of reading and writing (in the vernacular) and arithmetic. Progress has been made in several parts of India during recent years in the introduction of Kindergarten methods and object lessons. Where these methods have been applied with discretion by competent teachers, who have discarded elaborate forms and foreign appliances, and have used for the purpose of instruction objects familiar to the children in their every-day life, they have been productive of much benefit by imparting greater life and reality to the teaching, and by training the children's faculties and powers of observation The experience which has been gained of Kindergarten teaching in Madras and Bombay has enabled those provinces to effect steady advances in the system; a complete scheme has been drawn up for Bengal, for the introduction of which teachers are being trained; and a manual of the subject is being prepared in the Punjab, where well designed courses of object lessons are already given The Government of India look with favour upon the extension of such teaching, where competent teachers are available, as calculated to correct some of the inherent defects of the Indian intellect, to discourage exclusive reliance on the memory, and to develop a capacity for reasoning from observed facts. Physical exercises also find a place in the primary schools, and should as far as possible be made universal. A series of native exercises, systematised for the use of schools, has been adopted in the Central Provinces, and has been commended to the attention of the other Local Governments

Rural primary schools

21. The instruction of the masses in such subjects as will best fit them for their position in life involves some differentiation in the courses for rural schools, especially in connection with the attempts which are being made to connect primary teaching with familiar objects. In Bombay a separate course of instruction, with standards of its own, is prescribed. In the Central Provinces a system of half-time schools has been successfully established, providing simple courses of instruction in the mornings for the children of agriculturists, who work in the fields during the rest of the day. This system seems worthy of imitation elsewhere; at present a similar experiment made in the Punjab has met with less success. The aim of the rural schools should be, not to impart definite agricultural teaching, but to give to the children a preliminary training which will make them intelligent cultivators, will train them to be observers, thinkers, and experimenters in however humble a manner, and will protect them in their business transactions with the landlords to whom they pay rent and the grain dealers to whom they dispose of their crops. The reading books prescribed should be written in simple language, not in unfamiliar literary style, and should deal with topics associated with rural life. The grammar taught should be elementary, and only native systems of arithmetic should be used. The village map should be thoroughly understood; and a most useful course of instruction may be given in the accountant's papers, enabling every boy before leaving school to master the intricacies of the village accounts and to understand the demands that may be made upon the cultivator. The Government of India regard it as a matter of the greatest importance to provide a simple, suitable, and useful type of school for the agriculturist, and to foster the demand for it among the population. This and other reforms in primary schools will involve some revision of the pay of primary teachers which varies greatly, and in some provinces is too small to attract or to retain a satisfactory class of men. Thus in Bengal the rates fall as low as R5 per month, while the average pay in the Bombay Presidency rises to R17 and R18. The matter has been under consideration, and improvements will be made where they are most needed.

22. The growth of secondary instruction is one of the most striking features in the history of education in India. The number of secondary schools has risen in the last twenty years from 3,916 to 5,493 and that of their pupils from 214,077 to 558,378. In all provinces there is considerable eagerness among parents to afford their sons an English education, and the provision and maintenance of a high school are common objects of liberality among all sections of the community. Whether these schools are managed by public authority or by private persons, and whether they receive aid from public funds or not, the Government is bound in the interest of the community to see that the education provided in them is sound. It must, for example, satisfy itself in each case that a secondary school is actually wanted; that its financial stability is assured; that its managing body, where there is one, is properly constituted; that it teaches the proper subjects up to a proper standard; that due provision has been made for the instruction, health, recreation, and discipline of the pupils; that the teachers are suitable as regards character, number, and qualifications; and that the fees to be paid will not involve such competition with any existing school as will be unfair and injurious to the interests of education. Such are the conditions upon which alone schools should be eligible to receive grants-in-aid or to send up pupils to compete for or receive pupils in enjoyment of Government scholarships; and schools complying with them will be ranked as "recognized" schools. But this is not sufficient. It is further essential that no institution which fails to conform to the elementary principles of sound education should be permitted to present pupils for the University examinations; and in future admission to the Universities should be restricted to *boná fide* private candidates and to candidates from recognized schools. In this way the schools which enjoy the valuable privilege of recognition will in return give guarantees of efficiency in its wider sense; and the public will be assisted in their choice of schools for their children by knowing that a school which is "recognized" is one which complies with certain definite conditions.

Secondary education.

23. It is frequently urged that the courses of study in secondary schools are too literary in their character. The same complaint is otherwise expressed by saying that the high school courses are almost exclusively preparatory to the University Entrance Examination, and take insufficient account of the fact that most of the scholars do not proceed to the University, and require some different course of instruction. Attempts have therefore been made, in pursuance of the recommendations of the Education Commission, to introduce alternative courses, analogous to what is known in England as a "modern side," in order to meet the needs of those boys who are destined for industrial or commercial pursuits. These attempts have not hitherto met with success. The purely literary course, qualifying as it does both for the University and for Government employ, continues to attract the great majority of pupils, and more practical studies are at present but little in request. The Government of India, however, will not abandon their aim. In the present stage of social and industrial development it appears to them essential to promote diversified types of secondary education, corresponding with the varying needs of practical life. Their efforts in this direction will be seconded by that large body of influential opinion which has supported the recommendation of the Universities Commission that the Entrance Examination should no longer be accepted as a qualifying test for Government service.

24. But the question what subjects should be taught and by what means proficiency in them should be tested forms only a part of the larger problem of the true object of secondary education. Whatever courses a school may adopt it should aim at teaching them well and intelligently, and at producing pupils who have fully assimilated the knowledge which they have acquired, and are capable of more sustained effort than is involved in merely passing an examination. Some test of course there must be; and the Government of India are disposed to think that the best solution of the difficulty will probably be found in adapting to Indian conditions the system of leaving examinations, held at the conclusion of the secondary course, which has been tried with success in other countries. Such examinations would not dominate the courses of study, but

School final examination

would be adapted to them, and would form the natural culminating point of secondary education: a point not to be reached by sudden and spasmodic effort, but by the orderly development of all the faculties of the mind under good and trained teaching. They would be of a more searching character than the present Entrance test, and the certificate given at their close would be evidence that the holder had received a sound education in a recognized school, that he had borne a good character, and that he had really learnt what the school professed to have taught him. It would thus possess a definite value, and would deserve recognition not only by Government and the Universities, but also by the large body of private employers who are in want of well-trained assistants in their various lines of activity.

Ethics of education

25. The remark has often been made that the extension in India of an education modelled upon European principles, and, so far as Government institutions are concerned, purely secular in its character, has stimulated tendencies unfavourable to discipline, and has encouraged the growth of a spirit of irreverence in the rising generation. If any schools or colleges produce this result, they fail to realise the object with which they are established—of promoting the moral no less than the intellectual and physical well-being of their students. It is the settled policy of Government to abstain from interfering with the religious instruction given in aided schools. Many of these, maintained by native managers or by missionary bodies in various parts of the Empire, supply religious and ethical instruction to complete the educational training of their scholars. In Government institutions the instruction is, and must continue to be, exclusively secular. In such cases the remedy for the evil tendencies noticed above is to be sought, not so much in any formal methods of teaching conduct by means of moral text-books or primers of personal ethics, as in the influence of carefully selected and trained teachers, the maintenance of a high standard of discipline, the institution of well-managed hostels, the proper selection of text-books, such as biographies, which teach by example, and above all in the association of teachers and pupils in the common interests of their daily life. Experience has further shown that discipline and conduct are sure to decline when the competition between schools is carried so far as to allow scholars to migrate from one school to another without inquiry being made as to their conduct at their previous school and their reasons for leaving it. Rules have accordingly been framed regulating the admission of scholars to Government and aided schools and their promotion on transfer from one school to another so as to secure that a record of their conduct shall be maintained and that irregularities and breaches of discipline shall not pass unnoticed. These rules will now be extended to all unaided schools which desire to enjoy the benefits of recognition.

Languages in schools

26. Except in certain of the larger towns of Madras, where like Urdu in Northern India, it serves to some extent the purpose of a *lingua franca*, English has no place, and should have no place, in the scheme of primary education. It has never been part of the policy of Government to substitute the English language for the vernacular dialects of the country. It is true that the commercial value which a knowledge of English commands, and the fact that the final examinations of the high schools are conducted in English, cause the secondary schools to be subjected to a certain pressure to introduce prematurely both the teaching of English as a language and its use as the medium of instruction; while for the same reasons the study of the vernacular in these schools is liable to be thrust into the back-ground. This tendency however requires to be corrected in the interest of sound education. As a general rule a child should not be allowed to learn English as a language until he has made some progress in the primary stages of instruction and has received a thorough grounding in his mother tongue. It is equally important that when the teaching of English has begun, it should not be prematurely employed as the medium of instruction in other subjects. Much of the practice, too prevalent in Indian schools, of committing to memory ill-understood phrases and extracts from text-books or notes, may be traced to the scholars having received instruction through the medium of English before their knowledge of the language was sufficient to enable them to understand what they were taught. The line of division be-

tween the use of the vernacular and of English as a medium of instruction should, broadly speaking, be drawn at a minimum age of 13. No scholar in a secondary school should, even then, be allowed to abandon the study of his vernacular, which should be kept up until the end of the school course. If the educated classes neglect the cultivation of their own languages, these will assuredly sink to the level of mere colloquial dialects possessing no literature worthy of the name, and no progress will be possible in giving effect to the principle, affirmed in the Despatch of 1854, that European knowledge should gradually be brought, by means of the Indian vernaculars, within the reach of all classes of the people.

Female education

27. In their efforts to promote female education the Government have always encountered peculiar difficulties arising from the social customs of the people; but they have acted on the view that through female education a "far greater proportional impulse is imparted to the educational and moral tone of the people than by the education of men," and have accordingly treated this branch of education liberally in respect of scholarships and fees. Nevertheless though some advance has been made, female education as a whole is still in a very backward condition. The number of female scholars in public schools in the year 1901-02 was 444,470, or less than a ninth of the number of male scholars. The percentage of girls in public schools to the total female population of school-going age has risen from 1·58 in the year 1886-87 to 2·49 in 1901-02. This rate of progress is slow. The Education Commission made recommendations for the extension of female education, and the Government of India hope that with the increase of the funds assigned in aid of education their proposals may be more fully carried out. The measures which are now being taken for further advance include the establishment in important centres of model primary girls' schools, an increase in the number of training schools, with more liberal assistance to those already in existence, and a strengthening of the staff of inspectresses. The direct action of Government will be exerted in cases where that of the municipalities and local boards does not suffice. Nearly one-half of the girls in public schools are in mixed boys'-girls' schools. Their attendance along with boys is often beneficial to them, especially in village schools, and nothing in the report of the Commission of 1882 need be taken as indicating that such attendance ought to be discouraged. Great assistance is rendered to the cause of female education generally by missionary effort, and in the higher grades especially by zenana teaching. The Government of India desire that such teaching shall be encouraged by grants-in-aid.

University education

28. In founding the Universities of Calcutta, Bombay, and Madras, the Government of India of that day took as their model the type of institution then believed to be best suited to the educational conditions of India, that is to say, the examining University of London. Since then the best educational thought of Europe has shown an increasing tendency to realize the inevitable shortcomings of a purely examining University, and the London University itself has taken steps to enlarge the scope of its operations by assuming tuitional functions. The model, in fact, has parted with its most characteristic features, and has set an example of expansion which cannot fail to react upon the corresponding institutions in India. Meanwhile the Indian experience of the last fifty years has proved that a system which provides merely for examining students in those subjects to which their aptitudes direct them, and does not at the same time compel them to study those subjects systematically under first-rate instruction, tends inevitably to accentuate certain characteristic defects of the Indian intellect;—the development of the memory out of all proportion to the other faculties of the mind, the incapacity to observe and appreciate facts, and the taste for metaphysical and technical distinctions. Holding it to be the duty of a Government which has made itself responsible for education in India to do everything in its power to correct these shortcomings, the Governor General in Council two years ago appointed a Commission, with the Hon'ble Mr. T. Raleigh as President, to report upon the constitution and working of the Universities, and to recommend measures for elevating the standard of University teaching and promoting the advancement of learning. After full

consideration of the report of this Commission, and of the criticisms which it called forth, the Government of India have come to the conclusion that certain reforms in the constitution and management of the Universities are necessary. They propose that the Senates, which from various causes have grown to an unwieldy size, should be reconstituted on a working basis, and that the position and powers of the syndicates should be defined and regulated. Opportunity will be taken to give statutory recognition to the privilege of electing members of the Senate which, since 1891, has been conceded by way of experiment to the graduates of the three older Universities. A limit will be placed upon the number of *ex-officio* fellows; and a reduction will be made in the maximum numbers of the Senates so as to restrict nominations to those bodies to the persons well qualified to discharge their responsible duties. Powers will be conferred upon all the Universities to make suitable provision for University teaching. The teaching given in colleges will, instead of being tested mainly or wholly by external examinations, be liable to systematic inspection under the authority of the Syndicate; and the duty of the University not only to demand a high educational standard from any new college that desires to be recommended to Government for affiliation, but also gradually to enforce a similar standard in colleges already affiliated, will be carefully defined. A college applying for affiliation will be required to satisfy the University and the Government that it is under the management of a regularly constituted governing body, that its teaching staff is adequate for the courses of instruction undertaken; that the buildings and equipment are suitable, and that due provision is made for the residence and supervision of the students; that, so far as circumstances permit, due provision is made for the residence of some of the teaching staff; that the financial resources of the college are sufficient, that its affiliation, having regard to the provision for students made by neighbouring colleges, will not be injurious to the interests of education or discipline; and that the fees to be paid by the students will not involve competition injurious to the interests of education with any existing college in the same neighbourhood. Colleges already affiliated will be inspected regularly and will be required to show that they continue to comply with the conditions on which the privilege of affiliation is granted. The necessary improvements in the Universities and their affiliated colleges cannot be carried out without financial aid. This the Government of India are prepared to give; and they trust that it will be possible to afford liberal recognition and assistance to genuine effort on the part of the colleges to adapt themselves to the new conditions. They also hope that this increase of expenditure from the public funds may be accompanied by an increase in the aid given to colleges and Universities by private liberality, so that the policy of progressive development which was adopted in 1854 may be consistently followed, and that the influence of the improved Universities may be felt throughout the educational system of the country.

Education of Europeans and Eurasians in India.

29. The problem of the education of European and Eurasian children in India has been anxiously considered by the Government of India on many occasions. As long ago as 1860 Lord Canning wrote that if measures for educating this class were not promptly and vigorously taken in hand, it would grow into a profitless and unmanageable community, a source of danger rather than of strength to the State. Since then repeated efforts have been made both by the Government and by private agency to place the question on a satisfactory basis by establishing schools of various grades, both in the plains and in the hills, by giving liberal grants-in-aid, and by framing a code of regulations applicable to all forms of instruction that the circumstances require. As a result of this action there are now more than 400 schools and colleges for Europeans in India, with nearly 30,000 scholars, costing annually 42½ lakhs, of which 8½ lakhs are contributed by public funds. Notwithstanding the expenditure incurred, recent enquiries have shown that a large proportion of these schools are both financially and educationally in an unsatisfactory condition. Munificent endowments still support flourishing schools in certain places; but in some cases these endowments have been reduced by mismanagement; and too many of the schools are unable to support themselves in efficiency upon the fees of the scholars

and the grants made by Government on the scale hitherto in force. Their most conspicuous want is well qualified teachers, especially in schools for boys; and this cannot be met so long as their financial position precludes them from offering to the members of their staff fair salaries, security of tenure, and reasonable prospects of advancement. The Government in its turn is interested in maintaining a sufficient supply of well educated Europeans to fill some of the posts for which officers are recruited in India; while without efficient schools the domiciled community must degenerate rapidly in this country. The Government of India are taking steps to ascertain and to supply the chief defects in the system. A single Inspector in each of the provinces is being charged especially with the duty of inspecting European schools; a Training College for teachers in these schools is to be established at Allahabad, and stipends are to be provided for the students; a register of teachers will be formed, and, in future, no one will be employed without proper tuitional qualifications. The systems, both of grants-in-aid and of scholarships, are being revised on a more liberal basis; and more intelligent methods of testing efficiency are to be substituted for the rigid system of departmental examinations which has hitherto prevailed. Measures will also be taken to secure the proper administration of endowments and to enforce sound methods of financial control in those schools which depend upon Government for assistance.

Chiefs' Colleges.

30. During the last thirty years the idea that the changed conditions of Indian life demand a change in the traditional modes of education, has found acceptance amongst the ruling Chiefs of Native States. Chiefs' Colleges have been established, of which the most important are those at Ajmer, Rajkot, and Lahore, where some of the features of the English public school system have been reproduced, with the object of fitting young Chiefs and Nobles physically, morally, and intellectually for the responsibilities that lie before them. Convinced of the great importance of promoting this object, His Excellency the Viceroy has closely examined the organization and conduct of these colleges, which appeared to admit of improvement, and has placed before the ruling Chiefs proposals of a comprehensive character for their reform. An increase will be made in the number of teachers of high qualifications to be engaged upon the staff; and in regulating the studies and discipline of the colleges, the aim kept in view throughout will be the preparation of the sons of ruling Chiefs for the duties which await them, on lines which will combine the advantages of Western knowledge with loyalty to the traditions and usages of their families or States. The proposals have been received by the Chiefs with satisfaction; the interest of the aristocratic classes has been universally aroused in the scheme; and the institution of the Imperial Cadet Corps, which will in the main be recruited from these colleges, will assist to keep this interest alive. The Governor General in Council confidently hopes that the reforms now in course of execution will result in giving a great impetus to the cause of education among the Indian nobility.

Technical education.

31. Technical education in India has hitherto been mainly directed to the higher forms of instruction required to train men for Government service as engineers, mechanicians, electricians, overseers, surveyors, revenue officers, or teachers in schools, and for employment in railway workshops, cotton-mills, and mines. The institutions which have been established for these purposes, such as the Engineering Colleges at Rurki, Sibpur, and Madras, the Colleges of Science at Poona, the Technical Institute at Bombay, and the Engineering School at Jubbulpur, have done and are doing valuable work, and their maintenance and further development are matters of great importance. The first call for fresh effort is now towards the development of Indian industries, and especially of those in which native capital may be invested. Technical instruction directed to this object must rest upon the basis of a preliminary general education of a simple and practical kind, which should be clearly distinguished from the special teaching that is to be based upon it, and should as a rule be imparted in schools of the ordinary type. In fixing the aim of the technical schools, the supply or expansion of the existing Indian markets is of superior importance to the creation of new export trades, and a clear line should be

drawn between educational effort and commercial enterprise. As a step towards providing men qualified to take a leading part in the improvement of Indian industries, the Government of India have determined to give assistance in the form of scholarships to selected students to enable them to pursue a course of technical education under supervision in Europe or America. They hope that the technical schools of India may in time produce a regular supply of young men qualified to take advantage of such facilities, and that the goodwill and interest of the commercial community may be enlisted in the selection of industries to be studied, in finding the most suitable students for foreign training, and in turning their attainments to practical account upon their return to this country. The experience which has been gained in Japan and Siam of the results of sending young men abroad for study justifies the belief that the system will also be beneficial to Indian trade.

Schools of Art.

32. There are four Schools of Art in British India,—at Madras, Bombay, Calcutta, and Lahore. The aims to be pursued in them, and the methods proper to those aims, have been the subject of much discussion during recent years. The Government of India are of opinion that the true function of Indian Schools of Art is the encouragement of Indian Art and Art industries; and that in so far as they fail to promote these arts or industries, or provide a training that is dissociated from their future practice, or are utilized as commercial ventures, they are conducted upon erroneous principles. Their first object should be to teach such arts or art industries as the pupil intends to pursue when he has left the school. Examples of the arts which may thus be taught to those who will practice them professionally in future, or to drawing masters, are:—designing (with special reference to Indian arts and industries), drawing, painting, illumination, modelling, photography, and engraving. The art industries taught in Schools of Art should be such as are capable of being carried on in the locality, and in which improvement can be effected by instructing pupils or workmen by means of superior appliances, methods, or designs. Instruction in these arts or art industries should be directed to their expansion through the improvement of the skill and capacity of the pupil or workman, but it should not be pushed to the point of competing with local industries, of doing within the school what can equally well be done outside, or of usurping the sphere of private enterprise. The schools should not be converted into shops, nor should the officers of the Education Department be responsible for extensive commercial transactions; but samples of the wares produced may legitimately be kept for sale or for orders, and may be exhibited in public museums. A register of the workmen or pupils trained in school should be kept, with the object of enabling orders which may be received to be placed with advantage. The teaching should be in the hands of experts, trained as a rule in Indian Colleges or in Art Schools. The specialization of a limited number of arts and art industries in the several schools should be preferred to the simultaneous teaching of a large number. Free admission and scholarships should, as a general rule, be discouraged, and should gradually be replaced by payment of fees; but this is compatible with giving necessary assistance to promising pupils, and with the payment of wages to students as soon as their work becomes of value.

Industrial schools

33. Industrial schools are intended to train intelligent artisans or foremen, and to further or develop those local industries which are capable of expansion by the application of improved methods or implements. Schools of this type are not numerous, nor have they at present succeeded in doing much to promote the growth of industries. A recent enumeration gives their total number as 123, with 8,405 pupils in attendance, and the number of different trades taught as 48. Some are conducted by Government, either as separate institutions or attached to Schools of Art, while others are managed by local authorities, or by private persons under a system of grants-in-aid. Their shortcomings are obvious and admitted. A large proportion of the pupils who attend them have no intention of practising the trade they learn, but pass into clerical and other employments, using the industrial schools merely in order to obtain that general education which they could acquire in ordinary schools at less cost to the State, but at greater cost to themselves. Even for those who do intend to follow the

trades taught in the industrial schools, it is feared that in some cases the teaching given does not provide a training of a sufficiently high standard to enable them to hold their own with artisans who have learnt their craft in the bazaar. The industries selected are frequently not those which are locally of most importance, and there is an undue predominance of carpentry and black-smiths' work amongst them.

34. An attempt will now be made to remedy these defects. The Government of India do not expect a large immediate increase in the number of industrial schools, and they desire rather to encourage experiment than to prescribe fixed types for this form of education. Admission will be confined to those boys who are known by their caste or occupation to be likely to practise in after life the handicrafts taught in the schools, and the courses of study will be so ordered as not to lend themselves to the manufacture of clerks, but to bear exclusively upon carefully selected industries. A distinction will be drawn between those types of school which will be suitable for the large centres of industry, where capital is invested on a great scale and the need of trained artisans is already recognized by the employers, and those adapted to places where hand industries prevail, and where the belief in the value of technical training has yet to make its way. In the former the prospects are favourable for the establishment of completely equipped trade schools, such as are found in other countries; in the latter, search has still to be made for the kind of institution which will take root in Indian soil. Suggestions for experiment based upon observation of the habits and tendencies of Indian artisans have been placed before the Local Governments. They will be pursued further under the advice of skilled experts in particular industries.

Commercial education.

35. A system of education intended to impart "useful and practical knowledge, suitable to every station in life," cannot be considered complete without ampler provision than exists at present in India for school training definitely adapted to commercial life. There is at present no University course of training of a specialized description for business men; in the field of secondary education the establishment of examinations and the inclusion of commercial subjects in the optional lists of subjects for examination have outstripped the progress made in the organization of courses of instruction. The beginnings which have been made at Bombay, Lucknow, Calicut, Amritsar, and elsewhere, show that the attempt to provide suitable courses meets with encouraging response; and increased attention will now be given to the extension of such teaching in large centres of commerce and population. The proper development of the teaching demands that it should be adapted to Indian needs, and should not be based merely upon English text-books. The London Chamber of Commerce examinations supply a convenient test for those pupils (especially Europeans) who are likely to proceed to England Commercial courses, leading up to this or other examinations, are now being placed upon an equality with purely literary courses as a qualification for Government service But their chief aim will be to supply practical training for those who are to enter business houses either in a superior or subordinate capacity. Registers will be kept of the pupils who have been so trained, and endeavours will be made to find employment for them by communication with Chambers of Commerce and mercantile firms. The Government of India trust that they may look for the co-operation of the mercantile community in framing suitable courses of instruction, and in giving preference in selecting employés to those who have qualified themselves by directing their studies towards those subjects which will be useful in commercial life.

Agricultural education.

36. For a country where two-thirds of the population are dependent for their livelihood on the produce of the soil, it must be admitted that the provision for agricultural education in India is at present meagre and stands in serious need of expansion and reorganization. At Poona in Bombay and Saidapet in Madras there are colleges teaching a three years' course, which is fairly satisfactory at Poona, though the staff is hardly strong enough, while at Saidapet the training is somewhat defective on the practical side. In the United Provinces the school at Cawnpore has a two years' course, especially intended for the training of subordinate revenue officials in which direction it has done and is doing very good

work, but the teaching staff is weak and the equipment inadequate. At Nagpur a school with a two years' course gives good practical education, and special arrangements are made for a vernacular class for sons of landowners and others. Bengal has added to the Engineering College at Sibpur, near Calcutta, classes which give a two years' agricultural training to students who have taken their B. A degree at the University or have passed the F. E. standard in the college; but the conditions are not such as to admit of a thoroughly satisfactory course. In the Punjab and Burma no attempt has as yet been made to teach agriculture. In all these institutions instruction is given almost entirely in English, and until advanced text-books have been compiled in the vernacular this must continue to be the case in all but the most elementary classes.

37. At present, therefore, while the necessity for developing the agricultural resources of the country is generally recognized, India possesses no institution capable of imparting a complete agricultural education. The existing schools and colleges have not wholly succeeded, either in theory or in practice. They have neither produced scientific experts, nor succeeded in attracting members of the land-holding classes to qualify themselves as practical agriculturists. Both of these defects must be supplied before any real progress can be looked for. In the first place an organization must be created by which men qualified to carry on the work of research, and to raise the standard of teaching, can be trained in India itself. Before agriculture can be adequately taught in the vernacular, suitable text-books must be produced, and this can only be done by men who have learnt the subject in English. The Government of India have therefore under their consideration a scheme for the establishment of an Imperial Agricultural College in connection with an Experimental Farm and Research Laboratory, to be carried on under the general direction of the Inspector General of Agriculture, at which it is intended to provide a thorough training in all branches of agricultural science, combined with constant practice in farming work and estate management. In addition to shorter courses for those students who are intended for lower posts, there will be courses of instruction extending to five years, which will qualify men to fill posts in the Department of Agriculture itself, such as those of Assistant Directors, Research Experts, Superintendents of Farms, Professors, Teachers, and Managers of Court of Wards and Encumbered Estates. It is hoped that a demand may arise among the landowning classes for men with agricultural attainments and that the proposed institution may succeed in meeting that demand. Arrangements will also be made to admit to the higher courses those who have undergone preliminary training at the Provincial colleges; and thereby to exercise upon those colleges an influence tending gradually to raise their standard of efficiency.

Training colleges

38. If the teaching in secondary schools is to be raised to a higher level,—if the pupils are to be cured of their tendency to rely upon learning notes and text-books by heart, if, in a word, European knowledge is to be diffused by the methods proper to it,—then it is most necessary that the teachers should themselves be trained in the art of teaching. Even in England divided counsels have till recent times prevented due progress from being made with this most essential condition of the reform of secondary education. The Indian Education Commission referred to the conflict of opinion upon this fundamental principle, and to the diversity of practice which prevailed; and, while hesitating to lay down a general rule requiring secondary teachers to be trained, recommended "as an inadequate, but the only practicable alternative," that an examination in the principles and practice of teaching should be instituted, success in which should hereafter be made a condition of permanent employment as a teacher in any secondary school. Other and larger views of the subject are now in the ascendant, and the Government of India are glad to know that the principle of providing training institutions for secondary teachers meets with universal acceptance among the Local Governments and Administrations. There already exist at Madras, Kurseong, Allahabad, Lahore, and Jubbulpore, institutions in which students are trained for service as teachers in the highest classes of secondary schools. Such students have either passed the Entrance or the Intermediate Examination of the University or are graduates. These institutions have done good work, and the time has come to extend the system to the

provinces where it does not exist, notably Bombay, and to endeavour to create a supply of trained teachers which shall be adequate to the needs of the secondary schools throughout the country. Not only must the supply be increased, but the quality of the training given must be improved.

39. The details of the measures taken with that object are already engaging the attention of the various Local Governments. But the general principles upon which the Government of India desire to see the training institutions developed are these. An adequate staff of well-trained members of the Indian Educational Service is required, and for this purpose it will be necessary to enlist more men of ability and experience in the work of higher training. The equipment of a Training College for secondary teachers is at least as important as that of an Arts College, and the work calls for the exercise of abilities as great as those required in any branch of the Educational Service The period of training for students must be at least two years, except in the case of graduates, for whom one year's training may suffice. For the graduates the course of instruction will be chiefly directed towards imparting to them a knowledge of the principles which underlie the art of teaching, and some degree of technical skill in the practice of the art. It should be a University course, culminating in a University degree of diploma. For the others, the course should embrace the extension, consolidation, and revision of their general studies; but the main object should be to render them capable teachers, and no attempt should be made to prepare them for any higher external examination. The scheme of instruction should be determined by the authorities of the Training College and by the Education Department; and the examination at the close of it should be controlled by the same authorities. The training in the theory of teaching should be closely associated with its practice, and for this purpose good practising schools should be attached to each college, and should be under the control of the same authority. The practising school should be fully equipped with well trained teachers, and the students should see examples of the best teaching, and should teach under capable supervision. It is desirable that the Training College should be furnished with a good library, and with a museum in which should be exhibited samples, models, illustrations, or records of the school work of the province. Every possible care should be taken to maintain a connection between the Training College and the school, so that the student on leaving the college and entering upon his career as a teacher may not neglect to practise the methods which he has been taught, and may not (as sometimes happens) be prevented from doing so and forced to fall into line with the more mechanical methods of his untrained colleagues. The trained students whom the college has sent out should be occasionally brought together again, and the inspecting staff should co-operate with the Training College authorities in seeing that the influence of the college makes itself felt in the schools.

Training schools for primary teachers

40. The institution of Normal Schools for primary teachers, which was enjoined by the Despatch of 1854, has been very generally carried out. Recent enquiries into the sufficiency of their number have shown that an increase is called for in some provinces, notably in Bengal; and provision is being made for this increase, its possibility depending partly upon the salaries paid to primary teachers being sufficient to induce men to undergo a course of training. The usual type of normal school is a boarding school, where students who have received a vernacular education are maintained by stipends and receive further general education, combined with instruction in the methods of teaching, and practice in teaching, under supervision. The course differs in length in the different provinces. In future it will as a general rule be for not less than two years.

41. Steps are also being taken to supply courses of training specially suited for teachers of rural schools. These do not attempt the impossible task of reforming the agricultural practice of the peasantry by the agency of village school masters imbued with a smattering of scientific theory. They serve the more limited and practical purpose of supplying the village schools with teachers whose stock-in-trade is not mere book learning, and whose interests have been aroused in the study of rural things, so that they may be able to

connect their teaching with the objects which are familiar to the children in the country schools. Various plans are being tried, such as drafting the teachers from the normal school to a Government farm and training them there for six months, or giving a continuous course at the normal school itself by means of lectures combined with practice in cultivating plots of ground or school gardens. Experience will show which methods work best in different provinces, and it is not necessary to pronounce in favour of one plan to the exclusion of others.

Hostels

42. Great importance is attached by the Government of India to the provision of hostels or boarding-houses, under proper supervision, in connection with colleges and secondary schools. These institutions protect the students who live in them from the moral dangers of life in large towns; they provide common interests and create a spirit of healthy companionship; and they are in accord not only with the usage of English public schools and colleges but also with the ancient Indian tradition that the pupil should live in the charge of his teacher. Missionary bodies have joined with alacrity in the extension of this movement. The credit for the first hostel established in India is claimed by the Madras Christian College, which still continues to add others; and a striking example of the success of the residential system is to be found in the Muhammadan Anglo-Oriental College at Aligarh. The Local Governments have been active both in founding hostels for Government colleges and schools and in aiding their provision. In Madras at the present time a large hostel, the result of private munificence aided by Government, is nearing completion; in Bombay, Calcutta, Allahabad and Lahore signs are to be seen of the growth of similar institutions. The returns for the year 1901-02 showed that there were then 1,415 hostels, with 47,302 boarders; while the extent to which they derive their funds from sources independent of Government is made clear by the fact that more than two-fifths of the boarders were in unaided hostels, and that of the total expenditure upon all hostels, ten lakhs were derived from subscriptions and endowments, as compared with two lakhs sixty-three thousand rupees from public funds. The Government of India believe that the system of hostels, if extended with due regard for its essential principles, which include direct supervision by resident teachers, is destined to exercise a profound influence on student life in India and to correct many of the shortcomings which now attend our educational methods.

Inspecting staff

43. The reduction in the number of examinations which is being carried out, and the general raising of educational standards which is contemplated, demand an increased stringency in inspection and a substantial strengthening of the inspecting staff. In the Despatch of 1854, it was enjoined that inspectors should "conduct, or assist at, the examination of the scholars . . . and generally, by their advice, aid the managers and schoolmasters in conducting colleges and schools of every description throughout the country." The latter function is no less important than the former, and calls for wider educational knowledge, greater initiative, and the exercise of a wise discretion in adapting means to ends. It is a task which will provide worthy occupation for men who are imbued with the best traditions in the matter of school management, and it is through the influence of such men alone that there is any real prospect of its accomplishment. Their assistance can only be enlisted by increasing the cadre of the Indian Educational Service. Some additions in the lower branches of the inspectorate are also needed in order to provide for a complete system of inspection *in situ* instead of collective examinations. The Government of India do not require that inspectors should be precluded from having recourse to examination as a means of inspection; but they desire that inspectors should be much more than mere examiners. They should not only judge the results of teaching, but should guide and advise as to its methods; and it is essential that they should be familiar with the schools in their ordinary working conditions. The work of schools should be defined with reference rather to the courses of instruction followed than to the examinations that have to be passed, and rigid uniformity either in the arrangement of subjects or in the classification of the scholars should be avoided, free play being given to the proper adaptation of the working of the schools to their local circumstances.

Administration.

44. The more active and progressive policy that is now being adopted in educational matters will throw a constantly increasing burden of work and responsibility upon the Directors of Public Instruction. The wider the influence that these officers exercise, the more essential is it that they should not be prevented by the growth of their routine duties from making frequent tours of inspection and thus acquiring a direct and intimate knowledge of the educational conditions of their provinces and the circumstances of the numerous schools under their control. Four officers are therefore to be added to the Indian Educational Service, in order to provide the Directors of Public Instruction in Madras Bombay, Bengal, and the United Provinces with assistants upon whom part of their duties may be devolved. Arrangements will also be made for periodical meetings of the Directors in conference, in order that they may compare their experience of the results of different methods of work, and may discuss matters of common interest.

Educational services

45 The Education Department is divided into the superior and the subordinate services. The superior service consists of two branches, called respectively the Indian and the Provincial educational services, of which the former is recruited in England and the latter in India. The opportunities and responsibilities which work in the Department brings to an officer of this service give scope for a wide range of intellectual activity Such an officer takes an active part in the profoundly interesting experiment of introducing an Eastern people to Western knowledge and modern methods of research; he comes into contact with the remains of an earlier civilization and the traditions of ancient learning; he can choose between the career of a professor and that of an educational administrator; and in either capacity he has great opportunity of exercising personal influence and promoting the best interests of genuine education. In order that members of the Indian educational service may keep themselves abreast of the advances which are now being made in other countries in the science of education, facilities are given to them while on furlough to study the theory and practice of all branches of education both in England and in other parts of the world The part, already considerable, that is taken by natives of India in the advancement of their countrymen in modern methods of intellectual training will, it is hoped, assume an even greater importance in the future. If the reforms now contemplated in the whole system of instruction are successfully carried out, it may be expected that the Educational Service will offer steadily increasing attractions to the best educational talent Where the problems to be solved are so complex, and the interests at stake so momentous, India is entitled to ask for the highest intellect and culture that either English or Indian seats of learning can furnish for her needs.

Conclusion

46. The Governor General in Council has now passed in review the history and progress of western education under British rule in India, the objects which it seeks to accomplish and the means which it employs It has been shown how indigenous methods of instruction were tried and found wanting, how in 1854 the broad outlines of a comprehensive scheme of national education were for the first time determined; how the principles then accepted have been consistently followed ever since; how they were affirmed by the Education Commission of 1882, and how they are now being further extended and developed, in response to the growing needs of the country by the combined efforts of the Government of India and the Provincial Governments. The system of education thus extended makes provision in varying degrees for all forms of intellectual activity that appeal to a civilized community. It seeks to satisfy the aspirations of students in the domains of learning and research, it supplies the Government with a succession of upright and intelligent public servants; it trains workers in every branch of commercial enterprise that has made good its footing in India; it attempts to develop the resources of the country and to stimulate and improve indigenous arts and industries; it offers to all classes of society a training suited to their position in life; and for these ends it is organized on lines which admit of indefinite expansion as the demand for education grows and public funds or private liberality afford a larger measure of support. It rests with the people

themselves to make a wise use of the opportunities that are offered to them and to realise that education in the true sense means something more than the acquisition of so much positive knowledge, something higher than the mere passing of examinations, that it aims at the progressive and orderly development of all the faculties of the mind, that it should form character and teach right conduct—that it is, in fact, a preparation for the business of life If this essential truth is overlooked or imperfectly appreciated, the labours of the Government of India to elevate the standard of education in this country and to inspire it with higher ideals will assuredly fail to produce substantial and enduring results. Those labours have been undertaken in the hope that they will command the hearty support of the leaders of native thought and of the great body of workers in the field of Indian Education On them the Governor General in Council relies to carry on and complete a task which the Government can do no more than begin.

ORDER —Ordered that a copy of the above Resolution be forwarded to the Local Governments and Administrations marginally noted, to the Foreign Department and the Department of Revenue and Agriculture and to the Director General of Education in India for information.

Madras	Burma
Bombay	Central Provinces
Bengal	Assam
United Provinces	Coorg
Punjab	

Ordered, also, that the Resolution be published in the Supplement to the *Gazette of India*

ADMINISTRATION REPORT

OF THE

INDO-EUROPEAN TELEGRAPH DEPARTMENT

FOR

1902-1903.

CAPITAL AND REVENUE ACCOUNT.

1. *Capital*—The net outlay of the year under this head was R8,09,744, which raised the capital expenditure to end of the year to R1,30,90,949 Out of the sum of R8,09,744, R6,64,397 represent the Cash and Stores outlay incurred in the construction of the Central Persia line; while the remainder represents chiefly an addition to the Stores suspense balance.

The following statement shows how the above increase is made up.—

—	Increase	Decrease	Total
	R	R	R
Works	6,95,875	—	6,95,875
Suspense			
Stores	1,13,130	--	1,13,130
Other heads	739		739
TOTAL	8,09,744	—	8,09 744

A summary of the year's transactions on Capital account is given in Appendix A.

2 *Revenue* —Appendix B is a summary of the earnings and expenditure.* The earnings amounted to R14,87,365, or a decrease of R3,41,670 as compared with 1901-1902, when the sum realised was R18,29,035. The expenditure during the year was R8,97,794, against R8,59,653 in the previous year, or an increase of R38,141 The net result is a profit of R5,89,571 on the year's working, against that of R9,69,382 in 1901-1902, or a decrease of R3,79,811 as compared with that year.

3. The following statements show the chief differences between the earnings and expenditure of the current and previous years. For details, *see* Appendix B —

EARNINGS

Head of Account	1901-1902	1902-1903	Increase	Decrease
	R	R	R	R
Traffic Earnings	19 31,104	12,02,172	-	7,28,932
Common Purse	45,042	4,64,147	4,19,105	—
Australasian Message Fund	*—1,79,363*	*—1,91,042*	—	12,579
Profit and loss	*—358*	*- 408*	50	—
Total Message Revenue	17,96,425	14,74 069	4,19,155	7,41,511
Miscellaneous Revenue	32,610	13,296	---	19,314
TOTAL	18 29 035	14,87,365	4,19,155	7,60,825
Net Decrease	—	—	—	3,41,670

EXPENDITURE

Head of Account	1901-1902	1902-1903	Increase	Decrease
	R	R	R	R
Persian Gulf Section :—				
General charges	1,19,231	1,16,783	—	2,448
Line maintenance	52,375	51,257	—	1,118
Signalling	2,00,010	2,10,193	10,183	—
Cable maintenance	2,37,502	2,39,382	1,880	—
Persian Section :—				
General charges	82,940	96,115	13,175	—
Line maintenance	65,143	73,048	7,905	—
Signalling	94,119	1,03,224	9,105	—
Expenditure by other Departments	8,333	7,792	—	541
TOTAL	8,59,653	8,97,794	42,248	4,107
Net Increase	—	—	38,141	-

The increase under General Charges is due partly to a larger expenditure on furlough allowances as compared with the previous year and partly to the cost of the superior establishment employed on the Central Persia line construction which for the time being has been charged to general charges pending recovery from the Persian Government. The increase under Signalling is due chiefly to a general revision of the General Service Clerks' Establishment, with effect from 1st March 1902.

* Excluding the cost of the London Office Establishment (1,826*l*), which is included as part of the Establishment of the Secretary of State.

NET REVENUE.

4. On a total Capital expenditure of R1,30,90,949 a net profit of R5,89,571 was earned, which gives a dividend of 4 50 per cent. (Appendix D) The dividends earned during the past five years are as follows:—

Year	Interest on Capital
	R
1898-99	6 03
1899-1900	6 02
1900-1901	7 85
1901-1902	7 89
1902-1903	4 50

CIS-INDIAN JOINT PURSE

5 Appendix C deals with the transactions in connection with this Agreement, which was entered into in 1878.

	£	s	d
The Department's share of the whole Purse shows a decrease of	20,889	8	8
Allowing for a recovery from the Indo-European Telegraph Company in 1901-02 on account of German Royalty	7,456	6	0
Difference	13,433	2	8

This difference is explained as follows:—

	£	s	d
Department's share of the Guarantee of the Eastern Extension Australasia and China Telegraph Company on account of Straits Settlements and Java traffic	1,127	19	7
Also Department's share on account of Indo-European Telegraph Company's Guarantee to Germany on Indian traffic	140	10	4
Decrease on Indian traffic on account of reduction of rates	10,649	11	10
Decrease on Trans-Indian traffic with Australasia, on account of the opening of the New Pacific cable	1,515	0	11
	13,431	2	8

6. *Interruptions affecting Joint Purse Traffic.*—There was only one interruption stopping traffic between Karachi and Teheran in the Gulf section, lasting for 2 days, 19 hours, 6 minutes, in June 1902. Between Teheran and London the Indo-European Company's lines were totally interrupted for an aggregate of 26 days, 10 hours, 25 minutes.

7. On the Turkish route interruptions occurred between Fao and Constantinople lasting 42 days, 9 hours, 37 minutes. The working of this route continues to be unsatisfactory. The Fao-Bushire cable was interrupted for 5 days, 1 hour, 5 minutes.

During the last five years the Turkish route west of Fao has been interrupted as follows -

1898-99			1899-1900.			1900-1901.			1901-1902			1902-1903.		
Days	H	M	Days	H.	M	Days	H	M	Days	H	M	Days	H	M
54	4	16	48	6	29	37	6	37	40	3	40	42	9	37

The Department was liable to the Joint Purse for 25 days' interruptions between Constantinople and Bushire at Fcs. 50 per diem.

AUSTRALASIAN MESSAGE FUND

8. The Departmental receipts for this year show an increase of 54*l.* over the receipts in 1889, on which the original Australasian Message Fund was based. *See* Appendix C (1)

TRAFFIC

9. The following table gives the amounts paid into the Joint Purse by the Department as compared with its independent traffic revenue —*

	For Joint Purse, etc		Independent Revenue	Total
	Indian	Trans-Indian		
	Fcs cts	Fcs cts.	Fcs cts.	Fcs cts.
Persian Gulf Section	1,274,766 75¼	461,423 51⅛	24,681 32⅞	1,760,871 59¼
Persian Section	175,043 32 15/16	58,545 8376	15,566 34 1/16	249,155 5051
Total francs .	1,449,810 0794⅜	519,969 3488½	40,247 6693 1/16	2,010,027 0976

10 Appendix E gives the number of messages and words carried under the different classes —1, State, 2, Commercial and Private; 3, Press, during the past five years

11 The average length of "private and commercial" messages was 12·84 words in 1902-1903 as compared with 13 35 words in the previous year. The average length, calculated from the averages of the past seven years is 13 02 words

12 *Check of Errors* —The accuracy of transmission over the lines of the Department for the past two years is shown below, and is satisfactory

1901-1902 .	0 073 per cent
1902-1903 . . .	0 079 "

13 *Complaints and Errors* —The number received for investigation amounted to 176, being 18 more than the total for the year 1901-1902. Of this number 109 were from Europe and 67 from India, 32 related to messages *viá* Turkey

Of the above, 85 were not admitted by the Administrations concerned, or are still being investigated by them, and of the remaining 91 this Department is responsible for 18

OFFICES.

14 The number of offices open to the public throughout the year, excluding those on the Teheran Meshed (Persian Government) line, was, in the Persian Gulf Section 9, and in the Persian Section 9

PERSIAN GULF SECTION

CABLES

15. The total length of the various cables on 31st March 1903 was 1939 73 knots, as against 1941·876 knots in the former year, the decrease being due to repairs

Eight faults occurred during the year, and one ran into this year from the previous year, making a total of nine faults Three were due to Teredos, two to corrosion of guards, two to the action of heavy seas in cyclonic weather, and the cause of one fault is unknown. One fault remained, in one of the Jask-Bushire cables, at the end of the year

There was only one interruption on the Bushire-Fao Cable, lasting altogether 5 days, 1 hour, 5 minutes. The Bushire-Manora cables were interrupted for 19 days, 5 hours, 37 minutes, but, as an alternate cable or the Mekran Coast land line was available, through communication was only interrupted on one occasion for 2 days, 19 hours, and 6 minutes, when the cable and land lines were simultaneously interrupted by a cyclone in June 1902. The Jask-Muscat cable was interrupted for 1 day, 15 hours, and 43 minutes

The expenditure of cable amounted to 35·047 knots, the lengths recovered from the sea being 32 428 knots, but most of this was only fit for stripping

Some of the Fao-Bushire cable which was laid in 1886, as shown in repairs, is fast corroding, and about 53 knots of the Jask-Manora cable, laid in 1884 to 1887 will probably soon have to be renewed. Otherwise the cables are in fair order.

Manora Cable Factory

16. The expenditure of cable during the year and cable in stock at the end of the year was as follows —

	Knots.
Cable in stock on 1st April 1902	57·041
Manufactured at Manora	42·274
	99·315
Deduct cable expended, 1902-1903	35 873
Balance, 31st March 1903	63 442

The amount of cable stripped for core was 34 448 knots

* Note — The independent traffic revenue is that obtained from traffic dealt with by this Department and not touching India, such as for telegrams between the stations of Jask and Bushire.

Cable Steamer "Patrick Stewart."

17. The cable steamer "Patrick Stewart" steamed 6,228 knots, and the engineering staff were absent from head-quarters on cabling work for 66 days during the year The actual earnings of the ship were R716-6-10.

MEKRAN COAST LAND LINE.

18. The total lengths of this line remained the same as in the previous year, *viz.*, 698 miles of line and 1,392 miles of wire

The total interruptions (*i e*, simultaneous interruptions to both wires) during the year lasted for 5 days, 10 hours, 7 minutes Partial interruptions (*i e*, those not affecting communication) amounted to 826 hours.

The causes of the faults are summarised as follows —

	Number	Duration. Hours
Definitely traced to preventable causes —		
Faulty construction	—	—
Faulty maintenance	1	17
Corroded wires	32	545
Working parties	2	3
Other preventable causes		—
Unpreventable causes —		
Cyclones and floods	10	302
Animals and birds	1	3
Malice	8	82
Unknown causes	1	4

General Remarks

19 Nothing of particular interest occurred during the year; the districts along the line remained quiet and the people friendly

General Observations.

Great damage was done to the telegraph buildings at Manora by the cyclone which occurred in June 1902 The frontage on the harbour was completely washed away, and the two piers badly damaged. The repairs and renewals needed to put matters right have necessitated considerable expenditure.

PERSIAN SECTION.

TEHERAN-BUSHIRE LINE.

20. The length of this line remains the same as last year, *viz.*, 693 miles of line and 2,079 miles of wire

No total interruptions occurred throughout the year. The faults from all causes, including contacts between the wires during the past three years, have been—

Year	1 Wire	2 Wires	3 Wires
	Hours.	Hours	Hours
1900-1901	347	54	*Nil*
1901-1902	283	13	*Nil*
1902-1903	172	6	*Nil*

The causes of the faults may be summarised as follows —

	Number	Duration Hours
Definitely traced to preventable causes—		
Faulty maintenance	—	—
Working parties	—	—
Unpreventable causes—		
Cyclones and exceptional storms	1	4
Floods	—	—
Lightning	1	3
Snow	—	—
Fires	—	—
Trees falling other than those caused by cyclones	—	—
Animals, birds, and dead snakes	6	56
Malice	10	99
Other unpreventable causes	2	7
Unknown causes	—	—
Faults in offices	3	9

21. *Wilful Damage.*—700 acts of wilful damage were reported during the year, being 179 more than last year They were distributed along the line as follows.—

Sub section.	Locality	No of Miles	No. of Acts, 1901-1902.	No. of Acts, 1902-1903
1st	Teheran to Soh (68 miles north of Ispahan)	194	126	184
2nd	Soh to Abadeh (180 miles north of Shiraz)	186	77	63
3rd	Abadeh to Shiraz	157	228	295
4th	Shiraz to Bushire	156	90	158

The amount claimed from the Persian Government for damages was Krans 16,456.* Of this sum Krans 50 were collected locally; the balance, Krans 16,406, has not yet been paid

General Remarks.

22 There is nothing of particular interest to report during the period under review.

TEHERAN-MESHED LINE

23 This line is the property of the Persian Government, but maintained by the Indo-European Telegraph Department. It is 568 miles in length. It worked satisfactorily during the year and was interrupted for only 85 hours

No events of a political nature affected this line during the year

CENTRAL PERSIA LINE.

24 The construction of the line from Kashan to the Eastern frontier of Persia under the terms of the Convention with Persia of 16th August 1901, was commenced on the 2nd December 1902 and 141 25 miles had been completed by 31st March 1903 No difficulty other than climatic interfered with the progress up to 25th March 1903, but afterwards the work was somewhat delayed owing to material not arriving from the coast in time

INDO-EUROPEAN TELEGRAPH DEPARTMENT.

STORES

25 The principal items of expenditure under this head have been as follows —

	R
Stores purchased in India	9,855
London stores, including freight, landing charges and exchange	6,07,014
Stores from other Departments	10,258

The following were the principal issues of stores, including adjustments to the end of March 1903 —

	R
Repairs to cable	43,917
Cable steamer	32,452
Jask-Muscat cable	22,822

The issues to repairs and renewals of land line and offices in the Persian Gulf Section amounted to R29,918, and in the Persian Section to R22,521

H A. KIRK,
Director-in-Chief.

INDIA OFFICE,
25th November 1903

* 3½ Krans = 1 Rupee approximately.

NOTE.—Under the columns headed "Gulf" are shown messages and words accounted for in Gulf Traffic Accounts.
Under the columns headed "Persia" are shown messages and words originating or terminating in Persia to or from Indo-European Company's line, which consequently do not appear in the Gulf Traffic Accounts.
* The "Times" agreement lapsed on 31st December 1901. From January 1902 messages to "Times," London, have been put under "Press" messages.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 a.m. on Thursday, the 10th March 1904, based on the India Daily Weather Reports of the period.

Unsettled conditions have continued to prevail over Northern India during the week under review.

The burst of heavy rain which was reported at the close of last week extended into the present period and on the 4th more or less general rain was reported from the West Himalayas, the West Gangetic Plain, the North-West Dry Area and the Central India Plateau, the largest amounts registered having been 3·25" at Cherat, 2·34" at Roorkee, 2·33" at Lahore, 2·07" at Chakrata and over one inch at Umballa, Ludhiana, Sialkot, Rawalpindi, Dehra Dun, Simla, Peshawar, Khushab and Dera Ismail Khan. On the following day the rainfall decreased both in amount and extent, though it continued moderately heavy on and near the North-West Himalayas. On the 6th the weather was fair over the greater part of the country but thundershowers were reported from Bengal, Orissa and Assam, and rain from a fresh storm had commenced in Sind. On the 7th the storm which lay off the Sind coast on the preceding day had reached the South Punjab and a fresh burst of rain, which continued during the 8th and 9th, occurred over North-West India. The largest amounts registered on these three days were as follows —on the 7th 0·68" at Dera Ismail Khan, on the 8th 4·00" at Cherat, 1·83" at Srinagar, 1·70" at Chakrata and Peshawar, 1·46" at Simla, 1·19" at Khushab and 1·11" at Murree, and on the 9th 1·56" at Chakrata, 1·10" at Lahore and 0·95" at Dehra and Sialkot. On the 10th the weather cleared in the north-west, but over North-East India both on the 9th and 10th the weather was disturbed with thunderstorms and nor'westers, and over one inch of rain in 24 hours was reported from Chittagong, Calcutta, Jessore, Dibrugarh, Burdwan, Ranchi and Hazaribagh during these two days.

At the close of the week the barometer was again falling in the north-west and there were signs of further unsettled weather in that region.

The rainfall table shows that the weather was actually or practically rainless during the week over the Peninsula and Burma, but that over nearly the whole of Northern India effective rain was received, the average actual fall ranging from about 3·38" in the West Himalayas to 0·20" in the Rajkot sub-division, to 0·22" in the Indore sub-division and to 0·23" in the Bahraich and Patna sub-divisions In nearly all the divisions and sub-divisions which received rain, the fall was largely in excess of the normal.

The seasonal rainfall is in excess in the Calcutta, Burdwan, Lahore, Ranchi, Jubbulpore and Calicut sub-divisions, and in the West Himalayas, North-West Dry Area, Baluchistan, Central India, Gujarat, South India and East Coast (South) division

Rainfall division with representative station.	Rainfall sub-division named after representative station.	Rainfall data for week ending on 10th March 1904.			Rainfall data from 4th December 1903 to 10th March 1904.			Seasonal percentage variation

Secretary to the Government of India.

SIMLA:
The 10th March 1904.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 5th March 1904.

Madras—The rainfall was practically *nil* during the week. Irrigation supplies are generally sufficient. Ploughing, sowing, and transplanting are in progress in parts The standing crops are generally fair Harvests continue with fair outturn. Pasture is scanty in parts of the Circars and the Deccan. Fodder is procurable The condition of cattle is good. The price of rice is stationary, prices of dry grains have risen in some districts

Bombay—There was slight rain during the week in parts of Sind, Ahmedabad, Kaira, Surat, Thana, and Khandesh and very slight in parts of the Panch Mahals, Broach, Colaba, Ahmednagar, Nasik, and Bijapur. The standing crops have been damaged by locusts in parts of Colaba, Ratnagiri, and Satara, by rats in parts of Satara and Bijapur, by blight in parts of Dharwar, by frost in parts of Ahmedabad, by hail in parts of Larkana and Hyderabad, and by recent rain in parts of Thar and Parkar, Ahmedabad, the Panch Mahals, Kaira, Broach, Wadhwan, and Baroda, and are generally in good condition elsewhere. Harvesting of autumn crops continues in parts of Dharwar and Canara, and threshing in parts of Nasik and Canara. Harvesting of spring crops has been completed in Poona and continues in parts of Gujarat, Ratnagiri, Khandesh, Nasik, Satara, Carnatic, and Rajkot Threshing continues in parts of Nasik, Ahmednagar, Poona, and Satara Cotton is slightly damaged by blight in parts of Dharwar, by rats and disease in parts of Bijapur, and by rain in parts of Ahmedabad, the Panch Mahals, Kaira, Surat, Wadhwan, and Baroda, and is generally in good condition in parts of Larkana, Broach, and Bijapur Picking is completed in Khandesh and is in progress in parts of Gujarat, Poona, Satara, the Carnatic, and Wadhwan. The fodder supply is sufficient. Agricultural stock and water-supply are generally sufficient Prices have fallen in two districts, risen in four districts, and are stationary elsewhere

Bengal.—Light showers are reported from parts of Lower Bengal, Orissa, and Chota Nagpur. Rain is needed in Murshidabad and Bhagalpur Slight damage to the spring crops has been caused by locusts in Pabna and by rain in Palamau. Prospects are otherwise good Harvesting of spring crops, pressing of sugarcane, and transplantation of summer rice continue Sowing of early rice and jute has commenced in places The price of common rice has risen in eight districts, has fallen in one, and is stationary in the remainder

United Provinces.—Rain has fallen in all but five districts and was accompanied by slight falls of hail in Moradabad, Bulandshahr, Aligarh, Shahjahanpur, Fatehpur, and the Bundelkhand districts Spring crops are maturing and are being harvested in places Fields are being prepared for extra crops and opium extracting continues The standing crops have been slightly damaged by hail, rain, and insects in nine districts Supplies are adequate, but fodder is reported to be scarce in Budaun and Gorakhpur Prices continue stationary.

Punjab.—There was good rain all over the province during the week The price of wheat is rising in Umballa and Mianwâli, and falling in Jullundur, Amritsar, Shahpur, Rawalpindi, and Mooltan. The prices of other food grains are fluctuating Pressing of sugarcane continues in Amritsar and Sialkot. Sowings of extra spring crops are going on in Delhi, Umballa, Ferozepore, Shahpur, Jullundur, Lahore, and Mooltan Ploughings and sowings of sugarcane and cotton are in progress in some districts. The condition of the standing crops is reported good to fair in all districts, except Delhi where the crops are said to be below average The recent rains have much benefited the standing crops The outturn of sugarcane is reported to be average in Sialkot. Crops have been slightly damaged by excessive rain in lowlying lands in parts of the Hissar, Lahore, and Amritsar districts Hail fell in Delhi and Amritsar but did no damage. Cattle are generally in good condition. Fodder is said to be sufficient in all districts except in Delhi and parts of Rawalpindi.

North-West Frontier Province.—Unusually heavy rain varying from half an inch to over four inches has fallen in all districts, which though beneficial for upland dry crops has it is feared caused much damage to lowlying crops. Stocks of food-grains and fodder are ample. Prices are falling.

Burma.—Slight rain fell in Mergui and Myitkyina in Upper Burma during the week Plucking of the later cotton in Thayetmyo is in progress. Sowing of dry weather paddy conti-

nues and the pulse and miscellaneous crops are being harvested. Hill side clearings have commenced. The price of paddy has fallen in Rangoon, Pegu, Tharrawaddy, Maubin, Bassein and Mandalay, and has risen in Henzada and Myitkyina.

Central Provinces.—Light to moderately heavy rain has fallen generally throughout the provinces, the falls being generally heaviest in the northern districts and the Nerbudda Valley. The damage from rain has generally been slight but high winds and hail storms swept over several districts. In most cases the damage has been confined to small groups of villages but it is reported to be great in the Hoshangabad and Sohagpur tahsils of Hoshangabad. In some cases the damage has not yet been ascertained. The abnormal rain and wind will cause more general damage if it continues. The recent rain has, however, done some good to late sown crops in the Saugor, Chanda, and Jubbulpore districts. The harvesting of spring crops is in progress but is retarded by rain in some districts. The prospects are generally favourable. Prices have risen in Narsinghpur and in the northern districts.

Assam.—There was slight rain in the Surma Valley, Upper Assam, Nowgong, the Naga Hills, and Manipur during the week. Rain is wanted for tea in Kamrup. Tea pruning, sugarcane pressing, ploughing for rice and jute, and gathering of mustard are in progress. The outturn of mustard and sugarcane is fair to good. Sowing of early rice has commenced in Cachar and in the Naga Hills. Fodder is insufficient in parts of Sylhet and in the hills. Water is insufficient in the hills. Prices—common rice—Silchar 19, Sylhet 18, Tezpur 17, Dhubri, Gauhati, and Nowgong 16, Sibsagar 14, and Dibrugarh 12 seers per rupee.

Mysore.—Prices are generally steady. The standing crops are in good condition. Gram, wheat, and sugarcane have been harvested in some parts. The prospects of the season are good. Cattle are healthy except in parts of Chitaldroog. Water and fodder are available.

Coorg.—Rainfall—seven cents. Prices of food grains are normal. Water and fodder are sufficient.

Hyderabad.—Rainfall—three cents. The spring harvest is in progress. Late rice is being weeded. The standing crop is in good condition. Lands are being prepared for autumn sowings. Prices—wheat 12, rice 11¼, and jowar 31¼ seers per halli rupee.

Rajputana.—There was rain in parts during the week. Agricultural operations are generally satisfactory. The condition of the standing crops and of cattle is generally good. Damage has, however, been caused by rain and hail storms in parts and there has been serious damage to the opium crop in Kotah. Fodder is ample. Prices are favourable.

Central India.—Rainfall was general during the week in Bhopal, Baghelkhand, Bundelkhand, Malwa, and Bhopawar and partial in Gwalior and Indore. Agricultural operations are in progress. Crops are good in Gwalior, Baghelkhand, Bundelkhand, and Bhopawar, fair in Indore, Bhopal, and Malwa, but have been slightly damaged by hail and rain in all agencies except Gwalior. Agricultural stock and pasturage are generally good. Prices are normal in Gwalior, Indore, and Baghelkhand, are rising in Bhopal and are steady elsewhere. Opium is good in Gwalior and fair in Indore, Bhopal, Malwa, and Bhopawar.

Kashmir.—The weather was generally rainy during the week. Snow fell on one day. Prices are stationary.

Jammu.—There was heavy rain accompanied with hail during the week. Prices are fluctuating. Wheat sells from 14 to 26, and maize 25 to 30 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. Crops have been injured in some villages by hail.

Nepal.—There was no rain during the week. The weather has been bright and cold. The price of rice is 6 seers for the rupee.

J. WILSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

SANITARY.

PLAGUE.

Offg. Under Secretary to the Govt. of India.

CALCUTTA the 10th March 1904.

GOVERNMENT OF INDIA.

STATISTICAL DEPARTMENT.

Calcutta, the 5th March 1904.

Second General Memorandum on the Wheat Crop of the Season 1903-04.

The reports indicate a considerable addition to the area under wheat. Compared with last year, the percentages of increase are about 6 in Bengal, 8 in the North-West Frontier, 11 in the Panjab, 20 in the Central Provinces, 104 in Berar, 69 in Hyderabad, and 9 in the Bombay Presidency (43 in Sind alone). The acreage in the United Provinces is not yet reported, but it was estimated in December to be 10 per cent in excess of last year's area In the matter of outturn the reports are least favourable from the United Provinces, where the divisional estimates range from 75 to 90 per cent of the normal with the possibility of deterioration from rust induced by cloudy and unsettled weather. The Bengal crop is good, being estimated at 94 per cent of the normal, and the anxiety regarding the prospects of the crop in the Punjab and the North-West Frontier should have been allayed by the recent burst of rain over the whole of North-Western and Central India. The crop in the Central Provinces has suffered somewhat from want of rain, and 107 per cent is the revised estimate in lieu of the anticipated bumper crop. The injury from the same cause is believed to be greater in Berar which has reduced its estimate to 90 per cent The outturn in Hyderabad is expected to be 87 per cent as compared with 85 per cent last year, and a fairly good outturn is anticipated in Sind and Bombay, except in parts of north Gujarat and the east Deccan where moisture was deficient and the Karnatak, where the crop has suffered from rust.

The provincial reports are summarised below

In the Panjab the area under wheat is now estimated to be 7,899,500 acres against 7,789,300 acres in the first forecast and 7,111,700 acres finally returned last year. The winter rains began in the last week of December when fair to good rain was received in all except the south-western and south-eastern districts. Light rain fell in all districts except those of the Delhi Division, in the first week of January, and this was followed by a general fall in the middle of the month Very good reports of the standing crop have been received from all districts except Hissar, Rohtak, Gurgaon, and Delhi, where unirrigated wheat has suffered from the failure of the winter rains Anxiety is felt over an increasing area owing to the absence of rain since the middle of January, and much depends on the rainfall of the next ten or fifteen days. (This was written on the 29th February, and since then there has been good rain over the whole of North-Western India)

In the North-West Frontier Province the area was estimated last November at about 792,000 acres, and it was stated that, if the winter rains fell before the middle of January, sowings would be considerably increased. Favourable rain fell in the last week of December and the first fortnight of January, with the result that the estimate made at the end of January last, shows 893,000 acres, or an increase of over 100,000 acres. The increase is mainly in unirrigated sowings The prospects of the crop are so far good on irrigated and fair on unirrigated lands, but more rain is required to bring the crop to maturity. (Abundant rain received since the 29th February when this was written)

In the United Provinces after the wheat crop was sown no rain fell till the middle of January, when more or less general rain was received, but in many districts the falls were local and too light to be of much use. The rain was followed by bright weather, and no damage from rust was apprehended at the time, but February, though rainless, has been exceptionally cloudy, and some of the reports just received from the selected zamindars indicate that the disease is now spreading in various parts of the provinces. White ants and drought are also reported to have caused some damage to the unirrigated crop in places. In the Benares, Gorakhpur and Fyzabad divisions the wheat crop is not at present estimated at more than 75 per cent of the normal. In Meerut and Rohilkhand an outturn of 80 per cent is expected, and in the remaining divisions of Agra, Allahabad and Lucknow of 90 per cent These estimates are made subject to the possibility of deterioration from rust if the weather continues cloudy. (Weather unsettled with some rain since the 26th February when this was written)

In Bengal the season has, on the whole, been favourable for this crop, as the soil had plenty of moisture during the sowing and also in the first part of the growing season, except in Bihar, where the crop has suffered somewhat from drought at the latter part of the season and the area planted this year is estimated at 1,501,200 acres, against 1,417,000 acres sown last year and the normal area of 1,499,000 acres.

According to the estimates of local officers, the outturn for the whole province works up to an 89 per cent crop, but considering that the failure of winter rice in many districts, specially in Bihar and Chota Nagpur, induced the cultivators to sow wheat in September

and early in October, the dry weather that has prevailed since December will not materially affect the normal outturn, and the general outturn may be raised to 94 per cent of a normal crop

In the Central Provinces the heavy and continuous rainfall during August and September interfered with the proper preparation of the land, and sowings were consequently delayed In the Berar districts conditions were more favourable Sowings, though late, were successfully made in a moist seed bed and germination was good Prospects looked very favourable, but the almost entire absence of winter showers prevented the realisation of the early promise of a bumper crop. The total area reported to be sown with wheat in the Central Provinces is 2,738,000 acres, which is 20 per cent larger than last year's area and slightly above the decennial average The estimate for Berar is 442,000 acres—104 per cent larger than last year's area, though 15 per cent less than the decennial average The crop, though put down under quite favourable circumstances, received very little rain after the sowings were completed, and hence suffered on light soils, but the loss has not been great. For the Central Provinces as a whole the yield works out to 107 per cent of a normal crop. In Berar the district estimates give 90 per cent of a normal crop owing to the damage caused by the absence of cold weather showers being somewhat greater than in the Central Provinces Taking both the Central Provinces and Berar together, the outturn works out to 104 per cent of normal

In the Bombay Presidency (including Sind) the total area in the British districts is estimated at about 1,700,000 acres up to 15th February, which is about 9 per cent over last year's area, but 12 per cent under the decennial average. In Sind alone, which accounts for 449,000 acres of this total, the area is 43 per cent greater than last year's area, though 3 per cent under the average Generally the acreage previous to the famine years is being slowly regained. Native States return 615,000 acres, which is 7 per cent over last year's area and 15 per cent in excess of the average The crop has suffered somewhat from deficient moisture in north Gujarat and east Deccan, and through rust in the Karnatak Elsewhere it is expected to yield a fairly good outturn

In the Nizam's Territory, including the *jagir* area, for which figures are being included this year for the first time, the total area sown with wheat during 1903-04 is 1,037,010 acres, which is 69 per cent in excess of the corrected area of the previous year, but the corresponding *jagir* areas for the previous year have not been reported in all cases, and returns have not been received from all *jagir* areas The area of the current year, excluding *jagirs*, of 805,000 acres is more than any year since the famine (1899-1900), and better than the scarcity year 1896-97, when the area was 772,990 acres. The estimated outturn of the current year's crop is 87 per cent of the normal, as against 85 per cent during the year previous In parts a full crop is expected, but in others, owing to heavy rains, the sowings had to be suspended, which has affected the estimated outturn.

J A. ROBERTSON,
Officiating Director General of Statistics.

J. WILSON,
Secretary to the Government of India

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

RAILWAY STATISTICS.

No 59 R Stat, dated Calcutta, the 8th March 1904

PROGRESS IN THE INTRODUCTION OF, AND RESULTS OF WORKING, THE AUTOMATIC VACUUM BRAKE ON RAILWAYS IN INDIA DURING THE SIX MONTHS ENDED THE 30th JUNE 1903, TABLES NOS I AND II.

Read again—

Government of India letter No 62 R Stat., dated the 19th October 1891

Government of India letter No. 424 R. Stat, dated the 21st October 1896.

Government of India letter No 225 R Stat., dated the 19th June 1903.

ORDER —Ordered, that tables Nos I and II be forwarded, for information, to the Local Governments and Administrations, and to the officers noted in the margin

The Governments of Madras, Bombay, Bengal the United Provinces of Agra and Oudh, the Punjab and Burma
The Honourable the Chief Commissioners of the Central Provinces and Assam
The Honourable the Resident at Hyderabad
The Honourable the Resident in Mysore
The Honourable the Agents to the Governor General for Rajputana, Central India and Baluchistan
The Honourable the Agent to the Governor General and Chief Commissioner of the North-West Frontier Province
The Consulting Engineers to the Government of India for Railways, Calcutta, Lucknow and Assam
The Managers, North Western, Oudh and Rohilkhand and Eastern Bengal State Railways

Ordered, also, that copies be forwarded for information of His Majesty's Government.

Further that this order, with the tables, be published in the Supplement to the *Gazette of India*

A. R JACOBSON,

Officiating Under Secretary to the Government of India

Documents accompanying

Tables Nos. I and II, showing the railways on which the automatic vacuum brake was in use, the number and proportion of rolling stock fitted with the brake, the progress made in fitting stock since the previous half-year, and the results of working the brake during the six months ended the 30th June 1903.

Enclosure to P. W. D. letter No 59 R. Stat. of 1904.

Progress in the introduction of, and results of working, the automatic vacuum brake on railways in India, during the six months ended the 30th June 1903, tables Nos. I and II.

TABLE No. I.

***Statement showing,** for the six months ended the 30th June 1903, the railways on which the automatic vacuum brake was in use, the mileage run by trains fitted with the brake, the number and proportion of rolling stock fitted, and the progress made in fitting stock since the previous half-year*

Railway (including lines worked)	Period	Locomotives			Coaching Vehicles (including all brake-vans)				Goods Vehicles (excluding brake-vans and cranes)				Number of miles run by trains fitted	Percentage of mileage run by trains fitted on total train mileage	Total number of instances in which the brake failed to act or caused delay in the working of trains	Number of miles run by trains fitted to each case of failure
		Fitted	Not fitted	Percentage of fitted on total.	Braked	Piped	Not fitted	Percentage of braked and piped on total	Braked	Piped	Not fitted	Percentage of braked and piped on total

(a) Excluding locomotives and vehicles in use on lines under construction
(b) Brakes not brought into use.
(c) The detailed figures in columns 4, 8 and 12 do not work up to the totals, as the latter represent the totals of all 3′ 3⅜″ gauge railways.
(d) Excluding the Thaton-Duyanzaik railway for which no information is available
(e) Calculated on the train mileage excluding that run on the Parlakimedi, Powayan, Thaton-Duyanzaik and Dandot Light railways for which information is not available

TABLE No. II.

Statement showing, for the six months ended the 30th June 1903, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains.

1	2	3	4	5
Railway	Name or description of brakes which failed or caused delay in the instances specified in column 4	Date of failure	Instances under the three following heads, separately, of — (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent , (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required ; (iii) Delay in the working of trains in consequence of defects in or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material	Number of miles run by trains fitted with the automatic vacuum brake
5' 6" GAUGE				
East Indian	Vacuum automatic		(i) and (ii)—*Nil*	See page 509.
		7th January 1903	(iii) Failure of material —No 11 up passenger train lost 48 minutes between Cawnpore and Tundla stations, due to a defect in the train pipe	
		9th January 1903	(iii) Failure of material.—An up troop special train detained 1 hour and 5 minutes at Shooraphuli station, due to a defect in the brake of a Bengal-Nágpur railway bogie carriage.	
		26th January 1903	(iii) Failure of material —An up special train detained 20 minutes at Hooghly station, due to a defect in the train pipe.	
		30th January 1903.	(iii) Failure of material —No. 19 up passenger train lost 26 minutes between Burdwan and Rampore Haut stations, due to a defect in the pipe of a horse box.	
		15th February 1903	(iii) Failure of material —No 5 up passenger train lost 28 minutes between Mokameh and Buxar stations, due to some defect in the train pipe.	
		26th March 1903	(iii) Neglect of servants.—No 3 up Bombay mail train detained 17 minutes at Simulia Block Hut station, due to the brakes not releasing correctly owing to the presence of cotton waste in the small ejector.	
		27th March 1903	(iii) Failure of material —No. 7 up passenger train detained 38 minutes at Howrah station, due to a slight crack in the train pipe of a cattle wagon.	
		5th April 1903 .	(iii) Failure of machinery.—No 19 up passenger train lost 58 minutes between Rampore Haut and Sahebgunge stations, due to a leak in the vacuum apparatus of a brake van	
		11th April 1903	(iii) Neglect of servants —No. 11 up passenger train detained 27 minutes at Bhadan station in locating defect and fixing rubber washers in the hose pipe couplings of a carriage	
		13th April 1903 .	(iii) Failure of machinery —No. 4 down Bombay mail train lost 15 minutes between Jubbulpore and Sihora Road stations, due to a leak from the train pipe nut immediately below the ejector	
		5th May 1903 .	(iii) Failure of material.—No. 8 down passenger train lost 25 minutes between Bindki Road and Sirathu stations, due to brakes binding on the wheels, owing to a defect in the release valve of a second class carriage.	
		7th May 1903 .	(iii) Failure of material.—No. 5 up passenger train detained 25 minutes at Bindki Road station, due to the opening out of the hose pipes between two carriages.	

TABLE No. II—*contd.*

***Statement showing, for the six months ended the 30th June 1903, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains*—contd.**

1	2	3	4	5
Railway	Name or description of brakes which failed or caused delay in the instances specified in column 4	Date of failure	Instances under the three following heads, separately, of — (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required; (iii) Delay in the working of trains in consequence of defects in or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material	Number of miles run by trains fitted with the automatic vacuum brake
5' 6" GAUGE—*contd.*				
East Indian—*concld.*	Vacuum automatic	22nd May 1903	(iii) Failure of machinery —No 10 down loop mail train lost 15 minutes between Dumra and Jamalpur stations, due to leaks in the pistons of 3 carriages	2,562,361
		26th May 1903 .	(iii) Failure of material —No 12 down passenger train detained 15 minutes between Moodnncutta Block Hut and Karmatar stations, due to a break in the train pipe of a wagon	
		26th May 1903	(iii) Neglect of servants —No 12 down passenger train detained 10 minutes at Khaga and 20 minutes at the level crossing outside the distant signal at Allahabad station, due to the opening out of the hose coupling between 2 carriages	
		28th May 1903	(iii) Failure of machinery —No 7 up passenger train lost 65 minutes between Manauri and Bharwari stations, due to the break-van blocks binding on the wheels.	
		29th May 1903	(iii) Neglect of servants —No 9 up loop mail train detained 15 minutes at Nalhati station, due to a piece of jute having been allowed to block the engine train pipe	
		17th June 1903 .	(iii) Neglect of servants —No 12 down passenger train detained 10 minutes at Asansol station, due to the displacement of the hose pipe of a third class carriage	
		28th June 1903 .	(iii) Inexperience of servants —No 3 up Bombay mail train detained 10 minutes at Howrah station, in locating a leak in the train pipe and 5 minutes were lost between Howrah and Asansol stations, due to a defect in the train pipe.	
		29th June 1903	(iii) Neglect of servants —No. 6 down passenger train lost 16 minutes between Manaupur and Madhupur stations, due to the connection with the indicator in the guard's brake-van having slackened back	
Eastern Bengal	Vacuum automatic	...	(i) and (ii)—*Nil*	See page 510
		14th February 1903.	(iii) Failure of material.—No 33 up passenger train started 22 minutes late from Sealdah station, due to a leak in the train pipe between the engine and tender.	
		19th March 1903	(iii) Failure of material.—No. 10 down local train detained 5 minutes at Tittaghur station, due to a leak in the pipe of a third class carriage.	
		1st April 1903 .	(iii) Failure of material.—No. 29 up local train detained 10 minutes at Sodepore station in releasing vacuum, and worked non-vacuum from Tittaghur to Naihâti station, due to a leak in the train pipe	
		7th April 1903 .	(iii) Neglect of servants.—No. 21 up Darjeeling mail train lost 35 minutes between Sealdah and Barrackpore stations, due to wet steam having been allowed to pass into the ejector.	

TABLE No. II—*contd.*

Statement showing, for the six months ended the 30th June 1903, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—contd.

1	2	3	4	5
Railway	Name or description of brakes which failed or caused delay in the instances specified in column 4	Date of failure	Instances under the three following heads, separately, of:— (i) Failure or partial failure to act when required in case of an accident to a train or a collision between trains being imminent; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required; (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material	Number of miles run by trains fitted with the automatic vacuum brake
5′ 6″ GAUGE				
Eastern Bengal—*concld*	Vacuum automatic	22nd April 1903	(iii) Failure of material No 178 down passenger train worked non-vacuum from Beliaghata to Budge-Budge station, due to a defect in the train pipe	429,834
		22nd April 1903	(iii) Failure of material.—No 114 down passenger train worked non-vacuum from Garia to Baruipur station, due to a leak in the pipe of a brake van	
		18th June 1903	(iii) Neglect of servants —No 8 down mail train detained 5 minutes at Poradaha station, due to imperfect coupling of the universal hose pipe between a fish van and the brake van.	
		19th June 1903	(iii) Failure of material —No 119 up mail train worked non-vacuum between Sonarpur and Beliaghata stations, due to a leak in the train pipe of a third class carriage	
		29th June 1903	(iii) Failure of material —No 36 down mail train detained 10 minutes at Chooadangah station, due to the hose pipe of a composite carriage getting torn below the clamp	
Bengal-Nágpur	Vacuum automatic		(i) and (ii)—*Nil*	
		2nd February 1903	(iii) Failure of machinery —No 15 down passenger train detained 8 minutes at Kalimati station for locating brakes in the pistons of two carriages	See page 511.
		5th February 1903	(iii) Failure of material —No 52 up Panchkura local train detained 28 minutes at Bauria and worked non-vacuum to Machéda station, due to the pipe of the engine having burst in several places	
		6th February 1903	(iii) Failure of machinery —An up inspection special train worked non-vacuum from Champa to Bilaspur station, due to the driver not being able to maintain steam on account of the continual choking of tubes.	
		8th February 1903	(iii) Failure of machinery —No 15 down passenger train detained 5 minutes at Ghatsila station, due to leaks in the piston rubber neck rings and hose couplings of some carriages.	
		13th February 1903.	(iii) Neglect of servants —No. 4 up mail train lost 19 minutes between Khurda Road and mile 469, due to a defect in the vacuum The train worked non-vacuum from mile 469 to Waltair.	
		25th February 1903.	(iii) Failure of machinery —No. 5 down passenger train lost 5 minutes between Khurda Road and Bhubaneswar stations, due to the piston of a carriage truck having jammed in the cylinder	
		5th March 1903.	(iii) Failure of machinery.—No. 4 up mail train detained 5 minutes at Khargpur station distant signal, due to the displacement of the hose pipe of a rear brake van	
		23rd March 1903	(iii) Failure of material —No 4 up mail train detained 16 minutes at Khargpur station, due to the bursting of the train pipe.	

TABLE No. II—*contd.*

***Statement showing, for the six months ended the 30th June 1903, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains*—contd.**

1	2	3	4	5
Railway	Name or description of brakes which failed or caused delay in the instances specified in column 4	Date of failure	Instances under the three following heads, separately, of:— (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent, (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required, (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake, distinguishing whether they arise from neglect or inexperience of servants, or failure of machinery or material	Number of miles run by trains fitted with the automatic vacuum brake.
5' 6' GAUGE—*contd.*				
Bengal-Nágpur—*concld.*	Vacuum automatic	28th March 1903	(iii) Failure of machinery.—No. 12 up passenger train detained 18 minutes at Surdiah station, due to leaks in 2 third class carriages. The vacuum was destroyed and the train worked non-vacuum to Sini station	686,375
		12th May 1903 .	(iii) Failure of machinery.—No. 1 down mail train detained 10 minutes at Gangajhiri station for releasing carriage brakes, due to failure of engine vacuum	
		14th May 1903 .	(iii) Failure of machinery.—No. 1 down mail train detained 4 minutes at Mehdibagh station, and 7 minutes at Kamptee station distant signal, due to inability to create vacuum in consequence of the brake blocks of 3 carriages gripping the wheels	
		31st May 1903 .	(iii) Neglect of servants.—No. 9 down Macháda local train detained 10 minutes at Machá-da station, due to the washer of the hose pipe having been allowed to double up while coupling	
		29th June 1903	(iii) Failure of machinery.—No. 10 up Panch-kura local train lost 16 minutes between Ulubaria and Bagnan stations in creating vacuum due to a piece of waste having adhered to the train pipe	
		30th June 1903	(iii) Failure of machinery.—No. 12 up passenger train detained 27 minutes at Gidni station, due to the valve in the front brake van having got off its face owing to a heavy storm and rain	
Oudh and Rohilkhand	Vacuum automatic	.	(i) and (ii)—*Nil*	
		15th January 1903	(iii) Failure of material.—No. 6 down passenger train detained 25 minutes at mile 368, due to the piston packing rings of 2 third class carriages having perished.	See page 512.
		24th January 1903.	(iii) Neglect of servants.—No. 6 down passenger train detained 17 minutes at Shahjahan-pur station, due to a second class carriage being deficient of a hose pipe rubber ring.	
		26th January 1903.	(iii) Failure of material.—No. 5 up passenger train detained 23 minutes at Fatehganj station, due to the vacuum piston of the engine blowing	
		28th January 1903.	(iii) Failure of material.—No. 5 up passenger train detained 25 minutes at mile 421, due to the piston rubber bushes of two brake vans and 5 third class carriages blowing.	
		18th March 1903	(iii) Neglect of servants.—No. 5 up passenger train detained 8 minutes at Bareilly station, due to a horse-box being deficient of both rubber washers.	
		24th March 1903	(iii) Neglect of servants.—No. 5 up passenger train detained 15 minutes at Lucknow station, due to the ball valve release lever and a spindle of a third class carriage having jammed with dust.	

TABLE No. II—*contd.*

Statement showing, for the six months ended the 30th June 1903, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—contd.

1	2	3	4	5
Railway	Name or description of brake which failed or caused delay in the instances specified in column 4	Date of failure	Instances under the three following heads, separately, of — (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent, (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required, (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake; distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material	Number of miles run by trains fitted with the automatic vacuum brake.
5' 6' GAUGE—*contd*				
Oudh and Rohilkhand—*concld*	Vacuum automatic	26th March 1903	(iii) Failure of material.—No. 5 up passenger train detained 10 minutes at Rampur station, due to the pipe connecting the engine cylinder with the train pipe having got damaged.	806,133
		1st April 1903	(iii) Neglect of servants.—No 5 up passenger train lost 20 minutes between Bareilly and Bhitania stations, due to the universal coupling rubber washer of a North Western railway horse box being deficient	
		19th April 1903	(iii) Neglect of servants.—No 150 down passenger train on Delhi branch detained 9 minutes at Bagsar station, due to the displacement of the dummy carrier of a 1st class carriage having prevented the coupling fitting tight.	
		11th May 1903	(iii) Neglect of servants.—No 6 down passenger train detained 15 minutes at Shahjahanpur station, due to the universal hose pipe coupling of a reserved carriage being deficient of rubber washer.	
		14th May 1903	(iii) Failure of material.—No 5 up passenger train detained 10 minutes at Moradabad station, due to the piston rod packing of a third class carriage and the brake-van drawing air.	
		14th May 1903	(iii) Neglect of servants.—No 10 down passenger train detained 10 minutes at Lucknow station, due to leaks in the vacuum diaphragms of 2 third class carriages	
North Western	Vacuum automatic	...	(i) and (ii)—*Nil*	
		24th January 1903	(iii) Failure of material.—No 10 down passenger train detained 10 minutes at Bhatinda station, due to the piston rod packing ring of a third class carriage drawing air	See page 511
		1st February 1903.	(iii) Failure of material.—No 8 down mail train detained 10 minutes at Meting station, due to a leak in the T joint of the train pipe of a third class carriage, and a hole in the hose pipe rubber washer of a second class carriage	
		22nd February 1903.	(iii) Failure of material.—No. 2 down mail train detained 28 minutes at Saharanpur station, due to a defect in the universal hose pipe of a third class carriage.	
		22nd February 1903.	(iii) Failure of material.—No. 1 up mail train detained 40 minutes at Saharanpur station, due to the universal hose pipe of an Oudh and Rohilkhand railway brake-van having perished.	
		28th February 1903.	(iii) Failure of material.—No. 1 up mail train detained 15 minutes at Saharanpur station, due to a defect in the hose pipe of an Oudh and Rohilkhand railway brake van.	

TABLE No. II—*contd.*

Statement showing, for the six months ended the 30th June 1903, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—contd.

1	2	3	4	5
Railway	Name or description of brakes which failed or caused delay in the instances specified in column 4.	Date of failure	Instances under the three following heads, separately, of:— (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent, (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required, (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material	Number of miles run by trains fitted with the automatic vacuum brake
5' 6" GAUGE—*contd.*				
North Western—*concld.*	Vacuum automatic	28th May 1903	(iii) Neglect of servants.—No. 12 down passenger train detained 5 minutes at Ghaziabad station, due to adhesion of the vacuum piston of the engine.	1,538,845
		12th June 1903	(iii) Accidental.—No 8 down mail train detained 10 minutes at Khairpur and 14 minutes at Setharja stations in releasing brake, due to the engine ball valve hose pipe getting burnt by live coal from the ash pan coming in contact with the hose pipe	
		17th June 1903	(iii) Neglect of servants.—No 17 up mixed train detained 13 minutes at Meerut Cantonment station, due to the universal hose pipe of 2 second class carriages being deficient of washers.	
Great Indian Peninsula	Vacuum automatic	...	(i) and (ii)—*Nil.*	
		3rd January 1903	(iii) Failure of material.—No 16 up passenger train lost 21 minutes and worked non-vacuum between Talbahat and Bina stations, due to a leak in a third class carriage and in the train pipe of the engine	See page 51L
		21st January 1903.	(iii) Failure of machinery.—The driver of No 14 up passenger train was unable to maintain sufficient vacuum between Bhopal and Misrod, due to a leak caused by the boiler being dirty	
		27th January 1903.	(iii) Neglect of servants.—No 16 up passenger train detained 16 minutes at Bina station, to replace a Clayton washer on a third class carriage	
		31st January 1903	(iii) Failure of material.—No. 14 up passenger train lost 15 minutes on the journey and worked non-automatic from Saiyan to Jhansi station, due to a leak in a Clayton coupling rubber washer of a second class carriage	
		10th February 1903.	(iii) Failure of material.—No. 5 down mail train lost 11 minutes between Hoshangabad and Bhopal stations, due to the auxiliary copper pipe of the engine breaking.	
		25th February 1903.	(iii) Failure of machinery.—No. 15 down passenger train lost 10 minutes at Byculla and Kalyan stations, due to the pipe of the rear brake-van rising off the plug.	
		26th March 1903	(iii) Failure of material.—No. 30 up passenger train lost 17 minutes between Shahabad and Sholapur stations, due to a leak through the Clayton coupling washer of a third class carriage	
		8th April 1903	(iii) Neglect of servants.—No. 16 up passenger train detained 47 minutes at Agra Fort station, due to the hose pipe of three carriages being deficient of Clayton coupling washers.	

TABLE No. 11—*contd.*

***Statement showing, for the six months ended the 30th June 1903, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains*—contd.**

1	2	3	4	5
Railway.	Name or description of brakes which failed or caused delay in the instances specified in column 4.	Date of failure	Instances under the three following heads separately, of — (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required; (iii) Delay in the working of trains in consequence of defects in, or improper action of the brake; distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material.	Number of miles run by trains fitted with the automatic vacuum brake.
5′ 6″ GAUGE—*contd*				
Great Indian Peninsula—*concld*	Vacuum automatic.	29th April 1903.	(iii) Failure of machinery.—No 28 up passenger train worked non-automatic from Lakh to Dhond station, due to a bolt and washer of the clappet valve metal disc having worked loose and dropped down the train pipe into the drip trap, and the driver being unable to maintain sufficient vacuum	2,754,875
		25th May 1903	(iii) Failure of material.—No. 2 up mail train detained 5 minutes between Ghat Kopar and Bhandup due to displacement of the flexible pipe of the rear brake-van.	
		27th June 1903.	(iii) Neglect of servants.—No 110 up local train detained 5 minutes at Sion station, due to a nut having jammed the clappet valve.	
Bombay, Baroda and Central India.	Vacuum automatic.	.	(i) and (ii)—*Nil*	
		10th January 1903	(iii) Neglect of servants.—No 8 up ordinary train lost 4 minutes at Barejadi, 6 minutes between Barejadi and Mehmadabad and 15 minutes at Anand station in releasing and adjusting the brake blocks of a third class carriage which were getting jammed with the wheels	See page 515.
		29th January 1903	(iii) Failure of material.—No 4 up ordinary train lost 13 minutes at Goregaon station, due to the breakage of the train connection pipe of the vacuum cylinder of a bogie carriage, and 10 minutes at Bandra station, due to the blocks having jammed the rear wheels of a carriage	
		24th February 1903.	(iii) Failure of material.—The driver of No 8 up ordinary train could not maintain vacuum, due to the rubber pipe connection on a saloon carriage having torn.	
		27th March 1903	(iii) Neglect of servants.—No 169 down local train lost 3 minutes at Grant Road station, the driver not being able to create vacuum, owing to one of the hose coupling pipes between two carriages becoming slack from improper coupling.	
		7th April 1903	(iii) Neglect of servants.—No 4 up ordinary train lost 16 minutes between Surat and Navsari stations, due to skidding of the wheels of a third class carriage from imperfect fitting of brake blocks	
		27th April 1903.	(iii) Failure of material.—No 5 down ordinary train detained 16 minutes at Sayan station owing to a leak in the train pipe.	
		13th May 1903.	(iii) Failure of machinery.—No. 8 up ordinary train lost 35 minutes between Palghar and Virar stations, due to the brake blocks of the rear wheels on a bogie third class carriage having jammed on the wheels	
		20th May 1903.	(iii) Neglect of servants.—No. 2 up mail train detained 5 minutes at Bandra station owing to deficiency of a rubber washer in the back flexible coupling pipe of a carriage.	

TABLE No. II—*contd.*

Statement showing, for the six months ended the 30th June 1903, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—contd.

1	2	3	4	5
Railway	Name or description of brakes which failed or caused delay in the instances specified in column 4.	Date of failure.	Instances under the three following heads, separately, of:— (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required, (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material	Number of miles run by trains fitted with the automatic vacuum brake.
5′ 6″ GAUGE—*concld.*				
Bombay, Baroda and Central India—*concld.*	Vacuum automatic	21st May 1903 .	(iii) Failure of material.—No 1 down mail train detained 10 minutes at Bandra station, due to the brake blocks of the brake van having jammed on the wheels owing to the suspension link from sole bar to the brake block having bent.	730,844
		25th May 1903 .	(iii) Failure of material.—No 7 down ordinary train detained 10 minutes at Vasad station, due to the brake blocks of 2 third class carriages having jammed owing to a leak through the piston packings	
		3rd June 1903 .	(iii) Neglect of servants.—No 14 up passenger train detained 12 minutes at Amalgarh station, to release the brake blocks of a carriage which were getting jammed.	
		16th June 1903	(iii) Failure of material.—No 5 down ordinary train detained 8 minutes at Broach station to release the brake blocks of a saloon carriage which got jammed owing to the brake pull rod being out of order.	
		22nd June 1903.	(iii) Neglect of servants.—No 1 down mail train lost 23 minutes between Nulla-Sopara and Virar stations, due to the vacuum connecting pipe close to the carriage pipe having parted owing to the coupling being left slack.	
		22nd June 1903.	(iii) Failure of machinery.—No. 166 up local train detained 15 minutes at Bandra station, due to the vacuum disc being cut and the steam disc leaking	
Madras . . .	Vacuum automatic	...	(i) and (ii)—*Nil.*	644,944
		16th January 1903.	(iii) Failure of machinery.—No. 14 up mail train worked non-vacuum from Rayalcheruvu station to destination, due to the train and chamber pipe of the engine drawing air.	
		15th February 1903.	(iii) Failure of machinery.—No 2 up mail train worked non-vacuum from Pithápuram to Rajahmundry station and lost 27 minutes, due to the rings of both the engine and tender pistons being worn.	
		27th March 1903	(iii) Failure of machinery.—No. 1 down train detained 10 minutes at Tada station and worked non-vacuum to destination, due to a leak in the joint of the train pipe.	
		22nd May 1903 .	(iii) Failure of machinery.—No. 7 down passenger train detained 7 minutes at Avadi station and worked non-vacuum to destination, due to the breakage of the universal pipe horns between the brake-van and the engine.	
3′ 3⅜″ GAUGE.				
Eastern Bengal .	Vacuum automatic	....	(i) and (ii)—*Nil.*	
		1st January 1903	(iii) Failure of material.—No 75 up mail train detained 4 minutes at Sonaili station, and 12 minutes between Sonaili and Barsoi junction stations, due to a leak in the coupling pipe of a luggage van.	See page 518

TABLE No. II—*contd.*

***Statement showing, for the six months ended the 30th June 1903, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains*—contd**

1	2	3	4	5
Railway	Name or description of brakes which failed or caused delay in the instances specified in column 4	Date of failure	Instances, under the three following heads, separately, of — (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent, (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required, (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material	Number of miles run by trains fitted with the automatic vacuum brake
3' 3⅜" GAUGE—*contd* Eastern Bengal—*contd.*	Vacuum automatic	8th January 1903	(iii) Failure of material —No 22 down mail train detained 7 minutes at Chorkai station, in creating vacuum due to the coupling lug of a composite carriage breaking	See page 518
		12th January 1903	(iii) Failure of material.—No 22 down mail train detained 5 minutes outside the south distant signal of Parbatipur junction, due to the gear of a composite carriage breaking	
		18th January 1903.	(iii) Failure of material —No 15 up passenger train lost 9 minutes between Parbatipur junction and Shampur stations, due to the train pipe of the brake van blowing in consequence of the twisting of a rubber washer	
		19th and 20th January 1903	(iii) Failure of machinery.—No 15 up passenger train lost 10 minutes between Sara and Santahar Junction stations, and 15 minutes at Santahar Junction station, due to non-release of the brake of a third class carriage.	
		20th and 21st January 1903	(iii) Failure of material —No. 16 down passenger train detained 10 minutes at Parbatipur junction station, and 15 minutes at Nattore station, due to a leak in the train pipe of a third class carriage.	
		27th January 1903	(iii) Neglect of servants.—No. 75 up mail train lost 17 minutes between Parbatipur and Badarganj stations, due to the coupling pipe of a fish van not having been coupled up.	
		2nd February 1903.	(iii) Failure of material —No 75 up mail train detained 4 minutes at Sonaili station, due to a leak in the coupling pipe of a carriage.	
		3rd February 1903.	(iii) Failure of material —No 75 up mail train detained 28 minutes at Kaunia station, due to a leak in the coupling pipe of a carriage	
		3rd February 1903.	(iii) Failure of material.—No. 72 down mail train detained 15 minutes at Lalmanirhat station, due to a leak in the train pipe coupling of a third class carriage.	
		9th February 1903.	(iii) Failure of machinery —No. 21 up mail train detained 10 minutes at Santahar station, due to the non-release of the brake of a third class carriage.	
		13th February 1903.	(iii) Failure of material —No 15 up passenger train detained 30 minutes at Sara, 18 minutes at Atrai, 7 minutes between Atrai and Raninagar and 8 minutes at Raninagar, due to a defect in the engine vacuum pipe.	
		3rd March 1903.	(iii) Failure of material —No. 15 up passenger train detained 12 minutes at Badarganj station, due to some defect in the pipe of a composite carriage.	
		5th March 1903.	(iii) Failure of material —No. 72 down mail train detained 18 minutes at Lalmanirhat station, due to the train pipe of a saloon carriage being out of order.	

TABLE No. II—*contd.*

***Statement showing, for the six months ended the 30th June 1903, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains*—contd.**

1	2	3	4	5
Railway	Name or description of brakes which failed or caused delay in the instances specified in column 4.	Date of failure.	Instances under the three following heads, separately, of:— (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent, (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required; (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material	Number of miles run by trains fitted with the automatic vacuum brake
3' 3⅜" GAUGE—*contd.*				
Eastern Bengal—*contd.*	Vacuum automatic	14th March 1903	(iii) Failure of material.—No. 72 down mail train detained 3 minutes at Lalmanirhat station, due to some defect in the pipe of a carriage.	See page 518.
		17th March 1903	(iii) Failure of material.—No 16 down passenger train lost 50 minutes at Parbatipur station, due to the blowing of five 3rd class carriages on account of some defect in the ball valve diaphragm and piston rings.	
		17th March 1903	(iii) Failure of material.—No 72 down mail train detained 19 minutes at Kaunia station, due to a bogie 3rd class carriage drawing air through the top valve alarm	
		19th March 1903	(iii) Failure of material.—No 72 down mail train detained 5 minutes at Lalmanirhat station, due to some defect in the vacuum pipe of a carriage which prevented the creation of vacuum	
		21st March 1903	(iii) Neglect of servants.—No 75 up mail train detained 8 minutes at Manihari station, due to the train pipe coupling of a 3rd class carriage coming out when pulled ahead from the hose in consequence of the coupling pin not having been put on to the tender	
		23rd March 1903	(iii) Failure of material.—No 16 down passenger train detained 20 minutes at Parbatipur station in creating vacuum, due to the ball valve diaphragm of a saloon carriage blowing.	
		1st April 1903	(iii) Neglect of servants.—No. 22 down mail train detained 5 minutes at Saidpur station, due to the vacuum hose coupling pipe between a composite and a 2nd class carriage not having been coupled up	
		13th April 1903	(iii) Inexperience of servants.—No. 75 up mail train detained 3 minutes at Rungpore station, due to the driver having failed to create vacuum	
		14th April 1903	(iii) Failure of material.—No 15 up passenger train detained 10 minutes at Sara station, due to a defect in the brake of the train.	
		20th April 1903	(iii) Failure of material.—No 23 down mail train detained 8 minutes at Jalpaiguri station, due to a leak in the train pipe of a carriage.	
		22nd April 1903	(iii) Failure of material.—No 72 down mail train worked non-vacuum from Katihar to Manihari Ghat station, due to some defect in the pipe of the engine.	
		29th April 1903	(iii) Inexperience of servants.—No 72 down mail train detained 7 minutes at Mogalhat, due to the staff being unable to couple up the train pipe of a carriage.	
		9th May 1903	(iii) Neglect of servants.—No 72 down mail train detained 8 minutes at Golokganj station, due to the train pipe of a saloon carriage not having been coupled.	

TABLE No. II—*contd.*

***Statement showing, for the six months ended the 30th June 1903, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains*—contd.**

1	2	3	4	5
Railway	Name or description of brakes which failed or caused delay in the instances specified in column 4	Date of failure	Instances under the three following heads, separately, of :— (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent ; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required ; (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material	Number of miles run by trains fitted with the automatic vacuum brake.
3' 3⅜" GAUGE—*contd.*				
Eastern Bengal—*concld*	Vacuum automatic	14th May 1903	(iii) Inexperience of servants —No 72 down mail train detained 15 minutes at Mogalhat station, due to the staff not being able to uncouple the train pipe when attaching a saloon carriage to the train.	191,920
		23rd May 1903	(iii) Failure of material —No. 16 down passenger train lost 33 minutes on the journey from Lalmanirhat to Shampur station, due to the brake piston of the brake van drawing air and preventing the maintenance of the vacuum	
		30th May 1903	(iii) Failure of machinery —No 16 down passenger train detained 20 minutes at Parbatipur station, due to some defect in the brake of an intermediate class carriage.	
		1st June 1903	(iii) Failure of machinery —No 15 up passenger train detained 4 minutes at Badarganj station, due to the jamming of a piston and non-release of blocks	
		9th June 1903	(iii) Neglect of servants —No 75 up mail train detained 7 minutes at Parsoi Junction station, due to the pipe of the brake van drawing air in consequence of its not having been properly fixed on the dummy plug.	
		16th June 1903	(iii) Failure of machinery —No. 15 up passenger train detained 5 minutes at Shampur station, due to non-release of the brake block of a 3rd class carriage.	
		24th June 1903	(iii) Neglect of servants —No 15 up passenger train lost 8 minutes between Parbatipur and Badarganj stations, and 5 minutes at Badarganj due to the brake block of the brake van being hard on in consequence of some jute having got into the passage in the ball valve	
		29th June 1903	(iii) Failure of machinery.—No. 15 up passenger train lost 12 minutes between Parbatipur and Shampur stations, due to the non-release of the brake block of the tender.	
South Indian	Vacuum automatic	...	(i) and (ii)—*Nil.*	316,366
		13th May 1903	(iii) Neglect of servants.—No 24 fast mail train detained 3 minutes at mile 235—16, due to careless application of the brake.	
		27th May 1903	(iii) Neglect of servants.—No 38 mail train detained 15 minutes at Trichinopoly station, due to careless application of the brake.	
Burma	Vacuum automatic	......	(i) and (ii)—*Nil.*	See page 519
		1st January 1903	(iii) Neglect of servants.—No. 73 up local train detained 20 minutes at Rangoon station owing to the necessity for changing the engine at the last moment, the trunnion of cylinder of the engine being found broken.	

TABLE No. II.—*concld.*

Statement showing, for the six months ended the 30th June 1903, all cases in which the automatic vacuum brake failed to act, when required to be brought into action, or caused delay in the working of trains—concld.

1	2	3	4	5
Railway	Name or description of brakes which failed or caused delay in the instances specified in column 4.	Date of failure.	Instances under the three following heads, separately, of — (i) Failure or partial failure to act when required in case of an accident to a train, or a collision between trains being imminent; (ii) Failure or partial failure to act under ordinary circumstances to stop a train when required; (iii) Delay in the working of trains in consequence of defects in, or improper action of, the brake, distinguishing whether they arose from neglect or inexperience of servants, or failure of machinery or material	Number of miles run by trains fitted with the automatic vacuum brake
3' 3⅜" GAUGE—*concld.* Burma—*concld.*	Vacuum automatic	4th January 1903	(iii) Neglect of servants.—No. 1 up express train worked non-vacuum from Pyu to Toungoo station, due to cinders being sucked into the ejector and the valve through the hose pipe being off the dummy whilst attempting to create vacuum.	181,074
		5th January 1903	(iii) Failure of material.—No. 4 down express train lost 47 minutes and worked non vacuum between Shwemyo and Toungoo stations, due to a perished India rubber coupling washer drawing air.	
		24th January 1903	(iii) Neglect of servants.—No. 3 up mail train lost 30 minutes between Nyaung'ebin and Tawwi stations, due to a small piece of cinder being sucked into the cone of the small ejector of the engine.	
		25th January 1903.	(iii) Neglect of servants.—No. 2 down mail train detained 19 minutes at Toungoo station, and worked non-vacuum to Pyu station, due to the driver having failed to put on the barometric valve cover, after removal to clean it.	
		28th February 1903.	(iii) Neglect of servants.—No. 1 up express train lost 20 minutes between Kywebwe and Oktwin stations, due to failure of vacuum on account of cinders having been sucked in through the train pipe when the engine was uncoupled at some road side station for water.	
		23rd March 1903	(iii) Failure of material.—No. 69 up local train worked non-vacuum on the return journey from Insein station, due to cracking of the train elbow pipe under the frame which prevented the creation of the necessary vacuum.	
		30th March 1903	(iii) Failure of material.—No. 3 up mail train lost 9 minutes between Pyuntaza and Toungoo stations, due to a leak in the piston rod packing ring of a coaching vehicle.	
		3rd April 1903 .	(iii) Failure of material.—No. 4 down express train lost 9 minutes, due to failure of a universal coupling washer of a coaching vehicle.	
		18th May 1903 .	(iii) Neglect of servants.—No. 1 up express train lost 20 minutes, due to the hose pipe of the engine having got burnt.	
		20th May 1903 .	(iii) Failure of material.—No. 2 down mail train lost 10 minutes, due to a rent in the vacuum chamber hose pipe.	
		22nd May 1903 .	(iii) Failure of material.—No. 3 up mail train lost 15 minutes, due to a leak in the train pipe of a coaching vehicle.	
		8th June 1903 .	(iii) Failure of material.—No. 2 down express train lost 43 minutes, due to the vacuum chamber of the engine dropping off on account of breakage of the securing band.	
		23rd June 1903 .	(iii) Failure of material.—No. 3 up mail train lost 20 minutes, due to a leak in the hose pipe of the tender.

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS, 1861 AND 1892 (24 & 25 VICT., CAP. 67, AND 55 & 56 VICT., CAP. 14).

The Council met at Government House, Calcutta, on Friday, the 11th March, 1904.

PRESENT:

His Excellency Baron Curzon, P.C., G.M.S.I., G.M.I.E., Viceroy and Governor General of India, *presiding*.
His Honour Sir A. H. L. Fraser, K.C.S.I., Lieutenant-Governor of Bengal.
His Excellency General Viscount Kitchener of Khartoum, G.C.B., O.M., G.C.M.G., Commander-in-Chief in India.
The Hon'ble Mr. T. Raleigh, C.S.I.
The Hon'ble Sir E. FG. Law, K.C.M.G., C.S.I.
The Hon'ble Major-General Sir E. R. Elles, K.C.B., K.C.I.E.
The Hon'ble Sir A. T. Arundel, K.C.S.I.
The Hon'ble Sir Denzil Ibbetson, K.C.S.I.
The Hon'ble Rai Sri Ram Bahadur.
The Hon'ble Mr. A. W. Cruickshank, C.S.I.
His Highness Raja Sir Surindar Bikram Prakash Bahadur, K.C.S.I., of Sirmur.
His Highness Agha Sir Sultan Muhammad Shah, Agha Khan, G.C.I.E.
The Hon'ble Mr. Gopal Krishna Gokhale, C.I.E.
The Hon'ble Mr. E. Cable.
The Hon'ble Nawab Saiyid Muhammad Sahib Bahadur.
The Hon'ble Mr. F. S. P. Lely, C.S.I.
The Hon'ble Mr. H. Adamson, C.S.I.
The Hon'ble Mr. A. Pedler, C.I.E., F.R.S.
The Hon'ble Mr. T. Morison.
The Hon'ble Dr. Ramkrishna Gopal Bhandarkar.
The Hon'ble Mr. D. M. Hamilton.
The Hon'ble Rai Bahadur B. K. Bose, C.I.E.
The Hon'ble Dr. Asutosh Mukhopadhyaya, D.L., F.R.A.S., F.R.S.E.

MADRAS COAST LIGHTS BILL.

The Hon'ble SIR EDWARD LAW presented the Report of the Select Committee on the Bill to authorize the levy of dues on vessels for the provision

of lights on the coast of the Province of Madras. He said:—"No alterations of any importance have been made in the text of the Bill except such as were necessary in connection with the revision of the Schedule. We have, after careful consideration of the most accurate obtainable estimates of the yield of the dues, decided to fix tentatively the general rate for steam-vessels at 7 pies per ton. The estimates which have been framed are somewhat doubtful as regards certain classes; and it has been found impossible to work out the precise effect of the thirty days' exemption. In these circumstances, we consider that the rates initially fixed should be revised, if necessary, after two years' actual experience has been obtained. Should the rates imposed prove excessive, they will be reduced; should the yield be insufficient to meet the legitimate charges on account of the coast lights, the rates will be enhanced, within the maximum limits prescribed in the Bill.

"During the discussion on the Madras coast lights dues, it has been represented that those at present levied for the upkeep of lights on the coast of Burma are unnecessarily high, and result in the accrual of a considerable annual profit to the Government. A detailed examination of the accounts of the Burma dues during the past twenty-one years shows that this impression is incorrect, the dues levied have, over the whole period, been insufficient to meet the charges legitimately debitable against them. The average annual deficit exceeds Rs. 3,500. The receipts for the past three years have been exceptionally high, however, and the yield will probably increase rapidly in the future

"In these circumstances, we consider that the rate at which dues are levied should be revised every five years, the first revision being made when the results of the year 1904-05 are known, and being based on the recorded average annual surplus during the quinquennium.

"At each revision, the rate at which the dues are levied will be readjusted, by even pies, so as to yield approximate equilibrium between receipts and expenditure."

TRANSFER OF PROPERTY (AMENDMENT) BILL.

The Hon'ble SIR DENZIL IBBETSON moved that the Report of the Select Committee on the Bill further to amend the Transfer of Property Act, 1882, be taken into consideration. He said:—"When I introduced this Bill I explained its origin and object with some fulness. The reasons for the only substantial alteration made in Committee are stated in the Report, and I have nothing further to add."

The motion was put and agreed to.

The Hon'ble SIR DENZIL IBBETSON moved that the Bill, as amended, be passed

The Hon'ble RAI SRI RAM BAHADUR said:—"My Lord, with Your Excellency's permission I would like to say a few words in connection with the Bill which is going to be passed into law today. The Bill, though very short, is of considerable importance. In actual practice it will have an effect of a very far-reaching character.

"My Lord this piece of legislation will not be an unmixed blessing to the people at large No doubt its provisions will serve the purpose of putting an effectual check upon the doings of persons dishonestly inclined, but, on the other hand, in all places where the Transfer of Property Act is in force—and specially in backward tracts of the country where registration offices are situated at distances—its operation will result in putting the poorer classes of rustics to much inconvenience and expense, not at all commensurate with the amounts of the petty loans which such people generally take on the security of immoveables.

"My Lord, we were told that the object of the Government in introducing this Bill was to make alterations and amendments in the law relating to mort-

gages and leases as specified therein, and no suggestions regarding the amendment of any other portion of the Transfer of Property Act could be entertained in the deliberations on this Bill. My Lord, the policy of piecemeal legislation has not much in its favour, and this Bill is intended to serve only as a patchwork. The Transfer of Property Act was passed in 1882. It was the first attempt by the Indian Legislature to codify the law relating to transfer of property. Its working during the last twenty-two years has disclosed many shortcomings in it. The pages of the Law Reports are full of conflicting decisions by the different Indian tribunals on many of the provisions of this enactment. It is therefore the incumbent duty of the Legislature to remove these uncertainties from such an important branch of the law. The whole Act requires a general and thorough revision. It is therefore hoped that the Government will take up the revision of the law of transfer of property at no distant date."

The motion was put and agreed to.

INDIAN TARIFF (AMENDMENT)

The Hon'ble SIR EDWARD LAW moved for leave to introduce a Bill to revive and continue section 8B of the Indian Tariff Act, 1894. He said —
"The Indian Tariff Amendment Act, 1902 (VIII of 1902), was passed with the object of enabling the Government of India to countervail bounties on sugar created by private trade combinations such as *cartels*. This Act expired on the 31st of August, 1903, but the Government of India were empowered by the Indian Tariff Amendment Act, 1903 (XII of 1903), to continue to levy the duties chargeable under the former amending Act until the 31st of March, 1904.

"The object of the present Bill is to enable the Government of India to continue to levy special duties after that date on sugar imported from countries which, by maintaining high protective duties, render possible combinations to manipulate the price of sugar."

The motion was put and agreed to.

The Hon'ble SIR EDWARD LAW introduced the Bill.

The Hon'ble SIR EDWARD LAW moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in English in the Gazette of India and in the local official Gazettes.

The motion was put and agreed to.

ADJOURNMENT OF COUNCIL.

His Excellency THE PRESIDENT :—"The Council will meet again on this day week. We will then take up the Ancient Monuments Bill, which I hope we shall pass into law, and after that we will proceed with the Universities Bill. I believe that there are a considerable number of amendments on that Bill, and the discussion of them will no doubt take some time. I therefore propose to take it continuously until it is finished. We will sit on Friday next week; we will resume our sitting on Saturday, and I hope that we may be able to finish the Bill upon that day. If, however, we cannot do this, I propose to resume again on Monday. The Council therefore stands adjourned until Friday next, the 18th instant."

J. M. MACPHERSON,
Secretary to the Government of India,
Legislative Department.

Government of India Notifications, Appointments, Promotions, etc.

MILITARY SECRETARY'S OFFICE.

NOTIFICATION

Calcutta, the 18th March 1904.

No. 224-M.—His Excellency the Viceroy and Governor General will leave Calcutta on Friday, the 1st April 1904, starting by special train from Howrah at 11-33 P.M., Calcutta time.

His Excellency will visit Burdwan, Madari Hat and Ramshai in the Jalpaiguri District and arrive at Simla on Tuesday, the 12th April, at about 2-30 P.M.

His Excellency's departure from Calcutta and arrival at Simla will be private.

All covers intended to reach His Excellency the Viceroy and Governor General and party during His Excellency's journey should be addressed "Viceroy's Camp," without the addition of any post-town.

The party accompanying His Excellency on tour will be as follows —

Lieutenant Colonel the Honourable E Baring, C.V O, Military Secretary,

Major R. Bird, I M.S, Surgeon.

Major F. L Adam, A.-D.-C

Captain V A S. Keighley, A-D.-C.

All communications, connected with business of a mere routine nature, should be sent, as usual, to the head-quarters of the several Departments.

By Command,

EVERARD BARING, *Lt.-Col*,
Military Secretary to the Viceroy.

Telegram, dated Melbourne, the 14th March 1904

From—The Governor General of the Commonwealth of Australia,

To—His Excellency the Viceroy

One case of plague at Sydney, New South Wales.

The 18th March 1904

No. 433.—The following telegram is published for general information —

Telegram dated Pera, the 16th March 1904.

From - His Britannic Majesty's Ambassador Extraordinary and Plenipotentiary at Constantinople,
To—His Excellency the Viceroy.

Medical visit and disinfection imposed on arrivals from Alexandria Plague.

No. 434 —The following notice of the Board of Trade is published for general information:—

Board of Trade (Harbour Dept.),
London, February 17, 1904.

H. 2558.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, the following translation of a Circular issued by the Imperial and Royal Marine Board at Trieste respecting quarantine restrictions to be imposed on arrivals from Egypt:

In consequence of the cessation of cholera and plague in Egypt the Maritime Administration direct that henceforward arrivals from Egypt, if furnished with a clean bill of health, shall only be liable to medical examination in accordance with the decree of December 28, 1899, No. 14968, against arrivals from Turkey, Greece, and North Africa

But should these arrivals have a foul bill the vessels in question will be treated in accordance with the circular of November 5, 1900, No. 13835, or June 23, 1901, No. 7805

This is announced as an appendix to the circulars mentioned for guidance and instruction

The President.

Trieste, January 11, 1904.

MERCHANT SHIPPING

The 17th March 1904.

No. 1811-*S.R.*—The Governor General in Council is pleased to direct the publication of the following orders in Council, dated the 29th January 1904, superseding so much of the orders in Council published with the Notification of the Government of India, No. 388, dated the 4th December 1875, as related to French and Spanish vessels.—

AT THE COURT AT BUCKINGHAM PALACE,

The 29th day of January, 1904.

PRESENT,

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

Whereas by an Order in Council dated the 5th day of May 1873, after reciting that by "The Merchant Shipping Act Amendment Act, 1862," it was enacted that, whenever it was made to appear to her late Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the principal Act, had been adopted by the Government of any foreign country, and were in force in that country, it should be lawful for Her Majesty, by Order in Council, to direct that the ships of such foreign country should be deemed to be of the tonnage denoted in their certificates of registry or other national papers, and thereupon it should no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's dominions, but such ships should be deemed to be of the tonnage denoted in the certificates of registry or other papers, in the same manner, to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificates of registry of British ships was to be deemed the tonnage of such ships, and reciting that it had been made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships then in force under "The Merchant Shipping Act, 1854," had been adopted by the President of the French Republic, and were in force in the French dominions, Her Majesty was thereby pleased, by and with the advice of Her Privy Council, to direct that the ships of France, the certificates of French nationality and registry of which were dated on or after the first day of June, one thousand eight hundred and seventy-three, should be deemed to be of the tonnage denoted in the said certificates of French nationality and registry.

And whereas "The Merchant Shipping Act Amendment Act, 1862," was repealed by "The Merchant Shipping Act, 894," but by Section 745 of the latter Act it is amongst other things provided that any Order in Council made under any enactment thereby repealed shall continue in force as if it had been made under the said Act of 1894

And whereas by Section 84 of "The Merchant Shipping Act, 1894," it is enacted as follows —

84. (1) Whenever it appears to Her Majesty the Queen in Council that the tonnage regulations of this Act have been adopted by any foreign country, and are in force there, Her Majesty in Council may order that the ships of that country shall, without being re-measured in Her Majesty's dominions, be deemed to be of the tonnage denoted in their certificates of registry or other national papers, in the same manner, to the same extent, and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship.

(2) Her Majesty in Council may limit the time during which the Order is to remain in operation, and make the Order subject to such conditions and qualifications (if any) as Her Majesty may deem expedient, and the operation of the Order shall be limited and modified accordingly.

(3) If it is made to appear to Her Majesty that the tonnage of any foreign ship, as measured by the rules of the country to which she belongs, materially differs from that which would be her tonnage if measured under this Act, Her Majesty in Council may order that, notwithstanding any Order in Council for the time being in force under this Section, any of the ships of that country may, for all or any of the purposes of this Act, be re-measured in accordance with this Act.

And whereas by section 30 of the Interpretation Act, 1889, it is enacted that in that Act and in every other Act whether passed before or after the commencement of that Act references to the Sovereign reigning at the time of the passing of the Act or to the Crown shall unless the contrary intention appears be construed as references to the Sovereign for the time being and that Act shall be binding on the Crown:

And whereas it has been made to appear to His present Majesty that the tonnage of French ships as measured by the rules concerning the measurement of tonnage of merchant

ships of France materially differs from that which would be the tonnage of such ships if measured under "The Merchant Shipping Act, 1894"

Now, therefore, His Majesty in Council doth order that notwithstanding the hereinbefore recited Order in Council dated the 5th day of May, 1873, any of the ships of France may for all or any of the purposes of "The Merchant Shipping Act, 1894" be re-measured in accordance with the said Act.

A. W. FITZROY.

AT THE COURT AT BUCKINGHAM PALACE,

The 29th day of January 1904.

PRESENT,

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

Whereas by an Order in Council dated the 17th day of March 1875, after reciting that by "The Merchant Shipping Act Amendment Act, 1862," it was enacted that, whenever it was made to appear to Her late Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the principal Act, had been adopted by the Government of any foreign country, and were in force in that country, it should be lawful for Her Majesty, by Order in Council, to direct that the ships of such foreign country should be deemed to be of the tonnage denoted in their certificates of registry or other national papers, and thereupon it should no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's dominions, but such ships should be deemed to be of the tonnage denoted in their certificates of registry or other papers, in the same manner, to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificates of registry of British ships was to be deemed the tonnage of such ships, and reciting that it had been made to appear to Her late Majesty that the rules concerning the measurement of tonnage of merchant ships then in force under "The Merchant Shipping Act, 1854," had been adopted by the Government of his Majesty the King of Spain, with the exception of a difference in the mode in certain steamers of estimating the allowance for engine room, and such rules were then in force in that country, having come into operation on the 2nd day of December 1874, Her Majesty was thereby pleased, by and with the advice of Her Privy Council, to direct as follows :—

1. As regards sailing ships, that merchant sailing ships of the said Kingdom of Spain, the measurement whereof after the said 2nd day of December 1874 had been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof, should be deemed to be of the tonnage denoted in such registers and other national papers in the same manner, and to the same extent, and for the same purpose, in, to, and for which the tonnage denoted in the certificate of registry of British sailing ships was deemed to be the tonnage of such ships.
2. As regards steamships, that merchant ships belonging to the said Kingdom of Spain which were propelled by steam or any other power requiring engine room, the measurement whereof should, after the said 2nd day of December 1874, have been ascertained and denoted in the registers and other national papers of such steam ships, testified by the dates thereof, should be deemed to be of the tonnage denoted in such registers or other national papers in the same manner, and to the same extent, and for the same purpose, in, to, and for which the tonnage denoted in the certificate of registry of British ships was deemed to be the tonnage of such ships. Provided, nevertheless, that if the owner or master of any such Spanish steam ship desired the deduction for engine room in his ships to be estimated under the rules for engine room measurement and deduction applicable to British ships instead of under the Spanish rule, the engine room should be measured and the deduction calculated according to the British rules.

And whereas "The Merchant Shipping Act Amendment Act, 1862," was repealed by "The Merchant Shipping Act, 1894," but by Section 745 of the latter Act it is amongst other things provided that any Order in Council made under any enactment thereby repealed shall continue in force as if it had been made under the said Act of 1894:

And whereas by Section 84 of "The Merchant Shipping Act, 1894," it is enacted as follows :—

84. (1) Whenever it appears to Her Majesty the Queen in Council that the tonnage regulations of this Act have been adopted by any foreign country, and are in force there, Her Majesty in Council may order that the ships of that country shall, without being re-measured in Her Majesty's dominions, be deemed to be of the tonnage denoted in their certificates of registry or other national papers, in the same manner, to the same extent, and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship.

(2) Her Majesty in Council may limit the time during which the Order is to remain in operation, and make the Order subject to such conditions and qualifications (if any) as Her Majesty may deem expedient, and the operation of the Order shall be limited and modified accordingly

(3) If it is made to appear to Her Majesty that the tonnage of any foreign ship, as measured by the rules of the country to which she belongs, materially differs from that which would be her tonnage if measured under this Act, Her Majesty in Council may order that, notwithstanding any Order in Council for the time being in force under this Section, any of the ships of that country may, for all or any of the purposes of this Act, be re-measured in accordance with this Act

And whereas by Section 30 of the Interpretation Act, 1889, it is enacted that in that Act and in every other Act whether passed before or after the commencement of that Act, references to the Sovereign reigning at the time of the passing of the Act or to the Crown shall, unless the contrary intention appears, be construed as references to the Sovereign for the time being, and that Act shall be binding on the Crown

And whereas it has been made to appear to His present Majesty that the tonnage of Spanish ships as measured by the rules concerning the measurement of tonnage of merchant ships of Spain materially differs from that which would be the tonnage of such ships if measured under "The Merchant Shipping Act, 1894"

Now, therefore, His Majesty in Council doth order that notwithstanding the hereinbefore recited Order in Council dated the 17th day of March 1875, any of the ships of Spain may for all or any of the purposes of "The Merchant Shipping Act, 1894," be re-measured in accordance with the said Act

The 18th March 1904

No. 113.—The services of Captain C O. Halliday, R E., are temporarily placed at the disposal of the Director General of Telegraphs

No. 112.—The following is published for general information :—

No. 407 C. W.—T.

GOVERNMENT OF INDIA—PUBLIC WORKS DEPARTMENT.—CIVIL WORKS.—TELEGRAPHS

Calcutta, the 16th March 1904

Instructions regarding the despatch and acceptance of "clear-the-line" messages.

RESOLUTION.

It has been brought to the notice of the Government of India that the power given to certain high officials to "clear the line" in order to obtain precedence for a State telegram of great importance has been abused, and that this has been encouraged by the failure of the Telegraph Administration to enforce the regulations on the subject.

2. The matter has therefore been under the consideration of the Governor General in Council and the following rules are issued for information and guidance :—

1st.—"Clear-the-line" messages are not to be accepted at a telegraph office unless signed by an officer in the authorized list.

2nd.—The power given to officers in the authorized list to clear the line is not to be delegated and messages when issued as delegated are not to be accepted

3rd.—An officer having authority to send a "clear-the-line" message may in such message authorize a "clear-the-line" reply. No "clear-the-line" reply shall be accepted in the absence of such authority.

4th.—The Director General of Telegraphs is instructed to examine all clear-the-line messages once a month in order to see that the above instructions are observed.

3. The following officers are authorized to clear the line:—

Private Secretary to the Viceroy, by special order of the Viceroy.

Private Secretary to the Governor of Madras, by special order of the Governor.

Private Secretary to the Governor of Bombay, by special order of the Governor.

Military Secretary to the Commander-in-Chief, by special order of Commander-in-Chief, and in the absence of the Commander-in-Chief from Head-quarters the Senior Staff Officer at Head-quarters.

Lieutenant-Generals Commanding the Forces, Punjab, Bengal, Madras, Bombay, and Burma.

Private Secretaries to the Lieutenant Governors, Bengal, United Provinces, Punjab, and Burma, by special order of Lieutenant Governors.

Executive Members of His Excellency the Viceroy's Council.

Secretaries to Government of India.

Chief Secretaries to Government of Madras, Bombay, Bengal, United Provinces, Punjab, and Burma

Chief Commissioners of Assam and Central Provinces

Agents to the Governor-General, Rajputana, North-West Frontier Province, Central India, and Baluchistan.

An Officer Commanding a force in the field.

Director General of Telegraphs.

Maharaja of Patiala (from Patiala Office only).

Residents, Hyderabad and Mysore.

4 In publishing these instructions the Governor General in Council desires to impress on officers that the power given to clear the line is only to be used in cases of great public importance and is not to be used simply as a means of obtaining priority of despatch It may not be generally known that directly a "clear-the-line" message is tendered for transmission at a telegraph office all works over the wires to the place or places to which the message is to be sent is instantly stopped until the message in question is disposed of. This dislocation of the ordinary traffic is only warranted by the supreme importance, from the point of view of the public service, of the message for which the line is to be cleared It is impossible to define what constitutes a matter of great public importance, but it seems to the Governor General in Council that the instances in which it should be necessary to clear the line should be few and far between

5 It will be seen that in future the power to clear the line cannot be delegated and that an order to clear the line which is signed "by order" will not in future be accepted by the Telegraph authorities, as has been the practice in the past.

6. In the cases of messages repeated to two or more offices, the officer ordering the line to be cleared should carefully consider whether it is necessary the line should remain cleared for the despatch of the repeated copies In many cases, notably in the case of military messages, these are often sent for information only, and all useful purpose would, it is believed, be served if they were sent by one of the usual classes, urgent, ordinary, or deferred, or by post instead of by telegraph.

7 Lastly, the Governor General in Council desires to take this opportunity of impressing on officers the necessity for economy in the use of words in drafting State telegrams A perusal of some of the messages recently despatched shows that many are drafted with the freedom of expression and detail used in ordinary correspondence by letter, this is unnecessary for telegraphic messages of any class, but is the more to be deprecated in messages for the despatch of which all other traffic has been put on one side.

ORDER.—Ordered that a copy of this Resolution be communicated to the Director General of Telegraphs for information and guidance and to the Foreign, Finance and Commerce, Home, Legislative, Military, and Revenue and Agricultural Departments; to the Local Governments and Administrations noted on the margin and to the Private Secretary to His Excellency the Viceroy. Also that it be published in Part I of the *Gazette of India* for general information.

The Governments of Madras and Bombay, Public Works Department, General Branch.
The Governments of Bengal, the United Provinces of Agra and Oudh, and the Punjab, Public Works Department.
The Government of Burma, Public Works Department, General Branch.
The Honourable the Chief Commissioners of the Central Provinces and Assam.
The Chief Commissioner of Coorg
The Honourable the Resident at Hyderabad.
The Honourable the Agents to the Governor General for Central India, Rajputana, and Baluchistan.
The Honourable the Agent to the Governor General and Chief Commissioner, North-West Frontier Province.
The Accountant General, Public Works Department.

SIDNEY PRESTON,
Secretary to the Government of India.

No. 363 of 1899 —David Gilmour *Improvements in the method of manufacturing lumber.* (From 12 March 1904 to 12 March 1905.)

No 316 of 1902.—Gerald Edward Holland and Henry Johnston. *Improvements in elevators for loading and unloading coal or other fragmentary materials.* (From 23 December 1906 to 23 December 1916.)

No 464 of 1902 Gerald Edward Holland and Henry Johnston. *Improvements in elevators for loading and unloading boxes, bales or other similar packages* (From 4 April 1907 to 4 April 1917.)

No. 465 of 1902.—Gerald Edward Holland and Henry Johnston. *An apparatus for rapidly, cheaply and efficiently distributing cargoes in a vessel's hold or other places to enable those storing such cargoes to keep pace with rapid loading systems.* (From 4 April 1907 to 4 April 1917.)

No. 440 of 1903.—Gerald Edward Holland and Henry Johnston. *Improvements in ships for facilitating the measurement and discharge of coal, ore, grain or the like* (From 4 December 1907 to 4 December 1917.)

No 1096 P.—WHEREAS the inventors of the under-mentioned inventions have respectively failed to pay within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888 the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2) of the said Act, the exclusive privilege of making, selling and using the said inventions in British India, and of authorising others so to do, has ceased —

No. 149 of 1899—George Speirs Alexander Ranking. *Improvements in the method or gear for lowering and disengaging boats at sea* (Specification filed 11 December 1899)

No. 156 of 1899—Archibald Anderson Dickson *Improved process and apparatus for forming cold peat into blocks for fuel* (Specification filed 8 December 1899)

No 232 of 1899.—Samuel Thomas Gresham *A device for securing railway wagon doors* (Specification filed 6 December 1899)

No 317 of 1899.—Joseph Mason and the Mutoscope and Biograph Syndicate. *Improvements in methods of and apparatus for exhibiting a series of pictures giving the appearance of motion.* (Specification filed 7 December 1899)

Fee in respect of the continuance of an exclusive privilege—

4 (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof.

The sum of R50 for each of the above inventions.

No 272 of 1895—Samuel Cleland Davidson. *Improvements in apparatus for packing tea or other substances into chests, boxes or other receptacles.* (Specification filed 11 December 1895.)

Fee in respect of the continuance of an exclusive privilege—

4 (*c*) After the expiration of the seventh year and before the expiration of the eighth year from the date of filing of the specification—

The sum of R50 for the above invention

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A M to 3 P M on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications, and drawings

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary

C. R. WILSON,
Secretary under the Inventions and Designs Act, 1888.

BOARD OF EXAMINERS.

T. D. BERRINGTON,
Director, Traffic Branch.

PROCEEDINGS OF THE HONOURABLE THE RESIDENT IN MYSORE.

NOTIFICATION.

Bangalore, the 11th March 1904

ORDER.

No 1250.—The Honourable the Resident in Mysore is pleased to issue the following rules for the guidance of the Police on the portions of the Railways in Mysore under the jurisdiction of the British Government, in the matter of arrest and prosecution of Railway employés under sections 101 and 131 of the Indian Railway Act (Act IX of 1890)

ARREST.

The exercise by the Railway Police of the power of arrest without warrant given them in section 131 of the Indian Railways Act (IX of 1890) for offences under section 101 of the same Act, is discretionary It should be exercised only in extreme cases, as for instance, when

(*a*) there has been loss of life or serious injury to person or

(*b*) a person is caught in the commission of a grave offence,

(*c*) the accused is likely to abscond or to continue to endanger the safety of the public.

When arrest is made without warrant, immediate intimation of such arrest must be given to the head of the Railway employés department.

2 Under ordinary circumstances, no immediate arrest is necessary A warrant should be applied for in the usual manner, the police maintaining a watch over the movements of the accused, where this precaution is deemed necessary

3. When arrest is effected by warrant, the warrant should, in the absence of any direction to the contrary in the warrant under section 77 of the Code of Criminal Procedure, 1898, be executed by a Police Officer of rank superior to that of a Head Constable, first grade, or by any Station House Officer within his own limits The officer entrusted with the execution of the warrant will execute it judiciously, and if the arrest is likely to cause risk or inconvenience to the public, make arrangements to prevent the escape of the accused and apply to the head of his department to have him relieved, arrest being deferred till he is so relieved.

PROSECUTION.

No prosecution for an offence under section 101 of the Indian Railway Act (IX of 1890) shall be instituted by a Police Officer without the sanction of the Superintendent of the Railway Police, which shall be communicated immediately it is accorded to the Agent or Manager of the Railway.

By order,

R M. KING,

First Assistant to the Resident in Mysore.

THOMASON CIVIL ENGINEERING COLLEGE, ROORKEE.

Major S. G. Burrard, R.E., Officiating Superintendent, 1st grade, is confirmed in that grade.

Major R. T. Crichton, I A., Officiating Superintendent, 2nd grade, is confirmed in that grade.

Captain C. L. Robertson, R.E, Officiating Deputy Superintendent, 1st grade, is confirmed in that grade

Captain H. L. Crosthwait, R E., Officiating Deputy Superintendent, 2nd grade, is confirmed in that grade.

Lieutenant M O'C. Tandy, R.E., Officiating Assistant Superintendent, 1st grade, is confirmed in that grade.

No. 2.—The following temporary promotions are made, with effect from the 24th February 1904 —

Major J M Fleming, I A., Superintendent, 2nd grade, to officiate as Superintendent, 1st grade.

Captain C. H D. Ryder, R E., Deputy Superintendent, 1st grade, to officiate as Superintendent, 2nd grade

Captain H H Turner, R.E, Deputy Superintendent, 2nd grade, to officiate as Deputy Superintendent, 1st grade.

Lieutenant H. M. Cowie, R.E., Assistant Superintendent, 1st grade, to officiate as Deputy Superintendent, 2nd grade.

Lieutenant C. M. Browne, R.E., Assistant Superintendent, 2nd grade, to officiate as Assistant Superintendent, 1st grade.

No. 3.—Major G. B. Hodgson, I.A, Superintendent, 1st grade, having returned from leave on the forenoon of 25th February 1904, the following reversions are made, with effect from the same date.—

Major J M. Fleming, I A., Officiating Superintendent, 1st grade, to revert to his substantive appointment of Superintendent, 2nd grade.

Captain C. H. D. Ryder, R.E., Officiating Superintendent, 2nd grade, to revert to his substantive appointment of Deputy Superintendent, 1st grade.

Captain H. H. Turner, R.E, Officiating Deputy Superintendent, 1st grade, to revert to his substantive appointment of Deputy Superintendent, 2nd grade.

Lieutenant H. M. Cowie, R.E, Officiating Deputy Superintendent, 2nd grade, to revert to his substantive appointment of Assistant Superintendent, 1st grade.

Lieutenant C M. Browne, R.E., officiating Assistant Superintendent, 1st grade, to revert to his substantive appointment of Assistant Superintendent, 2nd grade.

The 16th March 1904.

No. 5.—An examination for admission to the Provincial Service of the Survey of India will be held in August next at various centres which will be notified later.

The number of vacancies offered for this year's examination will probably be 9 of which 2 will probably be for native candidates. Applications for rules (a copy of which is printed below) should be addressed to the Assistant Surveyor General in charge Surveyor General's Office, No. 13, Wood Street, Calcutta.

No application to sit for the examination will be entertained after the 30th June 1904.

D. 28.

SURVEY OF INDIA.

(*Vide* R. & A. Department No. $\frac{53}{157-2}$, dated the 4th January 1901).

MEMO. OF INSTRUCTIONS FOR APPLICANTS FOR THE PROVINCIAL SERVICE OF THE SURVEY OF INDIA.

1st.—Every candidate for the Survey of India must forward his application in writing to the Surveyor-General accompanied by such certificates as to *age* (Baptismal Certificate required in case of European and Eurasian Candidates), *moral character*, *education*, *soundness of health*, and *good eye-sight* as will clearly establish his suitability for employment. The application must further be accompanied by *specimens of Plan and Free hand-drawing* * The candidate's name having been registered, he will be informed of the time and place of examination, when decided on. The examination papers will be issued from the Trigonometrical Branch Office in Dehra Dun.

2nd.—No application can be entertained from any individual whose age at the date of the completion of the examination will be under 18 or above 22 years, except in the case of Natives whose maximum age is fixed at 24 years. The Surveyor-General, however, has the power to extend the age limits to 30 years in the case of those candidates who are at the time in pensionable service in the subordinate grades of the Survey of India. No person who is married or is likely to be soon married will be admitted unless of pure Asiatic origin. Candidates, if of European parentage must be Statutory Natives of India and have at least passed the High School Pass examination or First Arts examination at an Indian University having qualified in Algebra as one of the subjects, and if Natives the F. A. Pass examination

3rd.—Candidates must be prepared to undergo the examination detailed below, which will give them entrance to the Training School at Dehra, no candidate will be considered to have qualified unless he gets 50 per cent. of the marks in Mathematics and 30 per cent. of the total marks in Drawing.

4th.—Examinations will be held in August as a rule The most suitable of the candidates who qualify will be selected.

5th.—When under examination for the Department, the candidate must sign the Bond printed on the reverse of this paper.

6th.—The selected candidates will enter the Department as Probationary Sub Assistant Superintendents, 3rd grade, on a salary of R120 *per mensem*, and they must pass out of the Training School within a maximum limit of 2 years. They will not be confirmed in their appointments until they have served at least 1 year in a field party and have been well reported on.

7th.—As Surveyors are liable to much exposure and to work in trying climates, the medical certificate should particularly specify that the candidate is of good physique and is likely to stand hard work, such as riding and walking long distances The medical certificate should be in the form as given overleaf, signed by a Medical officer in Government employ not lower in rank than Lieutenant During his course at the Training School should he prove to be in the opinion of the Superintendent, Trigonometrical Surveys, physically unfitted for the Department, that officer may demand a further certificate of fitness.

W. R. L. ANDERSON, Colonel,

Accountant General, Military Department.

CIVIL AND MILITARY STATION, BANGALORE.

MUNICIPAL OFFICE.

NOTIFICATION

Bangalore, the 24th February 1904.

No. 4981.—In exercise of the powers conferred by section 3 of the Bangalore Hackney Carriage Regulation, 1882, and in supersession of all previous Rules framed under that section, the Municipal Commission for the Civil and Military Station of Bangalore have made the following Rules for the registration and control of Hackney Carriages within the limits of the said Municipality, and the same having been confirmed by the Hon'ble the Resident in Mysore, as required by the said section and by section 139 of the Bangalore Municipal Law, 1897, they are hereby notified for general information under section 180 (3) of the said Municipal Law

These Rules shall come into force on the 1st April 1904.

1 Every hackney carriage shall be annually licensed by the Registering Officer, and no person shall keep, or offer, or ply for hire, any hackney carriage within the limits of the Civil and Military Station, Bangalore, except under license granted in that behalf under these Rules

Note—The Registering Officer shall be the Officer, for the time being, holding the office of the District Superintendent of Police

2. Any license granted under these Rules shall ordinarily continue in force until the 31st day of March after the grant of such license.

3 The Registering Officer shall receive applications for, and shall grant or refuse, licenses as he may think fit He shall class every hackney carriage at his discretion in one of the four following classes:—

1. First class carriage.
2. Second class carriage.
3. Jutkas
4. Bullock carts

4. The license to be granted by the Registering Officer shall be in the form given in Schedule B of these Rules, and its formal acceptance by the licensee shall be entered in the register provided for this purpose.

Note—In the case of a partnership, company or firm the name to be entered in the license shall be that of a partner, the Secretary or Manager, as the case may be.

5. The Registering Officer may, whenever necessary, cause to be painted on some conspicuous part of the carriage its number and class, the year of license and the number of passengers it is licensed to carry. He may also cause to be stamped a number on such parts of the harness as he thinks fit.

A. If the words or figures so painted or stamped shall, during the time of license, become indistinct or obliterated, the owner of the carriage or harness shall produce it without delay before the Registering Officer and apply to have such words or figures renewed.

B. The numbering shall be done at the office of the Registering Officer.

C. The owner of the first or second class hackney carriage shall, on receipt of a license, affix to his premises a board on which shall be painted his name and his hackney carriage license number

D Every owner of a hackney carriage shall, on the expiry, revocation, or suspension of his hackney carriage license, forthwith remove the figures or words so painted on his carriage.

6. The following fees shall be paid to the Registering Officer on behalf of the Municipality for each license:—

First class carriage	R12	per annum	If drawn by a pair of horses, double these fees.
Second class carriage	„ 9	do	
Jutkas	„ 4	do.	
Bullock carts	„ 2	do	

A license in the form given in Schedule B shall only be given for a turn-out including horse, carriage and harness, but spare carriages and horses shall, if the Registering Officer thinks fit, be registered separately as entitled to ply for hire under these Rules, the following fees being charged for such registration —

1st class carriage	R8
2nd do.	„ 5
Horse	„ 4

DRIVERS' LICENSES.

7. Every driver of a hackney carriage shall be annually licensed by the Registering Officer, who, if he thinks fit, may refuse to issue such a license, and no person shall drive any hackney carriage, nor shall any owner of a hackney carriage permit any person to drive such hackney carriage, within the limits of the Civil and Military Station, Bangalore, except under license granted in that behalf under these Rules.

For every license granted under this Rule, there shall be paid annually a fee of R1 by owners of 1st and 2nd class carriages and jutkas, and a fee of 8 annas by owners of bullock carts.

8. The license to be granted to a driver of a 1st or 2nd class carriage shall be in the form given in Schedule C of these Rules, and to a driver of a jutka or bullock cart in the form given in Schedule D. Such licenses shall be accompanied by metal badge bearing the number of the license.

9. A licensed driver, when acting as such,—

(1) shall keep to his own left side of the road, and not overtake or pass another carriage except on the right-hand side of that carriage,

(2) shall light his lamps and keep them alight between sunset and sunrise.

(3) shall stand in line with his carriage and keep proper order when at a carriage stand. He shall not take up position on any hackney carriage stand which already contains the full complement of hackney carriages authorised for such stand by the Registering Officer. He shall not loiter or cause obstruction in public roads or thoroughfares or in any place where the public resort.

10. The fare which may be demanded for the hire of a hackney carriage shall not exceed that specified in Schedule A of these Rules.

11. The owner of every hackney carriage of the first or second class, unless exempted by the Registering Officer, shall put up, and at all times keep, in such position as shall be directed by the Registering Officer, in or on such carriage a clear and legible list showing the class and number of such carriage, and the rates and fares authorised to be taken for the hire of the same.

12. No owner or driver of any hackney carriage shall, without sufficient reason, the burden of proving which shall lie on such owner or driver, at any time refuse to let such hackney carriage for hire to any person demanding the same.

MISCELLANEOUS.

13. The Registering Officer may, by written order, suspend for a period not exceeding one month, or revoke, any license granted under Rule 3 or 8 for any breach of these Rules

A license under Rule 3 or 8 shall also be subject to suspension or revocation, if the Registering Officer is satisfied that the owner or driver has misconducted himself.

14 Notwithstanding anything contained in any Act or Regulation relating to hackney carriages for the time being in force, no owner or driver of a hackney carriage shall be bound to carry, in such hackney carriage, any person suffering from any contagious or infectious disease.

No owner or driver shall, without previously disinfecting it, knowingly use for hire any carriage used for the conveyance of any person suffering from any contagious or infectious disease.

15 In the case of disputes as to the fare to be paid according to distance, any table or book signed by the Registering Officer shall be taken to be conclusive evidence of all the fares and distances therein stated.

16. All property left in any hackney carriage licensed under these Rules shall be forthwith deposited by the driver or owner, as the case may be, in the office of the Registering Officer, or in the nearest police station.

Such property shall be returned to the person who shall prove to the satisfaction of the Registering Officer that the same belonged to him, on payment of all expenses reasonably incurred, and of such reasonable sum to the driver or owner as the Registering Officer may direct.

17. It shall be lawful for the Registering Officer, the Inspector of Hackney Carriages and any Inspector of Police, at any time between sunrise and sunset to enter any premises in which hackney carriages are kept in order to carry out any provision of these Rules, and the owner of such premises or his agents shall afford every facility for such inspection.

18. The Registering Officer may, for reasons to be recorded by him in writing, prohibit the use of any premises as premises, in which hackney carriages can be kept, and may also forbid the keeping of any vehicles or horses, other than those registered under the Hackney Carriage Rules, in any premises in which hackney carriages are kept, and after the issue of such prohibition no person shall use such premises in contravention of such prohibition.

19. On expiry, revocation, or suspension of any license granted under Rule 3 or 8, the licensee shall forthwith return such license to the Registering Officer and shall, in the case of any license granted under Rule 8, at the same time deliver up any badge issued with such license.

20. Prosecutions for breach of these Rules may be instituted by any Police Officer, or Officer of the Hackney Carriage Department, or any other person authorised by the Registering Officer in writing.

SCHEDULE A.

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 18th March, 1904, and is hereby promulgated for general information:—

ACT NO. VII OF 1904.

THE ANCIENT MONUMENTS PRESERVATION ACT, 1904.

CONTENTS.

The Ancient Monuments Preservation Act, 1904.

(Section 3. Ancient Monuments.—Section 4.)

An Act to provide for the preservation of Ancient Monuments and of objects of archæological, historical or artistic interest.

WHEREAS it is expedient to provide for the preservation of ancient monuments, for the exercise of control over traffic in antiquities and over excavation in certain places, and for the protection and acquisition in certain cases of ancient monuments and of objects of archæological, historical or artistic interest, It is hereby enacted as follows:—

Short title and extent

1. (*1*) This Act may be called the Ancient Monuments Preservation Act, 1904.

(*2*) It extends to the whole of British India, inclusive of British Baluchistan, the Sonthal Parganas and the Pargana of Spiti.

Definitions

2. In this Act, unless there is anything repugnant in the subject or context,—

(*1*) "ancient monument" means any structure, erection or monument, or any tumulus or place of interment, or any cave, rock-sculpture, inscription or monolith, which is of historical, archæological or artistic interest, or any remains thereof, and includes—

(*a*) the site of an ancient monument,

(*b*) such portion of land adjoining the site of an ancient monument as may be required for fencing or covering in or otherwise preserving such monument; and

(*c*) the means of access to and convenient inspection of an ancient monument:

(*2*) "antiquities" include any moveable objects which the Government, by reason of their historical or archæological associations, may think it necessary to protect against injury, removal or dispersion.

(*3*) "Commissioner" includes any officer authorized by the Local Government to perform the duties of a Commissioner under this Act

(*4*) "maintain" and "maintenance" include the fencing, covering in, repairing, restoring and cleansing of a protected monument, and the doing of any act which may be necessary for the purpose of maintaining a protected monument or of securing convenient access thereto:

(*5*) "land" includes a revenue-free estate, a revenue-paying estate, and a permanent transferable tenure, whether such estate or tenure be subject to incumbrances or not: and

(*6*) "owner" includes a joint owner invested with powers of management on behalf of himself and other joint owners, and any manager or trustee exercising powers of management over an ancient monument, and the successor in title of any such owner and the successor in office of any such manager or trustee:

Provided that nothing in this Act shall be deemed to extend the powers which may lawfully be exercised by such manager or trustee.

Protected monuments.

3. (*1*) The Local Government may, by notification in the local official Gazette, declare an ancient monument to be a protected monument within the meaning of this Act.

(*2*) A copy of every notification published under sub-section (*1*) shall be fixed up in a conspicuous place on or near the monument, together with an intimation that any objections to the issue of the notification received by the Local Government within one month from the date when it is so fixed up will be taken into consideration.

(*3*) On the expiry of the said period of one month, the Local Government, after considering the objections, if any, shall confirm or withdraw the notification.

(*4*) A notification published under this section shall, unless and until it is withdrawn, be conclusive evidence of the fact that the monument to which it relates is an ancient monument within the meaning of this Act.

Ancient Monuments.

Acquisition of rights in or guardianship of an ancient monument.

4. (*1*) The Collector, with the sanction of the Local Government, may purchase or take a lease of any protected monument.

(*2*) The Collector, with the like sanction, may accept a gift or bequest of any protected monument.

(*3*) The owner of any protected monument may, by written instrument, constitute the Commissioner the guardian of the monument, and the Commissioner may, with the sanction of the Local Government, accept such guardianship

(*4*) When the Commissioner has accepted the guardianship of a monument under sub-section (*3*), the owner shall, except as expressly provided in this Act, have the same estate, right, title and interest in and to the monument as if the Commissioner had not been constituted guardian thereof.

The Ancient Monuments Preservation Act, 1904.

(Ancient Monuments.—Sections 5-7.)

(5) When the Commissioner has accepted the guardianship of a monument under sub-section (3), the provisions of this Act relating to agreements executed under section 5 shall apply to the written instrument executed under the said sub-section.

(6) Where a protected monument is without an owner, the Commissioner may assume the guardianship of the monument.

Preservation of ancient monument by agreement.

5. (1) The Collector may, with the previous sanction of the Local Government, propose to the owner to enter into an agreement with the Secretary of State for India in Council for the preservation of any protected monument in his district.

(2) An agreement under this section may provide for the following matters, or for such of them as it may be found expedient to include in the agreement:—

(a) the maintenance of the monument,

(b) the custody of the monument, and the duties of any person who may be employed to watch it,

(c) the restriction of the owner's right to destroy, remove, alter or deface the monument or to build on or near the site of the monument,

(d) the facilities of access to be permitted to the public or to any portion of the public and to persons deputed by the owner or the Collector to inspect or maintain the monument,

(e) the notice to be given to the Government in case the land on which the monument is situated is offered for sale by the owner, and the right to be reserved to the Government to purchase such land, or any specified portion of such land, at its market-value;

(f) the payment of any expenses incurred by the owner or by the Government in connection with the preservation of the monument;

(g) the proprietary or other rights which are to vest in His Majesty in respect of the monument when any expenses are incurred by the Government in connection with the preservation of the monument;

(h) the appointment of an authority to decide any dispute arising out of the agreement; and

(i) any matter connected with the preservation of the monument which is a proper subject of agreement between the owner and the Government.

(3) An agreement under this section may be executed by the Collector on behalf of the Secretary of State for India in Council, but shall not be so executed until it has been approved by the Local Government.

(4) The terms of an agreement under this section may be altered from time to time with the sanction of the Local Government and with the consent of the owner

(5) With the previous sanction of the Local Government, the Collector may terminate an agreement under this section on giving six months notice in writing to the owner.

(6) The owner may terminate an agreement under this section on giving six months' notice to the Collector

(7) An agreement under this section shall be binding on any person claiming to be owner of the monument to which it relates, through or under a party by whom or on whose behalf the agreement was executed.

(8) Any rights acquired by Government in respect of expenses incurred in protecting or preserving a monument shall not be affected by the termination of an agreement under this section

Owners under disability or not in possession

6 (1) If the owner is unable, by reason of infancy or other disability, to act for himself, the person legally competent to act on his behalf may exercise the powers conferred upon an owner by section 5

(2) In the case of village-property, the headman or other village-officer exercising powers of management over such property may exercise the powers conferred upon an owner by section 5.

(3) Nothing in this section shall be deemed to empower any person not being of the same religion as the persons on whose behalf he is acting to make or execute an agreement relating to a protected monument which or any part of which is periodically used for the religious worship or observances of that religion.

Enforcement of agreement.

7. (1) If the Collector apprehends that the owner or occupier of a monument intends, to destroy, remove, alter, deface, or imperil the monument or to build on or near the site thereof in contravention of the terms of an agreement for its preservation under section 5, the Collector may make an order prohibiting any such contravention of the agreement

(2) If an owner or other person who is bound by an agreement for the preservation or maintenance of a monument under section 5 refuses to do any act which is in the opinion of the Collector necessary to such preservation or maintenance, or neglects to do any such act within such reasonable time as may be fixed by the Collector, the Collector may authorize any person to do any such act, and the expense of doing any such act or such portion of the expense as the owner may be liable to pay under the agreement may be recovered from the owner as if it were an arrear of land-revenue.

The Ancient Monuments Preservation Act, 1904.

(Ancient Monuments.—Sections 8-13)

(3) A person aggrieved by an order made under this section may appeal, to the Commissioner, who may cancel or modify it and whose decision shall be final

Purchasers at certain sales and persons claiming through owner bound by instrument executed by owner

8. Every person who purchases, at a sale for arrears of land-revenue or any other public demand, or at a sale made under the Bengal Patni Taluks Regulation, 1819, an estate or tenure in which is situated a monument in respect of which any instrument has been executed by the owner for the time being, under section 4 or section 5, and every person claiming any title to a monument from, through or under an owner who executed any such instrument, shall be bound by such instrument.

Application of endowment to repair of an ancient monument

9. (1) If any owner or other person competent to enter into an agreement under section 5 for the preservation of a protected monument, refuses or fails to enter into such an agreement when proposed to him by the Collector, and if any endowment has been created for the purpose of keeping such monument in repair, or for that purpose among others, the Collector may institute a suit in the Court of the District Judge, or, if the estimated cost of repairing the monument does not exceed one thousand rupees, may make an application to the District Judge for the proper application of such endowment or part thereof.

(2) On the hearing of an application under sub-section (1), the District Judge may summon and examine the owner and any person whose evidence appears to him necessary, and may pass an order for the proper application of the endowment or of any part thereof, and any such order may be executed as if it were the decree of a Civil Court

Compulsory purchase of ancient monument

10 (1) If the Local Government apprehends that a protected monument is in danger of being destroyed, injured or allowed to fall into decay, the Local Government may proceed to acquire it under the provisions of the Land Acquisition Act, 1894, as if the preservation of a protected monument were a "public purpose" within the meaning of that Act.

(2) The powers of compulsory purchase conferred by sub-section (1) shall not be exercised in the case of—

(a) any monument which or any part of which is periodically used for religious observances, or

(b) any monument which is the subject of a subsisting agreement executed under section 5

(3) In any case other than the cases referred to in sub-section (2) the said powers of compulsory purchase shall not be exercised unless the owner or other person competent to enter into an agreement under section 5 has failed, within such reasonable period as the Collector may fix in this behalf, to enter into an agreement proposed to him under the said section or has terminated or given notice of his intention to terminate such an agreement.

Maintenance of certain protected monuments

11. (1) The Commissioner shall maintain every monument in respect of which the Government has acquired any of the rights mentioned in section 4 or which the Government has acquired under section 10.

(2) When the Commissioner has accepted the guardianship of a monument under section 4, he shall, for the purpose of maintaining such monument, have access to the monument at all reasonable times, by himself and by his agents, subordinates and workmen, for the purpose of inspecting the monument, and for the purpose of bringing such materials and doing such acts as he may consider necessary or desirable for the maintenance thereof.

Voluntary contributions

12 The Commissioner may receive voluntary contributions towards the cost of maintaining a protected monument and may give orders as to the management and application of any funds so received by him:

Provided that no contribution received under this section shall be applied to any purpose other than the purpose for which it was contributed

Protection of place of worship from misuse, pollution or desecration

13. (1) A place of worship or shrine maintained by the Government under this Act shall not be used for any purpose inconsistent with its character

(2) Where the Collector has, under section 4, purchased or taken a lease of any protected monument, or has accepted a gift or bequest, or the Commissioner has, under the same section, accepted the guardianship thereof, and such monument, or any part thereof, is periodically used for religious worship or observances by any community, the Collector shall make due provision for the protection of such monument, or such part thereof, from pollution or desecration—

(a) by prohibiting the entry therein, except in accordance with conditions prescribed with the concurrence of the persons in religious charge of the said monument or part thereof, of any person not entitled so to enter by the religious usages of the community by which the monument or part thereof is used, or

(b) by taking such other action as he may think necessary in this behalf.

The Ancient Monuments Preservation Act, 1904.

(Ancient Monuments.—Sections 14-16. Traffic in Antiquities.—Section 17.).—
(Protection of Sculptures, Carvings, Images, Bas-reliefs, Inscriptions or like objects.—Sections 18-19.)

Relinquishment of Government rights in a monument

14. With the sanction of the Local Government, the Commissioner may—

(*a*) where rights have been acquired by Government in respect of any monument under this Act by virtue of any sale, lease, gift or will, relinquish the rights so acquired to the person who would for the time being be the owner of the monument if such rights had not been acquired; or

(*b*) relinquish any guardianship of a monument which he has accepted under this Act.

Right of access to certain protected monuments

15. (*1*) Subject to such rules as may after previous publication be made by the Local Government, the public shall have a right of access to any monument maintained by the Government under this Act.

(*2*) In making any rule under sub-section (*1*), the Local Government may provide that a breach of it shall be punishable with fine which may extend to twenty rupees.

Penalties.

16. Any person other than the owner who destroys, removes, injures, alters, defaces or imperils a protected monument, and any owner who destroys, removes, injures, alters, defaces or imperils a monument maintained by Government under this Act or in respect of which an agreement has been executed under section 5, and any owner or occupier who contravenes an order made under section 7, sub-section (*1*), shall be punishable with fine which may extend to five thousand rupees, or with imprisonment which may extend to three months, or with both

Traffic in Antiquities.

Power to Governor General in Council to control traffic in antiquities.

17. (*1*) If the Governor General in Council apprehends that antiquities are being sold or removed to the detriment of India or of any neighbouring country, he may, by notification in the Gazette of India, prohibit or restrict the bringing or taking by sea or by land of any antiquities or class of antiquities described in the notification into or out of British India or any specified part of British India.

(*2*) Any person who brings or takes or attempts to bring or take any such antiquities into or out of British India or any part of British India in contravention of a notification issued under sub-section (*1*), shall be punishable with fine which may extend to five hundred rupees.

(*3*) Antiquities in respect of which an offence referred to in sub-section (*2*) has been committed shall be liable to confiscation.

(*4*) An officer of Customs, or an officer of Police of a grade not lower than Sub-Inspector, duly empowered by the Local Government in this behalf, may search any vessel, cart or other means of conveyance, and may open any baggage or package of goods, if he has reason to believe that goods in respect of which an offence has been committed under sub-section (*2*) are contained therein

(*5*) A person who complains that the power of search mentioned in sub-section (*4*) has been vexatiously or improperly exercised may address his complaint to the Local Government, and the Local Government shall pass such order and may award such compensation, if any, as appears to it to be just.

Protection of Sculptures, Carvings, Images, Bas-reliefs, Inscriptions or like objects.

Power to Local Government to control moving of sculptures, carvings or like objects.

18. (*1*) If the Local Government considers that any sculptures, carvings, images, bas-reliefs, inscriptions or other like objects ought not to be moved from the place where they are without the sanction of the Government, the Local Government may, by notification in the local official Gazette, direct that any such object or any class of such objects shall not be moved unless with the written permission of the Collector.

(*2*) A person applying for the permission mentioned in sub-section (*1*) shall specify the object or objects which he proposes to move, and shall furnish, in regard to such object or objects, any information which the Collector may require.

(*3*) If the Collector refuses to grant such permission, the applicant may appeal to the Commissioner, whose decision shall be final.

(*4*) Any person who moves any object in contravention of a notification issued under sub-section (*1*), shall be punishable with fine which may extend to five hundred rupees.

(*5*) If the owner of any property proves to the satisfaction of the Local Government that he has suffered any loss or damage by reason of the inclusion of such property in a notification published under sub-section (*1*), the Local Government shall either—

(*a*) exempt such property from the said notification:

(*b*) purchase such property, if it be movable, at its market-value; or

(*c*) pay compensation for any loss or damage sustained by the owner of such property, if it be immoveable.

Purchase of sculptures, carvings or like objects by the Government.

19. (*1*) If the Local Government apprehends that any object mentioned in a notification issued under section 18, sub-section (*1*), is in danger of being

The Ancient Monuments Preservation Act, 1904.
(Excavations.—Section 20. General.—Sections 21-24.)

destroyed, removed, injured or allowed to fall into decay, the Local Government may pass orders for the compulsory purchase of such object at its market-value, and the Collector shall thereupon give notice to the owner of the object to be purchased.

(2) The power of compulsory purchase given by this section shall not extend to—

(a) any image or symbol actually used for the purpose of any religious observance, or

(b) anything which the owner desires to retain on any reasonable ground personal to himself or to any of his ancestors or to any member of his family.

Excavations.

Power to Local Government to control excavation.

20. (1) If the Local Government is of opinion that excavation within the limits of any local area ought to be restricted or regulated for the purpose of protecting or preserving any ancient monument, the Local Government may, by notification in the local official Gazette, make rules—

(a) fixing the boundaries of the area to which the rules are to apply; and

(b) prescribing the authority by which, and the terms on which, licenses to excavate may be granted.

(2) The power to make rules given by this section is subject to the condition of the rules being made after previous publication.

(3) A rule made under this section may provide that any person committing a breach thereof shall be punishable with fine which may extend to two hundred rupees.

(4) If any owner or occupier of land included in a notification under sub-section (1), proves to the satisfaction of the Local Government that he has sustained any loss by reason of such land being so included, the Local Government shall pay compensation in respect of such loss.

General.

Assessment of market-value or compensation.

21. (1) The market-value of any property which Government is empowered to purchase at such value under this Act, or the amount of compensation to be paid by Government in respect of anything done under this Act, shall, where any dispute arises touching the amount of such market-value or compensation, be ascertained in the manner provided by the Land Acquisition Act, 1894, sections 3, 8 to 34, 45 to 47, 51 and 52, so far as they can be made applicable:

Provided that when making an inquiry under the said Land Acquisition Act, 1894, the Collector shall be assisted by two assessors, one of whom shall be a competent person nominated by the Collector, and one a person nominated by the owner or, in case the owner fails to nominate an assessor within such reasonable time as may be fixed by the Collector in this behalf, by the Collector.

Jurisdiction.

22. A Magistrate of the third class shall not have jurisdiction to try any person charged with an offence against this Act.

Power to make rules.

23. (1) The Governor General in Council or the Local Government may make rules for carrying out any of the purposes of this Act.

(2) The power to make rules given by this section is subject to the condition of the rules being made after previous publication.

Protection to public servants acting under Act.

24. No suit for compensation and no criminal proceeding shall lie against any public servant in respect of any act done, or in good faith intended to be done, in the exercise of any power conferred by this Act.

J. M. MACPHERSON,
Secretary to the Government of India.

SUPPLEMENT TO

The Gazette of India.

No. 12. } CALCUTTA, SATURDAY, MARCH 19, 1904

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 a.m. on Thursday, the 17th March 1904, based on the India Daily Weather Reports of the period.

The weather during the week under review has been feebly unsettled and showery over North-West India and North-East India and over Malabar, but has been fine and quiet elsewhere.

In North-West India showers occurred on the 12th and 13th and on the 16th and 17th. On the former occasion the falls were light, the largest amounts reported having been 0·20" at Dehra Dun, on the latter occasion the rainfall was heavier, Murree reporting 1·19", Cherat 1·17", Minimarg 1·02", Sonemarg 0·96", Dera Ismail Khan 0·72" and Srinagar, Dras, Astor, Peshawar and Khushab over 0·50". Both falls were confined to the hill and submontane regions of Upper India.

In North-East India the rainfall was received mainly on the 11th, 13th and 15th, though some light local showers occurred on the other days of the week. On the 11th the heaviest falls were 1·58" at Silchar and 1·52" at Dibrugarh, on the 13th the heaviest falls were 0·42" at Sibsagar and 0·38" at Dibrugarh, and on the 15th the heaviest falls were 0·99" at Silchar and about 0·30" at Chittagong and Barisal. Rain fell in Lower Bengal on the 11th, but the other times the fall was confined to Assam and East Bengal.

In Malabar rain fell on the 11th and 13th, but the showers were apparently very local.

The weather was disturbed and showery throughout the week in Persia and Baluchisan. At the close of the week the barometer was low over Bengal and a period of showery unsettled weather appeared probable over that province and Assam.

The rainfall table shows that effective rain was received during the week over the Bengal, Assam, West Himalayas, North-West Dry and Baluchistan divisions, and the Calicut and Cuttack sub divisions, the average total rainfall ranging from 0·10" in the Cuttack sub-division to 0·81" in the Narayanganj sub-division. Elsewhere there was no rain of importance during the week.

The seasonal rainfall is in excess over the Ludhiana, Lahore, Ranchi, Jubbulpore and Madura sub-divisions and the North-West Dry, Central India, Gujarat and East Coast (South) divisions, and is normal over the Bengal, Brahmaputra and Baluchistan divisions and the Dinajpur, Burdwan, Simla, Calicut, Bellary and Mysore sub-divisions. Elsewhere the rainfall is short of the average.

Rainfall division with representative station.	Rainfall sub-division named after representative station.	Rainfall data for week ending on 17th March 1904. Average actual rainfall.	Average normal rainfall.	Excess or defect in inches.	Rainfall data from 4th December 1903 to 17th March 1904. Average actual rainfall of season to date.	Average normal rainfall.	Excess or defect in inches.	Seasonal percentage departure from normal. This week.	Last week.

for Meteorological Reporter to the Government of India and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA:
The 17th March 1904.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 12th March 1904.

Madras—There was light rain in Bellary and in parts of the Circars during the week but none elsewhere. Irrigation supplies are generally sufficient. Ploughing, sowing, and transplanting are in progress in parts. The standing crops are generally fair Harvests continue with fair outturn. Pasture is scanty in parts of the Circars and the Deccan. Fodder is procurable. The condition of cattle is good. Prices are almost stationary.

Bombay.—There was slight rain during the week in parts of Karachi, Larkana, Hyderabad, Thar and Parkar, Ahmednagar and Bijapur The standing crops have been damaged by locusts in parts of Colaba, Ratnagiri, and Satara, by blight in parts of Larkana and Dharwar, by insects in parts of the Upper Sind Frontier, and by recent rain in parts of the Panch Mahals; and are generally in good condition elsewhere Harvesting of spring crops continues in parts of Karachi, Gujarat, the Konkan, Khandesh, Nasik, Sholapur, the Carnatic, Rajkot and Baroda. Threshing is completed in Poona and continues in parts of Surat, Nasik, Ahmednagar, and Satara Cotton is slightly damaged by blight in parts of Dharwar, is in fair condition in parts of Ahmedabad and Panch Mahals; and in good condition in parts of Larkana and Broach Picking is completed in Poona and is in progress in parts of Gujarat, Satara, Carnatic and Baroda. Preparation of lands for next season are in progress in parts of the Konkan, Khandesh, Ahmednagar, Poona, Satara, the Carnatic, Rajkot, and Wadhwan. The fodder supply is sufficient Agricultural stock and water-supply are generally sufficient Prices have fallen in one district; risen in four districts, and are stationary elsewhere.

Bengal.—Rain is reported from every district except Jalpaiguri, Rangpur, Bogra, Mymensingh, Champaran, Muzaffarpur, Darbhanga, and Purnea. The fall was heavy in Rajshahi and moderately heavy in parts of Lower Bengal, Orissa and Chota Nagpur. Slight damage to crops has been caused by hail in Gaya, Bhagalpur and Palamau Prospects are otherwise good. Harvesting of spring crops, pressing of sugarcane, and transplantation of summer rice continue. Ploughing and sowing are in progress Fodder and water are generally sufficient. The price of common rice has risen in two districts, has fallen in five and is stationary in the remainder.

United Provinces.—Rain has fallen in twenty-three districts, Saharanpur, having received over four inches The harvesting of spring crops continues and the sowing and irrigation of extra crops has begun in places Extracting of opium is in progress and fields are being prepared for the autumn crops Slight damage by hail to the poppy crop is reported in Budaun and to other standing crops in eight districts. Scarcity of fodder is reported in Budaun, Bahraich, and Gorakhpur. Markets are well supplied and prices are stationary.

Punjab.—Good rainfall in all districts except Delhi and Jullunder where it was slight. The price of wheat is rising slightly in Amritsar and Mooltan, the prices of other food grains are fluctuating. Sowings of extra spring crops are in progress in most districts Ploughings and sowings of sugarcane and cotton crops are going on in certain districts. Land is being prepared for autumn sowings in the Lahore district The condition of the standing crops is reported good to fair in all districts except Delhi where the crops are said to be below average. The recent rain has greatly benefited the standing crops. Crops have been slightly damaged by hail and also by excessive rain in lowlying lands in parts of Hissar and Sialkot, they have also been damaged by excessive rain in lowlying lands in Amritsar. Hail fell in Ferozepore but did no damage. Cattle are generally in good condition throughout the province Fodder is said to be sufficient in all districts except Delhi and in parts of Rawalpindi.

North-West Frontier Province—The rainfall of the week averaged half an inch in Peshawar and 1½ inches in Dera Ismail Khan. Showers have fallen in other districts and the rain though generally beneficial has caused some injury to lowlying crops and a break is now wanted. Prospects are generally excellent. Stocks of food grains and fodder are ample. Prices are falling in Peshawar.

Burma.—There was slight rain in three Northern districts during the week. Ploughing for early wet weather paddy has begun in Mandalay and Kyaukse. Plucking of tobacco is in progress. Transplanting of dry weather paddy and harvesting of the miscellaneous

crops continue. The price of paddy has risen in the Upper Chindwin, Katha, Bhamo and Mandalay districts and has fallen slightly in Rangoon and five other Lower Burma districts

Central Provinces.—Light showers have fallen in six districts. The harvesting of winter crops is in full swing and threshing has commenced. The outturns are generally good. The damage caused by the recent hail is reported to have been somewhat severe in a few villages in the Saugor and Mandla districts, and slight in a few villages of Nimar and Balaghat. The preparation of land for autumn sowings continues. Prices of wheat and gram show a slight tendency to rise.

Assam.—Rain fell in all districts during the week. More rain is wanted for tea in Kamrup Tea pruning, sugarcane pressing, ploughing for rice and jute, and sowing of early rice are in progress Gathering of mustard is finished in most districts The outturn of sugarcane and mustard is fair to good Fodder is insufficient in parts of Sylhet and in the Hills Prices—common rice—Silchar, Sylhet, and Tezpur 18, Dhubri, Gauhati, and Nowgong 16, Sibsagar 13, and Dibrugarh 12 seers per rupee

Mysore—Prices are steady The standing crops are in good condition. Prospects of the season are good Cattle are healthy except in parts of Mysore and Chitaldrug. Water and fodder are available

Coorg—Prices of food grains are normal. Fair water and fodder are sufficient.

Hyderabad—There was no rain during the week The spring harvest and weeding of late rice continues The standing crop is good Lands are being prepared for autumn sowings in parts Prices—wheat 12½, rice 11¼, and jowar 31½ seers per halli rupee

Rajputana—Rain fell in parts during the week. Agricultural operations are generally satisfactory The condition of the standing crops and of cattle is generally good. Some damage has, however, been caused by rain and hail storms in parts The damage to the opium crop in Kotah is serious Fodder is ample Prices are favourable

Central India.—There was no rain during the week. Agricultural operations are in progress Crops have been damaged in parts of Gwalior, Indore, Bhopal, Baghelkhand, and Bhopawar by recent rain, but are good elsewhere Agricultural stock is good except in parts of Indore and Bhopawar. Pasturage is generally good. Prices are normal in Gwalior, Indore and Baghelkhand, rising in Bhopal, and stationary elsewhere. Opium is fair in Bhopal, Malwa and Bhopawar, and good in parts of Indore and Gwalior.

Kashmir.—The weather is generally rainy. Prices are stationary

Jammu.—There was slight rain during the week. Prices are fluctuating Wheat sells from 14 to 26 and maize from 20 to 36 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient.

Nepal.—Rainfall 0·04 The weather has been somewhat cloudy and cold. The price of rice is 5¼ seers for the rupee.

J. WILSON,

Secretary to the Government of India

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

SANITARY.

PLAGUE.

Calcutta, the 17th March, 1904.

The following statement of plague seizures and deaths reported in India during the week ending the 12th March 1904 is published for general information.—

FINANCIAL STATEMENT FOR 1904-1905.

PART I.

1. With Your Excellency's permission, I will now lay before the Legislative Council the actual financial results of the year 1902-1903; our Revised Estimates for 1903-1904; and our Budget Estimates for the coming financial year 1904-1905.

2. In their briefest form, and leaving out Capital, Debt, and Remittance transactions, the figures are as follows —

	1902-1903 (Accounts).
	£
Revenue	77,434,915
Expenditure (charged against Revenue)	74,365,366
Surplus	3,069,549

	1903-1904 (Revised Estimate).
	£
Revenue	83,067,800
Expenditure (charged against Revenue)	80,356,600
Surplus	2,711,200

	1904 1905 (Budget Estimate).
	£
Revenue	80,148,600
Expenditure (charged against Revenue)	79,229,900
Surplus	918,700

Accounts, 1902-1903.

3 The final accounts of the financial year 1902-1903 show a surplus of £3,069,549, being an increase of £2,231,849 over the original Estimate which showed a surplus of £837,700, and of £331,049 over the Revised Estimate

4. On the Expenditure side, the accounts show an increase of £832,666, as compared with the original Estimate, and of £211,366, as compared with our Revised Estimate.

5. On the Revenue side, the more important differences between Accounts and Revised Estimate are under receipts by Military Department—increase of £204,390; Salt—increase of £144,405; Railways—increase of £107,500; Customs—increase of £90,936; Other Heads—increase of £57,123; and Excise—increase of £49,042. Against these rather considerable increases we have decreases under Land Revenue, and under Irrigation of £51,655 and £66,010 respectively. The result of these and other minor changes is an actual increase in revenue of £542,415, as compared with the Revised Estimate, and allowing for an increase in expenditure of £211,366, the final result is an increase of the surplus by £331,049.

Increase in the receipts by Military Department occurred partly in India and partly in England and was due, in the former, chiefly to credits taken for value of equipment, etc., supplied for Imperial service requirements abroad. The increase in England was mainly due to earlier recoveries of contributions towards pensions of Indian Native soldiers lent for Imperial service. The increase under Salt was contributed by all the provinces and is attributable to our under-estimate of payments on clearances of salt for trade stocks, during the last weeks of the year. We apprehended that traders would anticipate a reduction in the duty, and would accordingly delay clearances. The increase under Railways is the aggregate result of minor differences due to under-estimates of traffic on several lines. Under Customs, the increase occurred chiefly in Burma, Madras, and Bombay, and was due to large exports of rice, and to more

extensive imports of petroleum, silver, copper, and spirits. The increase under Other heads of Revenue occurred chiefly under Forests in Burma and Madras; that under Excise chiefly in Burma and Berar

The decrease under Land Revenue was due to over-estimate of collection in Bombay and Burma, under Irrigation, to an over-estimate in the Punjab.

6 As regards expenditure, the more important variations in figures as between the Accounts and the Revised Estimate, are increases of £190,892 under Army Services, £169,407 under Other Public Works, £49,343 under Salaries and Expenses of Civil Departments, and of £39,151 under Railway Revenue Account; and decreases of £101,831 under Direct Demands on Revenue, and of £114,640 under provincial surpluses added to the provincial balances and charged as expenditure These items account for the greater portion of the total differences noted.

The increased expenditure under Army Services occurred under effective charges both in India and in England; in India, under Supply and Transport, Ordnance, and Miscellaneous Services, and in England, under "Stores," due to larger payments than anticipated, on account of indents The increase under Other Public Works was due to unexpectedly heavy expenditure in the last two months of the financial year Under Salaries and Expenses of Civil Departments, the increase occurred chiefly under Education, and was due to larger payments than were anticipated on account of grants-in-aid to certain schools. The increase under Railway Accounts was chiefly on account of working expenses on the North Western and Great Indian Peninsula Railways, and was due to increased train mileage compensated by improved earnings. Savings under Assignments and Compensation, Land Revenue, and Forest, are the principal causes of the decrease under Direct Demands on Revenues. The decrease under Provincial Surplus is the result of larger expenditure than anticipated in Bengal, the United Provinces, and Madras.

Revised Estimate, 1903-1904.

7. The Revised Estimate of Revenue shows an anticipated increase over the original estimate of £6,712,400 and, allowing for an increase in expenditure (including Provincial surpluses and deficits) of £4,949,900, results in a total anticipated surplus of £2,711,200 as compared with the Budget Estimate which showed a surplus of £948,700 This considerable excess surplus is due to an increase of revenue in greater or less proportion under all heads, except Telegraphs, the returns from which have unfortunately disappointed us, yielding £30,200 less than the estimate, £22,779 less than in 1902-1903, and £53,909 less than in 1901-1902.

Revenue.

8. The following are the increases in the Revised over the Budget Estimate, under the different heads, and allowing for the failure under Telegraphs, they result in a total increase of revenue of £6,712,400:—

	£
Land Revenue	152,700
Opium	1,354,900
Salt	206,700
Stamps	41,200
Excise	420,400
Customs	316,200
Other Heads	176,900
Interest	86,600
Post Office	39,400
Mint	2,345,500
Receipts by Civil Departments	190,700
Miscellaneous	40,200
Railways	1,106,100
Irrigation	161,400
Other Public Works	71,100
Receipts by Military Department	32,600
	6,742,600
Telegraphs (decrease)	30,200
Net increase	6,712,400

It will be observed that by far the most important items of increase in Revenue are under Opium, £1,354,900; Mint, £2,345,500; and Railways, £1,106,100. The increase under these three heads alone amounts to no less a sum than £4,806,500 approximating three-fourths of the total excess over the Budget Estimate

The very important increase under Opium is due to the phenomenal rise in prices realised at sales during the past year In view of the prices obtained during the previous year, we did not feel justified in assuming for 1903-1904, a higher price than R1,100 per chest, whereas the actual average obtained has amounted to no less than R1,462 per chest, reaching the extraordinary high level of R1,765 for the month of February last. The following figures illustrate the course of the market throughout the year.

Average sale-price of opium per chest during the financial year 1903-1904.

	R	a	p		R	a.	p.
April	1,240	5	1	October	1,446	15	1
May	1,255	14	3	November	1,498	13	9
June	1,267	4	2	December	1,492	10	4
July	1,297	2	1	January	1,626	9	0
August	1,388	9	10	February	1,765	0	1
September	1,567	1	8	March	1,697	8	8

Average for the year R1,461-15-10.

It is absolutely impossible to foretell the course of events in the highly speculative opium market, and we are bound to be cautious in our estimates, as the course of the market depends not only on the opium crop, but also on the situation in China, which for some time past has been unusually perturbed.

As regards possible Mint profits, we must always be in the dark until requirements for coin have declared themselves, and it is quite impossible to estimate beforehand what such requirements may amount to in any particular year To exemplify the uncertainty of the demand I submit the figures showing the annual coinage of rupees in the Mints, excluding coinage to replace withdrawals of old issues, since the commencement of operations for increasing the rupee circulation .—

	R
1900-01	13,40,73,058
1901-02	3,25,87,221
1902-03	21,11,378
1903-04 (11 months only)	9,42,81,408

It will be observed that annual requirements have varied from R21,11,378 to R13,40,73,058, with a similar variation in profits. It must be remembered, however, that whilst mint profits are necessarily tabulated in our revenue returns, they do not increase our available resources, as profits from rupee coinage are transferred to the Gold Reserve Fund.

The unanticipated increase in railway revenue is equivalent to approximately 5½ per cent on the estimate. In this matter also we have always to deal with uncertainties, since returns are entirely dependent on seasonable conditions affecting yield and movements of produce, and also to a greater or less extent on the prices for such produce which may prevail in European markets. I submit figures showing the fluctuations in net railway revenue returns during the last five years, including the estimates for the coming year :—

1900-1901.	1901-1902.	1902-1903.	1903-1904 (Revised).	1904-1905 (Budget).
£	£	£	£	£
325,124	846,616	228,949	854,600	354,200

The other differences in excess of anticipated revenue, though important in themselves both as regards improvement of revenue and evidence of general prosperity, are relatively of minor significance. Taking them in order of importance, the increase in Excise returns, as compared with the results of 1902-1903, somewhat exceeds £498,800, and is equivalent to an augmentation of about 21 per cent in two years, following on smaller increases in the two previous years when the stress of famine was still making itself severely felt in some parts of the country. Increase of revenue is undoubtedly in great part due to improved administration and greater attention to preventive measures, but it is also due, and probably to a very large extent, to improvement in the condition of the people. Satisfactory as is from one point of view a growth of revenue, we could not regard with satisfaction any increase which might possibly be attributed to increased consumption of alcohol in excess of the legitimate requirements of those classes among

the population to whom from long habit and custom, alcohol in moderation is a virtual necessity There is no desire on the part of the Government of India to increase revenue by encouraging indulgence in alcohol. It is a matter in which we feel our full responsibility, which undoubtedly requires constant careful watching, and to which at the present moment we are devoting special attention in the interests of temperance and morality

Our Customs revenue, though falling short of the realizations in 1902-1903, has exceeded our expectations. Important increases are to be found under the heads of Manufactured Articles (8¼ lakhs), Spirits and Liqueurs, Sugar (ordinary duties), White and Coloured Piece Goods, and Other Metals and Manufactures of Metals The total increase under the heads above enumerated amounts to 26 lakhs, but it is more than counterbalanced by a falling-off of approximately 9¾ lakhs on Petroleum, nearly 7 lakhs under Grey Shirtings, and other minor differences. Any decrease in revenue returns is in a sense unfortunate, but we may console ourselves as regards any loss on petroleum and cotton cloths by the reflection that there is no falling-off in the consumption of those articles, and that where duty-paying foreign imports have diminished, they have been replaced by home production.

The excess over our estimate for revenue from salt is a matter for unqualified congratulation, being almost entirely due to increased consumption. Under Receipts by Civil Departments the increase occurred under 'Marine,' and was partly due to a change in accounting, and partly to recoveries on account of the employment of Royal Indian Marine vessels in connection with the operations in Somaliland.

As a matter of percentage, the increase in Land Revenue is trifling; I submit once more figures showing returns for a series of years, and it will be seen that the average annual increase since 1898-99, the last year before the ravages of famine, is approximately 1·17 per cent:—

	£		£
1898 99 . .	18,306,208	1902-1903 . .	18,436,845
1899-1900 . .	17,205,056	1903-1904 . .	19,262,400
1900-1901 . .	17,503,031	1904-1905 . .	19,591,600
1901-1902 . .	18,288,018		

The increase under Irrigation, which amounts to nearly £188,000, as compared with 1902-1903, and to nearly £419,000, as compared with 1901-1902, is in the main due to the extension of irrigation undertakings which bring direct prosperity to individuals and indirect prosperity to the State at large, the remaining items of increase are of minor importance.

EXPENDITURE

9. Expenditure has exceeded the original estimate by £4,949,900, of this considerable excess no less a sum than £4,797,600 falls under the heads of Mint, and Provincial Surpluses and Deficits The increase of expenditure under Mint may be neglected, being fully compensated by increased receipts. The increase under Provincial Surpluses and Deficits includes grants to Provincial Governments amounting to £1,726,700, of which £1,000,000 is in connection with the new provincial settlements, Bengal receiving £333,300, the United Provinces £200,000, Madras £333,300, and Assam £133,400. The variations under other heads of expenditure are of relatively minor importance, fairly balancing one another and resulting in a total increase of £152,300, the more important items are Direct Demands on Revenue—increase £240,300, attributable to heavy expenditure on opium cultivation and establishment, in consequence of an abnormally large crop; Railway Revenue Account—increase, £292,400, due to heavier working expenses for increased traffic and increased train-mileage, and more than compensated by increased receipts; Other Public Works—increase, £97,400, due to sanction of additional grants for civil works during the course of the year; Army Services—increase, £164,400, due to expenditure for the missions in Tibet, Aden, and Seistan, partly counterbalanced by savings arising from the absence of troops in Somaliland and China; and Miscellaneous Civil Charges,—increase, £68,800, due to the writing-off of agricultural advances granted during the late famine, and which have proved irrecoverable

The only head under which a really important decrease of expenditure is noted is Salaries and Expenses of Civil Departments £368,100; minor savings aggregating £342,900 have been realised under the heads of, Interest, Post Office, Telegraphs, Famine Relief and Insurance, Irrigation and Special Defences. The excess of estimates over expenditure under Salaries and Expenses of Civil Departments in 1901-1902 was

£312,001, and in 1902-1903, £439,557, indicating apparently a regrettable tendency in some provinces to continually exaggerate requirements. Endeavours will be made to find a remedy.

Budget Estimates, 1904-1905.

10. Our estimates of receipts and expenditure for the forthcoming financial year result in an anticipated surplus amounting to £918,700, but it is to be noted that in calculating this result, allowance is made for a decrease in Provincial balances of £1,316,800.

REVENUE.

11. The principal items of estimated increase in revenue, as compared with the Revised Estimate of 1903-04, are as follows :—

	£
Land Revenue	329,200
Stamps	49,000
Excise	124,500
Other Heads	94,700
Railways	176,400

These with minor improvements under Post Office, and Irrigation, make up a total anticipated increase of revenue amounting to £794,600.

The increase in Land Revenue is largest in Burma and Madras, but it is fairly general, and is important in Assam, the Central Provinces, Berar, and Bombay. The chief cause of general increase is recovery after the recent famine; some re-settlements have however been made, and in the Punjab irrigation has been extended Under Stamps and Excise, a normal increase has been allowed for. The increase estimated under Railway receipts is based on the anticipated improvement in traffic on certain lines, and increased working mileage.

12. On the other hand, we anticipate a falling-off in receipts under the following heads :—

	£
Opium	781,600
Mint	2,516,100
Other Public Works	68,000
Receipts by Military Department	172,500
TOTAL	3,538,200

These, with minor decreases in Salt, Customs, Interest, Telegraph, Receipts by Civil Departments and Miscellaneous Receipts, result in a total falling-off of £3,713,800.

We cannot anticipate a continuance of the abnormally high prices latterly obtained for Bengal opium, and we have based our estimates for the coming year on an assumed price of R1,250 per chest, as compared with the average of R1,144-8-11 obtained in 1902-1903, and R1,461-15-10 in 1903-1904. The heavy fluctuations in this very important source of revenue are noted in the following table :—

	Average price per chest.		
	R	a.	p.
1898-1899	1,055	7	5
1899-1900	1,220	15	5
1900-1901	1,360	10	10
1901-1902	1,296	15	5
1902-1903	1,144	8	11
1903-1904	1,461	15	10
1904-1905 (Estimate)	1,250	0	0

The decrease under Mint is, as I have already noted, due to the fortuitous circumstances influencing receipts under this head.

The decrease under Other Public Works is chiefly due to special receipts from sales of buildings, and the falling-off in receipts by Military Department is mainly attributed to anticipated smaller recoveries for stores, etc., to be supplied to the Imperial Government.

EXPENDITURE.

13. The total increase in expenditure on revenue account is estimated at £1,391,300.

The more important heads of increase are :—

	£
Direct Demands on the Revenues	198,400
Post Office	116,000
Salaries and Expenses of Civil Departments	916,800
Railway Revenue Account	676,800
Other Public Works	524,500
Army Services	1,258,400
Special Defences	228,300

These with minor additions under Telegraph, Famine Relief and Insurance, and Irrigation result in a total increase of expenditure amounting to £4,028,500. The most important increase, that of £1,258,400 under Army Services, is almost wholly accounted for under the two heads of Increased Pay to British Troops, approximately £493,900, which becomes payable from April 1904, and £700,000 for new armament, guns, and rifles, the latter is fortunately a non-recurring charge There are other minor differences of increase and decrease in Military charges, but excluding the two items I have specially noted, the aggregate Military estimates do not materially exceed those of the closing year.

The large increase of £916,800 under Salaries and Expenses of Civil Departments occurs chiefly under Education, Police, Medical, and Political. Should we have another really prosperous season, additional expenditure under Railway Revenue Account will in great part be covered by increase[illegible] expenditure is inevitable, we cannot, in framing our estimates, allow for more than normal profits to counterbalance them. The addition of £116,000 to Post Office charges is due to the progressive development of the Postal service. The increase of £524,500, under Other Public Works, is chiefly due to the expenditure to be met by Local Governments out of the special grants given to them towards the close of the current financial year, and that of £228,300 under Special Defences, to the adoption of a definite programme for improving Coast Defences. The other items of increase are of relatively small importance.

14 Against such items of increase there are decreases under the following heads —

	£
Mint	2,385,000
Miscellaneous Civil Charges	129,700
Interest	122,500

The decrease under Mint is approximately counterbalanced by the smaller entry for receipts under the same head, that under Miscellaneous Civil Charges is chiefly due to a considerable sum, considered irrecoverable, having been written off on account of takavi advances made during the late famine.

Summary of Budget Results.

15. We may now consider the situation as regards our estimates for items classified in the Accounts as non-chargeable to revenue. We carry forward to this second part of our statement, which includes Capital and Debt transactions, Deposits, Remittances, and Advances, a surplus of £918,700. Our total estimate for capital expenditure on Railways and Irrigation amounts to £8,940,900, of which sum £6,310,300 is for account of State Railways, £1,797,300 for the account of Railway Companies; and £833,300 for Major Irrigation Works. In addition to the above, we have to find

£1,088,800 for discharging Permanent Debt, and £333,300 for discharging Temporary Debt. We have also to make a net payment of £1,407,500, under Deposits, Advances, and Remittances Thus the total of our capital requirements amounts to £11,770,500.

16. To meet these requirements, we estimate that in addition to the surplus of £918,700, we shall have at our disposal a sum of £2,917,200, to be raised by Railway Companies We further propose to increase our permanent debt by £4,500,000, including a loan of 3 crores of rupees, to be raised in India, and we also anticipate the realisation of £688,100 by addition to the unfunded debt. The above sums amount in the aggregate to £9,024,000, and the balance required to meet the total expenditure of £11,770,500 will be found by the reduction of the total of closing balances in India and England by £2,746,500.

17 The final estimated results show closing balances on March 31st, 1905, in India of £11,060,616 and in England of £4 696,287

18. As regards the loan to be raised in India, we reserve the right to alter the amount to any extent that may appear desirable The present intention of the Secretary of State is to draw Bills to meet requirements for sterling payments to the amount of £16,500,000. This figure is omitted from both sides of the account as above summarised Our estimate of payments during the coming year on account of Council Bills is £16,769,700

Coinage, Currency, and Exchange.

19 During the year now drawing to a close our coinage operations have been on a very large scale, and the issues of new rupees, including recoinage of withdrawn issues, have amounted to no less than a sum of R13,94,91,408 in addition to which we coined for Native States rupees to the value of R12,15,682 I submit the figures of coinage during the last four years —

	R
1900-1901	17,14,79,318
1901-1902	4,95,20,460
1902-1903	11,27,22,680
1903-1904 (11 months only)	14,07,07,090

20 There have been very heavy demands for currency in connection with the disposal of the bumper rice crop in Burma, the large cotton crops in Bombay and Central India, and the generally good crops of cereals and seeds. The demands for currency began this year somewhat earlier than usual, and the strain on our resources was at its height towards the close of the first week of January, fully six to seven weeks before the usual period A certain nervous anxiety prevailed for a time in financial circles, particularly in Calcutta, induced by the rapid and unusually early decrease in the stock of silver coin held in the currency reserve, which fell on the 7th of January to so low a figure as R7,50,76,000. Although the strain came, as I have pointed out, unusually early and surprised many, Government had taken measures in good time to meet possible difficulties, and within one week from the date of low-water mark, that is by January 15th, and notwithstanding the continuance of very heavy demands, we added approximately a crore to the amount of rupees in the Currency Reserve, and by the end of February we held in the Currency Reserve approximately 10¾ crores, or about 3¼ crores more than on January 7th. In this connection, I may mention that the withdrawals of rupees from the Currency Reserve during the single month of December amounted to no less than R4,05,23,000. The nearest approach hitherto to this extraordinary figure was in January 1903, when the withdrawals reached R3,77,17,000.

21 I submit a table which I think will be found of interest, showing month by month the gain or loss in the stock of rupees held in the Currency Reserve during the last four years, such gain or loss being calculated without reference to the additions which have been made from time to time by new coinage. It will be observed that the total loss during the period has amounted to approximately 21¾ crores, and I may mention that the amount of new rupees coined for Government, exclusive of recoinage of withdrawn rupees of 1835 and 1840 issues, has during the four years amounted to approximately 26½ crores. The withdrawals of rupees from the Currency Reserve do not in any way necessarily correspond with amounts of new coinage, but there will in existing circumstances be a certain general connection between them. There will only be a direct correspondence when gold is taken from the Currency Reserve to purchase silver for coinage; but silver may also be purchased from the proceeds of Council drafts, or

locally, and moreover, differences will arise on account of coinage for Native States, and coinage to replace withdrawn rupees of early issues. The two latter sources of difference have been allowed for in the following statement:—

[In thousands of rupees.]

	1900-01	1901-02.	1902-03	1903-04.	Average.

22 In anticipation of the heavy demands certain to arise as the result of exceptionally good crop prospects, we had already in the month of October commenced the purchase of silver and the coinage of rupees, and when the crisis came we had considerable stocks of bullion both in the Mints and in course of delivery from England, whilst further parcels were under orders. I think that it is not sufficiently recognised by the banking and commercial community that a low stock of rupees in the Currency Reserve, which might give some reasonable cause for apprehension in the absence of preparations for a rapid increase should necessity arise, is not an indication of danger when such preparations have been made, as on the present occasion. Danger point when there has been no prevision and no preparation, is not danger point when all due precautions have been taken to meet a strain.

23. In connection with the large coinage during the last few months, I think I should take this opportunity of expressing my warm appreciation of the manner in which the Mint Masters and all those responsible for the conduct of minting operations have worked to satisfy public requirements and to maintain the high reputation of the Mint staff. Work at the Mints is conducted under many difficulties owing to the fact that when coinage operations were resumed some four years ago, after a long period of comparative idleness, the machinery and appliances were found to be in many respects inadequate and unsuitable to meet the strain of very heavy work. Proposals have been under consideration for the establishment of a combined Mint with new machinery, and with all the latest improvements, but various objections have been raised to the scheme, and, meanwhile, the Mint staff are to be congratulated on their success in coping with the difficulties arising from the imperfections of existing arrangements.

24. Large as was the sale of Council Drafts during the year 1902-1903, the amount has been very greatly exceeded during the current year It has already reached £22,592,900, and it is estimated that it will attain the altogether phenomenal figure of £23,700,000; and in addition to this quite abnormally large sale of Council Bills, the imports of gold up to the end of February reached a figure approximating 12 millions sterling.

The Secretary of State by his drawings, and the Government of India by measures taken locally, have done all in their power to meet the demands of trade. The question of how this should best be done, has been and is likely still further to be, a matter for some discussion; here I would only say that I adhere to my opinion that it is impossible

to admit the direct responsibility of Government to immediately, and in all circumstances meet abnormal demands. Government have every right to expect that those who make it their special business and derive a profit from financing the trade of the country, will consider beforehand what are likely to be their requirements and make due preparation to meet the wants of their customers. We on our side will do all we can, and it is our intention in view of a probably permanent increase in demands for rupees during the winter season, to increase the standard of the stock of silver coin which it has hitherto been considered sufficient to hold in the Currency Reserve at the beginning of October, and further, to take permanent measures to enable a rapid addition to be made to that stock without the risk of delay in importing silver bullion for coinage.

As regards the events of the last few months I may point out that opinions in the most competent financial circles in India were by no means unanimous in anticipating the great demand for coin which arose. As late as December 15th none of the Presidency Banks had found it necessary to raise their rate above 4 per cent, and this rate is primarily dependent on the rates at which money is being offered in the open market: by January 5th all the Presidency Banks had, however, been obliged to raise rates to 6 per cent. This very rapid rise does not appear from the figures before us, to have been in any way due to low balances held by the Presidency Banks at the beginning of the period of pressure. It was caused by the extraordinary trade demands which the Presidency Banks alone appear to have been in a position to satisfy, and I have not heard of any case in which accommodation was refused to regular customers when good security was forthcoming. Similarly, Government showed no hesitation throughout the crisis, in exchanging gold and notes for rupees when demanded. I must insist on the fact that the Currency Reserve is maintained for the purpose of securing the stability of the note circulation and exchanging sovereigns, and as long as all obligations in this respect are fulfilled the public have no claim to further assistance from its resources.

25. During the year, the Gold Reserve Fund has increased from £3,810,730 to £6,382,200, of which amount £6,376,500 are invested in Consols, the National War Loan, and Local Loans Stocks. In addition to these resources, the last returns show a sum of £10,494,556 held in gold in the Currency Reserve.

26. Our exchange operations, as indicated by the rates obtained for Council Bills, have naturally been very favourable during the closing year. The estimated average rate for the rupee for 1903-04 is 16·053*d* as compared with the rates noted below for the four preceding years.—

1899-1900	1900-1901	1901-1902	1902-1903	1903-1904 (Estimate).
16·067*d*	15·973*d*.	15·987*d*.	16·002*d*.	16·053*d*.

Balance of Trade.

27. I have been much surprised to learn that there are considerable misapprehensions abroad on the question of the balance of trade. It is impossible to arrive at precise figures showing the exact situation, but I have considered all available sources of information and have had the following statement prepared:—

	1900-1901	1901-1902	1902-1903	Total of three years.
	£	£	£	£
Secretary of State's budgeted drawings	16,440,000	16,500,000	16,500,000	49,440,000
Excess value of Exports over Imports .	10,983,073	17,989,511	18,611,170	47,583,754
Deduct—Transfer of Rupee Paper to India, *net*	—908,260	1,212,670	1,152,470	1,456,880
Excess balance of Exports . . .	11,891,333	16,776,841	17,458,700	46,126,874
Add—Payments by the War Office on account of supplies furnished to China and South African Forces . .	1,471,048	521,028	153,266	2,145,342
Total excess under classification of "Exports"	13,362,381	17,297,869	17,611,966	48,272,216
Deficit over period	3,077,619	+797,869	+1,111,966	1,167,784

It will be seen that during the three years 1900-1901, 1901-1902, 1902-1903, the excess of exports over imports amounted in value to £47,583,754, from this total must be deducted £1,456,880, the value of rupee paper transferred to India, during the period, which from the point of view of trade balances must be counted as an import The net excess value of exports over imports thus calculated, amounted for the three years to £46,126,874. But to this figure we must add a sum of £2,145,342, representing the value of stores, arms, munitions, and animals, supplied to the Home Government in connection with their requirements in South Africa and China, these supplies must be included in our exports although not tabulated in our trade statistics The addition of this sum to the balance of £46,126,874 noted above, shows for the period a net excess of exports amounting to £48,272,216 Now during the three years, the Secretary of State budgeted for Council drawings to meet the sterling requirements of Government for a total of £49,440,000. The difference between the net excess of exports and this figure, shows a balance adverse to India (or deficit) amounting to £1,167,784. It appears therefore that during the three years under consideration India received more than she paid for, the deficit having been made good by the Secretary of State's borrowings in England during the year 1900-1901, when on account of the famine, he was unable to meet his requirements by drawing to the full amount budgeted for. The Secretary of State's drawings actually *paid* during the period, amounted however to only £47,882,260, and thus, as regards actual payments, approximately £400,000 was provided in excess of requirements for payments of Council Bills, but such a difference amounting to less than one-tenth per cent of the total volume of the export and import trade during the three years, is of no account, as it is evident that neither the whole of the exports nor of the imports would be actually paid for within the period, and it is impossible to say on which side a balance might be due on account of trade operations at the close of three years, or what might be the amount of such balance

In such calculations as I have made, certain minor factors may escape observation, but I believe that the figures given, indicate the situation with sufficient accuracy for general purposes. They entirely dispose of the erroneous assumption that India is paying for more than she receives under the three heads of imported goods, imported investment securities, and payment abroad of budgeted Government sterling charges

Circulation of Currency Notes.

28. I submit the usual figures showing (1) the gross circulation of currency notes in recent years, and (2) the circulation excluding the amounts held at the Government Reserve Treasuries and by the Presidency Banks at their head offices.

[In lakhs of rupees.]

	1900-1901.	1901-1902	1902-1903.	1903-1904 (11 months only)
STATEMENT I.				
Average	28,88	30,03	33,74	36,24
Maximum	30,78	31,86	35,72	37,70
Minimum	27,90	27,68	31,25	33,94
STATEMENT II.				
Average	23,86	23,16	25,74	28,56
Maximum	25,02	24,40	27,35	29,96
Minimum	22,85	22,39	23,93	27,44

It will be observed that the increase in the average circulation is continued.

29. We have, I am sorry to say, not yet received the new forms for the universal 5-rupee note, but I hope that they may soon be issued; meanwhile the existing note has been made negotiable everywhere except in Burma. So far, it cannot be said that the

increase in the circulation of five-rupee notes can with certainty be attributed to the new arrangement; it is perhaps somewhat early to expect great results, and the figures which I give below only show that the increase in the circulation of five-rupee notes has kept pace with the total increase in all denominations. Much might, I think, be done towards popularising small notes by those who pay monthly wages in small sums, and who would, I think, find it convenient to themselves to use five-rupee notes in making such payments —

Average Gross Circulation of Currency Notes. (Except in Burma)

[In lakhs of rupees.]

Year.	Notes of all Denominations.	Five rupee notes.
1901	29,06	36
1902	31,61	40
1903	34,05	45

Presidency Banks.

30 Our negotiations with the Presidency Banks have been continued, and I can only express my regret that they have not so far terminated in arrangements satisfactory to both parties, but I have I think good reason to hope that a definite agreement will not be long deferred I submit a statement of Government balances held by the Presidency Banks during the busy months of the year, noting also the amounts which Government are under obligation to hold in deposit with the banks at their head offices —

	Lakhs
Calcutta	35
Bombay	20
Madras	18
TOTAL	73

Government Balances with the Presidency Banks.

[In thousands of rupees.]

MONTH.	1899.	1900	1901	1902.	1903	1904
January	2,73,84	2,48,75	2,64,54	2,85,89	3,07,63	2,69,52
February	2,72,31	2,56,23	2,86,73	2,97,16	3,32,02	2,91,84
March	3,38,07	2,79,18	3,15,79	3,11,24	3,36,91	
December	2,38,75	2,48,90	2,82,02	3,05,84	2,79,07	...

Foreign Tariffs.

31. The question of the influence of foreign tariffs on Indian trade has recently been brought into special prominence by the discussion which has been proceeding in the United Kingdom. The views of the Government of India have been set forth and communicated to the public in the published despatch addressed to the Secretary of State, dated the 22nd October 1903, and I do not think it is necessary for me to add any further observations on this occasion. We are, however, obliged from time to time to consider the immediate effect of changes made in foreign tariffs adverse to the interests of our export trade. Last year I noted the difficulties which had arisen under the new Persian tariff, as also that specially affecting our coffee planters in connection with the French tariff, and the prejudice caused to indigo interests by the change in the Japanese tariff, which appears specially to favour the imports of the synthetic product. On this latter point, negotiations are proceeding with the Japanese Government, and I trust that a satisfactory arrangement may be concluded. To the above list of questions, I have now to add that which has arisen in connection with the imposition by the Russian Government on Indian teas of practically prohibitive duties on imports into Russia *viâ* the Black Sea ports. So far, the number of questions which arise in

connection with foreign tariffs are relatively few, but I fear that as industries in this country develope the pressure of protective tariffs in foreign countries will make itself steadily and more severely felt.

Countervailing duties on Sugar

32 I give below figures of quantities of imports of sea-borne sugar into British India —

Country	1899-1900	1900-1901	1901-1902	1902-1903	1903-1904 (10 months only).
REFINED	Cwt	Cwt.	Cwt	Cwt	Cwt.
United Kingdom	65,424	119,272	188,300	314,777	615,842
Austria-Hungary	777,821	1,321,310	2,257,928	888,018	45,262
Germany	60,526	401,980	577,139	145,666	4,596
Mauritius	1,417,115	2,085,156	1,759,203	1,915,664	1,954,138
China-Hongkong	316,975	487,439	182,564	568 452	335,950
Java	190,553	225,247	310,592	573,666	1,153,164
Straits Settlements	79,999	144,166	62,486	207,810	217,638
Belgium	766	1,467	2,055	186,543	99,047
Holland	311	400	500	79,127	82,139
Other Countries	26,502*	55,199*	87,336*	107,128*	368,087*
TOTAL	2,935,992	4,841,636	5,428,103	4,986,851	4,875,863

* Includes figures for Egypt and Ceylon

The points specially worthy of notice in this table are the increase of importations from the United Kingdom and Java which has been remarkable, and the great decrease practically amounting almost to cessation of imports from Austria-Hungary and Germany The total importation in 1903-04 is slightly below the average, which for the last four years may be taken as approximately five million cwt It will be at once apparent that the policy of imposing countervailing duties resulted in great encouragement to imports of sugar from those countries which give no bounties, with a corresponding reduction in importations from those which have been artificially protecting their sugar industries.

33. The decisions of the Brussels Conference are now in force, and their execution is entrusted to a permanent committee on which the United Kingdom is represented The position of the Government of India in connection with this arrangement is unfortunately complicated and involves a constant necessity of taking most difficult decisions. An opinion recently given by the law officers of the Crown and communicated as an instruction to the Government of India by the Secretary of State, shows that we are unfortunately not so entirely free from the effect of the Brussels arrangements as we had supposed, and this opinion obliged us to cancel at short notice, the arrangements which we had supposed ourselves at liberty to make and which were embodied in the Act passed in Simla in August 1903, but we still endeavour to maintain the principle that countervailing duties shall be imposed on all imports of sugar profiting by direct or indirect bounties in the country of production Our object has throughout been to secure fair play for the very important Indian sugar refining industry, without offering any other protection than naturally arises from our ordinary 5 per cent duty, on foreign imports and the charges for freight, etc., between the country of origin and the Indian ports. It may not always be possible fully to maintain this principle in practice, since it is almost impossible to ascertain the existence of indirect bounties in the manifold forms in which the foreign sugar refiners succeed in securing them, and I am inclined to fear that the Brussels Committee who are in a position to pronounce authoritatively on the matter, and to whose decisions weight must be attached, are prone to take what appears a somewhat lax view on the all important question of what constitutes or does not constitute a practical bounty. We now propose to take the only step which appears for the moment to be open to us by passing a fresh legislative enactment to renew the power of the Government of India to meet by countervailing duties such trade combinations as may have the effect of bountifying the exports of sugar from foreign countries

34. The net receipts from countervailing duties during the last four years have been as follows:—

	£
1899-1900	56,783
1900-01	140,465
1901-02	244,398
1902-03	73,360
1903-04 (Revised Estimate)	—24,324 (Refunds)

Army Services.

35. We still pursue our aim of increasing the efficiency of our defensive military forces, more especial attention being paid to questions connected with armament, stores, supply, transport, and mobilisation. I give the figures of net expenditure during the last five years, including the estimate for the coming financial year —

	£
1900-1901	14,265,525
1901-1902	14,786,342
1902-1903	16,221,402
1903-1904 (Revised Estimate)	16,784,100
1904-1905 (Budget Estimate)	18,215,000

36. The recent heavy increase of expenditure is in itself very regrettable I can only say that the advice of the most expert military authorities shows it to be inevitable, and that it is small as compared with the charges accepted by other powers whose persistent and deliberate advance towards our Indian frontier obliges us to take precautionary measures. It is unnecessary here, and it would be out of place for me to venture on any discussion of purely military questions—they can only be properly appreciated by military experts, but the hurried extension of railways towards our frontiers and the general signs of the times are obvious to all men.

This year we have devoted a specially large sum to expenditure on armament, and particularly for the re-armament of the artillery with the most modern and effective weapons, it having been decided at home that India must be allowed priority of supply in the matter of new armament. This priority of supply involves priority of payment, and consequently we have been obliged to provide in our estimates the extraordinary sum of £700,000 for armaments.

There is one item in our military expenditure which causes no regret, but on the contrary is in many respects a matter even of congratulation; I allude to the considerable sums to be expended on ordnance factories. I submit a statement showing the sums allotted and spent to date on different establishments:—

Name of Factory.	Total amount of estimate.	Estimated expenditure to 31st March 1904.	Grants allotted for 1904-1905.
	£	£	£
Cordite Factory, Wellington	201,250	210,883	2,000
Rifle Factory, Ishapore	235,333	182,356	40,000
Gun Carriage Factory, Jubbulpore	182,938	111,179	45,000
Ishapore Rolling Mills	170,938	85,630	76,788
Gun Factory, Cossipore	13,000	7,000	5,600
Total	803,459	597,048	169,388

Above figures are exclusive of establishment charges.

This expenditure will directly benefit the Indian tax-payer by lessening the cost of war material, it will also provide for the education in mechanical trades of a large number of labourers and artisans. The Cordite Factory at Wellington is about to commence work, and we anticipate that the Rifle Factory at Ishapore will be working before the close of the coming financial year, and that manufacture will commence in the Gun Carriage Factory at Jubbulpore, the Rolling Mills at Ishapore, and the Gun Carriage Factory in Cossipore, in the first half of 1905.

Public Works.

37 The following figures show the comparative capital expenditure on railways for five years: including the estimate for 1904-1905:—

	1900-1901.	1901-1902.	1902-1903.	1903-1904 (Revised Estimate)	1904-1905 (Budget Estimate).
	£	£	£	£	£
Open lines including rolling stock	3,521,489	2,350,510	3,211,634	2,6[illegible]8,733	4,057,800*
Lines under construction—					
(A) Started in previous year	1,671,013	3,393,756	3,016,666	3,408,000	3,333,000
(B) Started in current year	122,266	170,933	476,704	480,400	609,200
TOTAL	5,317,768	5,915,199	6,705,064	6,547,133	8,000,000

* Includes £400,000 for acquiring four railways

38 On March 31st, 1903, the total length of open railways was 26 308 miles classified as follows —

5′ 6″ gauge	14,306
Metre gauge	11,205
Special 2′ 6″ and 2′ 0″ gauges	797
TOTAL	26,308

We have added to this during the current year:—

5′ 6″ gauge	218
Metre gauge	343
Special narrow gauges	277

or an increase of 838 miles, and we anticipate adding approximately another 608 miles during the coming financial year.

We have every reason to be satisfied with the previous results of the development of railway communications, and we have therefore full confidence in the great advantage of extending our railway mileage. If we could command the required capital for further construction, on reasonable terms, we should not hesitate to accelerate progress, and I trust that some solution may be found of the difficulties encountered in this respect.

Provincial Settlements.

39 An important step has been taken during the past financial year in connection with the question of Provincial Settlements. In 1871 a great reform was inaugurated by Lord Mayo by the introduction of a system of provincial finance, having for its object to secure to the provincial authorities greater independence and control over expenditure The system then introduced was revised in 1877 with the object of removing certain defects which had been disclosed by experience, and from that date until now it has been customary to revise the settlements every five years, the primary object of such revision having been to secure to the Central Government what might be considered their fair proportion in the growth of assigned revenues. In the earlier revisions, considerable reductions were made in the assignments, but on the occasion of the last, in 1897, the aggregate change was insignificant, reductions in certain provinces having been approximately balanced by increases allowed in others.

It cannot be said that the system of quinquennial revisions proved satisfactory, for with such a short period of settlement, it inevitably occurred that in the first year of the term the Local Government was necessarily feeling its way under new conditions, and cautious about expenditure, whilst in the last year, if, as was generally the case, balances were large, there was a natural tendency to extravagance, lest the terms of a new settlement might reduce resources for expenditure.

The object of the arrangements now proposed is to give as great permanence as possible to settlements, so that Local Governments may be able to form plans involving

expenditure, with greater certainty as to future means of providing for their execution, and at the same time have a more permanent interest in the growth of assigned revenues It is evident that the Imperial Government cannot undertake any absolute obligation to maintain at all times a definite proportion between the share of increase of revenues, assigned to provincial administration and that which it is necessary to retain to meet the growth of Imperial expenditure, and it must always reserve the right to make either special temporary, or more permanent reductions from provincial revenues, if the exigencies of the State should require such measures. It must also be borne in mind in apportioning shares of revenue to different provinces, that a larger proportionate assignment is required in the more backward provinces than in those which are older established and more highly developed Subject to such considerations every effort has now been made to treat Provincial Governments with reasonable liberality, and it is to be hoped that from this point of view they will find the new settlements equally satisfactory both at the outset and in future working For the present the new system will be applied only to the provinces of Bengal, Madras, Assam, and the United Provinces It is proposed to extend it in 1905-1906 to Bombay, the Punjab, and probably the Central Provinces, but it has been thought undesirable to enter into new arrangements with these until the lapse of another year, and the re-establishment of a normal financial situation which was entirely dislocated by recent famines.

We have been obliged to consider with special care, the proportions of revenue to be assigned since any undue liberality in a settlement, which it is desired should be of long duration, would, even without abnormal circumstances, inevitably lead to a necessity for revision at a relatively early date, to enable Local Governments, pending the realisation of increased resources through the natural growth of the assigned revenues, to meet certain immediate requirements, in easy circumstances, it has been decided to accompany the new conditions by large initial grants amounting for the four provinces now dealt with to an aggregate of 150 lakhs.

It is unnecessary to enter here on questions of detail in connection with the new arrangements. Full details are given in the appended statement by the Secretary in the Finance Department.

Remission of Taxation.

40. Last year we were able to announce an important remission of taxation under the heads of Salt and Income Tax, which was estimated to result in a possible loss of £1,393,000 of annual revenue I am happy to be able to state that the actual loss under the two heads has proved somewhat less than the maximum we anticipated Under Salt we have lost £1,024,405, and under Assessed Taxes, which for practical purposes may be taken as representing Income Tax, we have lost £195,028 or a total under the two heads of approximately £172,667 less than we allowed for

41 The real test of the result of the reduction of salt dues must be sought in the progress of consumption I give the figures for the last four years of the quantities in maunds on which duty was paid, prior to delivery for consumption They are as follows —

1900-1901	36,151,040
1901-1902	36,045,172
1902 1903	36,876,782
1903-1904 (Revised Estimate)	37,306,000

It will be observed that the increase over quantities in the previous year, is estimated at 429,218 maunds This may be taken as roughly indicating a corresponding increase in consumption, which would undoubtedly have been greater had not salt stocks in the Bombay Presidency been damaged so seriously by a cyclone in the month of May last, that a scarcity ensued, considerably raising prices in that part of India and thereby unduly checking consumption.

It must be remembered, however, that the figures representing the number of maunds on which duty has been paid in any particular year, do not accurately represent the consumption, since, particularly in regard to salt imported from abroad, there is a certain element of chance, independent of actual consumption, in the number of maunds on which traders may decide to pay duty at any particular date or season, but, if we take a period of two or three years and compare it with another similar period, a comparison of the quantities on which duty has been paid will correctly indicate the position We must therefore wait for at least another year, so as to be able to take two years

together under the new conditions, and to say for certain what has been the precise effect of the reduction of the duty by 8 annas. Meanwhile, we have made enquiries from the Local Governments on the subject, and from the reports of the officers consulted, it seems quite clear that the reduction in the tax had an important and almost immediate effect in reducing the price of salt in those parts of the country where no abnormal circumstances intervened The reports furnished are fairly unanimous in their conclusion that an immediate gain as regards the number of seers purchaseable for a rupee was secured by consumers who were in a position to buy salt by the seer, while it is generally held that a smaller, though direct, gain was also secured by all who were in a position to purchase salt by weight and as a commodity by itself. Unfortunately, however, it would not appear that the natural reduction in price has so far fully reached those consumers of the poorest classes who take their salt in doles from the bunniahs along with other articles It may be anticipated that in due course the influence of competition will make itself felt in favour of the last class also.

42 As regards the Income Tax, there can be no doubt that the intended benefit was directly secured by all classes entitled to it, and the difference between the estimated loss and that which has actually been incurred, may properly be ascribed to the natural growth in this source of revenue, due to the increasing prosperity of the class affected, and also to improving administration.

43. I have observed with regret, though without surprise, that the concession already given has led to fresh suggestions that the tax should be abolished altogether. The total abolition of the Income Tax is, in my opinion, quite outside the range of practical politics The Government of India is unlikely ever to be able to afford the great sacrifice of revenue which a total abolition of the tax would involve, unless compensation were found in some other direction, and if at a future date further remission of taxation should appear advisable, there are other classes of the community whose claims for consideration appear to be very much stronger than those of the wealthier section who are the principal contributors of Income Tax Moreover, whilst this tax is paid exclusively by the class deriving, perhaps, the greatest benefits from the administration towards the cost of which it contributes, it is one which automatically adjusts itself to the means of the tax-payer I have only heard one even *primâ facie* plausible objection to the Income Tax, and that is that whilst the profits of business vary from year to year, the tax falls on lean or deficit years with the same severity as regards percentage, as on the profits of good years But this objection falls to the ground if the provisions of the law regulating the incidence of the tax are considered, since under those provisions the tax-payer has the option of being taxed either on the profits of the actual year or on those of the preceding year, whichever may be less.

Economic Progress.

44. Our reports and returns show that India is now happily free not only from famine, but to a great extent from the effects of famine even in the more sorely tried provinces and districts. Two successive years of very generally good harvests throughout the country have had a marvellous effect in restoring material prosperity, although it could not be expected that they should suffice entirely to wipe out losses, particularly where the prolonged droughts resulted in very heavy mortality among cattle

45 Plague, alas ! is still with us, and the death rate shows no sign of diminishing. Not only does this terrible pestilence, which claims its victims by hundreds of thousands a year, render happy homes desolate, but it is, and must continue to be, a cause of prejudice and dislocation to trade and industry, though perhaps less so than in earlier years, since the people have become accustomed to its appearance and are more ready to continue their daily avocations in spite of its ravages. Still, as an example of its effect, I may mention that during the violent outbreak in Cawnpore last November, both the mills and the Government harness factory in that important industrial centre found it most difficult to keep their hands together and were in many cases working under very serious difficulties, whilst I fear that in some establishments actual loss was incurred In spite, however, of such misfortunes as I have alluded to, we are justified by the consideration of all relative facts and figures, in holding that the country continues to make very satisfactory progress as regards general development of material prosperity. Last year I gave as an important indication of such progress, the figures of revenue for four years, under the heads of Salt, Excise, Customs, Post Office, and Stamps I now repeat these figures, substituting the revised estimate for 1903-1904 for

the accounts 1899-1900, and accounts for 1902-1903 for the revised estimate in that year :—

	Accounts, 1900-1901.	Accounts, 1901-1902.	Accounts, 1902-1903.	Revised Estimate, 1903-1904
	£	£	£	£
Salt . . .	5,967,034	5,939,310	6,184,405	5,160,000*
Stamps . . .	3,342,948	3,446,406	3,473,711	3,588,100
Excise . . .	3,937,202	4,076,681	4,426,642	4,925,500
Customs (excluding countervailing duties and silver) .	3,131,223	3,358,870	3,579,116	3,634,200
Post Office . .	1,357,156	1,383,709	1,429,935	1,480,800
TOTAL .	17,735,563	18,204,976	19,093,809	18,788,600

* Decrease due to the reduction in the rates of duty. According to old rates of duty the revenue would have been approximately £6,350,000

The rate of progress as indicated by the figures is clearly very satisfactory, but I must call attention to the fact that the returns have been increased in 1902-1903 and 1903-1904 by the addition of Berar revenues The totals revised to exclude Berar figures, and taking salt duties at the old rate, would stand as follows —

1900 1901	1901-1902.	1902-1903	1903-1904.
£	£	£	£
17,735,563	18,204,976	19,002,786	19,793,500

These figures appear to me to offer the most incontestable evidence of steadily maintained and increasing prosperity.

As I mentioned last year, land revenue is deliberately omitted from this table, since returns from this source are from time to time abnormally affected by revisions of settlements, and the bringing under settlement of newly irrigated and cultivated lands, as also by remissions made to facilitate recuperation in specially afflicted areas, also, I should again call attention to the fact that the progress of the Post Office returns is frequently adversely influenced by changes in the nature of concessions and reductions in rates charged

46. Another very important indication of the situation is offered by the growth of deposits in the Post Office Savings Banks and in the Presidency Banks, as also by the investments in Government stocks made through the agency of the Post Office. I submit figures under these heads.

Growth of private deposits in the Presidency and Joint Stock Banks and in the Postal Savings Bank

BANKS.	1899.	1900	1901.	1902.	1903.
	£	£	£	£	£
Presidency Banks . .	7,470,166	8,504,217	9,815,765	11,798,852	12,113,125
Joint Stock Banks .	4,894,959	5,306,364	5,898,656	6,846,845	7,262,957
Postal Savings Banks .	6,285,336	6,430,964	6,695,505	7,121,415	7,614,369
TOTAL .	18,650,461*	20,241,545	22,409,926	25,767,112	26,990,461

NOTE.—The figures for the Postal Savings Banks are the balances on the 31st March of each year, whilst the figure for the Presidency and Joint Stock Banks are the balances on the 31st December.

Investments in Government securities made through the Agency of the Post Office.

	1898-99	1899-1900.	1900-1901	1901-1902.	1902-1903.
Number of investments .	603	516	557	527	556
Nominal value of investments . £	27,887	22,667	26,493	25,287	25,487

47 I now turn to the question of agricultural development. I trust that in doing so once a year, I may not prove wearisome, but I desire to insist on the fact that it is before all things, the prosperity of the agricultural population on which the general economic prosperity and financial stability of this country must depend. I must remind Honourable Members that executive action in connection with this question is in the province of my Honourable Colleague in charge of the Revenue and Agricultural Department, but progress and success are, and always must be, the deepest concern of the Department responsible for revenue returns

I am glad to know that more has been done by Government for the development of agriculture than appears to be generally recognised by the public A few weeks ago a Government Resolution was published giving in outline the arrangements now being carried out for the establishment of a first class agricultural institution at Pusa, at very considerable cost Personally, I cannot but welcome the heavy demands for expenditure on that institution, since I firmly believe that under the able guidance of such thoroughly practical and scientific men as Dr Mollison, the Inspector General of Agriculture, and Mr Coventry who has been named Principal of the establishment, our expenditure will be returned some hundredfold , and it is a real happiness to think that whatever advantages may accrue to the fisc through their success, such advantages being dependent on, must necessarily be accompanied by, a corresponding amelioration in the condition of the agriculturist, that is of the great bulk of the population of this Empire

48 In dealing with a conservative population, we cannot, particularly in agricultural matters, expect startling, immediate improvements The Indian ryot profiting by the accumulated experience of centuries, has been pronounced by competent Europeans who have closely studied his methods, to be a first class agriculturist within the limits of the situation in which he finds himself He is both intelligent and practical, and though averse to change, he has shown himself by no means unwilling to adopt real improvements suited to his circumstances, when by example he has been shown the indubitably satisfactory results of their adoption What we desire is that he should profit not only by his own experience and that of his forefathers, but also by that acquired by the application of scientific principles in foreign lands necessarily beyond his ken , and, moreover, it must be remembered that the extent of this great Indian Empire and the variety of conditions prevailing therein are such that, pending that interchange of information and thought which is to-day non existent among the agricultural classes, the experience of the east cannot penetrate to the west, nor that of the centre to the frontiers We must avoid haste to force new ideas, but we must aim at the introduction of improved varieties of staple products, and of crops grown in one province, into another where they seem likely to succeed , at inculcating the value of good qualities of seed, of certain more readily procurable manures, of chopping fodder, of ensilage, and of improving breeds of cattle, we must teach the treatment of crop and cattle diseases, and exemplify the utility of some of the simplest agricultural implements.

49. The recent extraordinary speculation in cotton in America has drawn the attention of those connected with cotton manufacture in all parts of the world, to the necessity of increasing the area of supply of the raw article, and naturally many eyes have been turned to India as a country where everything points to the possibility of great development of supply and improvement of quality. From certain paragraphs in the press, it would appear to be assumed that the Government of India has hitherto remained blind to the importance of this question, but I can state from personal knowledge that such is not the case Since he entered on his present duties, and indeed long before that date, Dr. Mollison has been devoting his attention and energy to the improvement of the quality of our Indian cotton. I have myself seen some of his experiments in producing new hybrids and in cultivating different varieties from imported seeds, at the Government agricultural farms at Pooha and Cawnpore. My opportunities of personal observation have naturally been restricted, but they have been sufficient to convince me that the question is receiving the most earnest attention, that important knowledge has been acquired, and that we may well hope in due course to arrive

at valuable, practical results. In the Central Provinces, Mr. Sly, the energetic Commissioner of Settlements, to whose valuable work I referred last year, continues to be able to report good progress Satisfactory results continue to be obtained from the working of the demonstration farms The cultivation of cotton and jawar has been introduced in districts where hitherto it did not exist. Cultivators are beginning to adopt improved methods, the picking of seed for the eradication of smut in jawar is now practised successfully in certain districts, and extermination of grasshoppers has, as a result of practical demonstration in some districts, been successfully undertaken in others Selected seeds of good varieties have been distributed through the District Agricultural Associations, several of which bodies have done really good work Cattle breeding is receiving attention with the object of distributing good bulls Cotton growing has also been encouraged on suitable lands, and as a result of such encouragement and greatly increased prices, the area under cotton in 1902-1903 was 18 per cent larger than in the preceding year and 66 per cent above the decennial average. Apparently it does not pay to carry cotton more than fifty miles by road to a mill or railway, and feeder lines are said to be a desideratum to induce still more extensive cultivation. The number of paying subscribers, mostly cultivators, to the monthly Agricultural Magazine has increased to 1,800, and 1,800 copies have already been sold of a small work in the vernacular containing a re-print of matters of permanent interest published in the first issues of the monthly magazine

50. I may add that in Madras attention has lately been turned to the possibility of minor irrigation by means of wells from which the water is drawn by oil engines and wind mills, and there is every reason to believe that the experiments, particularly those with oil engines, will lead to practical and useful results

51. High prices of American cotton have already resulted in an increased European demand for Indian cotton, and Japan has also been an important buyer India can well afford to sell its cotton at relatively lower rates than those prevailing for the American article, and it may reasonably be anticipated that as continental buyers become more accustomed to look to India for their supplies, and if, to our supplies of short-stapled cotton, which has its special uses and markets, we add a long-stapled variety, the export trade will still further develope to the great profit of both the agriculturist and the trader, and let me here say that the trader can make no profit which is not shared by the agriculturist under present conditions in this country, their interdependence is absolute

52. The export of tea continues to increase and the shipments for the past season, up to the end of February, are estimated at 200 million pounds, as compared with 174 and 175 million pounds in the two preceding years The growth of exports to the United Kingdom has not been as considerable as might have been anticipated in normal circumstances, and it is believed by those specially interested in the trade that it has been somewhat checked by the heavy additional duty imposed on imports into Great Britain. We have recently heard unofficially that the Colonial Government has decided to admit imports of Indian tea into New Zealand, free of duty, and we may hope that such a concession will materially encourage consumption. A very satisfactory feature in the export trade has been the increase from 8¾ million pounds exported to America and 'other foreign markets' in 1901-1902, to 22¾ million pounds exported in 1903-1904; the 'other markets' include Russia, to which country the quantities exported are rapidly increasing. It may be hoped that means will be found still further to develope this most important trade, but for the moment it has received a check through the blocking of the Siberian Railway, and the increase in the already enormous duty levied on tea imported *viâ* the Black Sea. This increase must always tell against Indian teas and in favour of the Chinese leaf. When the trade was conducted through the Black Sea ports, India had the advantage of the lower freight from Calcutta to Odessa, as compared with that from Shanghai to Odessa, whilst by the Siberian routes, a corresponding advantage is secured by the Chinese teas. In this connection, I may mention that the production in India and sale of green teas are rapidly increasing, affording a new branch of development in the general trade

It may I think reasonably be anticipated that the efforts of the Tea Cess Committee will lead in due course of time to considerable development of sales, both in foreign markets and for home consumption in India, and Government willingly gave the assistance sought for by the Tea Association in the matter of establishing a tea cess.

Prices, I regret to say, have not been so remunerative as desirable during the last few years, but this circumstance has had a wholesome effect which will bear good

fruit in the future, in checking undesirable extension of plantations on unsuitable lands. During the past season good prices were once more secured; the following figures show the fluctuations during the last six years :—

Calcutta Sales.

				R	a.
1898-1899	561,336 packages,	average		5	8
1899-1900	560,719	do.	do.	5	11

53. The future of indigo is still a question of deep concern, and although I fear that those who have been disappointed at the prices obtained during the past season may not readily agree with me, I cannot admit that there is real ground for despondency On the contrary, continued steady perseverance on right lines would appear alone to be required to enable natural indigo, the produce of India, to hold its own with synthetic indigo This is a purely business question and one which must be considered with due regard to facts, and facts only It is a fact that when synthetic indigo was first introduced, the price asked was 17 pence per pound, and that the price has steadily declined to the present average of about 8 pence per pound. This is a very heavy fall, and I would urge attention to the fact that the manufacture of synthetic indigo was started on the basis of a price of 17 pence per pound, and that the manufacturers have suffered at least equally with the indigo planters by the great reduction in price due to competition Now I ask what would have been said ten years ago if it had been suggested to the indigo planters that they would have to accept a price approximating R100 per maund for their product? They would have declared a fall to such a price to be impossible, and yet planters' indigo has been sold, and sold at a profit during the past season, at R110 per maund, by those who in the present still regrettably incomplete state of preparation for the struggle, have in favourable circumstances shown energy and intelligence in the conduct of their business Prices have this year been some 30 per cent below those of last season and have varied from 80 rupees to an exceptional maximum of 195 rupees per maund, for a special parcel of 21 chests of Peeprah indigo, the average, exclusive of this particular sale has, however, probably not exceeded R120. Greater attention is being paid by buyers to quality, and indigo of low grade finds a market with much difficulty at Bengal prices. The total sales for the season, of Bengal indigo are not likely to exceed 50,000 maunds, and the sale value will probably be about 50 to 60 lakhs, as compared with upwards of 3 crores realised a few years ago, when prices were higher and production much larger. Madras indigo, though of inferior quality, is still largely sold at relatively low prices, it is estimated that some 23,000 cwt. were sold, at an average price of about R157 per cwt.—a decline of about 20 per cwt. as compared with prices two years ago.

54. The improvements necessary to effect a reduction in the cost price of indigo were (1) that the plantations should be placed on a sound financial basis, and cease to remain in a position where requirements for cash in seasons of dear money, could only be satisfied by transferring profits from the pockets of the planters to those of the money lenders, (2) economy in management; (3) selection of seed and propagation of the qualities yielding the highest percentage of indigotine and best suited to local conditions of climate and soil, (4) rotation of crops to obtain good profits from the land when not under indigo, and thereby reduce the cost of cultivation of the plant; (5) chemical improvements in manufacture

(1) The transformation necessary to place indigo properties on a sound financial basis is proceeding, and in some instances at regrettably heavy cost to those who in the halcyon days of the industry had thoughtlessly allowed their financial position to become too involved to stand a crisis. The change has involved loss of fortune to individuals, but this is by no means synonymous with the failure of the industry. (2) The hard lessons of recent years have resulted in important economies in administration. (3) The attention of Mr Coventry and other men of intelligence and energy interested in indigo, has for a long time past been turned to the cultivation in India of a plant which should produce a higher percentage of indigotine than that which a few years ago, in the absence of competition, sufficed to yield handsome profits. Agricultural experiments are necessarily slow in development, but the result of experiments has already shown that plants propagated from the Natal seed, acclimatised in

Financial Summary.

Accounts, 1902-1903, show Revenue greater than Revised Estimate by £542,415: Military Receipts are more by £204,390, Salt by £144,405, Railways by £107,500, Customs by £90,936, Other Heads by £57,123, Excise by £49,042. Land Revenue is less by £51,655, and Irrigation by £66,010.

Expenditure is £211,366 more than Revised · Army Services are more by £190,892, Other Public Works by £169,407, Salaries and Expenses, Civil Departments, by £49,343, and Railways by £39,151 · Direct Demands on Revenue are less by £101,831; and under Provincial Surpluses added to Provincial balances and charged as expenditure, decrease of £114,640. Final result: Surplus increased by £331,049.

Revised Estimate, 1903-1904, shows Revenue increase £6,712,400. Chief increases. Land Revenue, £152,700; Opium, £1,354,900; Salt, £206,700, Excise, £420,400; Customs, £316,200, Other Heads, £176,900, Interest, £86,600; Mint, £2,345,500, Receipts Civil Departments, £190,700, Railways, £1,106,100; Irrigation, £161,400; Other Public Works, £71,100, Minor increases, £153,400. Only decrease, Telegraphs, £30,200. Increase of Expenditure, £4,949,900 increase under Mint, £2,212,900, under Provincial Surpluses and Deficits, £2,584,700, including grants to Provincial Governments £1,726,700, of which £1,000,000 in connection with new Provincial Settlements, Direct Demands on Revenue, £240,300, chiefly heavy expenditure on Opium, Railways, £292,400, for working expenses for increased traffic, Other Public Works, £97,400; Army Services, £164,400, chiefly due to expenditure on Missions, Aden, Seistan, and Thibet, partly counterbalanced by certain savings, Miscellaneous Civil Charges, £68,800, writing off irrecoverable takavi advances. Decrease of expenditure under Salaries and Expenses, Civil Departments, £368,100, minor decreases aggregate £342,900. Final result Surplus increased by £1,762,500.

Estimates, 1904-1905, as compared with Revised Estimate Land Revenue, increase, £329,200; Excise, £124,500, Stamps, £49,000, Other Heads, £94,700; Railways, £176,400, these, with minor items, £20,800, give total anticipated increase in Revenue, £794,600. Increase under Land Revenue, due to recovery after famine, is fairly general. Anticipated decreases in Revenue are · Opium, £781,600; Mint, £2,516,100; Other Public Works, £68,000; Receipts by Military Department, £172,500, other minor items, £175,600. Total decrease, £3,713 800. Total net decrease, £2,919,200. Total Revenue, £80,148,600.

Expenditure increase, principal items Direct Demands on Revenues, £198,400; Post Office, £116,000; Salaries and Expenses of Civil Departments, £916,800; Railway Revenue Account, £676,800; Other Public Works, £524,500; Army Services, £1,258,400, including £700,000 for new artillery and rifles, £493,900 for additional pay to British troops, and £326,000 for Seistan, Thibet and Aden Missions, partly counterbalanced by certain savings; Special Defences, £228,300; other minor groups, £109,300. Total increase, £4,028,500. Decreases: Mint, £2,385,000; Miscellaneous Civil Charges, £129,700; Interest, £122,500. Net result, increased expenditure, £1,391,300. Net decrease under Provincial Surpluses and Deficits, £2,518,000. Total Expenditure, £79,229,900. Final estimated Surplus, £918,700.

Estimated Capital expenditure on Railways and Irrigation, £8,940,900, of which £6,310,300 for State Railways, £1,797,300 for Railway Companies, and £833,300 for Major Irrigation Works. Discharging Permanent Debt, £1,088,800; discharging Temporary Debt, £333,300, net payments under Deposits, Advances, and Remittances, £1,407,500 Total Capital requirements, £11,770,500 To be raised by Railway Companies, £2,917,200; increase of Permanent Debt by £4,500,000, including Indian Loan 3 crores of rupees; addition to Unfunded Debt, £688,100; reduction of combined Balances, £2,746,500. Closing Balances, March 31st, 1905, India £11,060,616, England £4,696,287. Council Bills, estimated drawings, £16,500,000.

Railway programme Expenditure · Open Lines, £3,657,800, Lines under Construction, £3,333,000; Lines to be commenced next year, £609,200; purchasing four railways referred to the Secretary of State, £400,000. Total £8,000,000.

Provincial Settlements of Assam, Bengal, United Provinces, and Madras have been revised; revision involves surrender to the Local Governments of £159,300 of Imperial Revenue. No term fixed for duration of new Settlements.

Economic progress very satisfactory.

Java, will yield some 50 per cent more leaf of excellent quality than is obtained from the plant known as "Tinctoria" which has hitherto been generally cultivated in India Again, it has been shown that the new plant can be grown as a perennial, and even if only left in the ground for two years, this will lead to material reduction in the cost of cultivation. Further, and not least, the new plant is immensely superior to the tinctoria in withstanding the effects of inundation, drought, and cold (4) The introduction of a reasonable system of rotation of crops, which is becoming fairly general, has had the result that in spite of the low price of indigo, certain favourably situated land-holders have been able to realise 10 per cent profit on the cultivation of their lands, and it further leads to the hope that the value of the 'seeth' as manure for rotation crops, may pay, or nearly pay the cost of cultivation of the indigo (5) As regards chemical improvements, experiments are still proceeding, and though it is impossible to say that any remarkable result has so far been achieved, it is incredible that nothing will be achieved by that persistence in research which is now being earnestly pursued.

It seems to me unquestionable that there is still a large margin for reduction in the cost of production of indigo, and this large margin should more than suffice to turn the scale against the artificial product, whilst leaving fair profits in the pockets of the planters. There is certainly a limit to the price at which synthetic indigo can profitably be sold, and many are of opinion that, although competition may induce manufacturers to temporarily accept losses and reduce prices, the profitable limit has been already reached.

55 On one point I may perhaps venture to offer a word of warning to our planters I am fully sensible of the difficulties of their position with which I sincerely sympathise, but I fear that many still fail to realise in a practical manner the situation which is created by the keen competition of their European manufacturing rivals, and that season after season they continue to expect high prices and by so doing they alienate buyers who would willingly take their products were prices more in accordance with those for which the artificial article is to be obtained. It is not business to continue to work at a loss, but it is an essential factor in business to keep your competitor out of the market by temporary acceptance of the lowest possible price, and thus to force him either to accept losses, or to retire from the competition.

56 Exports of rice in 1902 were by far the highest recorded up to that year, but they were surpassed in 1903, when the total value exported was approximately 13 million sterling, of which shipments from Burma were for upwards of £9,000,000

57. It is roughly estimated that only about one-seventh of the wheat grown in India is available for export, the remainder being retained for local consumption. The amount exported naturally depends both on harvest yields, and on the European market price. This winter the price abroad has been favourable for export, whilst in India harvests have been abundant, particularly in the Punjab, with the result that the value exported in the year 1903 exceeded 6½ millions sterling, and was more than double that in the preceding year

58 The export trade in seeds has as regards quantities, increased rapidly during the last three years, but owing to falling prices, values have not kept pace with quantities. Approximately, 1,000,000 tons were shipped in 1901, and about 1,270,000 tons in 1903, the corresponding values being about £9,765,000 and £10,083,000, out of these totals, the exports of linseed averaged in value about 4 millions sterling. Whilst the quantity of linseed exported has increased considerably, values have remained practically stationary under the influence of unfortunately declining prices, owing to the serious competition of shipments from both North and South America, and during the past season, particularly from La Plata The other two most important classes of seeds exported are rape and til; the value of the shipments of the former in 1903 was £1,627,000 and of the latter £1,990,000 The exports of til are increasing very rapidly with well maintained prices

59 The last jute crop was estimated at the large figure of approximately 6½ million bales, but nevertheless prices have been well maintained throughout the season and have yielded large profits. The total arrivals of jute in Calcutta up to January 31st, 1904, are estimated to have exceeded those of the previous year by 20 per cent, whilst exports of jute and cuttings are said to have been upwards of 10 per cent greater than in the season 1902-1903, approximating, though not quite reaching, the record shipments in 1901-1902.

60. The progress of the jute manufacturing industry has been even greater than that of the export trade in the raw material, and is indeed very remarkable. The number

of looms at work has increased from something short of 10,000 in 1895 to nearly 20,000 to-day, and the development has been particularly rapid in the last two years, during which the number of looms has been increased by upwards of 3,000 During the latter part of the past year there was a very good demand for gunnies and hessians, and the result of the year as a whole, has, I believe, been quite satisfactory to manufacturers.

61. Great as has been the development of jute manufacture, cotton still remains our premier Indian industry. From one point of view, that of increasing production, the progress of the Indian mills has been very satisfactory. I give the figures showing the production in yards of grey goods during six successive years, together with corresponding quantities imported and the totals indicating general consumption.

Quantity of Cotton Piece Goods (Grey) imported into, and produced in, India.

YEARS	Grey goods imported from other countries into India.	Grey goods produced in India	TOTAL
	Yds.	Yds	Yds
1897-1898	1,149,479,541	323,356,019	1,472,835,560
1898-1899	1,257,720,612	355,709,050	1,613,429,662
1899-1900	1,274,912,153	329,420,397	1,604,332,550
1900-1901	1,192,173,060	341,176,942	1,533,350,002
1901-1902	1,186,764,327	409,744,993	1,596,509,320
1902-1903	1,283,680,181	406,316,717	1,689,996,898

It will be seen that whilst there has been some small increase in imports, production in India, in spite of a temporary set-back due to the last famine, has increased by upwards of 25 per cent in the short space of five years, whilst total consumption has increased by approximately 15 per cent This by itself should certainly indicate increasing profits to millowners, since the larger the outturn, the less is the cost of production Nevertheless, I am afraid that while certain well managed mills on a sound financial basis, have made, and are likely to continue to make steady profits, a large proportion have been doing more or less badly for some time past Many mills have suffered from the fact that their working capital has been quite insufficient; their ordinary requirements for financial accommodation have cost too much to leave a profit on the turn-over in these days of close competition and generally cheap money, while in times of financial stress, they are liable to be entirely overwhelmed by the difficulties of their position. A good many mills have in such circumstances naturally changed hands during recent years, and it is to be hoped that with a fresh start on a proper financial basis, and with the more competent management for which I am inclined to think there is sometimes an indisposition to pay the necessary price, a fresh start may be made and profitable business developed Latterly, special difficulties have beset those millowners who neglected to buy cotton ahead and who have consequently found the price of the raw article increasing out of all proportion to the price of yarns, which it must be noted has been prejudiced by the competition with Japan for the China trade. Weavers have fortunately fared better than those who are only spinners, as the former are not so dependent on the China trade, and demands for the home market have been sufficiently good and are likely to increase I think that the future success of the Indian cotton industry lies in the development of weaving and the abandonment of a position of dependence on the sale of yarn in the China markets I would venture to urge cultivation of the home markets

62 I notice the continuance of complaints against the cotton excise dues. On this question it is argued that as the cloths made in India are of different textures to those made in Lancashire, there is no direct competition between them, and therefore, that the abolition of the dues could not be considered as a protective measure,

As far as the argument goes, there appears superficially to be something in it, but it seems to be omitted from consideration that the consumption in India in any given year, is more or less a fixed quantity as regards the number of yards required, and that if the cheaper price of the Indian textiles secures for them a good market in competition with the finer textiles from Lancashire, the latter must be displaced by the former. Further, I am led to believe that the Indian mills already enjoy considerable practical protection, since charges between Manchester and the Indian bazars (including packing, freight, interest, etc.), are said to amount to fully ten per cent on cost price in Manchester. Moreover, it must be remembered that a certain amount of revenue is a necessity to provide for the administration of the country, and the cotton excise dues now return upwards of 20¼ lakhs, having increased from R11,62,947 in 1900-1901. It is very easy to object to any and every class of taxation, but those who make objections should, I think, offer suggestions as to how revenue could be maintained if their objections were to be admitted As I pointed out last year in the discussion on the budget, it is impossible to believe that the average enhanced cost to the individual consumer of cotton cloth on account of the excise exceeds 3½ annas per annum, and the steady increase in consumption, which is an undeniable fact, sufficiently proves that present rates have had no prejudicial effect on its development. I would particularly call attention to the fact that the receipts on account of customs duties on cotton goods, on sugar, and on petroleum, constitute upwards of 40 per cent of the revenues derived from customs on imports, but the proportion is diminishing, and as Indian industries develope and check imports, there must inevitably be a steady and serious diminution in the returns under these heads, for which some compensation must be found. In the case of cotton goods, it is ready to hand in the shape of a steady growth in returns from excise dues on the local manufactures, and for this reason, if for no other, it appears to me impossible to seriously consider their abolition.

63 Importations of piece goods have been rather below the average, but the generally prosperous condition of the country has produced a demand sufficient to absorb more than the average annual imports, and as a result, stocks are greatly reduced; in Bombay they are the smallest on record It is possible that for some little time a maintenance of higher prices will continue to restrict imports, but this position of affairs cannot last, and we may with some confidence look forward to a brisk and prosperous trade in piece goods in the near future

64. Coal continues to be a very important item in the export trade. Last year I noted that this trade had received a check, and I regret to say that although towards the close of the past year there was a slight improvement in the market, the very low prices which have prevailed have had a serious effect on the profits of many coal mining companies. I have reason to fear that unsatisfactory prices are in part due to the fact that the quality of Bengal coal has suffered in reputation abroad, owing to unfortunate shipments of inferior stuff when the demand was brisk. All is not gold that glitters, and buyers soon show their appreciation of the fact that all is not coal that is black. That there is room for improvement in the methods of handling and carriage from the mines to ship-board is admitted on all sides, while it has been observed by competent experts that, speaking generally, actual mining operations are far from being generally conducted in the most scientific and economical manner. There is, therefore, apart from possible natural increase in demand, room in more than one direction for such improvement as would increase the profits of the business. I give the figures of export of Bengal coal during the last four calendar years, together with the figures for the quantities of bunker coal supplied to steamers in Calcutta.

	1900. Tons.	1901. Tons.	1902 Tons.	1903 Tons.
Exports	1,734,551	2,008,322	1,716,556	1,953,914
Bunker	615,504	674,645	697,017	703,225
TOTAL . .	2,350,055	2,682,967	2,413,573	2,657,139

It will be observed that the totals for 1903 are approximately equal to those for 1901, which, however, still remains our record year.

65. The petroleum industry is advancing by leaps and bounds. I submit figures showing consumption of kerosine during the last five years, and the sources from which the demand has been supplied.

Production of Kerosine Oil in Burma and Assam, and importations into India from foreign countries.

	1899-1900.	1900 1901.	1901-1902.	1902-1903.*	1903-1904.*
	Quantity (gallons)				
Kerosine Oil produced in Burma	9,947,930	14,428,422	18,317,164	25,303,906	38,694,192
Kerosine Oil produced in Assam . . .	...	156,740	241,379	671,486	1,200,052
TOTAL .	9,947,930	14,585,162	18,558,543	25,975,392	39,894,244
Kerosine Oil imported from Russia . .	57,688,204	67,350,656	84,477,876	71,125,438	57,500,000
Kerosine Oil imported from United States	12,731,934	5,102,459	5,768,226	9,229,244	7,000,000
Kerosine Oil imported from other countries .	49,978	148,783	1,221,364	1,096,573	5,500,000
TOTAL .	70,470,116	72,601,898	91,467,466	81,451,255	70,000,000
Total consumption of Kerosine Oil in India . .	80,418,046	87,187,060	110,026,009	107,426,647	109,894,244

* Estimated figures for last two months.

It will be observed that whilst consumption steadily increases, Indian production already suffices to satisfy nearly forty per cent of the total demand Burma already supplies upwards of 38½ million gallons and Assam, where the industry has begun to develope, is, I understand, in a position to supply two million gallons in the coming year, with a rapidly increasing production The imports of American and Russian oils are naturally declining, but, on the other hand, those of what is known as Straits oil are increasing American kerosine has now become practically an article of luxury used only by those who like to pay a high price for a specially good article Improvement is desirable in the quality of the Indian oils, which are still distinctly inferior to both American and Russian oils, but I understand that improvements are being introduced in refining processes, and that as oil is drawn from the lower strata it will be found to be of a lighter character

66 The export trade in hides is of very great importance, but it is particularly susceptible to influences causing wide fluctuations both in volume and in price In times of famine, the difficulty and sometimes impossibility of providing fodder, leads to wholesale slaughter and low prices, whilst after a few prosperous years, the number of cattle increases and the number of hides for sale also increases. To-day an unsatisfactorily large proportion of our hides are exported in the raw state, and a large development of the tanning industry is much to be desired Special attention is being paid to this question in Madras where it is hoped that the chrome-tanning process may be introduced with success. Cawnpore is the most important centre of the leather industry the successful development of which enabled us to supply large quantities of leather-ware (boots and saddlery) for the army in South Africa. This industry is at present labouring under two difficulties—deficiency of tanning material and shortness of labour. The want of tanning material is attributed to a depletion of stocks of cutch during the recent years of famine, but we may hope that this will prove a temporary difficulty. Shortness of labour for industrial purposes is a cause of serious complaint in many parts of India, and I fear that it will not be easily remedied. In course of time, a sufficient industrial class will come into existence, but the people are conservative in their habits, and they prefer working in their homes to the restrictions of a mill, whilst any extensive employment of female labour is, for various reasons, almost impossible. High wages offer little attraction to the agriculturist who, in normal times, finds all his requirements supplied by the fruits of congenial labour in the fields.

67. It is, I believe, often urged in quarters which appear to be strangely misinformed, that if we look back, say 20 years, it will be found that the ryot has been

impoverished by a steady fall in the price of his produce. I have examined this question as far as the information at our disposal permits, and I submit a table showing the average wholesale prices of certain articles of export from India in the years 1873, 1883, 1893, and 1903, at Calcutta, Bombay, Karachi, and Rangoon, respectively.

Average annual wholesale prices of certain staple articles of export from India.

* Prices have fluctuated greatly owing to speculation | † Prices have since fallen

It will be observed that while prices have varied considerably at different epochs, in the great majority of cases there has, over the period, been an increase in Calcutta prices, the only really notable exception being with regard to silk. In Bombay, prices of cotton and linseed increased, whilst those for wool and wheat have fallen, the former considerably, wool has similarly fallen at Karachi, but at Rangoon the price of rice, the staple export, has very materially improved. I would point out that as each ten years of the period under consideration rolled by, facilities of transport have under the influence of railway construction, steadily and enormously reduced the cost of delivery from the ryots' hands to the export markets, whilst also reducing the number of middlemen through whom produce finds its way from the interior to the sea coast. Now, this decrease in cost of carriage is equivalent to so much direct profit to the producer, it is therefore absolutely certain that the increase shown in prices at the ports, forms but a small proportion of the total gains to the ryot from the enhanced prices which he has realised locally.

An examination of this question would be incomplete without some reference to the influence of exchange. The variations in exchange were steadily favourable to increase in rupee prices of exports from 1873 to 1893 and unfavourable during the last ten years.

The average exchange value of the rupee in the four years tabulated was:—

1873-1874.	1883-1884.	1893-1894	1903-1904 (Estimate).
22·351*d.*	19·536*d.*	14·546*d*	16·053*d.*

68. Whilst the facts noted offer a complete answer to those who have of late years been talking of the impoverishment of the ryot, I must state that in my personal opinion we are likely during the next few years to witness some decline in the export price of agricultural produce. Such a decline, it seems to me, must inevitably result from the improvement of communications, and the bringing of new lands under cultivation in foreign countries, and particularly perhaps in Canada and in South America. The natural decline from such causes should however be at least compensated, if not more

than counterbalanced, by improvements in our own communications in India, in agricultural methods, and I venture to hope also by reduction in our railway tariffs. The most important step which can be taken to meet the situation will, however, I apprehend, be found in the development of industries based directly on agriculture, that is in locally working up our raw products, extracting our own oils from seeds, producing our own textiles from silk, cotton, and wool, tanning our own hides, etc. For thoroughly satisfactory progress in this direction we must await the awakening of a keener spirit of enterprise among our Indian fellow subjects. At present, industrial undertakings are chiefly dependent on foreign capital, supplemented by the small savings of Anglo-Indians who naturally invest all they can spare in a country where prevalent rates of interest are much higher than in Western Europe. I trust, however, that it will not be long before a great development is witnessed in industrial enterprise, although I must point out that when it takes place, we shall find ourselves in a very different position from that of to-day, as regards the effect on our trade of protective tariffs in foreign countries

69 Notwithstanding many difficulties, including those to which I have referred, Indian industries are not standing still, and a proof of their steady, though somewhat slow, development is to be found in the figures, I submit, showing the increasing value of importations of mill machinery, iron and steel. We may possibly reach six million sterling for the year 1903-1904.

Values of Imports of Machinery and Millwork and Iron and Steel.

	1900-1901.	1901-1902.	1902-1903.	1903-1904. (Ten months only.)
	£	£	£	£
Machinery and Millwork	1,505,040	2,003,920	1,869,227	1,830,974
Iron and Steel	3,048,421	3,242,613	3,391,015	3,215,772
TOTAL	4,553,461	5,246,533	5,260,242	5,046,746

70 In connection with the question of accumulation of wealth in India we have examined the available statistics showing the net imports of gold and silver, and I submit the figures for decennial periods commencing with that from 1835-36 to that from 1895-96. It will be seen that during the whole period extending over 68 years, the total net imports of treasure have reached the gigantic figure of £414,672,977 which includes gold, approximately 127 millions, and silver upwards of 287 millions These figures speak for themselves, as a remarkable indication of accumulating wealth.

Net Imports of gold and silver from 1835-36 to 1902-1903 in decennial periods.

	Gold.	Silver.	TOTAL.
	£	£	£
1835-36 to 1844-45 (10 years)	2,197,866	13,690,179	15,888,045
1845-46 to 1854-55 (ditto)	6,855,062	10,218,006	17,073,068

E. FG. LAW.

March 23 1904

PART II.

BEING A MEMORANDUM BY THE FINANCIAL SECRETARY EXAMINING THE DETAILS OF THE ACCOUNTS AND ESTIMATES.

Section I.—The Accounts of 1902-1903.

1902-1903 General Result of Accounts.

71. The Accounts of the year show a surplus £3,069,549 being better by £331,049 than the surplus of £2,738,500 anticipated in the Revised Estimates framed in March last.

72. The variations between the figures finally entering into the Accounts and those taken in the Budget and Revised Estimates of the year are fully explained in the Appropriation Report published in the *Gazette of India* of the 12th instant.

1902-1903 Statement of the gross figures.

73. The following is a general comparison of the Revised Estimates with the Accounts of the year:—

	Revised.	Accounts	Accounts, better	Accounts, worse.
REVENUE.	£	£	£	£
India	76,284,600	76,740,110	455,510	...
England	607,900	694,805	86,905	...
TOTAL	76,892,500	77,434,915	542,415	...
EXPENDITURE.				
India—				
Imperial, Provincial, and Local	55,759,100	56,075,970	...	316,870
Adjustment of Provincial and Local Surplus or Deficit	+56,100	—72,425	128,525	...
NET	55,815,200	56,003,545	...	188,345
England	18,338,800	18,361,821	.	23,021
TOTAL	74,154,000	74,365,366	...	211,366
SURPLUS	2,738,500	3,069,549	331,049	...

1902-1903. General Remarks.

74. Both Revenue and Expenditure were higher, in India and also in England, than the amount taken in the Revised Estimate The net improvement in England was £63,884. In India, it was £138,640 In the Imperial Section of the accounts, there was an improvement of £267,165, while the Provincial and Local Section was worse by £128,525. The latter does not affect the surplus of the year.

1902-1903. Revenue in India.

75. The increase of £455,510 in Revenue in India occurred chiefly under Salt (£144,405), Excise (£49,042), Customs (£90,936), Forests (£33,203), Railways (£107,500) and Army (£124,692), and was partly counterbalanced by a falling off under Land Revenue including that due to Irrigation (£59,162) and Major Irrigation Works (£53,832) besides smaller sums under other heads The increase under Salt was fairly distributed, but was highest in Bombay and Madras. That under Excise occurred chiefly in Burma and Berar. The increase under Customs was largest under export duty on rice, import duty on silver and other metals, and excise duty on cotton goods. Larger railway earnings were contributed by the East Indian, Rajputana-Malwa, South Indian, and Bombay, Baroda and Central India Railways. The increase in Army Receipts was due to credits for peace equipment taken by certain units to China which were not provided for in the Revised.

1902-1903. Expenditure in India.

76. The excess expenditure in India, amounting to £316,870, was made up of increases under a number of heads, of which the most important were £42,411 under Working Expenses of State Railways, £157,517 under Civil Works, and £155,735 under Army. These were partially counterbalanced by smaller decreases under numerous heads.

1902-1903 Revenue and Expenditure in England

77. The increase in the revenue in England occurred chiefly in Army receipts. Larger allowance than was provided in the estimates was made on account of articles in possession of regiments on their transfer from the Indian to the British establishment, and contributions towards pensions of Native troops lent for Imperial Service were recovered earlier than had been expected The increase in the expenditure in England is more than accounted for by an increase of £38,349 in the payments for ordnance and other military stores.

Section II.—The Revised Estimate of 1903-1904.

1903-1904. Statement of the gross figures

78. The following is a general comparison of the Budget Estimate with the Revised Estimate of 1903-1904 —

	Budget	Revised.	Revised, better	Revised, worse.
REVENUE	£	£	£	£
India	75,699,400	82,348,100	6,648,700	
England	656,000	719,700	63,700	...
TOTAL	76,355,400	83,067,800	6,712,400	.
EXPENDITURE				
India—				
Imperial, Provincial, and Local	58,514,900	60,947,900	...	2,433,000
Adjustment of Provincial and Local Surplus or Deficit	—1,383,500	+1,201,200	..	2,584,700
NET	57,131,400	62,149,100	..	5,017,700
England	18,275,300	18,207,500	67,800	.
TOTAL	75,406,700	80,356,600		4,949,900
SURPLUS	948,700	2,711,200	1,762,500	.

1903-1904. General Remarks.

79. During the current year there has been a remarkable development of revenue under almost every important head. Land Revenue, Salt, Excise, Customs, Forests, and Irrigation have all contributed to swell the revenues of the year. But by far the greatest improvement has occurred in the Opium revenue, and in the net earnings of State Railways. The gross receipts from Opium exceeded the Budget by more than 2 crores of rupees, while the net railway earnings were better by more than a crore. The former is perhaps fortuitous and cannot be regarded as other than a fortunate windfall. But the improvement in the Railway revenue receipts, though subject to fluctuation, promises to be progressive, and may fairly be regarded as possessing some of the elements of permanence.

1903-1904. Allotments to Local Governments, etc

80. Advantage has been taken of this improvement in the financial position to place largely increased allotments at the disposal of Local Governments for provincial expenditure. As explained in paragraph 219, 150 lakhs have been assigned to Bengal, Madras, the United Provinces and Assam to start the new Provincial settlements under favourable conditions. Fifty lakhs have been allotted to Bengal as the Imperial contribution towards the Calcutta Improvement scheme, and 20 lakhs to the Punjab for the extension and improvement of Simla. Grants, aggregating R 17,02,000, have been made to the Central Provinces, United Provinces, Punjab and Bombay for expenditure on minor irrigation works, the drainage of Lucknow, the completion of the St, George's Hospital in Bombay, and a variety of other useful local works Further grants, aggregating 22 lakhs,

have been made to the eight principal Provinces for expenditure on public parks and gardens, hostels, local museums, and other minor but useful objects which have hitherto had to yield priority to works of more pressing importance These grants, though made in the Revised Estimate of 1903-1904, will not be actually spent during the year but will go to increase the balances at credit of the Provincial Governments on the 31st March next and will be available for expenditure in 1904-1905 and subsequent years A grant of 5 lakhs has also been made to the Calcutta Museum in furtherance of an important scheme of reconstruction and rearrangement; of one lakh for much needed structural improvement in the Zoological Gardens, of R10,000 to the Asiatic Society of Bengal; and of R40,000 for archæological restorations at Mandu

1903-1904 General Results.

81. After providing for these special grants, which aggregate R2,65,52,000, the Revised Estimates show a surplus of £2,711,200 or R4,06,68,000, against £948,700 or R1,42,30,000 in the Budget But for the special grants, the surplus would have been R6,72,20,000

82. Of the actual surplus of £2,711,200, it has been decided to set apart a sum of £956,700 for expenditure in the ensuing year on the provision of new artillery and small arms, and in pushing on the scheme of special coast defences to which reference was made in paragraph 234 of the last Financial Statement

83 Both revenue and expenditure were higher in India than the amounts taken in the Budget Estimate, there being a net improvement of £4,215,700, of which £1,631,000 is in the Imperial Section of the accounts and £2,584,700 in the Provincial and Local Section. The latter does not affect the surplus of the year. In England both revenue and expenditure are better, the total improvement being £131,500. This added to the improvement of £1,631,000 in the Imperial Section in India gives the total improvement of £1,762,500 in the surplus of the year shown in the table above

1903-1904. Decrease in Revenue in India.

84. The only important decrease in revenue in India is under Telegraph, R4,30,000, and is due to the diversion of foreign traffic to cable routes *viâ* South Africa and the Pacific, and to a falling off in transit message receipts in consequence of the reduction of the tariff between India and Europe. There are also small decreases under Jails (R3,96,000), Miscellaneous (R2,12,000), Interest (R2,46,000), and Irrigation Minor Works (R2,14,000).

1903-1904. Increase of Revenue in India

85. Under almost all other heads there is an improvement, the more important items being—

	R	R
Land Revenue, ordinary	22,90,000	
" due to Irrigation	4,06,000	
		26,96,000
Opium		2,03,24,000
Salt		31,00,000
Stamps		6,19,000
Excise		63,07,000
Customs		47,42,000
Forest		17,87,000
Post Office		5 91,000

Irrigation, Major Works—Direct Receipts		22,28,000
Civil Works		10,03,000
Army		11,17,000

1903-1904. Land Revenue.

86. The improvement in Land Revenue collections is due mainly to the favourable character of the season, and the re-establishment of normal conditions of prosperity. It occurs chiefly in Madras, R9,47,000, Punjab, R15,13,000; Bengal, R4,13,000, Bombay, R4,09,000; and Central Provinces, R2,50,000. A part of the improvement in Madras is due to the increases obtained from revision of settlements in some districts being larger than was provided in the Budget Estimate. In the Punjab, it was also due to the extension of canal irrigation and to higher receipts from the sale of waste lands in the Chenab and Jhelum Colonies. There are, on the other hand, decreases of R3,10,000 in Assam due to

the postponement of the kist dates for payment; of R4,14,000 in Burma due to the failure of crops in parts of Upper Burma; and of R2,91,000 in Berar, due chiefly to the cess demand in the Akola District having been wrongly included under this head in the Budget Estimate.

03-1904. ium Revenue.

87. The improvement in Opium revenue is chiefly in Bengal (R1,73,67,000), Bombay (R29,60,000) and Burma (R1,25,000). The prices realised at the sales of Bengal Opium during the current year have been exceptionally high, the average for the year being R1,462. The exports of Malwa Opium have also been much larger than was assumed in the Budget, the number of chests weighed being estimated at 26,200 against 19,831 in the previous year. This is attributed partly to the rise in the price of silver, and partly to the depletion of stocks in China in consequence of the failure of the local crop. In Burma the increase has been obtained from the improved arrangements for the prevention of smuggling.

03-1904. lt Revenue

88. Under Salt, there are increases of R32,00,000 in Madras, R6,50,000 in Northern India, and R4,00,000 in Bengal, while there are decreases of R4,00,000 in Burma and R7,50,000 in Bombay. The stimulus given to consumption by the reduction of duty is manifested in the increase in the first three provinces though the realisations on the credit sales of the previous year at the old rate of duty account for a large part of the increase in Madras The Burma Budget was an over-estimate In Bombay, a large quantity of salt was destroyed by heavy rain early in the year. This, however, appears to have stimulated the consumption of Madras salt by enabling it to displace Bombay salt in some districts.

03-1904 amps Revenue.

89. The improvement in Stamp Revenue is chiefly in Burma (R2,50,000), Bengal (R3,00,000), and the Punjab (R1,30,000).

03-1904. cise Revenue.

90 Owing to the generally favourable harvests the Excise revenue has grown in all provinces, and the improvement expected in the Budget has been surpassed everywhere except in Bengal. Compared with the Budget the largest increases have occurred in Madras (R20,00,000), Burma (R13,00,000), Bombay (R10,00,000), the United Provinces (R7,00,000), Berar (R5,10,000) and the Central Provinces (R3,88,000).

03-1904. usto ns Revenue

91 The improvement in Customs revenue extended to all the maritime provinces except Bengal where there has been a large falling-off in the imports of petroleum and some decrease of cotton goods In the former case it is evident that Burma oil is taking the place of the foreign product The continuance of the large imports of silver is remarkable. The articles in which the chief increases and decreases have occurred in all the provinces taken together are —

Increases in Receipts.

	R
Export duty on rice	25,00,000
Import duty—	
Silver	13,50,000
Other metals and manufactures of metals	5,00,000
Manufactured articles	8,94,000
Spirits and liqueurs	5,00,000
Chemicals	1,25,000
Sugar	1,50,000
Excise duty on cotton manufactures	2,20,000
Land customs and miscellaneous	1,35,000

Decreases in Receipts.

Import duty—	
Petroleum	9,50,000
Cotton manufactures	1,60,000
Sugar countervailing duties	4,71,000

1903-1904. Forest Revenue

92 The Forest receipts show an improvement in every province except Bengal and the districts under the administration of the Government of India. The largest increase is in Burma amounting to R11,50,000. In this province the revenue experienced a serious decline in 1901-1902, but has since then been growing steadily.

1903-1904. Post Office Receipts.

93. The growth of the receipts of the Post Office during the year has been more rapid than was anticipated.

1903-1904. Mint Receipts.

94. The large improvement under Mint is due to the exceptionally heavy coinage of silver which has had to be undertaken in the year as explained in paragraph 19. It does not, however, materially affect the surplus of the year as the whole of the profits of coinage, after deduction of the charges, is paid to the Gold Reserve Fund and is shown as expenditure.

Gold Reserve Fund.

95. The whole of the balance of the Gold Reserve Fund except a small balance of £5,700 has been remitted to the Secretary of State for investment, and the balance of the Fund now amounts to £6,382,200 of which £6,376,500 is held in Consols and National War and Local Loans Stocks.

1903-1904. Marine Receipts.

96. The increase in Marine receipts is due partly to a change in accounting whereby recoveries on account of stores and labour supplied to the Royal Navy which used to be taken as reduction of expenditure, are now credited as receipts. It is also due in part to recoveries on account of the employment of Royal Indian Marine vessels in connection with the operations in Somaliland

1903-1904. Exchange.

97. Under Exchange, there is an increase of R8,74,000 representing the exchange on the net expenditure in England on revenue account, the average rate of exchange for Council Bills and Transfers to date having been 1*s*. 4·049*d*. On the other hand, the gain in connection with the transactions of the Southern Mahratta Railway was overestimated to the extent of R1,36,000 and the loss on miscellaneous remittance transactions between England and India is now expected to amount to R1,90,000 against R2,000 taken in the Budget Estimate.

1903-1904 State Railways—Gross Receipts.

98. The gross receipts of State Railways are better than the Estimate of March last by R1,61,39,000, but the working of the increased traffic and special renewals of engines and repairs of permanent way, bridges and rolling stock, are likely to cause an increase of R52,88,000 in the working expenses. There is thus a net improvement of R1,08,51,000. There has been a remarkable expansion of traffic on most of the larger systems of Railways except the Rajputana-Malwa, the Bengal-Nagpur and the Indian Midland on which the improvement provided in the Budget Estimate has not been realised. On the Rajputana-Malwa line, there was a serious decline in goods traffic in 1902-1903 on the cessation of the famine conditions of previous years, and a small recovery was anticipated in the Budget Estimate of the current year. Instead of an increase, however, there has been a further considerable decline, owing chiefly to a diversion of the traffic to the Great Indian Peninsula Railway. The goods traffic on the Indian Midland Railway also has been very slack The lines which have contributed chiefly to the improvement are the North-Western, East Indian, Great Indian Peninsula. South Indian, and Bengal and North Western Railways. On the first named line, where the improvement has been most marked, it was due to very heavy wheat traffic, and also to traffic arising from the Jhelum and Chenab Colonies, as well as to increased mileage and general development. The more important differences are as follows:—

	Increase +	Decrease —	
	Receipts.	Working Expenses	Net Receipts.
Better than Budget—	R	R	R
North-Western Railway .	+1,07,00,000	+16,00,000	+91,00,000
East Indian Railway .	+23,00,000	...	+23,00,000
Great Indian Peninsula Railway . . .	+32,00,000	+21,50,000	+10,50,000
South Indian Railway .	+13,00,000	—75,000	+13,75,000
Bengal and North-Western Railway . . .	+15,00,000	+7,50,000	+7,50,000
Eastern Bengal Railway .	+13,00,000	+7,50,000	+5,50,000
Burma	+12,00,000	+11,00,000	+1,00,000
Oudh and Rohilkhand Railway . . .	+5,00,000	+1,00,000	+4,00,000
Worse than Budget—			
Rajputana-Malwa Railway	—37,00,000	—13,00,000	—24,00,000
Bengal-Nagpur Railway .	—14,00,000	...	—14,00,000
Indian Midland Railway .	—10,00,000	—4,55,000	—5,45,000
North-East Line, Madras Railway . . .	—1,50,000	+5,35,000	—6,85,000

1903-1904. Guaranteed Companies—Net Traffic Receipts.

99. Both the Bombay, Baroda, Central India, and Madras Railways, which are the only two Railways of this class not yet purchased by Government, have contributed to the increase in the net traffic receipts of Guaranteed Railways. The improvement would have been larger, but for the heavy fall in the earnings of the Rajputana-Malwa Railway which threw a larger share of the combined expenses of the whole system on the Bombay, Baroda and Central India line.

1903-1904. Irrigation, Major Works—Direct Receipts.

100. Of the increase in the Direct receipts from Major Irrigation Works, R17,21,000 has occurred in the Punjab owing to the favourable character of the seasons. Almost all the canals in the province have contributed to the improvement.

1903-1904. Civil Works Receipts.

101. Under Civil Works there is a special receipt of R2,64,000 on account of the sale to the Home Government of buildings on the Somali Coast, and of R2,15,000 on account of the sale-proceeds of the residence of the Commissioner of Police, Calcutta. The receipts from the Darjeeling-Himalayan Railway in Bengal as well as those from rents, tolls and ferries in most of the provinces, have been higher than the amounts taken in the Budget Estimate

1903-1904. Army Receipts.

102. The increase in Army receipts is due to larger recoveries from the Imperial Government for the peace equipment of native troops on service in China, for Europe stores issued to Somaliland and China, and for mounted infantry ponies sent to Somaliland.

1903-1904. Increase in Expenditure in India.

The important increases of expenditure in India are:—

	R
Refunds and Drawbacks	5,65,000
Opium	71,00,000
Mint	3,31,75,000
General Administration	8,64,000
Marine	19,69,000
Miscellaneous	16,31,000
State Railways—Working Expenses	52,88,000
Major Irrigation Works—Working Expenses	6,85,000
Civil Works	20,12,000
Army	30,10,000

1903-1904. Refunds and Drawbacks

103. The excess refunds occur in all provinces except Madras and the United Provinces, but chiefly in Burma, Bengal and Bombay, and the districts administered by the Government of India. They are due partly to larger refunds of Customs duty and partly to special refunds of Salt duty in connection with the reduction in the salt tax in March 1903. There were also larger refunds of Land Revenue, Excise and Tributes in Burma

1903-1904. Opium Expenditure.

104. The Budget provided for the cost of an average Bengal opium crop, but the actual outturn has been exceptionally large, necessitating an increase of R71,00,000 in the payments to cultivators.

1903-1904. Mint Expenditure.

105 Of the total increase in Mint expenditure, R3,26,66,000 is accounted for by the payment of the net profits of the rupee coinage of the year to the Gold Reserve Fund. These amounted to R3,69,86,000 against R43,20,000 provided in the Budget Estimate The balance represents charges incurred in England on account of remittances of gold from India and of silver purchased for coinage. These charges, though incurred in England, are passed on to India through the remittance account, and appear as Indian expenditure. The cost of extra establishment necessitated by the heavy coinage of the year is also included under this head.

1903-1904. General Administration

106. The increase under General Administration is chiefly accounted for by the cost of new Viceregal railway carriages, the charges on account of His Excellency the Viceroy's tour in the Persian Gulf, and extra charges of the Secretariats, due chiefly to the employment of a number of officers on special duty. There was also some increase in the Central Provinces, in consequence of the transfer of the administration of Berar.

1903-1904. Marine Expenditure.

107. As explained in paragraph 96, the greater part of the increase under Marine is due to a change in the system of accounting. The balance is due to work done in connection with the Aden Boundary Commission, His Excellency the Viceroy's tour in the Persian Gulf, the construction of a new vessel to replace the *Pansy*, and the maintenance of three torpedo boats taken over from the Admiralty.

108. Of the increase under Miscellaneous, R11,00,000 is on account of remissions of irrecoverable takavi advances in the Central Provinces, and R87,000 on account of the remission of the balance of the loan granted to the Chittagong Port Fund for the purchase of the steam tug *Gekko*, as announced by His Excellency the Viceroy in his reply to the addresses presented to him at Chittagong. The remainder of the increase chiefly represents charges of the special Commissions of Enquiry appointed during the year, and the cost of additional elephants acquired for the Khedda operations in Burma. *1903-1904 Miscellaneous Expenditure.*

109. The increase in working expenses of State Railways has been explained in paragraph 98. *1903-1904. State Railways—Working Expenses.*

110. Under Major Irrigation Works—Working Expenses, the increase occurs chiefly in the Punjab and Madras, while there is a decrease in Bengal and Bombay. In the former the Indus Inundation canals which used to be classed as a Minor Work are now treated as a Major Work, and unforeseen urgent works have also involved extra expenditure In Madras the excess is due to the cost of repairing damages caused by heavy floods in the river Kistna. *1903-1904. Major Works—Working Expenses.*

111. Under Civil Works, there is an increase in all the provinces except Madras, Berar, Burma and the Districts administered by the Government of India. This was due to additional grants having been sanctioned by Local Goverments for urgent works from savings under other heads. There was also large special expenditure in connection with the Murtaza-Wana road in the North-West Frontier Province, on the construction of roads in Sikkim, and on the buildings for the Imperial Cadet Corps at Dehra Dun. *1903-1904. Civil Works Expenditure.*

112. There are as usual a large number of variations between the Budget and the Revised Estimates of Military Expenditure. The absence of troops in Somaliland and China again led to savings which are estimated at R20,80,000 and R8,52,000, besides R6,56,000 on account of stores. Besides this there were savings of R10,00,000 on account of food supplies, of R3,30,000 in the cost of remounts, of R4,25,000 on account of short strength of troops and establishments, and a variety of other reductions, the whole estimated at R75,98,000. Against this, however, there was heavy expenditure on account of the Tibet Mission and the military escorts with the Aden and Seistan Delimitation Commissions. The savings on account of the absence of troops across the sea were as usual appropriated for new non-recurring expenditure for the improvement of the army. The more important items leading up to the net excess of R30,10,000 were the following:— *1903-1904. Army Expenditure*

Increases.	R
Sikkim-Tibet Mission	45,00,000
Military Escort with the Aden Delimitation Commission	25,71,000
" " Seistan " "	2,26,000
Charges for Horse-breeding operations transferred from the Civil to the Military Department	2,84,000
Mounted Infantry ponies purchased in replacement of those sent to Somaliland	2,32,000
Reconstitution of certain Native Corps of the Madras Command	2,17,000
Special expenditure in India sanctioned against savings due to the absence of troops in Somaliland and China—	
Improvement in the pay, etc., of the officers of the Indian Medical Service in Military employ	2,00,000
Purchase of ·303" ammunition	1,72,000
Cost of warm coats sent to South Africa and rejected by Military Authorities there	3,05,000
Camps of exercise and Instruction	1,00,000
Reconstruction of Native Infantry lines at Secunderabad, Bellary and Bangalore	1,03,000
Other smaller items	4,49,000
Excess charges for conveyance of troops and stores	4,60,000
Other items	7,89,000
	1,06,08,000
Decreases	75,98,000
Net increase	30,10,000

1903-1904. Decreases in Expenditure in India

113. Under almost all the remaining heads of importance, the expenditure has fallen short of the provision in the Budget. The following are the more important savings —

	R
Land Revenue	19,57,000
Telegraph	5,30,000
Law and Justice—Courts of Law	8,92,000
" " Jails	12,79,000
Police	16,14,000
Education	21,51,000
Medical	14,70,000
Political	5,03,000
Scientific and other Minor Departments	6,17,000
Famine Relief	12,24,000
Construction of Protective Railways	7,26,000
Subsidised Companies Land, etc	6,59,000
Minor Works	12,44,000
Military Works	5,27,000
Special Defences	14,64,000

1903-1904. Land Revenue, Telegraph, and Civil Departments Expenditure.

114. The savings under Land Revenue, Courts of Law, Jails, Police, Education, Medical, and Scientific and other Minor Departments occur in almost all provinces and are due as usual to the tendency of Local Governments to make fuller provision in the Budget Estimates for payment of salaries and other charges than is actually required, and to make allotments for new schemes before they are sufficiently matured to receive sanction. The only noticeable increase in the charges under these heads is one of R1,00,000 in Bombay under Courts of Law due to insufficient allowance made in the Budget Estimate for the normal growth of the charges. A part of the decrease under Education is nominal, being counterbalanced by a corresponding increase under Civil Works, as a portion of the grants made to the several Local Governments for Education has been utilised for the construction of Educational buildings, and the expenditure has been shown under the appropriate head. Under Medical there have been large savings on the grants for plague expenditure in the Districts under the direct administration of the Government of India, Bengal, United Provinces, Punjab, and Bombay. The only notable increase in plague expenditure has occurred in Madras. The decrease under Telegraphs follows the reduction in receipts.

1903-1904. Political.

115 Under Political, there is a saving of R6,22,000 in the charges directly administered by the Government of India. The payments to His Highness the Amir have fallen short of the Budget Estimate by R15,50,000. On the other hand, there has been considerable extra expenditure on account of the Seistan Arbitration Commission and the Tibet Mission

1903-1904 Famine Relief.

116 Provision was made in the Budget Estimate for Famine Relief expenditure for R15,00,000 in the Central Provinces and for R30,000 in the Punjab. It is satisfactory to note that the necessity for incurring such expenditure has disappeared and that the actual expenditure in the Central Provinces has amounted to R3,05,000 only.

1903-1904. Construction of Protective Railways.

117. In the Budget Estimate a sum of R23,00,000 was allotted for expenditure on the following famine feeder railways, but the actual expenditure on them during the year is now expected to amount to R15,74,000, as shown below, excluding a sum of £22,200 provided in England for payment to the Madras Railway Company by which the construction of the lines is being carried out:—

	Budget.	Revised.
Bellary-Royadrug	15,00,000	8,74,000
Hospet-Kottur		3,08,000
Morappur-Dharmapuri	8,00,000	1,44,000
Tirupatur-Krishnagiri		2,48,000
	23,00,000	15,74,000

118. The saving in expenditure on land for Subsidised Railways is due partly to the progress of acquisition of land for the Bengal and North-Western Railway having been slower than was expected, and partly to the grants for land for the following projects not having been utilised:— *1903-1904. Subsidised Companies—Land, etc*

	R
Bara-Ajmer and Marwar Railway	50,000
Hooghly-Cutwa Railway	50,000
Jullunder-Kapurthala-Sultanpur Railway	15,000
Kurnool Branch Railway	30,000
Bezwada-Masulipatam Railway	30,000
Shahdara-Saharanpur Tramway	1,40,000

119. The Budget Estimate for Minor Works and Navigation included a special grant of R25,00,000, but it has not been possible to work up to it in full, especially in the Punjab and Madras. *1903-1904. Minor Works and Navigation Expenditure.*

120. A considerable portion of the grant for Special Defences also will not be utilised during the current year. *1903-1904. Special Defences.*

121. The Revenue in England is expected to exceed the Budget Estimate by £63,700. The Interest receipts are higher by £103,000 owing to larger temporary investment of the cash balances at higher rates of interest. The Army receipts, on the other hand, are lower by £41,800. There is a decrease in the receipts on account of the Indian Troop service owing to the transfer of £39,400 to 1904-1905. The receipts from contributions towards pensions of native troops lent for Imperial service are also lower as a sum of £34,300 was received on this account in the previous year. *1903-1904. Revenue in England.*

122. The Expenditure in England is expected to be £67,800 less than the Budget Estimate. It is the net result of a number of variations, the more important of which are as follows — *1903-1904 Expenditure in England*

	£
Decreases—	
Telegraph	33,900
Civil Furlough and Absentee Allowances	20,000
State Railways—Interest on Capital deposited by Companies	39,500
Guaranteed Companies—Interest	13,900
Civil Works	13,100
Army	36,200
Increases—	
Marine	13,300
Construction of Protective Railways	22,200
Military Works	36,500

123. The saving under Telegraph is chiefly in the payments in respect of the guarantee of Joint Purse Revenue on reduction of telegraph rates, and is also due to increased receipts from the Eastern Telegraph Company on Joint Purse account. A decrease in the number of officers on leave in England has reduced the payments on account of Absentee Allowances There are decreases under Interest on Capital deposited by Companies and Guaranteed Companies, —Interest, as the additional capital required by the railway companies during the year was not raised as early as was expected The saving under Civil Works is due to the omission of the proposed expenditure on extensions of the Royal Indian Engineering College Under Army, the payments to the War Office on account of British forces serving in India and the charges for stores, chiefly ordnance and clothing, are less than the Budget Estimates On the other hand, the furlough allowances of both British forces serving in India and officers of the Indian service, and the charges for the Indian Troop service are higher. The increase under the latter is due to arrears of previous years in respect of the cost of moving troops from South Africa to India, and to increase in freight of troops to India A further cause of the increase is that the charges for pensions of Berar officers which used to be recovered from Berar revenues are now borne by the general revenues of India. A sum of £6,000 for which no budget provision was made has been spent during the year on special defences. *1903-1904 Decrease in Expenditure in England*

1903-1904 Increase in Expenditure in England.

124. Under Marine, the increase is chiefly due to the expenditure on the Royal Indian Marine vessel *Dufferin* which is to replace the *Clive*. On the other hand, the provision of £14,000 in the Budget Estimate for subsidy to the Admiralty for manning and maintaining Indian Government Defence vessels has not been required as the expenses of the three torpedo boats, which alone are retained, have been defrayed in India. A sum of £22,200 is required in England by the Madras Railway Company for the four famine feeder lines under construction by it. The total grant for the Railways was provided in the Budget Estimate in India as the arrangements with the Company for the construction of the lines had not been effected at the time when the Budget Estimate was framed The increase under Military Works is chiefly in the charges for stores, the demands for which have been higher than was expected.

Section III.—The Budget Estimate of 1904-1905.

1904-1905. Statement of Gross Figures

125 The following is a general comparison of the Budget Estimate of 1904-1905 with that of 1903-1904 :—

	1903-1904.	1904-1905.	1904-1905, better.	1904-1905, worse.
REVENUE.	£	£	£	£
India	75,699,400	79,601,100	3,901,700	...
England	656,000	547,500	...	108,500
TOTAL .	76,355,400	80,148,600	3,793,200	...
EXPENDITURE.				
India—				
Imperial, Provincial and Local.	58,514,900	61,563,300	...	3,048,400
Adjustment of Provincial and Local Surplus and Deficit .	—1,383,500	—1,316,800	..	66,700
NET .	57,131,400	60,246,500	...	3,115,100
England	18,275,300	18,983,400	...	708,100
TOTAL .	75,406,700	79,229,900	...	3,823,200
SURPLUS .	948,700	918,700	...	30,000

1904-1905 General Remarks

126. As explained in paragraph 82, it has been decided to apply part of the surplus of 1903-1904 in providing new armaments and carrying out a scheme of special coast defences. The expenditure for which provision has thus been made amounts to £956,700, and although the funds have been obtained from the realized surplus of the previous year, the charge necessarily appears as a debit against the revenue of 1904-1905, in which year the money is expected actually to be spent But for this charge, the estimated surplus of the year would have been greater than it is by £956,700.

127. In India the net revenue is expected to be better than that taken in the Budget of 1903-1904 by £853,300, of which £786,600 is anticipated in the Imperial portion and £66,700 in the Provincial and Local portion. In England, both revenue and expenditure are expected to be worse, to the aggregate amount of £816,600.

128. The only heads of revenue in India in which an appreciable falling-off is expected are— *1904-1905. Falling-off in Revenue*

	R
Telegraph	6,80,000
Mint	25,60,000
Miscellaneous	4,41,000

129. The decrease in Telegraph receipts, including those of the Indo-European Telegraph Department, is due to the diversion of foreign traffic to direct cable routes *vid* South Africa and the Pacific, and to the increase in terminal message receipts on the Persian Section being thought unlikely to continue. The receipts under Mint represent chiefly the profits on coinage, which are transferred to the Gold Reserve Fund The estimate assumes that coinage will be on a lower scale than was anticipated in March 1903. It is however quite impossible to say whether coinage on a large scale will be required or not. Under Miscellaneous, the reduction is mainly due to a lower estimate being taken for Khedda receipts in Burma, and to there being no recoveries to be made in 1904-1905 on account of the Delhi Durbar.

130. An improvement is expected in the revenue in India under almost all the other heads, of which the following are the most considerable items:— *1904-1905. Increase in Revenue.*

	R	Increase R
Land Revenue, Ordinary	72,28,000	
" Due to Irrigation	6,41,000	
		78,69,000
Opium		85,99,000
Salt		27,00,000
Stamps		13,54,000
Excise		81,74,000
Customs		45,58,000
Assessed Taxes		11,56,000
Forests		16,41,000
Post Office		8,08,000
Marine		18,48,000
State Railways—Gross Receipts		1,81,39,000
Guaranteed Railway Companies (Net traffic receipts)		10,50,000
Irrigation—Major Works		19,68,000

131. The anticipated improvement in the Land Revenue extends to all parts of India, but is largest in the Central Provinces (R6,50,000), Burma (R10,16,000), the Punjab (R17,10,000), Madras (R21,18,000), and Bombay (R11,07,000). In each of these Provinces the main cause is the recovery of the country from the famine of 1899-1900, and the re-establishment of normal conditions. Special causes have operated in Burma, where extensions of cultivation, the introduction of higher rates on revision of settlement, and the assessment of all cultivated lands in Magwe and other districts of Upper Burma have raised the probable return; in Madras, where resettlements have taken place in Salem and some other districts; and in the Punjab, where there has been an extension of canal irrigation. *1904-1905. Land Revenue.*

132. Under Opium, the improvement is expected chiefly in Bengal (R72,29,000) and Bombay (R13,10,000). In the estimates framed last March, the average price of Bengal opium was taken at R1,100 a chest. The actual figures have far exceeded this, the average for the year being R1,462. As the demand is still strong, and recent sales show little sign of a falling off, the average for 1904-1905 has been taken at R1,250 The estimate is, however, one of much uncertainty. In Bombay, the demand for Malwa opium has been strong throughout the year, and shows no sign of weakening. The probable revenue has therefore been taken at 115 lakhs, which is higher by R13,10,000 than the Budget Estimate of 1903-1904, though well below the probable actuals of that year. *1904-1905. Opium Revenue.*

1904-1905, Salt Revenue.

133. The increase in Salt revenue is expected to be general throughout India except in Burma, where the receipts of 1903-1904 were overestimated, and in Bombay, where, however, an advance over the receipts of the current year is anticipated. The experience of the expiring year shows that in framing the estimate for 1903-1904, sufficient allowance was not made for the effect of the reduction of duty in stimulating consumption. Fuller allowance has been made for this factor in the present estimate · but a small reduction, as compared with the probable revenue of 1903-1904, has been made to allow for the effect of credit sales in Madras made at the old rate of duty which have swelled the receipts of the current year.

1904-1905 Stamp Revenue

134 An increase in Stamp revenue is expected in Bengal and Burma, and to a less extent in the United Provinces and the Punjab.

1904-1905 Excise Revenue

135. With returning prosperity, the Excise revenue has continued to improve. The Revised Estimates show that the expansion has been even greater than was anticipated last March In view of the favourable character of the recent harvests, it is estimated that this process will continue in the coming year, especially in Burma, the United Provinces, Madras, and Bombay.

1904-1905 Customs Revenue

136. The Budget Estimate of Customs revenue is R45,58,000 higher than that of the current year, but is R1,84,000 lower than the Revised Estimate In Burma, a decrease is expected in the export duty on rice, the high receipts from which cannot safely be expected to continue for a third year in succession. Elsewhere, a moderate improvement is estimated for.

137. The articles in which the chief increase or decrease is expected, as compared with the Revised Estimate, are the following :—

	R
Decreases—	
Silver	2,75,000
Rice, export duty	10,00,000
Petroleum	2,00,000
Increases—	
Spirits and Liqueurs	4,00,000
Manufactured articles	3,00,000
Metals and Manufacture of Metals (other than silver)	2,00,000
Cotton goods	3,10,000

1904-1905. Assessed Taxes

138. An increase is expected from Assessed Taxes, chiefly in Bombay, Burma and Madras The extension of the income-tax to Berar is expected to bring in R2,89,000

1904-1905 Forest Receipts

139 Forest receipts are expected to be better in every province except the Punjab, but chiefly in Burma where the improvement is estimated at 8 lakhs.

1904-1905 Post Office Receipts

140. A normal growth of revenue is expected from the Postal Department.

1904-1905 Marine Receipts.

141 The increase under Marine is largely though not entirely due to a change of classification, by which receipts on account of vessels and stores supplied to the Home Government are shown in gross instead of as a deduction from the expenditure

1904-1905 Railways—Net Earnings.

142 Under State and Guaranteed Railways the net earnings are of greater significance than gross receipts. The progress of these has been as follows :—

	Actuals, 1902-1903. R	Budget, 1903-1904. R	Revised, 1903-1904. R	Budget, 1904-1905. R
State Railways—				
Gross receipts	28,70,65,000	29,05,74,000	30,67,13,000	30,87,13,000
Working expenses	14,74,08,000	14,85,49,000	15,38,37,000	15,84,59,000
Net earnings	13,96,57,000	14,20,25,000	15,28,76,000	15,02,54,000
Guaranteed Companies—				
Net traffic receipts	1,41,93,000	1,37,75,000	1,42,07,000	1,48,25,000

1904-1905. State Railways—Gross Traffic Receipts.

143. As explained in paragraph 98, there has been a marked expansion of traffic and of net earnings during the current year, which has extended to all the larger Railway systems except the Rajputana-Malwa and the Bengal-Nagpur, on which the improvement expected last March has not been realized. For 1904-1905, a cautious estimate has been framed providing for an increase of net earnings on State Railways of R82,29,000 over the Budget of last year, but less

by R26,22,000 than the Revised Estimate. The more important differences, as compared with the Revised Estimate, are anticipated on the following lines —

	Increase +	Decrease —	
	Receipts.	Working Expenses.	Net Earnings
Better than the Revised—	R	R	R
Rajputana Malwa Railway	+20,00,000	+4,00,000	+16,00,000
Bengal Nagpur Railway	+19,00,000	+5,00,000	+14,00,000
North-East Line, Madras Railway	+1,00,000	−2,85,000	+3,85,000
Oudh and Rohilkhand Railway	+5,00,000	+1,50,000	+3,50,000
Great Indian Peninsula Railway	+10,00,000	+8,00,000	+200,000
Worse than the Revised—			
East Indian Railway	+5,00,000	+9,00,000	—4,00,000
North Western Railway	—42,00,000	+4,00,000	—46,00,000
South Indian Railway	+1,00,000	+6,25,000	—5,25,000
Eastern Bengal Railway	—6,75,000	—2,75,000	—4,00,000

The large decrease estimated for on the North Western Railway is due to the fact that the high earnings of the current year were swollen by an exceptionally heavy wheat traffic, and it is not considered safe to reckon on a continuance of this next year.

144. The estimate of receipts from Major Irrigation Works is taken at R2,60,000 less than the Revised Estimate of the current year, which again was R22,28,000 better than the Budget framed in March 1903. It is expected that there will be an increase of R70,000 in Burma. and that in the Punjab (which supplies the bulk of the revenue under this head), decreases on the Western Jumna, Bari Doab, and Sirhind Canals will be nearly made good by expansion on the Chenab and Jhelum systems *1904-1905. Major Works—Direct Receipts.*

145. A material decrease of expenditure in India is expected under the following heads:— *1904-1905 Decrease of Expenditure in India*

	R
Interest on Debt	24,74,000
Mint	25,88,000
Miscellaneous	7,46,000
Famine Relief	15,30,000
Irrigation—Minor Works	17,59,000
Construction of Local Railways	4,56,000

146. There is an increase of R38,29,000 in the amount of interest transferred to the Railway and Irrigation accounts, representing the interest on new capital expenditure. This causes a decrease in the charges for interest on debt by an exactly equal amount. The annual payment of 12 lakhs towards the principal of the Gwalior loan also gives a saving of R48,000 On the other hand, the interest on the new loan of two crores raised in 1903 will increase the charges by 7 lakhs. A further charge of R50,000 is on account of interest on the temporary loan of 50 lakhs obtained from Gwalior in January 1904 The usual provision has also been made for the loan which it is proposed to raise during the current year *1904-1905. Interest on Debt.*

147. The decrease under Mint is due to the smaller coinage expected to be undertaken during the year, involving a smaller payment to the Gold Reserve Fund. It is not, however, possible to frame a reliable estimate of the amount of additional coinage required many months in advance, and the estimate of the current year has been completely falsified. *1904-1905. Mint Expenditure.*

148. The decrease under Miscellaneous occurs chiefly in the Punjab and to a less extent in Burma, the Central Provinces and the districts directly under the Government of India. In the Punjab the provision for writing-off irrecoverable loans, chiefly in the Rohtak district, is less by R6,68,000. In Burma the decrease is in Kheddah charges; and in the Central Provinces it is due to smaller provision for payment to the Chattisgarh zemindars on the resumption of their cattle pounds. *1904-1905. Miscellaneous Expenditure.*

149. In the estimate of the current year, a provision of 15 lakhs was made for Famine Relief in the Central Provinces and of R30,000 in the Punjab. For 1904-1905, no provision is considered necessary. As explained in paragraph 211 *1904-1905 Famine Relief.*

of the last Financial Statement, this reduction does not affect the surplus of the year

1904-1905. Minor Irrigation Works.

150 The smaller provision for Minor Irrigation Works is due to the fact that in 1903-1904 a special additional grant of 25 lakhs was sanctioned for expenditure under this head, and this has not been repeated in the estimate for next year. The reduction is chiefly in Bengal and the Punjab.

1904-1905 Construction of Railways charged to Provincial or Local Revenue

151. The Mayavaram-Mutupet and the Jorhat Railways are the only lines now charged to the head "Construction of Railways charged to Provincial or Local Revenues" The smaller provision is considered sufficient for requirements.

1904-1905 Increase in Expenditure in India

152. The following are the more important increases in expenditure in India in 1904-1905 over the estimates for 1903-1904 —

	R
Land Revenue	20,44,000
Opium	40,00,000
Post Office	6,60,000
Telegraphs	4,51,000
General Administration	4,61,000
Courts of Law	5,59,000
Police	2,65,000
Marine	28,20,000
Education	6,29,000
Medical	2,31,000
Political	37,77,000
Superannuations	4,20,000
Construction of Protective Irrigation Works	8,90,000
State Railways—Working Expenses	99,10,000
Interest on Railway Debt	30,79,000
Irrigation—Major Works—	
Working Expenses	9,49,000
Interest on Irrigation Debt	4,37,000
Civil Works	98,87,000
Army	1,37,69,000

1904-1905. Land Revenue, Opium, Post Office, Telegraph, Civil Departments and Superannuation charges

153. The increases under Land Revenue, General Administration, Courts of Law, Police, Education, and Medical are distributed throughout all the Provinces of India and represent the additional expenditure to be incurred in improving and developing the ordinary Civil Administration of the country. The increase of R4,20,000 under Superannuations represents the normal growth of the pension list. Under Opium, in view of the bumper crop of last season, and the probable extension of cultivation consequent thereupon, it has been thought right to budget for the charges of more than an average crop as is the usual custom The latest reports moreover indicate that the current season's crop will also be considerably above the average The increased charge under Post Office and Telegraphs represents expenditure necessitated by the progressive growth of these Departments. In the case of the latter, heavier expenditure is anticipated on repairs, and a provision of R2,52,000 has been made for additional stores to be kept in reserve for Military purposes On the other hand, there is a partial set-off of R1,88,000 on account of smaller provision being required for the Central Persian line.

1904-1905 Marine Expenditure.

154. The increase under Marine is partly nominal as explained in paragraph 141. It is also due in part to provision being made for hire of transport and other charges in connection with the return of troops from Somaliland and the escort of the Aden Boundary Commission. The budget includes R6,75,000 for a new steam pilot vessel for Bengal.

1904-1905. Political Expenditure

155. The increase of R37,77,000 under Political is due—

(1) to provision having been made for the payment of R21,50,000 on account of arrears of the Amir's subsidy, in addition to the usual annual provision of R18,50,000,

(2) to grants of R8,39,000 and R2,00,000 respectively for political expenditure in connection with the Seistan and Tibet Missions, and

(3) to the reorganization of the Waziristan Militia at a cost of R3,36,000.

1904-1905 Construction of Protective Irrigation Works

156. For Protective Irrigation Works, the grant has been raised from R25,00,000 to R35,00,000 to enable better progress to be made with these works, especially the Ken Canal in the United Provinces, the investigation of the Kistna Reservoir, and the Tangabhadra and Pennar projects in Madras.

1904-1905. State Railways and Irrigation—Working Expenses and Interest on Debt.

157 The increased charge for working expenses of State Railways is explained in paragraph 183. It follows the expected increase of earnings. The higher charge for interest on Railways and Canals is on account of the additional capital expenditure that has been, and will be, incurred thereon The increase under Working Expenses of Major Irrigation Works is mainly due to the transfer of the Indus Inundation Canals to this head. Larger grants have also been provided for almost every province in consequence of the extension of irrigation.

1904-1905. Civil Works Expenditure

158. Of the increase of R98,87,000 under Civil Works, R31,00,000 represent a portion of the initial grants sanctioned for the four Provinces whose settlements have just been revised; and R22,00,000 represents special grants to the eight large Provinces referred to in paragraph 223 It is explained in paragraph 190 below, that the entry of these amounts is made under this head for convenience sake, and that the Local Governments have power to transfer the grants to any other head at their discretion Of the remainder, R20,00,000 represents the provision made in the Punjab for the extension and improvement of Simla, in accordance with the recommendation of the Simla Extension Committee

1904-1905. Army Expenditure.

159 The Military charges as a whole are considered in paragraph 192 below. The following remarks refer only to that portion of the total which represents expenditure incurred in India, and brought to account under the head Army.

The Budget Estimate for 1904-1905 amounts to R20,28,15,000 against R18,90,46,000 in the current year being an increase of R1,37,69,000. The figures for the two years may be compared as follows:—

	1903-1904	1904-1905.
	R	R
(1) Ordinary Military Expenditure .	18,53,20,000	19,45,08,000
(2) New measures for increasing the efficiency of the Army . .	36,08,000	34,17,000
(3) Special Services . . .	1,18,000	48,90,000

The ordinary expenditure is expected to be greater than that of the current year's estimate by R91,88,000. Of this R74,08,000 represents the extra service pay of the British troops at *6d.* a day, which became payable under Lord Alverstone's decision, from April 1904. The Budget also includes R16,72,000 on account of recurring charges arising out of the special measures sanctioned for the current year for improving the efficiency of the Army. The remainder of the differences is the net result of a number of minor increases and savings under various heads.

The new measures sanctioned for adoption next year are enumerated in paragraph 193 below.

The special services estimated for in 1904-1905 include the following:—

	R
(1) Tibet Mission	36,00,000
(2) Military escort with the Aden Delimitation Commission	11,29,000
(3) Military escort with the Seistan Boundary Commission	1,61,000

1904-1905. Revenue in England.

160. The estimate of Revenue in England is less than that taken in the Budget of the current year by £108,500. Interest on investments of the cash balance is expected to be greater by £10,000, and £26,000 will be realised by the sale of four torpedo and two gun boats On the other hand, there is a decrease of £135,500 under Army. This is due (1) to a decrease in the value of articles in the possession of Regiments on their transfer from the Indian to the British establishment, and (2) to a reduction in the number of native troops lent for Imperial service, involving smaller contributions towards pensions.

1904-1905 Expenditure in England

161. The estimate of Expenditure in England exceeds that of the current year by £708,100. The greater part of this, £654,900, occurs under the two heads, Army and Special Defences. Under the former, there is a net increase of £64,100 in non-effective charges, due to the gradual growth of pensions. Under

effective charges there is a net increase of £440,800 representing the difference between a reduction of £219,000 due to decreased payments to the War Office on account of British Forces serving in India, and an increase of £659,800 The chief factor making up the latter is an item of £700,000, representing the cost of the new artillery and rifles with which the Indian Army is to be supplied during the year Under Special Defences there is a grant of £150,000 for *materiel* in connection with the scheme referred to in paragraph 82.

Apart from military expenditure, the estimates show a net increase of £53,200, which is the difference between the totals of numerous minor variations under many heads. The more important of these are (1) an increase of £56,000 under Post Office, on account of adjustments in respect of past payments to the British Post Office, (2) a decrease of £46,500 under Telegraphs, partly on account of stores, and partly on account of reduced payments to the Joint Purse in respect of the guarantee, (3) an increase of £40,400 on account of part payment for the new Royal Indian Marine Vessel *Dufferin* which is to replace the *Clive;* and (4) an increase of £23,500 in payments to the Madras Railway Company for the construction of Protective Railways.

Section IV.—Statements comparing the figures of the Estimates under the more important heads of Revenue and Expenditure with those of past years.

LAND REVENUE.

162. The figures have been explained in sufficient detail in paragraphs 86 and 131. Now that the effects of the famine of 1899-1900 have passed away, the revenue grows steadily, under the influence of extension of cultivation, the regular revision of settlements, and the development of canal irrigation.

163. The quantity of Bengal opium to be sold is, as usual, taken at 48,000 chests. In view of the high average price obtained during the current year, especially at the sales of February and March, the average price for 1904-1905 has been taken at R1,250, but it is impossible to foresee what effect the war in the Far East may have on the trade. The Malwa trade has also been brisk, and a moderate increase is allowed for, though not to the full amount of the probable receipts during the current year.

164 Under 'Charges,' it is usual to budget for the payments required in respect of an average crop Last season's crop, however, was a bumper one, and the budget provision has been largely exceeded. The latest reports indicate that the crop of the present season will also be considerably above the average, and it has therefore been thought prudent to frame the estimate for 1904-1905 on a liberal scale.

(a) Chiefly excise on local manufacture. | (b) Chiefly duty on imported salt.

165 The effect of the reduction of duty in March 1903 has been partially obscured by the destruction of a large quantity of salt in Bombay by storm. The figures of consumption show a large increase in Madras and Northern India and a considerable falling off in Bombay and Burma In the last named province there was no reduction of duty Excluding Burma the returns for the first 10 months of the year show an increase of 670,000 maunds passed into consumption, compared with the same period of the previous year This represents an increase of 2 3 per cent The reduction in retail price has varied very considerably in different parts, but has commonly been from 1½ to 2 seers per rupee.

169. The fluctuations in the estimates have been explained in paragraphs 91 and 136. The continued large imports of silver are a remarkable feature of the last three years, and afford an index of the increasing prosperity of the country. The growth of the receipts from the Excise duty on cotton goods, from R11,23,000 in 1896-97 to nearly double that figure in the present year, is striking evidence of the healthy vitality of this important industry. The reduced receipts from petroleum are due to the displacement of Russian and American oil by oil from Burma

The charges in Bengal were swelled by the refund of the share of overtime fees which had been credited to Government, and which it has been decided to return to the Preventive and Custom House staff.

ASSESSED TAXES.

	Accounts, 1900-1901	Accounts, 1901-1902.	Accounts, 1902-1903	1903-1904 Budget	1903-1904 Revised	1904-1905, Budget.
	R	R	R	R	R	R

170. The exemption of all incomes below R1,000 was estimated to involve a loss of revenue of R36 lakhs, but the actual loss has been somewhat less. It is not yet known exactly what proportion of the whole number of assessees has obtained exemption. The tax will be extended to Berar next year and is expected to bring in R2,89,000.

FOREST.

172 The increase in 1904-1905 arises chiefly from the large advances given to the Simla-Kalka Railway The large increase in receipts in England was due to larger sums having been available for investment, and to a better rate of interest having been obtained upon them The reduction in receipts in India in the current year is partly due to the remission of interest on loans granted to Native States for expenditure on famine relief, as announced by His Excellency the Viceroy on 1st January 1903. These remissions appear in the accounts in the form of a reduction in receipts under this head. In addition to remitting the interest on the loans directly granted by the Government of India, Government also undertook to pay the interest on loans of a similar character raised by the Native States in the open market on a Government guarantee. These payments appear in the accounts as charges under the head 32.—Miscellaneous. The total value of both concessions is nearly 27½ lakhs and is distributed over four years as follows :—

175. The adjustments include both credits and debits Among the former are the following, *viz* —

(1) Charges on account of District Post establishments, which are debited to the Post Office but are met from special cesses, and

(2) Share of Subsidies, which are debited to the Post Office, but which really appertain in whole or in part to other Departments, such as Military or Political.

Among debits there are the following —

(1) District Post collections

(2) Value of free services rendered by Railways.

(3) Rent of Government buildings

(4) Pensionary charges and gratuities.

176 The variations in revenue and expenditure have been explained in paragraphs 84, 114, 129 and 153 Of the decrease in the Revised Estimate of the current year, R1,00,000 is expected in Indian revenue, and R3,30,000 in the receipts from the Indo-European Telegraph Department. The reduction in expenditure in England on revenue account is mainly due to smaller payments on account of the guarantee (£16,500 instead of £38,000) in connection with the reduced rate for foreign telegrams When the tariff for foreign messages was reduced from 4*s*. to 2*s* 6*d* a word from 1st March 1902, the Government of India undertook to make good to the Joint Purse the loss of revenue involved,

up to a maximum of £45,000 a year. For the first year, allowing for some increase of traffic, it was estimated that the payment under this guarantee would amount to £38,000. In fact, however, the traffic has increased in a far higher degree, and the actual payment required has been only £16,500 During the current year the traffic has continued to grow, and it is now estimated that only £12,300 will be payable in 1904-1905 Allowance has been made in the estimate for next year for the recent reduction in the tariff for inland telegrams

The increase in Capital expenditure in India, in the ensuing year, is due to provision having been made for extra mobilisation stores. The increase in revenue expenditure is due to heavier repairs of lines being anticipated, and to increased maintenance charges of signalling offices

177 These figures have been explained in paragraphs 94, 105, 129 and 147 Just before the close of the previous year, £300,000 worth of silver was purchased, and this was coined into rupees during the current year In addition to this, the very large sum of 4½ millions sterling worth of silver has been purchased during the course of the year in England and in India, and the greater part of this will have been coined by the end of the present month The profit on this coinage is expected to amount to R3,69,86,000, which has been, or will on completion be, transferred to the Gold Reserve Fund and invested.

The withdrawal and recoinage of the 1835 and 1840 rupees were continued during the year, 401 lakhs of these having been called in and recoined, in addition to over 50 lakhs which are awaiting recoinage at the present time.

180. The figures have been explained in paragraphs 116, 117, 149 and 156. The increase in the current year in the net charge on account of the Bengal-Nagpur and the Indian Midland Railways is chiefly due to the inclusion for the first time of interest charges amounting to R12,26,000 on the northern section of the East Coast Railway, which is worked by the Bengal-Nagpur Railway Till 1902, it was commonly held that there was no scope for the further construction of purely protective railways, i e, of lines which are valuable for opening up areas liable to famine, but which are not likely to pay interest on the cost of construction. This view no longer prevails, and a series of small but useful lines have been undertaken in Madras, and are being financed from the Famine Grant.

181. The information given in paragraph 255 of the last Financial Statement is repeated and brought up to date below.

Statement showing the Disposal of the Provision made in 1877-78 for Famine Relief and Insurance.

* In these years the net receipts on the Indian Midland and Bengal-Nagpur Railways exceeded the charges for other protective works in India.

† In 1882-83 a remittance of R1,22,77,330 was made to England, realising 1,001,393l., by means of which 909,584l. of sterling debt was discharged in 1883-84

182 The Revised Estimate of net receipts from State Railways in 1903-1904 is better than the Budget Estimate by R1,08,51,000 or £723,400, the gross receipts having exceeded expectation by R1,61,39,000 and working expenses by R52,88,000. Details of the more important variations are given in paragraph 98 above.

The great improvement on the North Western Railway system was due partly to increased open mileage, but chiefly to general development of traffic throughout

the system, and especially in connection with the Jhelum and Chenab Canal Colonies. The exceptionally heavy wheat traffic was the dominating feature of the year. The counrry served by the Rajputana-Malwa Railway seems not yet to have fully recovered from the scarcity of some years back The coal traffic on the Midnapore-Jherriah branch of the Bengal-Nagpur Railway has not come up to expectations

183. The estimate of net receipts from State Railways in 1904-1905 is placed at R26,22,000 or £174,800 below the Revised Estimate of 1903-1904. An increase of £133,300 has been taken in gross receipts and an increase of £308,100 in working expenses The former allows for normal expansion of traffic and for development of traffic on extensions recently opened, but assumes that the very high rate of increase recently obtained on the North Western Railway and some other lines will not be maintained Working expenses follow the receipts, but it has also been found necessary to provide for special renewals of permanent way and rolling-stock, and for repairs to flood damages in continuation of those undertaken in the current year The increase in Interest and other charges in India is due to the progress of capital outlay, and that in England chiefly to further receipts of capital from Railway Companies. As a result of these increases, the estimated net gain from the working of State Railways in 1904-1905 is less by £459,300 than in the Revised Estimate for 1903-1904

The principal modifications allowed for in the estimates of net receipts have been specified in paragraph 143

184 The Revised Estimate of net receipts from Guaranteed Railways shows an improvement of £28,700 compared with the original estimate, due chiefly to a large increase in goods traffic on both the Madras and Bombay, Baroda and Central India Railways, partly counteracted by an increase in working expenses In the Budget Estimate for 1904-1905 a further improvement in net receipts of £41,200 has been allowed for, the whole of this is on the Bombay, Baroda and Central India Railway, the country served by which has now recovered from the effects of famine The increase in the Revised Estimate of Surplus Profits, Interest and other charges in India compared with the original estimate is due mainly to the larger share of surplus profits payable to the Bombay, Baroda and Central India Railway Company consequent on improved earnings The decrease in the estimate of Interest paid in England is due to capital not having been raised as anticipated The increases allowed for in the Budget Estimate for 1904-1905 under these heads are due mainly to the larger share of surplus profits payable to the Bombay, Baroda and Central India Railway Company and to further receipts on account of capital

IRRIGATION.

Statistics of Major Works.						
Capital Outlay to March 31	35,21,44,980	36,15,60,720	37,24,61,175	38,41,68,720	38,31,32,175	39,94,10,175

185 In the Revised Estimate, the direct receipts from Major Works show an increase over the Budget Estimate of R22,28,000. The Punjab contributes the main portion of this increase which is partly due to general all-round improvements and partly to the transfer of the Indus Inundation Canals to "Major Works"

186 The Revised Estimate of expenditure shows an increase of R6,85,000 over the Budget Estimate This is partly due to the execution of certain works of maintenance not foreseen when the budget was framed, and partly to the working expenses of the Indus Inundation Canals, and special repairs to damages caused by heavy floods in the river Kistna In the Budget for 1904-1905 provision has been made for the Indus Inundation Canals, and for larger grants required in almost every province owing to the expansion of irrigation

187 As regards 'Minor Works,' the reduction under receipts in the Revised Estimate is due mainly to the transfer, during the year, of the Indus Inundation Canals to the category of Major Works The increase in the Budget for 1904-1905 as compared with the Revised is due to the introduction of water rates on the Lower Sutlej Inundation Canals consequent on the abolition of the Chher system Under expenditure, the Budget Estimate for 1903-1904 included a special additional grant of R25 lakhs The Revised Estimate, however, shows a lapse, due to its not having been practicable to utilise this grant fully in 1903-1904 In the Budget for 1904-1905, a special contribution of 3 lakhs to the Central Provinces is included

India R	64,76,334	67,63,743	68,73,931	67,39,000	78,41,000	68,04,000
England £	26,714	28,649	28,679	27,900	25,700	26,800

188. The Military Works expenditure of the year in India is expected to be less than the Budget Estimate by R5,27,000, due chiefly to the transfer of R5,47,000 to the grant for expenditure in England. Special expenditure amounting to R4,43,000 was sanctioned during the year out of savings in Army expenditure due to the continued absence of troops in Somaliland. But the excess due to this has been nearly counterbalanced by savings on other works. Under the new system of budgetting for Military Works expenditure there will be a fixed quinquennial grant for all expenditure except that on large works costing over R50,000 each, which will be separately budgetted for year by year according to requirements. Any part of the grant for the year not spent within the year will be regranted for expenditure in the following year, up to a maximum of 10 per cent on the whole grant The Budget for next year has been fixed on these lines at R1,58,50,000 for both India and England, and is made up as follows:—

		R
Fixed quinquennial grant		97,00,000
Large works costing over R50,000 each—	R	
(*a*) Schedule items	28,95,000	
(*b*) Other works	29,55,000	
		58,50,000
Regrant of expected lapses of 1903-1904		3,00,000
TOTAL		1,58,50,000

189. It is expected that the expenditure in India on Imperial Civil Works during 1903-1904 will be more than the Budget Estimate by R8,47,000, due to additional sums being required for works in several provinces.

The Budget grant for 1904-1905, inclusive of provision for special payments in England, has been fixed at R1,10,99,000.

190. The Revised Estimate of Provincial Civil Works shows an increase of R27,16,000, as compared with the Budget, and is due to more funds being available for expenditure. The Revised Estimate of Local Civil Works shows a decrease of R15,51,000 The Provincial Civil Works Budget for 1904-1905 includes the following grants which have been entered under this head merely for the sake of convenience, and are liable to be transferred at the discretion of the respective Local Governments for expenditure under other heads. They represent partly a portion of the initial lump grants made to four Provinces whose settlements have just come under revision, and partly special grants made from Imperial revenues during 1903-1904 for expenditure during 1904-1905 on particular works of public improvement:—

	R
Central Provinces	1,50,000
Burma	3,00,000
Assam	5,50,000
Bengal	20,00,000
United Provinces	12,00,000
Punjab	22,00,000
Madras	9,00,000
Bombay	9,00,000
TOTAL	82,00,000

191. As usual of late years, considerable savings have accrued on the military estimates in consequence of the absence of troops in China, and also in Somaliland. They were, however, on a considerably smaller scale than in 1902-1903. Inclusive of stores, they amounted to R35,88,000: and out of this, sums aggregating R27,10,000 have been applied to meeting the cost of various measures for improving the efficiency of the army and its various Departments. The largest items among these were the following:—

	R
Construction of the second section of the road to the hill cantonment, Lansdowne	2,00,000
Cost of warm coats sent to Africa, and condemned by the Military authorities in that country	3,05,000
Special purchase of 1,900,000 rounds of ·303 ammunition	1,72,000
Supply of 895 sets of mekometers	1,47,000
Reconstruction of N. I. lines at Secunderabad, Bangalore and Bellary	1,03,000
Additional grant for Camps of Exercise and Instruction	1,00,000
Staff College at Quetta (collection of materials for building)	1,00,000
Increase in pay of Indian Medical Service officers	2,00,000
Stables and quarters for horse-breeding operations	85,000
Re-armament of two 5·4 inch howitzer batteries (part)	84,000

192. It will be convenient to bring together the figures exhibiting the whole military expenditure of India both in this country and in England, and irrespective of the head of account under which it is charged.

The following shows these figures for the Budget Estimate of 1903-1904:—

	In India	In England.
	R	£
(1) Ordinary Military expenditure, including the Hyderabad Contingent	18,53,20,000	4,662,400
(2) Special measures for increasing the efficiency of the Army—		
(a) Under Army	36,08,000	426,400
(b) Under Military Works	40,60,000	...
(c) Under Marine	...	63,300
TOTAL	76,68,000	489,700
(3) Special Services	1,18,000	...
(4) Coast Defences	18,00,000	.
GRAND TOTAL	19,49,06,000	5,152,100

The corresponding figures for 1904-1905 are as follows:—

	In India.	In England.
	R	£
(1) Ordinary Military Expenditure including the Hyderabad Contingent	19,45,08,000	4,769,300
(2) Special measures for increasing the efficiency of the Army—		
(a) Under Army	34,17,000	824,400
(b) Under Military Works	30,55,000	...
(d) Under Marine		107,000
TOTAL	64,72,000	931,400
(3) Special Services	48,90,000	
(4) Coast Defences	16,00,000	150,000
GRAND TOTAL	20,74,70,000	5,850,700

193. The increase under "Ordinary Expenditure" has been explained in paragraph 159. The principal factors are (1) R74,08,000 on account of the extra service pay of British troops, and (2) £169,000 on account of ordnance stores for manufacture of ·303 ammunition. Of the increase in respect of the special measures for increasing the efficiency of the Army, £500,000 represents the cost of new artillery, and £200,000 of new rifles which (along with a part of the expenditure on coast defences) are to be provided from the surplus revenue of the current year as explained in paragraph 82.

Excluding these two items the cost of the special measures amounts to R64,72,000 in India and £231,400 (equivalent to R34,71,000) in England, or a total of R99,43,000 as compared with R1,50,14,000 in the current year The principal items making up this total are the following.—

	R
Rearmament of the Native Army	14,67,000
Buildings for Rifle Factory, Ishapore	4,00,000
Rolling Mills at Ishapore	9,52,000
Central Gun Carriage Factory, Jubbulpore	4,00,000
Construction of Royal Indian Marine Vessel *Dufferin*	16,05,000
Increase in strength of Native Army Reserves	3,00,000
Establishment of a Staff College in India	2,00,000
Railway Pioneer Battalion	2,29,000
Installation of Electric Lights and Fans in barracks	7,00,000
Increase to strength of Native Infantry Battalions in Madras and Bombay Commands	5,00,000
Mobilisation equipment for northern line of communications	5,03,000
Reorganization of Artillery	3,00,000
Addition of 36 horses to each British Cavalry Regiment	2,76,000
Accommodation for 3 Howitzer Batteries	2,50,000
Improvement of rifle ranges for the regulars	2,00,000
Re-introduction of signalling into all Batteries, of horse, field, heavy and mountain artillery	2,71,000

The items included under special services have been specified in paragraph 159

Section V.—Capital Expenditure on Railways and Irrigation Works not charged to Revenue.

RAILWAY CONSTRUCTION.

194. The expenditure on Railway Construction for which the Government of India undertakes any financial responsibility or gives any direct guarantee is estimated at R9,82,07,000 in the current year and at R12,00,00,000, (inclusive of R60,00,000 for the purchase of four branch Railways) in 1904-1905, the amounts having been R10,05,75,960 in 1902-1903 and R11,00,00,000 in the Budget Estimate of the current year The lapse of R1,17,93,000 in the current year is due to short outlay in England against some of the amounts placed at the disposal of the Secretary of State and some of the Companies' Boards for the purchase of rolling-stock and stores. This was largest in the case of the East Indian, Madras and South Indian Railways .It was partly compensated for by increased outlay in India and by commencement of construction work on the Ondal-Sainthia and Khurja-Hapur branches of the East Indian Railway. The distribution of the total expenditure on Railway Construction between

State and Companies' agency in each of the three years from 1902-1903 to 1904-1905 is as follows:—

	Accounts, 1902-1903.	Revised Estimate, 1903-1904	Budget Estimate, 1904-1905
Expenditure in England.	£	£	£
1 State Lines	1,529,344	1,287,800	1,709,000
2. Old Guaranteed Railways	462,521	484,900	416,400
3 Extensions of ditto	33	.	..
4. Other Guaranteed or Assisted Railways	893,333	852,700	845,900
TOTAL	2,885,231	2,625,400	2,971,300
Equivalent in rupees of Expenditure in England.	R	R	R
1. State Lines	2,29,40,155	1,93,17,000	2,56,35,000
2. Old Guaranteed Railways at contract rates	56,65,797	62,77,000	50,67,000
3. Extensions of ditto at prescribed rates	491	...	...
4 Other Guaranteed or Assisted Railways at contract rates	1,34,14,258	1,27,90,000	1,26,89,000
TOTAL	4,20,20,701	3,83,84,000	4,33,91,000
Expenditure in India.			
1 State Lines	4,55,19,860	5,06,94,000	6,90,20,000
2. Old Guaranteed Railways	—8,80,876	—38,00,000	—9,22,000
3. Extensions of ditto	12,34,837	2,00,000	30,000
4. Other Guaranteed or Assisted Railways	1,25,94,390	1,26,25,000	84,31,000
5. Branch Lines on firm guarantee	87,048	1,04,000	50,000
TOTAL INDIA	5,85,55,259	5,98,23,000	7,66,09,000
TOTAL OF PROGRAMME	10,05,75,960	9,82,07,000	12,00,00,000

195 The figures in the above table do not include the expenditure on Protective Railways met from the Famine Insurance grant, nor of Branch Line Companies not in receipt of a direct guarantee, nor that of other Companies whose transactions are outside the Government accounts. Including this expenditure and also the expenditure from Provincial and Local Revenues and from loans raised by Local Boards for local lines, the total expenditure on Railway Construction in the three years may be stated as follows:—

	Accounts, 1902-1903.	Revised Estimate, 1903-1904.	Budget Estimate, 1904-1905.
	R	R	R
Total as in table in paragraph	10,05,75,960	9,82,07,000	12,00,00,000
Famine Protective lines	24,375	19,07,000	22,06,000
Branch lines not on firm guarantee	7,95,054	2,58,000	1,63,000
Railways outside the Government account	1,00,20,900	93,58,000	88,96,000
Provincial and Local State lines	8,19,892	3,99,000	3,18,000
GRAND TOTAL	11,22,36,181	11,01,29,000	13,15,83,000

196. The following are the details of the expenditure on State lines:—

	Accounts, 1902 1903.	Revised, 1903-1904	Budget, 1904-1905.
Expenditure by State Agency—

TOTAL .	24,375	19,07,000	22,06,000

201. The following are the details of Branch lines without a guarantee:—

	Accounts, 1902-1903	Revised, 1903-1904.	Budget, 1904-1905.
	R	R	R
Ahmedabad-Parantij	23,624	6,000	11,000
Mymensingh-Jamalpur-Jagganathganj	55,527	45,000	27,000
South Behar	—57,358	—1,000	—47,000
Ahmedabad-Dholka	7,53,499	1,08,000	65,000
Tapti Valley	19,762	1,00,000	1,07,000
TOTAL	7,95,054	2,58,000	1,63,000

202 The Railways outside the Government account shown above are the following —

	Accounts, 1902-1903	Revised, 1903-1904.	Budget, 1904-1905
	R	R	R
Bengal and North-Western Railway Extensions	22,58,600	19,08,000	4,89,000
Kalka-Simla	61,44,900	45,43,000	12,50,000
Bengal Dooars Extensions	16,17,400	7,10,000	3,57,000
Rohilkand-Kumaon Extensions	...	2,27,000	20,00,000
Southern Punjab Extensions	..	19,70,000	48,00,000
TOTAL	1,00,20,900	93,58,000	88,96,000

The expenditure on the Kalka-Simla Railway, both in the current year and also that estimated for in 1904-1905, is almost wholly met from advances by Government

203 The expenditure on the Provincial and Local State lines is distributed as follows —

	Accounts, 1902-1903.	Revised, 1903-1904.	Budget, 1904-1905.
	R	R	R
Jorhat	—834	—1,000	—1,000
Mayavaram-Mutupet	8,20,726	4,00,000	3,19,000
TOTAL	8,19,892	3,99,000	3,18,000

IRRIGATION CONSTRUCTION

204. The figures are:—

Accounts, 1902-1903	Budget, 1903-1904.	Revised, 1903-1904	Budget, 1904-1905
R	R	R	R
84,62,858	1,00,00,000	81,18,000	1,25,00,000

The Revised Estimate for 1903-1904 has been prepared for R18,82,000 less than the Budget Estimate, as, with the exception of the United Provinces, no province has found it possible to work up to the budget grants. The Budget grant for 1904-1905 has been fixed at R1,25,00,000, or R25,00,000 more than in the current year so as to provide for adequate progress on projects now in hand and for new schemes likely to be started.

205. The following table shows the projects included in the programme of each year, and the amounts to be spent on each :—

Name of Project.	Expenditure in	
	1903-1904.	1904-1905.
Canals in operation—	R	R
Mandalay canal	4,02 000	1,64,000
Ganges canal	9,82,000	8,36,000
Lower Ganges canal	2,00,000	4,27,000
Fatehpur Branch of the Lower Ganges canal	76,000	59,000
Eastern Jumna canal	3,01,000	3,03,000
Western Jumna canal	34,000	42,000
Bari Doab canal	1,53,000	2,30,000
Sirhind "	1,33,000	2,62,000
Chenab "	5,02,000	12,52,000
Jhelum "	17,90,000	26,97,000
Indus Inundation canals	1,19,000	7,68,000
Godavery Delta	1,54,000	2,35,000
Kistna Delta	3,43,000	3,53,000
Penner River canals	1,00,000	1,03,000
Cauvery Delta	1,83,000	2,34,000
Periyar Project	2,27,000	2,14,000
Desert canal	59,000	11,000
Eastern Nara Works	1,40,000	1,02,000
Jamrao canal	1,71,000	34,000
Canals under construction—		
Shwebo canal	10,42,000	8,86,000
Mon canals	65,000	5,00,000
Other projects.	9,42,000	7,38,000
Reserve		20,50,000
TOTAL	81,18,000	1,25,00,000

Section VI—Provincial Finance.

206. During the year an important step in advance was made in the development of Provincial finance. As it is possible that this new departure may have important and far reaching consequences, it is desirable to explain its nature in some detail.

207. When the system of provincialisation was first introduced in 1871 by the Government of Lord Mayo, the method adopted was briefly as follows :— Certain heads of expenditure, of which the more important were Police, Education, Jails, Medical Services (in part), Printing, Roads and Civil Buildings, were made over to the Local Governments To meet these charges, there were assigned to the latter the departmental receipts under the corresponding heads, and also a fixed lump grant from Imperial Revenues : the Local Governments being left to make up the deficiency, if any, by local taxation *Early history of Provincial finance*

208. This system remained in force without material change till 1877. In that year an important modification was introduced by the Government of Lord Lytton. In the first place, a considerable addition was made to the heads of expenditure transferred to Provincial management, the new heads (in most Provinces) including Land Revenue, General Administration, Law and Justice, and Miscellaneous. Secondly, certain principal heads of revenue, including Stamps and Excise, were provincialised, the growing receipts from these sources taking the place, *pro tanto*, of the former fixed lump grant. Since 1877, a number of changes of detail have been effected, mostly in the direction of adding to the heads (or shares of heads) of expenditure and revenue which are under Provincial control. But no alteration of principle has been introduced, and broadly* speaking it may be stated that the present position is as follows :—Each Local Government is responsible for the whole of the expenditure recorded under "Salaries and Expenses of Civil Departments," "Miscellaneous Civil Charges," "Irrigation" (in part), and "Civil Public Works", as well as some charges under "Interest." It receives the whole of the corresponding departmental receipts, and a certain share (which is different in different Provinces, and under different heads) of each of the "Principal heads of Revenue" except Salt, Customs, Opium, *The present system*

* There are numerous exceptions of detail in relatively minor points, and variations between the different Provinces It is unnecessary to specify these at length in the present place.

and Tributes. In some Provinces, irrigation revenue is also Provincial in whole or in part. The excess of expenditure over revenue is made up by a fixed assignment from Imperial Revenues.

209. Under this system the Provincial shares of growing revenue have usually (though not uniformly) increased more rapidly than the sum which could properly be spared for expenditure under the Provincial heads, having regard to the general needs of Imperial finance. It was therefore necessary to revise the terms of the settlements from time to time, ordinarily at five-year intervals, with a view to adjust inequalities that had arisen, either between the Provinces themselves, or between the Provinces as a whole and the Imperial Government. These quinquennial revisions have usually, though not invariably, resulted in the resumption of a certain amount of revenue for Imperial purposes. When the settlement of 1877 was made, a total retrenchment of 40 lakhs was enforced, in 1882 the finances were in a prosperous condition and the Imperial Government surrendered an additional 26 lakhs net; in 1887 they resumed 64 lakhs; and in 1892, 46 lakhs The last revision, made in 1897, effected little change in the aggregate, increases to some Provinces being almost exactly counterbalanced by resumptions from others.

Its defects.

210. The system is marred by several grave defects:—

(1) The periodical revisions interfere with the continuity of Provincial finance, and each revision involves a protracted and sometimes controversial discussion with the Local Governments.

(2) A still more serious evil is that the system tends to encourage extravagance rather than economy. "It has been described as a system of five-year budgets and this definition indicates the root of the evil Each Local Government is supposed to be free to enjoy the fruits of its economy, or of the successful nursing of its revenues But in practice its term of enjoyment is limited to five years, or, more correctly, to the last two or three years of the term of settlement, for during the earlier years it has usually little margin to spend. It is therefore under constant temptation to spend its money, not on carefully matured schemes of well-thought-out improvement, but on such as can be carried through before the close of the settlement, in order to leave as small a balance as possible for resumption at the impending revision."

(3) The apportionment of revenue to the several Provinces has never been made on any definite or logical principle.

The new system

211 To remove these defects, and in particular to introduce an element of relative permanence into the settlements, the following arrangement has been made Firstly, it has been decided to give the Local Governments a permanent, instead of a merely temporary interest in the revenue and expenditure under their control. Secondly, the assignments to the Local Governments will include a slightly smaller share of growing revenues. Thirdly, this share has been calculated so that each Province separately, and all the Provinces taken together, shall be placed in possession of an amount of growing revenues which bears approximately the same proportion to the Provincial expenditure as the Imperial share of growing revenues bears to Imperial expenditure. With some small exceptions the actual heads of revenue which are either Imperial, Provincial, or divided, have been left unchanged, but the Provincial shares of the divided heads have been altered in accordance with the principle stated above When any head of revenue is divided between Imperial and Provincial, the corresponding head of expenditure has ordinarily been divided in the same proportion.

Modifications of detail.

212 In applying these principles to the actual figures, it was found that the aggregate Provincial expenditure represented rather less than one-fourth of the whole, while the Imperial expenditure, which includes the army and the home charges, was in excess of three-fourths. These proportions have accordingly been taken as the basis of the division of revenue between Imperial and Provincial, but numerous adjustments have been necessary—(1) to make allowance for the heads of revenue which are wholly Imperial or wholly Provincial as the case might be; (2) to allow for a larger assignment to the more backward Provinces than to those which are more advanced; and (3) to permit of provision being made for various administrative reforms and works of improvement which it is

desired to undertake. Subject to these adjustments, which are specified below, it has been decided that the divided heads of revenue, and of the corresponding heads of expenditure, shall be shared as follows:—

(1) In Bengal, United Provinces, Bombay, and Madras, three-fourths Imperial and one-fourth Provincial.

(2) In the Punjab and Burma, five-eighths Imperial and three-eighths Provincial: and

(3) In the Central Provinces and Assam, half Imperial and half Provincial.

213. It is intended that the settlements thus made shall be permanent, in the sense that they shall not be subject to revision at the end of fixed periods. The Government of India necessarily reserves to itself, as the final authority in India responsible for the finances and administration of the country, the power to revise the settlement of any or all Provinces at any time whenever necessity may demand it. It is however the intention of Government only to exercise this power when the variations from the initial relative standards of revenue and expenditure in any Province have, over a substantial term of years, been so great as to result in unfairness either to the Province itself, to other Provinces, or to the Government of India, or in the event of the Government of India being confronted with the alternatives of either imposing additional taxation or of seeking assistance from the Provinces.

214. For the present, the scheme has been applied to four Provinces, *viz.*, Bengal, Madras, Assam, and the United Provinces. In the ensuing year it is proposed to extend it to Bombay and the Punjab, and possibly also to the Central Provinces.

215. The modifications that have been made in applying the scheme to these four Provinces are as follows:—

Bengal.—The Provincial share of revenue and expenditure has been taken at one-half under Stamps, and at seven-sixteenths under Excise, while Registration receipts and charges have been made wholly Provincial; and the expenditure recorded under 3.—Land Revenue, which really represents the cost of the ordinary district administration, is also made wholly Provincial. An addition of 4 lakhs has been made to the fixed assignment to enable the Local Government to improve the pay of ministerial establishments, and a further addition, not exceeding 2½ lakhs, will be made when a scheme has been prepared and sanctioned for strengthening the staff of Deputy Collectors.

Madras.—The Provincial share of Stamp revenue and expenditure has been raised to one-half. The revenue and expenditure under Registration, and expenditure under 3.—Land Revenue have been made wholly Provincial. Special provision has been made in the form of a lump non-recurring grant of 20 lakhs for surveys and settlement. Grants of R75,000 and R50,000 a year have been made for the relief of certain local bodies, and for agricultural experiments, and the fixed assignment has been placed at a specially high figure. The Government of India have also undertaken to provide for the cost of reorganising the district administration.

United Provinces.—The Provincial share of Stamp revenue and expenditure, and of the expenditure under 3.—Land Revenue has been raised to one-half: Irrigation revenue has been made wholly Provincial, subject to a guarantee from the Government of India that the net receipts shall not fall below 40 lakhs a year; and special grants of 2½ lakhs and 1½ lakhs per annum respectively, have been made to enable the Local Government to relieve Municipalities from the charges for municipal police, and to reform the system of District Board finance.

216. The net result of the new settlements in these four Provinces is an increase of the Imperial contribution to Provincial of R23,89,000 per annum as follows:—

	R
Bengal Provincial assignment *less*	—5,00,000
Madras Provincial assignment *more*	+16,56,000
United Provinces Provincial assignment *more*	+8,25,000
Assam Provincial assignment *more*	+4,08,000
TOTAL	+23,89,000

General Result

217. The shares of growing revenue and the fixed assignments from Imperial to Provincial stand as follows:—

(Figures in thousands of Rupees.)

	Madras.	Bengal.	United Provinces.	Assam.
Growing Revenues . . .	2,90,82	4,49,84	3,62,64	60,07
Fixed Assignment . . .	59,66	49,03	4,00	12,00
TOTAL .	3,50,48	4,98,87	3,66,64	72,07

The provincialisation of the whole of the Irrigation Revenue in the United Provinces, and the assignment of half shares of the Principal Heads of Revenue in Assam, account for the large proportion which the growing revenues bear to the total in those Provinces.

Effect of the alteration in the shares.

218. The following table shows the share of the average annual increments of revenue (calculated on the basis of the figures for the years 1892-93 to 1902-03), which the Local Governments would have received if the terms of the old settlements had remained unchanged, with the share which they will receive under the new settlements —

(Figures in thousands of Rupees.)

	Under the old Settlements.	Under the new Settlements.
Madras	5,60	4,89
Bengal	9,00	7,33
United Provinces . . .	3,33	3,91
Assam	1,50	1,24

In other words, out of the annual increment of revenue of the four Provinces taken together, the Imperial Government will receive R2,06,000 more than it has hitherto done. On the other hand, owing to the division of expenditure under the heads corresponding to the Principal Heads of Revenue, the Government of India will bear R36,000 of the present Provincial increment of expenditure On the whole, therefore, the Imperial Government receives an additional net increment of revenue of only R1,70,000.

219 Finally, in order that the Local Governments may start the new settlement under favourable conditions, the Government of India have sanctioned the following initial grants, *viz.*:—

	Lakhs.
To Bengal	50
„ Madras	50
„ United Provinces	30
„ Assam	20

The grant to Bengal is exclusive of a grant of 50 lakhs which has been separately sanctioned for the Calcutta Improvement scheme, and which is conditional on an acceptable scheme being framed and sanctioned. The grant to Madras includes 20 lakhs on account of special survey and settlement expenditure which is likely to be spread over several years, but will not recur permanently. These grants have been made in the Revised Estimate of 1903-04, and will go to increase the Provincial opening balances of the ensuing year. It is not contemplated that the Local Governments will desire to spend more than a portion of these during 1904-05, and the following provision has accordingly been made by addition to the Provincial Budgets under 45.—Civil Works, *viz.*:—

	Lakhs.
Bengal	15
Madras	10*
United Provinces	6
Assam	4

* Including 4 lakhs under 3.—Land Revenue for special surveys

The Local Governments will be at liberty to transfer these grants for expenditure under any other heads at their discretion.

220. In addition to the above a grant of R1,25,000 has been made to the United Provinces to compensate the Province for expenditure on the purchase of encumbered estates in Bundelkhand under the Bundelkhand Encumbered Estates Act, 1903.

221. The following table gives the usual information regarding the Revenue, Expenditure and balances of each Province, compared with the standard of 1897 :—

	Estimate for the Settlement of 1897 98 to 1901 1902	Accounts.						Revised, 1903-1904	Budget, 1904 1905

222. In the four provinces whose settlements are under revision, the new standard of Revenue and Expenditure is as follows:—

	R
Assam	72,07,000
Bengal	4,98,87,000
United Provinces	3,66,64,000
Madras	3,50,48,000

223. The closing balances shown in the Revised Estimate include grants, aggregating R1,62,65,000, which have been given from Imperial revenues during the current year for expenditure on certain special purposes, in addition to the grant of R1,50,00,000 referred to in paragraph 219. In the case of Bombay, the Punjab, and the Central Provinces they also include R13,11,000, R7,86,000 and R15,28,000 respectively given to these Provinces to enable them to close with the prescribed minimum balance. The following table shows the distribution of the grants to various Provinces —

PROVINCES.	Grant of 40 lakhs for Education	Grant in 1903-1904 of recurring portion of grant of 18 lakhs for District and other Establishment	Grant in 1903-1904 for Expenditure in 1904-1905 on special purposes	Grant in 1903-1904 for Expenditure in 1904-1905 on special public objects
1	2	3	4	5
	R	R	R	R
Central Provinces .	2,00,000	1,90,000	3,00,000	1,50,000
Burma . .	4,00,000	...	...	3,00,000
Assam . .	1,00,000	1,11,000	...	1,50,000
Bengal . .	10,00,000	. .	50,00,000	5,00,000
United Provinces .	5,00,000	2,26,000	3,00,000	3,00,000
Punjab . .	4,00,000	1,36,000	20,50,000	2,00,000
Madras . .	8,00,000	3,50,000	.	3,00,000
Bombay . .	6,00,000	3,50,000	10,52,000	3,00,000
TOTAL .	40,00,000	13,63,000	87,02,000	22,00,000

224 As explained in paragraph 282 of the Financial Statement for 1903-1904 the grants shown in columns 2 and 3 of the foregoing table were made for permanent recurring expenditure on education, and the improvement of district administration. Those shown in column 4 have been sanctioned in the course of the current year. The grant of R3,00,000 to the Central Provinces is intended for expenditure on Irrigation Works. That of R50,00,000 to Bengal represents the Government contribution towards the scheme for the structural improvement of Calcutta, the money will be reserved exclusively for this purpose, and its appropriation is conditional on the scheme being approved by the Government of India. The grant of R3,00,000 to the United Provinces represents a grant to the Lucknow Municipality to enable it to undertake a drainage scheme. Of the allotment of R20,50,000 to the Punjab, R20,00,000 is for expenditure on extensions and improvements in Simla, and R50,000 is a grant to the Punjab University to enable it to construct a Senate Hall at Lahore. In Bombay, a grant of R6,00,000 has been made for the completion of St. George's Hospital, and the remaining R4,52,000 is intended to enable the Local Government to carry out improvements under a variety of heads.

225. The present financial position has also enabled the Government of India to make the special grants shown in column 5 for expenditure in 1904-1905 upon a variety of desirable objects of public utility, such as hospitals, museums, colleges, public libraries, hostels, public parks and gardens, and the like, which have hitherto had to yield precedence to works of more pressing urgency.

226. In the Budget Estimate for 1904-1905 the recurring grants for expenditure on education and the improvement of district administration are repeated except for Assam, Bengal, the United Provinces, and Madras; in these Provinces the grants have been taken into account in fixing the standard of expenditure and they now form part of the permanent assignments made to Provincial revenues in the new settlements. Grants of ten and five lakhs respectively have also been made to the Punjab and Bombay for expenditure on Civil Works. The grants to the Punjab, Bombay, and the Central Provinces, which are deficit provinces, to work up to the prescribed minimum closing balances at the end of 1904-1905 are R10,66,000, R24,51,000, and R29,26,000 respectively.

Section VII.—Ways and Means.

HOME TREASURY.

227. The following are the details of the transactions of the Home Treasury in the Budget and Revised Estimates of 1903-1904 and in the Budget Estimates of 1904-1905:—

	Budget, 1903-1904.	Revised, 1903-1904.	Budget, 1904-1905

TOTAL	22,751,900	23,764,400	23,307,100
Closing balance	3,934,637	7,003,387	4,696,287

* The heads marked with an asterisk appear both on the Receipt and Payment sides. As the Receipts and Disbursements under each of them are practically equal, they do not affect the Ways and Means of the year to any material extent.

1903-1904. General Remarks.

228. In the Revised Estimate the net disbursements (apart from receipts from Council Bills and loans) are taken at £23,764,400 against £22,751,900 in the Budget Estimate. There is thus an increase in the net outgoings of £1,012,500. The conditions obtaining in the London money market during the current year have not been favourable for the raising of fresh capital by Railway Companies. Accordingly, the additional capital which it was originally proposed to raise through the agency of Companies, *viz.*, £1,050,000 for their own lines, and £2,050,000 for State lines worked by Companies, was in fact not raised at all; while only £200,000 was raised to discharge debentures, in place of £3,332,800 taken in the Budget. On the other hand, the net expenditure chargeable against revenue is less than the Budget Estimate by £131,500, the Capital outlay on State

Railways and Irrigation Works by £520,100 and the Advances to Railway Companies for Capital outlay on Purchased Railways worked by them by £389,800. The miscellaneous remittances from India, consisting mainly of recoveries from His Majesty's Imperial Government on account of expenditure incurred in India in connection with the forces in Somaliland, South Africa and China and for Emigration bills, Chelsea out-pensioners and supplies to His Majesty's Imperial Navy exceed the Budget Estimate by £1,086,700. The net result of these variations is an increase of net outgoings of £971,900. This with minor differences under other heads aggregating £40,600 make up the difference of £1,012,500 in the net disbursements mentioned above.

229 The increase in the net disbursements was met partly from an increase of £81,250 in the opening balance of the year, but mainly by an increase of £4,500,000 in Council Bills Of the latter, £500,000 was applied towards reduction of the sterling loan proposed in the Budget Estimate and the remainder will go to swell the closing balance of the year which is expected to stand at £7,003,387

1903 1904 Council Bills

230 In addition to the £21,500,000 shown in the table above, the Revised Estimate also provides for the sale of £2,200,000 additional Council Bills, for remittance to London of the balance of the Gold Reserve Fund held in India. It should be noted that the receipts by the Secretary of State on this account, as well as the remittance of gold made from India in July last on account of the Gold Reserve Fund, are for investment and do not therefore affect the balances of the Home Treasury otherwise than temporarily.

1903-1904 Loans

231 Great Indian Peninsula Railway debentures for £600,000 and India Bills for £3,500,000 fell due in 1903-1904. The Budget Estimate provided for the discharge of these by the issue of £2,000,000 India stock and £2,000,000 India Bills The Budget programme was carried out except that only £1,500,000 3 per cent India stock was issued Tenders were invited at a minimum rate of 97 per cent The applications received amounted to £5,971,500, the average rate of accepted tenders was £98-19-2 and the lowest accepted rate £98-18-6 per cent

232. The results of the issues of £2,000,000 India Sterling Bills was as follows —

Month of Issue		Amount tendered	Amount accepted		Average rate of interest per cent per annum.		
		£	£		£	s.	d.
May	1903	2,991,000	500,000 for twelve months		3	7	5
September	„	2 038,000	500,000	ditto	3	11	6
December	„	3,661,000	500,000	ditto	3	12	11
March	1904	2,439,000	500,000	ditto	3	5	2

1903-1904 Capital raised and deposited by Companies

233 The details of the transactions under capital raised and deposited by Railway Companies are as follows —

For Capital outlay, i e, Stores, Establishment Charges, etc	1,396,800	1,344,900
TOTAL ISSUES	4,729,600	1,591,900

234. For the reason stated in paragraph 228, the Companies mostly found it preferable to renew their debentures, rather than discharge them at maturity. The only exceptions were the following, which were paid off during the year:—

	£
Southern Mahratta Railway	100,000
Bombay, Baroda and Central India Railway	145,000
Madras Railway	800
	245,800

The £247,000 shown in the preceding paragraph includes £1,200 which represents discount payable on the renewal of debentures.

1903 1904. Remittance Account between England and India—Railway transactions.

235. The issues for Capital outlay do not differ materially from the Budget Estimates, except that the Bombay, Baroda and Central India Railway is likely to require £113,000 more, and the Madras and Southern Mahratta Railways £130,900 and £47,600 less than the Budget Estimates

236. The Railway Companies whose transactions are dealt with above have separate capital deposit accounts in England, and funds raised and withdrawn by them in England are brought directly to account in the Home Treasury. Besides these there are also other Railway Companies which work railways that are the property of the State. These include the East Indian, the South Indian, the Great Indian Peninsula and the Rajputana-Malwa Railways. Advances are made to these Companies in England for the purchase of stores, and funds are sometimes raised by the Companies working the railways and deposited with the Secretary of State, but these deposits and advances instead of being brought directly to account in England under the appropriate heads, are treated as remittances from or to India and are brought to account in this country The details of these transactions during the current year are as follows:—

	Budget.	Revised
RECEIPTS.		
Debentures raised—	£	£
East Indian Railway	1,250,000	...
South Indian Railway	350,000	
Great Indian Peninsula Railway	450,000	..
	2,050,000	
Transfer fees, etc.	3,000	16,600
TOTAL RECEIPTS	2,053,000	16,600
ISSUES.		
Advances for Purchase of Stores—	£	£
East Indian Railway	900,000	594,000
Rajputana Malwa Railway	200,000	170,600
South Indian Railway	232,000	132,900
Bengal and North-Western Railway	30,000	141,300
Great Indian Peninsula Railway	629,300	562,700
TOTAL ISSUES	1,991,300	1,601,500

1903-1904. Purchase of Silver and Remittance of Gold from India.

237. The demand for rupee currency during the second half of the current year has necessitated large purchases of silver in England The total cost of the purchases is now estimated at £4,055,000; practically the whole of this amount has been remitted from India in gold, the sale-proceeds of which are taken at £3,996,900 in the Revised Estimate

1904-1905. Main features.

238. In the Budget Estimate of 1904-1905, the net disbursements are taken at £23,307,100 including £1,002,100 and £2,000,000 respectively for the discharge of Great Indian Peninsula Railway Debentures, and India Bills which expire next year.

239 This estimate of the net disbursements exceeds the Budget Estimate of the current year by £555,200. This represents the net result of a number of variations the most considerable of which are as follows:—

	£
Better.	
Capital raised by Railway Companies for Capital outlay, *more*	200,000
Capital outlay not charged to revenue, including outlay by Companies, *less*	229,500
Temporary Debt discharged (India Bills), *less*	1,500,000
Remittance Account between England and India—	
Payments in England on account of money orders and stores for Provincial Governments and Local Funds, etc., *less*	122,100
	2,051,600
Worse.	
Net Expenditure on Revenue Account (Increase due to cost of new armaments and stores for Coast Defences), *more*	816,600
Permanent Debt discharged (Great Indian Peninsula Debentures), *more*	402,100
Debenture Capital raised by Railway Companies working State Railways (Debentures raised *more* £400,000, Debentures discharged, *more* £800,000) net *worse*	400,000
Remittance Account between England and India—	
Recoveries from His Majesty's Government on account of payments in India for Somaliland force, etc., *less*	1,006,000
	2,624,700

240. It is proposed to meet the net disbursement of £23,307,100 by the sale of £16,500,000 Council Bills, and by the issue of £2,500,000 India Stock and £2,000,000 India Bills. The remainder, which amounts to £2,307,100, will be met by drawing upon the cash balance of the Home Treasury which is expected to stand at £7,003,387 on 31st March 1904. The estimated balance on the 31st March 1905 is therefore £4,696,287.

1904-1905 Loans

241. As mentioned above, India Sterling Bills for £2,000,000 fall due in 1904-1905, and it is proposed to replace these by the issue of new Bills of a corresponding amount. Of the £2,500,000 India Stock which it is at present intended to issue next year, £1,002,100 is for the discharge of Great Indian Peninsula Railway Debentures which fall due on the 30th June 1904, and the balance is for advances to Indian Railway Companies under Act 51 Vict., c. 5.

1904-1905. Capital of Railway Companies

242. The following are the details of the Estimates of Capital to be raised by Railway Companies —

	To replace Debentures.	Additional Capital.
Subscribed Capital of Railway Companies—	£	£
Bengal-Nagpur Railway	25,000	...
Ditto Extensions	375,000	...
Indian Midland Railway	1,000,000	...
Rohilkund and Kumaon Railway	147,000	.
Bombay, Baroda and Central India Railway	120,000	500,000
Madras Railway	403,100	750,000
	2,070,100	1,250,000
Transfer fees and Miscellaneous refunds	...	2,600
	2,070,100	1,252,600
Debenture Capital of Companies working purchased Railways—		
East Indian Railway	800,000	1,200,000
South Indian Railway	...	450,000
	800,000	1,650,000
Transfer fees and Miscellaneous refunds	...	3,000
TOTAL	800,000	1,653,000

243. The following are the details of the transactions of the Gold Reserve Fund in England:—

1903-1904 and 1904-1905. Gold Reserve Fund.

	1903-1904, Budget.	1903-1904, Revised	1904-1905, Budget.
Receipts.			
(*a*) Profit on coinage, remitted to England from India—	£	£	£
By Council Bills . .	.	2,200,000	..
In gold (less charges of remittance £1,400) . .	...	259,600	...
(*b*) Dividends on investments .	102,700	106,600	166,800

Payments.			
Investments made	102,700	2,566,200	166,800
Opening Balance—			
Invested	3,810,300	3,810,300	6,376,500
Uninvested	1,000	1,000	5,700
Closing Balance—			
Invested	3,913,000	6,376,500	6,543,300
Uninvested	289,000	5,700	129,000
Net Profits on new coinage in India	288,000	2,465,700	123,300

244. The following is a summary of the figures relating to Council Bills and the Sterling Debt of Government and of Railway Companies included in the Estimates for 1903-1904 and 1904-1905. The figures are —

1903-1904 and 1904-1905. Summary of Debt transactions and Capital Account of Railway Companies

	Budget, 1903-1904	Revised, 1903-1904	Budget, 1904-1905
RECEIPTS.	£	£	£
Council Bills (exclusive of Bills drawn in connection with the Gold Reserve Fund) .	17,000,000	21,500,000	16,500,000
Permanent Debt incurred (India Stock)	2,000,000	1,500,000	2,500,000
Temporary Debt incurred (India Sterling Bills)	2,000,000	2,000,000	2,000,000
Receipts on account of the Subscribed Capital of Railway Companies . . .	4,382,800	200,000	3,320,100
Receipts on account of the Debenture Capital of other Railway Companies (the East Indian, South Indian and Great Indian Peninsula Railway Companies) . . .	2,050,000	*Nil*	2,450,000
OUTGOINGS.			
Permanent Debt discharged .	600,000	600,000	1,002,100
Temporary Debt discharged .	3,500,000	3,500,000	2,000,000
Discharge of Railway Companies' Debentures	3,332,800	247,000	2,070,100
Discharge of East Indian Railway Company's Debentures .	...	.	800,000

245 The programme herein announced of the probable drawings on India and of the transactions in connection with the Government Sterling Debt and the borrowings of Railway Companies represent the present intentions of the Secretary of State. But in view of the varying conditions of Indian finance and of the London money market, no assurance can possibly be given that the programme will be adhered to either in amount or form. The Secretary of State reserves to himself the right to vary the programme to any extent that may be considered necessary during the course of the year.

INDIA.

246. The following is a summary of the Estimates of Ways and Means in India during 1903-1904 and 1904-1905 —

	Budget Estimate, 1903-1904		Revised Estimate, 1903-1904		Budget Estimate, 1904-1905

247. When the Budget Estimate of the current year was framed in March last, the cash balance in the treasuries on 1st April 1903 was estimated at 17,75 lakhs. It was calculated that net revenue receipts would amount to 27,85 lakhs, and that remittance and other miscellaneous transactions would yield a net receipt of 2,71 lakhs. Council drawings were taken at 25,60 lakhs, Capital outlay on State Railways and canals at 6,28 lakhs, and net expenditure from the balances of Provincial Governments at 2,07 lakhs. The net disbursements were thus in round figures 3,39 lakhs. It was proposed to meet these (1) by a rupee loan of two crores, (2) by unfunded debt, mostly Savings Bank deposits, to the amount of 89 lakhs, and (3) by drawing on the cash balances to the extent of 50 lakhs *1903-1904 Main features of Budget Estimates.*

248 The results according to the Revised Estimate have differed considerably from this forecast. The actual cash balance on 1st April 1903 was 18,12 lakhs, or greater by 37 lakhs: the net revenue was better than the estimate by 2,45 lakhs. the Provincial balances, instead of being drawn upon, were increased by 1,80 lakhs, making a net improvement of 3,87 lakhs and capital expenditure on State Railways and Irrigation was less by 41 lakhs On the other hand, Council drawings reached the very large total of 32,24 lakhs or 6,64 lakhs more than estimated, and miscellaneous remittance and other transactions yielded a net credit of only 1,18 lakhs, being less than the forecast by 1,53 lakhs The net result was a worseness of 1,07 lakhs, which was met as follows, (1) from an increase in Savings Bank deposits which improved to the extent of 20 lakhs, (2) by a special temporary loan from Gwalior of 50 lakhs, and (3) by drawing further on the cash balance to the extent of 37 lakhs. The cash balance at the close of the year is now estimated at 17,25 lakhs. *1903-1904 Main features of Revised Estimates.*

249. The leading feature of the year was the strong demand for Councils. The demand was active throughout the summer and autumn, when it is as a rule comparatively weak, the sales never falling below 2 crores in any one month This did not prevent the demand becoming still keener in the cold weather, the sales in January reaching 5,02 lakhs, and those in February 5,01 lakhs. The total sales of the year are the highest on record

The figures shown in the table are exclusive of 3,30 lakhs paid on account of Council Bills drawn for the remittance of the profits on coinage, for investment on account of the Gold Reserve Fund

250. The improvement in the net revenue and expenditure has been explained in Section II of the Financial Statement. The improvement in the Provincial balances is partly due to increased receipts and short expenditure by the Local Governments, but also in great measure to the large grants aggregating 2,59 lakhs, which have been made to them from Imperial revenues towards the close of the year for various purposes The miscellaneous transactions include remittances on account of Railway Companies, and their capital receipts and expenditure, the Imperial and Provincial loan account, transactions in connection with the purchase of silver for coinage, and the portion of the Famine Insurance grant which is appropriated for the reduction or avoidance of debt They also include expenditure incurred in India on account of His Majesty's Government the amount of which is recovered from the latter through the London account. This consists chiefly of payments on account of troops in Somaliland and China, charges for stores issued, emigration bills, Chelsea out-pensioners, and Naval charges. They considerably exceeded the forecast of the year.

251. The nature of the Railway transactions has been explained in paragraph 236. In respect of the loan account, the receipts were larger than had been expected, in consequence of the improved condition of the country which enabled recoveries of takavi advances given during the late famine to be effected on a considerable scale, especially in the Central Provinces and the Punjab. On the other hand, the advances to the Simla-Kalka Railway amounted to 45 lakhs, against only 33 provided in the Budget.

252. The remittance of gold to England for the purchase of silver, and the transfer of the latter in India for coinage, involved very large transactions approximating 6 crores on either side. But the amounts are necessarily nearly equal and have little effect on the net result. The £300,000 worth of silver purchased in 1902-1903, to which reference was made in paragraph 308 of the last Financial Statement was not received till after the close of that year, and the transaction appears in the accounts of 1903-1904 under the head of Remittances. *1903-1904 Purchase of Silver.*

1903-1904 and 1904-1905. Unfunded Debt

253. The following table gives the details of the transactions of Savings Banks and Provident Funds during a series of years and the estimated transactions for 1903-1904 and 1904-1905 —

Year	Net additions to deposits, cash	Interest	Total addition.
	R	R	R
1892-93	54,89,000	33,94,000	88,83,000
1893-94	17,99,000	36,80,000	54,79,000
1894-95	—8,45,000	29,70,000	21,25,000
1895-96	24,77,000	33,85,000	58,62,000
1896-97	—58,11,000	34,66,000	—23,45,000
1897-98	—65,71,000	32,70,000	—33,01,000
1898-99	—8,84,000	32,29,000	23,45,000
1899-1900	1,40,000	33,48,000	34,88,000
1900-1901	19,44,000	34,80,000	54,24,000
1901-1902	31,04,000	36,87,000	67,91,000
1902-1903	52,40,000	39,00,000	91,40,000
1903-1904 (Budget)	40,73,000	41,65,000	82,38,000
1903-1904 (Revised)	61,77,000	42,20,000	1,03,97,000
1904-1905 (Budget)	51,05,000	45,45,000	96,50,000

254. A net deposit in the Post Office Savings Bank of 30 lakhs apart from interest was assumed in the Budget Estimate of the current year. The transactions of the first eight months of the year have resulted in a net increase in the deposits of more than 61 lakhs, and allowing for withdrawals usually made in the closing months of the year, it is now expected that apart from interest there will be a net increase in the deposits of R50,20,000 during the year.

255. In the Budget Estimate for 1904-1905 a net deposit in the Post Office Savings Banks of 40 lakhs apart from interest is anticipated.

1903-1904. Rupee Loan.

256. In accordance with the intention expressed in paragraph 310 of the last Financial Statement, a 3½ per cent loan of 2 crores was announced in July last. Tenders were opened on the 22nd idem and the result of the loan was as follows: —

Total amount tendered.	Amount accepted.	Average rate of accepted tenders.	Minimum rate accepted.
R	*R*	*R a. p.*	*R a. p.*
4,96,00,835	2,00,00,000	98 1 7·2	97 15 0

1903-1904. Temporary Debt incurred

257. As stated in paragraph 19, there was an extraordinary demand for rupee currency during the past winter, and in January last, as a measure of precaution, it was arranged to obtain a temporary loan of 50 lakhs of rupees from the Gwalior Durbar for three months. It will be repaid early next year.

258. In the Budget Estimate for next year, the net disbursements are taken at R28,54,000 more than in the Revised Estimate of the current year. The following variations have chiefly contributed to this excess:— *1904-1905. Main feature.*

Worse.	R
Excess of Revenue over Expenditure, *less*	1,26,67,000
Reduction of Provincial balances	3,77,70,000
Deposits and Advances—other items and Inter-Departmental Remittances (chiefly due to absence of special receipts from coinage of bullion in balance and withdrawn coin)	93,70,000
Expenditure not charged against Revenue, including Outlay by Companies, due to a larger programme of Capital Expenditure on Railways and Irrigation Works	2,23,48,000
Temporary Debt discharged (Gwalior loan)	50,00,000
Loans by Provincial Governments (smaller recoveries of agricultural advances and a more liberal provision for loans to Municipalities for water-works, drainage schemes, etc.) *net*	47,72,000
Remittance Account between England and India—Withdrawals by Railway Companies for stores, etc., in England	1,93,63,000
	11,12,90,000

Better.	
Capital raised through Companies for outlay on State Railways (Debentures raised)	2,47,50,000
Loans by Imperial Government (R12,05,000 provided on account of advances to the Simla-Kalka Railway against R45,00,000 in the Revised)	27,65,000
Remittance Account between England and India—Other transactions (chiefly due to smaller provision for payments on account of Somaliland force)	1,21,92,000
Council Bills	7,08,62,000
	11,05,69,000

259. It is proposed to meet the net disbursements of R3,65,90,000 in the Budget Estimate of next year by a new loan in India of three crores, and by drawing upon the cash balance to the extent of R65,90,000. The announcement now made regarding the rupee loan is in accordance with the present programme, but full liberty is reserved, as usual, to vary the programme now announced to any extent that may be considered desirable. *1904-1905. New Rupee Loan.*

Section VIII.—Summary.

260 The principal features in this statement are the following:—

I.—The accounts of 1902-1903 closed with a surplus of £3,069,549, being £331,049 higher than the surplus expected in the Revised Estimate of that year.

II—1903-1904—

(1) The Revised Estimates show a total revenue of £83,067,800, a total expenditure charged to Revenue of £80,356,600, and a surplus of £2,711,200 This surplus is higher than that estimated in March 1903 by £1,762,500.

(2) There has again been a large increase of revenue under almost every important head, especially from railway net earnings and opium

Land Revenue yielded an increase of £179,800, Excise of £420,400, Customs of £316,200, Forests of £119,200 and Irrigation Major Works of £148,600

The reduction in the Salt duty has stimulated consumption, and the revenue is expected to exceed the estimate by £206,700

The net earnings of State Railways exceeded the estimate by £723,400, and those of Guaranteed Railways by £28,700. The North Western Railway contributed most largely to the former.

The prices of Bengal opium ruled extraordinarily high, and the revenue exceeded the estimate by £1,354,900. On the other hand, the season's crop was a bumper, involving very large payments for the raw product. The charges exceeded the estimate by £474,100.

(3) Army expenditure is expected to exceed the estimate by £164,400. This is inclusive of £300,000 for the Tibet Mission, and £186,400 for the escorts with the Aden and Seistan Delimitation Commissions. There were savings of £239,200 on account of the absence of troops in China and Somaliland.

The expenditure on Civil Public Works increased by £121,100

Owing to the inability of the Local Governments to expend their full allotments, there were savings under most of the chief administrative heads, the more important being Land Revenue £130,700, Jails £84,600, Police £107,500, Education £141,400, Medical £97,100 and Minor Irrigation Works £82,300

Under Famine Relief total expenditure was only £20,400. The grant of £120,000 for special defences was only used to the extent of £28,400.

(4) Special grants, aggregating £1,726,700, have been made to Provincial Governments, of which £1,000,000 represents initial grants to the four Provinces,—Assam, Bengal, the United Provinces, and Madras,—whose settlements have been revised The remainder represents grants for various specific purposes, including £333,300 for the improvement of Calcutta.

(5) Mint receipts exceed the Budget Estimate by £2,345,500, and the expenditure has been higher by £2,212,900. These differences are mainly due to the profit of £2,465,700 on the coinage of £4,625,000 worth of silver, of which £300,000 worth was brought forward from 1902-1903, and the remainder was purchased, in India and England, during the year. The whole profits, with the exception of a sum of £5,700, will have been remitted to England for investment to the account of the Gold Reserve Fund, which now consists of Consols and National War and Local Loans stock. The amount at credit of the Fund is £6,382,200.

(6) It has been decided to appropriate £956,700 from the surplus of the year towards the provision of new artillery and rifles, and in pushing on the scheme of special coast defences.

(7) A loan of two crores was raised in India; and India 3 per cent stock to the amount of £1,500,000 was issued, of which £600,000 was applied to the discharge of Great Indian Peninsula Railway debentures. £3,500,000 of India Bills, temporary, fell due, of which £2,000,000 were replaced, and £1,500,000 were discharged.

(8) A temporary loan of £333,300 for three months was raised from the Gwalior Durbar in January 1904.

(9) The drawings of Councils in 1903-1904 are expected to amount to £23,700,000. Of this, £2,200,000 represents remittances on account of the Gold Reserve Fund, and £21,500,000 are remittances on ordinary account, as compared with £17,000,000 entered in the Budget

(10) In addition to Councils, a sum of £261,027 in gold was remitted to the Secretary of State in July last on account of the Gold Reserve Fund.

III.—1904-1905—

(1) The Budget Estimates of 1904-1905 show a total revenue of £80,148,600, a total expenditure charged to Revenue of £79,229,900, and a surplus of £918,700.

(2) Opium receipts are estimated at £781,600 less than the Revised Estimate of 1903-1904, but the other principal heads of Revenue are expected to yield an increase of £558,400, of which the principal factors are Land Revenue £329,200, and Excise £124,500. The net earnings of State Railways are taken at £174,800 less than the latest estimate of the current year.

Mint receipts are taken at £2,516,100 less, and the corresponding charges, including payments to the Gold Reserve Fund, at £2,385,000 less, than the Revised Estimates.

(3) It is not thought necessary to make any provision for direct famine relief, but the Famine Insurance grant of one million is maintained at the same figure as formerly.

(4) Army expenditure is expected to be greater than that of the Budget Estimate of 1903-1904 by £1,422,800. The provision of new artillery and rifles accounts for £700,000, the service pay of British troops, at 6*d.* a day, for £493,900, and expenditure on the Tibet, Aden, and Seistan Missions for £326,000. A sum of £256,700 is provided for prosecuting the scheme of special coast defences and sums aggregating £662,900 under various heads on account of projects for improving the efficiency of the army.

(5) Most of the other heads of expenditure show an increase.

(6) The Provincial Settlements of Assam, Bengal, the United Provinces and Madras have been revised and placed on a permanent basis. The revision involves the surrender to the Local Governments of Imperial Revenue amounting to £159,300 per annum.

(7) Subject to the usual reservations, loans of £2,500,000 in England and of three crores in India are announced as contemplated, and the drawings of Council Bills are entered at £16,500,000. The sterling loan is required partly to pay off Great Indian Peninsula Railway debentures to the amount of £1,002,100, and partly for advances to Railway Companies. The rupee loan is intended for expenditure on Railways and Irrigation Works.

(8) Subject to the usual reservations, provision is also made for the raising of capital through Railway Companies as follows, *viz.* :—

(*a*) towards outlay on State Railways, £1,650,000;
(*b*) for expenditure on Companies' Railways, £1,250,000.

L

(9) £2,000,000 of India Bills will fall due within the year, and it is intended to replace them by an issue of similar Bills of equal amount.

IV.—The following table shows the Capital expenditure on Railways and Irrigation Works :—

	Accounts, 1902-1903	Revised Estimate, 1903-1904.	Budget Estimate, 1904-1905.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, MARCH 26, 1904

☞ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 21st March 1904.

From the 9th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla After the 2nd April all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all Notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,

Secretary to the Government of India.

No 118 of 1904.—James Hereford McDermott, Permanent Way Inspector, Jhelum, Punjab *An improved galvanised dog spike*

No. 119 of 1904.—William Lord, gas engineer, of 17, Hythe road, Thornton, Heath, Croydon, county of Surrey, England, temporarily residing at the London Hotel, Port Melbourne, in the state of Victoria, Commonwealth of Australia *Improved apparatus for generating gas for* [illegible]

No [illegible] [illegible] Baddow, [illegible] the county of Essex, England. *Improvements in continuous tea panning and rolling machines.*

[illegible] of 1904.—Societe des Appareils de Controle et de Comptabilite Automatique, Jules Frydmane and Louis Chambon, manufacturers, of 76, Rue de Reaumur, Paris, in the Republic of France. *Improvements relating to cash registering appliances.*

No. 122 of 1904.—Societe des Appareils de Controle et de Comptabilite Automatique, and Jules Frydmane and Louis Chambon, manufacturers, of 76, Rue de Reaumur, Paris, in the Republic of France. *Composing disc for cash registering apparatus, calculating machines* [illegible]

[illegible] Reaumur, Paris, in the Republic of France. [illegible] rers, of 76, [illegible] *ing to calculating apparatus*

No 124 of 1904.—Richard St George St George-Moore, civil engineer, of 17, Victoria street, in the city of Westminster, London, England. *Improvements in and relating to points and switches and the like*

No 125 of 1904.—Sven Carlson, Doctor of Philosophy, of Valhallavagen 93, Stockholm, in the Kingdom of Sweden *An improved pressure reducing valve.*

No. 126 of 1904.—Jens Gabriel Fredrik Lund, engineer, of Björn Farmands Gade 2, Christiania, in the Kingdom of Norway. *Improvements in walls.*

No 127 of 1904.—Jens Gabriel Fredrik Lund, engineer, of Björn Farmands Gade 2, Christiania, in the Kingdom of Norway. *Improvements in flooring and the like formed of interlocking blocks.*

No 128 of 1904.—J J Bell and Company, tent and durrie manufacturers, of Cawnpore in British India. *Improvements in putties and the like.*

No 129 of 1904.—Walter Parry, M I C E, municipal engineer, and James McCallum Wright, I C S., collector, both of Cawnpore, in British India. *Improvements in scavenging systems and the like.*

No 130 of 1904.—George Mitchell, consulting engineer, of 39, Victoria street, Westminster, in the county of London, England. *Improved manufacture of manure.*

No. 131 of 1904.—Cesare Albertini, merchant and proprietor of the mercantile firm of Messieurs F Acerboni and Company, of No. 14, Grant's Lane, Calcutta, India. *Improvements in the manufacture of artificial or imitation stone.*

No 132 of 1904.—Nawab Hozoor Meerza, gentleman, of The Palace, Murshidabad, Bengal. *An assisted packsaddle.*

No. 1170 P.—SPECIFICATIONS of the under-mentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secre-

tary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A M to 3 P M. at the Secretary's office (Imperial Secretariat, Government Place, west, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying —

No. 285 of 1903.—A. C. Wernigg, engineer, Pahartali, near Chittagong, Bengal *A liquid fuel apparatus for heating wheel tyres.* (Specification filed 12 March 1904.)

No. 336 of 1903.—William Gow, tea broker, of Rood lane, London, E.C, England. *Apparatus for the process of panning or roasting tea leaf and for drying other substances* (Specification filed 14 March 1904)

No 439 of 1903.—Alfred Mousell Sprainger Watts, music teacher, of Palmerston North, in the colony of New Zealand *Improved means for attaching draw off taps to drums and the like.* (Specification filed 15 March 1904)

No. 486 of 1903 - Frank Hinman Pierpont, engineer, of Horley, in the county of Surrey, England *Improvements in and relating to machines for the manufacture of glass bottles and other vessels.* (Specification filed 17 March 1904.)

No 47 of 1904.—Thomas Pickles, manufacturer, of Cairo Mills, Burnley, Lancashire, England, and Benjamin Blakey, winding master of 12, Cairo street, Burnley, Lancashire *Improvements relating to the w ft stop mechanism of looms for weaving* (Specification file[illegible] March 1904)

No. 48 of 1904.—Joseph Ritscher, engineer, of No 319, Swanston street, Melbourne, in the state of Victoria, Commonwealth of Australia. *An adjustable throw crank for cycles and other machines.* (Specification filed 15 March 1904)

No. 49 of 1904.—The Hygienic Soap Granulator Company, Limited, a Company registered under the Company Acts, 1862 to 1900, of 171, Queen Victoria street, London, E C *An improved cake of soap and apparatus for moulding it and like plastic materials.* (Specification filed 15 March 1904.)

No 52 of 1904.—Adolf Gutensohn, manufacturing chemist, of Southend, in the county of Essex *A new or improved compound for treating seawater to prevent incrustation and corrosion in vessels in which it is evaporated.* (Specification filed 12 March 1904.)

No. 1171 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the under-mentioned inventions for the periods shown against each —

No. 143 of 1890—Carl Linde. *Improvements in refrigerating machinery.* (From 2 April 1904 to 2 April 1905.)

No 319 of 1894—James Gresham and Harry Edward Gresham. *Improvements in injectors and connected apparatus for feeding steam boilers with water.* (From 25 March 1904 to 25 March 1905)

No. 4 of 1895 Ebenzer Benton Beecher and Jacob Pulver Wright *Improvements in and relating to machines for making matches.* (From 23 March 1904 to 23 March 1905)

No. 87 of 1895.—James Leyster Courtice and John Wood. *Improvements in pianofortes.* (From 2 April 1904 to 2 April 1905.)

No. 232 of 1895.—Robert Rickie. *Improvements in sugar-cane crushing mills.* (From 25 March 1904 to 25 March 1905.)

No. 295 of 1896.—Charles Edward Middleton, Francis Philip Middleton, and Arthur Thomas Middleton. *Improvements in dyeing apparatus.* (From 17 March 1904 to 17 March 1905.)

No. 140 of 1898.—John Clarke. *Improvements in warp-drawing machines.* (From 22 March 1904 to 22 March 1905.)

No. 473 of 1898.—Allibhoy Valliji and Sons. *Improved tin ice box.* (From 14 April 1904 to 14 April 1905.)

No. 34 of 1899.—Allibhoy Vallıji and Sons. *An improved ladies' air-tight tin hat box.* (From 25 March 1904 to 25 March 1905.)

No. 39 of 1899.—The Right Honourable Douglas Mackinnon Baillie Hamilton Cochrane, Earl of Dundonald. *Improvements in the coupling and traction of bicycles.* (From 20 April 1904 to 20 April 1905.)

No. 284 of 1899.—The Oxyliquit Gesellschaft mit Beschrankter Haftung. *A new explosive compound.* (From 17 March 1904 to 17 March 1905.)

No 359 of 1899 —The General Electrolytic Patent Company, Limited. *Improvements in or connected with electrical conductors and anodes for electrolytic and similar purposes.* (From 17 March 1904 to 17 March 1905.)

No. 404 of 1899.—Harry Edward Gresham. *Improvements in or applicable to mechanism for actuating brakes for railway wagons or vehicles.* (From 20 April 1904 to 20 April 1905.)

No 432 of 1899.—James Ernest Hickmott. *An improved method of constructing the pans of lime and soorkey mills* (From 22 December 1904 to 22 December 1905)

No 1172 P —WHEREAS the inventors of the under-mentioned inventions have respectively failed to pay within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888 the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2) of the said Act, the exclusive privilege of making, selling and using the said inventions in British India, and of authorising others so to do, has ceased:—

No. 113 of 1899.—James Bett. *A new and improved method for drying tea and other products.* (Specification filed 12 December 1899)

No. 159 of 1899 — Birney Clark Batcheller. *Improvement in pneumatic transmission system* (Specification filed 14 December 1899.)

No 160 of 1899 —Birney Clark Batcheller *An improved pneumatic transmission system.* (Specification filed 14 December 1899.)

No. 161 of 1899 —Birney Clark Batcheller *Improvements in pneumatic despatch apparatus* (Specification filed 14 December 1899)

No 162 of 1899.—Birney Clark Batcheller. *Improvements in carriers for pneumatic despatch tubes.* (Specification filed 14 December 1899.)

No. 163 of 1899.—Birney Clark Batcheller. *An improvement in carrier receiving mechanism for pneumatic transit tubes* (Specification filed 14 December 1899)

No. 164 of 1899.—Birney Clark Batcheller *An improvement in carriers for pneumatic tubes.* (Specification filed 14 December 1899)

No. 173 of 1899.—Ludwig Weber. *Improvements in roofing tiles.* (Specification filed 15 December 1899)

No. 313 of 1899.—Ludwig Weber. *Improvements in ceilings.* (Specification filed 15 December 1899)

Fee in respect of the continuance of an exclusive privilege—

4 (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof.

The sum of R50 for each of the above inventions.

No. 157 of 1898.—Birney Clark Batcheller. *A method and mechanism for locating obstructions in pneumatic or other systems* (Specifications filed 12 December 1898.)

No. 167 of 1898.—James Farley. *Improvements in or connected with the joints of earthenware or other pipes.* (Specification filed 12 December 1898)

Fee in respect of the continuance of an exclusive privilege —

4 (*b*) After the expiration of the fourth year and before the expiration of the fifth year from the date of filing of the specification.

The sum of R50 for each of the above inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Inventions and Designs Act, 1888, will be open for the transaction of business from 11 A M. to 3 P.M. on all days, except Sundays and gazetted holidays.

• The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifi cations filed in the Secretary's office are now on sale to the public at one anna and eigh annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications, and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified. or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

C. R. WILSON,
Secretary under the Inventions and Designs Act, 1888.

MASULIPATAM;
March 10th, 1904.

THE HONOURABLE THE CHIEF COMMISSIONER OF AJMER-MERWARA.

NOTIFICATIONS.

Abu, the 12th March 1904.

No. 789 C.—In exercise of the powers conferred by sections 5 and 13 of the Opium Act, 1878 (I of 1878), and with the previous sanction of the Governor General in Council, the Chief Commissioner of Ajmer-Merwara is pleased to make the following rules in supersession of those published with his Notification No 296-193, dated the 7th March, 1901, as amended by his Notification No 946-589-VI, dated the 7th August, 1903, and to direct that they shall have effect from the 1st April, 1904 —

CHAPTER I

DEFINITIONS

Definitions.

1 In these rules, unless there is anything repugnant in the subject or context,—

(1) "Ajmer-Merwara" means the territories for the time being under the administration of the Chief Commissioner of Ajmer-Merwara·

(2) "Chief Commissioner" means the Chief Commissioner of Ajmer-Merwara:

(3) "Commissioner" means the Commissioner of Ajmer-Merwara

(4) "Collector" means the Assistant Commissioner of Ajmer, or any other person specially authorized by the Chief Commissioner, by name or in virtue of his office, to discharge all or any of the functions of a Collector under these rules:

(5) "opium" means the inspissated juice of the poppy, and includes madak and chandu and all preparations or admixtures of opium and intoxicating drugs prepared from the poppy, but it does not include poppy-heads·

(6) the expression "poppy-heads" means the dry capsules of the poppy plant:

(7) "tola" means a weight of one hundred and eighty grains Troy·

(8) "seer" means a weight of eighty tolas, and "maund" means a weight of forty seers

(9) opium, other than preparations or admixtures of opium used for smoking, when sold in any quantity not exceeding five tolas in weight, and poppy-heads when sold in any quantity not exceeding eight seers in weight, shall be deemed to be sold by "retail," and when sold in any larger quantity shall be deemed to be sold "wholesale"

(10) "farmer," used with reference to opium or poppy-heads, or both, means a person to whom the exclusive right of retail sale of opium, other than preparations or admixtures of opium used for smoking, or of poppy-heads, or of both, as the case may be, in any local area has been let in farm under these rules

(11) "licensed vendor," used with reference to opium or poppy-heads, or both, means a person to whom a license for the retail sale of opium, other than preparations or admixtures of opium used for smoking, or of poppy-heads, or of both, as the case may be, has been granted under these rules by the Collector or by a farmer having authority to grant the same and

(12) "licensed druggist" means a person to whom the Collector has granted, free of charge, a license for the retail sale of opium, other than preparations or admixtures of opium used for smoking, and of poppy-heads for medicinal purposes only.

CHAPTER II.

CULTIVATION, MANUFACTURE, POSSESSION AND SALE.

Cultivation, manufacture, possession and sale.

2. In Ajmer-Merwara (*a*) the cultivation of the poppy, (*b*) the manufacture of opium, (*c*) the possession of opium or poppy-heads, and (*d*) the sale of opium, other than preparations or admixtures of opium used for smoking, or poppy-heads are permitted subject to the conditions and to the extent prescribed in this chapter.

Permission to cultivate.

3. (1) Any person to whom the Collector, with the general or special sanction of the Commissioner, has granted a license to cultivate the poppy may cultivate it subject to the conditions of his license, and subject to the payment of excise duty on opium produced or

manufactured by him under sub-rule (3) of rule 4 hereinafter following, at such rates as the Chief Commissioner, with the previous sanction of the Governor General in Council, may notify in that behalf.

(2) All opium produced or manufactured under sub-rule (1) shall, before the 31st December following, be conveyed to such place or places as may from time to time be fixed by the Collector in that behalf for the reception of the same, and shall not be removed therefrom until the excise duty has been paid and a treasury receipt for the same produced.

(3) The whole or any part of the produce of his cultivation which remains undisposed of by the licensee during the term of his license shall be disposed of by him in such manner as the Collector may direct.

Permission to manufacture.

4. (1) Any person to whom the Collector, with the general or special sanction of the Commissioner, has granted a license to manufacture opium, other than preparations or admixtures of opium used for smoking, may manufacture it subject to the conditions of his license.

(2) Any person may manufacture for his own domestic use opium possessed by him under sub-rule (1) or sub-rule (2) of rule 5.

(3) A person having a license under rule 3 may manufacture opium, other than preparations or admixtures of opium used for smoking, being the produce of land cultivated with the poppy in accordance with, and during the period of, his license

(4) A licensed druggist may, subject to the conditions of his license, manufacture opium, other than preparations or admixtures of opium used for smoking, in quantities not exceeding those specified in rule 5, sub-rule (3), for medicinal purposes.

Permission to possess.

5 (1) Any person may possess—

(*a*) opium, other than a preparation or admixture of opium used for smoking, to an amount not exceeding five tolas in weight;

(*b*) poppy-heads to an amount not exceeding eight seers in weight:

Provided that such opium or poppy-heads has or have been bought from a farmer or licensed vendor of opium or poppy-heads or from a licensed druggist, or, in the case of preparations or admixtures of opium or intoxicating drugs prepared from the poppy, have been manufactured from opium bought from a farmer or licensed vendor of opium or poppy-heads or from a licensed druggist;

(*c*) any preparation or admixture of opium used for smoking to an amount not exceeding one tola in weight, provided that the preparation or admixture has been manufactured from opium purchased from a farmer or a licensed vendor by the possessor for private consumption and not for sale.

(2) Notwithstanding anything contained in sub-rule (1), the Collector may, by general or special order in writing, authorize any person to possess opium or poppy-heads in quantities not exceeding such weight as may be specified in the order.

(3) A licensed druggist may, subject to the conditions of his license, possess opium other than preparations or admixtures of opium used for smoking, not exceeding one seer in weight, and poppy-heads not exceeding ten seers in weight

(4) A person having a license under rule 3 may possess opium, other than preparations or admixtures of opium used for smoking, and poppy-heads, being the produce of land cultivated with the poppy in accordance with, and during the period of, his license

(5) A farmer or licensed vendor of opium or poppy-heads may, subject to the conditions of his farm or license, possess opium, other than preparations or admixtures of opium used for smoking, or poppy-heads, as the case may be, in any quantity.

Permission to sell wholesale

6. (1) A person having a license under rule 3 may sell wholesale to a farmer or a licensed vendor, or to a person authorized in this behalf by the general or special order in writing of the Collector, opium, other than preparations or admixtures of opium used for smoking, or poppy-heads, being the produce of land cultivated with the poppy in accordance with, and during the period of, his license.

(2) A person having a license under rule 4, sub-rule (1), may sell wholesale to a farmer or licensed vendor, or to a person authorized in this behalf by the general or special order in writing of the Collector, opium, other than a preparation or admixture of opium used for smoking, manufactured in accordance with, and during the period of, his license.

(3) A person authorized in this behalf by the general or special order in writing of the Collector may sell opium, other than preparations or admixtures of opium used for smoking, or poppy-heads, wholesale, to a farmer or licensed vendor or to a person authorized by the general or special order in writing of the Collector to be the buyer thereof.

(4) A farmer of opium or poppy-heads may, subject to the conditions of his farm, sell opium, other than preparations or admixtures of opium used for smoking, or poppy-heads, as the case may be, wholesale, to a licensed vendor thereof.

(5) A farmer or licensed vendor of opium or poppy-heads may, subject to the conditions of his farm or license, sell to a licensed druggist opium, other than preparations or

admixtures of opium used for smoking, not exceeding one seer in weight, or poppy-heads not exceeding ten seers in weight, as the case may be.

(6) A farmer or licensed vendor of opium or poppy-heads may, subject to the conditions of his farm or license, sell to a person specially authorized in that behalf by the general or special order in writing of the Collector, opium, other than preparations or admixtures of opium used for smoking, or poppy-heads, as the case may be, to the extent covered by the order.

Permission to sell by retail

7. (1) A farmer or licensed vendor of opium or poppy-heads may, subject to the conditions of his farm or license, sell opium, other than preparations or admixtures of opium used for smoking, or poppy-heads, as the case may be, by retail to any person.

(2) A licensed druggist may, subject to the conditions of his license, sell opium, other than preparations or admixtures of opium used for smoking, or poppy-heads, by retail for medicinal purposes only

Grant of licenses for retail sale

8. (1) Unless the Collector farms the right of retail sale under rule 12, licenses for the retail sale of opium, other than preparations or admixtures of opium used for smoking, or of poppy-heads, or of both, may be granted by the Collector, for one year only, unless the Chief Commissioner otherwise specially directs.

(2) The Commissioner may from time to time fix the number of shops for which licenses may be granted under sub-rule (1), and the exclusive right to sell opium, other than preparations or admixtures of opium used for smoking, or poppy-heads, or both, by retail at these shops may be put up to auction by the Collector at or before the commencement of each official year, either for each shop singly or for groups of shops, as the Collector, subject to the control of the Commissioner, sees fit.

(3) The conditions of the auction mentioned in sub-rule (2) may be such that the sum payable in respect of the shop or shops, as the case may be, by the person declared to be the purchaser at the auction shall be paid by that person in such instalments and at such times, and that such security may be required from him for the payment thereof, as, subject to any instructions that may be issued by the Chief Commissioner in this behalf, the Collector in each case directs:

Provided that in the rural area, that is to say, the area other than that included in the Ajmer, Beawar, Nasirabad and Kekri areas, the right to sell opium, other than preparations or admixtures of opium used for smoking, or poppy heads, or both, by retail, may be granted in given areas to approved persons on the payment of such annual fee per shop as the Commissioner may from time to time determine

(4) The fee referred to in the proviso to sub-rule (3) shall be paid in a lump sum in advance, and the grant of licenses thereunder shall be made by the Collector with the approval of the Commissioner. The areas and shops in which grants may be made shall be fixed by the Collector, three months before the commencement of each year, with the like approval.

Cancellation of license for retail sale

9 (1) A license granted under the last foregoing rule may be cancelled without compensation by the Collector for breach of any of the conditions thereof.

(2) Where the Collector considers that any such license should be cancelled for any cause other than a breach of its conditions, he shall remit a sum equal to the average amount payable for fifteen days of the period for which the license was granted, and shall either give fifteen days' previous notice of his intention to cancel the license, or, in addition to remitting the sum aforesaid, make such compensation for default of notice as the Commissioner directs. On the expiration of the notice, or on the payment of the additional compensation, the Collector may cancel the license.

Surrender of licenses for retail sale.

10. (1) A licensed vendor may surrender his license on the expiration of one month's previous notice given by him in writing to the Collector, or, in the case of a license granted by a farmer, to the farmer, with the approval of the Collector, of his intention to surrender the same, and on payment of such sum as the Collector may fix in this behalf, not exceeding the average amount payable for six months of the period for which the license was granted, or, where the license is granted for a shorter period than one year, then for half that period.

(2) If the Collector is satisfied that there is sufficient reason for surrendering a license, he may, with the sanction of the Commissioner, remit the sum so fixed.

Withdrawal of licenses.

11. The Collector may at any time, with or without cause assigned, and without payment of compensation, withdraw a license from a licensed druggist.

Farm of right of retail sale.

12. (1) The Collector may let in farm the exclusive right of retail sale of opium, other than preparations or admixtures of opium used for smoking, or poppy-heads, or both, within any local area fixed by the Commissioner,—

(*a*) for a term not exceeding two years with the sanction of the Commissioner, and

(*b*) for a term not exceeding five years with the sanction of the Chief Commissioner.

(2) When the exclusive right of retail sale is let in farm, the farmer may, subject to the conditions of his farm, himself sell by retail or issue licenses under the countersignature of the Collector for the retail sale of opium, other than preparations or admixtures of opium used for smoking, or poppy-heads, or both, as the case may be, within the local area to which the farm extends

(3) Every farmer shall file in the office of the Collector a list of all licenses granted by him in such form, and on such day or days in each year, as the Commissioner may from time to time prescribe.

Issue of instructions with respect to farm.

13 The Chief Commissioner may issue instructions with respect to—

(*a*) the invitation and acceptance of tenders for farms under rule 12; and

(*b*) the requisition of security for the due fulfilment of the conditions of a farm.

lference with farms.

14. (1) The Collector may, with the leave of the authority by which a farm under rule 12 was sanctioned, cancel the farm, or, within the term of the farm, make or impose such reservations or restrictions with respect to the grant of licenses as to him may seem fit

(2) If the farm is cancelled for any breach of its conditions, the farmer shall not be entitled to compensation for any loss he may sustain thereby

(3) If the farm is cancelled for any cause other than a breach of its conditions, or if any reservation or restriction with respect to the grant of licenses is made or imposed within the term of the farm, the farmer shall be entitled to receive for any loss which he sustains thereby such compensation as the Chief Commissioner may determine.

Power to prescribe forms

15 The Chief Commissioner may prescribe—

(*a*) the forms and conditions in and on which licenses and farms shall be granted by the Collector, and licenses by farmers, and

(*b*) forms for any other proceedings under these rules for which he considers that forms should be provided

Disposal of articles remaining with a farmer or licensed vendor after expiration of his farm or license

16. If a person who has been a farmer or a licensed vendor has in his possession, after the expiration of his farm or license, any opium, other than preparations or admixtures of opium used for smoking, or poppy-heads, which he is unable to dispose of under rule 6 or rule 7, he shall, on the requisition of the Collector, surrender the same to such officer as the Collector may appoint in this behalf, and the person to whom a new farm or license has been granted in the stead of the said farmer or licensed vendor, or if no such new farm or license has been granted, then any farmer or licensed vendor of the article within the district, shall, on the requisition of the Collector, be bound, under penalty, if the Collector sees fit, of forfeiting his farm or license, to buy the opium or poppy-heads, as the case may be, at such price as the Collector may adjudge, and in any quantity not exceeding that which the Collector may determine to be ordinarily saleable by him in two months

Provided that, if such opium or poppy-heads, or any part thereof, is or are declared by the Civil Surgeon or other officer authorized in that behalf by the Chief Commissioner to be unfit for use, the Collector shall cause the same to be destroyed, and no compensation in respect of such destruction shall be claimable by the former farmer or licensed vendor.

CHAPTER III

IMPORT, EXPORT AND TRANSPORT.

17. The Government may import, export or transport opium and poppy-heads on its own account

18. (1) Any person may personally import, export or transport, without a pass or the payment of any duty, opium and poppy-heads in quantities which he is entitled to possess.

(2) Subject to the limits of possession laid down in rule 5, sub-rule (3), a licensed druggist may, with the special permission of the Collector, import for medicinal purposes opium, other than preparations or admixtures of opium used for smoking, or poppy-heads, from such places and in such manner and in such quantity as may be prescribed in a permit granted to him for this purpose.

19. (1) A person authorized by a general or special order in writing of the Collector to possess opium or poppy heads in quantities exceeding those specified in rule 5, sub-rule (1), may import opium or poppy-heads to the extent to which he is authorized to possess the same, subject to such conditions and by such routes as the Collector may, by general or special order, from time to time prescribe.

(2) Opium, other than preparations or admixtures of opium used for smoking, or poppy-heads, in quantities exceeding those specified in rule 5, sub-rule (1), produced in Malwa may be imported by rail or by road by any person holding a license to sell opium wholesale or by retail:

Provided that such opium shall be imported,—

(*a*) except in the case provided for by rule 18, sub-rule (2), in quantities of not less than 36 seers at a time,

(*b*) under cover of an import pass obtained in the manner provided by sub-rule (3) of this rule, and

(*c*) subject to the payment of such import duty as may be leviable for the time being,

(*d*) (when by rail) to the railway stations of Ajmer and Beawar and such other stations as may from time to time be prescribed by the Chief Commissioner in that behalf.

(3) Any person licensed to sell opium, who requires a pass for the import of Malwa opium or poppy-heads, may apply for such pass to the Collector. The application shall be in writing and shall contain the following particulars, namely —

(*a*) the name and description of the applicant,

(*b*) the nature of his license, and

(*c*) the quantity of Malwa opium or poppy-heads which he wishes to import.

(4) Every import pass granted under these rules shall be in such form and shall contain such conditions, in addition to those hereinafter following, as the Chief Commissioner may prescribe.

Provided as follows:—

(*a*) All Malwa opium and poppy-heads imported under an import pass shall, on being brought into Ajmer-Merwara, be taken, with bulk unbroken, by the person in charge thereof direct to such office as is specified in the pass

(*b*) On arrival at such office the opium or poppy-heads, together with the import pass, shall be delivered to the officer named in that behalf in such import pass, and shall not be returned to the importer until the duty leviable thereon has been paid into the treasury and a treasury receipt for the same produced.

20 The export of opium, other than preparations or admixtures of opium used for smoking, and poppy-heads, in quantities exceeding those specified in rule 5, sub-rule (1), may be permitted (under a pass granted by the Collector on the production of a written permission granted by the Political Agent of a Native State, or an official of such State duly authorized in that behalf, or a District Officer of British India) by such routes and subject to such conditions as may be prescribed in the pass

Provided as follows —

(1) Export by rail may be permitted only from the Ajmer railway station.

(2) Opium, other than preparations or admixtures of opium used for smoking, may be exported to or through British India only when covered by a pass signed by the Opium Agent of Indore, or by the Opium Agent of Ajmer, or by an officer authorized by one of these Agents to sign the pass, and under the conditions and restrictions prescribed in the schedule to these rules.

(3) No opium shall be exported to the Punjab or the North-West Frontier Province, except under a pass granted by the Opium Agent of Ajmer, or by an officer authorized by him in that behalf.

Transport

21. The transport of opium, other than preparations or admixtures of opium used for smoking, and poppy-heads, in quantities exceeding those specified in rule 5, sub-rule (1), may be permitted under a pass granted by the Collector and subject to the conditions contained therein.

Transit

22. (1) When accompanied by a properly authenticated pass issued by the Opium Agent of Indore or his authorized Assistant, or by the Opium Agent at Ajmer or other officer authorized to grant passes at the Ajmer scales, certifying prepayment of the duty leviable at the scales (or by any Political Officer or Native State official duly authorized in this behalf), opium or poppy-heads in transit through Ajmer-Merwara may be transported by such routes and under such conditions as may be prescribed in the pass:

Provided that transit through Ajmer-Merwara of opium consigned to the Punjab or the North West Frontier Province shall not be permitted unless the opium has been booked by rail from Ajmer, and under pass, as required in the third proviso to rule 20.

(2) The bulk of a consignment shall not be broken in transit.

(3) The destination of a consignment shall not be altered from that which has been specified in the pass.

(4) Delivery of opium or poppy-heads in transit by rail shall not be taken from the railway authorities by the owner, or consignor, or consignee, or by any other person, without the written authority of the Collector.

(5) Opium or poppy-heads in transit may be detained and examined as to all particulars specified in the pass, or as to the prepayment of duty, or as to tampering in transit or change of destination of the consignment, or as to the due observance of these rules, at any station or place at which the Collector may direct such detention or examination either generally or specially. The railway officials shall afford at all times all reasonable facilities to the Government official or officials authorized in writing by the Collector to make such general or special examinations, and on the requisition of such Government official or officials shall detain any consignment pending the orders of the Collector, and shall be indemnified for acting on such requisition.

CHAPTER IV.

DISPOSAL OF THINGS CONFISCATED.

Disposal of confiscated things

23. (1) All things confiscated under the Opium Act, 1878, except poppy, poppy-heads and opium, shall be disposed of by the Collector by public auction

(2) Poppy and poppy-heads so confiscated shall be disposed of as the Collector may direct.

(3) Opium so confiscated shall be sent for examination to the Civil Surgeon, or other officer authorized in that behalf by the Chief Commissioner, and, if declared by him to be fit for use, shall be disposed of in such manner as the Collector may direct If the opium is declared by the officer aforesaid to be unfit for use, it shall immediately be destroyed

CHAPTER V.

REWARDS

Reward in case of fine.

24. (1) A Magistrate convicting an offender under section 9 of the Opium Act, 1878, may award to any person who has contributed in any way to the conviction, the whole or any portion of any fine imposed upon the offender and paid by him or realized from his property.

(2) If the fine is not realized, or only realized in part, the Magistrate may, within a limit of one hundred rupees, order payment of its full amount or of the unrealized balance, as the case may be, out of the treasury.

(3) If the Magistrate is of opinion that a larger reward than he can give under this rule to a person who has contributed to the conviction ought to be given to that person, he may move the Chief Commissioner through the Collector to grant a larger reward.

Rewards in case of confiscation.

25. A Magistrate or other officer ordering the confiscation of anything under section 12, of the Opium Act, 1878, may grant to any person who has contributed in any way to the seizure of the thing the whole or any portion of the value thereof.

Rewards in other cases.

26. (1) In any case in which in the opinion of the Chief Commissioner a person has performed service of special merit in respect of the prevention or detection of an offence against the Opium Act, 1878, the Chief Commissioner may grant him a reward not exceeding five hundred rupees in amount.

(2) The Chief Commissioner, or with his sanction, the Commissioner, may incur expenditure not exceeding five hundred rupees in each case for the employment of informers or for any other purpose connected with the prevention or detection of offences against the Opium Act, 1878.

CHAPTER VI.

APPEAL AND REVISION.

Appeal

27 An appeal shall lie to the Commissioner from every order of the Collector under these rules, if presented to the Commissioner, or to the Collector for transmission to the Commissioner, within thirty days from the date of the order.

Revision

28. The Chief Commissioner may revise every order passed by the Collector or the Commissioner under these rules.

Form of petition

29. A petition of appeal from, or for revision of, an order shall be accompanied by the order in original or by an authenticated copy thereof, or the omission to produce the original or copy shall be explained.

SCHEDULE.

(Rule 20.)

1. The Rajputana-Malwa Railway Administration shall not receive opium for export except under a pass and in whole or half chests

2. The amount of duty payable on export will be paid into the treasury either in cash or by hundi, and the Treasury Officer will give the person tendering payment a receipt for the amount so paid. On production of the receipt the number of chests for which duty has been paid will be admitted into the godown.

3 Hundis will, on being approved of by the Treasury Officer, be registered and numbered, and be endorsed on the reverse side with the name of the person on whom they are drawn, they will be forwarded by the Treasury Officer under sealed and registered cover, if the opium is for export by sea, direct to the Accountant General, Bombay, and, if it is not for export by sea, to the officer mentioned in the pass to whom the Treasury Officer may be directed to forward it. The register will be in the following form:—

(1) Number of pass
(2) Date of pass.
(3) Number of chests covered by the pass.
(4) Consecutive number of hundi.
(5) Date of hundi.
(6) By whom drawn.
(7) On whom drawn.
(8) At how many days' sight.
(9) When due
(10) Amount of hundi.
(11) Total amount of duty.
(12) Remarks.

4. To facilitate check, passes will bear the same number as the hundis, and these numbers will be entered in column (1)—"Number of pass." The total in column "Total amount of duty" will be the total for each continuation register, and will be carried forward into the next, and number of passes so entered in the first column will be distinctly specified in the advice sent to the Accountant General.

5 A duplicate of this register, if the export is to be by sea, will be sent to the Collector of Customs and Opium, Bombay, or if the export is by land, to the officer to whom the hundi has been sent under paragraph 3 of this schedule.

6. Opium intended for export by sea or for home consumption in India shall be brought to the Government godown, ready packed in chests or half-chests (as may be most convenient), by the merchants or brokers who will produce the Treasury Officer's certificate under his signature for cash or his receipt for hundis on stamped paper payable at sight to the Bombay General Treasury and Bank of Bombay

The Deputy or Assistant Opium Agent will carefully inspect the Treasury Officer's signature to the certificate, and note the serial number of the receipt to satisfy himself that the receipts are genuine.

The duty on opium intended for consumption in India must be paid in cash or by approved hundis into some treasury in British India, and the receipt of the Treasury Officer must be produced

7 The chests or half-chests of each party will be placed in the opium godown and will have their covers printed and stamped, and each chest or half-chest will then be numbered consecutively in English.

8. Merchants will themselves provide and pay for porters, carpenters and men for marking the chests and serving up the covers of such chests as have been opened for weighment; they will also pay all expenses of conveying their chests to the railway station and of transit thence to their destination.

9. The Collector shall annually, before the weighment of the opium of the season is begun, examine the weights and scales and report the result of the examination to the Commissioner. No weights or scales shall be used which on any such examination have not been found to be strictly accurate.

10. It will be the duty of the officer in charge of the scales to see that the opium is weighed fairly with an even beam. The practice of taking excess weight for the purpose of trimming the scales, or as an allowance for dryage and wastage, is strictly prohibited

11. The Deputy or Assistant Opium Agent will select at hazard any chest he pleases (never less than two chests or half-chests out of every 10) and as many more as he thinks fit; each selected chest will then be separately opened, its contents (opium balls called bathis or golis) brought to the scales, and the exact weight recorded; and from these weighments the average of the whole lot may be struck If the weight is in excess of the 140½ lbs. allowed

by the Government in each whole chest, the surplus may be withdrawn, the object being to prevent a larger quantity than the amount allowed in a chest being exported under the pass. The officer who supervises weighment is to see that the surplus quantity of the whole of any batch is taken out of the opened chests and put aside somewhere near him under his eyes until the chests are repacked and nailed down. If the weight is under 140½ lbs., and the owner has spare opium to make up the deficit, he may be allowed to supply it to make up the full weight, and the chests will then be nailed down in the presence of the officer in charge of the scales If the owner is not able to make up the deficiency, the amount deficient will be noted in the pass.

12. During the process of weighing the chaprasis of the opium establishment shall vigilantly watch the merchants and their servants

13 This operation is called the "net weighment of the opium", and when completed, the boxes shall be repacked and nailed down; then the gross weighment of each chest or half-chest shall be ascertained and recorded, and the gross weight marked on the covers in English, with the serial number of the chest and such other particulars as may be necessary, for the identification of the consignment

14. The chests exported during one season, which begins on the 1st August, shall bear a continuous serial number.

15. Full particulars shall be entered in the pass for each consignment showing :—

On the first side of pass:
- (1) Number of pass.
- (2) Name of owner of the chest.
- (3) Number of chests.
- (4) Amount of duty.
- (5) Amount of duty paid in cash at Ajmer
- (6) Amount of duty to be realized on hundi.
- (7) Rate of duty
- (8) Date of Government orders.
- (9) Date of pass
- (10) Signature of the officer by whom the pass was granted and who made the weighment

On the second side:
- Net weighment of opium of certain chests selected from the whole consignment
- Gross weighment of every chest, its contents and destination.

16 A duplicate of each pass granted shall be sent to the officer who issued the permit authorizing the export of the opium mentioned in the pass.

17. This pass shall remain in force only, in the case of export by sea, till the arrival of the consignment in Bombay, and in the case of export by land, for three months from the date of the issue thereof

The 13th March 1904.

No. 790 C.—In exercise of the power conferred by rule 3, sub-rule (1), of the rules made under sections 5 and 13 of the Opium Act, 1878 (I of 1878), and published under his Notification No. 789-C, dated the 12th March, 1904, the Chief Commissioner of Ajmer-Merwara, with the previous sanction of the Governor General in Council, is pleased to direct that a duty of Rs 4 per seer shall be levied, with effect from the 1st April, 1905, on opium (not being poppy-heads) produced or manufactured in Ajmer-Merwara.

By order,

C. C. WATSON,

First Assistant to the Agent to the Governor-General, in Rajputana and Chief Commissioner, Ajmer-Merwara.

POST OFFICE.

NOTIFICATION.

Calcutta, the 22nd March 1904.

Mr. F. J. Laughlin is appointed to act as postmaster, Lucknow, during the absence on privilege leave of Lala Zalim Singh, or until further orders

A. U. FANSHAWE,

Director General of the Post Office of India.

NORTH WESTERN RAILWAY.

NOTIFICATION.

Dated Lahore, the 19th March 1904.

No. 8.—Mr E A C. Lister, Executive Engineer, 3rd grade, is granted, under Articles 233, 246 260 and 308, Civil Service Regulations, combined leave for 1 year 7 months and 21 days, *viz.*, privilege leave for 1 month and 21 days and furlough for the remaining period, with effect from the 10th April 1904, or such subsequent date as he may be permitted to avail himself of it.

S. FINNEY,

Manager, North Western Railway.

THE HONOURABLE THE AGENT TO THE GOVERNOR-GENERAL AND CHIEF COMMISSIONER, NORTH-WEST FRONTIER PROVINCE.

NOTIFICATIONS.

POWERS.

Peshawar, the 9th March 1904.

No. 34-*B*.—Under the provisions of section 58 (1) of the North-West Frontier Province Law and Justice Regulation, No VII of 1901, Captain E. H S James, I A., Assistant Commissioner, is invested with the powers of a Munsif of the 1st class, with respect to cases generally, within the limits of the Civil District of Peshawar.

2. The Hon'ble the Chief Commissioner is pleased to direct that Captain James shall be deemed, for the purposes of the said Regulation, to be a Munsif

The 11th March 1904.

No. 39-*A*.—Under the powers conferred by section 13 (1) of the Code of Criminal Procedure, 1898, Captain E. H. S. James, I A, Assistant Commissioner and a Magistrate of the 1st class, is placed in charge of the Nowshera Sub Division of the Peshawar District

No. 39-*B*.—In exercise of the powers vested in him under section 40 of Act II of 1880, the Hon'ble the Agent to the Governor-General and Chief Commissioner is pleased to invest Captain E. H. S. James, I.A., in charge of the Nowshera Sub-Division of the Peshawar District, with all the powers of a Collector under the said Act, except those specified in sections 9 (2), 12, 18 (1) (*b*), 31 and 36.

This notification supersedes all previous notifications concerning the powers of the above-named officer under the Income Tax Act, and it will remain in force until he ceases to be a 1st class Magistrate, or to hold charge of the Sub-Division, or until it is expressly cancelled.

The 13th March 1904.

No. 41-*A*.—Under the provisions of section 59 of the North-West Frontier Province Law and Justice Regulation, No VII of 1901, Captain F. G A. Wimberley, I.A, Officiating Cantonment Magistrate, is appointed to be Judge of the Court of Small Causes established in the Military Cantonment of Nowshera to try suits not exceeding 500 rupees in value.

LEAVE.

The 17th March 1904.

No. 43.—Captain H. C. Beadon, Assistant Settlement Officer, Hazara, has obtained privilege leave for one month, under Article 260 of the Civil Service Regulations, from the forenoon of the 15th February 1904.

No. 44.—Mr. M. G. Wall, Assistant District Superintendent of Police, is granted 1 month and 22 days' privilege leave combined with 4 months and 8 days' special leave on urgent private affairs, under Articles 260, 316, and 233 of the Civil Service Regulations, with effect from 20th March 1904, or such subsequent date as he may avail himself of it.

The 18th March 1904.

No. 45.—Captain E H. S. James, I.A., Assistant Commissioner, is transferred from the Dera Ismail Khan to the Peshawar District which he joined on the forenoon of the 9th March 1904, and is placed in charge of the Nowshera Sub-Division of that district, with effect from the forenoon of the 11th March 1904.

By order,

A. H. GRANT,
Secretary to the Agent to the Governor-General and
Chief Commissioner, N.-W. F. Province.

REVENUE AND FINANCIAL SECRETARY TO CHIEF COMMISSIONER, NORTH-WEST FRONTIER PROVINCE.

NOTIFICATIONS.

Peshawar, the 15th March 1904.

No. 335-*A*.—In accordance with the provisions of section 11 of Act XX of 1883 (the Punjab District Boards Act), the Chief Commissioner, North-West Frontier Province, is pleased to notify that the following persons are members of the District Board of the Dera Ismail Khan District —

Dera Ismail Khan Tahsil.

1. Nawab Abdulla Khan.
2. Khan Bahadur Haq Nawaz Khan, C.I.E.
3. Ghulam Qadir Khan
4. Sobha Ram Zaildar.
5. Misar Parma Nand
6. Malik Makhna Zaildar.
7. Gul Muhammad Khan of Rodikhel
8. Feroz Khan Lambardar, Panıala.
9. Malik Bakhsh Zaildar.
10. Mansur Khan Zaildar.
11. Allahdad Khan Alizai.
12. Makhdum Abdus Star Shah.

Kulachi Tahsil.

13. Resaldar-Major Gul Khan.
14. Mansam Khan, Gandapur.
15. Khan Bahadur Haji Kalandar Khan.
16. Khan Bahadur Rabnawaz Khan, Musazai.
17. Hayat Ullah Khan, Ustrana.
18. Sikandar Khan of Gandi Umar Khan.
19. Aman Ullah Khan, Babar.

Tank Tahsil.

20. Khan Bahadur Azim Khan, Kundi.
21. Ghulam Mahammad Khan of Fatteh Chadhar.
22. Malik Hakim Molana.
23. Talib Din Khan, Marwat.
24. Shah Alam Khan of Drakki.

The 18th March 1904.

No. 538 *G*.—In exercise of the powers conferred by section 4 (*a*) of the Teri Dues Regulation (Regulation IV of 1902), the Chief Commissioner of the North-West Frontier Province is hereby pleased to fix for all the estates in the Teri Tahsil of the Kohat District, with the exception of those specified in clause 2 of this Notification, the following rates, as the rates at which the dues known as '*tirni*' and '*bua*' are leviable by the Khan of Teri, with effect from the Kharif harvest of 1903.

RATES OF TIRNI.

Sheep and goats other than lambs and kids under six months of age. R10 per 100 head or R2 per 20 head per annum.

Camels over two years of age. R1-8 per head per annum.

Camels under two years but over one year of age. Annas 12 per annum.

RATES of BUA.

Rupees 2 per house per harvest from all non-agriculturists excepting (*a*) Mullahs and Brahmans who perform religious duties in mosques and temples, and (*b*) ordinary labourers who carry on no regular trade or business and depend on daily labour for their living.

2. As in the estates of Tolanj, Parshai, Kanda, Tilkan, and Nakband, the dues called *tirni* and *bua* have been included in the fixed land revenue, the Chief Commissioner is pleased to direct that *tirni* and *bua* shall not be separately levied on or realised from the inhabitants of these five estates.

No. 539-G.—In exercise of the powers conferred by section 4 (*b*) of the Teri Dues Regulation (Regulation IV of 1902), the Chief Commissioner of the North-West Frontier Province, is hereby pleased to direct that the levy of the dues known as *tirni* and *bua* in the estates of the Teri Tahsil of the Kohat District under Notification No. 538-G., dated 18th March 1904, shall be subject to the following exceptions —

(1) The grant by the Khan of Teri of the land revenue of a holding or holdings in muafi to the owner of the land in respect of which such land revenue is due, shall be held to carry with it the exemption of that owner from the payment of *tirni* in respect of any camels, sheep or goats owned by him.

(2) The grant by the Khan of Teri of an assignment of the land revenue of an estate or part of an estate in Jagir shall be held to carry with it the grant to the Jagirdar of personal exemption from payment of *tirni* and *bua*, and also the grant of the right to collect for his own enjoyment the *tirni* and *bua*, which, but for the assignment of the Jagir, would be due to the Khan of Teri himself from the land owners and inhabitants of the estate or part of estate assigned.

(3) The exemption of Muafidars and Jagirdars from the payment of *tirni* and *bua*, and the right of Jagirdars to collect *tirni* and *bua*, shall cease with the lapse or resumption of their Muafis or Jagirs

(4) Nothing in the foregoing rules shall prevent the Khan of Teri from making or resuming exemptions and assignments of *tirni* and *bua* apart from exemptions, assignments and resumptions of land revenue, but in such cases the provisions of section 7 of the Regulation must be complied with

(5) In this Notification the words owner and Jagirdar shall be held respectively to include all owners of a joint holding, and all share-holders in a joint jagir

No. 540-G.—In exercise of the powers conferred by section 8 of the Teri Dues Regulation (Regulation IV of 1902) the Chief Commissioner of the North-West Frontier Province is pleased to make the following rules to carry out the purposes and objects of the said Regulation. These rules shall have effect from the Kharif harvest of 1903

PART I.

1. In the assessment of *tirni* of sheep and goats, fractions of an anna shall not be recognised. The authorised rate is R10 per hundred animals per annum which is equivalent to 8 annas per 5 head of sheep and goats per annum. For numbers between multiples of five, 2 annas per annum shall be assessed on an excess of one or two animals, 4 annas on three animals, and 6 annas on four animals.

2. *Bua* is leviable, subject to the exceptions detailed in Notifications Nos 538-G., dated 18th March 1904, in respect of the houses of all non agriculturists resident in the Teri Tahsil.

The term non-agriculturist does not include *bona fide* members of recognised agricultural tribes who own or cultivate land in Teri, or such of them as work as labourers in excavating salt or trade in salt to supplement their income; but the term does include all members of the trading and menial classes who have not abandoned their primary occupation for agriculture.

3. Persons liable to pay *bua* are not exempt from the payment of *tirni* if they keep animals taxable with *tirni* and *vice versâ* the payment of *tirni* does not exempt persons otherwise liable from liability to pay *bua*.

4 Where one enclosure is occupied by more families than one carrying on business separately or cooking their food separately *bua* is due from each family. An owner of several shops, whether the income and expenditure from them be treated separately or not, is liable to pay *bua* for each shop.

5. Outsiders residing within the limits of the Teri Tahsil for less than two months in any agricultural year shall not be assessed to *bua*. Continuous residence for not less than

two and not more than eight months, shall render an outsider of any class assessable under the regulation liable to the tax for one harvest. Continuous residence for more than eight months in any year renders the assessee liable to the full tax for the year.

PART II.

6 Registers of the *tirni* and *bua* demand in the forms prescribed from time to time shall be prepared by the Patwaris at the time of the *Kharif Girdawari*. These registers shall always be open to inspection by the Field Kanungos, and all revenue officers. It shall be the duty of the Field Kanungos and all revenue officers to carefully check, verify and correct the demand registers prepared by the patwaris, and the assessments shall not be given effect to till the registers have been signed by a revenue officer and the demand sanctioned by the Tahsildar

7. Lambardars are bound to give Patwaris any necessary information and assistance in the enumeration of animals for *tirni* and of houses and enclosures for *bua*. On the completion of the registers the lambardars concerned shall testify to their correctness by affixing their signatures or seals The refusal of a lambardar to attest a list shall be referred to a Revenue Officer for orders

8 On the completion of the *tirni* and *bua* registers of each village the Patwari shall total the list by lambardars and send a copy of the list to the Tahsil along with the Kharif Jinswar When the assessment has been sanctioned by the Tahsildar he shall make any corrections necessary in his register and furnish a correct copy to the lambardars concerned along with the *fard bach* showing the amounts of the dues, the persons by whom they are payable, and the amount to be collected by each lambardar.

9 The lambardars shall make collections of *tirni* and *bua* according to the lists supplied to them by the patwari, and shall pay the amounts collected into the Tahsil treasury along with the land-revenue demand in equal instalments one-half with the *kharif* demand and one-half with the rabi demand. For this service the lambardars will receive *pachotra* at the usual rate of five per cent on the collections

10 Patwaris shall receive no extra remuneration for the performance of the duties prescribed by these rules They shall not themselves receive payments or take any part in the collection of the dues, beyond furnishing any information or explanation of the accounts that may be required to facilitate the collections Patwaris are forbidden to take any fees whatsoever in connection with the assessment or collection of these dues

11 The *tirni* and *bua* demand lists shall be checked and verified by the Tahsildar in the Tahsil and also when on tour. The collections of *tirni* and *bua* shall be controlled in the manner laid down in Revenue Circular No 35 for the collection of ordinary land revenue These dues shall be entered in the *khataunis* and *tauzis* which are submitted to the Collector for sanction or orders

12 Statements in the form prescribed in paragraph 35 of Revenue Circular No. 35 showing the demand, collections and balances of *tirni* and *bua* shall be maintained and submitted to the Collector as therein directed.

13 The Collector of the Kohat District shall exercise control over the assessment and collection of *tirni* and *bua* as in the case of ordinary land revenue in the Teri Tahsil, and in the exercise of such control may, as appears suitable, apply any or all of the Rules under the Land Revenue Act relating to Patwaris, Kanungos and Lambardars.

M. F. O'DWYER,
Revenue and Financial Secretary to Chief Commissioner,
N.-W. Frontier Province

REVENUE COMMISSIONER'S OFFICE, NORTH-WEST FRONTIER PROVINCE

NOTIFICATIONS.

Peshawar, the 15th March 1904.

No. 510-G.—M. Ahmad Din, Political Tahsildar, Tochi, is granted privilege leave for one month, with effect from the 1st March 1904, or such subsequent date as he may avail himself of it.

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 24th March, 1904, and is hereby promulgated for general information —

ACT NO. VIII OF 1904.

THE INDIAN UNIVERSITIES ACT, 1904.

CONTENTS.

The Indian Universities Act, 1904.

(The University.—Sections 3-4. Fellows.—Section 5.)

An Act to amend the law relating to the Universities of British India.

WHEREAS by Acts II, XXII and XXVII of 1857, Act XIX of 1882 and Act XVIII of 1887 Universities were established and incorporated at Calcutta, Bombay, Madras, Lahore and Allahabad;

And whereas by Act XLVII of 1860 the Universities of Calcutta, Madras and Bombay were empowered to confer such degrees as should be appointed in the manner provided by the Act,

And whereas by Act I of 1884 the Universities of Calcutta, Madras and Bombay were further empowered to confer the honorary degree of Doctor in the Faculty of Law,

And whereas it is expedient to amend the law relating to the Universities of British India,

It is hereby enacted as follows:—

Short title and commencement.

1. (*1*) This Act may be called the Indian Universities Act, 1904, and

(*2*) It shall come into force on such date as the Government may fix in this behalf by notification in the Gazette of India or the local official Gazette, as the case may be.

Interpretation.

2 (*1*) This Act shall be deemed to be part of each of the Acts by which the said five Universities were respectively established and incorporated.

(*2*) In this Act, unless there is anything repugnant in the subject or context,—

(*a*) the term "College" or "affiliated College" includes any collegiate institution affiliated to or maintained by the University:

(*b*) the expression "the Government" means in relation to the University of Calcutta the Governor General in Council, and in relation to the other Universities the Local Government. and

(*c*) the expressions "the University" and "the Act of Incorporation" and any expression denoting any University, authority or officer or any statute regulation, rule or by-law of the University shall be construed with reference to each of the said Universities respectively.

The University.

Incorporation and powers of the University.

3. The University shall be and shall be deemed to have been incorporated for the purpose (among others) of making provision for the instruction of students, with power to appoint University Professors and Lecturers, to hold and manage educational endowments, to erect, equip and maintain University libraries, laboratories and museums, to make regulations, relating to the residence and conduct of students, and to do all acts, consistent with the Act of Incorporation and this Act, which tend to the promotion of study and research.

Constitution and powers of the Senate.

4. (*1*) Notwithstanding anything contained in the Act of Incorporation, the Body Corporate of the University shall consist of—

(*a*) the Chancellor;

(*b*) in the case of the University of Calcutta, the Rector;

(*c*) the Vice-Chancellor,

(*d*) the *ex officio* Fellows; and

(*e*) the Ordinary Fellows—

(i) elected by registered Graduates or by the Senate,

(ii) elected by the Faculties, and

(iii) nominated by the Chancellor.

(*2*) The Ordinary Fellows shall, save as herein otherwise provided, hold office for five years

Provided that an Ordinary Fellow who has vacated his office may, subject to the provisions of this Act, be elected or nominated to be an Ordinary Fellow.

(*3*) The Body Corporate shall be the Senate of the University, and all powers which are by the Act of Incorporation or by this Act conferred upon the Senate, or upon the Chancellor, Vice-Chancellor and Fellows in their corporate capacity, or, in the case of the University of Calcutta, upon the Chancellor, Rector, Vice-Chancellor and Fellows in their corporate capacity, shall be vested in, and exercised by, the Senate constituted under this Act, and all duties and liabilities imposed upon the University by the Act of Incorporation shall be deemed to be imposed upon the Body Corporate as constituted under this Act

(*4*) No act done by the University shall be deemed to be invalid merely by reason of any vacancy among either class of elected Ordinary Fellows, or by reason of the total number of Ordinary Fellows or of members of the profession of education to be included among Ordinary Fellows, being less than the minimum prescribed by this Act.

Fellows.

Ex officio Fellows.

5. (*1*) Notwithstanding anything contained in the Act of Incorporation, the persons for the time being performing the duties of the offices mentioned in the list contained in the first schedule to this Act or added to the said list under sub-section (*2*) shall be the *ex officio* Fellows of the University.

The Indian Universities Act, 1904.

(Fellows.—Sections 6-11.)

(2) The Government may, by notification published in the Gazette of India or in the local official Gazette, as the case may be, make additions to, or alterations in, the list of offices contained in the said schedule:

Provided that the number of *ex officio* Fellows shall not exceed ten.

Ordinary Fellows

6. (1) In the case of the Universities of Calcutta, Bombay and Madras, the number of Ordinary Fellows shall not be less than fifty nor exceed one hundred, and of such number—

(a) ten shall be elected by registered Graduates;

(b) ten shall be elected by the Faculties, and

(c) the remainder shall be nominated by the Chancellor

(2) In the case of the Universities of the Punjab and Allahabad, the number of Ordinary Fellows shall not be less than forty nor exceed seventy-five, and of such number—

(a) ten shall be elected by the Senate or by registered Graduates;

(b) five shall be elected by the Faculties; and

(c) the remainder shall be nominated by the Chancellor.

(3) The election of any Ordinary Fellow shall be subject to the approval of the Chancellor

(4) Elections of Ordinary Fellows by the Faculties and nominations of such Fellows by the Chancellor under this section shall be made in such manner as to secure that not less than two-fifths of the Fellows so elected and so nominated respectively shall be persons following the profession of education.

Ordinary Fellows elected by registered Graduates

7. (1) Once in every year, on such date as the Chancellor may appoint in this behalf, there shall, if necessary, be an election to fill any vacancy among the Ordinary Fellows elected by registered Graduates

(2) The Syndicate shall maintain a register on which any Graduate who—

(a) has taken the degree of Doctor or Master in any Faculty, or

(b) has graduated in any Faculty not less than ten years before registration,

shall, subject to the payment of an initial fee of such amount as may be prescribed by the regulations, be entitled to have his name entered upon application made within the period of three years from the commencement of this Act or of one year from the date on which he becomes so entitled:

Provided that, if such application is made after the expiry of either of the said periods, the applicant shall be entitled to have his name entered on payment of the said initial fee, and of such further sum as may be prescribed by the regulations.

(3) The name of any Graduate entered on the register shall, subject to the payment of an annual fee of such amount as may be prescribed by the regulations, be retained thereon, and, in case of default, shall be removed therefrom, but shall, at any time, be re-entered upon payment of all arrears.

Provided that a Graduate whose name has been already entered on the register may at any time compound for all subsequent payments of the annual fee by paying the sum prescribed in this behalf by the regulations.

(4) No person other than a Graduate whose name is entered on the said register shall be qualified to vote or to be elected at an election held under sub-section (1).

(5) A graduate registered under this section shall be entitled to such further privileges as may be determined by the regulations.

Ordinary Fellows elected by Senates

8. (1) The provisions of section 7 shall not apply to the University of the Punjab or to the University of Allahabad until the Chancellor, with the previous sanction of the Governor General in Council and by notification in the local official Gazette, so directs; and until such time the Ordinary Fellows of the said Universities, who would be elected by registered Graduates if the said provisions were in force, shall be elected by the Senate.

(2) In the case of the University of the Punjab and the University of Allahabad, there shall, if necessary, be an election, once in every year, on such date as the Chancellor may appoint in this behalf, to fill any vacancy among the Ordinary Fellows elected by the Senate.

Election by the Faculties.

9 (1) Once in every year, on such date as the Chancellor may appoint in this behalf, there shall, if necessary, be an election to fill any vacancy among the Ordinary Fellows elected by the Faculties.

(2) An election under sub-section (1) shall be held, subject to such directions prescribing the qualifications of the persons to be elected as may, from time to time, be given by the Chancellor, with a view to secure the return of duly qualified persons and the fair representation of different branches of study in the Senate.

Nomination by the Chancellor

10. Subject to the provisions of section 6, the Chancellor may nominate any number of fit and proper persons to be Ordinary Fellows

Vacating of office.

11. (1) Any Ordinary Fellow may, by letter addressed to the Chancellor, resign his office

(2) Where any Ordinary Fellow has not attended a meeting of the Senate, other than a Convocation, during the period of one year, the Chancellor may declare his office to be vacated.

The Indian Universities Act, 1904.

(Transitory Provisions.—Section 12.)

Transitory Provisions.

Election and nomination of Ordinary Fellows within one year after commencement of Act, and temporary continuance of existing University administration

12. In their application to the election and nomination of Ordinary Fellows within the period of one year after the commencement of this Act and to the current business of the University, the provisions of this Act shall be read as subject to the following restrictions and modifications:—

(*a*) In the case of the Universities of Calcutta, Bombay and Madras, the Chancellor shall, as soon as may be after the commencement of this Act, make an order directing that the Ordinary Fellows who under the said provisions are to be elected by registered Graduates, shall be elected by the elected Fellows holding office at the commencement of this Act, or by such Graduates of the University as the Chancellor may determine, or partly by elected Fellows and partly by such Graduates, and in such manner as the Chancellor may direct

(*b*) When the Ordinary Fellows mentioned in clause (*a*) have been elected, the Chancellor shall proceed to the nomination of Ordinary Fellows under section 6, sub-section (*1*), clause (*c*).

(*c*) The Ordinary Fellows mentioned in clauses (*a*) and (*b*) shall, as soon as may be after their appointment and in such manner as the Chancellor may direct, elect the Fellows who under the said provisions are to be elected by the Faculties.

(*d*) In the case of the Universities of the Punjab and Allahabad, the Chancellor shall, as soon as may be after the commencement of this Act, proceed to nominate Ordinary Fellows under section 6, sub-section (*2*), clause (*c*).

(*e*) When Ordinary Fellows have been appointed under clause (*d*), the Chancellor shall make an order directing that the Fellows who under the said provisions are to be elected by the Senate, shall be elected by the Ordinary Fellows appointed under clause (*d*), or by elected Fellows holding office at the commencement of this Act, or partly by such Ordinary Fellows and partly by elected Fellows, in such manner as the Chancellor may direct.

(*f*) The Ordinary Fellows mentioned in clauses (*d*) and (*e*) shall, as soon as may be after their appointment, and in such manner as the Chancellor may direct, elect the Fellows who under the said provisions are to be elected by the Faculties.

(*g*) An election under clause (*c*) or clause (*f*) shall be made subject to such directions prescribing the qualifications of the persons to be elected as may be given by the Chancellor, with a view to secure the return of duly qualified persons and a fair representation of different branches of study in the Senate.

(*h*) As soon as Ordinary Fellows have been nominated and elected under clauses (*a*), (*b*) and (*c*), or under clauses (*d*), (*e*) and (*f*), as the case may be, and the persons so elected have been approved by the Chancellor, the Chancellor shall declare that the Body Corporate of the University has been constituted in accordance with the provisions of this Act, and shall append to the declaration a list of the Senate, and shall forward the said declaration and the appended list to the Governor General in Council, who shall cause the declaration and list to be published in the Gazette of India

(*i*) The seniority of the Fellows included in the list mentioned in clause (*h*) shall be determined by the order in which their names appear in the list

(*j*) Until the said declaration is published under clause (*h*), the Fellows holding office at the commencement of this Act shall, together with the Chancellor and the Vice-Chancellor, continue to be the Senate of the University, and shall be entitled to exercise the powers conferred upon them by the Act of Incorporation.

(*k*) Every Ordinary Fellow elected or nominated under this section shall, unless his Fellowship is previously vacated by death, resignation or any other cause, hold office for not less than three years.

(*l*) At or about the end of the third year from the publication of the declaration mentioned in clause (*h*), the names of, as nearly as may be, one-fifth of the total initial number—

(i) of Ordinary Fellows elected under clause (*a*) or clause (*e*), as the case may be,

(ii of Ordinary Fellows elected under clause (*c*) or clause (*f*), and

(iii) of Ordinary Fellows nominated by the Chancellor,

(after deducting from the said one-fifth the names in each class which have

The Indian Universities Act, 1904.

(Honorary Fellows.—Section 13. Faculties and Syndicate.—Sections 14-15.)

previously been removed from the list mentioned in clause (*h*) by reason of death, resignation or any other cause) shall be drawn by lot from among the elected and the nominated Ordinary Fellows whose names were included in the list mentioned in clause (*h*), and those whose names are so shown shall thereupon cease to be Ordinary Fellows.

(*m*) At or about the end of the fourth, fifth and sixth years from the publication of the said declaration, the names of Ordinary Fellows shall be drawn by lot from each class of Ordinary Fellows included in the said list, in the manner provided in clause (*l*), so as to secure that, as nearly as may be, one-fifth of the Fellowships of the Ordinary Fellows so included in each class shall be vacated in each year.

(*n*) An Ordinary Fellow elected or nominated under this section, who has not previously vacated his Fellowship, shall cease to be a Fellow at the end of the seventh year from the publication of the said declaration.

(*o*) The Vice-Chancellor holding office at the commencement of this Act shall continue to hold office until the publication of the said declaration, and shall, if he is a member of the Senate as constituted under this Act, continue to hold office as Vice-Chancellor for the remainder of the term for which he was originally appointed.

(*p*) The members of the Syndicate holding office at the commencement of this Act shall continue to conduct the executive business of the University until the publication of the said declaration; and, upon such publication, the Senate shall, in such manner as the Chancellor may direct, appoint a provisional Syndicate to conduct the executive business of the University until the Syndicate has been constituted under this Act.

(*q*) The Senate as constituted under this Act may give orders for the provisional constitution of Faculties, Boards of Studies and of any Board or Committee of the Senate, pending the constitution of such Faculties, Boards and Committees in conformity with the regulations.

(*r*) University Examiners and all officers and servants of the University shall continue to hold office and to act, subject to the conditions governing their tenure of office or employment, except in so far as such conditions may be altered by competent authority.

(*s*) The statutes, regulations and by-laws of the University in force at the commencement of this Act shall continue to be in force, except in so far as the said statutes, regulations and by-laws shall be altered or repealed by competent authority.

Honorary Fellows.

13. (*1*) (*a*) A Fellow holding office at the commencement of this Act shall cease to be a Fellow.

Honorary Fellows.

(*b*) Where a Fellow included in clause (*a*) does not become a Fellow under this Act, he shall be an Honorary Fellow for life.

(*c*) Where a Fellow included in clause (*a*) becomes a Fellow under this Act, he shall whenever and so often as he ceases to be a Fellow under this Act, become an Honorary Fellow as provided in clause (*b*)

(*2*) The Chancellor may nominate any person to be an Honorary Fellow for life, who is eminent for his attainments in any branch of learning, or is an eminent benefactor of the University, or is distinguished for services rendered to the cause of education generally.

(*3*) Notwithstanding anything contained in this section, any Fellow who at the commencement of this Act is entitled as such to vote for the election of any person to be a member of any Council for the purpose of making laws and regulations or of any local authority shall continue to be so entitled as if this Act had not been passed.

Faculties and Syndicate

14. (*1*) Nothing contained in the Act of Incorporation shall be deemed to prohibit the constitution of a new Faculty or the abolition or reconstitution of any existing Faculty by the Senate under regulations made in accordance with the provisions of this Act.

Faculties

(*2*) Regulations made under sub-section (*1*) may—

(*a*) provide for the assignment of Fellows to the several Faculties by order of the Senate; and

(*b*) empower the Fellows so assigned to add to their number, in such manner and for such period as may be prescribed, Graduates in the Faculty and other persons possessing special knowledge of the subjects of study represented by the Faculty:

Provided that the number of persons so to be added to the Faculty shall not exceed half the number of Fellows assigned to the Faculty

(*3*) A person added to a Faculty under sub-section 2, clause (*b*), shall have the right to take part in the ordinary business of the Faculty, and in any election of an Ordinary Fellow by the Faculty, but shall not be entitled to take part in the election of the Syndicate.

15. (*1*) The executive government of the University shall be vested in the Syndicate, which shall consist of—

Syndicate.

(*a*) the Vice-Chancellor as Chairman,

(*b*) the Director of Public Instruction for the Province in which the head-quarters of the University are situated, and, in the case of the University of Allahabad, also the Director of Public Instruction in the Central Provinces; and

The Indian Universities Act, 1904.

(*Degrees.—Sections 16-18. Affiliated Colleges.—Sections 19-21.*)

(*c*) not less than seven or more than fifteen *ex officio* or Ordinary Fellows elected by the Senate or by the Faculties in such manner as may be provided by the regulations, to hold office for such period as may be prescribed by the regulations.

(*2*) The regulations referred to in sub-section (*1*) shall be so framed as to secure that a number not falling short by more than one of a majority of the elected members of the Syndicate shall be Heads of, or Professors in, Colleges affiliated to the University.

(*3*) If in the case of any election the question is raised whether any person is or is not a Professor within the meaning of sub-section (*2*), the question shall be decided by the Senate.

Degrees.

Degrees, diplomas, licenses, titles and marks of honour.

16. The Senate may institute and confer such degrees, and grant such diplomas, licenses, titles and marks of honour in respect of degrees and examinations as may be prescribed by regulation

Honorary degrees.

17. Where the Vice-Chancellor and not less than two-thirds of the other members of the Syndicate recommend that an honorary degree be conferred on any person on the ground that he is, in their opinion, by reason of eminent position and attainments, a fit and proper person to receive such a degree and where their recommendation is supported by not less than two-thirds of the Fellows present at a meeting of the Senate and is confirmed by the Chancellor, the Senate may confer on such person the honorary degree so recommended without requiring him to undergo any examination.

Cancellation of degrees and the like

18. Where evidence is laid before the Syndicate showing that any person on whom a degree, diploma, license, title or mark of honour conferred or granted by the Senate has been convicted of what is, in their opinion, a serious offence, the Syndicate may propose to the Senate that the degree, diploma, license, title or mark of honour be cancelled, and, if the proposal is accepted by not less than two-thirds of the Fellows present at a meeting of the Senate and is confirmed by the Chancellor, the degree, diploma, license, title or mark of honour shall be cancelled accordingly

Affiliated Colleges.

Certificate required of candidates for examination.

19. Save on the recommendation of the Syndicate, by special order of the Senate, and subject to any regulations made in this behalf, no person shall be admitted as a candidate at any University examination, other than an examination for matriculation, unless he produces a certificate from a College affiliated to the University, to the effect that he has completed the course of instruction prescribed by regulation

Existing Colleges

20. Any College affiliated to the University before the passing of this Act may continue to exercise the rights conferred upon it by such affiliation, save in so far as such rights may be withdrawn or restricted in the exercise of any power conferred by the Act of Incorporation or by this Act

Affiliation

21. (*1*) A College applying for affiliation to the University shall send a letter of application to the Registrar, and shall satisfy the Syndicate—

(*a*) that the College is to be under the management of a regularly constituted governing body,

(*b*) that the qualifications of the teaching staff and the conditions governing their tenure of office are such as to make due provision for the courses of instruction to be undertaken by the College,

(*c*) that the buildings in which the College is to be located are suitable, and that provision will be made, in conformity with the regulations, for the residence, in the College or in lodgings approved by the College, of students not residing with their parents or guardians, and for the supervision and physical welfare of students,

(*d*) that due provision has been or will be made for a library;

(*e*) where affiliation is sought in any branch of experimental science, that arrangements have been or will be made in conformity with the regulations for imparting instruction in that branch of science in a properly equipped laboratory or museum;

(*f*) that due provision will, so far as circumstances may permit, be made for the residence of the Head of the College and some members of the teaching staff in or near the College or the place provided for the residence of students;

(*g*) that the financial resources of the College are such as to make due provision for its continued maintenance,

(*h*) that the affiliation of the College, having regard to the provision made for students by other Colleges in the same neighbourhood, will not be injurious to the interests of education or discipline; and

(*i*) that the College rules fixing the fees (if any) to be paid by the students have not been so framed as to involve such competition with any existing College in the same neighbourhood as would be injurious to the interests of education.

The Indian Universities Act, 1904.

(Affiliated Colleges.—Sections 22-24 Regulations.—Section 25.)

The application shall further contain an assurance that after the College is affiliated any transference of management and all changes in the teaching staff shall be forthwith reported to the Syndicate.

(*2*) On receipt of a letter of application under sub-section (*1*), the Syndicate shall—

(*a*) direct a local inquiry to be made by a competent person authorized by the Syndicate in this behalf;

(*b*) make such further inquiry as may appear to them to be necessary, and

(*c*) report to the Senate on the question whether the application should be granted or refused, either in whole or in part, embodying in such report the results of any inquiry under clauses (*a*) and (*b*)

And the Senate shall, after such further inquiry (if any) as may appear to them to be necessary, record their opinion on the matter.

(*3*) The Registrar shall submit the application and all proceedings of the Syndicate and Senate relating thereto to the Government, who, after such further inquiry as may appear to them to be necessary, shall grant or refuse the application or any part thereof.

(*4*) Where the application or any part thereof is granted, the order of the Government shall specify the courses of instruction in respect of which the College is affiliated; and, where the application or any part thereof is refused, the grounds of such refusal shall be stated.

(*5*) An application under sub-section (*1*) may be withdrawn at any time before an order is made under sub-section (*3*).

Extension of affiliation

22. Where a College desires to add to the courses of instruction in respect of which it is affiliated, the procedure prescribed by section 21 shall, so far as may be, be followed.

Inspection and reports

23. (*1*) Every College affiliated to the University, whether before or after the commencement of this Act, shall furnish such reports, returns and other information as the Syndicate may require to enable it to judge of the efficiency of the College.

(*2*) The Syndicate shall cause every such College to be inspected from time to time by one or more competent persons authorized by the Syndicate in this behalf.

(*3*) The Syndicate may call upon any College so inspected to take, within a specified period, such action as may appear to them to be necessary in respect of any of the matters referred to in section 21, sub-section (*1*).

Disaffiliation.

24. (*1*) A member of the Syndicate who intends to move that the rights conferred on any College by affiliation be withdrawn, in whole or in part, shall give notice of his motion and shall state in writing the grounds on which the motion is made.

(*2*) Before taking the said motion into consideration, the Syndicate shall send a copy of the notice and written statement mentioned in sub-section (*1*) to the Head of the College concerned, together with an intimation that any representation in writing submitted within a period specified in such intimation on behalf of the College will be considered by the Syndicate:

Provided that the period so specified may, if necessary, be extended by the Syndicate.

(*3*) On receipt of the representation or on expiration of the period referred to in sub-section (*2*), the Syndicate, after considering the notice of motion, statement and representation and after such inspection by any competent person authorized by the Syndicate in this behalf, and such further inquiry as may appear to them to be necessary, shall make a report to the Senate

(*4*) On receipt of the report under sub-section (*3*), the Senate shall, after such further inquiry (if any) as may appear to them to be necessary, record their opinion on the matter.

(*5*) The Registrar shall submit the proposal and all proceedings of the Syndicate and Senate relating thereto to the Government, who, after such further inquiry (if any) as may appear to them to be necessary, shall make such order as the circumstances may, in their opinion, require.

(*6*) Where by an order made under sub-section (*3*) the rights conferred by affiliation are withdrawn, in whole or in part, the grounds for such withdrawal shall be stated in the order

Regulations.

Regulations

25. (*1*) The Senate, with the sanction of the Government, may from time to time make regulations consistent with the Act of Incorporation as amended by this Act and with this Act to provide for all matters relating to the University.

(*2*) In particular, and without prejudice to the generality of the foregoing power, such regulations may provide for—

(*a*) the procedure to be followed in holding any election of Ordinary Fellows;

(*b*) the constitution, reconstitution or abolition of Faculties, the proportion in which the members, other than the *ex officio* members, of the Syndicate shall be elected to represent the various Faculties, and the mode in which such election shall be conducted,

(*c*) the procedure at meetings of the Senate, Syndicate and Faculties and the quorum of members to be required for the transaction of business;

(*d*) the appointment of Fellows and others to be members of Boards of Studies, and the procedure of such Boards and the quorum of members to be required for the transaction of business;

(*e*) the appointment and duties of the Registrar and of officers and servants of the University, and of Professors and Lecturers appointed by the University,

(*f*) the appointment of Examiners, and the duties and powers of Examiners in relation to the examinations of the University;

(*g*) the form of the certificate to be produced by a candidate for examination under section 19 and the conditions on which any such certificate may be granted,

(*h*) the registers of Graduates and students to be kept by the University and the fee (if any) to be paid for the entry or retention of a name on any such register,

The Indian Universities Act, 1904.

(Regulations —Section 26)—(Miscellaneous —Sections 27-29. The First Schedule.—Ex officio Fellows of the University.)

(*i*) the inspection of Colleges and the reports, returns and other information to be furnished by Colleges,

(*j*) the registers of students to be kept by Colleges affiliated to the University;

(*k*) the rules to be observed and enforced by Colleges affiliated to the University in respect of the transfer of students,

(*l*) the fees to be paid in respect of the courses of instruction given by Professors or Lecturers appointed by the University;

(*m*) the residence and conduct of students,

(*n*) the courses of study to be followed and the conditions to be complied with by candidates for any University examination, other than an examination for matriculation, and for degrees, diplomas, licenses, titles, marks of honour, scholarships and prizes conferred or granted by the University;

(*o*) the conditions to be complied with by schools desiring recognition for the purpose of sending up pupils as candidates for the matriculation examination and the conditions to be complied with by candidates for matriculation, whether sent up by recognised schools or not;

(*p*) the conditions to be complied with by candidates, not being students of any College affiliated to the University, for degrees, diplomas, licenses, titles, marks of honour, scholarships and prizes conferred or granted by the University; and

(*q*) the alteration or cancellation of any rule, regulation, statute or by-law of the University in force at the commencement of this Act

New body of regulations.

26. (*1*) Within one year after the commencement of this Act, or within such further period as the Government may fix in this behalf,—

(*a*) the Senate as constituted under this Act shall cause a revised body of regulations to be prepared and submitted for the sanction of the Government,

(*b*) if any additions to, or alterations in, the draft submitted appear to the Government to be necessary, the Government, after consulting the Senate, may sanction the proposed body of regulations, with such additions and alterations as appear to the Government to be necessary.

(*2*) Where a draft body of regulations is not submitted by the Senate within the period of one year after the commencement of this Act, or within such further period as may be fixed under sub-section (*1*), the Government may, within one year after the expiry of such period or of such further period, make regulations which shall have the same force as if they had been prepared and sanctioned under sub-section (*1*).

Miscellaneous.

Territorial exercise of powers.

27. The Governor General in Council may, by general or special order, define the territorial limits within which, and specify the Colleges in respect of which, any powers conferred by or under the Act of Incorporation or this Act shall be exercised.

Rector.

28. (*1*) The Lieutenant-Governor of Bengal for the time being shall be the Rector of the University of Calcutta and shall have precedence in any Convocation of the said University next after the Chancellor and before the Vice-Chancellor.

(*2*) The Chancellor may delegate any power conferred upon him by the Act of Incorporation or this Act to the Rector.

Repeals

29 The Acts mentioned in the second schedule are hereby repealed to the extent specified in the fourth column thereof.

THE FIRST SCHEDULE

(*Section 5*)

EX OFFICIO FELLOWS OF THE UNIVERSITY.

The University of Calcutta.

The Chief Justice of the High Court of Judicature at Fort William in Bengal.

J. M. MACPHERSON,
Secretary to the Government of India.

IV B

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 25th March, 1904, and is hereby promulgated for general information:—

ACT NO. IX OF 1904.

THE MADRAS COAST-LIGHTS ACT, 1904.

CONTENTS.

An Act to authorise the levy of dues on vessels for the provision of lights on the coast of the Presidency of Madras.

WHEREAS it is expedient to authorize the levy of dues on vessels for the provision of lights on the coast of the Presidency of Madras; It is hereby enacted as follows:—

Short title and extent.

1. (1) This Act may be called the Madras Coast-lights Act, 1904.

(2) It extends to the whole of British India.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(a) "Customs-collector" means a Customs-collector appointed under the Sea Customs Act, 1878, and includes any person appointed by the Local Government to discharge the functions of a Customs-collector under this Act; and

(b) "ton" means a ton as determined or determinable by the rules for the time being in force for regulating the measurement of the net tonnage of British ships.

Imposition of coast-light dues.

3. (1) For the purpose of providing lights on the coast of the Presidency of Madras, coast-light dues shall be paid in respect of every vessel of the burden of thirty tons or upwards making any such voyage as is described in the schedule.

(2) The said dues shall be paid at such rates, not exceeding those respectively specified in the schedule, as the Governor of Fort St. George in Council may, with the previous sanction of the Governor General in Council, fix by notification in the local official Gazette.

(3) The said coast-light dues shall be payable only at ports in British India other than Aden and shall be paid—

(a) in the case of a vessel clearing out of a port in British India, previous to the grant of a port-clearance; and

(b) in the case of a vessel arriving from Aden or a port outside British India at a port in British India other than Aden, immediately upon her arrival in such port:

Provided that, when coast-light dues have been paid in the case of any vessel on account of the lights in the eastern or western group,

no further coast-light dues on account of lights in the same group shall be payable in respect of that vessel for a period of thirty days from the date on which such dues were paid.

Explanation.—The coast-lights on the east coast of the Presidency of Madras shall be deemed to constitute the eastern group of coast-lights, and the coast-lights on the west coast of the said Presidency to constitute the western group of coast-lights.

Collection of coast-light dues, and grant of receipt therefor

4. The Customs-collector shall levy the coast-light dues payable under section 3, and shall grant to the person paying the same a receipt in writing under his hand specifying—

(*a*) the port at which the coast-light dues are paid,

(*b*) the amount paid,

(*c*) the name, tonnage and other proper description of the vessel in respect of which the payment is made, and

(*d*) the group in respect of which the coast-light dues are paid.

Master to report arrival of vessel

5. Within twenty-four hours after the arrival in any port of a vessel in respect of which coast-light dues are payable under section 3, the master shall give notice in writing of such arrival to the Customs-collector.

Ascertainment of tonnage

6. In order to ascertain the tonnage of any vessel in respect of which coast-light dues are payable under section 3, the following rules shall be observed, namely —

(*a*) Where the vessel is registered under any law for the time being in force in British India, the Customs-collector may require the owner or master, or any other person having possession of her register, to produce such register for inspection, and, if any such owner, master or other person neglects or refuses to produce such register or otherwise to satisfy the Customs-collector as to what is the true tonnage of the vessel in respect of which such coast-light dues are payable, he shall be punishable with fine which may extend to one hundred rupees, and the Customs-collector may cause the vessel to be measured and the tonnage thereof to be ascertained; and in such case the owner or master shall also be liable to pay the expenses of such measurement and ascertainment.

(*b*) Where the vessel is not so registered, and the owner or master fails to satisfy the Customs-collector as to what is her true tonnage according to the mode of measurement prescribed by the law for regulating the measurement of British registered vessels for the time being in force, the Customs-collector shall cause the vessel to be measured, and the tonnage thereof to be ascertained according to such mode as aforesaid; and in such case the owner or master shall be liable to pay the expenses of such measurement and ascertainment.

Recovery of coast-light dues, expenses and costs.

7. Where the master of any vessel refuses or neglects to pay to the Customs-collector on demand the amount of any coast-light dues or expenses payable under this Act in respect of such vessel, the Customs-collector may seize the vessel and the tackle, apparel and furniture belonging thereto, or any part thereof, and detain the same until the amount of such dues or expenses is paid,

and in case any part of such dues or expenses, or of the costs of such seizure and detention, remains unpaid for the space of five days next after any seizure so made, the Customs-collector may cause the vessel or other thing so seized to be sold, and with the proceeds of the sale may satisfy the dues, expenses and costs (including the costs of sale) remaining unpaid, and shall, on demand, render the surplus (if any) to the master of the vessel

No port-clearance to be granted until coast-light dues, expenses and costs are paid

8. The officer whose duty it is to grant a port-clearance for any vessel shall not grant such port-clearance until her master or some other person has paid, or secured to the satisfaction of the officer, the amount of all coast-light dues, expenses and costs payable in respect of the vessel under this Act, and of any fine imposed thereunder.

Master to specify on demand ports to or from which vessel is bound

9 The master of any vessel departing from or arriving in any port in British India, other than Aden, shall, on the demand of the Customs-collector, specify to what port the vessel is bound and at what port or ports (if any) the vessel intends to call, or from what port or ports she has come.

Penalty for evading payment of coast light dues, expenses or costs.

10. Whoever, being the master of a vessel, evades, or attempts to evade, the payment of any coast-light dues, expenses or costs payable in respect of such vessel under this Act, shall be punishable with fine which may extend to two hundred rupees.

Determination of dispute as to liability to pay coast-light dues, expenses or costs.

11. Where any dispute arises as to whether any coast-light dues, expenses or costs are payable in respect of any vessel under this Act, or as to the amount of such dues, expenses or costs, the dispute shall, on application made in that behalf by either of the disputing parties, be heard and determined, in the Presidency-towns of Calcutta, Madras and Bombay, by a Presidency Magistrate, and, elsewhere, by any Magistrate exercising at the place where the dispute arises powers not less than those of a Magistrate of the second class; and the decision of such Magistrate shall be final.

12. Nothing in this Act shall be deemed to apply to any vessel belonging to, or in the service of, His Majesty or the Government, or to any vessel of war belonging to any Foreign Prince or State

Saving for certain vessels.

THE SCHEDULE.

(*See section 3*)

Vessels.	Maximum rate per net registered ton
Class I	
Steam-vessels departing from any port in the Presidency of Bombay, or from any port on the west coast of the South of India, and bound for or calling at any port on the east coast of the South of India, or *vice versâ*	9 pies on account of the western, and 9 pies on account of the eastern, group of coast-lights
Class II	
Steam-vessels departing from any port in the Presidency of Bombay, or from any port on the west coast of the South of India, bound for or calling at any port in India, east of the eighty-sixth meridian of Longitude E., and not calling at any port on the east coast of the South of India, or *vice versâ*.	9 pies on account of the western group of coast-lights
Class III.	
Steam-vessels departing from any port in the Presidency of Bombay, or from any port on the west coast of the South of India, and bound for or calling at any port outside India east of the seventy-eighth meridian of Longitude E., or *vice versâ*	9 pies on account of the western group of coast-lights
Class IV	
Steam-vessels calling at or departing from any port on the east coast of the South of India and not included in any other class.	9 pies on account of the eastern group of coast-lights

THE SCHEDULE—*contd.*

Vessels	Maximum rate per net registered ton.
Class V	
Steam-vessels departing from any port in the Presidency of Bombay and bound for the port of Tellicherry or for any port in the Presidency of Madras north of the port of Tellicherry, or *vice versâ*	5 pies on account of the western group of coast-lights.
Class VI	
Steam-vessels, not included in any other class, departing from any port in the Presidency of Bombay and bound for, or calling at, any port on the west coast of the South of India south of the port of Tellicherry, or *vice versâ*	9 pies on account of the western group of coast-lights
Class VII	
Steam-vessels, not included in any other class, calling at more than one port on the west coast of the South of India, or at more than one port on the east coast of the South of India	9 pies on account of the western or eastern group of coast-lights, as the case may be.
Class VIII	
Sailing-vessels	Half the rate which would be chargeable as aforesaid if they were steam-vessels

For the purposes of this Schedule, the expression "South of India" means any part of India south of a line drawn from Baidur on the west, to Ganjam on the east, coast of India, and the expression "Presidency of Bombay" does not include Aden.

J. M. MACPHERSON,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 25th March, 1904, and is hereby promulgated for general information:—

ACT No. X OF 1904.

THE CO-OPERATIVE CREDIT SOCIETIES ACT, 1904.

CONTENTS.

The Co-operative Credit Societies Act, 1904.

(Preliminary.—Sections 1-2. Constitution.—Sections 3-4. Registration.—Sections 5-6.)

An Act to provide for the constitution and control of Co-operative Credit Societies

WHEREAS it is expedient to encourage thrift, self-help and co-operation among agriculturists, artisans and persons of limited means, and for that purpose to provide for the constitution and control of co-operative credit societies; It is hereby enacted as follows:—

Preliminary

Short title and extent

1. (1) This Act may be called the Co-operative Credit Societies Act, 1904; and

(2) It extends to the whole of British India.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(a) "by-law" means a rule made by a society in the exercise of any power conferred by this Act, or by any rule made under this Act.

(b) "committee" means the governing body of a society to whom the management of its affairs is entrusted

(c) "member" includes a person joining in the application for the registration of a society and a person admitted to membership after registration in accordance with the by-laws and any rules made under this Act.

(d) "officer" includes a chairman, secretary, treasurer, member of committee, or other person empowered under the rules applying to any society or the by-laws thereof to give directions in regard to the business of the society.

(e) "Registrar" means a person appointed to perform the duties of a Registrar of Co-operative Credit Societies under this Act: and

(f) "society" means a co-operative credit society registered under this Act.

Constitution.

Constitution of societies.

3. (1) A society shall consist of ten or more persons above the age of eighteen years—

(a) residing in the same town or village or in the same group of villages, or,

(b) subject to the sanction of the Registrar, consisting of members of the same tribe, class or caste

(2) Societies shall be either rural or urban. In a rural society not less than four-fifths of the members shall be agriculturists. In an urban society not less than four-fifths of the members shall be non-agriculturists.

(3) When any question arises as to whether for the purposes of this Act a person is an agriculturist or a non-agriculturist, or whether two or more villages shall be considered to form a group, or whether any person belongs to a tribe, class or caste, the question shall be decided by the Registrar, whose decision shall be final.

Members of society.

4. The members of a society shall be—

(a) persons joining in the application mentioned in section 6, sub-section (1), and registered as a society under sub-section (2) of the same section,

(b) persons qualified in accordance with the requirements of section 3 and admitted by the society in accordance with the provisions of this Act and with the by-laws of the society

Provided that a person so admitted shall not exercise the rights of a member unless or until he has made such payment to the society in respect of membership or acquired such interest in the society as may be prescribed by the rules made under this Act or the by-laws of the society.

Registration.

The Registrar.

5. The Local Government may appoint a person to be Registrar of Co-operative Credit Societies for the Province or any portion of it

Registration and incorporation of societies.

6 (1) Any ten or more persons qualified in accordance with the requirements of section 3 and agreeing each to make such payment or acquire such interest as aforesaid, may apply to the Registrar to be registered as a rural or an urban society, as the case may be, and the persons by whom or on whose behalf such application is made shall furnish such information in regard to the proposed society as the Registrar may require.

(2) If the Registrar is satisfied that the persons proposing to form a society are qualified in accordance with the requirements of section 3 and have complied with the provisions of this Act and with the rules made thereunder, he may, if he thinks fit, register the society accordingly, and the society shall thereupon become and be a body corporate by the name under which it is registered, with perpetual succession and a common seal, and with power to hold property, moveable or immoveable, to enter into contracts, to institute and defend civil suits and to do all things necessary for the purposes of its constitution.

(3) Every society shall have an address, registered in accordance with the rules made under this Act, to which all notices and communications may be sent.

(4) The registered name of a society shall distinguish whether the society is rural or urban, and, if the liability of the members is limited, the word "limited" shall be added to such name.

(5) No charge shall be made for registration under this section.

The Co-operative Credit Societies Act, 1904.

(Management.—Sections 7-11. Shares and Interests of Members.—Section 12-18.)

Management.

Liability of members.

7. The liability of each member of a society for the debts of the society shall be as follows:—

(*a*) in the case of a rural society, such liability shall, save with the special sanction of the Local Government, be unlimited,

(*b*) in the case of an urban society, such liability shall be unlimited or limited as may be provided by the by-laws or by any rules made under this Act.

Disposal of profits

8. (*1*) No dividend or payment on account of profits shall be paid to a member of a rural society, but all profits made by such a society shall be carried to a fund (to be called the reserve fund):

Provided that, when such reserve fund has attained such proportion to the total of the liabilities of the society, and when the interest on loans to members has been reduced to such rates, as may be determined by the by-laws or rules made under this Act, any further profits of the society, not exceeding three-fourths of the total annual profits, may be distributed to members by way of bonus.

(*2*) Not less than one-fourth of the profits in each year of an urban society shall be carried to a fund (to be called the reserve fund) before any dividend or payment on account of profits is paid to the members or any of them.

Restrictions on borrowing.

9. A society may receive deposits from members without restriction, but it may borrow from persons who are not members only to such extent and under such conditions as may be provided by its by-laws or by rules made under this Act.

Restrictions on loans

10. (*1*) A society shall make no loan to any person other than a member:

Provided that, with the consent of the Registrar, a society may make loans to a rural society.

(*2*) Save with the permission of the Registrar to be given by general order in the case of each society, a rural society shall not lend money on the security of moveable property.

(*3*) The Local Government may, by general or special order, prohibit or restrict the lending of money on mortgage of immoveable property or any kind thereof by any society or class of societies.

Deposit of society's funds.

11. A society may deposit its funds in the Government Savings Bank or with any banker or person acting as a banker approved for this purpose by the Registrar.

Shares and Interests of Members.

Limit on capital held by member.

12. Where the liability of the members of a society is limited by shares, a member shall not hold more than such portion of the capital of the society, subject to a maximum of one-fifth, as may be prescribed by any rules made under this Act.

Provided that no member of such a society shall hold more shares than represent a nominal value of one thousand rupees.

Votes of members

13 (*1*) Where the liability of the members of a society is not limited by shares, each member shall, notwithstanding the amount of his interest in the capital, only have one vote as a member in the affairs of the society.

(*2*) Where the liability of the members of a society is limited by shares, each member shall have as many votes as may be prescribed by the by-laws of the society.

Restrictions on transfer of share or interest.

14 (*1*) A member shall not transfer any share held by him or his interest in the capital of the society or any part thereof, unless he has held such share or interest for one year at least

(*2*) The share or interest of a member in the capital of a society shall not be transferred or charged, unless to the society or to a member of the society and subject to any conditions as to maximum holding prescribed by this Act or by the by-laws or by any rules made under this Act.

Shares or interest not liable to attachment

15. Subject to the provisions of section 20, the share or interest of a member in the capital of a society shall not be liable to attachment or sale under any decree or order of a Court of Justice in respect of any debt or liability incurred by such member, and neither the Official Assignee nor a Receiver appointed under Chapter XX of the Code of Civil Procedure shall be entitled to or have any claim on such share or interest. X

Transfer of interest on death of member

16. On the death of a member, the society may pay to or transfer to the credit of the person nominated in accordance with the rules made in this behalf, or, if there is no person so nominated, such person as may appear to the Committee to be entitled to receive the same as heir or legal representative of the deceased member a sum representing the value of such member's share or interest, as ascertained in accordance with the rules or by-laws and all moneys due to him from the society, and the society shall thereupon be absolved from all liability in respect of such share or interest or other moneys as aforesaid.

Liability of past member

17. The liability of a past member for the debts of the society as they existed at the time when he ceased to be a member shall continue for a period of one year from the date of his ceasing to be a member.

Liability of the estates of deceased member.

18. The estate of a deceased member shall be liable for a period of one year from the time of his decease for the debts of the society as they existed at the time of his decease.

The Co-operative Credit Societies Act, 1904.

(Priority of Society's claim against a member.—Sections 19-20. Audit, Inspection and Inquiry—Section 21.) (Audit, Inspection and Inquiry.—Section 22. Dissolution of Society.—Sections 23-24.)

Priority of Society's claim against a member.

19. Subject to any prior claim of the Government in respect of land-revenue or any money recoverable as land-revenue or of a landlord in respect of rent or any money recoverable as rent, a society shall be entitled in priority to other creditors to enforce its claim—

Prior claim of society as against crops, agricultural produce, cattle, implements and raw material

(*a*) upon the crops or other agricultural produce of a member or past member at any time within a year from the date when seed or manure was advanced or money for the purchase of seed or manure was lent to such member or past member, in respect of the unpaid portion of such advance or loan:

(*b*) upon any cattle, agricultural or industrial implements or raw material for manufactures, supplied by the society or purchased in whole or in part with money lent by the society, in respect of the outstanding liability on account of such supply or loan.

20. A society shall have a charge upon the shares or interest in the capital and on the deposits of a member or past member and upon any dividend, bonus or profits payable to a member or past member in respect of any debt due from such member or past member to the society, and may set-off any sum credited or payable to a member or past member in or towards payment of any such debt.

Charge and set-off in respect of shares or interest of member

Audit, Inspection and Inquiry.

21. (*1*) The Registrar shall audit the accounts of each society once at least in every year.

Audit, inspection and inquiry.

(*2*) No charge shall be made in respect of any audit made under sub-section (*1*).

(*3*) The audit under sub-section (*1*) shall include an examination of overdue debts, if any, and a valuation of the assets and liabilities of the society.

(*4*) The Registrar, the Collector or any person authorised in this behalf by the Registrar or the Collector may at any time inspect the books, accounts, papers and securities of a society, and every officer of the society shall furnish such information in regard to the transactions and working of the society as the person making such inspection shall require.

(*5*) The Registrar may of his own motion, and shall on the request of the Collector, or on the application of a majority of the Committee or of not less than one-third of the members, hold an inquiry into the constitution, working and financial condition of a society, and all officers and members of the society shall furnish such information in regard to the affairs of the society as the Registrar may require.

(*6*) Where an inquiry is held under sub-section (*5*), the Registrar may apportion the costs, or such part of the costs as he may think right, between the society, the members demanding an inquiry and the officers or former officers of the society.

(*7*) Any sum awarded by way of costs under sub-section (*6*) may be recovered, on application to a Magistrate having jurisdiction in the place where the person from whom the money is claimable resides for the time being, by the distress and sale of any moveable property within the limits of the jurisdiction of such Magistrate belonging to such person.

22. A copy of any entry in a book of a society regularly kept in the course of business, shall, if certified in such manner as may be prescribed by rules made under this Act, be received, in any suit to recover a debt due to the society, as *primâ facie* evidence of the existence of such entry and shall be admitted as evidence of the matters, transactions and accounts therein recorded in every case where, and to the same extent as, the original entry itself is now by law admissible, but not further or otherwise.

Mode of proof of entries in societies' books

Dissolution of a Society.

23. (*1*) If the Registrar, after holding an inquiry under section 21, sub-section (*5*), or on receipt of an application made by three-fourths of the members of a society, is of opinion that a society ought to be dissolved, he may cancel or may refuse to cancel the registration of the society.

Dissolution.

(*2*) Any member of a society may, within two months from the date of an order made under sub-section (*1*), appeal from such order to the Local Government.

(*3*) Where no appeal is presented within two months from the making of an order cancelling the registration of a society, the order shall take effect on the expiry of that period. Where an appeal is presented within two months, the order shall not take effect until it is confirmed by the Local Government.

(*4*) Where an order made under sub-section (*1*) cancelling the registration of a society takes effect, the society shall cease to exist as a corporate body.

24. (*1*) Where the registration of a society is cancelled under section 23, the Registrar may appoint a competent person to be liquidator of the society.

Cancellation of registration of society.

(*2*) A liquidator appointed under sub-section (*1*) shall have power to institute and defend suits on behalf of the society by his name of office, and shall also have power—

(*a*) to sue for and recover any sums of money due to the society at the date of such cancellation;

(*b*) to determine the contribution to be made by the members and past members of the society respectively to the assets of the society;

(*c*) to investigate all claims against the society, and, subject to the provisions of this Act, to decide questions of priority arising between claimants;

The Co-operative Credit Societies Act, 1904.

(Exemptions from Taxation.—Section 25. Debts due to Government.—Section 26. Rules.—Section 27.)

(*d*) to determine by what persons and in what proportions the costs of the liquidation are to be borne; and

(*e*) to give such directions in regard to the collection and distribution of the assets of the society as may appear to him to be necessary for winding up the affairs of the society.

(*3*) Subject to any rules of procedure made under this Act, a liquidator appointed under this section shall, in so far as such powers are necessary for carrying out the purposes of this section, have power to summon and enforce the attendance of witnesses and to compel the production of documents by the same means and (so far as may be) in the same manner as is provided in the case of a Civil Court under the Code of Civil Procedure.

(*4*) The rules may provide for an appeal to the Court of the District Judge from any order made by a liquidator under this section.

(*5*) Orders made under this section may be enforced as follows:—

(*a*) when made by a liquidator, by any Civil Court having local jurisdiction in the same manner as the decree of such Court;

(*b*) when made by the Court of the District Judge in the matter of any such appeal as aforesaid, in the same manner as a decree of such Court made in any suit pending therein.

(*6*) Save in so far as is hereinbefore expressly provided, no Civil Court shall have any jurisdiction in respect to any matter connected with the dissolution of a society under this Act.

Exemptions from Taxation.

25. (*1*) The Governor General in Council, by notification in the Gazette of India, may in the case of any society or class of society, remit—

Power to exempt from income-tax, stamp-duty and registration-fees.

(*a*) the income-tax payable in respect of the profits of the society, or of the dividends or other payments received by the members of the society on account of profits;

(*b*) the stamp-duty with which, under any law for the time being in force, instruments executed by or on behalf of a society or by an officer or member and relating to the business of such society, or any class of such instruments, are respectively chargeable;

(*c*) any fee payable under the law of registration for the time being in force.

(*2*) A notification exempting any society from the fees referred to in sub-section (*1*), clause (*c*), may provide for the withdrawal of such exemption.

Debts due to Government.

26. (*1*) All sums due from a society or from an officer or member or past member of a society as such to the Government, including any costs awarded to the Government under section 21, sub-section (*6*), may be recovered in the same manner as arrears of land.

Recovery of sums due to Government.

(*2*) Sums due from a society to Government and recoverable under sub-section (*1*) may be recovered, firstly, from the property of the society; secondly, in the case of a society of which the liability of the members is limited, from the members subject to the limit of their liability; and, thirdly, in the case of other societies, from the members.

Rules.

27. (*1*) The Local Government may, for the whole or any part of the Province and for any society or class of societies, make rules to carry out the purposes of this Act

Rules.

(*2*) In particular and without prejudice to the generality of the foregoing power, such rules may—

(*a*) prescribe the forms to be used in applying for the registration of a society and the procedure in the matter of such applications,

(*b*) prescribe the conditions to be complied with by persons applying for registration and by persons applying for admission or admitted as members, and provide for the election and admission of members from time to time, and the amo[illegible]PHERSON, to be made [illegible]

Secretary to the Government of India

[illegible] of payment [illegible] and interests to be acquired before exercising rights of membership;

(*c*) provide for the withdrawal and expulsion of members and for the payments to be made to members who withdraw or are expelled and for the liabilities of past members;

(*d*) provide for the mode in which the value of a deceased member's interest shall be ascertained, and for the nomination of a person to whom such interest may be paid or transferred;

(*e*) subject to the provisions of section 12, prescribe the maximum number of shares or portion of the capital of a society which may be held by a member,

(*f*) prescribe the payments to be made and the conditions to be complied with by members applying for loans, the period for which loans may be made, and the amount which may be lent to an individual member,

(*g*) prescribe the proportion to the total liabilities to be attained by the reserve fund and the rate to which interest on loans to members is to be reduced, before profits may be distributed to the members of a rural society;

(*h*) regulate the manner in which capital may be raised by means of shares or debentures or otherwise;

(*i*) provide for general meetings of the members and for the procedure at such meetings and the powers to be exercised by such meetings;

(*j*) provide for the appointment, suspension and removal of the members of the committee and other officers, and for the procedure at meetings of the com-

The Co-operative Credit Societies Act, 1904.

(Rules.—Section 27.) (Miscellaneous—Sections 28-29.)

exercised and the duties to be performed by the committee and other officers;

(*k*) prescribe the matters in respect of which a society may or shall make by-laws and for the procedure to be followed in making, altering and abrogating by-laws, and the sanction to be required to such making, alteration or abrogation;

(*l*) prescribe the accounts and books to be kept by a society and provide for the audit of such accounts and the charges, if any, to be made for such audit, and for the periodical publication of a balance-sheet showing the assets and liabilities of a society,

(*m*) provide for the persons by whom and the form in which copies of entries in books of societies may be certified,

(*n*) provide for the formation and maintenance of a register of members and, where the liability of the members is limited by shares, of a register of shares;

(*o*) provide for the rate at which interest may be paid on deposits, for the formation and maintenance of reserve funds, and the objects to which such funds may be applied, and for the investment [illegible] any funds under the control of the [illegible]

(*p*) provide th[illegible] business of a society between [illegible] or past members of the society or persons claiming through a member or past member or between a member or past member or persons so claiming and the committee or any officer shall be referred to the Registrar for decision, or, if he so directs, to arbitration, and prescribe the mode of appointing an arbitrator or arbitrators and the procedure to be followed in proceedings before the Registrar or such arbitrator or arbitrators, and the enforcement of the decisions of the Registrar or the awards of arbitrators,

(*q*) prescribe the conditions to be complied with by a society applying for the financial assistance of Government; and

(*r*) determine in what cases an appeal shall lie from the orders of the Registrar, and prescribe the procedure to be followed in presenting and disposing of such appeals

(*3*) The power to make rules conferred by this section is subject to the condition of the rules being made after previous publication.

(*4*) All rules made under this section shall be published in the local official Gazette and on such publication shall have effect as if enacted in this Act

(*5*) A copy of the rules relating to a society and of the by-laws thereof for the time being in force shall be kept open to inspection at all reasonable times free of charge at the registered address of the society.

Miscellaneous.

Indian Companies Act, 1882, not to apply.

28. The provisions of the Indian Companies Act, 1882, shall not apply to societies registered under this Act.

Special power to Local Government to register any association under Act

29. (*1*) Notwithstanding anything contained in this Act, the Local Government may, by special order in each case, and subject to such conditions as it may impose, permit any association of [illegible] eighteen years to be registered as a [illegible] urban society under this Act.

(*2*) A society so registered shall be subject to the provisions of this Act to the same extent as any other society:

Provided that the Local Government may at any time by order exempt such society from any of such provisions or may direct that they shall apply to such society with such modifications as may be specified in the order.

J. M. MACPHERSON,

Secretary to the Government of India

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 25th March, 1904, and is hereby promulgated for general information —

ACT NO. XI OF 1904

An Act to revive and continue section 8B of the Indian Tariff Act, 1894

WHEREAS it is expedient to revive and continue the duration of section 8B of the Indian Tariff Act, 1894, which was added by section 2 of the Indian Tariff (Amendment) Act, 1902, but expired in virtue of sub-section (2) of section 1 of the latter Act, from the thirty-first day of August, 1903, It is hereby enacted as follows —

Revival of section 8B, Act VIII, 1894

1 Section 8B of the Indian Tariff Act, 1894, is hereby revived and continued in force with effect from the first day of April 1904

Repeal of section 1 (2), Act VIII, 1902

2 Sub-section (2) of section 1 of the Indian Tariff (Amendment) Act, 1902, is hereby repealed.

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd March, 1904 —

NO 5 OF 1904.

[*Explanation of marginal references* —

"1892" means the Military Lands Act, 1892 (55 & 56 Vict, c. 43),

"1900" means the Military Lands Act, 1900 (63 & 64 Vict., c. 56)]

A Bill to provide means for facilitating and regulating artillery and rifle practice, and for preventing danger to the public therefrom.

WHEREAS it is expedient to provide means for facilitating and regulating artillery and rifle practice and for preventing danger to the public therefrom; It is hereby enacted as follows .—

Short title

1. This Act may be called the Artillery and Rifle Ranges Act, 1904.

Power to make rules.

2. (1) The Governor General in Council may, after previous publication, make rules to facilitate and regulate artillery and rifle practice and to prevent danger to the public therefrom on—

(a) any land vested in His Majesty or belonging to a Volunteer Corps, which is for the time being appropriated for such practice,

(b) any land which the Government or a Volunteer Corps has for the time being a right to use for such practice, or

(c) any sea or tidal water or shore thereof on which any land referred to in clause (a) or clause (b) abuts, or on or over which artillery or rifle practice can be carried on from any such land

(2) In particular, and without prejudice to the generality of the foregoing power, such rules may—

(i) provide for fixing the boundaries of the area of land, sea, tidal water or shore on or over which artillery or rifle practice may be carried on;

(ii) declare the times within which such practice may be carried on,

(iii) prescribe the measures to be adopted to prevent persons from entering or remaining, or carriages, animals or vessels being brought or taken, or, by the owner or any other person in charge thereof, permitted to remain, within such boundaries at such times,

(iv) prescribe the notices to be given to the public before firing is commenced;

(v) where it is intended to carry on artillery or rifle pratice within or near the limits of any port, prescribe the notice to be given to the authorities of the port before firing is commenced;

(*vi*) authorize the arrest without warrant, and the removal, of persons, and the removal of carriages, animals or vessels, entering or being found within the said boundaries at the said times; and

(*vii*) prescribe the signals to be shown during such times and while firing is in progress.

(3) When an area to which rules made under this section apply consists of any sea or tidal water, or the shore thereof, and the boundaries of the area cannot, in the opinion of the Governor General in Council, be conveniently marked by permanent marks, those boundaries shall be described in the rules.

(4) Rules made under this section may declare—

(*a*) that any person contravening any such rule or any order issued thereunder shall be punishable with fine which may extend to fifty rupees, and

(*b*) that any carriage, animal or vessel found within the boundaries of any area in contravention of any such rule shall, on proof of such contravention, be liable on the order of a Magistrate to be forfeited to His Majesty.

(5) All rules made under this section shall be published in the Gazette of India and in such other manner as the Governor General in Council may direct.

Compensation for interference with private rights

3 If any rule made under section 2 obstructs or injuriously affects the exercise of any private right of any person in or over any land, sea, tidal water or shore, such person shall be entitled to compensation, the amount of which shall, in case of difference, be ascertained in the manner provided by the Land Acquisition Act, 1894, with respect to compensation for land acquired under that Act

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide means for facilitating and regulating artillery and rifle practice, and for preventing danger to the public therefrom. In order that the efficiency of the Army may be maintained, it is necessary that it should be able to practise under service conditions, and this cannot be done without clear ranges. Owing to the want of proper legislative authority, however, great difficulties have been experienced in keeping ranges clear so as to sufficiently protect the public during artillery and rifle practice The Bill is based, as is indicated by the marginal references, on certain of the provisions of the Military Lands Acts, 1892 and 1900 (55 & 56 Vict, c. 43, and 63 & 64 Vict, c 56).

The 17th March, 1904.

E. R. ELLES.

J M MACPHERSON,
Secretary to the Government of India

SUPPLEMENT TO

The Gazette of India.

No. 13. } CALCUTTA, SATURDAY, MARCH 26, 1904.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

GOVERNMENT OF INDIA.

FINANCE AND COMMERCE DEPARTMENT.

FINANCIAL STATEMENT FOR 1904-1905.

CONTENTS.

PART I.

PART II.

DETAILS OF ACCOUNTS AND ESTIMATES.

APPENDIX I.

ACCOUNTS AND ESTIMATES.

APPENDIX II.

APPENDIX III.

FINANCIAL STATEMENT FOR 1904-1905.

PART I.

1. With Your Excellency's permission, I will now lay before the Legislative Council the actual financial results of the year 1902-1903; our Revised Estimates for 1903-1904; and our Budget Estimates for the coming financial year 1904-1905.

2. In their briefest form, and leaving out Capital, Debt, and Remittance transactions, the figures are as follows —

	1902-1903 (Accounts).
	£
Revenue	77,434,915
Expenditure (charged against Revenue)	74,365,366
Surplus	3,069,549

	1903-1904 (Revised Estimate).
	£
Revenue	83,067,800
Expenditure (charged against Revenue)	80,356,600
Surplus	2,711,200

	1904-1905 (Budget Estimate).
	£
Revenue	80,148,600
Expenditure (charged against Revenue)	79,229,900
Surplus	918,700

Accounts, 1902-1903.

3. The final accounts of the financial year 1902-1903 show a surplus of £3,069,549, being an increase of £2,231,849 over the original Estimate which showed a surplus of £837,700, and of £331,049 over the Revised Estimate

4. On the Expenditure side, the accounts show an increase of £832,666, as compared with the original Estimate, and of £211,366, as compared with our Revised Estimate.

5. On the Revenue side, the more important differences between Accounts and Revised Estimate are under receipts by Military Department—increase of £204,390, Salt—increase of £144,405; Railways—increase of £107,500; Customs—increase of £90,936; Other Heads—increase of £57,123; and Excise—increase of £49,042. Against these rather considerable increases we have decreases under Land Revenue, and under Irrigation of £51,655 and £66,010 respectively. The result of these and other minor changes is an actual increase in revenue of £542,415, as compared with the Revised Estimate, and allowing for an increase in expenditure of £211,366, the final result is an increase of the surplus by £331,049.

Increase in the receipts by Military Department occurred partly in India and partly in England and was due, in the former, chiefly to credits taken for value of equipment, etc., supplied for Imperial service requirements abroad. The increase in England was mainly due to earlier recoveries of contributions towards pensions of Indian Native soldiers lent for Imperial service. The increase under Salt was contributed by all the provinces and is attributable to our under-estimate of payments on clearances of salt for trade stocks, during the last weeks of the year. We apprehended that traders would anticipate a reduction in the duty, and would accordingly delay clearances. The increase under Railways is the aggregate result of minor differences due to under-estimates of traffic on several lines. Under Customs, the increase occurred chiefly in Burma, Madras, and Bombay, and was due to large exports of rice, and to more

extensive imports of petroleum, silver, copper, and spirits. The increase under Other heads of Revenue occurred chiefly under Forests in Burma and Madras; that under Excise chiefly in Burma and Berar.

The decrease under Land Revenue was due to over-estimate of collection in Bombay and Burma; under Irrigation, to an over-estimate in the Punjab.

6. As regards expenditure, the more important variations in figures as between the Accounts and the Revised Estimate, are increases of £190,892 under Army Services, £169,407 under Other Public Works; £49,343 under Salaries and Expenses of Civil Departments; and of £39,151 under Railway Revenue Account; and decreases of £101,831 under Direct Demands on Revenue, and of £114,640 under provincial surpluses added to the provincial balances and charged as expenditure. These items account for the greater portion of the total differences noted.

The increased expenditure under Army Services occurred under effective charges both in India and in England, in India, under Supply and Transport, Ordnance, and Miscellaneous Services; and in England, under "Stores," due to larger payments than anticipated, on account of indents. The increase under Other Public Works was due to unexpectedly heavy expenditure in the last two months of the financial year Under Salaries and Expenses of Civil Departments, the increase occurred chiefly under Education, and was due to larger payments than were anticipated on account of grants-in-aid to certain schools. The increase under Railway Accounts was chiefly on account of working expenses on the North Western and Great Indian Peninsula Railways, and was due to increased train mileage compensated by improved earnings Savings under Assignments and Compensation, Land Revenue, and Forest, are the principal causes of the decrease under Direct Demands on Revenues The decrease under Provincial Surplus is the result of larger expenditure than anticipated in Bengal, the United Provinces, and Madras.

Revised Estimate, 1903-1904.

7. The Revised Estimate of Revenue shows an anticipated increase over the original estimate of £6,712,400 and, allowing for an increase in expenditure (including Provincial surpluses and deficits) of £4,949,900, results in a total anticipated surplus of £2,711,200 as compared with the Budget Estimate which showed a surplus of £948,700 This considerable excess surplus is due to an increase of revenue in greater or less proportion under all heads, except Telegraphs, the returns from which have unfortunately disappointed us, yielding £30,200 less than the estimate, £22,779 less than in 1902-1903, and £53,909 less than in 1901-1902.

Revenue.

8. The following are the increases in the Revised over the Budget Estimate, under the different heads, and allowing for the failure under Telegraphs, they result in a total increase of revenue of £6,712,400:—

	£
Land Revenue	152,700
Opium	1,354,900
Salt	206,700
Stamps	41,200
Excise	420,400
Customs	316,200
Other Heads	176,900
Interest	86,600
Post Office	39,400
Mint	2,345,500
Receipts by Civil Departments	190,700
Miscellaneous	40,200
Railways	1,106,100
Irrigation	161,400
Other Public Works	71,100
Receipts by Military Department	32,600
	6,742,600
Telegraphs (decrease)	30,200
Net increase	6,712,400

It will be observed that by far the most important items of increase in Revenue are under Opium, £1,354,900; Mint, £2,345,500; and Railways, £1,106,100. The increase under these three heads alone amounts to no less a sum than £4,806,500 approximating three-fourths of the total excess over the Budget Estimate.

The very important increase under Opium is due to the phenomenal rise in prices realised at sales during the past year. In view of the prices obtained during the previous year, we did not feel justified in assuming for 1903-1904, a higher price than R1,100 per chest, whereas the actual average obtained has amounted to no less than R1,462 per chest, reaching the extraordinary high level of R1,765 for the month of February last. The following figures illustrate the course of the market throughout the year.

Average sale-price of opium per chest during the financial year 1903-1904.

	R	a	p.		R	a.	p.
April	1,240	5	1	October	1,446	15	1
May	1,255	14	3	November	1,498	13	9
June	1,267	4	2	December	1,492	10	4
July	1,297	2	1	January	1,626	9	0
August	1,388	9	10	February	1,765	0	1
September	1,567	1	8	March	1,697	8	8

Average for the year R1,461-15-10.

It is absolutely impossible to foretell the course of events in the highly speculative opium market, and we are bound to be cautious in our estimates, as the course of the market depends not only on the opium crop, but also on the situation in China, which for some time past has been unusually perturbed.

As regards possible Mint profits, we must always be in the dark until requirements for coin have declared themselves, and it is quite impossible to estimate beforehand what such requirements may amount to in any particular year To exemplify the uncertainty of the demand I submit the figures showing the annual coinage of rupees in the Mints, excluding coinage to replace withdrawals of old issues, since the commencement of operations for increasing the rupee circulation :—

	R
1900-01	13,40,73,058
1901-02	3,25,87,221
1902-03	21,11,378
1903-04 (11 months only)	9,42,81,408

It will be observed that annual requirements have varied from R21,11,378 to R13,40,73,058, with a similar variation in profits It must be remembered, however, that whilst mint profits are necessarily tabulated in our revenue returns, they do not increase our available resources, as profits from rupee coinage are transferred to the Gold Reserve Fund.

The unanticipated increase in railway revenue is equivalent to approximately 5½ per cent on the estimate. In this matter also we have always to deal with uncertainties, since returns are entirely dependent on seasonable conditions affecting yield and movements of produce, and also to a greater or less extent on the prices for such produce which may prevail in European markets. I submit figures showing the fluctuations in net railway revenue returns during the last five years, including the estimates for the coming year :—

1900-1901.	1901-1902.	1902-1903.	1903-1904 (Revised).	1904-1905 (Budget).
£	£	£	£	£
325,124	846,616	228,949	854,600	354,200

The other differences in excess of anticipated revenue, though important in themselves both as regards improvement of revenue and evidence of general prosperity, are relatively of minor significance. Taking them in order of importance, the increase in Excise returns, as compared with the results of 1902-1903, somewhat exceeds £498,800, and is equivalent to an augmentation of about 21 per cent in two years, following on smaller increases in the two previous years when the stress of famine was still making itself severely felt in some parts of the country. Increase of revenue is undoubtedly in great part due to improved administration and greater attention to preventive measures, but it is also due, and probably to a very large extent, to improvement in the condition of the people. Satisfactory as is from one point of view a growth of revenue, we could not regard with satisfaction any increase which might possibly be attributed to increased consumption of alcohol in excess of the legitimate requirements of those classes among

the population to whom from long habit and custom, alcohol in moderation is a virtual necessity. There is no desire on the part of the Government of India to increase revenue by encouraging indulgence in alcohol. It is a matter in which we feel our full responsibility, which undoubtedly requires constant careful watching, and to which at the present moment we are devoting special attention in the interests of temperance and morality

Our Customs revenue, though falling short of the realizations in 1902-1903, has exceeded our expectations. Important increases are to be found under the heads of Manufactured Articles (8¼ lakhs), Spirits and Liqueurs, Sugar (ordinary duties), White and Coloured Piece Goods, and Other Metals and Manufactures of Metals. The total increase under the heads above enumerated amounts to 26 lakhs, but it is more than counterbalanced by a falling-off of approximately 9¾ lakhs on Petroleum, nearly 7 lakhs under Grey Shirtings, and other minor differences. Any decrease in revenue returns is in a sense unfortunate, but we may console ourselves as regards any loss on petroleum and cotton cloths by the reflection that there is no falling-off in the consumption of those articles, and that where duty-paying foreign imports have diminished, they have been replaced by home production.

The excess over our estimate for revenue from salt is a matter for unqualified congratulation, being almost entirely due to increased consumption Under Receipts by Civil Departments the increase occurred under 'Marine,' and was partly due to a change in accounting, and partly to recoveries on account of the employment of Royal Indian Marine vessels in connection with the operations in Somaliland.

As a matter of percentage, the increase in Land Revenue is trifling; I submit once more figures showing returns for a series of years, and it will be seen that the average annual increase since 1898-99, the last year before the ravages of famine, is approximately 1 17 per cent.—

	£		£
1898 99 . .	18,306,208	1902-1903 . .	18,436,845
1899-1900 . .	17,205,056	1903-1904 . .	19,262,400
1900-1901 . .	17,503,031	1904-1905 . .	19,591,600
1901-1902 . .	18,288,018		

The increase under Irrigation, which amounts to nearly £188,000, as compared with 1902-1903, and to nearly £419,000, as compared with 1901-1902, is in the main due to the extension of irrigation undertakings which bring direct prosperity to individuals and indirect prosperity to the State at large, the remaining items of increase are of minor importance.

Expenditure

9 Expenditure has exceeded the original estimate by £4,949,900, of this considerable excess no less a sum than £4,797,600 falls under the heads of Mint, and Provincial Surpluses and Deficits The increase of expenditure under Mint may be neglected, being fully compensated by increased receipts The increase under Provincial Surpluses and Deficits includes grants to Provincial Governments amounting to £1,726,700, of which £1,000,000 is in connection with the new provincial settlements, Bengal receiving £333,300, the United Provinces £200,000, Madras £333,300, and Assam £133,400 The variations under other heads of expenditure are of relatively minor importance, fairly balancing one another and resulting in a total increase of £152,300, the more important items are · Direct Demands on Revenue—increase £240,300, attributable to heavy expenditure on opium cultivation and establishment, in consequence of an abnormally large crop, Railway Revenue Account—increase, £292,400, due to heavier working expenses for increased traffic and increased train-mileage, and more than compensated by increased receipts; Other Public Works—increase, £97,400, due to sanction of additional grants for civil works during the course of the year; Army Services—increase, £164,400, due to expenditure for the missions in Tibet, Aden, and Seistan, partly counterbalanced by savings arising from the absence of troops in Somaliland and China; and Miscellaneous Civil Charges,—increase, £68,800, due to the writing-off of agricultural advances granted during the late famine, and which have proved irrecoverable.

The only head under which a really important decrease of expenditure is noted is Salaries and Expenses of Civil Departments £368,100; minor savings aggregating £342,500 have been realised under the heads of Interest, Post Office, Telegraphs, Famine Relief and Insurance, Irrigation and Special Defences. The excess of estimates over expenditure under Salaries and Expenses of Civil Departments in 1901-1902 was

£312,001, and in 1902-1903, £439,557, indicating apparently a regrettable tendency in some provinces to continually exaggerate requirements. Endeavours will be made to find a remedy.

Budget Estimates, 1904-1905.

10. Our estimates of receipts and expenditure for the forthcoming financial year result in an anticipated surplus amounting to £918,700, but it is to be noted that in calculating this result, allowance is made for a decrease in Provincial balances of £1,316,800.

REVENUE.

11. The principal items of estimated increase in revenue, as compared with the Revised Estimate of 1903-04, are as follows :—

	£
Land Revenue	329,200
Stamps	49,000
Excise	124,500
Other Heads	94,700
Railways	176,400

These with minor improvements under Post Office, and Irrigation, make up a total anticipated increase of revenue amounting to £794,600.

The increase in Land Revenue is largest in Burma and Madras, but it is fairly general, and is important in Assam, the Central Provinces, Berar, and Bombay. The chief cause of general increase is recovery after the recent famine; some re-settlements have however been made, and in the Punjab irrigation has been extended. Under Stamps and Excise, a normal increase has been allowed for. The increase estimated under Railway receipts is based on the anticipated improvement in traffic on certain lines, and increased working mileage.

12. On the other hand, we anticipate a falling-off in receipts under the following heads :—

	£
Opium	78,600
Mint	2,516,100
Other Public Works	68,000
Receipts by Military Department	172,500
TOTAL	3,538,200

These, with minor decreases in Salt, Customs, Interest, Telegraph, Receipts by Civil Departments and Miscellaneous Receipts, result in a total falling-off of £3 713,800

We cannot anticipate a continuance of the abnormally high prices latterly obtained for Bengal opium, and we have based our estimates for the coming year on an assumed price of R1,250 per chest, as compared with the average of R1,144-8-11 obtained in 1902-1903, and R1,461-15-10 in 1903-1904. The heavy fluctuations in this very important source of revenue are noted in the following table :—

	Average price per chest.		
	R	a.	p.
1898-1899	1,055	7	5
1899-1900	1,220	15	5
1900-1901	1,360	10	10
1901-1902	1,296	15	5
1902-1903	1,144	8	11
1903-1904	1,461	15	10
1904-1905 (Estimate)	1,250	0	0

The decrease under Mint is, as I have already noted, due to the fortuitous circumstances influencing receipts under this head.

The decrease under Other Public Works is chiefly due to special receipts from sales of buildings, and the falling-off in receipts by Military Department is mainly attributed to anticipated smaller recoveries for stores, etc., to be supplied to the Imperial Government.

EXPENDITURE.

13. The total increase in expenditure on revenue account is estimated at £1,391,300.

The more important heads of increase are:—

	£
Direct Demands on the Revenues	198,400
Post Office	116,000
Salaries and Expenses of Civil Departments	916,800
Railway Revenue Account	676,800
Other Public Works	524,500
Army Services	1,258,400
Special Defences	228,300

These with minor additions under Telegraph, Famine Relief and Insurance, and Irrigation result in a total increase of expenditure amounting to £4,028,500. The most important increase, that of £1,258,400 under Army Services, is almost wholly accounted for under the two heads of Increased Pay to British Troops, approximately £493,900, which becomes payable from April 1904, and £700,000 for new armament, guns, and rifles; the latter is fortunately a non-recurring charge There are other minor differences of increase and decrease in Military charges, but excluding the two items I have specially noted, the aggregate Military estimates do not materially exceed those of the closing year.

The large increase of £916,800 under Salaries and Expenses of Civil Departments occurs chiefly under Education, Police, Medical, and Political. Should we have another really prosperous season, additional expenditure under Railway Revenue Account will in great part be covered by increased receipts, but whereas certain expenditure is inevitable, we cannot, in framing our estimates, allow for more than normal profits to counterbalance them. The addition of £116,000 to Post Office charges is due to the progressive development of the Postal service. The increase of £524,500, under Other Public Works, is chiefly due to the expenditure to be met by Local Governments out of the special grants given to them towards the close of the current financial year, and that of £228,300 under Special Defences, to the adoption of a definite programme for improving Coast Defences. The other items of increase are of relatively small importance.

14. Against such items of increase there are decreases under the following heads:—

	£
Mint	2,385,000
Miscellaneous Civil Charges	129,700
Interest	122,500

The decrease under Mint is approximately counterbalanced by the smaller entry for receipts under the same head; that under Miscellaneous Civil Charges is chiefly due to a considerable sum, considered irrecoverable, having been written off on account of takavi advances made during the late famine.

Summary of Budget Results.

15. We may now consider the situation as regards our estimates for items classified in the Accounts as non-chargeable to revenue. We carry forward to this second part of our statement, which includes Capital and Debt transactions, Deposits, Remittances and Advances, a surplus of £918,700. Our total estimate for capital expenditure on Railways and Irrigation amounts to £8,940,900, of which sum £6,310,300 is for account of State Railways; £1,797,300 for the account of Railway Companies and £833,300 for Major Irrigation Works. In addition to the above, we have to find

£1,088,800 for discharging Permanent Debt, and £333,300 for discharging Temporary Debt. We have also to make a net payment of £1,407,500, under Deposits, Advances, and Remittances. Thus the total of our capital requirements amounts to £11,770,500.

16. To meet these requirements, we estimate that in addition to the surplus of £918,700, we shall have at our disposal a sum of £2,917,200, to be raised by Railway Companies. We further propose to increase our permanent debt by £4,500,000, including a loan of 3 crores of rupees, to be raised in India, and we also anticipate the realisation of £688,100 by addition to the unfunded debt. The above sums amount in the aggregate to £9,024,000, and the balance required to meet the total expenditure of £11,770,500 will be found by the reduction of the total of closing balances in India and England by £2,746,500.

17. The final estimated results show closing balances on March 31st, 1905, in India of £11,060,616 and in England of £4,696,287.

18. As regards the loan to be raised in India, we reserve the right to alter the amount to any extent that may appear desirable The present intention of the Secretary of State is to draw Bills to meet requirements for sterling payments to the amount of £16,500,000. This figure is omitted from both sides of the account as above summarised. Our estimate of payments during the coming year on account of Council Bills is £16,769,700.

Coinage, Currency, and Exchange.

19. During the year now drawing to a close our coinage operations have been on a very large scale, and the issues of new rupees, including recoinage of withdrawn issues, have amounted to no less than a sum of R13,94,91,408 in addition to which we coined for Native States rupees to the value of R12,15,682. I submit the figures of coinage during the last four years.—

	R
1900-1901	17,14,79,318
1901-1902	4,95,20,460
1902-1903	11,27,22,680
1903-1904 (11 months only)	14,07,07,090

20. There have been very heavy demands for currency in connection with the disposal of the bumper rice crop in Burma, the large cotton crops in Bombay and Central India, and the generally good crops of cereals and seeds. The demands for currency began this year somewhat earlier than usual, and the strain on our resources was at its height towards the close of the first week of January, fully six to seven weeks before the usual period. A certain nervous anxiety prevailed for a time in financial circles, particularly in Calcutta, induced by the rapid and unusually early decrease in the stock of silver coin held in the currency reserve, which fell on the 7th of January to so low a figure as R7,50,76,000. Although the strain came, as I have pointed out, unusually early and surprised many, Government had taken measures in good time to meet possible difficulties, and within one week from the date of low-water mark, that is by January 15th, and notwithstanding the continuance of very heavy demands, we added approximately a crore to the amount of rupees in the Currency Reserve, and by the end of February we held in the Currency Reserve approximately 10¾ crores, or about 3½ crores more than on January 7th. In this connection, I may mention that the withdrawals of rupees from the Currency Reserve during the single month of December amounted to no less than R4,05,23,000. The nearest approach hitherto to this extraordinary figure was in January 1903, when the withdrawals reached R3,77,17,000.

21. I submit a table which I think will be found of interest, showing month by month the gain or loss in the stock of rupees held in the Currency Reserve during the last four years, such gain or loss being calculated without reference to the additions which have been made from time to time by new coinage. It will be observed that the total loss during the period has amounted to approximately 21¾ crores, and I may mention that the amount of new rupees coined for Government, exclusive of recoinage of withdrawn rupees of 1835 and 1840 issues, has during the four years amounted to approximately 26½ crores. The withdrawals of rupees from the Currency Reserve do not in any way necessarily correspond with amounts of new coinage, but there will in existing circumstances be a certain general connection between them. There will only be a direct correspondence when gold is taken from the Currency Reserve to purchase silver for coinage; but silver may also be purchased from the proceeds of Council drafts, or

locally, and moreover, differences will arise on account of coinage for Native States, and coinage to replace withdrawn rupees of early issues. The two latter sources of difference have been allowed for in the following statement.—

[In thousands of rupees.]

	1900-01	1901-02	1902-03	1903-04.	Average
	Gain + loss —	Gain + loss —.	Gain + loss —.	Gain + loss —.	Gain + loss —.

22. In anticipation of the heavy demands certain to arise as the result of exceptionally good crop prospects, we had already in the month of October commenced the purchase of silver and the coinage of rupees, and when the crisis came we had considerable stocks of bullion both in the Mints and in course of delivery from England, whilst further parcels were under orders. I think that it is not sufficiently recognised by the banking and commercial community that a low stock of rupees in the Currency Reserve, which might give some reasonable cause for apprehension in the absence of preparations for a rapid increase should necessity arise, is not an indication of danger when such preparations have been made, as on the present occasion. Danger point when there has been no prevision and no preparation, is not danger point when all due precautions have been taken to meet a strain.

23. In connection with the large coinage during the last few months, I think I should take this opportunity of expressing my warm appreciation of the manner in which the Mint Masters and all those responsible for the conduct of minting operations have worked to satisfy public requirements and to maintain the high reputation of the Mint staff Work at the Mints is conducted under many difficulties owing to the fact that when coinage operations were resumed some four years ago, after a long period of comparative idleness, the machinery and appliances were found to be in many respects inadequate and unsuitable to meet the strain of very heavy work. Proposals have been under consideration for the establishment of a combined Mint with new machinery, and with all the latest improvements, but various objections have been raised to the scheme, and, meanwhile, the Mint staff are to be congratulated on their success in coping with the difficulties arising from the imperfections of existing arrangements.

24. Large as was the sale of Council Drafts during the year 1902-1903, the amount has been very greatly exceeded during the current year. It has already reached £22,592,900, and it is estimated that it will attain the altogether phenomenal figure of £23,700,000; and in addition to this quite abnormally large sale of Council Bills, the imports of gold up to the end of February reached a figure approximating 12 millions sterling

The Secretary of State by his drawings, and the Government of India by measures taken locally, have done all in their power to meet the demands of trade. The question of how this should best be done, has been and is likely still further to be, a matter for some discussion; here I would only say that I adhere to my opinion that it is impossible

to admit the direct responsibility of Government to immediately, and in all circumstances meet abnormal demands. Government have every right to expect that those who make it their special business and derive a profit from financing the trade of the country, will consider beforehand what are likely to be their requirements and make due preparation to meet the wants of their customers. We on our side will do all we can, and it is our intention in view of a probably permanent increase in demands for rupees during the winter season, to increase the standard of the stock of silver coin which it has hitherto been considered sufficient to hold in the Currency Reserve at the beginning of October, and further, to take permanent measures to enable a rapid addition to be made to that stock without the risk of delay in importing silver bullion for coinage

As regards the events of the last few months I may point out that opinions in the most competent financial circles in India were by no means unanimous in anticipating the great demand for coin which arose. As late as December 15th none of the Presidency Banks had found it necessary to raise their rate above 4 per cent, and this rate is primarily dependent on the rates at which money is being offered in the open market. by January 5th all the Presidency Banks had, however, been obliged to raise rates to 6 per cent. This very rapid rise does not appear from the figures before us, to have been in any way due to low balances held by the Presidency Banks at the beginning of the period of pressure. It was caused by the extraordinary trade demands which the Presidency Banks alone appear to have been in a position to satisfy, and I have not heard of any case in which accommodation was refused to regular customers when good security was forthcoming. Similarly, Government showed no hesitation throughout the crisis, in exchanging gold and notes for rupees when demanded I must insist on the fact that the Currency Reserve is maintained for the purpose of securing the stability of the note circulation and exchanging sovereigns, and as long as all obligations in this respect are fulfilled the public have no claim to further assistance from its resources

25. During the year, the Gold Reserve Fund has increased from £3,810,730 to £6,382,200, of which amount £6,376,500 are invested in Consols, the National War Loan, and Local Loans Stocks In addition to these resources, the last returns show a sum of £10,494,556 held in gold in the Currency Reserve.

26 Our exchange operations, as indicated by the rates obtained for Council Bills, have naturally been very favourable during the closing year The estimated average rate for the rupee for 1903-04 is 16·053*d* as compared with the rates noted below for the four preceding years ·—

1899-1900	1900-1901.	1901-1902	1902-1903	1903-1904 (Estimate).
16·067*d*	15 973*d*.	15 987*d*.	16 002*d*	16 053*d*.

Balance of Trade

27 I have been much surprised to learn that there are considerable misapprehensions abroad on the question of the balance of trade It is impossible to arrive at precise figures showing the exact situation, but I have considered all available sources of information and have had the following statement prepared · —

	1900-1901	1901-1902	1902 1903	Total of three years
	£	£	£	£
Secretary of State's budgeted drawings.	16,440,000	16,500,000	16,500,000	49,440,000
Excess value of Exports over Imports .	10,983,073	17,989,511	18,611,170	47,583,754
Deduct—Transfer of Rupee Paper to India, *net*	—908,260	1,212,670	1,152,470	1,456,880
Excess balance of Exports . . .	11,891,333	16,776,841	17,458,700	46,126,874
Add—Payments by the War Office on account of supplies furnished to China and South African Forces . .	1,471,048	521 028	153,266	2,145,342
Total excess under classification of "Exports"	13,362,381	17,297,869	17,611,966	48,272,216
Deficit over period	3,077,619	+797,869	+1,111,966	1,167,784

It will be seen that during the three years 1900-1901, 1901-1902, 1902-1903, the excess of exports over imports amounted in value to £47,583,754; from this total must be deducted £1,456,880, the value of rupee paper transferred to India, during the period, which from the point of view of trade balances must be counted as an import. The net excess value of exports over imports thus calculated, amounted for the three years to £46,126,874. But to this figure we must add a sum of £2,145,342, representing the value of stores, arms, munitions, and animals, supplied to the Home Government in connection with their requirements in South Africa and China; these supplies must be included in our exports although not tabulated in our trade statistics The addition of this sum to the balance of £46,126,874 noted above, shows for the period a net excess of exports amounting to £48,272,216. Now during the three years, the Secretary of State budgeted for Council drawings to meet the sterling requirements of Government for a total of £49,440,000. The difference between the net excess of exports and this figure, shows a balance adverse to India (or deficit) amounting to £1,167,784. It appears therefore that during the three years under consideration India received more than she paid for, the deficit having been made good by the Secretary of State's borrowings in England during the year 1900-1901, when on account of the famine, he was unable to meet his requirements by drawing to the full amount budgeted for. The Secretary of State's drawings actually *paid* during the period, amounted however to only £47,882,260, and thus, as regards actual payments, approximately £400,000 was provided in excess of requirements for payments of Council Bills, but such a difference amounting to less than one-tenth per cent of the total volume of the export and import trade during the three years, is of no account, as it is evident that neither the whole of the exports nor of the imports would be actually paid for within the period, and it is impossible to say on which side a balance might be due on account of trade operations at the close of three years, or what might be the amount of such balance

In such calculations as I have made, certain minor factors may escape observation, but I believe that the figures given, indicate the situation with sufficient accuracy for general purposes They entirely dispose of the erroneous assumption that India is paying for more than she receives under the three heads of imported goods, imported investment securities, and payment abroad of budgeted Government sterling charges.

Circulation of Currency Notes.

28. I submit the usual figures showing (1) the gross circulation of currency notes in recent years, and (2) the circulation excluding the amounts held at the Government Reserve Treasuries and by the Presidency Banks at their head offices.

[In lakhs of rupees.]

	1900-1901.	1901-1902.	1902-1903.	1903-1904 (11 months only).
STATEMENT I.				
Average	28,88	30,03	33,74	36,24
Maximum	30,78	31,86	35,72	37,70
Minimum	27,90	27,68	31,25	33,94
STATEMENT II.				
Average	23,86	23,16	25,74	28,56
Maximum	25,02	24,40	27,35	29,96
Minimum	22,85	22,39	23,93	27,44

It will be observed that the increase in the average circulation is continued.

29. We have, I am sorry to say, not yet received the new forms for the universal 5-rupee note, but I hope that they may soon be issued; meanwhile the existing note has been made negotiable everywhere except in Burma. So far, it cannot be said that the

increase in the circulation of five-rupee notes can with certainty be attributed to the new arrangement; it is perhaps somewhat early to expect great results, and the figures which I give below only show that the increase in the circulation of five-rupee notes has kept pace with the total increase in all denominations. Much might, I think, be done towards popularising small notes by those who pay monthly wages in small sums, and who would, I think, find it convenient to themselves to use five-rupee notes in making such payments —

Average Gross Circulation of Currency Notes. (Except in Burma)

[In lakhs of rupees]

Year	Notes of all Denominations	Five rupee notes.
1901	29,06	36
1902	31,61	40
1903	34,05	45

Presidency Banks

30 Our negotiations with the Presidency Banks have been continued, and I can only express my regret that they have not so far terminated in arrangements satisfactory to both parties, but I have I think good reason to hope that a definite agreement will not be long deferred. I submit a statement of Government balances held by the Presidency Banks during the busy months of the year, noting also the amounts which Government are under obligation to hold in deposit with the banks at their head offices :—

	Lakhs
Calcutta	35
Bombay	20
Madras	18
TOTAL	73

Government Balances with the Presidency Banks.

[In thousands of rupees.]

MONTH.	1899.	1900.	1901	1902	1903	1904
January	2,73,84	2,48,75	2,64,54	2,85,89	3,07,63	2,69,52

Foreign Tariffs.

31. The question of the influence of foreign tariffs on Indian trade has recently been brought into special prominence by the discussion which has been proceeding in the United Kingdom. The views of the Government of India have been set forth and communicated to the public in the published despatch addressed to the Secretary of State, dated the 22nd October 1903, and I do not think it is necessary for me to add any further observations on this occasion. We are, however, obliged from time to time to consider the immediate effect of changes made in foreign tariffs adverse to the interests of our export trade. Last year I noted the difficulties which had arisen under the new Persian tariff, as also that specially affecting our coffee planters in connection with the French tariff, and the prejudice caused to indigo interests by the change in the Japanese tariff, which appears specially to favour the imports of the synthetic product. On this latter point, negotiations are proceeding with the Japanese Government, and I trust that a satisfactory arrangement may be concluded. To the above list of questions, I have now to add that which has arisen in connection with the imposition by the Russian Government on Indian teas of practically prohibitive duties on imports into Russia *viâ* the Black Sea ports. So far, the number of questions which arise in

connection with foreign tariffs are relatively few, but I fear that as industries in this country develope the pressure of protective tariffs in foreign countries will make itself steadily and more severely felt.

Countervailing duties on Sugar

32 I give below figures of quantities of imports of sea-borne sugar into British India:—

COUNTRY	1899 1900	1900-1901.	1901-1902	1902-1903	1903-1904 (10 months only).
REFINED	Cwt.	Cwt.	Cwt.	Cwt.	Cwt.
United Kingdom	65,424	119,272	188,300	314,777	615,842
Austria-Hungary	777,821	1,321,310	2,257,928	888,018	45,262
Germany	60,526	401,980	577,139	145,666	4,596
Mauritius	1,417,115	2,085,156	1,759,203	1,915,664	1,954,138
China-Hongkong	316,975	487,439	182,564	568 452	335,950
Java	190,553	225,247	310,592	573,666	1,153,164
Straits Settlements	79,999	144,166	62,486	207,810	217,638
Belgium	766	1,467	2,055	186,543	99,047
Holland	311	400	500	79,127	82,139
Other Countries	26,502*	55,199*	87,336*	107,128*	368,087*
TOTAL	2,935,992	4,841,636	5,428,103	4,986,851	4,875,863

* Includes figures for Fgypt and Ceylon

The points specially worthy of notice in this table are the increase of importations from the United Kingdom and Java which has been remarkable, and the great decrease practically amounting almost to cessation of imports from Austria-Hungary and Germany The total importation in 1903-04 is slightly below the average, which for the last four years may be taken as approximately five million cwt It will be at once apparent that the policy of imposing countervailing duties resulted in great encouragement to imports of sugar from those countries which give no bounties, with a corresponding reduction in importations from those which have been artificially protecting their sugar industries.

33. The decisions of the Brussels Conference are now in force, and their execution is entrusted to a permanent committee on which the United Kingdom is represented The position of the Government of India in connection with this arrangement is unfortunately complicated and involves a constant necessity of taking most difficult decisions An opinion recently given by the law officers of the Crown and communicated as an instruction to the Government of India by the Secretary of State, shows that we are unfortunately not so entirely free from the effect of the Brussels arrangements as we had supposed, and this opinion obliged us to cancel at short notice, the arrangements which we had supposed ourselves at liberty to make and which were embodied in the Act passed in Simla in August 1903, but we still endeavour to maintain the principle that countervailing duties shall be imposed on all imports of sugar profiting by direct or indirect bounties in the country of production Our object has throughout been to secure fair play for the very important Indian sugar refining industry, without offering any other protection than naturally arises from our ordinary 5 per cent duty, on foreign imports and the charges for freight, etc., between the country of origin and the Indian ports. It may not always be possible fully to maintain this principle in practice, since it is almost impossible to ascertain the existence of indirect bounties in the manifold forms in which the foreign sugar refiners succeed in securing them, and I am inclined to fear that the Brussels Committee who are in a position to pronounce authoritatively on the matter, and to whose decisions weight must be attached, are prone to take what appears a somewhat lax view on the all important question of what constitutes or does not constitute a practical bounty. We now propose to take the only step which appears for the moment to be open to us by passing a fresh legislative enactment to renew the power of the Government of India to meet by countervailing duties such trade combinations as may have the effect of bountifying the exports of sugar from foreign countries.

34. The net receipts from countervailing duties during the last four years have been as follows:—

	£
1899-1900	56,783
1900-01	140,465
1901-02	244,398
1902-03	73,360
1903-04 (Revised Estimate)	—21,324 (Refunds)

Army Services.

35. We still pursue our aim of increasing the efficiency of our defensive military forces, more especial attention being paid to questions connected with armament, stores, supply, transport, and mobilisation I give the figures of net expenditure during the last five years, including the estimate for the coming financial year —

	£
1900-1901	14,265,525
1901-1902	14,786,342
1902-1903	16,221,402
1903-1904 (Revised Estimate)	16,784,100
1904-1905 (Budget Estimate)	18,215,000

36 The recent heavy increase of expenditure is in itself very regrettable I can only say that the advice of the most expert military authorities shows it to be inevitable, and that it is small as compared with the charges accepted by other powers whose persistent and deliberate advance towards our Indian frontier obliges us to take precautionary measures. It is unnecessary here, and it would be out of place for me to venture on any discussion of purely military questions—they can only be properly appreciated by military experts, but the hurried extension of railways towards our frontiers and the general signs of the times are obvious to all men

This year we have devoted a specially large sum to expenditure on armament, and particularly for the re-armament of the artillery with the most modern and effective weapons, it having been decided at home that India must be allowed priority of supply in the matter of new armament. This priority of supply involves priority of payment, and consequently we have been obliged to provide in our estimates the extraordinary sum of £700,000 for armaments.

There is one item in our military expenditure which causes no regret, but on the contrary is in many respects a matter even of congratulation, I allude to the considerable sums to be expended on ordnance factories. I submit a statement showing the sums allotted and spent to date on different establishments.—

Name of Factory	Total amount of estimate.	Estimated expenditure to 31st March 1904	Grants allotted for 1904-1905.
	£	£	£
Cordite Factory, Wellington	201,250	210,883	2,000
Rifle Factory, Ishapore	235,333	182,356	40,000
Gun Carriage Factory, Jubbulpore	182,938	111,179	45,000
Ishapore Rolling Mills	170,938	85,630	76,788
Gun Factory, Cossipore	13,000	7,000	5,600
TOTAL	803,459	597,048	169,388

Above figures are exclusive of establishment charges.

This expenditure will directly benefit the Indian tax-payer by lessening the cost of war material, it will also provide for the education in mechanical trades of a large number of labourers and artisans. The Cordite Factory at Wellington is about to commence work, and we anticipate that the Rifle Factory at Ishapore will be working before the close of the coming financial year, and that manufacture will commence in the Gun Carriage Factory at Jubbulpore, the Rolling Mills at Ishapore, and the Gun Carriage Factory in Cossipore, in the first half of 1905.

Public Works.

37. The following figures show the comparative capital expenditure on railways for five years: including the estimate for 1904-1905:—

	1900-1901.	1901-1902.	1902-1903	1903-1904 (Revised Estimate).	1904-1905 (Budget Estimate).
	£	£	£	£	£
Open lines including rolling stock.	3,521,489	2,350,510	3,211,634	2,658,733	4,057,800*
Lines under construction—					
(A) Started in previous year	1,671,013	3,393,756	3,016,666	3,408,000	3,333,000
(B) Started in current year	122,266	170,933	476,764	480,400	609,200
TOTAL	5,317,768	5,915,199	6,705,064	6,547,133	8,000,000

* Includes £400,000 for acquiring four railways.

38. On March 31st, 1903, the total length of open railways was 26,308 miles classified as follows:—

5' 6" gauge	14,306
Metre gauge	11,205
Special 2' 6" and 2' 0" gauges	797
TOTAL	26,308

We have added to this during the current year:—

5' 6" gauge	218
Metre gauge	343
Special narrow gauges	277

or an increase of 838 miles, and we anticipate adding approximately another 608 miles during the coming financial year.

We have every reason to be satisfied with the previous results of the development of railway communications, and we have therefore full confidence in the great advantage of extending our railway mileage. If we could command the required capital for further construction, on reasonable terms, we should not hesitate to accelerate progress, and I trust that some solution may be found of the difficulties encountered in this respect.

Provincial Settlements.

39. An important step has been taken during the past financial year in connection with the question of Provincial Settlements. In 1871 a great reform was inaugurated by Lord Mayo by the introduction of a system of provincial finance, having for its object to secure to the provincial authorities greater independence and control over expenditure. The system then introduced was revised in 1877 with the object of removing certain defects which had been disclosed by experience, and from that date until now it has been customary to revise the settlements every five years, the primary object of such revision having been to secure to the Central Government what might be considered their fair proportion in the growth of assigned revenues. In the earlier revisions, considerable reductions were made in the assignments, but on the occasion of the last, in 1897, the aggregate change was insignificant, reductions in certain provinces having been approximately balanced by increases allowed in others.

It cannot be said that the system of quinquennial revisions proved satisfactory, for with such a short period of settlement, it inevitably occurred that in the first year of the term the Local Government was necessarily feeling its way under new conditions and cautious about expenditure, whilst in the last year, if, as was generally the case, balances were large, there was a natural tendency to extravagance, lest the terms of a new settlement might reduce resources for expenditure.

The object of the arrangements now proposed is to give as great permanence as possible to settlements, so that Local Governments may be able to form plans involving

expenditure, with greater certainty as to future means of providing for their execution, and at the same time have a more permanent interest in the growth of assigned revenues. It is evident that the Imperial Government cannot undertake any absolute obligation to maintain at all times a definite proportion between the share of increase of revenues, assigned to provincial administration and that which it is necessary to retain to meet the growth of Imperial expenditure, and it must always reserve the right to make either special temporary, or more permanent reductions from provincial revenues, if the exigencies of the State should require such measures. It must also be borne in mind in apportioning shares of revenue to different provinces, that a larger proportionate assignment is required in the more backward provinces than in those which are older established and more highly developed. Subject to such considerations every effort has now been made to treat Provincial Governments with reasonable liberality, and it is to be hoped that from this point of view they will find the new settlements equally satisfactory both at the outset and in future working. For the present the new system will be applied only to the provinces of Bengal, Madras, Assam, and the United Provinces. It is proposed to extend it in 1905-1906 to Bombay, the Punjab, and probably the Central Provinces, but it has been thought undesirable to enter into new arrangements with these until the lapse of another year, and the re-establishment of a normal financial situation which was entirely dislocated by recent famines.

We have been obliged to consider with special care, the proportions of revenue to be assigned since any undue liberality in a settlement, which it is desired should be of long duration, would, even without abnormal circumstances, inevitably lead to a necessity for revision at a relatively early date, to enable Local Governments, pending the realisation of increased resources through the natural growth of the assigned revenues, to meet certain immediate requirements, in easy circumstances, it has been decided to accompany the new conditions by large initial grants amounting for the four provinces now dealt with to an aggregate of 150 lakhs

It is unnecessary to enter here on questions of detail in connection with the new arrangements. Full details are given in the appended statement by the Secretary in the Finance Department.

Remission of Taxation.

40. Last year we were able to announce an important remission of taxation under the heads of Salt and Income Tax, which was estimated to result in a possible loss of £1,393,000 of annual revenue I am happy to be able to state that the actual loss under the two heads has proved somewhat less than the maximum we anticipated Under Salt we have lost £1,024,405, and under Assessed Taxes, which for practical purposes may be taken as representing Income Tax, we have lost £195,928 or a total under the two heads of approximately £172,667 less than we allowed for.

41. The real test of the result of the reduction of salt dues must be sought in the progress of consumption. I give the figures for the last four years of the quantities in maunds on which duty was paid, prior to delivery for consumption They are as follows :—

1900-1901	36,151,040
1901-1902	36,045,172
1902-1903	36,876,782
1903-1904 (Revised Estimate) . .	37,306,000

It will be observed that the increase over quantities in the previous year, is estimated at 429,218 maunds. This may be taken as roughly indicating a corresponding increase in consumption, which would undoubtedly have been greater had not salt stocks in the Bombay Presidency been damaged so seriously by a cyclone in the month of May last, that a scarcity ensued, considerably raising prices in that part of India and thereby unduly checking consumption.

It must be remembered, however, that the figures representing the number of maunds on which duty has been paid in any particular year, do not accurately represent the consumption, since, particularly in regard to salt imported from abroad, there is a certain element of chance, independent of actual consumption, in the number of maunds on which traders may decide to pay duty at any particular date or season; but, if we take a period of two or three years and compare it with another similar period, a comparison of the quantities on which duty has been paid will correctly indicate the position We must therefore wait for at least another year, so as to be able to take two years

together under the new conditions, and to say for certain what has been the precise effect of the reduction of the duty by 8 annas Meanwhile, we have made enquiries from the Local Governments on the subject, and from the reports of the officers consulted, it seems quite clear that the reduction in the tax had an important and almost immediate effect in reducing the price of salt in those parts of the country where no abnormal circumstances intervened The reports furnished are fairly unanimous in their conclusion that an immediate gain as regards the number of seers purchaseable for a rupee was secured by consumers who were in a position to buy salt by the seer, while it is generally held that a smaller, though direct, gain was also secured by all who were in a position to purchase salt by weight and as a commodity by itself. Unfortunately, however, it would not appear that the natural reduction in price has so far fully reached those consumers of the poorest classes who take their salt in doles from the buhniahs along with other articles It may be anticipated that in due course the influence of competition will make itself felt in favour of the last class also

42. As regards the Income Tax, there can be no doubt that the intended benefit was directly secured by all classes entitled to it, and the difference between the estimated loss and that which has actually been incurred, may properly be ascribed to the natural growth in this source of revenue, due to the increasing prosperity of the class affected, and also to improving administration.

43. I have observed with regret, though without surprise, that the concession already given has led to fresh suggestions that the tax should be abolished altogether. The total abolition of the Income Tax is, in my opinion, quite outside the range of practical politics The Government of India is unlikely ever to be able to afford the great sacrifice of revenue which a total abolition of the tax would involve, unless compensation were found in some other direction, and if at a future date further remission of taxation should appear advisable, there are other classes of the community whose claims for consideration appear to be very much stronger than those of the wealthier section who are the principal contributors of Income Tax Moreover, whilst this tax is paid exclusively by the class deriving, perhaps, the greatest benefits from the administration towards the cost of which it contributes, it is one which automatically adjusts itself to the means of the tax-payer I have only heard one even *primâ facie* plausible objection to the Income Tax, and that is that whilst the profits of business vary from year to year, the tax falls on lean or deficit years with the same severity as regards percentage, as on the profits of good years But this objection falls to the ground if the provisions of the law regulating the incidence of the tax are considered, since under those provisions the tax-payer has the option of being taxed either on the profits of the actual year or on those of the preceding year, whichever may be less.

Economic Progress.

44. Our reports and returns show that India is now happily free not only from famine, but to a great extent from the effects of famine even in the more sorely tried provinces and districts Two successive years of very generally good harvests throughout the country have had a marvellous effect in restoring material prosperity, although it could not be expected that they should suffice entirely to wipe out losses, particularly where the prolonged droughts resulted in very heavy mortality among cattle.

45 Plague, alas! is still with us, and the death rate shows no sign of diminishing. Not only does this terrible pestilence, which claims its victims by hundreds of thousands a year, render happy homes desolate, but it is, and must continue to be, a cause of prejudice and dislocation to trade and industry, though perhaps less so than in earlier years, since the people have become accustomed to its appearance and are more ready to continue their daily avocations in spite of its ravages. Still, as an example of its effect, I may mention that during the violent outbreak in Cawnpore last November, both the mills and the Government harness factory in that important industrial centre found it most difficult to keep their hands together and were in many cases working under very serious difficulties, whilst I fear that in some establishments actual loss was incurred. In spite, however, of such misfortunes as I have alluded to, we are justified by the consideration of all relative facts and figures, in holding that the country continues to make very satisfactory progress as regards general development of material prosperity. Last year I gave as an important indication of such progress, the figures of revenue for four years, under the heads of Salt, Excise, Customs, Post Office, and Stamps. I now repeat these figures, substituting the revised estimate for 1903-1904 for

the accounts 1899-1900, and accounts for 1902-1903 for the revised estimate in that year :—

	Accounts, 1900-1901.	Accounts, 1901-1902.	Accounts, 1902-1903.	Revised Estimate, 1903-1904.
	£	£	£	£
Salt	5,967,034	5,939,310	6,184,405	5,160,000*
Stamps	3,342,948	3,446,406	3,473,711	3,588,100
Excise	3,937,202	4,076,681	4,426,642	4,925,500
Customs (excluding countervailing duties and silver)	3,131,223	3,358,870	3,579,116	3,634,200
Post Office	1,357,156	1,383,709	1,429,935	1,480,800
TOTAL	17,735,563	18,204,976	19,093,809	18,788,600

* Decrease due to the reduction in the rates of duty. According to old rates of duty the revenue would have been approximately £6,350,000.

The rate of progress as indicated by the figures is clearly very satisfactory, but I must call attention to the fact that the returns have been increased in 1902-1903 and 1903-1904 by the addition of Berar revenues The totals revised to exclude Berar figures, and taking salt duties at the old rate, would stand as follows —

1900 1901	1901-1902.	1902-1903.	1903-1904.
£	£	£	£
17,735,563	18,204,976	19,002,786	19,793,500

These figures appear to me to offer the most incontestable evidence of steadily maintained and increasing prosperity.

As I mentioned last year, land revenue is deliberately omitted from this table, since returns from this source are from time to time abnormally affected by revisions of settlements, and the bringing under settlement of newly irrigated and cultivated lands, as also by remissions made to facilitate recuperation in specially afflicted areas, also, I should again call attention to the fact that the progress of the Post Office returns is frequently adversely influenced by changes in the nature of concessions and reductions in rates charged

46. Another very important indication of the situation is offered by the growth of deposits in the Post Office Savings Banks and in the Presidency Banks, as also by the investments in Government stocks made through the agency of the Post Office. I submit figures under these heads.

Growth of private deposits in the Presidency and Joint Stock Banks and in the Postal Savings Bank

BANKS.	1899	1900	1901.	1902.	1903.
	£	£	£	£	£
Presidency Banks	7,470,166	8,504,217	9,815,765	11,798 852	12,113,135
Joint Stock Banks	4,894,959	5,306,364	5,898,656	6,846,845	7 262,957
Postal Savings Banks	6,285,336	6,430,964	6,695,505	7,121,415	7,614,369
TOTAL	18,650,461	20,241,545	22,409,926	25,767,112	26,990,461

NOTE.—The figures for the Postal Savings Banks are the balances on the 31st March of each year, whilst the figure for the Presidency and Joint Stock Banks are the balances on the 31st December.

Investments in Government securities made through the Agency of the Post Office.

	1898-99.	1899-1900.	1900-1901.	1901-1902.	1902-1903.
Number of investments .	603	516	557	527	556
Nominal value of investments . . £	27,887	22,667	26,493	25,287	25,487

47 I now turn to the question of agricultural development. I trust that in doing so once a year, I may not prove wearisome, but I desire to insist on the fact that it is before all things, the prosperity of the agricultural population on which the general economic prosperity and financial stability of this country must depend. I must remind Honourable Members that executive action in connection with this question is in the province of my Honourable Colleague in charge of the Revenue and Agricultural Department, but progress and success are, and always must be, the deepest concern of the Department responsible for revenue returns

I am glad to know that more has been done by Government for the development of agriculture than appears to be generally recognised by the public A few weeks ago a Government Resolution was published giving in outline the arrangements now being carried out for the establishment of a first class agricultural institution at Pusa, at very considerable cost. Personally, I cannot but welcome the heavy demands for expenditure on that institution, since I firmly believe that under the able guidance of such thoroughly practical and scientific men as Dr Mollison, the Inspector General of Agriculture, and Mr Coventry who has been named Principal of the establishment, our expenditure will be returned some hundredfold , and it is a real happiness to think that whatever advantages may accrue to the fisc through their success, such advantages being dependent on, must necessarily be accompanied by, a corresponding amelioration in the condition of the agriculturist, that is of the great bulk of the population of this Empire

48 In dealing with a conservative population, we cannot, particularly in agricultural matters, expect startling, immediate improvements. The Indian ryot profiting by the accumulated experience of centuries, has been pronounced by competent Europeans who have closely studied his methods, to be a first class agriculturist within the limits of the situation in which he finds himself He is both intelligent and practical, and though averse to change, he has shown himself by no means unwilling to adopt real improvements suited to his circumstances, when by example he has been shown the indubitably satisfactory results of their adoption What we desire is that he should profit not only by his own experience and that of his forefathers, but also by that acquired by the application of scientific principles in foreign lands necessarily beyond his ken , and, moreover, it must be remembered that the extent of this great Indian Empire and the variety of conditions prevailing therein are such that, pending that interchange of information and thought which is to-day non-existent among the agricultural classes, the experience of the east cannot penetrate to the west, nor that of the centre to the frontiers We must avoid haste to force new ideas, but we must aim at the introduction of improved varieties of staple products, and of crops grown in one province, into another where they seem likely to succeed; at inculcating the value of good qualities of seed, of certain more readily procurable manures, of chopping fodder, of ensilage, and of improving breeds of cattle, we must teach the treatment of crop and cattle diseases, and exemplify the utility of some of the simplest agricultural implements.

49. The recent extraordinary speculation in cotton in America has drawn the attention of those connected with cotton manufacture in all parts of the world, to the necessity of increasing the area of supply of the raw article, and naturally many eyes have been turned to India as a country where everything points to the possibility of great development of supply and improvement of quality From certain paragraphs in the press, it would appear to be assumed that the Government of India has hitherto remained blind to the importance of this question, but I can state from personal knowledge that such is not the case. Since he entered on his present duties, and indeed long before that date, Dr. Mollison has been devoting his attention and energy to the improvement of the quality of our Indian cotton. I have myself seen some of his experiments in producing new hybrids and in cultivating different varieties from imported seeds, at the Government agricultural farms at Poona and Cawnpore. My opportunities of personal observation have naturally been restricted, but they have been sufficient to convince me that the question is receiving the most earnest attention, that important knowledge has been acquired, and that we may well hope in due course to arrive

at valuable, practical results. In the Central Provinces, Mr. Sly, the energetic Commissioner of Settlements, to whose valuable work I referred last year, continues to be able to report good progress. 'Satisfactory results continue to be obtained from the working of the demonstration farms The cultivation of cotton and jawar has been introduced in districts where hitherto it did not exist. Cultivators are beginning to adopt improved methods; the picking of seed for the eradication of smut in jawar is now practised successfully in certain districts, and extermination of grasshoppers has, as a result of practical demonstration in some districts, been successfully undertaken in others. Selected seeds of good varieties have been distributed through the District Agricultural Associations, several of which bodies have done really good work. Cattle breeding is receiving attention with the object of distributing good bulls. Cotton growing has also been encouraged on suitable lands, and as a result of such encouragement and greatly increased prices, the area under cotton in 1902-1903 was 18 per cent larger than in the preceding year and 66 per cent above the decennial average. Apparently it does not pay to carry cotton more than fifty miles by road to a mill or railway, and feeder lines are said to be a desideratum to induce still more extensive cultivation The number of paying subscribers, mostly cultivators, to the monthly Agricultural Magazine has increased to 1,800, and 1,800 copies have already been sold of a small work in the vernacular containing a re-print of matters of permanent interest published in the first issues of the monthly magazine.

50 I may add that in Madras attention has lately been turned to the possibility of minor irrigation by means of wells from which the water is drawn by oil engines and wind mills, and there is every reason to believe that the experiments, particularly those with oil engines, will lead to practical and useful results.

51. High prices of American cotton have already resulted in an increased European demand for Indian cotton, and Japan has also been an important buyer India can well afford to sell its cotton at relatively lower rates than those prevailing for the American article, and it may reasonably be anticipated that as continental buyers become more accustomed to look to India for their supplies, and if, to our supplies of short-stapled cotton, which has its special uses and markets, we add a long-stapled variety, the export trade will still further develope to the great profit of both the agriculturist and the trader, and let me here say that the trader can make no profit which is not shared by the agriculturist under present conditions in this country, their interdependence is absolute

52. The export of tea continues to increase and the shipments for the past season, up to the end of February, are estimated at 200 million pounds, as compared with 174 and 175 million pounds in the two preceding years. The growth of exports to the United Kingdom has not been as considerable as might have been anticipated in normal circumstances, and it is believed by those specially interested in the trade that it has been somewhat checked by the heavy additional duty imposed on imports into Great Britain. We have recently heard unofficially that the Colonial Government has decided to admit imports of Indian tea into New Zealand, free of duty, and we may hope that such a concession will materially encourage consumption. A very satisfactory feature in the export trade has been the increase from 8¾ million pounds exported to America and 'other foreign markets' in 1901-1902, to 22¾ million pounds exported in 1903-1904; the 'other markets' include Russia, to which country the quantities exported are rapidly increasing. It may be hoped that means will be found still further to develope this most important trade, but for the moment it has received a check through the blocking of the Siberian Railway, and the increase in the already enormous duty levied on tea imported *viâ* the Black Sea. This increase must always tell against Indian teas and in favour of the Chinese leaf. When the trade was conducted through the Black Sea ports, India had the advantage of the lower freight from Calcutta to Odessa, as compared with that from Shanghai to Odessa, whilst by the Siberian routes, a corresponding advantage is secured by the Chinese teas. In this connection, I may mention that the production in India and sale of green teas are rapidly increasing, affording a new branch of development in the general trade.

It may I think reasonably be anticipated that the efforts of the Tea Cess Committee will lead in due course of time to considerable development of sales, both in foreign markets and for home consumption in India, and Government willingly gave the assistance sought for by the Tea Association in the matter of establishing a tea cess.

Prices, I regret to say, have not been so remunerative as desirable during the last few years, but this circumstance has had a wholesome effect which will bear good

fruit in the future, in checking undesirable extension of plantations on unsuitable lands. During the past season good prices were once more secured; the following figures show the fluctuations during the last six years :—

Calcutta Sales.

				R	a.
1898-1899	561,336	packages, average		5	8
1899-1900	560,719	do.	do.	5	11
1900-1901	571,948	do.	do.	5	3
1901-1902	534,923	do	do	5	5
1902-1903	561,271	do.	do.	5	3
1903-1904 (up to February 25)	609,326	do.	do.	5	10

53. The future of indigo is still a question of deep concern, and although I fear that those who have been disappointed at the prices obtained during the past season may not readily agree with me, I cannot admit that there is real ground for despondency. On the contrary, continued steady perseverance on right lines would appear alone to be required to enable natural indigo, the produce of India, to hold its own with synthetic indigo This is a purely business question and one which must be considered with due regard to facts, and facts only It is a fact that when synthetic indigo was first introduced, the price asked was 17 pence per pound, and that the price has steadily declined to the present average of about 8 pence per pound. This is a very heavy fall, and I would urge attention to the fact that the manufacture of synthetic indigo was started on the basis of a price of 17 pence per pound, and that the manufacturers have suffered at least equally with the indigo planters by the great reduction in price due to competition Now I ask what would have been said ten years ago if it had been suggested to the indigo planters that they would have to accept a price approximating R100 per maund for their product? They would have declared a fall to such a price to be impossible, and yet planters' indigo has been sold, and sold at a profit during the past season, at R110 per maund, by those who in the present still regrettably incomplete state of preparation for the struggle, have in favourable circumstances shown energy and intelligence in the conduct of their business Prices have this year been some 30 per cent below those of last season and have varied from 80 rupees to an exceptional maximum of 195 rupees per maund, for a special parcel of 21 chests of Peeprah indigo, the average, exclusive of this particular sale has, however, probably not exceeded R120. Greater attention is being paid by buyers to quality, and indigo of low grade finds a market with much difficulty at Bengal prices. The total sales for the season, of Bengal indigo are not likely to exceed 50,000 maunds, and the sale value will probably be about 50 to 60 lakhs, as compared with upwards of 3 crores realised a few years ago, when prices were higher and production much larger. Madras indigo, though of inferior quality, is still largely sold at relatively low prices, it is estimated that some 23,000 cwt. were sold, at an average price of about R157 per cwt.—a decline of about 20 per cwt. as compared with prices two years ago.

54. The improvements necessary to effect a reduction in the cost price of indigo were (1) that the plantations should be placed on a sound financial basis, and cease to remain in a position where requirements for cash in seasons of dear money, could only be satisfied by transferring profits from the pockets of the planters to those of the money lenders; (2) economy in management, (3) selection of seed and propagation of the qualities yielding the highest percentage of indigotine and best suited to local conditions of climate and soil; (4) rotation of crops to obtain good profits from the land when not under indigo, and thereby reduce the cost of cultivation of the plant; (5) chemical improvements in manufacture.

(1) The transformation necessary to place indigo properties on a sound financial basis is proceeding, and in some instances at regrettably heavy cost to those who in the halcyon days of the industry had thoughtlessly allowed their financial position to become too involved to stand a crisis. The change has involved loss of fortune to individuals, but this is by no means synonymous with the failure of the industry. (2) The hard lessons of recent years have resulted in important economies in administration. (3) The attention of Mr. Coventry and other men of intelligence and energy interested in indigo, has for a long time past been turned to the cultivation in India of a plant which should produce a higher percentage of indigotine than that which a few years ago, in the absence of competition, sufficed to yield handsome profits. Agricultural experiments are necessarily slow in development, but the result of experiments has already shown that plants propagated from the Natal seed, acclimatised in

Java, will yield some 50 per cent more leaf of excellent quality than is obtained from the plant known as "Tinctoria" which has hitherto been generally cultivated in India. Again, it has been shown that the new plant can be grown as a perennial, and even if only left in the ground for two years, this will lead to material reduction in the cost of cultivation. Further, and not least, the new plant is immensely superior to the tinctoria in withstanding the effects of inundation, drought, and cold (4) The introduction of a reasonable system of rotation of crops, which is becoming fairly general, has had the result that in spite of the low price of indigo, certain favourably situated land-holders have been able to realise 10 per cent profit on the cultivation of their lands, and it further leads to the hope that the value of the 'seeth' as manure for rotation crops, may pay, or nearly pay the cost of cultivation of the indigo (5) As regards chemical improvements, experiments are still proceeding, and though it is impossible to say that any remarkable result has so far been achieved, it is incredible that nothing will be achieved by that persistence in research which is now being earnestly pursued.

It seems to me unquestionable that there is still a large margin for reduction in the cost of production of indigo, and this large margin should more than suffice to turn the scale against the artificial product, whilst leaving fair profits in the pockets of the planters. There is certainly a limit to the price at which synthetic indigo can profitably be sold, and many are of opinion that, although competition may induce manufacturers to temporarily accept losses and reduce prices, the profitable limit has been already reached.

55 On one point I may perhaps venture to offer a word of warning to our planters I am fully sensible of the difficulties of their position with which I sincerely sympathise, but I fear that many still fail to realise in a practical manner the situation which is created by the keen competition of their European manufacturing rivals, and that season after season they continue to expect high prices and by so doing they alienate buyers who would willingly take their products were prices more in accordance with those for which the artificial article is to be obtained. It is not business to continue to work at a loss, but it is an essential factor in business to keep your competitor out of the market by temporary acceptance of the lowest possible price, and thus to force him either to accept losses, or to retire from the competition.

56 Exports of rice in 1902 were by far the highest recorded up to that year, but they were surpassed in 1903, when the total value exported was approximately 13 million sterling, of which shipments from Burma were for upwards of £9,000,000

57 It is roughly estimated that only about one-seventh of the wheat grown in India is available for export, the remainder being retained for local consumption. The amount exported naturally depends both on harvest yields, and on the European market price This winter the price abroad has been favourable for export, whilst in India harvests have been abundant, particularly in the Punjab, with the result that the value exported in the year 1903 exceeded 6½ millions sterling, and was more than double that in the preceding year

58. The export trade in seeds has as regards quantities, increased rapidly during the last three years, but owing to falling prices, values have not kept pace with quantities Approximately, 1,000,000 tons were shipped in 1901, and about 1,270,000 tons in 1903; the corresponding values being about £9,765,000 and £10,083,000, out of these totals, the exports of linseed averaged in value about 4 millions sterling. Whilst the quantity of linseed exported has increased considerably, values have remained practically stationary under the influence of unfortunately declining prices, owing to the serious competition of shipments from both North and South America, and during the past season, particularly from La Plata. The other two most important classes of seeds exported are rape and til, the value of the shipments of the former in 1903 was £1,627,000 and of the latter £1,990,000. The exports of til are increasing very rapidly with well maintained prices.

59 The last jute crop was estimated at the large figure of approximately 6½ million bales, but nevertheless prices have been well maintained throughout the season and have yielded large profits. The total arrivals of jute in Calcutta up to January 31st, 1904, are estimated to have exceeded those of the previous year by 20 per cent, whilst exports of jute and cuttings are said to have been upwards of 10 per cent greater than in the season 1902-1903, approximating, though not quite reaching, the record shipments in 1901-1902.

60. The progress of the jute manufacturing industry has been even greater than that of the export trade in the raw material, and is indeed very remarkable, The number

of looms at work has increased from something short of 10,000 in 1895 to nearly 20,000 to-day, and the development has been particularly rapid in the last two years, during which the number of looms has been increased by upwards of 3,000. During the latter part of the past year there was a very good demand for gunnies and hessians, and the result of the year as a whole, has, I believe, been quite satisfactory to manufacturers.

61. Great as has been the development of jute manufacture, cotton still remains our premier Indian industry. From one point of view, that of increasing production, the progress of the Indian mills has been very satisfactory. I give the figures showing the production in yards of grey goods during six successive years, together with corresponding quantities imported and the totals indicating general consumption.

Quantity of Cotton Piece Goods (Grey) imported into, and produced in, India.

Years	Grey goods imported from other countries into India.	Grey goods produced in India	Total.
	Yds.	Yds	Yds
1897-1898	1,149,479,541	323,356,019	1,472,835,560
1898-1899	1,257,720,612	355,709,050	1,613,429,662
1899-1900	1,274,912,153	329,420,397	1,604,332,550
1900-1901	1,192,173,060	341,176,942	1,533,350,002
1901-1902	1,186,764,327	409,744,993	1,596,509,320
1902-1903	1,283,680,181	406,316,717	1,689,996,898

It will be seen that whilst there has been some small increase in imports, production in India, in spite of a temporary set-back due to the last famine, has increased by upwards of 25 per cent in the short space of five years, whilst total consumption has increased by approximately 15 per cent This by itself should certainly indicate increasing profits to millowners, since the larger the outturn, the less is the cost of production. Nevertheless, I am afraid that while certain well-managed mills on a sound financial basis, have made, and are likely to continue to make steady profits, a large proportion have been doing more or less badly for some time past. Many mills have suffered from the fact that their working capital has been quite insufficient, their ordinary requirements for financial accommodation have cost too much to leave a profit on the turn-over in these days of close competition and generally cheap money, while in times of financial stress, they are liable to be entirely overwhelmed by the difficulties of their position A good many mills have in such circumstances naturally changed hands during recent years, and it is to be hoped that with a fresh start on a proper financial basis, and with the more competent management for which I am inclined to think there is sometimes an indisposition to pay the necessary price, a fresh start may be made and profitable business developed Latterly, special difficulties have beset those millowners who neglected to buy cotton ahead and who have consequently found the price of the raw article increasing out of all proportion to the price of yarns, which it must be noted has been prejudiced by the competition with Japan for the China trade. Weavers have fortunately fared better than those who are only spinners, as the former are not so dependent on the China trade, and demands for the home market have been sufficiently good and are likely to increase. I think that the future success of the Indian cotton industry lies in the development of weaving and the abandonment of a position of dependence on the sale of yarn in the China markets. I would venture to urge cultivation of the home markets.

62 I notice the continuance of complaints against the cotton excise dues. On this question it is argued that as the cloths made in India are of different textures to those made in Lancashire, there is no direct competition between them, and therefore, that the abolition of the dues could not be considered as a protective measure,

As far as the argument goes, there appears superficially to be something in it, but it seems to be omitted from consideration that the consumption in India in any given year, is more or less a fixed quantity as regards the number of yards required, and that if the cheaper price of the Indian textiles secures for them a good market in competition with the finer textiles from Lancashire, the latter must be displaced by the former. Further, I am led to believe that the Indian mills already enjoy considerable practical protection, since charges between Manchester and the Indian bazars (including packing, freight, interest, etc.), are said to amount to fully ten per cent on cost price in Manchester. Moreover, it must be remembered that a certain amount of revenue is a necessity to provide for the administration of the country, and the cotton excise dues now return upwards of 20½ lakhs, having increased from R11,62,947 in 1900-1901 It is very easy to object to any and every class of taxation, but those who make objections should, I think, offer suggestions as to how revenue could be maintained if their objections were to be admitted. As I pointed out last year in the discussion on the budget, it is impossible to believe that the average enhanced cost to the individual consumer of cotton cloth on account of the excise exceeds 3½ annas per annum, and the steady increase in consumption, which is an undeniable fact, sufficiently proves that present rates have had no prejudicial effect on its development I would particularly call attention to the fact that the receipts on account of customs duties on cotton goods, on sugar, and on petroleum, constitute upwards of 40 per cent of the revenues derived from customs on imports, but the proportion is diminishing, and as Indian industries develope and check imports, there must inevitably be a steady and serious diminution in the returns under these heads, for which some compensation must be found In the case of cotton goods, it is ready to hand in the shape of a steady growth in returns from excise dues on the local manufactures, and for this reason, if for no other, it appears to me impossible to seriously consider their abolition.

63. Importations of piece goods have been rather below the average, but the generally prosperous condition of the country has produced a demand sufficient to absorb more than the average annual imports, and as a result, stocks are greatly reduced; in Bombay they are the smallest on record. It is possible that for some little time a maintenance of higher prices will continue to restrict imports, but this position of affairs cannot last, and we may with some confidence look forward to a brisk and prosperous trade in piece goods in the near future

64 Coal continues to be a very important item in the export trade. Last year I noted that this trade had received a check, and I regret to say that although towards the close of the past year there was a slight improvement in the market, the very low prices which have prevailed have had a serious effect on the profits of many coal mining companies I have reason to fear that unsatisfactory prices are in part due to the fact that the quality of Bengal coal has suffered in reputation abroad, owing to unfortunate shipments of inferior stuff when the demand was brisk. All is not gold that glitters, and buyers soon show their appreciation of the fact that all is not coal that is black. That there is room for improvement in the methods of handling and carriage from the mines to ship-board is admitted on all sides, while it has been observed by competent experts that, speaking generally, actual mining operations are far from being generally conducted in the most scientific and economical manner. There is, therefore, apart from possible natural increase in demand, room in more than one direction for such improvement as would increase the profits of the business I give the figures of export of Bengal coal during the last four calendar years, together with the figures for the quantities of bunker coal supplied to steamers in Calcutta.

	1900.	1901.	1902.	1903.
	Tons.	Tons.	Tons.	Tons.
Exports . . .	1,734,551	2,008,322	1,716,556	1,953,914
Bunker	615,504	674,645	697,017	703,225
TOTAL .	2,350,055	2,682,967	2,413,573	2,657,139

It will be observed that the totals for 1903 are approximately equal to those for 1901, which, however, still remains our record year.

65. The petroleum industry is advancing by leaps and bounds I submit figures showing consumption of kerosine during the last five years, and the sources from which the demand has been supplied.

Production of Kerosine Oil in Burma and Assam, and importations into India from foreign countries.

	1899 1900.	1900 1901.	1901-1902.	1902 1903.	1903-1904.*

TOTAL .	70,470,116	72,601,898	91,467,466	81,451,255	70,000,000
Total consumption of Kerosine Oil in India . .	80,418,046	87,187,060	110,026,009	107,426,647	109,894,244

* Estimated figures for last two months.

It will be observed that whilst consumption steadily increases, Indian production already suffices to satisfy nearly forty per cent of the total demand. Burma already supplies upwards of 38½ million gallons and Assam, where the industry has begun to develope, is, I understand, in a position to supply two million gallons in the coming year, with a rapidly increasing production The imports of American and Russian oils are naturally declining, but, on the other hand, those of what is known as Straits oil are increasing. American kerosine has now become practically an article of luxury used only by those who like to pay a high price for a specially good article Improvement is desirable in the quality of the Indian oils, which are still distinctly inferior to both American and Russian oils, but I understand that improvements are being introduced in refining processes, and that as oil is drawn from the lower strata it will be found to be of a lighter character.

66 The export trade in hides is of very great importance, but it is particularly susceptible to influences causing wide fluctuations both in volume and in price In times of famine, the difficulty and sometimes impossibility of providing fodder, leads to wholesale slaughter and low prices, whilst after a few prosperous years, the number of cattle increases and the number of hides for sale also increases. To-day an unsatisfactorily large proportion of our hides are exported in the raw state, and a large development of the tanning industry is much to be desired. Special attention is being paid to this question in Madras where it is hoped that the chrome-tanning process may be introduced with success. Cawnpore is the most important centre of the leather industry the successful development of which enabled us to supply large quantities of leather-ware (boots and saddlery) for the army in South Africa. This industry is at present labouring under two difficulties—deficiency of tanning material and shortness of labour. The want of tanning material is attributed to a depletion of stocks of cutch during the recent years of famine, but we may hope that this will prove a temporary difficulty. Shortness of labour for industrial purposes is a cause of serious complaint in many parts of India, and I fear that it will not be easily remedied. In course of time, a sufficient industrial class will come into existence, but the people are conservative in their habits, and they prefer working in their homes to the restrictions of a mill, whilst any extensive employment of female labour is, for various reasons, almost impossible. High wages offer little attraction to the agriculturist who, in normal times, finds all his requirements supplied by the fruits of congenial labour in the fields.

67. It is, I believe, often urged in quarters which appear to be strangely misinformed, that if we look back, say 20 years, it will be found that the ryot has been

impoverished by a steady fall in the price of his produce. I have examined this question as far as the information at our disposal permits, and I submit a table showing the average wholesale prices of certain articles of export from India in the years 1873, 1883, 1893, and 1903, at Calcutta, Bombay, Karachi, and Rangoon, respectively.

Average annual wholesale prices of certain staple articles of export from India.

* Prices have fluctuated greatly owing to speculation. | † Prices have since fallen.

It will be observed that while prices have varied considerably at different epochs, in the great majority of cases there has, over the period, been an increase in Calcutta prices, the only really notable exception being with regard to silk. In Bombay, prices of cotton and linseed increased, whilst those for wool and wheat have fallen, the former considerably, wool has similarly fallen at Karachi, but at Rangoon the price of rice, the staple export, has very materially improved. I would point out that as each ten years of the period under consideration rolled by, facilities of transport have under the influence of railway construction, steadily and enormously reduced the cost of delivery from the ryots' hands to the export markets, whilst also reducing the number of middlemen through whom produce finds its way from the interior to the sea coast. Now, this decrease in cost of carriage is equivalent to so much direct profit to the producer, it is therefore absolutely certain that the increase shown in prices at the ports, forms but a small proportion of the total gains to the ryot from the enhanced prices which he has realised locally.

An examination of this question would be incomplete without some reference to the influence of exchange The variations in exchange were steadily favourable to increase in rupee prices of exports from 1873 to 1893 and unfavourable during the last ten years

The average exchange value of the rupee in the four years tabulated was:—

1873-1874.	1883-1884.	1893 1894.	1903 1904 (Estimate).
22·351*d.*	19·536*d.*	14·546*d*	16 053*d.*

68 Whilst the facts noted offer a complete answer to those who have of late years been talking of the impoverishment of the ryot, I must state that in my personal opinion we are likely during the next few years to witness some decline in the export price of agricultural produce. Such a decline, it seems to me, must inevitably result from the improvement of communications, and the bringing of new lands under cultivation in foreign countries, and particularly perhaps in Canada and in South America. The natural decline from such causes should however be at least compensated, if not more

than counterbalanced, by improvements in our own communications in India, in agricultural methods, and I venture to hope also by reduction in our railway tariffs. The most important step which can be taken to meet the situation will, however, I apprehend, be found in the development of industries based directly on agriculture, that is in locally working up our raw products, extracting our own oils from seeds, producing our own textiles from silk, cotton, and wool, tanning our own hides, etc. For thoroughly satisfactory progress in this direction we must await the awakening of a keener spirit of enterprise among our Indian fellow subjects. At present, industrial undertakings are chiefly dependent on foreign capital, supplemented by the small savings of Anglo-Indians who naturally invest all they can spare in a country where prevalent rates of interest are much higher than in Western Europe. I trust, however, that it will not be long before a great development is witnessed in industrial enterprise, although I must point out that when it takes place, we shall find ourselves in a very different position from that of to-day, as regards the effect on our trade of protective tariffs in foreign countries

69 Notwithstanding many difficulties, including those to which I have referred, Indian industries are not standing still, and a proof of their steady, though somewhat slow, development is to be found in the figures, I submit, showing the increasing value of importations of mill machinery, iron and steel. We may possibly reach six million sterling for the year 1903-1904

Values of Imports of Machinery and Millwork and Iron and Steel.

	1900-1901.	1901-1902.	1902-1903.	1903-1904 (Ten months only.)
	£	£	£	£
Machinery and Millwork	1,505,040	2,003,920	1,869,227	1,830,974
Iron and Steel	3,048,421	3,242,613	3,391,015	3,215,772
TOTAL	4,553,461	5,246,533	5,260,242	5,046,746

70 In connection with the question of accumulation of wealth in India we have examined the available statistics showing the net imports of gold and silver, and I submit the figures for decennial periods commencing with that from 1835-36 to that from 1895-96. It will be seen that during the whole period extending over 68 years, the total net imports of treasure have reached the gigantic figure of £414,672,977 which includes gold, approximately 127 millions, and silver upwards of 287 millions These figures speak for themselves, as a remarkable indication of accumulating wealth.

Net Imports of gold and silver from 1835-36 to 1902-1903 in decennial periods

	Gold.	Silver.	TOTAL.
	£	£	£
1835-36 to 1844-45 (10 years)	2,197,866	13,690,179	15,888,045

E. FG. LAW.

March 23 1904

PART II.

BEING A MEMORANDUM BY THE FINANCIAL SECRETARY EXAMINING THE DETAILS OF THE ACCOUNTS AND ESTIMATES.

Section I.—The Accounts of 1902-1903.

71. The Accounts of the year show a surplus £3,069,549 being better by £331,049 than the surplus of £2,738,500 anticipated in the Revised Estimates framed in March last.

72. The variations between the figures finally entering into the Accounts and those taken in the Budget and Revised Estimates of the year are fully explained in the Appropriation Report published in the *Gazette of India* of the 12th instant.

73. The following is a general comparison of the Revised Estimates with the Accounts of the year:—

	Revised	Accounts	Accounts, better.	Accounts, worse.
REVENUE.	£	£	£	£
India	76,284,600	76,740,110	455,510	...
England	607,900	694,805	86,905	...
TOTAL	76,892,500	77,434,915	542,415	.
EXPENDITURE.				
India—				
Imperial, Provincial, and Local	55,759,100	56,075,970	...	316,870
Adjustment of Provincial and Local Surplus or Deficit	+56,100	—72,425	128,525	...
NET	55,815,200	56,003,545	...	188,345
England	18,338,800	18,361,821	...	23,021
TOTAL	74,154,000	74,365,366	...	211,366
SURPLUS	2,738,500	3,069,549	331,049	...

74 Both Revenue and Expenditure were higher, in India and also in England, than the amount taken in the Revised Estimate The net improvement in England was £63,884. In India, it was £138,640. In the Imperial Section of the accounts, there was an improvement of £267,165, while the Provincial and Local Section was worse by £128,525 The latter does not affect the surplus of the year.

75. The increase of £455,510 in Revenue in India occurred chiefly under Salt (£144,405), Excise (£49,042), Customs (£90,936), Forests (£33,203), Railways (£107,500) and Army (£124,692), and was partly counterbalanced by a falling off under Land Revenue including that due to Irrigation (£59,162) and Major Irrigation Works (£53,832) besides smaller sums under other heads. The increase under Salt was fairly distributed, but was highest in Bombay and Madras. That under Excise occurred chiefly in Burma and Berar The increase under Customs was largest under export duty on rice, import duty on silver and other metals, and excise duty on cotton goods. Larger railway earnings were contributed by the East Indian, Rajputana-Malwa, South Indian, and Bombay, Baroda and Central India Railways. The increase in Army Receipts was due to credits for peace equipment taken by certain units to China which were not provided for in the Revised.

76. The excess expenditure in India, amounting to £316,870, was made up of increases under a number of heads, of which the most important were £42,411 under Working Expenses of State Railways, £157,517 under Civil Works, and £155,735 under Army. These were partially counterbalanced by smaller decreases under numerous heads.

77. The increase in the revenue in England occurred chiefly in Army receipts. Larger allowance than was provided in the estimates was made on account of articles in possession of regiments on their transfer from the Indian to the British establishment; and contributions towards pensions of Native troops lent for Imperial Service were recovered earlier than had been expected. The increase in the expenditure in England is more than accounted for by an increase of £38,349 in the payments for ordnance and other military stores.

Section II.—The Revised Estimate of 1903-1904.

78. The following is a general comparison of the Budget Estimate with the Revised Estimate of 1903-1904 —

	Budget	Revised.	Revised, better	Revised, worse.
REVENUE.	£	£	£	£
India	75,699,400	82,348,100	6,648,[illegible]00	
England	656,000	719,700	63,700	...
TOTAL .	76,355,400	83,067,800	6,712,400	...
EXPENDITURE.				
India—				
Imperial, Provincial, and Local .	58,514,900	60,947,900	...	2,433,000
Adjustment of Provincial and Local Surplus or Deficit .	—1,383,500	+1,201,200		2,584,700
NET .	57,13[illegible],400	62,149,100		5,017,700
England	18,275,300	18,207,500	6[illegible],800	...
TOTAL .	75,406,700	80,356,600		4,949,900
SURPLUS .	948,700	2,711,200	1,7[illegible]2,500	

79. During the current year there has been a remarkable development of revenue under almost every important head. Land Revenue, Salt, Excise, Customs, Forests, and Irrigation have all contributed to swell the revenues of the year. But by far the greatest improvement has occurred in the Opium revenue, and in the net earnings of State Railways. The gross receipts from Opium exceeded the Budget by more than 2 crores of rupees, while the net railway earnings were better by more than a crore. The former is perhaps fortuitous and cannot be regarded as other than a fortunate windfall But the improvement in the Railway revenue receipts, though subject to fluctuation, promises to be progressive, and may fairly be regarded as possessing some of the elements of permanence.

80. Advantage has been taken of this improvement in the financial position to place largely increased allotments at the disposal of Local Governments for provincial expenditure. As explained in paragraph 219, 150 lakhs have been assigned to Bengal, Madras, the United Provinces and Assam to start the new Provincial settlements under favourable conditions. Fifty lakhs have been allotted to Bengal as the Imperial contribution towards the Calcutta Improvement scheme, and 20 lakhs to the Punjab for the extension and improvement of Simla. Grants, aggregating R 17,02,000, have been made to the Central Provinces, United Provinces, Punjab and Bombay for expenditure on minor irrigation works, the drainage of Lucknow, the completion of the St. George's Hospital in Bombay, and a variety of other useful local works Further grants, aggregating 22 lakhs,

have been made to the eight principal Provinces for expenditure on public parks and gardens, hostels, local museums, and other minor but useful objects which have hitherto had to yield priority to works of more pressing importance. These grants, though made in the Revised Estimate of 1903-1904, will not be actually spent during the year but will go to increase the balances at credit of the Provincial Governments on the 31st March next and will be available for expenditure in 1904-1905 and subsequent years A grant of 5 lakhs has also been made to the Calcutta Museum in furtherance of an important scheme of reconstruction and rearrangement, of one lakh for much needed structural improvement in the Zoological Gardens; of R10,000 to the Asiatic Society of Bengal, and of R40,000 for archæological restorations at Mandu

81. After providing for these special grants, which aggregate R2,65,52,000, the Revised Estimates show a surplus of £2,711,200 or R4,06,68,000, against £948,700 or R1,42,30,000 in the Budget But for the special grants, the surplus would have been R6,72,20,000

82. Of the actual surplus of £2,711,200, it has been decided to set apart a sum of £956,700 for expenditure in the ensuing year on the provision of new artillery and small arms, and in pushing on the scheme of special coast defences to which reference was made in paragraph 234 of the last Financial Statement

83 Both revenue and expenditure were higher in India than the amounts taken in the Budget Estimate, there being a net improvement of £4,215,700, of which £1,631,000 is in the Imperial Section of the accounts and £2,584,700 in the Provincial and Local Section. The latter does not affect the surplus of the year. In England both revenue and expenditure are better, the total improvement being £131,500. This added to the improvement of £1,631,000 in the Imperial Section in India gives the total improvement of £1,762,500 in the surplus of the year shown in the table above.

84. The only important decrease in revenue in India is under Telegraph R4,30,000, and is due to the diversion of foreign traffic to cable routes *viâ* South Africa and the Pacific, and to a falling off in transit message receipts in consequence of the reduction of the tariff between India and Europe. There are also small decreases under Jails (R3,96,000), Miscellaneous (R2,12,000), Interest (R2,46,000), and Irrigation Minor Works (R2,14,000).

85. Under almost all other heads there is an improvement, the more important items being—

	R	R
Land Revenue, ordinary	22,90,000	
" due to Irrigation	4,06,000	
		26,96,000
Opium		2,03,24,000
Salt		31,00,000
Stamps		6,19,000
Excise		63,07,000
Customs		47,42,000
Forest		17,87,000
Post Office		5,91,000
Mint		3,51,82,000
Marine		28,69,000
Exchange		5,79,000
State Railways—Gross Receipts		1,61,39,000
Guaranteed Companies—Net Traffic Receipts		4,32,000
Irrigation, Major Works—Direct Receipts		22,28,000
Civil Works		10,03,000
Army		11,17,000

86. The improvement in Land Revenue collections is due mainly to the favourable character of the season, and the re-establishment of normal conditions of prosperity It occurs chiefly in Madras, R9,47,000; Punjab, R15,13,000 Bengal, R4,13,000; Bombay, R4,09,000; and Central Provinces, R2,50,000. A part of the improvement in Madras is due to the increases obtained from revision of settlements in some districts being larger than was provided in the Budget Estimate. In the Punjab, it was also due to the extension of canal irrigation and to higher receipts from the sale of waste lands in the Chenab and Jhelum Colonies. There are, on the other hand, decreases of R3,10,000 in Assam due to

the postponement of the kist dates for payment; of R4,14,000 in Burma due to the failure of crops in parts of Upper Burma; and of R2,91,000 in Berar, due chiefly to the cess demand in the Akola District having been wrongly included under this head in the Budget Estimate.

87 The improvement in Opium revenue is chiefly in Bengal (R1,73,67,000), Bombay (R29,60,000) and Burma (R1,25,000). The prices realised at the sales of Bengal Opium during the current year have been exceptionally high, the average for the year being R1,462. The exports of Malwa Opium have also been much larger than was assumed in the Budget, the number of chests weighed being estimated at 26,200 against 19,831 in the previous year. This is attributed partly to the rise in the price of silver, and partly to the depletion of stocks in China in consequence of the failure of the local crop In Burma the increase has been obtained from the improved arrangements for the prevention of smuggling.

88 Under Salt, there are increases of R32,00,000 in Madras, R6,50,000 in Northern India, and R4,00,000 in Bengal, while there are decreases of R4,00,000 in Burma and R7,50,000 in Bombay. The stimulus given to consumption by the reduction of duty is manifested in the increase in the first three provinces though the realisations on the credit sales of the previous year at the old rate of duty account for a large part of the increase in Madras. The Burma Budget was an over-estimate. In Bombay, a large quantity of salt was destroyed by heavy rain early in the year. This, however, appears to have stimulated the consumption of Madras salt by enabling it to displace Bombay salt in some districts.

89 The improvement in Stamp Revenue is chiefly in Burma (R2,50,000), Bengal (R3,00,000), and the Punjab (R1,30,000)

90. Owing to the generally favourable harvests the Excise revenue has grown in all provinces, and the improvement expected in the Budget has been surpassed everywhere except in Bengal. Compared with the Budget the largest increases have occurred in Madras (R20,00,000), Burma (R13 00,000), Bombay (R10,00,000), the United Provinces (R7,00,000), Berar (R5,10,000) and the Central Provinces (R3,88,000)

91. The improvement in Customs revenue extended to all the maritime provinces except Bengal where there has been a large falling-off in the imports of petroleum and some decrease of cotton goods In the former case it is evident that Burma oil is taking the place of the foreign product The continuance of the large imports of silver is remarkable. The articles in which the chief increases and decreases have occurred in all the provinces taken together are :—

Increases in Receipts

	R
Export duty on rice	25,00,000
Import duty—	
Silver	13,50,000
Other metals and manufactures of metals	5,00,000
Manufactured articles	8,94,000
Spirits and liqueurs	5,00,000
Chemicals	1,25,000
Sugar	1,50,000
Excise duty on cotton manufactures	2,20,000
Land customs and miscellaneous	1,35,000

Decreases in Receipts.

Import duty—	
Petroleum	9,50,000
Cotton manufactures	1,60,000
Sugar countervailing duties	4,71,000

92. The Forest receipts show an improvement in every province except Bengal and the districts under the administration of the Government of India. The largest increase is in Burma amounting to R11,50,000. In this province the revenue experienced a serious decline in 1901-1902, but has since then been growing steadily.

93. The growth of the receipts of the Post Office during the year has been more rapid than was anticipated. *1903-1904. Post Office Receipts.*

* * *

94. The large improvement under Mint is due to the exceptionally heavy coinage of silver which has had to be undertaken in the year as explained in paragraph 19. It does not, however, materially affect the surplus of the year as the whole of the profits of coinage, after deduction of the charges, is paid to the Gold Reserve Fund and is shown as expenditure. *1903-1904. Mint Receipts.*

95. The whole of the balance of the Gold Reserve Fund except a small balance of £5,700 has been remitted to the Secretary of State for investment, and the balance of the Fund now amounts to £6,382,200 of which £6,376,500 is held in Consols and National War and Local Loans Stocks. *Gold Reserve Fund.*

96. The increase in Marine receipts is due partly to a change in accounting whereby recoveries on account of stores and labour supplied to the Royal Navy which used to be taken as reduction of expenditure, are now credited as receipts. It is also due in part to recoveries on account of the employment of Royal Indian Marine vessels in connection with the operations in Somaliland. *1903-1904. Marine Receipts.*

97. Under Exchange, there is an increase of R8,74,000 representing the exchange on the net expenditure in England on revenue account, the average rate of exchange for Council Bills and Transfers to date having been 1*s* 4·049*d*. On the other hand, the gain in connection with the transactions of the Southern Mahratta Railway was overestimated to the extent of R1,36,000 and the loss on miscellaneous remittance transactions between England and India is now expected to amount to R1,90,000 against R2,000 taken in the Budget Estimate. *1903-1904. Exchange.*

98. The gross receipts of State Railways are better than the Estimate of March last by R1,61,39,000, but the working of the increased traffic and special renewals of engines and repairs of permanent way, bridges and rolling stock, are likely to cause an increase of R52,88,000 in the working expenses. There is thus a net improvement of R1,08,51,000. There has been a remarkable expansion of traffic on most of the larger systems of Railways except the Rajputana-Malwa, the Bengal-Nagpur and the Indian Midland on which the improvement provided in the Budget Estimate has not been realised. On the Rajputana-Malwa line, there was a serious decline in goods traffic in 1902-1903 on the cessation of the famine conditions of previous years, and a small recovery was anticipated in the Budget Estimate of the current year. Instead of an increase, however, there has been a further considerable decline, owing chiefly to a diversion of the traffic to the Great Indian Peninsula Railway. The goods traffic on the Indian Midland Railway also has been very slack. The lines which have contributed chiefly to the improvement are the North-Western, East Indian, Great Indian Peninsula, South Indian, and Bengal and North Western Railways. On the first named line, where the improvement has been most marked, it was due to very heavy wheat traffic, and also to traffic arising from the Jhelum and Chenab Colonies, as well as to increased mileage and general development. The more important differences are as follows:— *1903-1904. State Railways—Gross Receipts.*

	Increase + Decrease —		
	Receipts.	Working Expenses	Net Receipts.
	R	R	R
Better than Budget—			
North-Western Railway .	+1,07,00,000	+16,00,000	+91,00,000
East Indian Railway .	+23,00,000	...	+23,00,000
Great Indian Peninsula Railway . . .	+32,00,000	+21,50,000	+10,50,000
South Indian Railway .	+13,00,000	—75,000	+13,75,000
Bengal and North-Western Railway . . .	+15,00,000	+7,50,000	+7,50,000
Eastern Bengal Railway .	+13,00,000	+7,50,000	+5,50,000
Burma	+12,00,000	+11,00,000	+1,00,000
Oudh and Rohilkhand Railway . . .	+5,00,000	+1,00,000	+4,00,000
Worse than Budget—			
Rajputana-Malwa Railway	—37,00,000	—13,00,000	—24,00,000
Bengal-Nagpur Railway .	—14,00,000	...	—14,00,000
Indian Midland Railway .	—10,00,000	—4,55,000	—5,45,000
North-East Line, Madras Railway . . .	—1,50,000	+5,35,000	—6,85,000

1903-1904. Guaranteed Companies—Net Traffic Receipts.

99. Both the Bombay, Baroda, Central India, and Madras Railways, which are the only two Railways of this class not yet purchased by Government, have contributed to the increase in the net traffic receipts of Guaranteed Railways. The improvement would have been larger, but for the heavy fall in the earnings of the Rajputana-Malwa Railway which threw a larger share of the combined expenses of the whole system on the Bombay, Baroda and Central India line.

1903-1904. Irrigation, Major Works—Direct Receipts.

100. Of the increase in the Direct receipts from Major Irrigation Works, R17,21,000 has occurred in the Punjab owing to the favourable character of the seasons. Almost all the canals in the province have contributed to the improvement.

1903-1904. Civil Works Receipts.

101. Under Civil Works there is a special receipt of R2,64,000 on account of the sale to the Home Government of buildings on the Somali Coast, and of R2,15,000 on account of the sale-proceeds of the residence of the Commissioner of Police, Calcutta. The receipts from the Darjeeling-Himalayan Railway in Bengal as well as those from rents, tolls and ferries in most of the provinces, have been higher than the amounts taken in the Budget Estimate.

1903-1904. Army Receipts.

102. The increase in Army receipts is due to larger recoveries from the Imperial Government for the peace equipment of native troops on service in China, for Europe stores issued to Somaliland and China, and for mounted infantry ponies sent to Somaliland.

1903-1904. Increase in Expenditure in India.

The important increases of expenditure in India are:—

	R
Refunds and Drawbacks	5,65,000
Opium	71,00,000
Mint	3,31,75,000
General Administration	8,64,000
Marine	19,69,000
Miscellaneous	16,31,000
State Railways—Working Expenses	52,88,000
Major Irrigation Works—Working Expenses	6,85,000
Civil Works	20,12,000
Army	30,10,000

1903-1904. Refunds and Drawbacks

103. The excess refunds occur in all provinces except Madras and the United Provinces, but chiefly in Burma, Bengal and Bombay, and the districts administered by the Government of India. They are due partly to larger refunds of Customs duty and partly to special refunds of Salt duty in connection with the reduction in the salt tax in March 1903. There were also larger refunds of Land Revenue, Excise and Tributes in Burma.

1903-1904. Opium Expenditure.

104 The Budget provided for the cost of an average Bengal opium crop, but the actual outturn has been exceptionally large, necessitating an increase of R71,00,000 in the payments to cultivators.

1903-1904. Mint Expenditure.

105 Of the total increase in Mint expenditure, R3,26,66,000 is accounted for by the payment of the net profits of the rupee coinage of the year to the Gold Reserve Fund. These amounted to R3,69,86,000 against R43,20,000 provided in the Budget Estimate The balance represents charges incurred in England on account of remittances of gold from India and of silver purchased for coinage. These charges, though incurred in England, are passed on to India through the remittance account, and appear as Indian expenditure. The cost of extra establishment necessitated by the heavy coinage of the year is also included under this head.

1903-1904. General Administration

106. The increase under General Administration is chiefly accounted for by the cost of new Viceregal railway carriages, the charges on account of His Excellency the Viceroy's tour in the Persian Gulf, and extra charges of the Secretariats, due chiefly to the employment of a number of officers on special duty. There was also some increase in the Central Provinces, in consequence of the transfer of the administration of Berar.

1903-1904. Marine Expenditure.

107. As explained in paragraph 96, the greater part of the increase under Marine is due to a change in the system of accounting. The balance is due to work done in connection with the Aden Boundary Commission, His Excellency the Viceroy's tour in the Persian Gulf, the construction of a new vessel to replace the *Pansy*, and the maintenance of three torpedo boats taken over from the Admiralty.

108. Of the increase under Miscellaneous, R11,00,000 is on account of remissions of irrecoverable takavi advances in the Central Provinces, and R87,000 on account of the remission of the balance of the loan granted to the Chittagong Port Fund for the purchase of the steam tug *Gekko*, as announced by His Excellency the Viceroy in his reply to the addresses presented to him at Chittagong. The remainder of the increase chiefly represents charges of the special Commissions of Enquiry appointed during the year, and the cost of additional elephants acquired for the Khedda operations in Burma.

1903-1904 Miscellaneous Expenditure.

109. The increase in working expenses of State Railways has been explained in paragraph 98.

1903-1904. State Railways—Working Expenses.

110. Under Major Irrigation Works—Working Expenses, the increase occurs chiefly in the Punjab and Madras, while there is a decrease in Bengal and Bombay. In the former the Indus Inundation canals which used to be classed as a Minor Work are now treated as a Major Work, and unforeseen urgent works have also involved extra expenditure. In Madras the excess is due to the cost of repairing damages caused by heavy floods in the river Kistna.

1903-1904. Major Works—Working Expenses.

111. Under Civil Works, there is an increase in all the provinces except Madras, Berar, Burma and the Districts administered by the Government of India. This was due to additional grants having been sanctioned by Local Goverments for urgent works from savings under other heads. There was also large special expenditure in connection with the Murtaza-Wana road in the North-West Frontier Province, on the construction of roads in Sikkim, and on the buildings for the Imperial Cadet Corps at Dehra Dun

1903-1904. Civil Works Expenditure.

112. There are as usual a large number of variations between the Budget and the Revised Estimates of Military Expenditure. The absence of troops in Somaliland and China again led to savings which are estimated at R20,80,000 and R8,52,000, besides R6,56,000 on account of stores. Besides this there were savings of R10,00,000 on account of food supplies, of R3,30,000 in the cost of remounts, of R4,25,000 on account of short strength of troops and establishments, and a variety of other reductions, the whole estimated at R75,98,000. Against this, however, there was heavy expenditure on account of the Tibet Mission and the military escorts with the Aden and Seistan Delimitation Commissions. The savings on account of the absence of troops across the sea were as usual appropriated for new non-recurring expenditure for the improvement of the army. The more important items leading up to the net excess of R30,10,000 were the following:—

1903-1904. Army Expenditure.

Increases.	R
Sikkim-Tibet Mission	45,00,000
Military Escort with the Aden Delimitation Commission	25,71,000
" " Seistan " "	2,26,000
Charges for Horse-breeding operations transferred from the Civil to the Military Department	2,84,000
Mounted Infantry ponies purchased in replacement of those sent to Somaliland	2,32,000
Reconstitution of certain Native Corps of the Madras Command	2,17,000
Special expenditure in India sanctioned against savings due to the absence of troops in Somaliland and China—	
Improvement in the pay, etc., of the officers of the Indian Medical Service in Military employ	2,00,000
Purchase of ·303" ammunition	1,72,000
Cost of warm coats sent to South Africa and rejected by Military Authorities there	3,05,000
Camps of exercise and Instruction	1,00,000
Reconstruction of Native Infantry lines at Secunderabad, Bellary and Bangalore	1,03,000
Other smaller items	4,49,000
Excess charges for conveyance of troops and stores	4,60,000
Other items	7,89,000
	1,06,08,000
Decreases	75,98,000
Net increase	30,10,000

1903-1904. Decreases in Expenditure in India

113. Under almost all the remaining heads of importance, the expenditure has fallen short of the provision in the Budget. The following are the more important savings.—

	R
Land Revenue	19,57,000
Telegraph	5,30,000
Law and Justice—Courts of Law	8,92,000
" " Jails	12,79,000
Police	16,14,000
Education	21,51,000
Medical	14,70,000
Political	5,03,000
Scientific and other Minor Departments	6,17,000
Famine Relief	12,24,000
Construction of Protective Railways	7,26,000
Subsidised Companies Land, etc	6,59,000
Minor Works	12,44,000
Military Works	5,27,000
Special Defences	14,64,000

1903-1904. Land Revenue, Telegraph, and Civil Departments Expenditure.

114. The savings under Land Revenue, Courts of Law, Jails, Police, Education, Medical, and Scientific and other Minor Departments occur in almost all provinces and are due as usual to the tendency of Local Governments to make fuller provision in the Budget Estimates for payment of salaries and other charges than is actually required, and to make allotments for new schemes before they are sufficiently matured to receive sanction The only noticeable increase in the charges under these heads is one of R1,00,000 in Bombay under Courts of Law due to insufficient allowance made in the Budget Estimate for the normal growth of the charges A part of the decrease under Education is nominal, being counterbalanced by a corresponding increase under Civil Works, as a portion of the grants made to the several Local Governments for Education has been utilised for the construction of Educational buildings, and the expenditure has been shown under the appropriate head. Under Medical there have been large savings on the grants for plague expenditure in the Districts under the direct administration of the Government of India, Bengal, United Provinces, Punjab, and Bombay. The only notable increase in plague expenditure has occurred in Madras. The decrease under Telegraphs follows the reduction in receipts.

1903-1904. Political.

115. Under Political, there is a saving of R6,22,000 in the charges directly administered by the Government of India The payments to His Highness the Amir have fallen short of the Budget Estimate by R15,50,000. On the other hand, there has been considerable extra expenditure on account of the Seistan Arbitration Commission and the Tibet Mission.

1903-1904 Famine Relief.

116. Provision was made in the Budget Estimate for Famine Relief expenditure for R15,00,000 in the Central Provinces and for R30,000 in the Punjab. It is satisfactory to note that the necessity for incurring such expenditure has disappeared and that the actual expenditure in the Central Provinces has amounted to R3,05,000 only

1903-1904. Construction of Protective Railways.

117. In the Budget Estimate a sum of R23,00,000 was allotted for expenditure on the following famine feeder railways, but the actual expenditure on them during the year is now expected to amount to R15,74,000, as shown below, excluding a sum of £22,200 provided in England for payment to the Madras Railway Company by which the construction of the lines is being carried out:—

	Budget.	Revised.
Bellary-Royadrug	15,00,000	8,74,000
Hospet-Kottur		3,08,000
Morappur-Dharmapuri	8,00,000	1,44,000
Tirupatur-Krishnagiri		2,48,000
	23,00,000	15,74,000

118. The saving in expenditure on land for Subsidised Railways is due partly to the progress of acquisition of land for the Bengal and North-Western Railway having been slower than was expected, and partly to the grants for land for the following projects not having been utilised:— *1903-1904. Subsidised Companies—Land, etc*

	R
Bara-Ajmer and Marwar Railway	50,000
Hooghly-Cutwa Railway	50,000
Jullunder-Kapurthala-Sultanpur Railway	15,000
Kurnool Branch Railway	30,000
Bezwada-Masulipatam Railway	30,000
Shahdara-Saharanpur Tramway	1,40,000

119. The Budget Estimate for Minor Works and Navigation included a special grant of R25,00,000, but it has not been possible to work up to it in full, especially in the Punjab and Madras. *1903-1904. Minor Works and Navigation Expenditure.*

120. A considerable portion of the grant for Special Defences also will not be utilised during the current year. *1903-1904. Special Defences.*

121. The Revenue in England is expected to exceed the Budget Estimate by £63,700. The Interest receipts are higher by £103,000 owing to larger temporary investment of the cash balances at higher rates of interest. The Army receipts, on the other hand, are lower by £41,800. There is a decrease in the receipts on account of the Indian Troop service owing to the transfer of £39,400 to 1904-1905. The receipts from contributions towards pensions of native troops lent for Imperial service are also lower as a sum of £34,300 was received on this account in the previous year. *1903-1904. Revenue in England*

122. The Expenditure in England is expected to be £67,800 less than the Budget Estimate. It is the net result of a number of variations, the more important of which are as follows — *1903-1904 Expenditure in England.*

	£
Decreases—	
Telegraph	33,900
Civil Furlough and Absentee Allowances	20,000
State Railways—Interest on Capital deposited by Companies	39,500
Guaranteed Companies—Interest	13,900
Civil Works	13,100
Army	36,200
Increases—	
Marine	13,300
Construction of Protective Railways	22,200
Military Works	36,500

123. The saving under Telegraph is chiefly in the payments in respect of the guarantee of Joint Purse Revenue on reduction of telegraph rates, and is also due to increased receipts from the Eastern Telegraph Company on Joint Purse account. A decrease in the number of officers on leave in England has reduced the payments on account of Absentee Allowances There are decreases under Interest on Capital deposited by Companies and Guaranteed Companies, —Interest, as the additional capital required by the railway companies during the year was not raised as early as was expected The saving under Civil Works is due to the omission of the proposed expenditure on extensions of the Royal Indian Engineering College Under Army, the payments to the War Office on account of British forces serving in India and the charges for stores, chiefly ordnance and clothing, are less than the Budget Estimates. On the other hand, the furlough allowances of both British forces serving in India and officers of the Indian service, and the charges for the Indian Troop service are higher. The increase under the latter is due to arrears of previous years in respect of the cost of moving troops from South Africa to India, and to increase in freight of troops to India. A further cause of the increase is that the charges for pensions of Berar officers which used to be recovered from Berar revenues are now borne by the general revenues of India. A sum of £6,000 for which no budget provision was made has been spent during the year on special defences. *1903-1904 Decrease in Expenditure in England*

1903-1904 Increase in Expenditure in England.

124. Under Marine, the increase is chiefly due to the expenditure on the Royal Indian Marine vessel *Dufferin* which is to replace the *Clive*. On the other hand, the provision of £14,000 in the Budget Estimate for subsidy to the Admiralty for manning and maintaining Indian Government Defence vessels has not been required as the expenses of the three torpedo boats, which alone are retained, have been defrayed in India. A sum of £22,200 is required in England by the Madras Railway Company for the four famine feeder lines under construction by it. The total grant for the Railways was provided in the Budget Estimate in India as the arrangements with the Company for the construction of the lines had not been effected at the time when the Budget Estimate was framed. The increase under Military Works is chiefly in the charges for stores, the demands for which have been higher than was expected.

Section III.—The Budget Estimate of 1904-1905.

1904-1905. Statement of Gross Figures

125 The following is a general comparison of the Budget Estimate of 1904-1905 with that of 1903-1904:—

	1903-1904.	1904-1905.	1904-1905, better.	1904-1905, worse.
REVENUE.	£	£	£	£
India	75,699,400	79,601,100	3,901,700	...
England	656,000	547,500	...	108,500
TOTAL .	76,355,400	80,148,600	3,793,200	...
EXPENDITURE. India—				
Imperial, Provincial and Local.	58,514,900	61,563,300	...	3,048,400
Adjustment of Provincial and Local Surplus and Deficit .	—1,383,500	—1,316,800	..	66,700
NET .	57,131,400	60,246,500	...	3,115,100
England	18,275,300	18,983,400	...	708,100
TOTAL .	75,406,700	79,229,900	...	3,823,200
SURPLUS .	948,700	918,700	...	30,000

1904-1905. General Remarks

126. As explained in paragraph 82, it has been decided to apply part of the surplus of 1903-1904 in providing new armaments and carrying out a scheme of special coast defences. The expenditure for which provision has thus been made amounts to £956,700, and although the funds have been obtained from the realized surplus of the previous year, the charge necessarily appears as a debit against the revenue of 1904-1905, in which year the money is expected actually to be spent. But for this charge, the estimated surplus of the year would have been greater than it is by £956,700.

127. In India the net revenue is expected to be better than that taken in the Budget of 1903-1904 by £853,300, of which £786,600 is anticipated in the Imperial portion and £66,700 in the Provincial and Local portion. In England, both revenue and expenditure are expected to be worse, to the aggregate amount of £816,600.

128. The only heads of revenue in India in which an appreciable falling-off is expected are— *1904-1905. Falling-off in Revenue.*

	R
Telegraph	6,80,000
Mint	25,60,000
Miscellaneous	4,41,000

129. The decrease in Telegraph receipts, including those of the Indo-European Telegraph Department, is due to the diversion of foreign traffic to direct cable routes *viâ* South Africa and the Pacific, and to the increase in terminal message receipts on the Persian Section being thought unlikely to continue. The receipts under Mint represent chiefly the profits on coinage, which are transferred to the Gold Reserve Fund. The estimate assumes that coinage will be on a lower scale than was anticipated in March 1903. It is however quite impossible to say whether coinage on a large scale will be required or not. Under Miscellaneous, the reduction is mainly due to a lower estimate being taken for Khedda receipts in Burma, and to there being no recoveries to be made in 1904-1905 on account of the Delhi Durbar.

130. An improvement is expected in the revenue in India under almost all the other heads, of which the following are the most considerable items.— *1904-1905. Increase in Revenue.*

		Increase.
	R	R
Land Revenue, Ordinary	72,28,000	
" Due to Irrigation	6,41,000	
		78,69,000
Opium		85,99,000
Salt		27,00,000
Stamps		13,54,000
Excise		81,74,000
Customs		45,58,000
Assessed Taxes		11,56,000
Forests		16,41,000
Post Office		8,08,000
Marine		18,48,000
State Railways—Gross Receipts		1,81,39,000
Guaranteed Railway Companies (Net traffic receipts)		10,50,000
Irrigation—Major Works		19,68,000

131. The anticipated improvement in the Land Revenue extends to all parts of India, but is largest in the Central Provinces (R6,50,000), Burma (R10,16,000), the Punjab (R17,10,000), Madras (R21,18,000), and Bombay (R11,07,000). In each of these Provinces the main cause is the recovery of the country from the famine of 1899-1900, and the re-establishment of normal conditions. Special causes have operated in Burma, where extensions of cultivation, the introduction of higher rates on revision of settlement, and the assessment of all cultivated lands in Magwe and other districts of Upper Burma have raised the probable return; in Madras, where resettlements have taken place in Salem and some other districts; and in the Punjab, where there has been an extension of canal irrigation. *1904-1905. Land Revenue.*

132. Under Opium, the improvement is expected chiefly in Bengal (R72,29,000) and Bombay (R13,10,000). In the estimates framed last March, the average price of Bengal opium was taken at R1,100 a chest. The actual figures have far exceeded this, the average for the year being R1,462. As the demand is still strong, and recent sales show little sign of a falling off, the average for 1904-1905 has been taken at R1,250. The estimate is, however, one of much uncertainty. In Bombay, the demand for Malwa opium has been strong throughout the year, and shows no sign of weakening. The probable revenue has therefore been taken at 115 lakhs, which is higher by R13,10,000 than the Budget Estimate of 1903-1904, though well below the probable actuals of that year. *1904-1905. Opium Revenue.*

1904-1905. Salt Revenue.

133. The increase in Salt revenue is expected to be general throughout India except in Burma, where the receipts of 1903-1904 were overestimated, and in Bombay, where, however, an advance over the receipts of the current year is anticipated. The experience of the expiring year shows that in framing the estimate for 1903-1904, sufficient allowance was not made for the effect of the reduction of duty in stimulating consumption. Fuller allowance has been made for this factor in the present estimate but a small reduction, as compared with the probable revenue of 1903-1904, has been made to allow for the effect of credit sales in Madras made at the old rate of duty which have swelled the receipts of the current year.

1904 1905 Stamp Revenue.

134 An increase in Stamp revenue is expected in Bengal and Burma, and to a less extent in the United Provinces and the Punjab

1904-1905. Excise Revenue

135. With returning prosperity, the Excise revenue has continued to improve. The Revised Estimates show that the expansion has been even greater than was anticipated last March In view of the favourable character of the recent harvests, it is estimated that this process will continue in the coming year, especially in Burma, the United Provinces, Madras, and Bombay

1904 1905 Customs Revenue

136. The Budget Estimate of Customs revenue is R45,58,000 higher than that of the current year, but is R1,84,000 lower than the Revised Estimate. In Burma, a decrease is expected in the export duty on rice, the high receipts from which cannot safely be expected to continue for a third year in succession. Elsewhere, a moderate improvement is estimated for.

137 The articles in which the chief increase or decrease is expected, as compared with the Revised Estimate, are the following:—

	R
Decreases—	
Silver	2,75,000
Rice, export duty	10,00,000
Petroleum	2,00,000
Increases—	
Spirits and Liqueurs	4,00,000
Manufactured articles	3,00,000
Metals and Manufacture of Metals (other than silver)	2,00,000
Cotton goods	3,10,000

1904-1905. Assessed Taxes.

138. An increase is expected from Assessed Taxes, chiefly in Bombay, Burma and Madras. The extension of the income-tax to Berar is expected to bring in R2,89,000

1904-1905. Forest Receipts.

139 Forest receipts are expected to be better in every province except the Punjab, but chiefly in Burma where the improvement is estimated at 8 lakhs.

1904-1905. Post Office Receipts

140 A normal growth of revenue is expected from the Postal Department.

1904-1905 Marine Receipts.

141. The increase under Marine is largely though not entirely due to a change of classification, by which receipts on account of vessels and stores supplied to the Home Government are shown in gross instead of as a deduction from the expenditure.

1904-1905. Railways—Net Earnings.

142. Under State and Guaranteed Railways the net earnings are of greater significance than gross receipts. The progress of these has been as follows:—

	Actuals, 1902-1903. R	Budget, 1903-1904. R	Revised, 1903-1904. R	Budget, 1904-1905. R
State Railways—				
Gross receipts	28,70,65,000	29,05,74,000	30,67,13,000	30,87,13,000
Working expenses	14,74,08,000	14,85,49,000	15,38,37,000	15,84,59,000
Net earnings	13,96,57,000	14,20,25,000	15,28,76,000	15,02,54,000
Guaranteed Companies—				
Net traffic receipts	1,41,93,000	1,37,75,000	1,42,07,000	1,48,25,000

1904-1905. State Railways—Gross Traffic Receipts.

143. As explained in paragraph 98, there has been a marked expansion of traffic and of net earnings during the current year, which has extended to all the larger Railway systems except the Rajputana-Malwa and the Bengal-Nagpur, on which the improvement expected last March has not been realized. For 1904-1905, a cautious estimate has been framed providing for an increase of net earnings on State Railways of R82,29,000 over the Budget of last year, but less

by R26,22,000 than the Revised Estimate. The more important differences, as compared with the Revised Estimate, are anticipated on the following lines :—

	INCREASE +	DECREASE —	
	Receipts.	Working Expenses.	Net Earnings.
Better than the Revised—	R	R	R
Rajputana Malwa Railway .	+20,00,000	+4,00,000	+16,00,000
Bengal Nagpur Railway .	+19,00,000	+5,00,000	+14,00,000
North-East Line, Madras Railway	+1,00,000	—2,85,000	+3,85,000
Oudh and Rohilkhand Railway	+5,00,000	+1,50,000	+3,50,000
Great Indian Peninsula Railway	+10,00,000	+8,00,000	+200,000
Worse than the Revised—			
East Indian Railway .	+5,00,000	+9,00,000	—4,00,000
North Western Railway .	—42,00,000	+4,00,000	—46,00,000
South Indian Railway . .	+1,00,000	+6,25,000	—5,25,000
Eastern Bengal Railway .	—6,75,000	—2,75,000	—4,00,000

The large decrease estimated for on the North Western Railway is due to the fact that the high earnings of the current year were swollen by an exceptionally heavy wheat traffic, and it is not considered safe to reckon on a continuance of this next year.

1904-1905. Major Works—Direct Receipts.

144 The estimate of receipts from Major Irrigation Works is taken at R2,60,000 less than the Revised Estimate of the current year, which again was R22,28,000 better than the Budget framed in March 1903. It is expected that there will be an increase of R70,000 in Burma and that in the Punjab (which supplies the bulk of the revenue under this head), decreases on the Western Jumna, Bari Doab, and Sirhind Canals will be nearly made good by expansion on the Chenab and Jhelum systems

1904-1905. Decrease of Expenditure in India

145. A material decrease of expenditure in India is expected under the following heads :—

	R
Interest on Debt	24,74,000
Mint	25,88,000
Miscellaneous	7,46,000
Famine Relief	15,30,000
Irrigation—Minor Works	17,59,000
Construction of Local Railways	4,56,000

1904-1905. Interest on Debt.

146. There is an increase of R38,29,000 in the amount of interest transferred to the Railway and Irrigation accounts, representing the interest on new capital expenditure This causes a decrease in the charges for interest on debt by an exactly equal amount. The annual payment of 12 lakhs towards the principal of the Gwalior loan also gives a saving of R48,000 On the other hand, the interest on the new loan of two crores raised in 1903 will increase the charges by 7 lakhs. A further charge of R50,000 is on account of interest on the temporary loan of 50 lakhs obtained from Gwalior in January 1904 The usual provision has also been made for the loan which it is proposed to raise during the current year

1904-1905. Mint Expenditure.

147. The decrease under Mint is due to the smaller coinage expected to be undertaken during the year, involving a smaller payment to the Gold Reserve Fund. It is not, however, possible to frame a reliable estimate of the amount of additional coinage required many months in advance, and the estimate of the current year has been completely falsified.

1904-1905. Miscellaneous Expenditure.

148. The decrease under Miscellaneous occurs chiefly in the Punjab and to a less extent in Burma, the Central Provinces and the districts directly under the Government of India. In the Punjab the provision for writing-off irrecoverable loans, chiefly in the Rohtak district, is less by R6,68,000. In Burma the decrease is in Kheddah charges ; and in the Central Provinces it is due to smaller provision for payment to the Chattisgarh zemindars on the resumption of their cattle pounds.

1904-1905. Famine Relief.

149. In the estimate of the current year, a provision of 15 lakhs was made for Famine Relief in the Central Provinces and of R30,000 in the Punjab. For 1904-1905, no provision is considered necessary. As explained in paragraph 211

of the last Financial Statement, this reduction does not affect the surplus of the year.

1904-1905. Minor Irrigation Works.

150. The smaller provision for Minor Irrigation Works is due to the fact that in 1903-1904 a special additional grant of 25 lakhs was sanctioned for expenditure under this head, and this has not been repeated in the estimate for next year. The reduction is chiefly in Bengal and the Punjab

1904-1905 Construction of Railways charged to Provincial or Local Revenue.

151. The Mayavaram-Mutupet and the Jorhat Railways are the only lines now charged to the head "Construction of Railways charged to Provincial or Local Revenues." The smaller provision is considered sufficient for requirements.

1904-1905 Increase in Expenditure in India

152. The following are the more important increases in expenditure in India in 1904-1905 over the estimates for 1903-1904 —

	R
Land Revenue	20,44,000
Opium	40,00,000
Post Office	6,60,000
Telegraphs	4,51,000
General Administration	4,61,000
Courts of Law	5,59,000
Police	2,65,000
Marine	28,20,000
Education	6,29,000
Medical	2,31,000
Political	37,77,000
Superannuations	4,20,000
Construction of Protective Irrigation Works	8,90,000
State Railways—Working Expenses	99,10,000
Interest on Railway Debt	30,79,000
Irrigation—Major Works—	
Working Expenses	9,49,000
Interest on Irrigation Debt	4,37,000
Civil Works	98,87,000
Army	1,37,69,000

1904-1905. Land Revenue, Opium, Post Office, Telegraph, Civil Departments and Superannuation charges

153. The increases under Land Revenue, General Administration, Courts of Law, Police, Education, and Medical are distributed throughout all the Provinces of India and represent the additional expenditure to be incurred in improving and developing the ordinary Civil Administration of the country. The increase of R4,20,000 under Superannuations represents the normal growth of the pension list. Under Opium, in view of the bumper crop of last season, and the probable extension of cultivation consequent thereupon, it has been thought right to budget for the charges of more than an average crop as is the usual custom The latest reports moreover indicate that the current season's crop will also be considerably above the average The increased charge under Post Office and Telegraphs represents expenditure necessitated by the progressive growth of these Departments. In the case of the latter, heavier expenditure is anticipated on repairs, and a provision of R2,52,000 has been made for additional stores to be kept in reserve for Military purposes On the other hand, there is a partial set-off of R1,88,000 on account of smaller provision being required for the Central Persian line.

1904-1905 Marine Expenditure.

154. The increase under Marine is partly nominal as explained in paragraph 141. It is also due in part to provision being made for hire of transport and other charges in connection with the return of troops from Somaliland and the escort of the Aden Boundary Commission. The budget includes R6,75,000 for a new steam pilot vessel for Bengal.

1904-1905. Political Expenditure.

155. The increase of R37,77,000 under Political is due—

(1) to provision having been made for the payment of R21,50,000 on account of arrears of the Amir's subsidy, in addition to the usual annual provision of R18,50,000,

(2) to grants of R8,39,000 and R2,00,000 respectively for political expenditure in connection with the Seistan and Tibet Missions, and

(3) to the reorganization of the Waziristan Militia at a cost of R3,36,000.

156. For Protective Irrigation Works, the grant has been raised from R25,00,000 to R35,00,000 to enable better progress to be made with these works, especially the Ken Canal in the United Provinces, the investigation of the Kistna Reservoir, and the Tangabhadra and Pennar projects in Madras. *1904-1905. Construction of Protective Irrigation Works.*

157. The increased charge for working expenses of State Railways is explained in paragraph 183. It follows the expected increase of earnings. The higher charge for interest on Railways and Canals is on account of the additional capital expenditure that has been, and will be, incurred thereon. The increase under Working Expenses of Major Irrigation Works is mainly due to the transfer of the Indus Inundation Canals to this head. Larger grants have also been provided for almost every province in consequence of the extension of irrigation. *1904-1905. State Railways and Irrigation—Working Expenses and Interest on Debt.*

158. Of the increase of R98,87,000 under Civil Works, R31,00,000 represent a portion of the initial grants sanctioned for the four Provinces whose settlements have just been revised, and R22,00,000 represents special grants to the eight large Provinces referred to in paragraph 223 It is explained in paragraph 190 below, that the entry of these amounts is made under this head for convenience sake, and that the Local Governments have power to transfer the grants to any other head at their discretion Of the remainder, R20,00,000 represents the provision made in the Punjab for the extension and improvement of Simla, in accordance with the recommendation of the Simla Extension Committee *1904-1905. Civil Works Expenditure.*

159 The Military charges as a whole are considered in paragraph 192 below The following remarks refer only to that portion of the total which represents expenditure incurred in India, and brought to account under the head Army. *1904-1905. Army Expenditure.*

The Budget Estimate for 1904-1905 amounts to R20,28,15,000 against R18,90,46,000 in the current year being an increase of R1,37,69,000. The figures for the two years may be compared as follows.—

	1903-1904	1904-1905.
	R	R
(1) Ordinary Military Expenditure .	18,53,20,000	19,45,08,000
(2) New measures for increasing the efficiency of the Army . .	36,08,000	34,17,000
(3) Special Services . . .	1,18,000	48,90,000

The ordinary expenditure is expected to be greater than that of the current year's estimate by R91,88,000. Of this R74,08,000 represents the extra service pay of the British troops at 6*d* a day, which became payable under Lord Alverstone's decision, from April 1904. The Budget also includes R16,72,000 on account of recurring charges arising out of the special measures sanctioned for the current year for improving the efficiency of the Army. The remainder of the differences is the net result of a number of minor increases and savings under various heads.

The new measures sanctioned for adoption next year are enumerated in paragraph 193 below.

The special services estimated for in 1904-1905 include the following:—

	R
(1) Tibet Mission	36,00,000
(2) Military escort with the Aden Delimitation Commission	11,29,000
(3) Military escort with the Seistan Boundary Commission	1,61,000

160. The estimate of Revenue in England is less than that taken in the Budget of the current year by £108,500. Interest on investments of the cash balance is expected to be greater by £10,000, and £26,000 will be realised by the sale of four torpedo and two gun boats. On the other hand, there is a decrease of £135,500 under Army. This is due (1) to a decrease in the value of articles in the possession of Regiments on their transfer from the Indian to the British establishment, and (2) to a reduction in the number of native troops lent for Imperial service, involving smaller contributions towards pensions. *1904-1905. Revenue in England.*

161. The estimate of Expenditure in England exceeds that of the current year by £708,100 The greater part of this, £654,900, occurs under the two heads, Army and Special Defences. Under the former, there is a net increase of £64,100 in non-effective charges, due to the gradual growth of pensions. Under *1904-1905. Expenditure in England.*

effective charges there is a net increase of £440,800 representing the difference between a reduction of £219,000 due to decreased payments to the War Office on account of British Forces serving in India, and an increase of £659,800. The chief factor making up the latter is an item of £700,000, representing the cost of the new artillery and rifles with which the Indian Army is to be supplied during the year Under Special Defences there is a grant of £150,000 for *materiel* in connection with the scheme referred to in paragraph 82.

Apart from military expenditure, the estimates show a net increase of £53,200, which is the difference between the totals of numerous minor variations under many heads The more important of these are (1) an increase of £56,000 under Post Office, on account of adjustments in respect of past payments to the British Post Office, (2) a decrease of £46,500 under Telegraphs, partly on account of stores, and partly on account of reduced payments to the Joint Purse in respect of the guarantee, (3) an increase of £40,400 on account of part payment for the new Royal Indian Marine Vessel *Dufferin* which is to replace the *Clive;* and (4) an increase of £23,500 in payments to the Madras Railway Company for the construction of Protective Railways

Section IV.—Statements comparing the figures of the Estimates under the more important heads of Revenue and Expenditure with those of past years.

LAND REVENUE.

	Accounts, 1900-1901	Accounts, 1901-1902	Accounts, 1902-1903	1903-1904 Budget	1903-1904 Revised	1904-1905, Budget

England—Other Charges	£ 176	£ 670	£ 148	£ 900	£ 700	£ 900

162. The figures have been explained in sufficient detail in paragraphs 86 and 131. Now that the effects of the famine of 1899-1900 have passed away, the revenue grows steadily, under the influence of extension of cultivation, the regular revision of settlements, and the development of canal irrigation.

OPIUM.

	Accounts, 1900-1901.	Accounts, 1901-1902.	Accounts, 1902-1903.	1903-1904.		1904-1905, Budget.

Rate of duty	R500	R500	R500	R500	R500	R500

163. The quantity of Bengal opium to be sold is, as usual, taken at 48,000 chests. In view of the high average price obtained during the current year, especially at the sales of February and March, the average price for 1904-1905 has been taken at R1,250, but it is impossible to foresee what effect the war in the Far East may have on the trade. The Malwa trade has also been brisk, and a moderate increase is allowed for, though not to the full amount of the probable receipts during the current year.

164. Under 'Charges,' it is usual to budget for the payments required in respect of an average crop Last season's crop, however, was a bumper one, and the budget provision has been largely exceeded The latest reports indicate that the crop of the present season will also be considerably above the average, and it has therefore been thought prudent to frame the estimate for 1904-1905 on a liberal scale.

SALT.

	Accounts, 1900-1901.	Accounts, 1901-1902.	Accounts, 1902-1903.	1903-1904.		1904-1905. Budget.

(a) Chiefly excise on local manufacture. | (b) Chiefly duty on imported salt.

165. The effect of the reduction of duty in March 1903 has been partially obscured by the destruction of a large quantity of salt in Bombay by storm. The figures of consumption show a large increase in Madras and Northern India and a considerable falling off in Bombay and Burma. In the last named province there was no reduction of duty. Excluding Burma the returns for the first 10 months of the year show an increase of 670,000 maunds passed into consumption, compared with the same period of the previous year. This represents an increase of 2·3 per cent. The reduction in retail price has varied very considerably in different parts, but has commonly been from 1½ to 2 seers per rupee.

GRAND TOTAL	5,05,73,957	5,74,95,288	5,96,64,538	5,42,00,000	5,89,42,000	5,87,58,000
Charges	24,27,076	24,19,723	24,17,843	26,53,000	25,09,000	26,96,000

169. The fluctuations in the estimates have been explained in paragraphs 91 and 136. The continued large imports of silver are a remarkable feature of the last three years, and afford an index of the increasing prosperity of the country. The growth of the receipts from the Excise duty on cotton goods, from R11,23,000 in 1896-97 to nearly double that figure in the present year, is striking evidence of the healthy vitality of this important industry. The reduced receipts from petroleum are due to the displacement of Russian and American oil by oil from Burma.

The charges in Bengal were swelled by the refund of the share of overtime fees which had been credited to Government, and which it has been decided to return to the Preventive and Custom House staff.

ASSESSED TAXES.

	Accounts, 1900-1901.	Accounts, 1901-1902	Accounts, 1902-1903.	1903-1904 Budget.	1903-1904 Revised.	1904-1905, Budget.

England	56,392	77,151	157,315	30,000	133,000	40,000

172. The increase in 1904-1905 arises chiefly from the large advances given to the Simla-Kalka Railway The large increase in receipts in England was due to larger sums having been available for investment, and to a better rate of interest having been obtained upon them The reduction in receipts in India in the current year is partly due to the remission of interest on loans granted to Native States for expenditure on famine relief, as announced by His Excellency the Viceroy on 1st January 1903. These remissions appear in the accounts in the form of a reduction in receipts under this head. In addition to remitting the interest on the loans directly granted by the Government of India, Government also undertook to pay the interest on loans of a similar character raised by the Native States in the open market on a Government guarantee. These payments appear in the accounts as charges under the head 32.—Miscellaneous. The total value of both concessions is nearly 27½ lakhs and is distributed over four years as follows :—

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 19th March 1904.

Madras.—No rain fell during the week. Irrigation supplies are insufficient in parts of Deccan and Tinnevelly Ploughing, sowing and transplanting are in progress in parts The standing crops are generally fair Harvests continue with fair outturn Pasture is scanty in parts of the Circars, the Deccan, and the South Canara Fodder is procurable. The condition of cattle is good Prices are almost stationary

Bombay.—There was very slight rain during the week in parts of Satara and Belgaum The standing crops have been damaged by locusts in parts of Ratnagiri and Satara, by blight or insects in parts of Upper Sindh Frontier and Dharwar, and are generally in good condition elsewhere. Harvesting of spring crops has commenced in parts of Upper Sindh Frontier and Thar and Parkar, and continues in parts of Karachi, Ahmedabad, Broach, Surat, Khandesh, Nasik, Sholapur, the Carnatic, the Konkan, and Baroda. Threshing continues in parts of Surat, Nasik, Ahmednagar, Satara and Rajkot. Cotton is slightly damaged by blight in parts of Dharwar, is in fair condition in parts of Ahmedabad, and is in good condition in parts of Larkana, Broach, Surat, Satara Carnatic and Baroda. Picking is nearly completed in Khandesh and continues in parts of Ahmedabad, Broach, Surat, Satara, Carnatic, and Baroda Preparation of lands for next season is in progress in parts of the Konkan, Deccan, the Carnatic, Rajkot, Wadhwan and Baroda. The fodder supply is sufficient. Agricultural stock and water supply are generally sufficient Prices have fallen in two districts, risen in three districts, and are stationary elsewhere.

Bengal.—Rain is reported from Darjeeling and parts of Lower Bengal and Orissa. The fall was heavy at Darjeeling, but light elsewhere. Prospects are generally good Harvesting of spring crops and pressing of sugarcane continue Lancing of poppy approaching completion. Ploughing and sowing are in progress. Fodder and water are generally sufficient. The price of common rice has risen in three districts, has fallen in six, and is stationary in the remainder.

United Provinces.—No rain fell during the week except a slight sprinkling in Dehra Dun and Almora The spring crops are being harvested, and the preparation of fields for autumn crops is in progress. The pressing of sugarcane and the extraction of opium continue The standing crops have been slightly damaged by hail in Almora, Allahabad, and Gonda. Supplies and fodder are sufficient Prices continue stationary

Punjab.—Good rain has fallen in Shahpur, Rawalpindi, and Mianwali and insignificant showers are reported from Umballa, Lahore, Amritsar, Sialkot, and Multan. The price of wheat is falling slightly in Jullundur, Amritsar, Rawalpindi and Mianwali, and is rising in Lahore, the prices of other food grains are fluctuating Ploughings and sowings of extra spring crops and of sugarcane and cotton are in progress in most districts Rapeseed is being harvested in Hissar. The condition of the standing crops is reported good in all districts except Delhi and Hissar Unirrigated crops in Hissar were revived by the recent rainfall. Locusts appeared in the Lahore district, but did no damage. Cattle are generally in good condition. Fodder is said to be sufficient in all districts except Delhi and in parts of Rawalpindi.

North-West Frontier Province.—Rainfall of the week averaged from half an inch to over one inch. Showers have fallen in all districts, and the rain though generally beneficial has caused some injury to the irrigated crops and a break is now wanted Sugarcane and vegetables are being sown in Peshawar. Stocks of food grains and fodder are ample. Prices are falling, and are exceptionally low for the time of year.

Burma.—There was slight rain in four Northern districts. Reaping of hill side paddy is completed in Tavoy. Cultivation of dry weather paddy is progressing in places; and reaping is commenced in Kyunhla township of the Shwebo district. Reaping of gram and wheat and plucking of tobacco continue. Clearings on hill sides are in progress Price of paddy has fallen slightly in six centres, and risen slightly in one centre.

Central Provinces.—The weather has been occasionally cloudy, and light showers have fallen in Nagpur, Chanda, and Balaghat. The harvesting of spring crops continues and threshing is in progress. The outturns are generally good. Slight damage by the recent

hail is reported from fifteen villages in the Hatta Tahsil in the Damoh district. Rain and cloudy weather have also caused some damage to pulses in the Jubbulpore and Mandla district. The preparation of land for autumn sowings continues. Prices of wheat and grain show a slight tendency to fall.

Assam.—Rain fell in all districts during the week. More rain is wanted for tea and early rice in Kamrup. Sugarcane pressing, ploughing for rice and jute, and sowing of early rice are in progress. Tea pruning and gathering of mustard still continue in the Surma valley. Plucking of tea is commenced in Sibsagar. The outturn of sugarcane and the prospects of tea are fair. Fodder is insufficient in parts of Sylhet and in the Hills. Water is insufficient in the Hills Prices—common rice—Silchar and Sylhet 18; Tezpur 17; Dhubri, Gauhati, and Nowgong 16, Sibsagar 13, and Dibrugarh 12 seers per rupee.

Mysore.—Prices are steady. The standing crops are in good condition. Prospects of the season are good. Cattle are healthy except in parts of Shimoga. Water and fodder are available.

Coorg.—Prices of food grains are normal. Water and fodder are sufficient.

Hyderabad—There was no rain during the week Spring harvest is nearing completion and weeding of late rice continues. The standing crop is good Lands are being prepared for autumn sowings Prices—wheat 12¾; rice 11¼, and *jawari* 31 seers per hali rupee.

Rajputana—Rain fell in parts during the week Agricultural operations are generally satisfactory The condition of the standing crops and of cattle is generally good except the opium crop which has been damaged in parts by hailstorms Fodder is ample. Prices are favourable.

Central India.—There was slight rain in parts of Gwalior, none elsewhere. Agricultural operations are in progress Crops are good in Gwalior, Baghelkhand, Bundelkhand, and Bhopawar; and fair elsewhere though slightly damaged by rain in parts of Indore, Bhopal, and Baghelkhand. Agricultural stock and pasturage are generally good. Prices are normal in Gwalior, Indore, and Bagelkhand, steady in Bundelkhand and Malwa, rising in Bhopal, and falling in Bhopawar Opium is good in Gwalior and Indore, and fair in Bhopal, Malwa, and Bhopawar

Kashmir—The weather is mostly bright. Prices are stationary.

Jammu.—There was slight rain during the week. Prices are stationary Wheat sells from 14 to 20 and maize from 24 to 38 seers per rupee. The condition of the standing crops is good. Fodder is sufficient Land is being prepared for autumn sowings

Nepal.—There was no rain during the week The weather is bright and clear and getting warm The price of rice is 5½ seers for the rupee.

J WILSON,

Secretary to the Government of India

BOARD OF EXAMINERS.

NOTICES.

Specimens of Persian Manuscripts for the use of candidates for the degree of Honour and High Proficiency examinations in Persian, published in facsimile by the Board of Examiners, Fort William, under the authority of the Government of India, Price R6 Forwarded V.P P., on application to the Secretary, Board of Examiners, 26, Mangoe Lane

For the convenience of Civil and Military officers desirous of appearing for examination in oriental languages, the Board of Examiners will in future publish periodically a collection of specimen papers set for the examinations held by them. A collection of papers recently set is now ready for sale—price Rs. 3 per copy—and may be obtained on application to the Secretary, Board of Examiners, 26, Mangoe Lane.

ACCOUNTANT GENERAL.
PUBLIC WORKS DEPARTMENT.

NOTIFICATION.

Calcutta, the 23rd March 1904.

No. 4.—Mr. F. E. Bingham, Assistant Examiner of Accounts, is transferred from the office of the Examiner of Public Works Accounts, Madras, to that of the Examiner of Public Works Accounts, United Provinces.

R. N. BURN,
Accountant General.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications, and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified, or, if the tenth day is a holiday, till the evening of the office day next following

---

At the time of delivering or sending an application for leave to file a specification the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

C. R. WILSON,
Secretary under the Inventions and Designs Act, 1888.

174. The above statement shows the revenue and expenditure brought to account under the head Post Office in the Finance and Revenue Accounts. To obtain a correct idea of the true profit and loss on the working of the Postal

Service, various adjustments are necessary. These are exhibited in the following statement —

	Accounts, 1900-1901	Accounts, 1901-1902.	Accounts, 1902-1903.	1903-1904. Budget.	1903-1904. Revised	1904-1905, Budget
	R	R	R	R	R	R
Total Net Revenue	20,24,130	15 46,275	12,47,353	1,05,000	9,89,000	—5,34,000
Add —						
Authorised Adjustments	2,40,000	2,10,000	2,76,000	5,76,000	5,76 000	5,76,000
Cost of Savings Bank out-of-pocket expenses . .	3,60,000	3,60,000	3,79,500	3,90,000	3,90,000	3 90,000
Allowance for undercharge in official rates of postage	45,00,000	45,00,000	46,20,000	47,25,000	47,25,000	47,70,000
Total Profit of the Postal Service . . .	71,24,130	66,16,275	65,22,855	57,96,000	66,80,000	52,02,000

175. The adjustments include both credits and debits Among the former are the following, *viz*. —

(1) Charges on account of District Post establishments, which are debited to the Post Office but are met from special cesses, and

(2) Share of Subsidies, which are debited to the Post Office, but which really appertain in whole or in part to other Departments, such as Military or Political.

Among debits there are the following —

(1) District Post collections

(2) Value of free services rendered by Railways.

(3) Rent of Government buildings.

(4) Pensionary charges and gratuities

Total net Revenue	113,129	3,922	—32,763	—129,900	—90,909	—163,500

176 The variations in revenue and expenditure have been explained in paragraphs 84, 114, 129 and 153 Of the decrease in the Revised Estimate of the current year, R1,00,000 is expected in Indian revenue, and R3,30,000 in the receipts from the Indo-European Telegraph Department. The reduction in expenditure in England on revenue account is mainly due to smaller payments on account of the guarantee (£16,500 instead of £38,000) in connection with the reduced rate for foreign telegrams When the tariff for foreign messages was reduced from 4s. to 2s 6*d*. a word from 1st March 1902, the Government of India undertook to make good to the Joint Purse the loss of revenue involved,

up to a maximum of £45,000 a year. For the first year, allowing for some increase of traffic, it was estimated that the payment under this guarantee would amount to £38,000 In fact, however, the traffic has increased in a far higher degree, and the actual payment required has been only £16,500 During the current year the traffic has continued to grow, and it is now estimated that only £12,300 will be payable in 1904-1905 Allowance has been made in the estimate for next year for the recent reduction in the tariff for inland telegrams

The increase in Capital expenditure in India, in the ensuing year, is due to provision having been made for extra mobilisation stores. The increase in revenue expenditure is due to heavier repairs of lines being anticipated, and to increased maintenance charges of signalling offices

177. These figures have been explained in paragraphs 94, 105, 129 and 147 Just before the close of the previous year, £300,000 worth of silver was purchased, and this was coined into rupees during the current year In addition to this, the very large sum of 4½ millions sterling worth of silver has been purchased during the course of the year in England and in India, and the greater part of this will have been coined by the end of the present month The profit on this coinage is expected to amount to R3,69,86,000, which has been, or will on completion be, transferred to the Gold Reserve Fund and invested.

The withdrawal and recoinage of the 1835 and 1840 rupees were continued during the year, 491 lakhs of these having been called in and recoined, in addition to over 50 lakhs which are awaiting recoinage at the present time.

180. The figures have been explained in paragraphs 116, 117, 149 and 156. The increase* in the current year in the net charge on account of the Bengal-Nagpur and the Indian Midland Railways is chiefly due to the inclusion for the first time of interest charges amounting to R12,26,000 on the northern section of the East Coast Railway, which is worked by the Bengal-Nagpur Railway. Till 1902, it was commonly held that there was no scope for the further construction of purely protective railways, i e, of lines which are valuable for opening up areas liable to famine, but which are not likely to pay interest on the cost of construction. This view no longer prevails, and a series of small but useful lines have been undertaken in Madras, and are being financed from the Famine Grant.

181. The information given in paragraph 255 of the last Financial Statement is repeated and brought up to date below.

Statement showing the Disposal of the Provision made in 1877-78 for Famine Relief and Insurance.

Guaranteed Railways— Miles open on April 1	2,612	1,305	1,334	1,366	1,349	1,409

182. The Revised Estimate of net receipts from State Railways in 1903-1904 is better than the Budget Estimate by R1,08,51,000 or £723,400, the gross receipts having exceeded expectation by R1,61,39,000 and working expenses by R52,88,000. Details of the more important variations are given in paragraph 98 above.

The great improvement on the North Western Railway system was due partly to increased open mileage, but chiefly to general development of traffic throughout

the system, and especially in connection with the Jhelum and Chenab Canal Colonies. The exceptionally heavy wheat traffic was the dominating feature of the year. The counrry served by the Rajputana-Malwa Railway seems not yet to have fully recovered from the scarcity of some years back The coal traffic on the Midnapore-Jherriah branch of the Bengal-Nagpur Railway has not come up to expectations

183 The estimate of net receipts from State Railways in 1904-1905 is placed at R26,22,000 or £174,800 below the Revised Estimate of 1903-1904. An increase of £133,300 has been taken in gross receipts and an increase of £308,100 in working expenses The former allows for normal expansion of traffic and for development of traffic on extensions recently opened, but assumes that the very high rate of increase recently obtained on the North Western Railway and some other lines will not be maintained. Working expenses follow the receipts, but it has also been found necessary to provide for special renewals of permanent way and rolling-stock, and for repairs to flood damages in continuation of those undertaken in the current year The increase in Interest and other charges in India is due to the progress of capital outlay, and that in England chiefly to further receipts of capital from Railway Companies As a result of these increases, the estimated net gain from the working of State Railways in 1904-1905 is less by £459,300 than in the Revised Estimate for 1903-1904.

The principal modifications allowed for in the estimates of net receipts have been specified in paragraph 143

184 The Revised Estimate of net receipts from Guaranteed Railways shows an improvement of £28,700 compared with the original estimate, due chiefly to a large increase in goods traffic on both the Madras and Bombay, Baroda and Central India Railways, partly counteracted by an increase in working expenses In the Budget Estimate for 1904-1905 a further improvement in net receipts of £41,200 has been allowed for, the whole of this is on the Bombay, Baroda and Central India Railway, the country served by which has now recovered from the effects of famine The increase in the Revised Estimate of Surplus Profits, Interest and other charges in India compared with the original estimate is due mainly to the larger share of surplus profits payable to the Bombay, Baroda and Central India Railway Company consequent on improved earnings The decrease in the estimate of Interest paid in England is due to capital not having been raised as anticipated The increases allowed for in the Budget Estimate for 1904-1905 under these heads are due mainly to the larger share of surplus profits payable to the Bombay, Baroda and Central India Railway Company and to further receipts on account of capital.

IRRIGATION.

Irrigation.	Accounts, 1900-1901.	Accounts, 1901-1902.	Accounts, 1902-1903	1903-1904 Budget.	1903-1904 Revised.	1904-1905, Budget.
Major Works.	R	R	R	R	R	R
Revenue — Direct Receipts	2,47,71,151	2,33,93,665	2,72,44,019	2,67,57,000	2,89,85,000	2,87,25,000
Revenue — Land Revenue	1,12,36,246	1,22,00,957	1,22,15,889	1,26,26,000	1,30,32,000	1,32,67,000

Expenditure	1,06,48,641	1,07,79,865	1,27,72,936	1,47,05,000	1,34,70,000	1,29,47,000
Statistics of Major Works.						
Capital Outlay to March 31	35,21,44,980	36,15,60,720	37,24,61,175	38,41,68,720	38,31,32,175	39,94,10,175

185 In the Revised Estimate, the direct receipts from Major Works show an increase over the Budget Estimate of R22,28,000 The Punjab contributes the main portion of this increase which is partly due to general all-round improvements and partly to the transfer of the Indus Inundation Canals to "Major Works"

186 The Revised Estimate of expenditure shows an increase of R6,85,000 over the Budget Estimate This is partly due to the execution of certain works of maintenance not foreseen when the budget was framed, and partly to the working expenses of the Indus Inundation Canals, and special repairs to damages caused by heavy floods in the river Kistna. In the Budget for 1904-1905 provision has been made for the Indus Inundation Canals, and for larger grants required in almost every province owing to the expansion of irrigation.

187 As regards 'Minor Works,' the reduction under receipts in the Revised Estimate is due mainly to the transfer, during the year, of the Indus Inundation Canals to the category of Major Works The increase in the Budget for 1904-1905 as compared with the Revised is due to the introduction of water rates on the Lower Sutlej Inundation Canals consequent on the abolition of the Chher system Under expenditure, the Budget Estimate for 1903-1904 included a special additional grant of R25 lakhs The Revised Estimate, however, shows a lapse, due to its not having been practicable to utilise this grant fully in 1903-1904 In the Budget for 1904-1905, a special contribution of 3 lakhs to the Central Provinces is included

India R	64,76,334	67,63,743	68,73,931	67,39,000	78,41,000	68,04,000
England £	26,714	28,649	28,679	27,900	25,700	26,800

188. The Military Works expenditure of the year in India is expected to be less than the Budget Estimate by R5,27,000, due chiefly to the transfer of R5,47,000 to the grant for expenditure in England. Special expenditure amounting to R4,43,000 was sanctioned during the year out of savings in Army expenditure due to the continued absence of troops in Somaliland. But the excess due to this has been nearly counterbalanced by savings on other works. Under the new system of budgetting for Military Works expenditure there will be a fixed quinquennial grant for all expenditure except that on large works costing over R50,000 each, which will be separately budgetted for year by year according to requirements Any part of the grant for the year not spent within the year will be regranted for expenditure in the following year, up to a maximum of 10 per cent on the whole grant. The Budget for next year has been fixed on these lines at R1,58,50,000 for both India and England, and is made up as follows.—

		R
Fixed quinquennial grant		97,00,000
Large works costing over R50,000 each—	R	
(a) Schedule items	28,95,000	
(b) Other works	29,55,000	
		58,50,000
Regrant of expected lapses of 1903-1904		3,00,000
TOTAL		1,58,50,000

189. It is expected that the expenditure in India on Imperial Civil Works during 1903-1904 will be more than the Budget Estimate by R8,47,000, due to additional sums being required for works in several provinces.

The Budget grant for 1904-1905, inclusive of provision for special payments in England, has been fixed at R1,10,99,000.

190. The Revised Estimate of Provincial Civil Works shows an increase of R27,16,000, as compared with the Budget, and is due to more funds being available for expenditure. The Revised Estimate of Local Civil Works shows a decrease of R15,51,000. The Provincial Civil Works Budget for 1904-1905 includes the following grants which have been entered under this head merely for the sake of convenience, and are liable to be transferred at the discretion of the respective Local Governments for expenditure under other heads They represent partly a portion of the initial lump grants made to four Provinces whose settlements have just come under revision, and partly special grants made from Imperial revenues during 1903-1904 for expenditure during 1904-1905 on particular works of public improvement:—

	R
Central Provinces	1,50,000
Burma	3,00,000
Assam	5,50,000
Bengal	20,00,000
United Provinces	12,00,000
Punjab	22,00,000
Madras	9,00,000
Bombay	9,00,000
TOTAL	82,00,000

191. As usual of late years, considerable savings have accrued on the military estimates in consequence of the absence of troops in China, and also in Somaliland. They were, however, on a considerably smaller scale than in 1902-1903. Inclusive of stores, they amounted to R35,88,000: and out of this, sums aggregating R27,10,000 have been applied to meeting the cost of various measures for improving the efficiency of the army and its various Departments. The largest items among these were the following:—

	R
Construction of the second section of the road to the hill cantonment, Lansdowne	2,00,000
Cost of warm coats sent to Africa, and condemned by the Military authorities in that country	3,05,000
Special purchase of 1,900,000 rounds of ·303 ammunition	1,72,000
Supply of 895 sets of mekometers	1,47,000
Reconstruction of N. I. lines at Secunderabad, Bangalore and Bellary	1,03,000
Additional grant for Camps of Exercise and Instruction	1,00,000
Staff College at Quetta (collection of materials for building)	1,00,000
Increase in pay of Indian Medical Service officers	2,00,000
Stables and quarters for horse-breeding operations	85,000
Re-armament of two 5·4 inch howitzer batteries (part)	84,000

192. It will be convenient to bring together the figures exhibiting the whole military expenditure of India both in this country and in England, and irrespective of the head of account under which it is charged.

The following shows these figures for the Budget Estimate of 1903-1904:—

	In India	In England
	R	£
(1) Ordinary Military expenditure, including the Hyderabad Contingent	18,53,20,000	4,662,400
(2) Special measures for increasing the efficiency of the Army—		
(a) Under Army	36,08,000	426,400
(b) Under Military Works	40,60,000	...
(c) Under Marine	...	63,300
TOTAL	76,68,000	489,700
(3) Special Services	1,18,000	...
(4) Coast Defences	18,00,000	.
GRAND TOTAL	19,49,06,000	5,152,100

The corresponding figures for 1904-1905 are as follows:—

	In India	In England
	R	£
(1) Ordinary Military Expenditure including the Hyderabad Contingent	19,45,08,000	4,769,300
(2) Special measures for increasing the efficiency of the Army—		
(a) Under Army	34,17,000	824,400
(b) Under Military Works	30,55,000	...
(d) Under Marine		107,000
TOTAL	64,72,000	931,400
(3) Special Services	48,90,000	
(4) Coast Defences	16,00,000	150,000
GRAND TOTAL	20,74,70,000	5,850,700

193. The increase under "Ordinary Expenditure" has been explained in paragraph 159. The principal factors are (1) R74,08,000 on account of the extra service pay of British troops, and (2) £169,000 on account of ordnance stores for manufacture of ·303 ammunition Of the increase in respect of the special measures for increasing the efficiency of the Army, £500,000 represents the cost of new artillery, and £200,000 of new rifles which (along with a part of the expenditure on coast defences) are to be provided from the surplus revenue of the current year as explained in paragraph 82.

Excluding these two items the cost of the special measures amounts to R64,72,000 in India and £231,400 (equivalent to R34,71,000) in England, or a total of R99,43,000 as compared with R1,50,14,000 in the current year. The principal items making up this total are the following —

	R
Rearmament of the Native Army	14,67,000
Buildings for Rifle Factory, Ishapore	4,00,000
Rolling Mills at Ishapore	9,52,000
Central Gun Carriage Factory, Jubbulpore	4,00,000
Construction of Royal Indian Marine Vessel *Dufferin*	16,05,000
Increase in strength of Native Army Reserves	3,00,000
Establishment of a Staff College in India	2,00,000
Railway Pioneer Battalion	2,29,000
Installation of Electric Lights and Fans in barracks	7,00,000
Increase to strength of Native Infantry Battalions in Madras and Bombay Commands	5,00,000
Mobilisation equipment for northern line of communications	5,03,000
Reorganization of Artillery	3,00,000
Addition of 36 horses to each British Cavalry Regiment	2,76,000
Accommodation for 3 Howitzer Batteries	2,50,000
Improvement of rifle ranges for the regulars	2,00,000
Re-introduction of signalling into all Batteries, of horse, field, heavy and mountain artillery	2,71,000

The items included under special services have been specified in paragraph 159

Section V.—Capital Expenditure on Railways and Irrigation Works not charged to Revenue.

RAILWAY CONSTRUCTION.

194. The expenditure on Railway Construction for which the Government of India undertakes any financial responsibility or gives any direct guarantee is estimated at R9,82,07,000 in the current year and at R12,00,00,000, (inclusive of R60,00,000 for the purchase of four branch Railways) in 1904-1905, the amounts having been R10,05,75,960 in 1902-1903 and R11,00,00,000 in the Budget Estimate of the current year The lapse of R1,17,93,000 in the current year is due to short outlay in England against some of the amounts placed at the disposal of the Secretary of State and some of the Companies' Boards for the purchase of rolling-stock and stores. This was largest in the case of the East Indian, Madras and South Indian Railways. It was partly compensated for by increased outlay in India and by commencement of construction work on the Ondal-Sainthia and Khurja-Hapur branches of the East Indian Railway. The distribution of the total expenditure on Railway Construction between

State and Companies' agency in each of the three years from 1902-1903 to 1904-1905 is as follows :—

	Accounts, 1902-1903.	Revised Estimate, 1903-1904	Budget Estimate, 1904-1905
Expenditure in England.	£	£	£
1 State Lines	1,529,344	1,287,800	1,709,000
2. Old Guaranteed Railways	462,521	484,900	416,400

Section VI.—Provincial Finance.

206. During the year an important step in advance was made in the development of Provincial finance As it is possible that this new departure may have important and far reaching consequences, it is desirable to explain its nature in some detail.

Early history of Provincial finance

207. When the system of provincialisation was first introduced in 1871 by the Government of Lord Mayo, the method adopted was briefly as follows :—Certain heads of expenditure, of which the more important were Police, Education, Jails, Medical Services (in part), Printing, Roads and Civil Buildings, were made over to the Local Governments. To meet these charges, there were assigned to the latter the departmental receipts under the corresponding heads, and also a fixed lump grant from Imperial Revenues: the Local Governments being left to make up the deficiency, if any, by local taxation.

208. This system remained in force without material change till 1877. In that year an important modification was introduced by the Government of Lord Lytton. In the first place, a considerable addition was made to the heads of expenditure transferred to Provincial management, the new heads (in most Provinces) including Land Revenue, General Administration, Law and Justice, and Miscellaneous. Secondly, certain principal heads of revenue, including Stamps and Excise, were provincialised, the growing receipts from these sources taking the place, *pro tanto*, of the former fixed lump grant. Since 1877, a number of changes of detail have been effected, mostly in the direction of adding to the heads (or shares of heads) of expenditure and revenue which are under Provincial control. But no alteration of principle has been introduced, and broadly* speaking it may be stated that the present position is as follows :—Each Local Government is responsible for the whole of the expenditure recorded under "Salaries and Expenses of Civil Departments," "Miscellaneous Civil Charges," "Irrigation" (in part), and "Civil Public Works", as well as some charges under "Interest." It receives the whole of the corresponding departmental receipts, and a certain share (which is different in different Provinces, and under different heads) of each of the "Principal heads of Revenue" except Salt, Customs, Opium,

The present system

* There are numerous exceptions of detail in relatively minor points, and variations between the different Provinces. It is unnecessary to specify these at length in the present place.

and Tributes. In some Provinces, irrigation revenue is also Provincial in whole or in part. The excess of expenditure over revenue is made up by a fixed assignment from Imperial Revenues.

209. Under this system the Provincial shares of growing revenue have usually (though not uniformly) increased more rapidly than the sum which could properly be spared for expenditure under the Provincial heads, having regard to the general needs of Imperial finance. It was therefore necessary to revise the terms of the settlements from time to time, ordinarily at five-year intervals, with a view to adjust inequalities that had arisen, either between the Provinces themselves, or between the Provinces as a whole and the Imperial Government. These quinquennial revisions have usually, though not invariably, resulted in the resumption of a certain amount of revenue for Imperial purposes. When the settlement of 1877 was made, a total retrenchment of 40 lakhs was enforced; in 1882 the finances were in a prosperous condition and the Imperial Government surrendered an additional 26 lakhs net, in 1887 they resumed 64 lakhs, and in 1892, 46 lakhs The last revision, made in 1897, effected little change in the aggregate, increases to some Provinces being almost exactly counterbalanced by resumptions from others.

Its defects.

210. The system is marred by several grave defects :—

(1) The periodical revisions interfere with the continuity of Provincial finance, and each revision involves a protracted and sometimes controversial discussion with the Local Governments.

(2) A still more serious evil is that the system tends to encourage extravagance rather than economy "It has been described as a system of five-year budgets and this definition indicates the root of the evil Each Local Government is supposed to be free to enjoy the fruits of its economy, or of the successful nursing of its revenues. But in practice its term of enjoyment is limited to five years, or, more correctly, to the last two or three years of the term of settlement, for during the earlier years it has usually little margin to spend. It is therefore under constant temptation to spend its money, not on carefully matured schemes of well-thought-out improvement, but on such as can be carried through before the close of the settlement, in order to leave as small a balance as possible for resumption at the impending revision."

(3) The apportionment of revenue to the several Provinces has never been made on any definite or logical principle.

The new system.

211 To remove these defects, and in particular to introduce an element of relative permanence into the settlements, the following arrangement has been made Firstly, it has been decided to give the Local Governments a permanent, instead of a merely temporary interest in the revenue and expenditure under their control. Secondly, the assignments to the Local Governments will include a slightly smaller share of growing revenues Thirdly, this share has been calculated so that each Province separately, and all the Provinces taken together, shall be placed in possession of an amount of growing revenues which bears approximately the same proportion to the Provincial expenditure as the Imperial share of growing revenues bears to Imperial expenditure. With some small exceptions the actual heads of revenue which are either Imperial, Provincial, or divided, have been left unchanged, but the Provincial shares of the divided heads have been altered in accordance with the principle stated above. When any head of revenue is divided between Imperial and Provincial, the corresponding head of expenditure has ordinarily been divided in the same proportion.

Modifications of detail.

212. In applying these principles to the actual figures, it was found that the aggregate Provincial expenditure represented rather less than one-fourth of the whole, while the Imperial expenditure, which includes the army and the home charges, was in excess of three-fourths These proportions have accordingly been taken as the basis of the division of revenue between Imperial and Provincial, but numerous adjustments have been necessary—(1) to make allowance for the heads of revenue which are wholly Imperial or wholly Provincial as the case might be, (2) to allow for a larger assignment to the more backward Provinces than to those which are more advanced; and (3) to permit of provision being made for various administrative reforms and works of improvement which it is

desired to undertake. Subject to these adjustments, which are specified below, it has been decided that the divided heads of revenue, and of the corresponding heads of expenditure, shall be shared as follows:—

(1) In Bengal, United Provinces, Bombay, and Madras, three-fourths Imperial and one-fourth Provincial.

(2) In the Punjab and Burma, five-eighths Imperial and three-eighths Provincial, and

(3) In the Central Provinces and Assam, half Imperial and half Provincial.

213. It is intended that the settlements thus made shall be permanent, in the sense that they shall not be subject to revision at the end of fixed periods. The Government of India necessarily reserves to itself, as the final authority in India responsible for the finances and administration of the country, the power to revise the settlement of any or all Provinces at any time whenever necessity may demand it. It is however the intention of Government only to exercise this power when the variations from the initial relative standards of revenue and expenditure in any Province have, over a substantial term of years, been so great as to result in unfairness either to the Province itself, to other Provinces, or to the Government of India, or in the event of the Government of India being confronted with the alternatives of either imposing additional taxation or of seeking assistance from the Provinces.

214 For the present, the scheme has been applied to four Provinces, *viz*, Bengal, Madras, Assam, and the United Provinces. In the ensuing year it is proposed to extend it to Bombay and the Punjab, and possibly also to the Central Provinces

215. The modifications that have been made in applying the scheme to these four Provinces are as follows:—

Bengal.—The Provincial share of revenue and expenditure has been taken at one-half under Stamps, and at seven-sixteenths under Excise, while Registration receipts and charges have been made wholly Provincial; and the expenditure recorded under 3—Land Revenue, which really represents the cost of the ordinary district administration, is also made wholly Provincial. An addition of 4 lakhs has been made to the fixed assignment to enable the Local Government to improve the pay of ministerial establishments, and a further addition, not exceeding 2½ lakhs, will be made when a scheme has been prepared and sanctioned for strengthening the staff of Deputy Collectors.

Madras.—The Provincial share of Stamp revenue and expenditure has been raised to one-half. The revenue and expenditure under Registration, and expenditure under 3—Land Revenue have been made wholly Provincial. Special provision has been made in the form of a lump non-recurring grant of 20 lakhs for surveys and settlement. Grants of R75,000 and R50,000 a year have been made for the relief of certain local bodies, and for agricultural experiments, and the fixed assignment has been placed at a specially high figure. The Government of India have also undertaken to provide for the cost of reorganising the district administration.

United Provinces.—The Provincial share of Stamp revenue and expenditure, and of the expenditure under 3—Land Revenue has been raised to one-half. Irrigation revenue has been made wholly Provincial, subject to a guarantee from the Government of India that the net receipts shall not fall below 40 lakhs a year; and special grants of 2½ lakhs and 1½ lakhs per annum respectively, have been made to enable the Local Government to relieve Municipalities from the charges for municipal police, and to reform the system of District Board finance.

216. The net result of the new settlements in these four Provinces is an increase of the Imperial contribution to Provincial of R23,89,000 per annum as follows:—

	R
Bengal Provincial assignment *less*	−5,00,000
Madras Provincial assignment *more*	+16,56,000
United Provinces Provincial assignment *more*	+8,25,000
Assam Provincial assignment *more*	+4,08,000
TOTAL	+23,89,000

General Result.

217. The shares of growing revenue and the fixed assignments from Imperial to Provincial stand as follows:—

(*Figures in thousands of Rupees.*)

	Madras.	Bengal.	United Provinces.	Assam.
Growing Revenues . . .	2,90,82	4,49,84	3,62,64	60,07
Fixed Assignment . . .	59,66	49,03	4,00	12,00
TOTAL	3,50,48	4,98,87	3,66,64	72,07

The provincialisation of the whole of the Irrigation Revenue in the United Provinces, and the assignment of half shares of the Principal Heads of Revenue in Assam, account for the large proportion which the growing revenues bear to the total in those Provinces

Effect of the alteration in the shares.

218. The following table shows the share of the average annual increments of revenue (calculated on the basis of the figures for the years 1892-93 to 1902-03), which the Local Governments would have received if the terms of the old settlements had remained unchanged, with the share which they will receive under the new settlements:—

(*Figures in thousands of Rupees.*)

	Under the old Settlements.	Under the new Settlements.
Madras	5,60	4,89
Bengal	9,00	7,33
United Provinces	3,33	3,91
Assam	1,50	1,24

In other words, out of the annual increment of revenue of the four Provinces taken together, the Imperial Government will receive R2,06,000 more than it has hitherto done. On the other hand, owing to the division of expenditure under the heads corresponding to the Principal Heads of Revenue, the Government of India will bear R36,000 of the present Provincial increment of expenditure. On the whole, therefore, the Imperial Government receives an additional net increment of revenue of only R1,70,000.

219. Finally, in order that the Local Governments may start the new settlement under favourable conditions, the Government of India have sanctioned the following initial grants, *viz.*:—

	Lakhs.
To Bengal	50
,, Madras	50
,, United Provinces	30
,, Assam	20

The grant to Bengal is exclusive of a grant of 50 lakhs which has been separately sanctioned for the Calcutta Improvement scheme, and which is conditional on an acceptable scheme being framed and sanctioned. The grant to Madras includes 20 lakhs on account of special survey and settlement expenditure which is likely to be spread over several years, but will not recur permanently These grants have been made in the Revised Estimate of 1903-04, and will go to increase the Provincial opening balances of the ensuing year. It is not contemplated that the Local Governments will desire to spend more than a portion of these during 1904-05, and the following provision has accordingly been made by addition to the Provincial Budgets under 45.—Civil Works, *viz.*:—

	Lakhs.
Bengal	15
Madras	10*
United Provinces	6
Assam	4

* Including 4 lakhs under 3.—Land Revenue for special surveys.

The Local Governments will be at liberty to transfer these grants for expenditure under any other heads at their discretion.

220. In addition to the above a grant of R1,25,000 has been made to the United Provinces to compensate the Province for expenditure on the purchase of encumbered estates in Bundelkhand under the Bundelkhand Encumbered Estates Act, 1903.

221. The following table gives the usual information regarding the Revenue, Expenditure and balances of each Province, compared with the standard of 1897 :—

	Estimate for the Settlement of 1897-98 to 1901-1902	Accounts.						Revised, 1903-1904.	Budget, 1904-1905

Closing Balance	..	5,09,000	15,04,000	...	..	58,23,000	34,00,000	32,77,000	20,00,000

222. In the four provinces whose settlements are under revision, the new standard of Revenue and Expenditure is as follows:—

	R
Assam	72,07,000
Bengal	4,98,87,000
United Provinces	3,66,64,000
Madras	3,50,48,000

223. The closing balances shown in the Revised Estimate include grants, aggregating R1,62,65,008, which have been given from Imperial revenues during the current year for expenditure on certain special purposes, in addition to the grant of R1,50,00,000 referred to in paragraph 219. In the case of Bombay, the Punjab, and the Central Provinces they also include R13,11,000, R7,86,000 and R15,28,000 respectively given to these Provinces to enable them to close with the prescribed minimum balance The following table shows the distribution of the grants to various Provinces —

PROVINCES	Grant of 40 lakhs for Education	Grant in 1903-1904 of recurring portion of grant of 18 lakhs for District and other Establishment.	Grant in 1903-1904 for Expenditure in 1904-1905 on special purposes	Grant in 1903-1904 for Expenditure in 1904-1905 on special public objects.
1	2	3	4	5
	R	R	R	R
Central Provinces .	2,00,000	1,90,000	3,00,000	1,50,000
Burma . .	4,00,000	.		3,00,000
Assam . .	1,00,000	1,11,000	. .	1,50,000
Bengal . .	10 00,000	.	50,00,000	5,00,000
United Provinces .	5,00,000	2,26,000	3,00,000	3,00,000
Punjab .	4,00,000	1,36,000	20,50,000	2,00,000
Madras . .	8,00,000	3,50,000		3,00,000
Bombay . .	6,00,000	3,50,000	10,52,000	3,00,000
TOTAL .	40,00,000	13,63,000	87,02,000	22,00,000

224 As explained in paragraph 282 of the Financial Statement for 1903-1904 the grants shown in columns 2 and 3 of the foregoing table were made for permanent recurring expenditure on education, and the improvement of district administration. Those shown in column 4 have been sanctioned in the course of the current year. The grant of R3,00,000 to the Central Provinces is intended for expenditure on Irrigation Works That of R50,00,000 to Bengal represents the Government contribution towards the scheme for the structural improvement of Calcutta, the money will be reserved exclusively for this purpose, and its appropriation is conditional on the scheme being approved by the Government of India The grant of R3,00,000 to the United Provinces represents a grant to the Lucknow Municipality to enable it to undertake a drainage scheme. Of the allotment of R20,50,000 to the Punjab, R20,00,000 is for expenditure on extensions and improvements in Simla, and R50,000 is a grant to the Punjab University to enable it to construct a Senate Hall at Lahore In Bombay, a grant of R6,00,000 has been made for the completion of St George's Hospital, and the remaining R4,52,000 is intended to enable the Local Government to carry out improvements under a variety of heads.

225. The present financial position has also enabled the Government of India to make the special grants shown in column 5 for expenditure in 1904-1905 upon a variety of desirable objects of public utility, such as hospitals, museums, colleges, public libraries, hostels, public parks and gardens, and the like, which have hitherto had to yield precedence to works of more pressing urgency

226. In the Budget Estimate for 1904-1905 the recurring grants for expenditure on education and the improvement of district administration are repeated except for Assam, Bengal, the United Provinces, and Madras; in these Provinces the grants have been taken into account in fixing the standard of expenditure and they now form part of the permanent assignments made to Provincial revenues in the new settlements. Grants of ten and five lakhs respectively have also been made to the Punjab and Bombay for expenditure on Civil Works. The grants to the Punjab, Bombay, and the Central Provinces, which are deficit provinces, to work up to the prescribed minimum closing balances at the end of 1904-1905 are R10,66,000, R24,51,000, and R29,26,000 respectively.

Section VII.—Ways and Means.

HOME TREASURY.

227. The following are the details of the transactions of the Home Treasury in the Budget and Revised Estimates of 1903-1904 and in the Budget Estimates of 1904-1905:—

	Budget, 1903-1904	Revised, 1903-1904.	Budget, 1904-1905.
	£	£	£
Opening balance	5,686,537	5,767,787	7,003,387

Financed as follows:			
Council Bills	17,000,000	21,500,000	16,500,000
Permanent Debt incurred	2,000,000	1,500,000	2,500,000
Temporary Debt incurred	2,000,000	2,000 000	2,000,000
Reduction of + or addition to — Cash balance	+1,751,900	—1,235,600	+2,307,100
TOTAL	22,751,900	23,764,400	23,307,100
Closing balance	3,934,637	7,003,387	4,696,287

* The heads marked with an asterisk appear both on the Receipt and Payment sides. As the Receipts and Disbursements under each of them are practically equal, they do not affect the Ways and Means of the year to any material extent.

1903-1904. General Remarks

228. In the Revised Estimate the net disbursements (apart from receipts from Council Bills and loans) are taken at £23,764,400 against £22,751,900 in the Budget Estimate. There is thus an increase in the net outgoings of £1,012,500. The conditions obtaining in the London money market during the current year have not been favourable for the raising of fresh capital by Railway Companies. Accordingly, the additional capital which it was originally proposed to raise through the agency of Companies, *viz.*, £1,050,000 for their own lines, and £2,050,000 for State lines worked by Companies, was in fact not raised at all; while only £200,000 was raised to discharge debentures, in place of £3,332,800 taken in the Budget. On the other hand, the net expenditure chargeable against revenue is less than the Budget Estimate by £131,500, the Capital outlay on State

Railways and Irrigation Works by £520,100 and the Advances to Railway Companies for Capital outlay on Purchased Railways worked by them by £389,800. The miscellaneous remittances from India, consisting mainly of recoveries from His Majesty's Imperial Government on account of expenditure incurred in India in connection with the forces in Somaliland, South Africa and China and for Emigration bills, Chelsea out-pensioners and supplies to His Majesty's Imperial Navy exceed the Budget Estimate by £1,086,700. The net result of these variations is an increase of net outgoings of £971,900. This with minor differences under other heads aggregating £40,600 make up the difference of £1,012,500 in the net disbursements mentioned above.

229. The increase in the net disbursements was met partly from an increase of £81,250 in the opening balance of the year, but mainly by an increase of £4,500,000 in Council Bills. Of the latter, £500,000 was applied towards reduction of the sterling loan proposed in the Budget Estimate and the remainder will go to swell the closing balance of the year which is expected to stand at £7,003,387.

1903 1904 Council Bills.

230 In addition to the £21,500,000 shown in the table above, the Revised Estimate also provides for the sale of £2,200,000 additional Council Bills, for remittance to London of the balance of the Gold Reserve Fund held in India. It should be noted that the receipts by the Secretary of State on this account, as well as the remittance of gold made from India in July last on account of the Gold Reserve Fund, are for investment and do not therefore affect the balances of the Home Treasury otherwise than temporarily.

1903 1904 Loans

231. Great Indian Peninsula Railway debentures for £600,000 and India Bills for £3,500,000 fell due in 1903-1904. The Budget Estimate provided for the discharge of these by the issue of £2,000,000 India stock and £2,000,000 India Bills. The Budget programme was carried out except that only £1,500,000 3 per cent India stock was issued. Tenders were invited at a minimum rate of 97 per cent. The applications received amounted to £5,971,500, the average rate of accepted tenders was £98-19-2 and the lowest accepted rate £98-18-6 per cent.

232. The results of the issues of £2,000,000 India Sterling Bills was as follows:—

Month of Issue	Amount tendered.	Amount accepted.		Average rate of interest per cent per annum. £ s. d.
	£	£		
May 1903	2,991,000	500,000	for twelve months	3 7 5
September "	2,038,000	500,000	ditto	3 11 6
December "	3,661,000	500,000	ditto	3 12 11
March 1904	2,439,000	500,000	ditto	3 5 2

1903-1904 Capital raised and deposited by Companies

233. The details of the transactions under capital raised and deposited by Railway Companies are as follows:—

RECEIPTS	Budget.	Revised.
Subscribed Capital.	£	£
To discharge debentures—		
Bengal Nagpur Railway	100,000	...
" " extensions	400,000	...
Indian Midland Railway	1,584,900	...
Southern Mahratta Railway	100,000	100,000
Bombay, Baroda and Central India Railway	949,900	100,000
Madras Railway	200,000	...
	3,332,800	200,000
To meet Capital outlay—		
Bengal Nagpur Railway	50,000	...
" " " extensions	200,000	...
Bombay, Baroda and Central India Railway	500,000	...
Madras Railway	300,000	...
	1,050,000	...
Miscellaneous (Transfer fees, etc.)	2,600	7,300
TOTAL RECEIPTS	4,385,400	207,300
ISSUES.		
For Discharge of Debentures	3,332,800	247,000
For Capital outlay, *i.e.*, Stores, Establishment Charges, etc.	1,396,800	1,344,900
TOTAL ISSUES	4,729,600	1,591,900

234. For the reason stated in paragraph 228, the Companies mostly found it preferable to renew their debentures, rather than discharge them at maturity. The only exceptions were the following, which were paid off during the year :—

	£
Southern Mahratta Railway	100,000
Bombay, Baroda and Central India Railway	145,000
Madras Railway	800
	245,800

The £247,000 shown in the preceding paragraph includes £1,200 which represents discount payable on the renewal of debentures.

235. The issues for Capital outlay do not differ materially from the Budget Estimates, except that the Bombay, Baroda and Central India Railway is likely to require £113,000 more, and the Madras and Southern Mahratta Railways £130,900 and £47,600 less than the Budget Estimates

1903-1904. Remittance Account between England and India—Railway transactions.

236. The Railway Companies whose transactions are dealt with above have separate capital deposit accounts in England, and funds raised and withdrawn by them in England are brought directly to account in the Home Treasury. Besides these there are also other Railway Companies which work railways that are the property of the State. These include the East Indian, the South Indian, the Great Indian Peninsula and the Rajputana-Malwa Railways. Advances are made to these Companies in England for the purchase of stores, and funds are sometimes raised by the Companies working the railways and deposited with the Secretary of State, but these deposits and advances instead of being brought directly to account in England under the appropriate heads, are treated as remittances from or to India and are brought to account in this country The details of these transactions during the current year are as follows —

	Budget.	Revised
RECEIPTS.		
Debentures raised—	£	£
East Indian Railway	1,250,000	..
South Indian Railway	350,000	
Great Indian Peninsula Railway	450,000	...
	2,050,000	—
Transfer fees, etc.	3,000	16,600
TOTAL RECEIPTS	2,053,000	16,600
ISSUES.		
Advances for Purchase of Stores—	£	£
East Indian Railway	900,000	594,000
Rajputana Malwa Railway	200,000	170,600
South Indian Railway	232,000	132,900
Bengal and North-Western Railway	30,000	141,300
Great Indian Peninsula Railway	629,300	562,700
TOTAL ISSUES	1,991,300	1,601,500

1903-1904. Purchase of Silver and Remittance of Gold from India.

237. The demand for rupee currency during the second half of the current year has necessitated large purchases of silver in England The total cost of the purchases is now estimated at £4,055,000, practically the whole of this amount has been remitted from India in gold, the sale-proceeds of which are taken at £3,996,900 in the Revised Estimate.

1904-1905. Main features

238. In the Budget Estimate of 1904-1905, the net disbursements are taken at £23,307,100 including £1,002,100 and £2,000,000 respectively for the discharge of Great Indian Peninsula Railway Debentures, and India Bills which expire next year.

239. This estimate of the net disbursements exceeds the Budget Estimate of the current year by £555,200. This represents the net result of a number of variations the most considerable of which are as follows :—

Better.	£
Capital raised by Railway Companies for Capital outlay, *more* .	200,000
Capital outlay not charged to revenue, including outlay by Companies, *less*	229,500
Temporary Debt discharged (India Bills), *less* . . .	1,500,000
Remittance Account between England and India— Payments in England on account of money orders and stores for Provincial Governments and Local Funds, etc , *less*	122,100
	2,051,600
Worse.	
Net Expenditure on Revenue Account (Increase due to cost of new armaments and stores for Coast Defences), *more* .	816,600
Permanent Debt discharged (Great Indian Peninsula Debentures), *more*	402,100
Debenture Capital raised by Railway Companies working State Railways (Debentures raised *more* £400,000, Debentures discharged, *more* £800,000) net *worse* . . .	400,000
Remittance Account between England and India— Recoveries from His Majesty's Government on account of payments in India for Somaliland force, etc., *less* .	1,006,000
	2,624,700

240 It is proposed to meet the net disbursement of £23,307,100 by the sale of £16,500,000 Council Bills, and by the issue of £2,500,000 India Stock and £2,000,000 India Bills. The remainder, which amounts to £2,307,100, will be met by drawing upon the cash balance of the Home Treasury which is expected to stand at £7,003,387 on 31st March 1904. The estimated balance on the 31st March 1905 is therefore £4,696,287.

1904-1905. Loans

241. As mentioned above, India Sterling Bills for £2,000,000 fall due in 1904-1905, and it is proposed to replace these by the issue of new Bills of a corresponding amount. Of the £2,500,000 India Stock which it is at present intended to issue next year, £1,002,100 is for the discharge of Great Indian Peninsula Railway Debentures which fall due on the 30th June 1904, and the balance is for advances to Indian Railway Companies under Act 51 Vict., c. 5.

1904-1905. Capital of Railway Companies.

242. The following are the details of the Estimates of Capital to be raised by Railway Companies :—

	To replace Debentures.	Additional Capital.
Subscribed Capital of Railway Companies—	£	£
Bengal-Nagpur Railway	25,000	...
Ditto Extensions	375,000	...
Indian Midland Railway . . .	1,000,000	...

245. The programme herein announced of the probable drawings on India and of the transactions in connection with the Government Sterling Debt and the borrowings of Railway Companies represent the present intentions of the Secretary of State. But in view of the varying conditions of Indian finance and of the London money market, no assurance can possibly be given that the programme will be adhered to either in amount or form. The Secretary of State reserves to himself the right to vary the programme to any extent that may be considered necessary during the course of the year.

INDIA.

246. The following is a summary of the Estimates of Ways and Means in India during 1903-1904 and 1904-1905 —

247. When the Budget Estimate of the current year was framed in March last, the cash balance in the treasuries on 1st April 1903 was estimated at 17,75 lakhs. It was calculated that net revenue receipts would amount to 27,85 lakhs, and that remittance and other miscellaneous transactions would yield a net receipt of 2,71 lakhs. Council drawings were taken at 25,60 lakhs, Capital outlay on State Railways and canals at 6,28 lakhs, and net expenditure from the balances of Provincial Governments at 2,07 lakhs. The net disbursements were thus in round figures 3,39 lakhs. It was proposed to meet these (1) by a rupee loan of two crores, (2) by unfunded debt, mostly Savings Bank deposits, to the amount of 89 lakhs, and (3) by drawing on the cash balances to the extent of 50 lakhs *1903-1904 Main features of Budget Estimates*

248 The results according to the Revised Estimate have differed considerably from this forecast. The actual cash balance on 1st April 1903 was 18,12 lakhs, or greater by 37 lakhs: the net revenue was better than the estimate by 2,45 lakhs the Provincial balances, instead of being drawn upon, were increased by 1,80 lakhs, making a net improvement of 3,87 lakhs and capital expenditure on State Railways and Irrigation was less by 41 lakhs On the other hand, Council drawings reached the very large total of 32,24 lakhs or 6,64 lakhs more than estimated, and miscellaneous remittance and other transactions yielded a net credit of only 1,18 lakhs, being less than the forecast by 1,53 lakhs. The net result was a worseness of 1,07 lakhs, which was met as follows, (1) from an increase in Savings Bank deposits which improved to the extent of 20 lakhs, (2) by a special temporary loan from Gwalior of 50 lakhs, and (3) by drawing further on the cash balance to the extent of 37 lakhs. The cash balance at the close of the year is now estimated at 17,25 lakhs. *1903-1904. Main features of Revised Estimates.*

249 The leading feature of the year was the strong demand for Councils. The demand was active throughout the summer and autumn, when it is as a rule comparatively weak, the sales never falling below 2 crores in any one month This did not prevent the demand becoming still keener in the cold weather, the sales in January reaching 5,02 lakhs, and those in February 5,01 lakhs. The total sales of the year are the highest on record

The figures shown in the table are exclusive of 3,30 lakhs paid on account of Council Bills drawn for the remittance of the profits on coinage, for investment on account of the Gold Reserve Fund.

250 The improvement in the net revenue and expenditure has been explained in Section II of the Financial Statement. The improvement in the Provincial balances is partly due to increased receipts and short expenditure by the Local Governments, but also in great measure to the large grants aggregating 2,59 lakhs, which have been made to them from Imperial revenues towards the close of the year for various purposes The miscellaneous transactions include remittances on account of Railway Companies, and their capital receipts and expenditure, the Imperial and Provincial loan account, transactions in connection with the purchase of silver for coinage, and the portion of the Famine Insurance grant which is appropriated for the reduction or avoidance of debt They also include expenditure incurred in India on account of His Majesty's Government the amount of which is recovered from the latter through the London account. This consists chiefly of payments on account of troops in Somaliland and China, charges for stores issued, emigration bills, Chelsea out-pensioners, and Naval charges. They considerably exceeded the forecast of the year.

251. The nature of the Railway transactions has been explained in paragraph 236. In respect of the loan account, the receipts were larger than had been expected, in consequence of the improved condition of the country which enabled recoveries of takavi advances given during the late famine to be effected on a considerable scale, especially in the Central Provinces and the Punjab. On the other hand, the advances to the Simla-Kalka Railway amounted to 45 lakhs, against only 33 provided in the Budget

252. The remittance of gold to England for the purchase of silver, and the transfer of the latter in India for coinage, involved very large transactions approximating 6 crores on either side. But the amounts are necessarily nearly equal and have little effect on the net result. The £300,000 worth of silver purchased in 1902-1903, to which reference was made in paragraph 308 of the last Financial Statement was not received till after the close of that year, and the transaction appears in the accounts of 1903-1904 under the head of Remittances. *1903-1904 Purchase of Silver*

1903-1904 and 1904-1905. Unfunded Debt.

253. The following table gives the details of the transactions of Savings Banks and Provident Funds during a series of years and the estimated transactions for 1903-1904 and 1904-1905:—

Year	Net additions to deposits, cash	Interest	Total addition.
	R	R	R
1892-93	54,89,000	33,94,000	88,83,000
1893-94	17,99,000	36,80,000	54,79,000
1894-95	—8,45,000	29,70,000	21,25,000
1895-96	24,77,000	33,85,000	58,62,000
1896-97	—58,11,000	34,66,000	—23,45,000
1897-98	—65,71,000	32,70,000	—33,01,000
1898-99	—8,84,000	32,29,000	23,45,000
1899-1900	1,40,000	33,48,000	34,88,000
1900-1901	19,44,000	34,80,000	54,24,000
1901-1902	31,04,000	36,87,000	67,91,000
1902-1903	52,40,000	39,00,000	91,40,000
1903-1904 (Budget)	40,73,000	41,65,000	82,38,000
1903-1904 (Revised)	61,77,000	42,20,000	1,03,97,000
1904-1905 (Budget)	51,05,000	45,45,000	96,50,000

254. A net deposit in the Post Office Savings Bank of 30 lakhs apart from interest was assumed in the Budget Estimate of the current year. The transactions of the first eight months of the year have resulted in a net increase in the deposits of more than 61 lakhs, and allowing for withdrawals usually made in the closing months of the year, it is now expected that apart from interest there will be a net increase in the deposits of R50,20,000 during the year.

255. In the Budget Estimate for 1904-1905 a net deposit in the Post Office Savings Banks of 40 lakhs apart from interest is anticipated.

1903-1904. Rupee Loan.

256. In accordance with the intention expressed in paragraph 310 of the last Financial Statement, a 3½ per cent loan of 2 crores was announced in July last. Tenders were opened on the 22nd idem and the result of the loan was as follows:—

Total amount tendered.	Amount accepted.	Average rate of accepted tenders.	Minimum rate accepted.
R	R	R a. p.	R a. p.
4,96,00,835	2,00,00,000	98 1 7·2	97 15 0

1903-1904. Temporary Debt incurred

257. As stated in paragraph 19, there was an extraordinary demand for rupee currency during the past winter, and in January last, as a measure of precaution, it was arranged to obtain a temporary loan of 50 lakhs of rupees from the Gwalior Durbar for three months. It will be repaid early next year.

258. In the Budget Estimate for next year, the net disbursements are taken at R28,54,000 more than in the Revised Estimate of the current year. The following variations have chiefly contributed to this excess :— *1904-1905. Main feature.*

Worse.	R
Excess of Revenue over Expenditure, *less*	1,26,67,000
Reduction of Provincial balances	3,77,70,000
Deposits and Advances—other items and Inter-Departmental Remittances (chiefly due to absence of special receipts from coinage of bullion in balance and withdrawn coin)	93,70,000
Expenditure not charged against Revenue, including Outlay by Companies, due to a larger programme of Capital Expenditure on Railways and Irrigation Works	2,23,48,000
Temporary Debt discharged (Gwalior loan)	50,00,000
Loans by Provincial Governments (smaller recoveries of agricultural advances and a more liberal provision for loans to Municipalities for water-works, drainage schemes, etc.) *net*	47,72,000
Remittance Account between England and India—Withdrawals by Railway Companies for stores, etc., in England	1,93,63,000
	11,12,90,000
Better.	
Capital raised through Companies for outlay on State Railways (Debentures raised)	2,47,50,000
Loans by Imperial Government (R12,05,000 provided on account of advances to the Simla-Kalka Railway against R45,00,000 in the Revised)	27,65,000
Remittance Account between England and India—Other transactions (chiefly due to smaller provision for payments on account of Somaliland force)	1,21,92,000
Council Bills	7,08,62,000
	11,05,69,000

259 It is proposed to meet the net disbursements of R3,65,90,000 in the Budget Estimate of next year by a new loan in India of three crores, and by drawing upon the cash balance to the extent of R65,90,000. The announcement now made regarding the rupee loan is in accordance with the present programme, but full liberty is reserved, as usual, to vary the programme now announced to any extent that may be considered desirable. *1904-1905. New Rupee Loan.*

Section VIII.—Summary.

260. The principal features in this statement are the following:—

I.—The accounts of 1902-1903 closed with a surplus of £3,069,549, being £331,049 higher than the surplus expected in the Revised Estimate of that year.

II—1903-1904—

(1) The Revised Estimates show a total revenue of £83,067,800, a total expenditure charged to Revenue of £80,356,600, and a surplus of £2,711,200 This surplus is higher than that estimated in March 1903 by £1,762,500

(2) There has again been a large increase of revenue under almost every important head, especially from railway net earnings and opium

Land Revenue yielded an increase of £179,800, Excise of £420,400, Customs of £316,200, Forests of £119,200 and Irrigation Major Works of £148,600

The reduction in the Salt duty has stimulated consumption, and the revenue is expected to exceed the estimate by £206,700

The net earnings of State Railways exceeded the estimate by £723,400, and those of Guaranteed Railways by £28,700. The North Western Railway contributed most largely to the former.

The prices of Bengal opium ruled extraordinarily high, and the revenue exceeded the estimate by £1,354,900. On the other hand, the season's crop was a bumper, involving very large payments for the raw product. The charges exceeded the estimate by £474,100.

(3) Army expenditure is expected to exceed the estimate by £164,400 This is inclusive of £300,000 for the Tibet Mission, and £186,400 for the escorts with the Aden and Seistan Delimitation Commissions. There were savings of £239,200 on account of the absence of troops in China and Somaliland

The expenditure on Civil Public Works increased by £121,100.

Owing to the inability of the Local Governments to expend their full allotments, there were savings under most of the chief administrative heads, the more important being Land Revenue £130,700, Jails £84,600, Police £107,500, Education £141,400, Medical £97,100 and Minor Irrigation Works £82,300

Under Famine Relief total expenditure was only £20,400. The grant of £120,000 for special defences was only used to the extent of £28,400.

(4) Special grants, aggregating £1,726,700, have been made to Provincial Governments, of which £1,000,000 represents initial grants to the four Provinces,—Assam, Bengal, the United Provinces, and Madras,—whose settlements have been revised The remainder represents grants for various specific purposes, including £333,300 for the improvement of Calcutta.

(5) Mint receipts exceed the Budget Estimate by £2,345,500, and the expenditure has been higher by £2,212,900. These differences are mainly due to the profit of £2,465,700 on the coinage of £4,625,000 worth of silver, of which £300,000 worth was brought forward from 1902-1903, and the remainder was purchased, in India and England, during the year. The whole profits, with the exception of a sum of £5,700, will have been remitted to England for investment to the account of the Gold Reserve Fund, which now consists of Consols and National War and Local Loans stock. The amount at credit of the Fund is £6,382,200.

(6) It has been decided to appropriate £956,700 from the surplus of the year towards the provision of new artillery and rifles, and in pushing on the scheme of special coast defences.

(7) A loan of two crores was raised in India; and India 3 per cent stock to the amount of £1,500,000 was issued, of which £600,000 was applied to the discharge of Great Indian Peninsula Railway debentures. £3,500,000 of India Bills, temporary, fell due, of which £2,000,000 were replaced, and £1,500,000 were discharged.

(8) A temporary loan of £333,300 for three months was raised from the Gwalior Durbar in January 1904.

(9) The drawings of Councils in 1903-1904 are expected to amount to £23,700,000. Of this, £2,200,000 represents remittances on account of the Gold Reserve Fund, and £21,500,000 are remittances on ordinary account, as compared with £17,000,000 entered in the Budget

(10) In addition to Councils, a sum of £261,0.7 in gold was remitted to the Secretary of State in July last on account of the Gold Reserve Fund.

III.—1904-1905—

(1) The Budget Estimates of 1904-1905 show a total revenue of £80,148,600, a total expenditure charged to Revenue of £79,229,900, and a surplus of £918,700.

(2) Opium receipts are estimated at £781,600 less than the Revised Estimate of 1903-1904, but the other principal heads of Revenue are expected to yield an increase of £558,400, of which the principal factors are Land Revenue £329,200; and Excise £124,500. The net earnings of State Railways are taken at £174,800 less than the latest estimate of the current year.

Mint receipts are taken at £2,516,100 less, and the corresponding charges, including payments to the Gold Reserve Fund, at £2,385,000 less, than the Revised Estimates.

(3) It is not thought necessary to make any provision for direct famine relief, but the Famine Insurance grant of one million is maintained at the same figure as formerly.

(4) Army expenditure is expected to be greater than that of the Budget Estimate of 1903-1904 by £1,422,800. The provision of new artillery and rifles accounts for £700,000, the service pay of British troops, at *6d.* a day, for £493,900, and expenditure on the Tibet, Aden, and Seistan Missions for £326,000. A sum of £256,700 is provided for prosecuting the scheme of special coast defences and sums aggregating £662,900 under various heads on account of projects for improving the efficiency of the army.

(5) Most of the other heads of expenditure show an increase.

(6) The Provincial Settlements of Assam, Bengal, the United Provinces and Madras have been revised and placed on a permanent basis. The revision involves the surrender to the Local Governments of Imperial Revenue amounting to £159,300 per annum.

(7) Subject to the usual reservations, loans of £2,500,000 in England and of three crores in India are announced as contemplated, and the drawings of Council Bills are entered at £16,500,000. The sterling loan is required partly to pay off Great Indian Peninsula Railway debentures to the amount of £1,002,100, and partly for advances to Railway Companies. The rupee loan is intended for expenditure on Railways and Irrigation Works.

(8) Subject to the usual reservations, provision is also made for the raising of capital through Railway Companies as follows, *viz.*:—

(*a*) towards outlay on State Railways, £1,650,000;
(*b*) for expenditure on Companies' Railways, £1,250,000.

(9) £2,000,000 of India Bills will fall due within the year, and it is intended to replace them by an issue of similar Bills of equal amount.

IV.—The following table shows the Capital expenditure on Railways and Irrigation Works:—

	Accounts, 1902-1903	Revised Estimate, 1903-1904.	Budget Estimate, 1904-1905
RAILWAYS.	R	R	R
Included in the Government programme	10,05,75,960	9,82,07,000	12,00,00,000
Famine Protective lines	24,375	19,07,000	22,06,000
Branch lines not on firm guarantee	7,95,054	2,58,000	1,63,000
Railways outside the Government account	1,00,20,900	93,58,000	88,96,000
Provincial and Local State lines	8,19,892	3,99,000	3,18,000
TOTAL RAILWAYS	11,22,36,181	11,01,29,000	13,15,83,000
Irrigation Works	84,62,858	81,18,000	1,25,00,000

O. T. BARROW,
Offg. Comptroller General.

E. N. BAKER,
Secretary to the Government of India.

APPENDIX II.

Memorandum by the Hon'ble Major-General Sir Edmond Elles, K.C.B., on Military, Military Works, Special Defences, and Marine Expenditure for the years 1903-1904 and 1904-1905.

The estimates with which the Military and Marine Department of the Government of India is concerned are —

I.—The Indian Military Estimates.
II.—The Home (India) Military Estimates.
III.—The Military Works Estimates.
IV.—Special Defences.
V.—The Marine Estimates.

I will deal with them in this order.

2. Taking the Indian and the Home (India) Military Estimates together, the net expenditure in 1904-1905 will, it is estimated, be more than that provided in the Budget for 1903-1904 by £1,562,700.

The main causes of this excess are :—

In the Indian Estimates—

(I) Increased pay of the British soldier	74 lakhs.
(II) Provision for Sikkim-Thibet Mission, Aden Delimitation and Seistan Boundary Commissions .	49 „
	£
	123 lakhs = 820,000

In the Home Estimates—

	£
(III) Provision of 71,574 new pattern rifles, . . .	297,800
(IV) Provision of 3 Horse and 18 Field Artillery Batteries of the new field gun	500,000 = 797,800
TOTAL .	1,617,800

The increased pay of the British soldier was dealt with in para. 2 of my Memorandum on the Budget of 1902-1903 and comes into force from the 1st April. Necessary provision has been made for the Sikkim-Thibet Mission, Aden Delimitation and Seistan Boundary Commissions, the duration of which is at present uncertain. The provision of 71,574 new rifles will enable us to arm the field army with the most improved rifle of the charger loading type. Experience in South Africa proved the necessity for re-arming our Field Artillery with a Quick firing gun carrying a heavier shell in the case of the Field Artillery and giving greater mobility and rapidity of fire in the case of the Horse Artillery. The War Office having offered to give priority to the Indian Government in the provision of these guns, the offer was accepted, it being especially desirable at the present juncture that the Army in India should be equipped with the most modern weapons.

3. Before dealing with the Estimates in detail I will refer to the measures carried out or in progress during the present year for improving the efficiency of the Army and also to those which we propose to continue or initiate during the ensuing financial year.

Following the same headings as last year, my remarks will be recorded under Field Army, Frontier Defence, Frontier Railways, Internal Defence, Coast Defence, Ordnance Factories and General requirements.

Budget 1903-04.

4. The following items have been or are being carried out as proposed :— *Field Army.*

(1) Increase of Reserve of Military Hospital Assistants from 20 to 25 per cent.

(2) Organisation of 12 Mule Corps with full complement of British and Native Commissioned and Non-Commissioned Officers.

(3) Substitution of horse for bullock draught in the 4 existing Heavy Batteries and conversion of 2 garrison companies into Heavy Batteries with bullocks.

(4) Addition of 110 officers to the Indian Army.

(5) Formation of Mounted Sapper Detachment.

Re-organisation of the Madras Army—Three other regiments of Madras Infantry, *viz.*, the 76th, 82nd, and 87th were reorganised during the past year, as also the two remaining regiments of Madras Cavalry, now the 26th and 27th Light Cavalry. Another double Company of the 71st Coorgs consisting of Tamils has been mustered out and replaced by Coorgs, leaving one double Company only to be replaced by the latter class, when the regiment will become purely Coorg in its composition.

Re-organisation of the 9th Bhopal Infantry.—This regiment has now been re-organised as to its composition, and given the same strength and constitution as an Infantry regiment of the Bengal Command, in order to render it more efficient. A proposal is also under consideration to delocalise it.

Re-organisation of the 5th, 17th and 18th Infantry and 12th Pioneers—It became necessary for various reasons to make certain changes in the class constitution of these regiments. The 12th has moreover been converted into a Pioneer Battalion and linked with the 48th Pioneers.

Re-organisation of the Hyderabad Contingent—This has now been carried out, the Cavalry being transferred to the Bombay Command, and the Infantry to the Madras Command. The 4 batteries of Field Artillery have all been broken up and converted into Ammunition Columns.

Frontier Defence.

The Quetta-Nushki line has been under construction.

Internal Defence.

Rearmament.—The supply of '303" rifles to all troops, volunteers and reservists will be complete when the rifles due from home this year are received.

Ordnance Factories.

The programme in regard to expenditure on Ordnance Factories has practically been carried out.

General Requirements.

The following measures have been or are being carried out:—

(1) Increase to Leave Reserve of Military Assistant Surgeons from 15 to 20 per cent.

(2) Increase in the establishment of the Queen Alexandra's Military Nursing Service for India by 16 nurses.

(3) Owing to the increase in the pay of the R. A. M. C. the pay of the I. M. S. Officers in military employ has been increased at an estimated annual cost of R3,70,000.

(4) Reorganisation of the Army Remount Department.

(5) Expansion of Grass and Dairy Farms.

(6) Separation of the Burma District from the Madras Command.

(7) Establishment of a School of Cookery at Poona and appointment of Sergeant Cooks at hill stations.

Machine Guns.—Further steps have been taken towards providing an adequate number of machine guns for the army in India. Seventy of these guns have been ordered during the past year at a cost of Rs. 1,54,375, which has been met from savings due to the absence of troops in Somaliland and China and from other military savings.

Supply and Transport. Organisation of transport.—The proposal to organise twelve corps of mule transport referred to last year has received the sanction of the Secretary of State for India, and has been partly carried out. It will be completed next year and a sum of Rs. 76,500 has been provided in the estimates for the purpose. A similar organisation has been undertaken in Burma. The number of elephants kept for military transport has been reduced, and the savings thus resulting have been applied to an increase in the complement of mules in India.

With the co-operation of His Honour the Lieutenant-Governor of the Punjab great strides have been made in the registration of transport for war and in maturing a scheme which, under the Punjab Military Transport Act, will admit of the rapid collection of transport animals in emergency with the least possible inconvenience or hardship to the civil population.

The organisation of transport which has been in progress during the last four years has during the past year and a quarter been tested at the Delhi manœuvres and in Somaliland. At Delhi the efficiency of the organised corps was very marked and the number of casualties was far below those experienced on any similar occasion in the past. In Somaliland the good effects of organisation have been still more remarkable. The Indian camels, instead of dying at a ruinously rapid rate as has occurred in all previous campaigns, are, under their "sillidar" drivers and with a military organisation, enduring the hardships of the service in a remarkable way; and their efficiency is the subject of very favourable comment by Sir Charles Egerton and other officers with the force.

Marine Estimates.—As noted last year the defence squadron previously maintained at Bombay at a cost of £59,000 annually was abolished at the end of 1902-03. The vessels of the flotilla were disposed of during the current year. The turret ships *Magdala* and *Abyssinia* and the hulk *Tenasserim* were sold. The two gunboats *Assaye* and *Plassy* and four of the torpedo boats were sent to England and are being disposed of through the agency of the Admiralty; and the three remaining torpedo boats are kept in reserve at Bombay.

Proposals for improving the position of the officers, Executive and Engineer, of the Royal Indian Marine, were submitted for the consideration of His Majesty's Government. The Secretary of State has sanctioned those for improving the position and furlough rules of the executive officers but those for the Engineer officers are still under consideration.

In addition to their usual trooping work the Royal Indian Marine vessels have been employed for the conveyance of troops, animals, etc., between India and Somaliland. Eighteen hired transports were also taken up and fitted in the Royal Indian Marine dockyards for this service. The Royal Indian Marine Ship *Hardinge* has been employed during part of the year as a hospital ship for the conveyance of the sick from Somaliland to India.

Budget 1904-05.

5 *Increase of the scales of Army Signalling equipment.*—The increase is considered necessary with a view to bring the signalling equipment up to the level of modern requirements. The total cost involved is R1,22,510 initial (R90,244 Home and R32,266 Indian) and R19,659 annual recurring. A sum of R90,244 has been provided in the Home Estimates for 1904-05. *Field Army.*

Re-introduction of signalling into all batteries of horse, field, heavy, and mountain artillery.—This involves (*a*) issue of signalling equipment to all batteries, and (*b*) addition of men and issue of horses and saddlery to certain batteries of Royal Horse Artillery and Royal Field Artillery.

The total cost involved is—

(*a*) Initial R23,393 (Home, R3,613 and Indian R19,780).
Annual recurring R5,571.

(*b*) Initial R1,97,456 (Home R22,185 and Indian R1,75,271).
Annual recurring R2,06,281.

Pending the Secretary of State's sanction the following provision has been made in the Estimates for 1904-05:—

(*a*) R23,393 (Home R3,613, Indian R19,780) for initial expenditure.

(*b*) Initial R1,97,456 (Home R22,185, Indian R1,75,271). Recurring R50,000.

Re-organisation of artillery.—It has been proposed to raise certain batteries to the higher establishment with a view to enable them to mobilise at the

field service strength without extraneous assistance. The total cost involved is R6,59,762 initial (Military R5,67,762, and Military Works R92,000) and R1,78,467 annual recurring. A sum of R3,00,000 has been provided in the Indian Estimates for 1904-05 for purchase of horses and saddlery.

Rearmament.—A further supply of 28,936 rifles is necessary to complete the ordnance reserves and 21,574 of these have been ordered during 1904-05 at a cost of Rs. 14,67,000. Meanwhile the home authorities have now adopted a modified pattern of the Lee Enfield rifle, with a short barrel and a magazine mechanism arranged for loading with a clip or charger. The alteration of the rifles in use in India to the new pattern will be taken up shortly, and as a preliminary to that measure the Secretary of State has arranged to send out 50,000 of the new pattern from home in addition during 1904-05, at a cost of Rs. 30,00,000.

Rearmament of horse and field artillery.—After protracted trials the War Office authorities have just adopted new patterns of guns for field and horse artillery. Both of these guns are quick firers, the latter a 12½ pr. and the field artillery gun an 18½ pr. The rearmament of the batteries in India is a matter of urgent necessity, for the guns now in use have done long service and are not up to the requirements of modern conditions. Arrangements have been made to obtain twenty-one batteries next year, *viz.*, 18 field and 3 horse batteries at a cost of £500,000.

Addition of 36 horses to each British Cavalry regiment in India.—In order to allow of British Cavalry regiments being mobilized without drawing on other mounted corps or on remount depots to complete their field service strength of horses we have decided to add 36 horses to each of the nine regiments in India, at an initial cost of Rs 3,50,766 and a recurring cost of Rs. 1,40,101. For the initiation of this scheme a sum of Rs. 2,75,765 has been included in the budget for 1904-05

Increase to the Native Army Reserves.—The Native Army Reserve now consists approximately of 24,500 men, but this number is not adequate to meet the heavy drain which extensive operations would entail, and the Secretary of State has sanctioned the reserve being raised gradually to 50,000 men in a series of years. A provision of 3 lakhs has been made in the estimates.

Pioneer Battalion of Hazaras.—The question of employing Hazaras more largely in our Native Army has for some time been under consideration. They are good labourers and with their soldierly qualities are expected to make excellent Pioneers. The Secretary of State has accordingly been asked to sanction the formation of a Pioneer Battalion composed exclusively of Hazaras.

Ordnance Factories.

Cordite factory.—The anticipation that cordite would be actually manufactured before the end of 1903 has not been realised The factory will, however, be in working order during the next financial year, and provision has been made in the estimates of that year to meet the cost of the complete staff required.

Gun-carriage factory, Jubbulpore.—It is hoped that this factory will be completed shortly. Meanwhile acting on the best expert advice in England, it has been found necessary to provide a further sum of £5,000 for machinery. This amount has been provided in the home ordnance estimates of 1904-05

Rifle factory, Ishapore.—It is not anticipated that the factory will be sufficiently advanced to admit of its being in full working order during next financial year, but all machinery has now been ordered and will be erected in the course of the year. Manufacture will be commenced and the conversion of the existing Lee Enfield rifles to charger loading will be carried out concurrently.

Rolling mills, Ishapore, and field gun factory at Cossipore.—Satisfactory progress has been made in the preparation of these two factories. An additional sum of £4,020 has been provided in the estimates of 1904-05 for machinery for the gun factory, and in both cases the buildings will be got ready and machinery will be for the most part erected during that year.

Coast Defences.

Corps of Indian coast artillery.—The Secretary of State's sanction to the scheme was asked for in our despatch of 5th March 1903, but has not yet been received. The estimated cost to India of its share of the

proposals is R1,47,000 initial, and R3,41,000 annual; out of this a sum of R3,40,000 (R1,20,000 for initial and R2,20,000 for recurring expenditure) was provided in the estimates of 1903-04, pending Secretary of State's sanction. This has lapsed. In anticipation of the Secretary of State's sanction a sum of R1,27,000 (R27,000 for Military initial and R1,00,000 for Military Works expenditure on buildings) has been made in the estimates for 1904-05.

General requirements

Increase to the establishment of the Indian Nursing Service—The Secretary of State sanctioned the addition of 16 nurses to the Indian Nursing Service during 1902-03 and of the same number during 1903-04. A further addition of 7 nurses during 1904-05 has now been sanctioned, thus completing the increase which was inaugurated in 1901. For this purpose R 10,589 has been provided in the military estimates of the ensuing year.

Reorganisation of the Remount and Horse Breeding Departments.—As stated last year the whole control of horse and mule breeding operations has now been transferred to the Army Remount Department. The new Government run for young horse stock near Shahpur in the Jhelum canal colony has been started, and the scheme for granting land to colonists on the canal subject to the condition that they shall keep a brood mare has been successfully inaugurated. A large number of eligible colonists have come forward and in another year or two the results ought to be apparent in the stock on the Government run. We are about to begin the preparation of the second run where a large number of young mule stock will be kept. This measure is no less important than the rearing of horse stock, for while the demand for mules annually increases, the supply does not keep pace. During the present spring the numbers procurable at the fairs of Northern India have been so much below our requirements that we have been obliged to arrange for considerable purchases from Persia, South America and South Africa. The mules so obtained are of excellent class but they are necessarily more expensive than indigenous animals.

The importance of fostering the pure eastern breeds of both horses and donkeys has led us to propose to the Secretary of State the establishment of two small stud farms one at Ahmednagar, the other at the Shahpur depôt. So far as horses are concerned these studs will be particularly devoted to breeding pure bred Arabs and Kathiawaris, Dekkhanis, and other pure Indian breeds.

Establishment of a Staff College in India—His Excellency the Commander-in-Chief considers it essential that candidates for staff employ in India (whether for British or Indian service) should be more highly trained than at present and that the means of obtaining such training should be provided in India itself. The staff college at Camberley being unable to provide for more than a portion of the wants of India, and also being unable from various causes to attract the best available officers, it is proposed that an Indian Staff College should be established at Quetta, open to officers of both the British and Indian services. The total cost involved in the proposal is estimated at R6,33,440, initial (Military R17,000 and Military Works R6,16,440) and R69,892 annual recurring. Pending the Secretary of State's sanction a sum of R2,00,000 has been provided in the Military Works estimates for 1904-05.

Inspector General of Volunteers—In 1901 the Secretary of State sanctioned the appointment of an Inspector General of Volunteers in India as an experimental measure for three years. This period will expire in August next, and as the appointment has proved the success anticipated, the sanction of His Majesty's Government has been asked to its continuance as a permanent arrangement.

Peace strength of Madras and Bombay Infantry.—At present the peace strength of Infantry regiments of the Madras and Bombay Commands is 832 and 816, respectively, out of which they have to furnish the strength of 752 at which Indian Infantry takes the field. Owing to sickness, unfits, depôt requirements, etc., they cannot, however, take the field at the authorised strength without depleting their linked battalions to such an extent as to render the latter ineffective at a time their services are likely to be most required. A proposal is therefore under consideration to raise the peace strength of Madras

and Bombay Infantry, with certain exceptions, to the Punjab-Bengal strength of 912 of all ranks.

Proposed revision of the present system of promotion in the Indian Army. —With a view to the greater efficiency of the Indian Army, proposals have been made this financial year for a revision of the present system of promotion of officers. These proposals involve an extra expenditure of about R1,00,340 and provision for this amount has been made in the estimates of 1904-05.

Redistribution of Staff Officers in military districts in India.—With a view to the better distribution of work connected with the duties of the district staff and to enable officers so employed to devote more of their time to work out of doors and in the field, an increase of staff officers has been sanctioned this financial year. To meet the extra cost provision has been made in the estimates of 1904-05 for over R60,000.

Seconding and replacement of officers—Sanction has been accorded to the seconding of all officers taken from regiments of the Native Army for employment in any civil or political capacity, or with any department of the Army, or for oversea expeditions in extra regimental employment, or for any employment under the Imperial or a Colonial Government. With a view to carrying out this measure, the Secretary of State has been asked to send out 57 officers, and provision on this account has been made in the estimates of 1904-05 for R52,000.

General Remarks.

Marine.—Funds have been allotted for the completion during the ensuing year of the new vessel, which is being built to replace the *Clive*. The total cost of the vessel (which will be called the *Dufferin*) will be £205,000, of which £100,000 was provided this year.

Re-numbering of the regiments of the Indian Army.—With the abolition of the Presidential system, the old numbering of regiments on a Presidential basis under which several corps often had the same number became anomalous and inconvenient. The regiments of the Indian Army have accordingly been numbered consecutively throughout. Every endeavour has been made to meet the wishes of regiments as to their titles and to preserve their distinguished traditions. In many cases old titles in connection with previous service or former eminent commanders have been revived.

Somaliland.—The Army in India has continued to supply, as required, men, supplies, munitions of war, etc., for the operations in Somaliland, the whole cost being borne by His Majesty's Government. The reorganised transport and more especially the Silladar Camel Corps have been tried for the first time.

China.—The Indian Army now furnishes at the expense of the War Office five regiments for permanent Colonial garrisons. In addition we now have 2 regiments of Indian Infantry in North China and an additional Battalion at Hongkong. The whole cost of these three additional battalions is also borne by the War Office.

Aden delimitation.—The Indian Army has furnished the necessary escorts for the delimitation of the Arab Hinterland.

Sikkim-Thibet Mission.—The escort of this mission has carried out its operations at an altitude which has never before been attempted in winter. The troops have well withstood the rigour of the climate owing to the special provision made for their welfare. One detachment was withdrawn from Kambajong by a pass over 17,000 ft. high in December. The climate has been a severe test of our Indian troops.

Military Expenditure from 1896-97 to 1903-04.

6. I give below a statement showing the total military expenditure under the Indian Military Budget, the Military Works Budget including special defences and the Home (India) Budget for the past 8 years, in view to comparing the military expenditure with the total revenue. This statement shows that whereas the percentage of total military expenditure to revenue for the first period of four years was 24·70, the percentage for the last period of four years is only 21·08.

Statement showing the proportion of net Military and Military Works, including Special Defence Works, expenditure (Indian and Home) to General Revenues for the eight years 1896-97 to 1903-04.

I.—Indian Military Estimates.

Revised Estimates, 1903-1904.

Comparison—Revised for 1903-1904 and Budget for 1903-1904.

7. The Revised Indian Military estimates for 1903-1904, compared with the Budget for that year, show an increase of R18,93,000 caused by an increase in receipts of R11,17,000 and an increase in expenditure of R30,10,000.

The increase in receipts is chiefly due to credit from the Imperial Government for the peace equipment of native troops on service in China over and above the amount included in the accounts for 1902-1903; for Europe stores issued from stock to Somaliland and China; for Mounted Infantry ponies sent to Somaliland; to larger sales of Ordnance Stores; and to increased contributions towards Indian Military Service Family pensions.

8. The more important causes which have led to an increase in expenditure have been the following:—

(a) Extra expenditure on account of the following Services amounting to R72,97,000:—

(i) Military Charges in connection with the Sikkim-Thibet Mission, R45,00,000, including R4,00,000 on account of road-making operations in the Teesta Valley;

(ii Military Escort with the Aden Delimitation Commission R25,71,000; and

(*iii*) Military Escort with the Seistan Boundary Commission, R2,26,000.

(*b*) Cost of special expenditure to be incurred in India against the Military Estimates from savings due to the absence of troops in China and Somaliland account for R13,29,000.

(*c*) Special military expenditure in India to be met from lapses from schedule items provided for in the India Military Budget amount to R2,49,000.

(*d*) More supernumerary officers as candidates for the Indian Army and more Unattached List officers than provided for, R1,66,000.

(*e*) More charges for conveyance of troops and stores, R4,60,000.

(*f*) Transfer of the control of Breeding Operations from the Civil Veterinary Department to the Army Remount Department, and the consequent reconstitution of the latter Department, account for an increase of R2,84,000.

(*g*) Mounted Infantry ponies purchased in replacement of those sent to Somaliland amount to R2,32,000.

(*h*) Reconstitution of certain Native Corps of the Madras Command have caused an increase of R2,17,000, and non-effective charges in excess of the amount included in this amount, an increase of R1,69,000.

(*i*) Arrear charges on account of the Delhi Durbar account for R38,000

(*j*) Arrear charges on account of Camps of exercise and manœuvres amount to R1,83,000.

(*k*) The deduction made in the Indian Budget owing to an excess provision in the Home Estimates not being necessary has accounted for an increase of R1,00,000.

(*l*) A sum of R2,81,000 has been sanctioned for the purchase of mules in Persia and South America in addition to a sum of R40,000 to be met from savings on account of the absence of troops in China and Somaliland

9. On the other hand, there have been decreases of expenditure under certain heads, the more important of which are the following:—

(*a*) Savings in pay and subsistence charges on account of troops serving in China and Somaliland, R29,32,000.

(*b*) Less expenditure for food-supplies and grass cultivation, R10,86,000.

(*c*) Lapses expected on account of schedule items so far as known at present, R7,19,000.

(*d*) Smaller expenditure is anticipated to the extent of (*i*) R3,50,000 in the Ordnance Department, and (*ii*) R1,00,000 under Medical.

(*e*) The difference between the credits taken by debit to Imperial Government for the value of local stores issued from stock, and also for the peace equipment of Native Troops employed in China, and the amounts likely to be spent on their replacement during the current financial year, accounts for a net decrease of R6,56,000.

(*f*) Smaller charges for the garrisons beyond the North-West Frontier, and the Gilgit Agency, mainly due to the withdrawal of regular troops from Wano and certain posts in the Tochi Valley and to less feed charges on account of the Chitral and Malakand garrisons, account for R3,55,000.

(*g*) Saving in the provision made for special items, apart from schedule items, such, for instance, as increased pay to officers of the R. A. M. Corps, charges for the Brigade Staff, Royal Horse and Field Artillery, and for the reorganisation of Silladar Camel Corps, etc., amount to R2,86,000.

(*h*) R4,25,000 has been saved by the short strength of medical officers and subordinates and troops.

(*i*) Savings consequent on the reorganisation of the Hyderabad Contingent in excess of the amount for which credit was taken in the Budget amount to R1,40,000.

(*j*) A sum of R3,30,000 was over-estimated for the purchase of remounts in the Budget.

(*k*) R1,20,000 represents less Sea Transport charges, chiefly due to coal having been paid for in England.

Estimates, 1904-1905.

10. The estimates for 1904-1905, in the net, amount to R19,47,56,000, or R1,38,35,000 more than the Budget for 1903-1904. This is due to a decrease in receipts of R66,000 and an increase in expenditure of R1,37,69,000.

Comparison—Budget for 1903-1904 and Estimates for 1904-1905.

The decrease in receipts is due chiefly to less sales of malt liquor being anticipated.

The more important causes of increase in expenditure are the following:—

(*a*) Service pay to British soldiers, including those on the Unattached List and with Departments accounting for R74,08,000.

(*b*) Larger provision for conveyance of troops and stores with reference to past actuals, R5,50,000.

(*c*) Extra expenditure on account of the following services amount to R48,90,000:—

(*i*) Sikkim-Thibet Mission, R36,00,000.

(*ii*) Military Escort with the Aden Delimitation Commission, R11,29,000.

(*iii*) Military Escort with the Seistan Boundary Commission, R1,61,000.

(*d*) Larger provision to the extent of R3,81,000 has been made for Breeding Operations in the Army Remount Department

(*e*) Pay of officers of the Indian Medical Service having been increased has caused an extra expenditure to the extent of R2,15,000.

(*f*) Provision to the extent of R4,52,000 has been made for the local purchase of stores and tools, and cost of erecting machinery in connection with the steel plant and rolling mills at Ishapore; R1,00,000 for the revision of the present system of promotions in the Indian Army; R3,00,000 for the increase of the strength of the Native Army Reserves up to 50,000 men; R1,33,000 for the formation of a Railway Pioneer Battalion composed exclusively of Hazaras; and R1,25,000 for the acquisition of land for the improvement of rifle ranges for regular troops.

(*g*) Larger provision to the extent of R2,89,000 has been made for Supernumerary and Unattached List officers of the Indian Army.

(*h*) Larger provision to the extent of R1,58,000 has been made for grass cultivation.

(*i*) Provision to the extent of R4,12,000 has been made to enable all Native Infantry battalions of the Madras and Bombay Commands, with certain exceptions, being raised to a strength of 912 natives of all ranks; and of R4,64,000 for mobilisation equipment for two British and eight Native Infantry Battalions required for the northern line of communication.

Among other causes of increased expenditure might be mentioned the following:—

Additional officers for the supply and transport corps (R49,000); Organisation of 12 transport mule corps (R76,000); Establishment of two

Stallion Breeding Studs at Ahmednagar and Mona (R1,72,000); Re-introduction of signalling into all Batteries of Horse, Field, Heavy and Mountain Artillery (R2,45,000); Establishment for the Cordite Factory, Wellington (R80,000); Re-organisation of Artillery (R3,00,000); Addition of 36 horses to each of the British Cavalry Regiments in India (R2,76,000); Personnel required for the Rifle Factory at Ishapore (R62,000); Increased provision for debit note telegrams (R1,20,000) and more non-effective charges (R80,000).

11. Against the foregoing increases there will be a partial set-off by reason of certain decreases, the most important of which are—

(*a*) Less provision for the garrisons beyond the North-West Frontier and the Gilgit Agency, R7,42,000.

(*b*) Smaller provision for the troops which formed the Hyderabad Contingent, taking into account the re-organisation of the Cavalry and Infantry and disbandment of the Artillery, R6,20,000.

(*c*) Smaller provision for initial expenditure on account of the re-organisation of mule, pony and camel cadres, R1,84,000

(*d*) Smaller provision has been made for ordinary requirements under Medical which accounts for a decrease of R2,10,000.

(*e*) Less provision causing a decrease of R2,23,000 has been made for local stores and camp equipage.

(*f*) Initial expenditure included in the Budget for 1903-1904 from the Schedules of September 1902 and February 1903, and also recurring expenditure on account of the Corps of India Coast Artillery, having been omitted from the Budget for 1904-1905, in the absence of sanction, accounts for a decrease of R21,51,000.

(*g*) The transfer to the Military Works estimates of charges hitherto borne by the military estimates on account of telegraphic and telephonic communications and railway sidings and platforms causes a decrease of R1,03,000.

II.—Home (India) Military Estimates.

Revised Estimates, 1903-1904.

Comparison — Revised for 1903-1904 and Budget for 1903-1904

12. The Military Department is next concerned with the home estimates for army effective and non-effective charges. The Home Budget Estimates for 1903-1904 made provision for a gross expenditure of £5,088,800, but in the Revised Estimates the provision has been reduced to £5,052,600, or by £36,200.

This decrease in the Revised Estimate as compared with the Budget Estimate is chiefly brought about by reduced expenditure on stores; smaller "payments to the War Office in respect of British forces serving in India" and less expenditure on "Passage of officers and others not charged to Indian Troop Service", partly counterbalanced by larger payments on account of furlough allowances; by increased expenditure in connection with the Indian Troop Service mainly due to arrears of previous years in respect of the cost of moving units, etc., from South Africa to India and to increase in freight of troops to India; and by the larger payments recorded under the head "Pay and Pensions of the Non-effective and Retired Officers of the Indian Service" owing to the transfer to this head of pensions formerly charged through the Remittance Account for adjustment against Berar Revenues.

13. The net figures of the Revised Estimate show an increase of £5,600 over those of the Budget Estimate for 1903-1904, due to less expenditure of £36,200, as explained above, and a decrease in receipts of £41,800.

Estimates, 1904-1905.

Comparison—
Budget for 1903-1904
and
Estimates for 1904-1905.

14. The estimated receipts and expenditure for 1904-1905 are as follows :—

	Receipts.	Expenditure.	Net expenditure
	£	£	£
Effective	334,400	3,159,600	2,825,200
Non-effective	28,000	2,431,100	2,406,100
TOTAL .	362,400	5,593,700	5,231,300

15. Under receipts credit is taken for contributions to be made to the extent of £230,000 by the Imperial Government in respect of the cost of the transport of troops, and of military charges for Aden in consequence of the recommendations of the Royal Commission on Indian Expenditure, compared with the Budget for 1903-1904 the receipts show an anticipated decrease of £135,500. This is brought about by decreases in the receipts on account of the Indian Troop Service, and in the value of articles in the possession of regiments on their transfer from the Indian to the British Establishment, and also by smaller contributions towards pensions of Indian native soldiers lent for Imperial Service owing to a decrease in the numbers of native soldiers so lent. The total gross anticipated expenditure for 1904-1905 is more by £504,900 than the amount provided in the Budget for the preceding year. This increase is chiefly accounted for by the increased requirements for stores, chiefly artillery equipment and rifles; additional provision for the retired pay, etc., of British forces for service in India to allow for the normal growth of this charge and for an adjusting payment in respect of 1902-1903; to larger provision for the furlough allowances of officers of the Indian Service which is necessitated with reference to recent payments; partly counterbalanced by smaller anticipated payments to the War Office in respect of the British forces serving in India due chiefly to a decreased charge for deferred pay and an expected refund by the War Office on this account in respect of 1902-1903

16. The gross charges on account of effective services, as estimated for the coming year, include payments to the War Office in respect of the British forces serving in India (£556,000); furlough allowances and pay during the voyage of British forces serving in India (£113,000), furlough allowances of officers of the Indian Service (£240,000); Indian Troop Service (£333,800), passage of officers and troops otherwise than in transports (£19,000), miscellaneous (£34,000); and stores for India (£1,863,800).

17. The gross charges on account of non-effective services are made up of the retired pay, etc., of the British forces for service in India (£716,800); pay of the non-effective Colonels of Royal Artillery (£20,300); pay and pensions of non-effective and retired officers of the Indian Service (£1,560,000), miscellaneous pensions, etc., (£87,000); and the Indian Military Service Family Pensions (£50,000).

18. The net anticipated expenditure for 1904-1905 is more by £640,400 than that for the preceding year, and, as explained above, this is due to a decrease of £135,500 in receipts and to an increase of £504,900 in gross expenditure.

III.—Military Works Estimates.

19. Formerly a fixed grant, at first one crore of rupees, was allotted annually for all military works of every class, but of late years this sum has usually been exceeded owing to the increasing demands of the Army and Defences. A new

system of budgetting has therefore been introduced under which fixed grants are allotted annually for a quinquennial period for (1) Repairs, (2) Establishments, (3) Barrack Department, (4) Original Works under R50,000. All works costing over R50,000 are considered separately, and a sum is allotted for them according to requirements and subject to financial exigencies. Under this system the control of the Finance Department is enhanced and the procedure will be in some degree analogous to that in the Public Works Department.

20. Excluding English expenditure, the Budget Estimate for 1903-1904 amounted to R1,54,27,000 (£1,028,500); but these figures have been modified during the year by additional grants and by transfers to other heads of account. The final grant is R1,53,10,000 (£1,020,700) and a lapse of R4,10,000 (£27,300) on this amount is anticipated, which is due mainly to short outlay on stores.

21. The Budget Estimate for 1904-1905, excluding English expenditure, is R1,55,84,000 (£1,038,900), or an increase over that of 1903-1904 of R1,57,000 (£10,500).

22. The main heads of expenditure in the Military Works Estimate are these (in round figures).—

	R	£
Original works, including those in progress and those to be commenced	83,26,000	555,100
Repairs	36,49,000	243,300
Establishment and tools and plant	29,75,000	198,300
Barrack Department, establishment, supplies and tools and plant	9,00,000	60,000

23. In connection with the more important original works, expenditure amounting to R6,32,000 (£35,400) will be incurred on water-supply projects; R7,00,000 (£46,700) will be spent on electric lighting and punkah-pulling installations in barracks, provision has been made in the Budget for R30,000 (£2,000) for completing the cordite factory in the Nilgiris, R6,00,000 (£40,000) for the central gun-carriage factory at Jubbulpore, R6,00,000 (£40,000) for a small arms factory at Ishapore; R7,00,000 (£46,700) for steel and cartridge-metal rolling mills at Ishapore. Progress will be made towards the completion of the requirements of volunteer corps in the matter of buildings, armouries, etc., and special allotments have been entered in the budget in connection with the scheme for improving rifle ranges for regular troops and volunteers. The remaining original works include new hospitals, barracks, buildings for a medical store depôt at Calcutta, etc, and provide for the ordinary requirements of the Ordnance, Remount and Marine Departments and of the Supply and Transport Corps.

24. Provision is made for 146 new major works and schemes of which 55 are in progress and 91 have yet to be commenced A sum of R6,30,000 (£42,000) is allotted to minor works, each costing not more than R2,500.

IV.—Special Defences.

25. Excluding English expenditure, the Budget Estimate for 1903-1904 was R18,00,000 (£120,000); the Revised Estimate of expenditure is taken at R3,36,000 (£22,400). The lapse is mainly due to short outlay on stores; but the Indian grant also has not been fully expended.

26. The Budget Estimate for 1904-1905, excluding English expenditure, is R16,00,000 (£106,700).

V.—Marine Estimates.

Revised Estimates, 1903-1904.

Comparison—
Revised for 1903-1904.
Budget for 1903-1904.

27. The net total of the Budget Estimate of the Royal Indian Marine for 1903-1904 was R16,04,000 (£106,933); the Revised Estimate stands at R10,27,000 (£68,466) showing decrease of R5,77,000 (£38,467).

28. The decrease is chiefly due to large recoveries from the Home Government in connection with the employment of Royal Indian Marine vessels on Imperial service, counterbalanced to some extent by increased expenditure in connection with the hire and fitting of transports for the Aden Boundary Commission, and the cruise of His Excellency the Viceroy, in the Persian Gulf.

Estimates, 1904-1905.

Comparison—
Budget for 1903-1904.
Estimates for 1904-1905.

29. The net total of the Marine Estimates for 1904-1905 is R20,10,000 (£134,000), against R16,04,000 (£106,933), the total of the Budget for 1903-1904, showing an increase of R4,06,000 (£27,067) which is chiefly due to provision being made for charges in connection with the return of the troops with the Aden Boundary Commission.

E. R. ELLES.

March 23, 1904.

APPENDIX III.

Memorandum on Railway Development and working by the Honourable Sir A. T. Arundel, K.C.S.I. (March 1904).

Our programme of capital expenditure on railways for the year 1904-1905 has been prepared on the same lines as before; and, as on previous occasions, has been limited not by the amount which the full development of the country could employ or by that which the existing organisation could profitably spend on that development, but by the amount which the Government can make available. This amount, I am glad to say, provides for a larger expenditure on railway development next year than has ever been possible before. That it is not however by any means so large as to meet all the claims upon it, is evident from the following figures contrasting the amounts which have been asked for by the various railway administrations concerned or for projects which have been accepted as necessary, with those which we have been able to allot :—

	Demand Lakhs.	Allotment. Lakhs.
(a) Open lines, including rolling stock	645·78	548·67
(b) Lines already under construction—		
(i) Begun prior to 1903-04	379·53	351·84
(ii) „ during 1903-04	168·05	148·11
(c) New lines to be begun in 1904-05	248·52	91·38
	1441·88	1140·00
(d) Purchase of lines	60·00	60·00
TOTAL	1501·88	1200·00

2. As usual the principle has been followed of providing for the needs of open lines and lines already under construction before deciding to undertake the construction of new ones, and in doing this the necessity for providing for the additional rolling stock necessary to cope with the growth of traffic has not been overlooked. Although the number of goods wagons in India has been increased from 76,471 in 1898 to 94,796 in 1902, *i.e.*, by about 24 per cent. in five years, and although 11,731 more wagons have since been supplied or are under order, we have considered it desirable to provide no less than about 300 lakhs to pay for the latter and provide for further increases of rolling stock during the coming year.

3. The following statement shows the growth of expenditure on railway development by Government during the past five years :—

Year.	Open lines, including Rolling Stock.	Lines under construction. Started in previous years.	Lines under construction. Started in current year.	Total.
	Lakhs.	Lakhs.	Lakhs.	Lakhs.
1900-01 (actual expenditure)	528·22	251·10	18·34	797·66
1901-02 ditto	352·58	509·06	25·64	887·28
1902-03 ditto	481·74	452·50	71·52	1005·76
1903-04 (latest grants)	398·81	511·20	72·06	982·07
1904-05 (proposed grants)	548·67	499·95	91·38	1140·00

4. The details of the distribution of the allotment for next year are shown in statement A, and a complete list of the railways already opened, now in hand, or about to be

started, is given in statement D The following are the chief new items of the construction part of the programme, *viz.* :—

I. Lines started in 1903-1904 .—

Railway	Length in miles	Allotments.	
		1903-1904	1904-1905.
Khurja-Hapur Extension, East Indian railway	38·87	3·00 (Khurja-Hapur and Ondal-Sainthia)	10 00
Ondal-Sainthia Chord, ditto	43·62		10·00
Kaunia-Bonaipara branch, Eastern Bengal State railway	44 25	8·50	10·00
Hyderabad-Badin Extension, North Western railway	61·00	17·80	18·61
Jech-Doab, Southern Section ditto	103·00	8·68	20·00
Hapur-Meerut branch, Oudh and Rohilkhand railway	19·50	4·25	1·50
Rewari-Phulera Chord, Rajputana Malwa railway	133 32	11·65	28·00
Bairagnia-Shikarpur, Tirhoot State railway	58 05	18·18 (Bairagnia-Shikarpur to Shikarpur-Bikna Thori)	50·00
Bettiah-Bagaha, ditto	49 35		
Mansi-Baptiahi, ditto	78 62		
Sakri-Jainagar, ditto	30 47		
Shikarpur-Bikna Thori, ditto	21 50		
TOTAL	681·55	72 06	148·11

II. Lines proposed to be commenced in 1904-1905 —

Railway	Length in miles	Allotments proposed for 1904-1905.
Pench Valley Coal Branch, Bengal Nagpur railway	25	5·00
Nagda-Bara-Muttra-Aligarh, Bombay, Baroda and Central India rly.	392	20·00
Henzada-Kyangin, Burma railways	65	15·00 (Henzada-Kyangin and Pegu-Moulmein)
Pegu-Moulmein, ditto	122	
Katihar-Malda branch, Eastern Bengal State railway	50	30·00
Coonoor-Ootacamund, Nilgiri railway	12	10·00
Jullundur-Kapurthala (British Section) North Western railway	7	2·00
Khushalgarh-Kohat Conversion and Indus Bridge, ditto	33	9·38
TOTAL	707	91·38

5 Besides these lines, arrangements have been concluded for the construction of the following railways by private enterprise not directly guaranteed or otherwise aided by the State —

Railway	Gauge.	Length.	Approximate cost in lakhs.
Ludhiana-Ferozepur-McLeodganj, Southern Punjab railway	5' 6"	163·06	87·19
Gainsari-Jarwar branch, Bengal and North-Western rly.	3' 3⅜"	12·56	3·07
Gorakhpur-Bagaha Extension, ditto ditto	3' 3⅜"	60·94	24·83
Kopaganj-Dohrighat, ditto ditto	3' 3⅜"	21·70	6·43
Uska Bazar-Tulsipur Extension, ditto ditto	3' 3⅜"	53·54	23·83
Bareilly-Soron, Rohilkund and Kumaon railway	3' 3⅜"	55·80	55·73
Lalkua-Kashipur, ditto ditto	3' 3⅜"	40 00	10·00
Moradabad-Ramnagar, ditto ditto	3' 3⅜"	47 00	16·00
Barasat-Basirhat Tramway	2' 6"	26·00	9·50
Pandharpur and Tadwala Extensions, Barsi Light rly.	2' 6"	57·37	31 49
Tuna-Bundar Anjar Extension, Cutch State railway	2' 6"	11·86	2·31
Moharbanj State railway	2' 6"	28·50	6·60
Sabalgarh-Sheopur Extension, Gwalior Light railway	2' 6"	69·00	19·10
Matheran Light Tramway	2' 0"	12·00	10·00

and negotiations are in progress, which we hope will result in the early construction of the following in a similar manner:—

Railway.	Length in miles	Gauge.	Estimated cost
			Rs.
Amritsar-Pati, North Western railway	27	5' 6"	13,39,000
Mymensingh-Bara Ari with a branch to Gauripur, Eastern Bengal State railway	36½	3' 3⅜"	22,15,812
Bezwada-Masulipatam, Southern Mahratta railway	50	3' 3⅜"	27,89,406
Guntur-Repalle, ditto	38	3' 3⅜"	17,33,687
Kurnool Road-Kurnool, ditto	32	3' 3⅜"	7,11,000
Phirangipuram-Gurzala, ditto	50¾	3' 3⅜"	12,59,641
Rawalpindi-Murree with extensions to Kuldana and Gharial, North Western railway	50	2' 6"	41,34,077
Singhjani-Nalitabari, Eastern Bengal State railway	25	2' 6"	12,38,886

6. Towards the close of the current year we have been approached by the owners of the following lines, *viz.*:—

	Gauge	Length in miles
Segaulie-Raksaul railway, Bengal and North-Western railway	3' 3⅜"	18·09
Brahmaputra-Sultanpur railway, Eastern Bengal State railway	3' 3⅜"	59·37
Cooch Behar State railway, Eastern Bengal State railway	2' 6"	33·60
Ranaghat-Krishnagar Light railway, ditto	2' 6"	20·25

with a view to the purchase of the lines by the State, and, after consideration of the value of each as a commercial undertaking, Government propose to purchase them at an aggregate cost of about 60 lakhs. It is expected that the transactions will shortly be completed. The purchase of the last named line is, of course, a result of the construction of the new Ranaghat-Murshidabad line in its neighbourhood, but as regards the rest, it seems somewhat disappointing that after all the endeavours made with the intention of encouraging landowners and capitalists to embark in railway enterprise in India, the owners of the first two lines should consider it better to sell than to wait for the development of traffic which must in time make those lines remunerative investments

7. This incident, and the fact that but few offers have been received for concessions on branch line or rebate terms, clearly show that, in the present state of the market, money cannot be attracted for railway enterprise in India except by a firm guarantee of a minimum interest at least as high as is paid on direct Government loans, or unless the promoters can be assured of a much higher rate of profit than Indian railways as a rule are likely to earn during the first few years after opening This matter has been dealt with by Mr. T. Robertson in his report on the working of Indian railways, and his remarks are receiving the careful consideration of this Government and of the Secretary of State, but it will probably be some time before a conclusion can be arrived at.

8. It is satisfactory to observe that there are indications that the offer made by the Government of India to encourage Local Boards to finance light railways in their own districts by advancing them money on the security of their entire resources is likely to be availed of by the District Board, Kistna, for the construction of one or more of the following lines:—

(*a*) Bezwada-Masulipatam,
(*b*) Guntur-Repalle,
(*c*) Phirangipuram Gurzala,

in the event of the promoters who have endeavoured to form a company to construct these lines failing to raise the necessary funds within the time fixed, *vide* Statement C.

9. At the beginning of the official year 1903-1904, there were 26,308 miles of railway open for traffic and 2,650 miles under construction. Since then and up to the date

of going to press 738 miles have been added to the former figure, and before the end of this month an addition of 100 miles is expected. This will raise the total length of railways open for traffic at the close of the year 1903-1904 to 27,144 miles (*vide* Statement D).

During the current year sanction was accorded to the construction of 1,282 miles of railways, details of which are to be found in Statement D, and there are now 3,044 miles under construction or sanctioned for construction.

10. The railways of India, taken as a whole, for the fourth year in succession show a balance to the credit of the general revenues after paying working expenses, interest charges and payments for annuities in redemption of Capital. The approximate figures for 1903-1904, as compared with the three previous years, are as follows :—

	1900-1901. Lakhs.	1901-1902. Lakhs.	1902-1903. Lakhs.	1903-1904. Lakhs.
Surplus of revenue over expenditure .	48·77	126·99	34·34	128·19

11. Compared with the figures of the previous year the results for the year 1903-1904 show an improvement of 93·85 lakhs. The receipts are more by 195·83 lakhs, the working expenses are higher by 64·29 lakhs, while interest charges, etc., have increased by 37·69 lakhs. In 1902-1903 although there was an improvement in the earnings of certain railways due to the Delhi Durbar, the installation of His Highness the Maharaja of Mysore and certain religious fairs, a considerable falling-off occurred in the earnings of the East Indian, North Western and Rajputana Malwa railways owing to an abnormal depression in the coal trade and in grain and pulse traffic. In the Budget Estimate for 1903-1904 due allowance was made for general improvement in traffic, particularly on the lines that were so backward in the previous year, and the above result shows that although adverse conditions remain much the same on the Rajputana Malwa railway, the improvement has been marked on some of the larger lines, the traffic on which has been exceptionally favourable. The increase in working expenses occurs chiefly on the Great Indian Peninsula railway system and on the Burma, Eastern Bengal State and North Western railways, where largely increased outlay has been necessary on maintenance and renewals of way and rolling stock and on repairs to flood damages. The charges for interest, etc., rise with the steadily increasing expenditure on Capital account, but this increase is more than covered by the increase in profits above quoted. The large surpluses of the last four years are full of encouragement for the construction of carefully selected extensions and projects in the future.

A. T. ARUNDEL.

CALCUTTA,
The 23rd March 1904.

STATEMENT A IN APPENDIX III

STATEMENT

OF

Anticipated Capital Expenditure on Railways, Open or under Construction, for the year 1904-1905.

Branch lines under Rebate terms are excluded.

18	Jullundur-Hoshiarpur . . .	24	14,10,000	Negotiations pending.
19	Kangra Valley	90	59,35,000	Negotiations closed owing to the promoters' inability to form a company on the terms offered.
20	Rawalpindi-Murree with extensions to Kuldana and Gharial . .	50	41,34,000	Negotiations in progress.
	Rajputana—			
21	Bayan-Ajmere-Marwar . .	213	1,36,67,000	Proposals rejected owing to the promoters' requiring a firm guarantee in sterling.

STATEMENT D IN APPENDIX III.

Memorandum on the construction of Railways.

At the commencement of 1903-1904, *i.e.*, on the 1st April 1903, the total length of railways open for traffic was 26,307 72 miles, made up as follows :—

		Miles.	Miles.
5' 6" gauge—			
(i)	State lines worked by companies	6,751'51	
(ii)	State lines worked by the State	4,418'16	
(iii)	Guaranteed companies	1,348'78	
(iv)	Assisted companies	875'47	
(v)	Lines owned by native states and worked by companies	709'93	
(vi)	Lines owned by native states and worked by state railway agency	201 63	
			14,305'48
3' 3⅜" gauge—			
(vii)	State lines worked by companies	7,994'50	
(viii)	State lines worked by the State	700'76	
(ix)	Assisted companies	500 67	
(x)	Lines owned by native states and worked by companies	712'58	
(xi)	Lines owned and worked by native states	1,223'04	
(xii)	Foreign lines	73'61	
			11,205,16‡
Special (2' 6" and 2' 0") gauges—			
(xiii)	State lines worked by companies	56'24	
(xiv)	State lines worked by the State	106'13	
(xv)	Assisted companies	239 76	
(xvi)	Lines owned by native states and worked by companies	266'99	
(xvii)	Lines owned by native states and worked by state railway agency	33'60	
(xviii)	Lines owned and worked by native states	94'36	
			797 08
	TOTAL		26,307 72

		Miles.	Miles

	Rajpipla (2' 6")	(c) 37'37	
	Parlakimedi Light (2' 6")	(y) 24 68	
	Gwalior Light (2' 0")	(b) 126 14	
(xvii)	Cooch Behar (2' 6")		(r) 33 60
(xviii)	Morvi (2' 6")		94 36

(a) Although for convenience classed amongst State railways, this line is the property of the Bengal Central Railway Company

(b) Worked by the Great Indian Peninsula Railway Company.

(c) Worked by the Bombay, Baroda and Central India Railway Company.

(d) Worked by His Highness the Nizam's Guaranteed State Railways Company.

(e) Worked by the Madras Railway Company.

(f) Including 2'66 miles laid on a mixed (5' 6" and 3' 3⅜") gauge, and 0 31 mile on the 3' 3⅜" gauge.

(g) Including 3 63 miles of military line not used for public traffic

(h) Including 26'28 miles of mixed (5' 6" and 3' 3⅜") gauge between Kot Kapura and Bhatinda, worked over by the North Western State and Rajputana-Malwa railways.

(i) Worked by the East Indian Railway Company.

(j) Worked by the North Western State railway

(k) Worked by the Oudh and Rohilkhand State railway.

* Includes the Viramgam-Wadhwan section, 39'23 miles, converted from the 3' 6" gauge to the 3' 3⅜" gauge on 14th December 1902

† The line was purchased by Government with effect from the 1st January 1903.

‡ Excludes 39'23 miles of the Viramgam-Wadhwan section converted from the 5' 6" gauge to the 3' 3⅜" gauge on the 14th December 1902.

(l) Although for convenience classed amongst State railways, this line is the property of the Bengal and North Western Railway Company

(m) Including 2 10 miles at Ujjain and 3 07 miles between Jumna East Bank and Agra Cantonment, laid on the 5' 6" gauge.

(n) Worked by the Southern Mahratta Railway Company.

(o) Worked by the South Indian Railway Company

(p) Worked by the Jodhpur Bikaner railway

(q) Excluding 3 66 miles of the Lucknow-Bareilly railway between Daliganj and Aishbagh, but including the length, Bara Banki to Burhwal, 16 79 miles and the length over the Cawnpore bridge, 0 59 mile, laid on a mixed gauge

(r) Worked by the Eastern Bengal State railway

(s) Worked by the Assam Railways and Trading Company.

(t) Worked by the Bengal and North-Western Railway Company

(u) Including 4 87 miles of Bhávnagar Dock estates and Junágad quarry lines

(v) Worked by the Bhávnagar-Gondal Junágad Porbandar railway.

(w) Including 3 99 miles of Bedi Bundar Dock estate siding

(x) Worked by the Rohilkund and Kumaon Railway Company.

(y) Worked by the Bengal-Nágpur Railway Company

§ Classed as a State railway in consequence of the lease in perpetuity of the Assigned Districts of Berar to the British Government with effect from the 1st October 1902, and treated as an integral part of the Great Indian Peninsula railway undertaking as from the 1st January 1903.

And, the mileage under construction or sanctioned for construction on the same date was 2,649·70 miles, as follows:—

	Miles.	Miles.
5′ 6″ gauge—		
(i) State lines worked by companies	441·92	
(ii) State lines worked by the State . . .	303·95	
(iii) Guaranteed companies .	61·07	
		806·94
3′ 3⅜″ gauge—		
(iv) State lines worked by companies	613·33	
(v) State lines worked by the State . . .	151·62	
(vi) Assisted companies . .	53·29	
(vii) Lines owned by native states and worked by companies	70·15	
(viii) Lines owned and worked by native states . .	72·85	
		961 24
Special (2′ 6″ and 2′ 0″) gauges—		
(ix) State lines worked by companies	297·50	
(x) State lines worked by the State . . .	62·03	
(xi) Assisted companies . .	394·62	
(xii) Lines owned by native states and worked by companies	127·37	
		881·52
TOTAL .		2,649 70

There was thus a grand total of railways completed and in hand, on the 1st April 1903, of miles . . 28,957·42
